MRS. HARRIS

6.7.38.

I scent stomach trouble.
I feel vomiting.
A gastric ulcer.
An operation should have been performed in time.
No question of operation was ever raised.
Bowels were penetrated and remedies were too late.
The boy is not unhappy.
His father died about six years ago.
His mother has a sad time.
I can see the sea from your house.
I am on my way now to Bombay.
I am a male and of your colour.
I am Persian, Egyptian - born in Egypt and
educated in Persia.
The father of the boy died of haemorrhage.
He is now with the boy.
They both send you their love.
They have come here together.
They are now here with you.
I can see the sea from where you live.
~~The boy could not have been saved by any means.~~
The trouble had been there for some time.
He never complained of pain and therefore you did
not find it out.
I am seeing inside the boy's stomach.
I see several small ulcers - gastric in their nature.
The bowels had stopped working.
There was a blockage caused by ulceration which had
commenced a year before he died.
The ulcers burst and penetrated the bowels, causing
poisoning, peritonitis.
He died of that poisoning and septicaemia.
The mother thought more medical help would save him
but it was no use.
Nothing could have saved him because there was blood-
poisoning.
The Doctor is not responsible in any way.
The abscess was dormant and became painful at the
last stage.
Then it was too late for the Doctor.
He says do not be unhappy.
The father and son are both together.
One child is left with the mother.
The other has gone with the father.
I see your own father in spirit there.

Your mother is also there.
A lady with an M in her name is there also.
She is a brother in spirit.
She is greeting you.
She has gone before you.
She is a small lady - round in face, dark hair,
beautiful teeth; small hands, sparkling eyes, veil
on her hair.
She draws my attention to a mark on her forehead.
It is most important she says.
It is a small spot right in the forehead.
The lady died suffering in stomach liver and
abdominal troubles.
She had a quick exit - heart failure.
She was surprised when she awoke in the Spirit World.
She was looking very sweet after death.
Her daughter has got her rings.
She is glad that they were given to her daughter.
Thye have had to be shortened in order to fit the
daughter.

Her arm is now surrounding the boy.
She is with him.
He cannot be lonely with her and his father.
She says he is not unhappy.
They are in perfect happiness.
His mother's ambition was that he should learn.
He was thinking of coming to London to learn more.
He is now coming with you to London.
The lady talks of her birthday which will soon come
in October.
Do not forget the date.
The boy's clothes are with the mother, carefully put
away.
I can smell the odour of sandal wood.
The boy also has two photographs. The one is large,
the other smaller.
His mother often cries over them.
He had a bicycle also.
He has a bicycle now in the Spirit World.
You left home a month ago.
You have some ear trouble.
I give you a receipt. the Doctors
Syringe your ears to clear out the catarrh.
After a while it returns.
Take a remedy which I give you.
We do not agree with the opinion of your Doctors.
Take equal quantities of pure glycerine and either
olive oil or almond oil - a tablespoon of it.
They will not easily mix.
Therefore put them in a table jug, which will help

them mix after ^{healing} ~~mixing~~ a little.
Take a littel medicated wool dip it into the mixed oil, lie it in your ear after properly saturating it when you go to bed.
During the night the oils will penetrate the ear channels and dissolve the wax, which is causing all the trouble.
Glycerine will heal inflammation of the drum.
Next day take out the wool and repeat this every night until you feel better.
Take a little of this mixture rubbing it in the pit of the earm massage it with the oil.
Contine this treatment as often as necessary.
The whole trouble is caused by catarrh.
Do not wash out or distort your drum.
Wool out in lodges in the ear-drum and increases catarrh.
There is no disease in the ear.
Sniff salt water in your nostrils by scooping it in your hands and smelling it.
Bicarbonat of soda is no use.
I want you to try t is method.
The boy did not know that he was passing away.
His mother was away at the time of his death, not near him.
He was, therefore, watched over and tended by nurses and strange people.
He was not conscious that he was dying.
He is not yet developed much in the Spirit World.
His father died quite a young man of 30.
Baba was his pet name.
I cannot get them to speak through me because not being developed theycannot make use of the medium.
The father's body was wasted before he died.
He had a bad cough.
We see symptoms of it.
He says it was very peaceful to die.
He was glad when it was over.
He was concious that he was dying
His malady was such as could not be cured.
It wasted him right away.
It was a happy release.
He wants to be able to use me as an instrument.

- 4 -

It is raining at this moment very hard in your Town
Strong rain - houses are being blown, only your house
is safe.

The boy shows me books.

They are safely placed in a cupboard in the corner in
a recess of the wall.

His mother frequently goes and crie~~s~~ over these books.
She must not do so.

Her grief worries him.

One book in which he has written on all the pages
except the last.

He used to use a fountain pen with coloured marks
on it.

He had some drawings with a sharp pointed pencil or
a compass.

There is a dog at home.

He was fond of it.

The dog has nice ears - light brown colour - fawn as
you call it, with a rough coat.

The breed is funny.

I cannot recognise it.

MRS. FAIRCLOUGH5.7.38.

I have a lot of information about you.
 I see you leading a great movement of popular enthusiasm.
 I see a great many unseen powers helping you.
 They are preparing a forage against opposition.
 I see many adherents crowding round you claiming you as a leader.
 You are on a platform which is growing bigger.
 It has wheels on which it moves.
 The wheels are being heavily greased by unseen powers.
 I see them in front of me.
 Do not feel dejected about this movement.
 It will grow.
 It is being helped by unseen powers.
 Do you know you have a great psychic power?
 Have you ever tried it?
 You can help people by your touch.
 Try it when you have a chance.
 The power is in your fingers.
 You have left it untried.
 Your psychic power is great with you.
 It is lying there unseen.
 I want you to develop it.
 Do so by prayers when you awake in the morning.
 Lying flat at ease - concentrate and meditate and follow your eyes down the other world and gradually your inner voice will awaken and speak to you.
 It will not be long before you do this daily.
 Prayer is the instrument which will give you this power but it must be a true prayer of the heart.
 I do not want you to forget this because it is not modesty to be ignorant of one's powers.

I see stomach trouble in the boy.
 It was wrong to apply hot remedies.
 Ice would have been better - poultices of ice.
 His appendix was bad.
 It was never detected because it was lying infected deep down in the stomach.
 The Doctors could not feel it.
 They could not diagnose the case properly.
 His mother worries a great deal about him.
 Tell her not to do so.
 Her grief makes him unhappy.
 He is carrying on his education there.

- 2 -

He had entered his name in College,
His ambition was to be in London.
He is now in London but on a different mission.
He is with his uncle.
He talks with him.
He protects him and is of great use to him, more
than if alive in this world.
His uncle is very fond of him.
His uncle meets him in spirit and he helps him.
The boy is now studying in College, more sure and
determined than he was in life.
He has a marvellous guide.
He is surrounded by books and papers.
He shows them to me.
His grandmother takes great interest in him.
She tells me to give a message that the boy is with
her and that his mother should not grieve.
The boy's father also is there and you should take
comfort in this fact.

His middle aunt has some difficulties with her family.
Her mother is helping her.
She brings a great deal of help to bear upon her from
the Spirit World.
It is a tussle between two factors.
The father is obstinate.
Her mother is trying to open the eyes of the father,
but obstinancy holds him back.
The aunt's husband has less and less to do with the
father.
The father is unreasonable - heavy like a log.
The wife is obstinate and does not help the father to
see the truth.
The boy's grandmother is using every gentle influence
over the mother-in-law of her daughter, but she is
selfish and wants her own way.
The grandmother is helping and will continue to do so.
The daughter's husband gets a lot of help from the
Spirit World.
His wife's mother is helping him.
The son-in-law's own mother is working along with the
others to do him good.

The last daughter is happily settled.
She and her husband are a very happy couple.

The eldest sister is ^{not} quite happy

- 3 -

She need help.

She looks into the future and worries about it.

Wondering what would happen to her and the children.

"What can I do for them?", she says.

Her surviving son is growing up - so are the other children.

She is therefore anxious about them that they should be put on their feet.

She is not so well in health.

She suffers from head pains.

She needs some healer to give her help.

Ask Ruby to do this.

As for Ruby, ask the Medium what she is and where she sits.

You should get into touch with Ruby.

Ruby's vibrations will cure her.

The boy's mother's head pains are bad and take away a lot of her vitality.

She needs spiritual help.

Let Ruby get Mark to help her.

Ask the Medium who Mark is.

The boy is very happy where he is.

His mother should try to be happy.

The boy is with his father.

He is a very beautiful boy. - very bright eyes, pretty hair, open face, very long and dark eye-lashes.

These go to the mind of the mother every day.

The mother used to be proud of his hair.

After his death his mother stroked his hair.

He knew it.

He wishes to express his gratitude for that action.

The boy says "I love flowers".

"I get them when you say they are dead on earth."

The boy helps his younger brother.

The boy is being shown by a very high guide to help his relations on earth.

He would not have lived whatever you might have done.

You are sure to meet him when you pass over.

Of that I am sure.

After the Seance the Medium was asked who Ruby and Mark were and she said they are Mr. and Mrs. Ridley, residing at Blue Lodge, 3 Northampton Road, East Croyden.

We can get there by taking a bus to Croyden, changing

- 4 -

to a bus which takes you to Ashburton Road -
Wait three minutes and find a street on the same
side as Ashburton Road.

A better plan would be to telephone and ask
Mrs. Ridley how to get there, what bus to take and
where to change etc.

You should tell them about the boy's mother and ask
them to help her with their gentle words.

I have seen them penetrate the walls of silence
going in like a gentle luminiscent current from
the body to the person they wish to help.

I have known this of my own experience in many
cases of my knowledge.

7th July 1938.

Dear Mrs. Mackenzie,

Thank you very much for your letter of yesterday enclosing mine to you. I appreciate all you write. I will make the best use of the information I have been able to obtain, though I would have liked to have got better evidence as to the person I was dealing with. However, one has to be content with what one gets in such matters.

I am seeing Mrs. Dowden on Friday and if necessary will write to you thereafter.

I am very thankful for the assistance you have given me in this matter. I am leaving for India in the middle of next week by air. If necessary I hope you will permit me to write to you from there. My address in Bombay is Malabar Hill, Bombay 6.

Yours sincerely

Dear Mr. Jayakar, I thought you might like to have in your possession the note you wrote to me with Mr. Cooper's introduction, as in it you mentioned the boy who had passed the date and his age this mother's grief. This letter has been kept in my own private desk, & I have only voted it out now. By noting whether you have got additional evidence that no one here could know, you may be able to bring some comfort to your daughter. The one on the other side, with all the love & the best will in the world, may be handicapped too in making communication, and though he could not follow up with the verification you wished, he may have made a genuine attempt. It must be done with the help of our consciousness somewhere, but that does not make it mind reading as ordinarily understood. It is rather that you know

helps him in the contact to remember certain things, while on others that you know perfectly well he is at sea.

I hope the sitting with Mrs Dowden will add to the evidence, and that you may feel it has been worth while to make the attempt to get into touch. Try if you can not be too busy before the sitting on Friday. Quietness on your side is a great help.

Excuse me for writing this, but I feel I should do so. I am (over) sincere.

Dear Madam,

I am enclosing a letter of
introduction
from Mr. Cooper of Bantay.
I called to see you ^{today} at 15 Queen's Gate but
you had gone away & were not expected
till Monday. I shall call again to see
you on Monday at 3.30 in the afternoon,
when I hope to have the pleasure of
meeting you.

In July last year, on the 8th a
young boy of 17th years passed away, in
my family under circumstances of great
& tragic sorrow. His mother is inconsolable
in her grief. I am her father, & have been
doing my best to console her. As I happen

21
to be in London till the 13th of July (morning)
& ~~to~~ we have implicit confidence in the
consoling power of messages received from
the dead. I desire to see you in the hope
that you will kindly arrange for ^{me} a
couple of sances through reliable medium
who will be able to put me into touch
with the deceased. From experiments made
at home, I am convinced that the boy
is anxious to speak to ~~his~~ me & his
loving mother through me, & I am hoping
to carry back with me to India some
messages which will console his mother.
The 8th of July is the anniversary of his
death according to the Christian date &
I am anxious to get into communication with
him before that date. I shall explain further
details to you when I see you personally
on Monday.
Yours truly
Dr R. Jayakar

no Mrs Polak very well.
