

29 DEC 2009

## ADMINISTRATION REPORT, 1894-95.

No. 371 of 1895.

From

H. O. QUIN, ESQUIRE,  
Tálukdári Settlement Officer,  
Gujarát;

To

G. B. REID, ESQUIRE,  
Commissioner, N. D.

*Camp Godhra, 9th August 1895.*

SIR,

I have the honour to submit the following report on the administration of the Tálukdári Settlement Department during the year 1894-95.

2. The office was in charge of Mr. Curtis from August 1st to 11th, of Mr. Gibb from August 12th to 26th, and of Mr. Kabraji from August 27th until the 16th November 1894, when I resumed charge of it on my return from furlough.

3. The extent of my tour was this year interfered with by two circumstances. Owing to my not returning from furlough till the middle of November, I was unable to start travelling till early in December. Also as the revision settlement work of the Gogha Táluka was proceeding in my office and as it was necessary for me to make some camps in that táluka and to be within reach of the Tálukdars concerned, of whom many enquiries had to be made, I moved to Gogha at an earlier date than usual, and thus had to cut short my tour in other parts of my charge. While at Gogha from the 2nd May to the 14th June, I was acting as Collector of Ahmedabad in addition to my own duties, and was therefore prevented by stress of work from travelling in the táluka quite as much as I should have wished. The Broach District again remained unvisited, owing this time to the Gogha settlement work, and a special effort will be made next year to spend some of the travelling season there. As I have in other years remarked, however, there is very little work in the Broach District which requires constant supervision from me. I visited during the year the Sanand, Viramgam, Dholka, Dhandhuka and Gogha Tálukas of the Ahmedabad District and the Mátar, Mehmabad, Nadiád, Anand, Borsad, and Thásra Tálukas in Kaira as well as the head-quarters of that district.

4. The season of 1894-95 was on the whole not a good one. In Ahmedabad particularly the crops were injured by excessive rain, cotton suffering to the extent of from 8 to 14 annas in the rupee. The rice crop was fair, but wheat was damaged by excessive moisture and the outturn was poor, the crop being estimated at from 8 to 12 annas only. Jowár and bájri were also deficient. In Kaira the season was an average one, but in Broach it was not good. There was too much rain for the cotton and the wheat, which latter crop suffered very considerably in quality, though the quantity was not much below the average.

5. The following table shows the total number and revenue of estates of all descriptions under management, and of the Tálukdári villages in Ahmedabad under revenue charge in the year under report and the preceding year. The different classes of estates shown in the table are noticed separately below:—

	Number.		Aggregate Revenue for Collection.	
	1893-94.	1894-95.	1893-94.	1894-95.
Ahmedabad Talukdars under Act VI of 1862, Appendix I ...	57	54	Rs. 71,313	Rs. 71,010
Ahmedabad Talukdars removed from Act VI of 1862, but continued under management, Appendix Ia ...	5	4		
Kaira Thakors under Act XXI of 1881, Appendix II ...	38	34	66,097	61,994
Broach Thakors under Act XXI of 1881, Appendix III ...	5	4	21,128	19,666
Minors' estates under Guardians and Wards Act VIII of 1890 ...	53	34	92,240	1,23,347
Miscellaneous estates managed by agreement of owners and under Act VI of 1888 ...	23	25	83,467	84,196
Estates managed under attachment for default &c., Section 144, Land Revenue Code ...	10	12	74,462	79,478
Estates—				
(a) Managed under Section 320 of Civil Procedure Code ...	308	312	1,01,067	97,299
(b) Under process of sale ...	51	66	...	...
Estates managed under Section 504, Civil Procedure Code ...	5	7	5,931	5,952
Total ...	555	552	5,15,705	5,42,942
Amount realized by sale under decrees ...	...	...	893	5,756
Talukdari villages under revenue charge ...	357	357	3,82,585	3,83,069

## ENCUMBERED ESTATES IN AHMEDABAD.

6. The number of estates managed under Act VI of 1862 was 54 at the end of 1893-94. During the year under report three have been released, their debts having been paid off, and one (that of Dhanra Virsal) has been removed from the operation of the Act but kept under Government management. The number still under the operation of the Act is therefore 50.

7. One estate, that of Dhanraj Virsal of Samadhiāla, was released from management under the Act owing to the expiration of the term of 20 years, but remains under this office on account of debts due to Government. The balance unpaid amounts to Rs. 239. Other estates in a similar position are three in number and their aggregate debt is Rs. 6,443.

8. Of the estates at present under management as shown in Appendices I and Ia,

- 24 are managed directly by this office.
- 26 by the Talukdars, and
- 4 by creditors under special arrangement.

9. The advances sanctioned in Government Resolution No. 1750, dated 2nd March 1895, to pay off the creditors of the following estates of Aniali Kasbati and Bubavay have been drawn from the Treasury and distributed amongst the creditors:—

	Rs.
Kanubhai Pirbhai ...	4,629
Chandrasing Amiji ...	2,607
Dadubha Narsingji ...	1,684
Motaji Bhagwanji ...	1,156
Bapubhai Dadasaheb ...	1,045
Bapusaheb Jonaji ...	3,732
Murcha Sultan ...	887
	<hr/> 15,440

10. The financial position of all the encumbered estates in the Ahmedabad District is shown in Appendices I and IA. An abstract of these statements is contained in Appendix IV, from which it will be seen that Rs. 30,237 were paid during the year under report to private creditors and Rs. 19,012 to Government, and that a sum of Rs. 2,25,873 remains to be liquidated, of which Rs. 73,241 are due to private creditors and Rs. 1,52,632 to Government.

11. The payments made on account of debt settlement during the year under report and those made during the previous year are shown together for comparison in the following table :—

	1893-94.	1894-95.
	Rs.	Rs.
Total debt outstanding at the commencement of the year ...	2,68,775	2,52,152*
Added during the year ...	.....	1,336
	2,68,775	2,53,488
Paid during the year—		
Towards reduction of debt ...	16,602	27,615
Towards interest on loans ...	7,783	6,194
	24,385	33,809
Balance ...	2,52,173	2,25,873

12. The average payment for the year under report is 13.4 per cent of the total sum due and the reduction of debt is 10.9 per cent of the same. The corresponding percentages last year were 9 and 6.1. The results of this year may therefore be regarded as on the whole satisfactory, though the increase in the percentages is due largely to the payments made by one group of estates only. As reported last year, an error was then discovered in the accounts of the Aniali Kasbati estates, and in consequence of it nothing was paid on behalf of these estates in 1893-94. A double payment has now been made during the year under report.

13. At the end of last year 33 of the estates under management were indebted to Government. During the year under report, two estates, those of Abhesing Mahomedmia of Keria and Takhatsing Bhavabhai of Khokharnesh, have liquidated their debts. For seven of the Aniali Kasbati estates advances have been taken from the Government Treasury. The number of estates owing money to Government at present is therefore 38. Of these, four are no longer under the operation of Act VI of 1862.

14. I regret to have to report that the affairs of the Makhiav estate have experienced no improvement during the year under report. Owing to the expenses of the litigation in which the minor Thakor Devisingji is involved in connection with the succession to the Gangad estate, and to the fact that it was found absolutely necessary to repair at a considerable cost a portion of the Darbar residence, there has been no spare income to devote to works such as the embankment alluded to in my report last year. This is much to be regretted, as there is no doubt that the productive power of the estate is capable of increase if only the necessary capital were obtainable. There was no surplus available even for payment in liquidation of the debt to Government, which now stands at Rs. 41,693. This amount has increased since last year by Rs. 1,994, which is the interest for the year under report on the debt due at the end of 1893-94.

The estates of Bela and Bodana in Dhandhuka continue in a very unsatisfactory condition. In Bodana there is a large debt still due to creditors, though only two years are wanting to complete the term of 20, after which the estate has to be released from management under Act VI of 1862. In this case

\* The difference between this and that shown last year is owing to correction made in the accounts by the Accountant General.

it may perhaps be found necessary, in order to prevent grave injustice to the creditors, to arrange for a sale of a portion of the estate under Section 11 of the said Act. In Bela the debt is due to Government, and the attachment will be continued as is usual in such cases until the amount due has been liquidated in full. Both these villages are owned by Chárans who earn part of their livelihood as beggars and who are therefore wholly unsuited to the work of agriculture. No payment has this year been made on behalf of three of the Khókharnesh estates as the income was not sufficient. The estates in Virangám are making fair progress. In one estate of Sinaj-Kánpura, the amount of debt paid off during the year appears small, but this short payment is due to the facts that Rs. 500 were given to the owners of the estates for the purchase of bullocks &c., and Rs. 500, which were available for distribution amongst the creditors, were not taken by them during the year. The amount will be paid to them next month.

16. In my last year's report it was stated (paragraph 17) that the Kasbáti Latifkhan of Dholka was about to submit a representation to Government pointing out that he is a Talukdár proper and not a mere lease-holding Kasbáti, and praying that he should not be granted a lease, but should be treated in the same way as the Talukdárs. This representation was submitted through me during the year under report, and the matter is now or shortly will be under the consideration of Government. Latifkhan's estate has paid off all its debts save some *chowth* due to Girássiás of Návda, and will be released from management probably next year. It will then have an unencumbered income of about Rs. 5,500 per annum.

#### ENCUMBERED ESTATES IN KAIRA.

17. At the end of last year there were 34 of these estates under management. The six noted in the margin have been released during the year under report and 28 estates therefore still remain under management. The estate of Alwa is held on a political tenure and there are disputes between the sharers:

Jamiet Raju of Alwa.  
Sahebsing Karnabhai of Nápad.  
Ratansing Jijibhai of Kaira.

Partapsing Madhavsing of Bhetasi.  
Amir Amthu of Wadad.  
Nanumia Abadmia of Páli.

18. Statement II shows the financial position of each of the 34 estates. An abstract of it is given in Schedule IV, from which it will be seen that Rs. 771 were paid to private creditors and Rs. 15,721 to Government, and that a sum of Rs. 1,25,417 remains unpaid, of which Rs. 5,305 are due to private creditors and Rs. 1,20,112 to Government.

19. The payments made on account of debt settlement during the year under report compare with those of the previous year as shown in the following table:—

	1893-94.	1894-95.
	Rs.	Rs.
Total debt outstanding at the commencement of the year	1,57,352	1,35,628
Added during the year	.....	.....
	1,57,352	1,35,628
Paid during the year—		
Towards reduction of debt	21,729	10,206
Towards interest on loan	6,907	6,286
	28,626	16,492
Balance	1,35,623	1,25,417

20. The average payment for the year under report is 12.16 per cent of the amount due at the commencement of the year and the percentage of debt reduction is 7.5. These figures compare unsatisfactorily with those of last year,

which were 18.1 and 13.8 respectively. This is due to the fact that in 1893-94 large payments were made on account of some of the estates which were released at the end of that year, while during the year under report no such large amounts have been paid on behalf of any of the Kaira estates. Also from the revenues of two or three of the estates, certain sums were granted with the sanction of the Commissioner, Northern Division, for marriages and other special expenditure. Looking, however, to the amounts paid by each estate towards the liquidation of its debts the results of the year's management are very similar to those of last year.

21. The condition of Salol remains the same, and its prospects are, I fear, hopeless. Nothing can be done to improve it. During the year under report the two Salol estates together made payment of Rs. 166 only towards the reduction of their debt of Rs. 4,290.

#### ENCUMBERED ESTATES IN BROACH.

22. The number of estates under management under Act XXI of 1881 in the Broach District was at the commencement of the year under report four, and this number remained unchanged during the year. The financial position of each of the estates is given in Appendix III, and Appendix IV contains an abstract from this statement which shows that during the year Rs. 4,775 were paid to private creditors and Rs. 1,650 to Government. A sum of Rs. 25,810 remains due, Rs. 20,077 to private creditors and Rs. 5,733 to Government.

23. The payments made on account of the debt settlement during the year compare with those of the previous year as follows :—

	1893-94.	1894-95.
	Rs.	Rs.
Total debt outstanding at the commencement of the year ...	38,568	31,896
Added during the year ...	.....	.....
	38,568	31,896
Paid during the year—		
Towards reduction of debt ...	6,672	6,086
Towards interest on loans ...	484	339
	7,156	6,425
Balance ...	31,896	25,810

24. The average payment for the year under report is 20 per cent of the sum due at the beginning of the year, while the debt has been reduced by 19 per cent. The corresponding figures of last year were 18.5 and 17.3. These results may, I think, be regarded as satisfactory, more especially in view of the fact that the season in the Broach District was far from favourable. The estates are all making steady progress towards freedom from debt.

#### MINORS' ESTATES.

25. At the close of 1893-94 there were 48 minors' estates under management. During the year under report four estates have been released on their owners attaining majority, while two new estates have come under management. These two are the estates of Gopalrao Manohar Inámdár of Dákor and Kasalsing Shivsingji of Baroda in Dholka. The four estates which have been released are shown in the margin. The number of minors' estates now under this office is 46. There is nothing to remark about any of the released estates.

26. Of the two new estates that of Dákor is by far the more important. The minor is the hereditary Inámdár of Dákor Sansthán and manager of the celebrated temple at that place, which is monthly visited by enormous numbers

of worshippers. The minor who lives with his natural father at Sātāra has two estates, one which he holds as manager of the temple and one a private estate. The income of the former during the year under report was Rs. 26,648 and the expenditure (including Rs. 4,102 paid to creditors) was Rs. 19,163. This estate is indebted to the amount of Rs. 22,421, of which Rs. 12,124 are secured against the lands of the Saunsthān. The private estate, which had an income of only Rs. 2,111 during the year under report and expenditure of Rs. 1,975 (including Rs. 1,028 paid to creditors), has a debt of Rs. 63,253, of which Rs. 43,776 are secured against the Inámdār's private lands. Both the estates are therefore in an embarrassed condition and careful management will be needed to restore them to a satisfactory position. I have placed them in the immediate charge of an Upri Kárkún on Rs. 50 (Bábāshi) a month and he has a small staff of clerks and talátis under him. There has been much complicated litigation going on between the manager and the *Shervaks* or Bráhmīns who serve in the temple, and an appeal in one case is now pending in the Privy Council. Many of the disputes were of a trivial nature and due partly to personal ill-feeling between the litigants. Such disputes as these I hope to avoid during the management of this office, and one or two matters have already been settled amicably.

27. The estate of the minor Syed Mohmed Saheb Bawa Mia of Ahmedabad is situated partly in the Ahmedabad District and partly in Junágad. This latter portion, which is by far the more valuable, is not under the management of this office, nor is the income derived from it paid to the Talukdári Settlement Officer. The Junágad State manage the property, and give an allowance to the minor who resides in Ahmedabad, where he studies with a private tutor. The income of the portion of the estate situated in Ahmedabad was during the year under report (including balance in hand at the beginning of the year), Rs. 5,224, and of this, Rs. 3,775 were expended in paying creditors and on the maintenance of the minor's mother. I have recently seen the minor and was pleased with his manner and appearance. I fear though that his personal guardian, who is also his father-in-law, and who resides in Broach, does not exercise over him that supervision which appears to me to be necessary:

28. Great difficulty has been experienced during the year in administering that portion of the estate of Mohan Náthu of Návda which is connected with the money transactions of his father. The account-books were found to be in such confusion and so badly kept that in many cases where it was thought proper to take legal proceedings to recover sums due to the estate the pleader consulted has advised that the suit would be unsuccessful. Several suits have, however, been instituted, and it remains to be seen what their results will be. In order that the work of collecting outstanding dues and instituting the necessary legal proceedings may be properly and thoroughly carried on, the Civil Court has been applied to to appoint a second guardian of the minor's property, whose duty it will be to attend to the money transactions alone leaving to the Mámlatdar and the Taláti their proper work of managing the landed estate. I examined the account-books and papers of the deceased Náthu when at Dhandhuka, and was thereby considerably enlightened as to the methods by which a moneylender of the worst type ruins the unfortunate Talukdars whose ignorance renders them easy victims to his shameless frauds. Of many books two sets were kept, and several items showed the most obvious signs of having been tampered with. Altogether the money dealings of the minor's father appear to have been of the most shady character, and it cannot but be remarked with a certain amount of satisfaction that the old money-dealer's attempts to overreach the poor Talukdár may result in a loss to his son of a considerable portion of the wrongful gains which he expected to amass. The income of the estate during the year under report was Rs. 4,829 from land and Rs. 200 from repayment of loans and interest.

29. No fresh investments of minors' balances in landed property were made during the year as none such were available. Rs. 6,600 have been invested in Government securities, Rs. 2,200 on behalf of Narsingji of Bávaliári and Rs. 4,400 on behalf of the Návda minor.

30. Taking together all the minors' estates under the charge of this office, the total realizations during the year under report amounted to Rs. 1,24,080, as

against Rs. 91,523 in 1893-94. Including the balances in hand at the beginning of the year the figures are Rs. 3,63,890 and Rs. 3,36,241. Out of the year's revenues Rs. 93,642 were expended in paying the Government demand with maintenance and other charges, while Rs. 13,741 were paid to creditors. Rs. 16,617 have been carried over as surplus balance. The total amount now invested in Government securities is Rs. 45,600, and Rs. 1,56,000 are invested in land. There is a cash balance of Rs. 49,250, the greater portion of which will be invested without delay.

31. Under the orders contained in Government Resolution No. 4367, dated the 11th June last, the Talukdari Settlement Officer has been given the powers of a Collector under Act VIII of 1890 with respect to minor Talukdars of the Ahmedabad, Kaira, and Broach Districts. These powers were asked for specially with reference to the Dákor estate, which is the only one of which the Talukdari Settlement Officer himself is the guardian, but this estate is not Talukdari and hence does not come within the scope of the Resolution.

#### ESTATES UNDER SECTIONS 320 AND 504, CIVIL PROCEDURE CODE.

32. The number of estates under management in accordance with the provisions of Section 320, Civil Procedure Code, at the beginning of the year under report was 308, as against 294 at the beginning of 1893-94. During the year 33 have been released from attachment, and 37 fresh ones have come under the control of the office, leaving the present total at 312.

33. At the close of last year five estates were under attachment under Section 504, Civil Procedure Code. During the year under report two estates have been newly attached, so the total number now under control of this office under this section is seven.

34. There is nothing fresh to report concerning the Bhankoda estate. The dispute which existed amongst the sharers has been settled so far as the arrangement of terms is concerned. One party, however, has up to date declined to pay to the other the money specified in the conditions of agreement and matters continue therefore at a dead-lock. Rather more than half of the estate is under attachment in execution of decrees of the Civil Court. The income of this portion of the estate during the year under report was Rs. 8,950 and there was a balance at the beginning of the year of Rs. 6,725, total Rs. 15,675. The expenditure amounted to Rs. 10,404, which sum includes Rs. 5,600 paid to creditors.

35. The suit regarding the succession to the Gángad estate is still pending and has made but little progress during the year under report. This was the first year of the revenues of the whole estate (except two small wántas) being collected on the *Bighoti* system instead of on that of crop shares. It is as yet too soon to come to any conclusion as to the success which will result from the change, but the figures for the first year are not unsatisfactory. In 1893-94, under the crop-share system the estimated income was Rs. 46,578, while this year at *Bighoti* rates the corresponding amount was Rs. 48,995. This shows an increase of about Rs. 2,400 in realizable income under the new system as compared with the old. It must, however, be remembered that under the old crop share system the sum to be collected varied very much from year to year, so that but little weight should be attached to the figures for one year. The amount actually realized this year was Rs. 45,496 in addition to some Rs. 6,300 arrears of previous years. The sum realized in 1893-94 was only Rs. 39,625, so that on the whole there is no reason to be dissatisfied with the results of the present year's management, and there can be no doubt that as soon as the cultivators become accustomed to the new system, it will be far better for the estate than the old one. A little time is needed and allowance must be made for this. Every effort will be made to increase the area under cultivation. The expenditure of the estate during the year under report amounted to Rs. 47,100. There was a balance in hand at the beginning of the year of Rs. 8,600, which together with the year's income of Rs. 45,496 and the arrears of previous years amounting to about Rs. 6,300, made up a sum sufficient to meet the expenditure and leave a balance of Rs. 13,000, out of which the sum of Rs. 7,000 to be paid to the unsecured creditors will be taken after the necessary procedure has been gone through in

the Civil Court. The chief items of expenditure were the *jama* and Local Fund (Rs. 21,500), establishment charges (Rs. 5,980), payments to creditors (Rs. 9,765), and miscellaneous charges connected with the Sial Bávli appeal and with litigation in connection with a bungalow belonging to the estate in the city of Ahmedabad. The balance available at the end of the year under report for distribution amongst the creditors of the Gángad estate was Rs. 15,000, of which Rs. 8,000 has been paid to the secured and Rs. 7,000 will be paid to those unsecured. These figures are more satisfactory than those of last year when the secured creditors received Rs. 5,000 only and the unsecured nothing.

36. The question of the settlement of the Gángad debts which now amounts to about Rs. 2,59,000, has not, I regret to have to report, made any real progress during the year. With a view to increasing the sale value of the Bávla Wánta I induced the secured creditors to execute an agreement to the effect that if the sum realised at the auction were paid to them in liquidation of their claims they would waive all further lien on the wánto, so that the purchaser would take it free from encumbrance. The auction was widely advertised and took place in Ahmedabad in April last. Would-be purchasers, who were very few in number, were, however, alarmed at the absence of any Government guarantee as to title, though it is impossible to understand why they should have expected any, and so no price, which could be considered at all reasonable, was offered. The sale was therefore postponed. The real fact of the matter is that no person cares to invest a large sum in purchasing any portion of the Gángad estate while there is still a dispute in the Civil Court as to the succession to it. It is known that in the event of a certain one of the rival claimants being successful, there may be an attempt to repudiate the estate's liability for the debts now being paid off, and under all the circumstances it is not difficult to understand why there should be no great eagerness to effect a purchase which might involve the purchaser himself in complicated litigation. The only way remaining to assist the estate, which is every day becoming more and more heavily burdened as the income does not suffice to pay the interest on the debts, is to raise a loan for the whole amount due at a lower rate of interest than that now charged. I have been endeavouring for a long time to raise this loan, and both Mr. Curtis and Mr. Kabraji who were in charge of the office last year made serious efforts in the matter also. So far we have been unsuccessful. Several offers have been made, but on coming to the details of the terms of the loan it has been found impossible to satisfy the desires of the lender as regards security. I am at present negotiating with a Bombay capitalist for the amount required, but my little success on other equally promising occasions forbids me to hope much from this new attempt.

37. The appeal in the Sial Bávli boundary dispute matters referred to in paragraph 43 of last year's report was submitted to Government in November last, but was returned for re-submission owing to its having been drafted by a barrister. A revised appeal has recently been prepared by me and submitted through the Collector of Ahmedabad. It is hoped that this may receive the favourable consideration of Government, and that orders may be passed at as early a date as possible. Limbdi is said to have already demarcated the disputed area in accordance with Mr. Beaman's decision, notwithstanding continual protests on the part of this office.

#### MISCELLANEOUS ESTATES.

38. At the end of 1893-94 there were 23 estates under this head managed by this office. During the year under report, 5 new estates have come under management and 3 have been released from it. The present total is therefore 25. Of these, 12 are in Ahmedabad, 9 in Kaira, and 4 in Broach. Twenty-one of them are managed under Section 28 of Act VI of 1888, and one under Section 26 of that Act. The estate of the Warsing Girássias still remains under management, though the time originally agreed upon has expired. The Girássias are desirous that the management should be continued, but a legal difficulty has been discovered and the matter has been reported for orders. The five new estates which have come under management are Sigám, Nápa, Bhadla, Cher, and Devlia. The three released are Lolia, Salol, and Kherda. Further reference is made to these estates in paragraph 85 below.

39. The balance in hand of the Chasiana estate amounted at the close of the year under report to Rs. 50,000 in promissory notes and Rs. 10,769 in cash.

An application has been made by Umedsing Sāngābhai, one of the two co-sharers, to have the balance divided between them in the proportions settled by a recent decision of the Assistant Political Agent, Kathiāwār, in a suit relating to property owned by the same parties in the Agency. As an appeal in that case is pending, I have for the present postponed dealing with the application. If both parties agree to follow the Kāthiāwār decision, the dispute regarding Chasiana will be at an end and the estate can be released from attachment.

40. The Chandra Kasbāti's lease has not yet received the sanction of Government, and there appears to be some doubt as to the form in which it should be drawn up. The income of the estate during the year was Rs. 2,392 and the balance in hand Rs. 156, total Rs. 2,548. The expenditure was Rs. 2,459, Rs. 200 have been paid towards liquidation of the debt to Government, the balance of which now due is Rs. 1,266-7-3.

I regret to report that the young Kasbāti to whom I had entrusted the work of Talāti of his own village has proved himself unfit for the post, and has had to be dismissed from it, under circumstances which I have thought it necessary to bring to the notice of the Collector of Kaira.

41. The Sarod estate which is now managed under Section 28 of Act VI of 1888 is in a fairly prosperous condition though the Thākor is rather heavily involved in debt contracted before he succeeded to the estate. The income of the year under report was Rs. 27,039 and there was a balance in hand from the previous year of Rs. 11,716. The expenditure amounted to Rs. 23,146, the chief items being the Government demand, maintenance, and marriage and house expenses. The Thākor has been given permission to raise a loan of Rs. 35,000 on the security of his estate to pay off his debts, but with a balance in hand of some Rs. 12,000, there will not be need for him to borrow such a large amount. The income of the Dehwan estate during the year under report amounted to Rs. 13,897 and the expenditure to Rs. 17,224. Including the balance of the previous year there is now in hand Rs. 5,396. The sum of Rs. 4,201, which is entered as part of the estate's expenditure, was actually an amount written off as irrecoverable. Certain sums outstanding at the time the estate came under management were treated as such in the accounts, but recovery being found impossible they have now been written off. The surplus of expenditure over income during the year under report is therefore only an account matter and the amount collected exceeded the true expenditure by Rs. 874. The sum of Rs. 4,550 were paid to the Thākor for his maintenance and Rs. 2,200 went to his creditors and his younger brother Mānsingji. The appeal of Khumānsingji against the Thākor has been rejected and the litigation between the brothers thus brought to an end.

#### GENERAL ADMINISTRATION OF TALUKDARI VILLAGES IN THE AHMEDABAD DISTRICT.

42. There are 357 Talukdāri villages in Ahmedabad under the revenue charge of this office, and their *jama* inclusive of Local Fund cess amounts to Rs. 3,88,049, of which Rs. 29,426 is on account of the cess. In all the talukas except Dhandhuka and Dholka the whole amount has been collected. In Dhandhuka some Rs. 4,461 are outstanding and in Dholka Rs. 519. The explanation of these arrears in Dholka is to be found in the unfavourable nature of the season. The Talukdārs' income has not been sufficient to allow of their meeting the Government demand in full. This year I regret to report that resort has been had in several cases to compulsory processes for collecting the *jama*, a state of affairs not often found in Talukdāri estates. Considering the bad season, the Māmlatdār of Dhandhuka deserves credit for collecting almost in full the *jama* due from so large a number of estates as there are in his taluka.

43. The Dhandhuka arrears amounting to Rs. 4,461 are on account of Nāvda. The income of this village for the year 1893-94, after deducting cost of collection &c., amounted to Rs. 3,587, which sum fell short of the *jama* by Rs. 4,000. That amount has therefore been written off by the Commissioner, N. D., in

accordance with the orders of Government. For the year under report the gross revenue was Rs. 5,158. After the expenses of management, and (if sanctioned by Government in answer to a reference recently made from this office) the *chowth* of the Girássiás have been deducted, there will be a deficit of Rs. 4,461, which will have to be remitted. The gross revenue was somewhat higher than that of the previous year, which was Rs. 4,365.

44. In Dholka the arrears of *jama* are against the Ganol and Chandisar Wánto estates. Both these estates had, I think, been over-assessed. Under the recent orders of Government their *jama* has been reduced from what it was during the year under report, and it is hoped that next year the Tálukdárs will be able to pay in full the sum demanded from them.

45. With reference to the village of Aníali Káthi, I regret to have to report that all the negotiations which were proceeding between the Káthis and the new owner of the village, Sheth Tribhowandas Jádavji of Bombay, have come to nothing. I was for a long time hopeful that an arrangement could be made which would have allowed the Káthis to remain on in the village as what might be called *jivaidárs* of the Sheth, and Mr. Tribhowandas made an offer of land which was quite as liberal as could be expected, and which I urged the Káthis to accept. This however, after promising to take my advice in the matter, they refused to do, and nothing is now left but to let the law take its course. The village has been attached under Section 144 of the Land Revenue Code, with Mr. Tribhowandas' consent, for the security of the Government revenue, and he will probably apply to have it managed under Section 28 of Act VI of 1888 until matters have settled down and there is no further fear of molestation by the Káthis. The peace of the village is receiving the special attention of the Police, and it is hoped that ere long its circumstances will be much improved, though its original owners will have no share in its prosperity.

46. The following table shows the collection and expenditure of the Local Fund in the Tálukdári villages in the Ahmedabad District:—

Name of Táluka.	Amount of Local Fund collected, Rs.	AMOUNT OF LOCAL FUND EXPENDED.		
		Object.	Rs.	Total Rs.
Dholka ... ..	9,285...	Repairs to school-houses ... ..	134	2,367
		Do. to dharamsálás ... ..	584	
		Deepening tanks ... ..	63	
		Construction and repairs to wells ... ..	902	
		Do. of wells with troughs ... ..	734	
Dhandhuka ... ..	12,042...	Repairs to school-houses ... ..	329	2,468
		Do. to dharamsálás ... ..	156	
		Deepening of tanks ... ..	1,983	
Viramgám ... ..	2,711...	Repairs to school-houses ... ..	774	1,844
		Do. to dharamsálás ... ..	18	
		Deepening of tanks ... ..	439	
		Wells and troughs ... ..	613	
Sánand ... ..	3,636...	Repairs to school-houses ... ..	148	939
		Do. to dharamsálás ... ..	58	
		Do. to tanks ... ..	227	
		Do. to tanks and troughs ... ..	506	
Gogha ... ..	1,752...	Repairs to school-houses ... ..	590	1,000
		Do. to dharamsálás ... ..	148	
		Do. to wells ... ..	117	
		Do. to country tracts ... ..	145	
Total ... ..	29,426 ... ..			8,618

47. The collection and expenditure as shown above compare as follows with those of the previous two years:—

Year.	Amount collected from the Villages.	Amount expended in the Villages.	Percentage.
	Rs.	Rs.	Rs.
1892-93 ... ..	26,478	14,139	53.3
1893-94 ... ..	29,426	12,649	42.9
1894-95 ... ..	29,426	8,618	29.3

48. The following table shows the collection and expenditure of the Local Fund in the Talukdāri villages in Kaira:—

Name of Tāluka.	Amount of Local Fund collected, Rs.	AMOUNT OF LOCAL FUND EXPENDED.			
		Object.	Rs.	Total Rs.	
Thāsra ... ..	959 ...	Building wells ... ..	1,471	1,471	
Borsad ... ..	2,443...	Repairs to wells ... ..	327		
		Repairs to roads... ..	51		
		Water Parab ... ..	23		
		Repairs to schools ... ..	67		
Mātar ... ..	892 ..	Repairs to dharamsālās... ..	99	468	
A'nand ... ..	1,579 ...	(None) ... ..	...	99	
Kapadvanj ... ..	137 ...	(None) ... ..	...	...	
Total ... ..	6,010 ...		...	2,038	

49. The collection and expenditure of Local Fund as shewn above for the Kaira District compare as follows with the figures for the previous two years:—

Year.	Amount collected from the Villages.	Amount expended in the Villages.	Percentage.
	Rs.	Rs.	
1892-93 ... ..	6,760	644	9.4
1893-94 ... ..	4,396	3,114	70.8
1894-95 ... ..	6,010	2,038	33.9

50. It is to be regretted that a falling off has again to be noticed in the amount of Local Fund assigned to Talukdāri villages in Ahmedabad, and this notwithstanding the increase in the sum collected from these villages in the Dholka Taluka since the introduction of the revision survey. A Talukdār has been appointed a member of the new District Local Board and the class is represented on all the Taluka Local Boards, so it is hoped that in future there will be no cause for complaint regarding the proportion assigned to Talukdāri villages. The Kaira figures too are unsatisfactory, and it is not understood why no Local Fund money should have been given amongst the many Talukdāri villages in the Anand Taluka. The Collector has been addressed on the subject of securing representation for the Talukdārs on the Local Boards of his district. No large work was undertaken in either Ahmedabad or Kaira.

51. Under the system hitherto in vogue under this office the boundary marks of Talukdāri villages have been inspected by a staff of 7 Karkūns, each of whom has a charge consisting of from 35 to 80 villages. As it appeared to me

impossible that all boundary marks could be properly supervised by these Kárkúns within one year, I have recently issued orders that all Talátis in Talukdári villages should inspect and report on the marks in their own villages in the same way as do the Talátis in Government villages, a boundary mark register being kept amongst the records. This arrangement will I trust ensure the proper up-keep of the marks in those villages where there is a Taláti and will allow of more frequent inspection by the Kárkún in villages where there is none. The subject will receive careful attention during the current year.

52. I visited during the year the taluka offices of Sánand, Viramgám, Dholka, Dhandhuka, and Ghoga in the Ahmedabad District, and those of Mátar, Nadiád, A'nand, Borsad, and Thásra in Kaira. It was found that on the whole the Talukdári accounts were very fairly kept, special improvement being noticeable in Dhandhuka. In Thásra there was considerable confusion as to the method of keeping the accounts, but this has, I hope, been removed by the instructions of my office, and next year there should be no cause for complaint. There is still a tendency in Mámlatdárs' offices to regard Talukdári work as comparatively unimportant, but I have no doubt that this will disappear when the careful examination of the Talukdári Settlement Office is known to be a regular event of the year.

#### EDUCATION OF MINORS.

53. Thákor Sursinghji of Utelia, who is now almost at the head of the Ráj-kumár College, has been very well reported on by the Principal. It is to be regretted that he, as well as two fellow-students from the College, failed during the year under report to pass the Matriculation Examination of the Bombay University. He is, I believe, going up again for it this year, and it is hoped that he will be successful. At the Wadhván Girássia School there were 9 boys during the year under report, which is the same as last year. One boy, the Thákor of Jhánor, left the school last September, and one new boy, son of the Thákor of Kaira, has recently joined. Almost all are progressing favourably in their studies. The same two minors as before continue to reside in the Jubilee Institute and attend schools in Ahmedabad, and are both making satisfactory progress in their studies. The minor Thákor of Jhánor, who has left the Wadhván school during the year under report on account of ill-health, has been provided with a Tutor on Rs. 100 per mensem. The minor, who is 18 years old, will reside in Broach and continue his studies under the immediate supervision of Mr. Kanthária, B.A., who is the gentleman selected to take charge of him.

Mohan Náthu of Návda is still residing in Ahmedabad with an Assistant Master of the Municipal school, which he attends and where his education is progressing satisfactorily.

#### REVISION SURVEY AND SETTLEMENT.

54. Mr. Holland continued to hold the office of Assistant Settlement Officer in charge Talukdári Survey until 19th March 1895, when it was taken by the Deputy Superintendent, Gujarat Revenue Survey. The field work has now all been done and the reports with proposals for maximum rates submitted, except for Prántij and the Panch Maháls. During the year under report these proposals were formulated by the Assistant Settlement Officer for Sánand, Viramgám, and Dhandhuka, as also for the villages of Hariála and Kharenti in the Mátar Taluka of the Kaira District belonging to the Utelia Darbár; and they have all been submitted to Government for sanction. The orders of Government have been received as regards the maximum rates to be imposed on the Talukdárs of Dhandhuka and Sánand, and the Faisal Patrahs for those talukas are now being prepared. Proposals for the maximum rates for estates in Prántij and the Panch Maháls have yet to be submitted by the Survey Department. By next travelling season I hope the papers will be ready for my *jama* settlement of the estates in Dhandhuka, Sánand, and Viramgám.

55. During the year under report I spent nearly two months in the Gogha Taluka making myself acquainted with the condition of the estates and the circumstances of the Girássias who own them. My proposals for the *jamas* to be levied under the revision settlement have recently been submitted to the Collector of Ahmedabad, and the orders of Government in the matter are awaited.

56. In their Resolution No. 4656 of the 20th June last Government have been pleased, in reply to the petition alluded to in paragraph 67 of last year's report, to modify the orders previously passed regarding the revised *jamas* of the Dholka estates, and very considerably to reduce the amount of the Government demand. These orders will shortly be communicated to the Talukdars concerned and should give them satisfaction.

57. The year under report was the second year of the revised settlement in the Dholka Taluka as sanctioned in Government Resolution No. 8836, dated the 10th November 1892. In the first year 1893-94 the full amount ordered to be levied was collected without resort to compulsory measures being necessary.

Rs.	
539	Gánol.
1,061	Chandisar Wánto.
163	Baroda.
396	Ambáliáli Wánto.
931	Utelia (Lolia Girás-sia's share.)

During this last year, however, attachment has had to be placed on the estates marginally noted owing to the payments of the *jama* being in arrears. The amounts outstanding at the time of attachment was that shown opposite the name of the estate. These amounts have now been realised almost in full. Under the recent orders of Government the *jamas* of the first three of these estates have been reduced below the amounts paid in the last two years and the increase for the remainder of the settlement in Utelia and Ambáliála Wánto makes the amount to be paid but slightly in excess of the sum levied in 1893-94 and 1894-95. It will, I think, be found that the estates are able to pay without pressure the *jamas* recently sanctioned, though those previously settled would undoubtedly have been a heavy burden. The total revenue of the Dholka Talukdári estates (together with that of Latifkhán the Kasbáti) under the last settlement was Rs. 77,830. Under the revised settlement the total will be Rs. 90,436 next year, and will rise, by reason of gradual increments in the case of Latifkhán's estate, to Rs. 91,686 in 1918. Omitting Latifkhán's estate the final *jama* of the new settlement (which is leviable in 1895-96) will be Rs. 80,436, which shows an increase of a little less than 17 per cent over the *jama* of the last settlement.

58. The applications presented by the Thákor of Koth and the Talukdars of Gánol (referred to in paragraph 68 of my last year's report) for the remeasurement of the bhatta lands in their estates have not, I regret to say, been as yet disposed of. After keeping the papers with him for some months the District Inspector, who had been entrusted with the work by the Collector, found himself unable to make the necessary enquiries in the matter as such work does not apparently fall within the sphere of his proper duties. The papers were returned to me, and I am now having the necessary enquiries made by a member of my own establishment. A report will be submitted as soon as the facts have been ascertained.

#### EXECUTION OF DECREES.

59. At the end of 1893-94 there were 804 decrees under execution under section 320 of the Civil Procedure Code. Of these, 591 came from the Courts and 213 were received direct under section 322A. The number received during the year under report was 146 as against 151, 142, and 115 in the three preceding years respectively. The number received direct was 12. The total number under execution during the year was therefore 962, the corresponding number last year being 900.

60. Of the warrants to which these decrees relate :-

676	were dealt with by management.
66	were dealt with by sale.
110	were under enquiry.
110	were returned to the Courts.

962

61. Those returned to the Courts were satisfied as under :—

- 29 by compromise.
- 60 by paying the decretal amount from the judgment debtor's property under management.
- 8 by sale of the crops attached.
- 7 by sale of the property.
- 1 returned under Section 325.
- 2 returned under Section 266.
- 1 returned as there was no property.
- 2 recalled by the Court.

110

62. The following table shows the manner in which the decrees received in each year and those brought over from the previous years have been disposed of during the last three years :—

	1892-93.		1893-94.		1894-95.	
	Number of Decrees.	Amount.	Number of Decrees.	Amount.	Number of Decrees.	Amount.
		Rs.		Rs.		Rs.
Returned after disposal by compromise &c. ... ..	98	76,708	96	67,597	110	77,002
Under payment by instalments from revenue of estates under management ... ..	619	7,21,379	657	8,60,678	676	9,11,181
Under process of sale ... ..	87	96,254	52	46,676	66	1,12,095
Under enquiry ... ..	63	86,634	95	1,11,516	110	1,37,151
	867	9,80,975	900	10,86,467	962	12,37,519
Amount paid to creditors direct or through the Civil Courts...	...	76,400	...	70,507	...	79,110

63. It will be seen that the amount paid to creditors during the year under report is absolutely larger than that paid in the previous year, but considered relatively to the sum which has to be liquidated the proportion is slightly less, the percentage being 6·3 as against 7·7 and 6·5 in 1892-93 and 1893-94 respectively. This result would be unsatisfactory were it not explained by the nature of the season which has just passed.

64. The amount realized from the management of the estates under attachment in execution of decrees and sent to the Civil Courts in the year under report was Rs. 64,789 as against Rs. 68,588 in 1893-94. Six estates or portions of estates were sold in execution of decrees passed against specific property before the coming into force of Act VI of 1888.

#### SUITS.

65. Twenty-five original suits and appeals were pending at the beginning of the year under report. Fifteen new suits were instituted during the year, making a total of 40. Of this number 16 were finally decided. Of them 6 were in favour of this Department and 9 in favour of the plaintiffs—one, the case alluded to in paragraph 66 below, being compromised. Of those decided against the Department none was of any importance. They were mostly for money claims against minors for the debts contracted by the deceased fathers and the decrees were granted against the property of the deceased and not against the estate. The most important of the suits filed during the year but not yet decided is that in which a collateral relation of the late Thákór of Mátar claims the estate on the ground that the present holder, who is a minor under the guardianship of the Collector of Broach, is a spurious child. The Wala Thákór has obtained the permission of the High Court to appeal to the Privy Council in the treasure trove case which has been alluded to in a previous report.

66. The appeal in the High Court in the matter of the Sānand *wānta* village site was decided early in the year under report by a compromise which was sanctioned by Government in their Resolution No. 7464, dated 7th September 1894. According to the terms of this a large portion of the village site is to be considered the property of the Thākor of Sānand and Koth. The actual demarcation of the *wānta* has not yet been carried out, but I understand it is being taken in hand by the Assistant Collector in charge of the Sānand Taluka.

67. The following figures shew the expenses incurred by the estates during the year under report on account of litigation :—

		Rs.	a.	p.
Total expenditure incurred	...	697	12	10
Recovered from plaintiffs	...	60	2	11
Net cost to estates	...	637	9	11

### FINANCIAL REVIEW.

68. The following abstract gives at one view the financial results of the management of the estates for the year under report :—

	Number of Estates.	Gross income including previous year's outstanding balances.	Total revenue realized including past year's balance in hand.	CHARGES OF ALL KINDS.						Paid to creditors.	Balance in hand at the close of the year.	Outstanding balances written off.	Outstanding balances at the close of the year.
				Government dues.	Collection &c. charges in the Talukas.	Talukdār Settlement Officer and Establishment charges.	Maintenance, Education and other expenses of Talukdars.	Miscellaneous.	Total.				
Estates under Encumbered Estates Acts...	86	Rs. 1,65,895	Rs. 1,97,801	Rs. 38,445	Rs. 9,481	Rs. 4,285	Rs. 29,459	Rs. 2,065	Rs. 81,745	Rs. 57,085	Rs. 58,971	Rs. 8,435	Rs. 17,766
All other Estates under management	400	4,55,835	7,93,862	1,11,760	23,296	10,272	84,937	5,381	2,35,646	81,461	4,76,755	16,428	64,307
Total	486	6,21,730	9,91,663	1,48,205	32,777	14,557	1,14,396	7,446	3,17,391	1,38,546	6,35,726	24,863	82,163

The details of this abstract will be found in Appendix V.

69. The percentages of collection, remission, and outstanding balances to the total realizable revenue of the estates under management for the year under report and the previous two years are shown in the following table :—

Zilla.	Years.	Gross revenue including arrears.	Amount collected during the year.	Amount remitted.	Amount outstanding.	Percentage of Collection.	Percentage of Remission.	Percentage of outstanding balances.
		Rs.	Rs.	Rs.	Rs.			
Ahmedabad	1892-93	5,10,165	4,48,865	8,217	53,083	87.9	1.6	10.4
	1893-94	3,39,410	2,92,137	10,935	36,338	86.0	3.2	10.7
	1894-95	3,46,282	2,86,231	18,827	42,224	82.3	5.4	12.1
Kaira	1892-93	1,31,400	1,26,704	1,095	3,601	96.4	0.8	2.7
	1893-94	1,18,647	1,04,107	608	14,132	87.6	0.5	11.9
	1894-95	1,68,607	1,28,975	5,961	23,671	81.3	3.7	14.9
Broach	1892-93	1,18,301	1,07,897	776	9,628	91.2	0.6	8.1
	1893-94	1,12,371	96,691	89	15,591	86.0	0.05	13.9
	1894-95	1,16,841	1,00,498	75	16,268	86.0	0.06	13.9
Total	1892-93	7,59,866	6,83,466	10,088	66,312	89.9	1.3	8.7
	1893-94	5,70,628	4,92,935	11,632	66,061	86.4	2.0	11.5
	1894-95	6,21,730	5,14,704	24,863	82,163	82.7	4.0	13.2

70. On comparing these figures with the corresponding ones for last year, one or two items perhaps require explanation. The establishment charges of this office were Rs. 13,773 in 1893-94 and Rs. 14,567 in 1894-95. The increase is due to the fact that under the orders of Government the arrears of the pension contributions of the members of the establishment were during the year under report debited to the estates. The miscellaneous expenditure this year was only Rs. 7,446 as against Rs. 67,767 in 1893-94. The reason for the apparently very large decrease under this head is that in 1893-94 the sums which were lent by the Jhanor and the Návda estates to other estates under management were entered as expenditure in the "miscellaneous" column. No such loans were given in the year under report.

71. From the above figures it appears that in the Ahmedabad and Kaira districts the percentage of collection to gross income is lower than that of last year. In Broach it remains the same. The proportion of both remissions and outstanding balances in Ahmedabad and Kaira has risen. In Ahmedabad this state of affairs is due chiefly to the unfavourable season. In Kaira the falling off in the percentage of collections to gross revenue and the increase in that of outstanding balances to the same are due to the fact that Rs. 16,946 have been brought into the Dákor accounts as outstanding balance, though they fell due before the management was assumed by this office. Deducting this amount from the Kaira gross income, there will be an increase in the percentage of collections and a decrease in that of outstandings. The results in Kaira and Broach may therefore be regarded as not unsatisfactory.

72. The amount outstanding in the Kaira District is Rs. 23,671, of which Rs. 7,771 belong to the year under report and Rs. 15,900 to previous years. The latter sum includes Rs. 11,900 of the Dákor estate which have been brought into the accounts for the first time and which are disputed. Rs. 3,000 in Dehwán and Rs. 1,000 in Bhetási are also in dispute. Of the outstandings of this year Rs. 2,846 are in Dehwán and Rs. 1,775 in Dákor, the rest being divided in small sums between the other estates. About Rs. 2,000 are irrecoverable, but steps are being taken to realize the remainder.

73. In Broach the outstanding balance amounts to Rs. 16,268, of which Rs. 9,397 are on account of the year under report and Rs. 6,871 of previous years. Of the latter Rs. 1,600 are due on bonds of the Sárod estate and are being recovered in due course. Rs. 1,371 are irrecoverable in various estates, but steps are being taken to collect gradually the balance of Rs. 3,900. The outstanding balance for the current year is owing to the badness of the season. Rs. 3,467 are of the Khandáli estate, Rs. 3,341 of Mátar, and Rs. 1,122 of Sárod. Attempts are being made to recover the sums due, but it is not probable that they will be attended with much success at present.

	Rs.

	42,224

74. In the Ahmedabad district the amount outstanding is Rs. 42,224 in the different talukás as shewn in the margin. The total outstandings last year amounted to Rs. 36,338. The increase is due to the more unfavourable nature of the season.

75. In Dhandhuka almost the whole balance outstanding is due for the year under report. About Rs. 5,000 are due from Tálukdárs who were given leases of their own estates and have been unable to pay the sums agreed upon, owing to the income having proved smaller than was expected. This amount will probably have to be written off. Rs. 9,000 appear to be recoverable, a portion being represented by grain in deposit which has not yet been sold.

76. In Dholka the outstanding balance is not large. Rs. 4,823 are on account of the Gangad estate and Rs. 1,600 of Latifkhán's estate. About Rs. 1,800 are irrecoverable.

77. In Sánand Rs. 3,013 are due by tenants of the Makhiav estate, and of them Rs. 1,400 will probably not be recovered. In Gárodia and Godhavi, owing to the poverty of the Grassia cultivators, a sum of Rs. 700 is irrecoverable.

78. In Viramgám Rs. 2,100 in Sinaj, Rs. 2,000 in Vithlápúr, and Rs. 2,000 in other estates are disputed. Rs. 2,600 will probably be recovered in time, but the rest will have to be written off.

79. In Prántij Rs. 5,000 are due from Bháyats of Rojhad and Ságpur, who are disputing their liability. Enquiry is being made in the matter.

80. In Daskroi the balance is due from tenants of the estate of the minor Syed Mohmedmia, and it will be recovered in a short time. The Gogha outstandings call for no remark.

81. The aggregate amount remitted during the year in the three districts was Rs. 24,863. Of this, Rs. 18,827 were remitted in Ahmedabad, the principal items being as follows :—

- Rs. 2,978 in Gángad owing to loss in price of wheat and to remissions to poor cultivators.
- „ 3,200 Alambháí of Ránpur. Remitted because the Tálukdár satisfied the creditor direct.
- „ 2,300 Jhánjharka. Outstanding on account of debt instalments. Remitted because of inability to pay.
- „ 2,400 Aníáí Kusbáí.
- „ 1,600 Garodia and Chekhla cultivators.
- „ 1,646 Melásna cultivators.

The balance was made up of small sums due to various estates by persons unable to pay. In Kaira the sum remitted was Rs. 5,961. Of this, Rs. 4,200 were remitted in the Dehwañ estate to Bháyats, and Rs. 900 in the Nadiád estate to creditors, and Rs. 500 in the Dákor estate. All these sums are irrecoverable. In Broach the remissions are but trifling and call for no remark.

82. The following table shows the average percentage of expenses of management to realizable revenue and to actual collection of each district separately and of all the three districts together for the year under report :—

Collectorate.		Tálukdári Settlement Office.	Local ex- penses of collection, &c.	Total average percentage.
Ahmedabad	On realizable revenue	2.5	5.3	7.9
	On actual collection	3.1	6.4	9.6
Kaira	On realizable revenue	1.8	5.4	7.2
	On actual collection	2.2	6.7	8.9
Broach	On realizable revenue	2.3	4.8	7.1
	On actual collection	2.7	5.5	8.3
Total average per- centage	On realizable revenue	2.3	5.2	7.6
	On actual collection	2.8	6.3	9.1

These figures are somewhat higher than the corresponding ones of last year, a fact which is to be explained by the collections having been smaller in proportion on account of the unfavourable season.

#### WORKING OF THE GUJARA'T TA'LUKDARS' ACT VI OF 1888.

83. The provisions of the Act which since its coming into force more than six years ago have most frequently been availed of are those relating to partition, attachment at the request of the Tálukdár, and encumbrances, and there can be little doubt that the number of applications received and cases dealt with in connection with these subjects during each year testifies to the usefulness of the enactment. The provisions relating to partition save the Tálukdar expense in the matter of litigation, those regarding attachment assist him in making favourable terms with moneylenders, while those relating to encumbrances preserve his estate from the disintegration and ruin which would be the certain

consequence of leaving him unprotected against the wiles of the usurer. It is, think, open to question whether the Talukdár appreciates the aid which is given him in preserving his estate from alienations, as he objects to any interference with his freedom of contract, but there is no doubt that he is well pleased with those provisions of the law which enable him to obtain partition of the estate in which he has a share, without being driven to the Civil Court, and also with those which indirectly render his landed property a more valuable security than it would be, if his estate could not be handed over to Government management when he so desired.

84. Ten cases of partition were pending in my office at the beginning of the year, and eleven fresh applications have since been received. The number of fresh cases last year was 16. Twelve cases were decided during the year, the applications for partition being granted in eight cases and rejected in four. None of the cases was of any importance, and no question of special interest was raised.

85. The number of estates now under management in accordance with the provisions of Section 28 of the Act is as stated above 25, of which five were newly attached during the year under report. The estates of Sigám in Broach and Nápa in Kaira were till recently managed by this office under the Encumbered Estates Acts, and on the termination of that attachment they were at their owners' request kept on under management in accordance with Section 28 of Act VI of 1888. This would go to show that the Government management was appreciated and that the provisions of the Talukdárs' Act of 1888 which allow of management at the desire of the Talukdár are of practical utility. Bhadla, Cher, and Devalia have come under management under Section 28, because the owners wish to borrow money and can do so on better terms when their estates are in charge of a Government department. The estates released were Lolía, Sálol, and Kherda. The first was only a small share in the village and the management was given up when the attachment of Gánol, which belongs to the same owners, was raised. Sálol and Kherda were managed for a year only, being restored at the request of the owners. The former had been kept on after release from the Encumbered Estates Act, and the latter was given over to this office only because the Talukdár was trying to negotiate a loan, in which attempt he subsequently failed.

86. At the close of last year, forty-two applications for permission to borrow money on the security of Talukdári lands were pending, the amount involved being Rs. 1,77,400. During the year 70 new applications were received, making a total of 112 to be dealt with. In 55 cases sanction was given to the borrowing of sums varying from Rs. 200 to Rs. 46,000, and in 24 the permission asked for was refused. 39 cases are still under enquiry. The largest amounts, the borrowing of which was sanctioned during the year, are the following :—

Rs.	
46,000	Thákor Madhavsing of Kherda.
35,000	Thákor of Sárodi.
33,000	Talukdárs of Mora Bhadlá.
32,000	Bawasaheb Ajambháí of Ránpur.
25,000	Thákor Takhsatsing of Kherda.
20,000	Bulákhi Gemábhái of Devalia.
15,000	Thákor Mansingji of Moyadvas Rupaji.
13,000	Thákor Takhsatsing of Wághpur.
13,250	Sartausing Atabhái of Tagdi.
11,000	Jeshibháí Kalabhái of Cher.
10,670	Najumia Amirmia of Kotda.

In almost all cases the loans were taken to pay off old debts and lessen the amount of interest. No large amounts were expended on marriage or funeral ceremonies except about Rs. 20,000 expended by the Thákor of Kherda on the wedding of his daughter.

87. During the year under report sanction was given to the borrowing of Rs. 3,82,322 as against Rs. 1,60,915 in the previous year. The increase is due to so many large sums being required. As appears from the last para., one amount sanctioned was over Rs. 45,000, three over Rs. 30,000, two over Rs. 20,000, and five between ten and twenty thousand. It is not I think possible to give any

explanation of the causes to which are due the demands of the Tálukdárs or of the variation in the amount sanctioned from year to year.

88. According to the information received in this office, the total of the loans actually raised by Tálukdárs during the year under report was Rs. 49,540. Of this sum, Rs. 33,240 had been sanctioned in 1893-94 and Rs. 16,300 in 1894-95. Notwithstanding the action taken by this office to make certain that all sums borrowed shall be reported, there can be but little doubt that many of the sanctions must be availed of without the fact being brought to my notice. Short of such an amendment to the Act as would render an encumbrance void unless the Tálukdári Settlement Officer were informed of the transaction having taken place, there is no method that I can discover of arranging for the required information being supplied. The amount sanctioned each year is very large, and I have grave doubts as to whether all the money borrowed is either wanted or used for the purpose for which it is ostensibly obtained. All experience of the Tálukdárs shows that they are not to be trusted to protect themselves in money matters, and I try to do what I can to help them by prescribing a maximum rate of interest and by such other arrangements as seem possible. At the same time I fear my object is often defeated by the behaviour of the people whom one is attempting to assist. In some cases, as I learn, it is not improbable that old debts are invented to allow of new ones being incurred. The difficulties of putting a stop to such behaviour are obvious, and there is little to remark in this connection save that it is well nigh impossible to help people who not only decline to help themselves, but do all in their power to make their own ruin more complete.

89. The loan of a lákh of rupees to the Thákor of Kuvar, which was sanctioned 2 years ago, will now not be wanted. The Thákor has arranged with his creditor Sheth Lalbhai Dalpatbhai of Ahmedabad to sell him the two Wántas of Daran and Kharenti for Rs. 75,000, a transaction in which Government have been unable to interfere. A debt of Rs. 32,000 still remains on the security of the estate.

90. The protective value to the Tálukdárs of Section 31 of the Act has been brought into prominence recently by one or two decisions of the Civil Courts in which the estate has been held to be not liable for the debts of a deceased holder when such debts were incurred subsequently to the coming into force of the Act. In these cases decrees were granted against the personal property of the deceased only.

91. These decisions, however, are of but slight importance when compared with that recorded by the High Court in the case of Nagar Pragji, alluded to in paragraph 76 of the report last year. That decision is of such vital interest to the Tálukdár class that Government were pleased to approve of its not being accepted as final and have allowed an appeal of a precisely similar nature to be defended in order that the point at issue may be properly argued before the High Court, which it was not in the case of Nagar Pragji. The result of the appeal in this test case has just been communicated to me and gives rise to some hopefulness in the matter. The High Court have found that the mortgagee is entitled to a decree on his mortgage, but consider it doubtful whether he could proceed to a sale in execution of the decree without the sanction of Government. It was considered premature to decide the point then, and the High Court have allowed six months within which the amount decreed should be paid. At the end of the time, if the decree be not satisfied, the point whether or not the estate can be sold without Government sanction may be referred to a Full Bench for decision. The Court's finding will be awaited with interest, and it is to be regretted that the matter had to be postponed for six months, which will probably mean ten months or a year before the case is heard.

92. During the year under report, six sales have taken place involving small areas of land varying in extent from 9 acres to 195 *bighas*. The total amount realized by the sales was Rs. 5,756. In all these cases the decrees had been obtained prior to the coming into force of Act VI of 1888. Under recent orders this office, pending the decision of the High Court above alluded to, is now proceeding with the execution of sale-decrees in cases also which come under

the ruling in Nagar Pragji's case, that is where the mortgage alone was prior to the coming into force of the Act, the decree being obtained subsequently.

93. The number of cases of this nature now being dealt with by my Office is 82. Proclamations of sale have been published in the case of 32 estates, while the execution proceedings for the remaining decrees are in preliminary stages. Amongst the estates which will be sold the following are some of the most important :—

One-fifth share in 8 villages and one whole village belonging to Bāpurāj of Rānpur.

One-third share in the Bhagāpura estate containing 3 villages.

Two-fifths share in the Chaniār estate of 3 villages.

94. The sanction of Government to the sale of a Tālukdāri estate has not this year been applied for at all. Last year there were 3 applications and the year before 12, so that the figures show a steady decrease. No doubt, the persistence of Government in refusing the sanction asked for, save in exceptional cases, has contributed largely to bringing about the cessation of the demand for it, but an even more influential factor has doubtless been the rulings of the High Court above referred to, which allow the decree-holder to have Tālukdāri land sold in execution of his decree in all cases except those in which the money-lending transaction took place subsequently to the coming into force of Act VI of 1888, without the sanction of Government.

95. The new arrangement for the payment of the Police Patels of the Gogha Tāluka, referred to in paragraph 103 of last year's report, has been carried out during the year and has been found to work satisfactorily. The Wāla Darbār raised some objections to supplying the required information as to the amounts paid to the *mukhis*, but the statements called for were eventually submitted, as also the receipts for their pay signed by the *mukhis* themselves. In the Dhandhuka Tāluka there has been a certain amount of friction regarding the transfer of Police Patels, with the Thākor of Limbdi, who appears to be unable to grasp his position in the Ahmedabad District, which is that of a simple Tālukdār. I have informed the Thākor that while I am quite ready to meet his wishes regarding any transfers of *mukhis* he may propose where such transfers seem unobjectionable, I am unable, merely for the sake of saving his dignity, to arrange the movements of Police Patels in his villages in such a way as may tend to impair the efficiency of the Police administration, or affect the authority of the district officials. The Thākor still urges that Section 30 of Act VI of 1888 is not applicable to his villages, and I am not sure that he has carried out the modifications in the strength of his village Police which were suggested by the Collector of Ahmedabad and sanctioned in Government Resolution No. 436, dated 20th January 1893. I am enquiring about this, and should it prove to be the case that he has not, I shall have to propose that Government be moved to apply Section 30 of the Tālukdārs' Act to the Dhandhuka estate of the Limbdi Darbār, and thus show the Thākor his true position in the Ahmedabad District.

#### TĀLUKDA'RS' JUBILEE MEMORIAL FUND.

96. I regret to have to report that the Jubilee Memorial Institute continues to be a failure. Only two boys, one of whom is of a Desāi family and the other is a Kasbāti, are residing there for the purpose of attending schools in the city, and the number of Tālukdārs who have put up during the year at the Institute when visiting Ahmedabad is insignificant. It is not improbable that the Institute may shortly have to change its quarters as enquiries are being made regarding the suitability of the Gāekwār's Haveli as a place for storing the survey records of the District or possibly of the Division. If the Tālukdārs have to leave the Haveli they will attempt to secure a building in the middle of the city, and this may perhaps be more popular and therefore more useful, though there can be no doubt that the building will not be as spacious or the site as healthy and agreeable as those of the present Institute. The Tālukdārs entered upon their lease of the Gāekwār's Haveli more or less on the understanding that the buildings would not be wanted by Government for nearly ten years, if at all. They have spent some money on a water supply and in

Imp 15926 Dated 29.12.09

certain alterations to the buildings, and they hope that they will be compensated if Government decide to turn them out after so short a tenancy. Attempts are being made by the Committée to raise funds sufficient for the up-keep of a small Tálukdári school in Ahmedabad, and it is believed that such an Institution would be far more popular than the present arrangement which is for boys to reside at the Institute and attend schools in the city. This Tálukdári school would be for young boys only.

#### MARRIAGE EXPENSES, REFORM MOVEMENT.

97. During 1893-94 meetings were held at Utelia (in Dholka), Sánand, and Dhandhuka, called by the Thákors of Utelia, Koth, and Gamph respectively, to discuss the draft rules for regulating the expenditure on marriages prepared and circulated by the Tálukdári Sabha. The rules were agreed to, and I have submitted copies to the Commissioner, N. D. Nothing more can I think be done in the matter by the Grássias of Ahmedabad. They are bound by the circumstances of the case, as I have had the honour to point out before, to wait for a movement in Káthiáwár and other Native States, and until such a movement is started the Ahmedabad Tálukdárs will continue to follow the present customs and contract heavy debts to meet the expenses of marriages in their families.

#### MISCELLANEOUS.

98. The Cambay boundary disputes alluded to in para 109 of last year's report are still pending. Considerable delay was experienced in mapping the land in dispute as it is under water for a good part of the year. The maps have now been prepared and copies of them supplied to the parties, and the cases will be heard and if possible disposed of before next district season.

#### RESUME.

99. The following is a resumé of the operations of this Department during the year under report and the previous two years in all the districts under the several heads mentioned :—

	1892-93.	1893-94.	1894-95.
	Rs.	Rs.	Rs.
Estates under management ... ..	600	555	552
Their total revenue ... ..	7,59,806	5,70,628	6,21,730
Amount collected ... ..	6,83,466	4,92,935	5,14,704
Decrees received from the Civil Courts for execution ... ..	142	115	146
Decrees, inclusive of those brought over from previous years executed by compromise, sale, mortgage, &c. ... ..	804	805	852
Amount paid to private creditors ... ..	1,07,132	1,03,830	1,02,162
Amount paid to Government ... ..	74822	52,081	39,381
Amount paid to Tálukdárs, Thákors, &c., for maintenance and other expenses ... ..	1,52,348	89,735	1,14,326
Paid for Government Jama ... ..	1,98,920	1,44,348	1,48,205
Paid for expenses of collection, supervision, &c. ... ..	58,475	42,198	47,344
Minors' money invested—			
In Government security ... ..	49,000	8,000	6,600
In Landed property ... ..	91,000	45,000	.....
Estates under enquiry for partition ... ..	24	27	21
Original suits and appeals ... ..	53	42	49
Revenue of Tálukdári villages in the Ahmedabad Collectorate under the revenue charge of this office collected ... ..	3,68,387	3,82,585	3,83,969
Percentage of—			
Collection ... ..	89.9	86.4	82.7
Remission ... ..	1.3	2.0	4.0
Outstanding balances to realizable revenue ... ..	8.7	11.5	13.2
Percentage of collection and management charges to—			
Total realizable revenue ... ..	7.6	7.4	7.6
Actual collection ... ..	8.5	8.5	9.1

## ESTABLISHMENT, &amp;c.

100. In accordance with the orders of Government contained in their Resolution No. 2019, dated 16th June 1894, the sum of Rs. 1,714 has this year been paid from the income of the estates as arrears of pension contribution for the members of my establishment. Their service is now similar to that of the Clerks and Karkúns in other Government offices, and the Collector of Ahmedabad has arranged to take the appointments in my office on his general list according as the present incumbents give them up. In this way my establishment will have more promotion available and there will be every prospect of my obtaining good men.

101. The office establishment have worked well as usual and have kept up with the current correspondence. It is difficult year after year to write something fresh about Mr. Hathising Raichund the Head Clerk, and Mr. Shivshankar Bechar the Shirastedár. They have been so long at the head of the Talukdári Settlement Officer's office that their experience is of the utmost value to him in dealing with the varied questions which come before him. Both of them work with thoroughness and zeal, and during the year under report they have as usual given me complete satisfaction.

102. With this report I have the honour to submit as already mentioned above Appendices I. to IV. relating to the encumbered estates and Appendix V. which is similar to that submitted last year as Appendix XII. Appendices VI. to XI. I have omitted as useless. They were not added to the report under any orders of Government or the Commissioner, but were submitted with the view of making the figures clearer. As however all the figures required for the estates of every class are given in detail in the present Appendix V., it will not I think detract from the value of the report if the other appendices are omitted. Appendices I. to IV. are continued, because they contain information about the encumbered estates which is not to be found in Appendix V. In that appendix I have this year given the serial number to the estates and not to the villages.

I have the honour to be,

Sir,

Yours most obedient Servant,

H. O. QUIN,

Talukdári Settlement Officer,  
Gujarát.
