

pipal	..	..	..	..	A tree (<i>Ficus religiosa</i>).
Rabi	..	..	..	..	Spring harvest.
Rakh	..	..	..	..	A wood or copse.
Rohi	..	..	..	..	(a) A stiff clayey loam, (b) a drainage line.
Sahukar	..	..	..	..	A money-lender.
Sailab	..	..	..	..	Affected by floods or by percolation from river.
Sepoy	..	..	..	..	A foot soldier.
Ser	..	..	..	..	A measure of weight (2 lbs.).
Shisham	..	..	..	..	A tree (<i>Dalbergia sissoo</i>).
Sowar	..	..	..	..	A horse soldier.
Siwalik	..	..	..	..	A range of hills in the Punjab.
Tahsil	..	..	..	..	Revenue sub-division of a district.
Til	..	..	..	..	Sesamum.
Teli	..	..	..	..	Oil-maker.
Toria	..	..	..	..	A kind of oilseed.
Vadanak	..	..	..	..	A kind of wheat (large wheat).
Zabti	..	..	..	..	Customary cash rent varying with the crop grown.
Zamindar	..	..	..	..	A peasant proprietor.

Revenue (Revenue) Department, January 1916, Nos. 14-20.

No. 2 (Rev. & Agri.—Rev.), dated Lahore, 8th January 1916.

No. 2

From—The Hon'ble Mr. J. P. THOMPSON, I.C.S., Revenue Secretary to Government, Punjab,
To—The Junior Secretary to the Financial Commissioners, Punjab.

I AM directed to refer to your letter No. 837,* dated the 10th November 1915, which forwarded the Assessment Report of the Zafarwal Tahsil of the Sialkot District with the Commissioner's review and the draft orders of the Financial Commissioner thereon, and to convey the following remarks and orders of the Lieutenant-Governor.

*Pro. No. 14 *supra*.

1. The assessment of this tahsil, which contains no novel or complex features, is a comparatively simple matter; and the Financial Commissioner's excellent analysis of conditions in his draft orders, leaves out little to be said.

The points which tell for and against enhancement in Zafarwal are summarised in paragraph 41 of the report. On a balance of these considerations the Settlement Officer proposes an enhancement of 17 per cent. and the Financial Commissioner agrees with him throughout. Mr. Maynard on the other hand; would reduce the proposed demand in four out of the five circles, and would take an enhancement of not more than $11\frac{1}{2}$ per cent. He argues that the rise in the value of land is not so great as the Settlement Officer represents and that in any case it is an indication rather of the intensity of the demand for land than of increased prosperity, and he lays stress on the large areas mortgaged. He admits, however, that the large increase in the number of wells is evidence of "a steady and considerable improvement in the security of cultivation" and adds that "in other respects things remain very much as they were with a slight upward rather than a downward tendency."

3. Mr. Maynard concedes that the Settlement Officer's proposals are moderate and judicious, but suggests a lower scale of enhancement "in consideration of the smallness of holdings; the indebtedness of the people and the badness of communications—all three of them influences tending to prevent the full advantage of the rise in prices (at least 35 per cent.) from reaching the cultivator".

All these considerations have been carefully examined by the Financial Commissioner who shows that the Commissioner has taken an unduly gloomy view of the figures of alienation. It is evident too that the means of communication will be considerably improved by the Sialkot-Narowal Railway now under construction.

In regard to the third and most important consideration the smallness of the holdings since last settlement the congestion has been much relieved by the very liberal grants of land in the Canal Colonies, and, as Mr. Diack pertinently observes, the smallness of the holdings is one of the reasons why an enhancement of only 17 per cent (representing only 59 per cent. of the half-net-assets) is proposed in the face of a rise in prices of at least 35 per cent.

4 Mr. Diack notes that when touring through the tahsil with the Settlement Officer he thought the demand might be higher than that now proposed. On reading through the report, before receiving the Financial Commissioner's draft orders and the Commissioner's review, the Lieutenant-Governor had arrived at the same conclusion and thought that the demand proposed by the Settlement Officer should be raised by from Rs. 5,000 to Rs. 10,000 giving a total enhancement of 20 per cent. He still considers the proposed assessment a very lenient one, but in deference to the views of the Settlement Officer, who has now had four years' experience of the district and whose report shows a thorough mastery of the subject, and of the Financial Commissioner, who has gone into the village assessments with the Settlement Officer and is satisfied that the pitch of the new assessment follows the standard set in the rest of the district, the Lieutenant-Governor accepts all the proposals. The result will be a demand only 24 per cent. above that of the Summary Settlement made after annexation, though cultivation has much increased in the interval, the number of wells has nearly doubled, prices of produce have more than doubled and the value of land has probably risen five-fold.

5. The other proposals of the Financial Commissioner are approved so far as the approval of Government is necessary.

6. The Lieutenant-Governor concurs in the Financial Commissioner's commendation of the Settlement Officer's brief and lucid report and of Mr. Maynard's suggestive review.
