APPENDIX IIH.

ADDENDUM TO APPENDIX ON CROPS.

The following rough notes on the produce, trees, agricultural implements, &c., of the Kotkhai and Kotguru tahsils may be useful to local officers; and are therefore added to the produce-estimate:—

RABI PRODUCE.

Wheat (*Gihún*).—Sown in high lands in September (Bhadon-Assu) as soon as the rain ceases; in lower lands as soon as the kharif is cleared, generally at end of October.

Harvested—In high lands in June, just before the rains commence (end of Har and beginning of Sawan), but in low warm lands a month earlier. The straw is fed to cattle in the winter.

Per bigha.—Wheat produces on *bakhil* land from 1 to 2½ maunds; on *karali* land, about 1 to 1½ maund; on the Kotguru *kyar*, from 2 to 3½ maunds.

Barley (*Jao*).—Sown at the same time as wheat; but ripens a month earlier. The straw is fed to cattle in the winter. Produces more heavily than wheat, about ¼ or half more. Is sown only on *bakhil* lands near the homestead.

Barley (*Howejao*).—A fine description of barley. Produces at the same rate as wheat. Is grown only on good *bakhil* land near the homestead.

Opium (*Qim*).—Sown in Assu and Katik (end of September to middle of November), ripens on low lands in Baisakh, and on high lands in Jeth. Produces about a seer per bigha; varies from ½ to 1½ seers. The cultivators get about Rs 5 or 6 a seer. Each man cultivates from 1 to 5 bighas. The zemindars very seldom eat or smoke opium themselves.

Ghale, Kalao (*Field Peas*).—Very little grown; eaten as dāl. Is not sold.

Bhugla or Dhanea (*Coriander seed*).—Generally sown in the opium fields: used as a spice, and is sold.

Methun (*Fenugreek*).—Generally sown on the field boundaries, or in corners of fields near the homestead. Eaten as greens.

Jharga (?)—Another kind of greens, said to be first rate; plucked from a plant, which lives three or four years.

Masar (*Ervum lens, lentil*).—Sown in small quantities in fields near the homestead and also in the opium fields. Not much sold.

KHARIF PRODUCE.

China (*Panicum miliaceum*).—Sown in June, July (end of Har and beginning of Sawan); cut at end of September (beginning of Assu); not much sold; cooked like rice. Sometimes eaten as bread in the form of *chapattis*, which are called *chinolti*. The straw is fed to cattle in the winter.

Makki or Kukri or Chhali (*Maize*).—Not much grown in Kotkhai; a good deal in the lower villages of Kotguru. Sown same time as china, and ripens in Assu (end of September and beginning of October). Grown

in *bakhil* land, heavily manured. Yield per bigha 3 or 4 maunds, freely sold. The stalks are fed to cattle in the winter.

Kauni or Kangni (*Pennisetum Italicum*).—Sown in *bakhil* lands, generally on the inferior fields: sown in May (Baisakh, Jeth) or earlier; ripens in Assu (15th September—15th October); not much sold; eaten boiled like rice; is not made into bread. The straw is fed to cattle during the winter.

Bathu (*Amaranthus, Anardana, and Spenosa*).—Grown both on *bakhil* and *karali* lands; sown same time as kangni, but ripens a little later. There are two varieties, red and white; but the grain yielded by both is white. The young leaves are pulled for greens. The grain is little sold. Eaten as bread (*châpattis*); but mainly as porridge. [In the latter case the grain is roasted and ground, and then boiled into porridge; which is *laphi*.] The straw is cut and fed to cattle during the winter.

Kala Bathu (*Amaranthus*).—Sowing and cutting same as the other *bathu*. The grain is not sold. Not much is cultivated. In eating it is generally well boiled and then the *laphi* of the other *bathu* is mixed with it.

Koda or Mandwa (*Eleusine corocana*).—The *râgi* of Southern India; sown the same time as Kangni in *bakhil* land; ripens the last of the unirrigated kharif grains, in October (Assu, Katik), not sold. Eaten as bread; the *chapattis* are called *kadroli* and sometimes made into porridge (*kadrân*). The straw is fed to cattle, and is said to be very sweet.

Dhan Jira (white) Dhan Kallu (white), Reora (red).—Varieties of rice, cultivated on *bakhil* land; do not need irrigation, but cannot be cultivated in the higher lands. Sown from Baisakh to Jeth (during May), and ripen latter half of September (first half of Assu). Yield about 1 maund per bigha or a little more. Not much sold. Eaten all the year round. Straw fed to cattle.

Dhan Basmati (white) Dhan Jhinjni (red), Reri (red).—Three kinds of rice grown in irrigated land; sown in April and May (Baisakh, Jeth), cut in end of Assu (first half of October). Yield about 3 or 4 maunds per bigha, and sometimes more, up to 5 maunds. Generally sold; the basmati at about 8 or 10 seers (husked) per rupee; the other kinds at from 12 to 16 seers (husked) per rupee. The Jhinjni and Reri are often sold unhusked at from 32 to 40 seers per rupee; but it can only be got for this price at harvest time. Very little basmati is sown, because the yield is smaller than the other kinds by one-third. It is first sown thick in small beds; and the young plants (*raug*) are planted out (*rûmna*) at the end of Har (beginning of July). The straw is fed to cattle.

Mash (*Phaseolus radiatus*).—Grown in *bakhil* lands—(will not grow on the higher lands)—either in separate field or sometimes mixed with *bathu*; is commonly sold. Sown in July (Har, Sawan), and cut in Katik (end of October) or a little earlier. Eaten boiled as pulse, or as *bâri* or as *sepa*. *Bâri* is thus made; the grain is soaked in slightly warmed water for two days; then reduced to a mash by a stone; then dried; afterwards eaten, mixed with ghî or butter-milk. *Sepa* is a similar preparation. There are also other ways of cooking it. The straw is fed to sheep and goats, and is much valued.

Kulat or Kolath (*Dolichos uniflorus*—horse gram).—Is grown on the inferior *bakhil* lands in the lower villages. Will not grow on the higher

lands. Is not sold. Is sown same time as másh; but ripens 15 days later. To prepare for eating, is first soaked in water for 12 hours; then reduced to a mash on a stone; then made into round balls and steamed. Another way is to roast the grains and then boil them, adding rice.

Bhart (*Cajanus bicolor*).—A pulse grown on the higher lands, both *bakhil* and *károlí*. Sown at the same time as the *bathu*, with which it is usually reaped, and it ripens at the same time. It is not sold. It is eaten as bread (*chapattis*), or roasted like *chabena* (roasted gram). The *chapattis* are called *bhartoli*. The straw is fed to cattle.

Rangan (*Dolichos sinensis*, the *rawan* of the plains).—Sown with *bathu* or in the opium fields or separate. Sowing time Jeth, Har (June) and cut in Assu (September, October). Is not sold. Is eaten as dál. Both this and mash are commonly mixed with rice in cooking (*kichari*). The straw is fed to cattle.

Totru, a kind of peas, generally sown in the higher lands. Will not grow in the lower lands; is eaten as dál. Is not sold.

Ogla (*Fagopyrum polygonum*)—**Phaphra** or **Kathu** (*Fagopyrum esculentum*)—**Dhanphari** (*Fagopyrum*) (?).—Varieties of buckwheat. *Ogla* grows everywhere; the others are confined to the higher lands; are not sold. Sowing time, July (Har-Sawan); reaped in October (Assu-Katik); are usually ground and made into bread. *Ogla* is generally eaten on fast days, and is called *phalwár*.

Tomaku (*Tobacco*).—Grown everywhere on the best *bakhil* and sometimes in irrigated lands. Sown in Sawan; cut in Katik (October-November), or even later in the higher lands. Is commonly sold. The dried leaves sell at from 6 to 8 seers per rupee. It is not much thought of; as the Sirmúr tobacco is. The later sells at 4 seers per rupee. The yield is said to be from $\frac{1}{2}$ maund (dry) per bigha to $\frac{3}{4}$ maund.

Kachalu (*Arum colocasia*).—The edible *aram*; there are two kinds; one called *gadhai*, and the other *alu*. Sown in May and June (Jeth-Har); and ripen in November (Katik-Magar). Is highly manured and grown in the best *bakhil*. Is not sold; the whole crop is usually eaten in the winter. The roots will not keep later than February. The seed tubers are preserved by being buried in a dry pit.

Potatoes (*Faring alu*).—Very little cultivated.

Bhang (*Cannabis sativa*).—Grows wild on the ground near the houses; and is also sown to a small extent near the houses; cut in October when still green, and put in bundles on the roofs of the houses. By the time the winter comes on, the stalks have dried, and the bark is then pulled by hand. The stalks are not soaked. The zamindárs smoke *bhang* a little in the winter, but not much.

VEGETABLES (all kharif).

Kakri (cucumber).
Kaddu (pumpkins).
Tori.
Shagotri (bangan).
Bhatte (tomatoes).
Pikli (red pepper).
Bábri (beans).

Muli (radishes).
Gajar (carrots).
Tumba (gourds).
Kharbuza (melons).
Dunun (wasan), garlic.
Gobi (cabbage).
Palag (greens).

Trees bearing fruit.

Kela (<i>plantain</i>),—grows in the lower villages of Kotguru.	} Fruit ripens in the latter end of May and in June.
Kimu (<i>mulberry</i>), <i>morus serrata</i> .	
Arti (<i>Hari</i> —apricot) zardalu.	
Paja (<i>cherry</i>),	
Alucha (<i>plums</i> .)	
Trimmal—F. Roxburghii (Stewart's <i>Punjab Plants</i> , p. 214.)	

The following fruit in autumn :—

Akhrot.—Walnut.

Amb.—Mangoes, a few in Kepu (Kotgarh).

Galgala.—Citron ?

Bijiuri (?)

Palti.—*Pyrus Kamaonensis* (?) (*Punjab Plants*, p. 84).

Kemlu.—Sour lime.

Katherti.—Peach.

Seo.—Apple.

Amrut.—Guava, in Kepu of Kotgarh only.

Sharauli.—Nut, (*Corylus colurna*).

Kainth.—Shigul *Pyrus variolosa*.

Dak.—Grapes.

Bo.—? *Pyrus*.

Thali.—(Ritha—soap-nut).

Bidana.—Quince.

Naspatti.—Pear.

Bembi.—An inferior kind of peach.

Phegra or Phedu.—Fig (*caricordes*).

Daru.—Pomegranate.

Jaman.—*Sizygiun Jambolanum*.

Trees not bearing fruit.

1. Chellan (*Populus cillata*).—Himalayan poplar, only used for firewood ; a large tree.

2. Reush (*Cotoneaster obtusa*).—A small tree, valued for sticks and goads (*chunta*).

3. Khanor (*Pavia Indica*).—Horse chestnut ; wood used for planks and tea-boxes.

4. Palag.

5. Bhail Bhāshil (*Salicaceæ*).—Various kinds ; small shrub ; twigs used for basket making.

6. **Thuna** (*Cedrela Toona*).—Excellent wood.
7. **Kanash** (*Alder, Alnus*).—Only used for firewood; a large handsome tree, generally seen by the side of water.
8. **Ban Kimu** (*wild mulberry*)—Used for wooden vessels and other carpentering.
9. **Rakhol**.—Of no use, except that its leaves are fed to cattle and wood used for burning.
10. **Darli** (*Cedrela toona serratta*).—Yokes (*shumain*) for oxen are made from this. It is a small tree. The wood is red. Also used for posts.
11. **Jaman**.—The wild *Sizygium Jambolanum*.—Wood used for charpoys, &c.
12. **Mauru** (*Quercus dilatata*).—Leaves cut in winter for feeding sheep and goats. Excellent hard wood and used for charcoal.
13. **Kharshu, Kharu** (*Quercus semecarpifolia*)—Used for the same purposes as the preceding. Also for ploughs.
14. **Bangar** (*Quercus incana*).—Used for the same purposes as the preceding, but not thought so much of as Mauru and Kharshu.
15. **Re** (*Abies Smithiana*).—Used for planks and sometimes for roofing, but does not stand exposure.
16. **Pandre** (*Picea Webbiana*)—Used is above.
17. **Ohil, Baril** (*Pinus longifolia*).
18. **Kail** (*Pinus excelsa*).—Much used for house-building.
19. **Kelu** (*Cedrus deodara*).
20. **Deodar** (*Cupressus torulosa*).
21. **Bes, Besu** (*Weeping willow—Salix Babylonica*).
22. **Kakra** (*Podophyllum emodi*).—Good wood for box making.
23. **Lehu or Liu** (? *Pyrus baccata*).
24. **Khadauru** (? *Kadenru* ?)—*Taxus baccata*,—Yew tree.
25. **Bras** (*Rhododendron arboreum*).
26. **Bhewal** (*Grewia oppositifolia*).—Leaves used for fodder of cattle and sheep and goats; ropes made from the bark of the small twigs. The tree is too valuable to be cut for wood.
27. **Shishu** (*Delbergia Sissoo*).
28. **Newar** ?
29. **Khatalat**.—? A small thorny tree.
30. **Bhekal** (*Principia utilis*).—A small thorny shrub. The fruit yields an oil, which is both eaten and used for lamps.
31. **Kamashal**.—A similar plant to the preceding, but the fruit is eaten and oil is not made from it.
32. **Timbar** (*Xanthoxylon hostile*).—A large prickly shrub; wood used for sticks. The fakirs' thorny clubs are of this wood; also used for tooth picks.

33. **Kathewat** (*Indigofera heterantha*).—A small shrub, of which the leaves are much valued as fodder for sheep and goats.

34. **Laber** (*Desmodium tiliaefolium*).—Used as above.

35. **Pothi** (? *Elsholtzia Polystacha*).—A small shrub used as litter for cattle.

36. **Relra or Kaunta**.—The cones of the cedar and pines.

37. **Kharak** (*Celtis Clausasica*).—A large fine tree, generally grows low down and in the fields. Is not put to much use.

38. **Barkan**.—The fruit is used in ablutions before marriages.

39. **Bansh** (*bamboos*).—Only a few in Sainj on the Sutlej.

40. **Bar** (*Ficus glomerata*)

41. **Shrimal** (?).—A tree of fair size, leaves fed to sheep and goats grows low down in warm situations.

42. **Sairu**.—Uses and habits same as the preceding.

43. **Lojh** (*Symplocos cratægoides*).—Leaves fed to sheep and goats.

44. **Darka**.—A small tree, which grows low down in the valleys and is used for firewood.

45. **Sanan**.—Same as above; leaves also fed to sheep and goats.

46. **Shamshad** (? *Myrsine Africana*).—Box wood, used for combs shuttles, wooden spoons, &c.

47. **Aira**.—(?) A small tree, of which the foliage is poisonous to cattle, sheep and goats.

48. **Parara**.—A small tree used for firewood, grows low down in the valleys.

49. **Lipti** (*wild thyme*).

Measures.

Tát = $1\frac{1}{2}$ seer English.

Pátha = $2\frac{1}{2}$ seers English.

Above measures are generally made of iron, sometimes of brass; and the poorer people sometimes make them of Nargál wood (*Arundinaria falcata*). The grain is always measured, not weighed.

Ara = 4 *tát*s, also used of 4 *páthas*.

Jún = 16 *tát* = 24 seers.

Also 16 *pátha* = 1 maund.

1 *Khar* = 20 *jún*.

1 *Kharáshú* = 20 *Khár*.

No higher reckoning.

Above measures give the weights of rice, mash, bathu, wheat, bhart, kulth.

Barley, koda, kangni, china are lighter, and will only weigh—

the <i>Tát</i> <i>jún</i>	...	16 seers
the <i>Pátha</i> <i>jún</i>	...	28 seers

Khori.—Ghí is measured by a measure called Khori: it contains six *chittaks* English. The measure is made of earthenware.

Things made from the Nargál plant.

Chúpa.—A sieve for cleaning rice.

Farolta.—A small basket for holding grain.

Pírl.—A large basket; will hold about 5 maunds. Used for sifting kangui and china, and such like fine grain.

Chálri.—A small basket without cover, in which bread is usually placed.

Fechri.—A basket, like a *partára*, broad at the bottom and small at the top, in which grain is stored. Will hold about 4 maunds.

Kilta.—The well-known hill basket for loads; the zamindárs always use them for carrying water vessels.

Killa.—A basket like a *Kilta*, used for carrying manure to the fields or for carrying grass from the fields.

1.—Agricultural Implements.

Kashi.—Large hoe.

Chikri.—Small hoe.

Dáchi.—Sickle for cutting grass (*datri*.)

Dách.—A bill-hook for cutting small wood.

Mend.

Ghán.—A hammer for breaking stones.

Arú.—A wedge, used to split stone.

Káranu.

Rámbi.—A small hoe with a broader blade than the *kashi*.

Barára.

Karári.

Hal.—Plough.

Changli.—*Shirni*.—A two-pronged wooden hay-fork.

Chatera.—Muzzle, put on cattle when the crops are ripe, and in the threshing floor; made of *nígál* (or *nargal*, the plant used for basket work).

Shámáin.—The yoke used in ploughing; generally made of darli (*Oedrela toona serrata*—not the common tún tree, but a tougher variety).

Phál.—*Lohál*.—The plough-share, made entirely of local iron, and never tipped with steel.

Pharír or *Bolcha*.—The thong, by which the yoke is attached to the plough; made either of leather or of munji grass.

Ma'inor Jhol.—Clod-crusher; the same as the *maira* of the Punjab.

Dadáli.—A wooden harrow.

Angshi.—A handrake, wooden.

Lowáta.—Shoes with leather soles and woollen top. Sometimes called *chinjár*.

Rassi.—Rope.

Bás.—The tool described as *basauli* in the Punjab.

Nain.—A chisel.

Agdhúl or *Kaspáran*.—Steel for striking fire.

Cheunta.—Goad, usually made of *re'túsh* and *labair*.

2.—Vessels for keeping grain.

Bará.—*Khánda*.—*Khándi*.—*Khánda* is a deep square box, usually made of cedar or pine, can hold from 20 to 50 maunds of grain. *Bara* is a similar box; but it has only three sides, and the fourth side is the wall. *Khandi* is the same as *bára*, but larger.

Máshí.—A box.

Khantu.—Is a small Khanda, holds 2 to 4 maunds.

Páichri.—A large deep basket, large at the bottom, small at top ; holds from 2 to 4 maunds ; used by those who cannot afford a wooden receptacle.

Kháltu.—A leather bag, made of goat's skin, holding 8 or 10 seers.

Piri or *Oanori*.—A large circular basket, with no top, about 4 feet wide by 3 feet deep, used in the threshing floors.

Pirktu or *Chatri*.—An open basket, large enough to hold a maund.

Pharolta or *Chatra*.—A small basket, holds about 8 seers ; has no cover.

Shupa or *Shuptu*.—A basket tray for cleaning grain.

Chatti.—A basket holding about 2 seers.

Tát.—A metal measure of iron or brass for measuring grain, contains about $1\frac{1}{2}$ seer. There is a large one, called *Patha*, which holds $2\frac{1}{2}$ seers.

Ser.—A measure of wood or metal, which contains about $\frac{1}{2}$ seer *pakka*, or one man's food.

Kharelna.—A kind of coarse sieve made of leather, used for wheat and barley.

Kadelni.—The same as above, with a smaller mesh, used for the smaller grains.

Bathailni.—The same, but finer still ; used for *bathu*.

Thikri.—An iron flat vessel used for roasting grain.

Talli.—The same, but much larger ; will hold from half a maund to a maund at one time.

Implements used by traders.

Trákri.—Scales for weighing grain, the bar of wood, the rest of basket work.

Júl.—Scales of metal (iron).

Tultu.—Small scales of wood or brass.

Bát.—The weights.

	Dhar ...	Simla Municipal Forest.	Keunthal State and Dhar village.	Ditto	Simla Municipal Forest.

APPENDIX VI.

Notifications published in the Punjab Gazette, relating to the Simla Settlement.

THE 21ST APRIL 1881.

No. 473.—*Notification*.—Whereas the Simla district is to be put under Settlement, His Honor the Lieutenant-Governor is pleased, with the previous sanction of the Governor-General in Council, to issue the following Notification of Settlement in accordance with the provisions of Section 11 of the Punjab Land Revenue Act, 1871 :—

1. The local area which is to be put under Settlement consists of the ilāqas of Kalka, Bharauli, Simla, Kotgarh, and Kotkhair, comprising the Simla district.

2. The Settlement will be made by the following Settlement Officers :—

(1) Major E. G. Wace, Settlement Commissioner, Punjab, in charge of the Settlement ;

(2) Karm Chand, Deputy Superintendent.

3. The Settlement to be made will be a first Regular Settlement, comprising both an assessment of the revenue and preparation of a record of rights, with the following exceptions :—

In ilāqa Bharauli and other villages, where the existing Summary Settlement does not expire till A.D. 1882, the assessment of the revenue will be deferred to that date, and then be proceeded with.

4. Surveys and plans will be made for the whole district, and the boundaries of villages and estates will be adjusted.

THE 21ST APRIL 1881.

No. 212F.—*Notification*.—The Hon'ble the Lieutenant-Governor is pleased, in exercise of the powers conferred on him by Section 4 of the Indian Forest Act, 1878, to notify that it is proposed to constitute as reserved forests the forest lands situated in the Simla, Kotgarh and Kotkhair ilāqas of the Simla district. The limits of these forest lands include all lands bearing trees in the said ilāqas.

2. Major E. G. Wace, Settlement Commissioner, is appointed the Forest Settlement Officer to inquire into and determine the existence, nature and extent of any rights alleged to exist within such limits, and to deal with the same as provided in Chapter II of the said Act.

THE 5TH JULY 1881.

No. 720.—*Notification*.—In continuation of *Punjab Government Gazette* Notification No. 473 dated 21st April 1881, Karm Chand, Deputy Superintendent of Settlement, Simla district, is, under the provisions of Section 3 of Act XIV of 1875 (The Punjab Judicial Administration Act), invested with the powers of a tahsildar in regard to revenue cases under the Punjab Land Revenue Act, 1871, proceedings for the collection of revenue or arrears of revenue excepted ; such powers to be exercised in the Simla district.

No. 721.—*Notification*.—Under the provisions of Section 3 of Act XIV of 1875 (The Punjab Judicial Administration Act), Sobha Ram, Officiating Deputy Superintendent of Settlement, Simla district, is invested with the powers of a tahsildar in regard to revenue cases under the

Punjab Land Revenue Act, 1871, proceedings for the collection of revenue or arrears of revenue excepted ; such powers to be exercised in the Simla district during the absence of Deputy Superintendent Karm Chand, on census duty.

THE 20TH MAY 1882.

No. 139.—*Notification*.—With the previous sanction of the Governor-General in Council, and in continuation of *Punjab Government Gazette* Notification No. 473 dated 21st April 1881, placing the Simla district under Settlement, His Honor the Lieutenant-Governor is pleased to appoint Gudru Mal, naib tahsildar, pergunnah Kotkhai and Kotgarh of the Simla district, to be Superintendent of Settlement and Settlement Officer in the said district, in addition to his other duties.

THE 5TH DECEMBER 1883.

No. 278.—*Notification*.—With reference to *Punjab Government Gazette* Notification No. 473 dated 21st April 1881, placing the Simla district under Settlement, the Hon'ble the Lieutenant-Governor on the report of the Financial Commissioner that Settlement operations are complete in the said district, is pleased to direct, under Section 17 of Act XXXIII of 1877, that the record of rights, recently prepared for the said district, be handed over to the Deputy Commissioner of Simla.

THE 10TH MARCH 1884.

No. 123F.—*Notification*.—In continuation of *Punjab Government Gazette* Notification No. 212F of 21st April 1881, the Hon'ble the Lieutenant-Governor is pleased, in exercise of the authority vested in him by Section 16 of the Indian Forest Act, 1878, to appoint the Financial Commissioner to hear appeals from the orders of Lieutenant-Colonel E. G. Wace, Forest Settlement Officer of the Kotgarh and Kotkhai ilāqas of the Simla district.
