* NOTE—In Statement No. 17, accompanying the Commissioner's report two sums of Rupees 50 and 9,150 are entered for Vizagapatam and Masulipatam under the head of "Rent for more than one year" but as these sums were carried to account in the D. C. B. Statement under the head of ryotwary they have been brought under the same head here to prevent discrepancy. The Sevoy Jummah entries for Ganjam, Masulipatam and Guntoor have been corrected for a similar reason.

Revenue Board Office, Fort St. George,

Masulipatam under the head of "Rent for more than one year," but as these sums were carried to account in the D. C. B. Statement under Sevoy Jummah entries for Ganjam, Masulipatam, and Guntoor, have been corrected for a similar reason.

B. CUNLIFFE,
Secretary.

* The Commissioner's Statement now shows a balance of only Rupees 6,47,654, some sums recommended for remission having been excluded from it; but it was necessary to show here the full arrear according to the Demand Collection and Balance Statement.

† The Seyoy Jummah arrear has also been altered to the real amount shown to be due to the Government by the Demand Collection and Balance Statements.

Revenue Board Office, Fort St. George,
4th July 1855.

B. CUNLIFFE,
Secretary.

Col. 1.—Extra temporary establishments annually entertained, and the Batta paid to Revenue servants on Circuit form a principal part of this outlay.

Col. 2.—The charge in Madras is for the purchase of Arrack.

Col. 4.—In consequence of the distress of the smaller ryots, a larger advance was made than in the previous year.

Col. 5.—The manufacture was increased under the orders of Government to keep on hand a stock equal to the consumption of 2 years.

Col. 10.—Allowances to Pagodas and Chuttrums and various payments on account of Government, detailed in the Collector's accounts, compose this outlay in Tinnevely. In Malabar the outlay was on account of Public Works.

Col. 11.—The construction of Barracks and Roads on the Neilgherries and the expense of working the Annamalai forests, constitute the outlay in Coimbatore.

Col. 12.—The survey in South Arcot and the Government plantations in Bellary are included in this Column with many other minor charges.

Revenue Board Office,
Fort Saint George, 4th July 1855.

B. CUNLIFFE,
Secretary.

REVENUE DEPARTMENT.

No. 285.

Extract from the Minutes of Consultation under date the 11th March 1856.

Read again letter from the Secretary to the Board of Revenue dated 4th July and entered in Consultation 11th September 1855.

1. This paper is the general report of the Board of Revenue on the Revenue of the Madras Presidency for Fusly 1263, (A. D. 1853-1854); and among the enclosures is the Report of the Commissioner of the Northern Circars on the Districts under his charge for the same Fusly. The Right Honorable the Governor in Council has read with much interest the details so clearly and comprehensively given, especially those relating to the disastrous circumstances of the season, and the consequent fluctuations of the Revenue, in the several Districts. It is unnecessary however for Government to go over the same ground; and their remarks will therefore be confined to the notice of those points which require an order, or appear to merit special mention.

2. The first particular which seems to call for such notice is the abolition of the Dittum, adverted to in para. 21. The Government fully agree with the Board in their description of the inutility of this operation as well as the inconveniences which its performance involves; and they fully concur with them in the propriety of dispensing with it for the future. It appears however to his Lordship in Council that some more precise and definite rule will be required in lieu of it, than that here proposed by the Board; and he would wish them to take the subject into consideration in communication with the Collectors. Not only relinquishment of land but transfers also will need to be notified; and time will be wasted at the Jummabundy unless this is done punctually and completely.

3. In connection with this subject that of Dittum bunzer requires regulation. In some districts, Ryots are in the habit of retaining much land which they never or very rarely cultivate, and which is annually struck out of the demand at the settlement. This is an abuse; saving unavoidable waste from clear circumstances of season, occupancy of land should involve the payment of the assessment. The Board have already given their attention to this subject in treating of the revision of the assessment in North Arcot; * and the Government in reviewing those proceedings declared their full concurrence in the sentiments expressed by the Board, and their wish that they should be borne in mind in the case of other Districts also. † The rule should be as there laid down, that the taking and retaining of land should be entirely free, and to that end the arrangements alluded to in the preceding para. should be adapted; but that all land in occupation should be paid for, except in the rare and special contingency described. No doubt the high rates of assessment would make it impracticable to enforce this rule with perfect strictness at present; but even now the minute rules as to remission of waste, of Nautungaul, and of shamlat bunzer, may be modified, especially in those Districts where the assessment is lightest; and thus some approach can be made even now to a simpler and better system, to the gain even of the Ryot.

4. In para. 24, the Board give a table purporting to shew the average assessment per acre on the various descriptions of land in each of the field assessed Districts under their control. This table however gives merely the Tarum Assessment without deduction of the permanent remission allowed in Bellary and Cuddapah, and it is presumed elsewhere also, as in North Arcot and Madura, on the tarum rates. It is desirable that in future the Statement should be corrected by the exclusion of those permanent remissions, so as to represent the actual ordinary demand. Even as it is, the table shews the extreme inequality of the assessment in the various Districts; thus while the average rate per acre is Rupees 2, annas 11, in South Arcot; and Rupees 3, anna 1, in North Arcot; in Bellary it is only ten annas, (corrected) and in Tinnevely only twelve annas; and yet it is well known that both these Districts contain a large extent of very rich and productive dry land.

* Progs. Jany. 11th 1855, para. 18.

† E. M. C. April 23d 1855, para. 12.

5. In para 28, the Board suggest that it might be expedient to remit the second crop assessment now imposed on sugar cane when grown on one crop land. The reason for this impost is that the cane crop occupies the time and consumes the water of two rice crops; and the Board allege in favor of a change, that they are led to believe that it does not consume quite so much water. The existing rule was fixed after deliberation, and the Government believe it to be a sound one. They believe that more careful enquiry would satisfy the Board that a cane crop does consume fully as much water as two crops of rice; but even if it were true that it does not require quite so much, the difference certainly is not great, and the time of the crop on the ground is even more. If the nicety for which the Board here plead in estimating the quantity of water used, be admitted in this case, it must be so in the system of taxation generally. A Sumba crop must then pay more than a Car crop, and a crop in the hot weather more than one in the cool; thus would be brought in under the plea of exactly charging for the water used, that distinctive taxation of particular products, which is now so universally condemned and sought to be got rid of. The Government are desirous to relieve sugar cultivation of all unfair burdens, but they are not disposed to foster that or any other special product by favorable taxation. It must be remembered too, that cane cultivation already enjoys one advantage over that of rice, viz. in the immunity of the produce from export duty to which rice is subject.

6. It has already been said above, that Government regard the present practice as fair on general considerations, and it may be added that they fail to see in the statement now before them any evidence of its injurious effect. The Board speak of the whole extent of cane cultivation as small, being nearly 22,000 cawnies out of about $13\frac{1}{2}$ lacks, or $1\frac{1}{2}$ per cent. But there are many circumstances to limit the cultivation of cane in this country; the extent of land suited to it is very limited; it needs a considerable command of capital, which is rare among the agricultural class; and it requires a peculiar skill, which as a fact is now found in only a few localities; lastly, except in very small quantities sugar is not an article in general use in this country; from the poverty of the people; and that steady demand which is necessary to effect any considerable extension of the cultivation, must be looked for at present as a general rule in the establishment of purchasing depôts for the European Markets, which as yet are only thinly scattered over the country. Far from seeing reason to suppose that the culture is now generally checked by over-taxation, the Government deem it a fact of good promise that in so very unfavorable a year as that now under notice a material extension of the cultivation took place. Where the ordinary assessment is so heavy as to check the cultivation of sugar, as is stated to be the case in Kurnool, it must be too heavy for any crop; and the Government will be fully prepared to listen to recommendations of reduction in such cases.

7. In para. 38, the Board notice the village of Tungacherry in Malabar rented to the Travancore state. They observe that heretofore a portion of the Rented Beriz has been credited to the tobacco monopoly and the remainder to "Small farms and licenses;" and they add that henceforward the whole will be credited to the latter head. This however appears to Government a mistake; the village being rented, the proper course would seem to be to credit the receipts under land revenue to the head of "rents for more than one year." The Board will be good enough to explain if there any sufficient reasons against this course.

8. Of the total demand in the sixteen Districts under the Board, being Rupees 359,70,202, the collections within the Fusly amounted to Rupees 334,20,316, being 93 per cent.; the outstanding balance at the end of December 1854, being nearly six months after the close of the Fusly was Rupees 7,84,611. But out of this amount above four lacks in Tanjore (Rupees 4,08,009) was only nominal, and has since been remitted by order of Government. The real balance therefore at the date above mentioned was only Rupees 2,76,602 being $\frac{3}{4}$ per cent, on the whole demand. It does not appear what subsequent collections were made; but no doubt this balance received investigation at the settlement of Fusly 1264, and the result will be brought before Government in the report on that year.

9. The Ryotwary arrears of former years are stated by the Board at Rupees 3,55,291, of which Rupees 1,44,057-1-11 is styled irrecoverable; of this amount however only the remission of Rupees 65,386-11-10 is now asked for, as the remainder Rupees 78,670-6-1 has been already remitted by Government. Sanction is now accordingly granted for writing off the former sum viz. Rupees 65,386-11-10, as particularized in Statement 22 appended to the Board's report.

In future years it will be better that the Board should correct the district statements of outstanding arrears received in their Office, by striking out sums remitted by Government after the date of such Statements, so that their own Statement laid before Government may represent only the actual arrears.

10. According to Statement 21, the amount of Ryotwar arrears in the Board's Districts up to the end of 1852, is no less than Rupees 2,11,234 of which Rupees 1,80,818, is styled recoverable, and Rupees 30,416 doubtful. It is very desirable that these balances also should be fully investigated and finally settled. Whatever portion may be found really to be fairly recoverable should be put in train of realization without delay, and the remainder should be at once struck out of the demand. In the following districts it is observed that the old arrears retained are very large; Chingleput, Rupees 31,575; Nellore, Rupees 31,466; Tanjore, Rupees 85,756; Madras, Rupees 22,063.

11. Sanction is also granted as requested in para. 49, for writing off Rupees 2,094-1-3, arrears on account of the several extra sources of revenue according to Statement 23, and Rupees 4,893-6-1, according to Statement 24, on account of arrears of Sevoy Jumma. These remissions leave the sum of Rupees 897-14-10, under the various heads of extra sources, and Rupees 88,561-7-6, under that of Sevoy Jumma or extra revenue. Of the latter amount Rupees

85,655-10-8, is in North Arcot, and consists almost entirely of the demand of interest held in suspension by order* of Government against the Cauvetnugger Zemindary; as to the remainder under both heads, it is desirable that it should be brought to early settlement either by remitting it or writing off. It is not stated to what Fuslies these arrears belong; but, it is presumed that they include all for years anterior to Fusly 1263. Statement 23 is incomplete for want of columns to show the totals of all the several branches of Revenue included in it.

12. On the Statement of Revenue charges in para. 52, it is to be observed that before that Statement can be of real value either as representing the actual charges on the revenue, or for comparison with similar statements in the other Presidencies, it must be prepared on a different basis. The Government will not enter fully into this question at present, but will point out some particulars in which the Statement needs revision. The charges for irrigation include new works, which cannot be regarded as a fair charge on current Revenue. Again, the cost of the roads made in Bellary, the cost of roads on the Neilgherry Hills, and the cost of the Neilgherry barracks, are included, though none of them are properly Revenue charges at all. Tuccavy again cannot be regarded as a charge, being only a recoverable advance; and even the Yeomiah's and other such allowances, though charged to the Revenue Department appertain in reality rather to the Political or the General.

13. The Government will now notice the Report of the Commissioner of the Northern Circars; on which however as in the case of the Board's Report, though it contains much valuable and interesting matter, it is not necessary to remark at any length. In the Circars also the season was one of much disaster; while there was a general deficiency of rain, there was an inundation of the Kistnah which was productive of much damage. The year illustrated

Para. 24. the value of the Godavery irrigation in Rajahmundry, where the remissions amounted to only $2\frac{1}{2}$ per cent. while in the other Districts they ranged from 9 to 13 per cent.

14. In para 31, the Commissioner speaks of the Ryotwar Balances. The Revenue was collected with fair punctuality. In Ganjam it appears to be the Commissioner's opinion that a part of the arrears should be remitted on account of peculiar circumstances; and his report on Fusly 1264 should embody his recommendation on this point. In Guntoor a large part of the arrear is only nominal; being the amount of the remuneration allowed in that form to certain village servants, pending a final settlement of their emoluments. As directed in Extract Minutes of Consultation 30th October 1855, this whole amount will be entered as collected; and will then be debited as paid to the village servants. In the other three Districts the outstanding arrear at the end of February 1855 was very small; in Vizagapatam only one third per cent. on the demand.

15. In para. 32, the Commissioner treats of the old arrears; and agreeably to his recommendation, sanction is given for writing off arrears of land Revenue Ryotwar, Rupees 44,903-4-3,

as detailed in his statement 22, and in the Board's statement of the same number. In the same para., the Commissioner asks sanction to write off various small arrears of extra sources and Sevoy Jumma, but he has given round numbers only without any detail of the exact sums. This practice of omitting fractions, very convenient and proper in mere general statements for information, is unsuitable in the case of accounts or when an order for money is to be passed. Mr. Goldingham will now be pleased to notify the exact sums to be remitted, in order that sanction may be given.

16. Exclusive of the arrears thus recommended to be written off there still remain old balance to the amount of Rupees 10,00,775. These should receive the Commissioner's early notice in view to their final settlement. His attention is called to the order of Government of August 1st 1855, calling for a report on the old balances. Of the total sum above specified as remaining after the remissions now proposed, viz. Rupees 10,00,775, no less than Rupees 3,49,911, is stated to be Sevoy Jumma, (Commissioner's statement No. 20.) But in the Board's Statement (No. 20) the amount of Rupees 9,953, and in No. 24, Rupees 9,935, is shewn as the balance; and in a note to the former statement it is explained that the correct amount according to the Demand, Collection and Balance Statement, is entered. It should be explained what the large remaining sum consists of; the discrepancy between the Board's two statements also needs explanation.

17. In passing orders on the Revenue reports of Fusly 1262 (Extract Minutes of Consultation November 6th 1854) Government ordered (para. 34) that the report of the Commissioner of the Northern Circars should be sent through the Board of Revenue, who should submit it with their own, and with one set of Statements in illustration of both; and this has accordingly been done on the present occasion. This arrangement however is found to create some confusion, inasmuch as the Board's report speaks generally of the districts under their own control, while the Statements to which those remarks refer include also the districts under the Commissioner. It is very desirable also that the Government should have before it one general and comprehensive Report of the Revenue of the Presidency without artificial and arbitrary geographical distinctions. It was with the intention of obtaining such a Report that the substitution of a general report for the former Reports on particular Districts was ordered; and the object is only partially attained under the present plan. The Right Honorable the Governor in Council is therefore pleased to direct that for the future the Board's Report shall comprehend the Northern Districts in every general particular; that is, that it shall include the same remarks and explanations respecting the season and its incidents and the fluctuations of the revenue, with the same notice of the collections and balances, and the same applications for remission of old arrears, as it would do if those Districts were under its immediate charge. In short, it is the wish of Government that the Board's Report should be really a General Revenue Report for the whole of the Madras Territories. The materials for doing what is now required will be at hand in the Commissioner's Report, and it is believed therefore that no great amount of additional labour will thus be entailed on the Board. The Government will still refer to the Commissioner's report for details not brought into the General Report of the Board.

18. It only remains to notice a few points in the accounts, which in the opinion of Government ought to be altered. From para. 35 of the Board's Report it appears that in their accounts the item of "Ameen devi coir" in Canara is credited to Small farms and licenses; in the Accountant General's books on the other hand it forms a head by itself. Both plans are open to objection; there is nothing really so distinctive as to require that this small item should be a separate head in the General books, and it is also out of place where the Board put it.

Again, from para. 40 it is seen that the forest revenue of Canara is in great part credited to Sevoy Jumma, though without any good reason, while an examination of the detailed accounts shews that part of it, merely because it is levied in the form of a "rent" or "farm" is credited to the head of Small farms and licenses. The receipts from the Annamalai Forests also are credited to Sevoy Jumma. As to the income from the forests and jungles generally in other Districts, it is for the most part credited to Small farms and licences, because levied in that form; while in others again it is credited under land revenue to the head of Ready money items. The revenue from Sandalwood in Coimbatore is credited to Sevoy Jumma.

19. Thus there is very little system in the way in which these various kinds of forest revenue are credited; but there seems no difficulty in determining what is the proper head.

All of the foregoing items belong undoubtedly to land revenue being derived from the land, and they ought therefore to be brought to account under land revenue. The proper head under that general head is "Ready money items;" but the designation of that head should be altered. It was appropriate and had a meaning when Land Revenue generally was taken in kind; as it included all the various small particulars which then were levied in money. But after the Land Revenue generally was commuted into money the term became quite unmeaning; and it may now with propriety be altered to that of "Sundry items." To this head all the various particulars above detailed should hereafter be credited, both in the Board's accounts and in the books of the Accountant General, as well as all the items now carried to "Ready money items," except where it may be otherwise ordered. Final orders on this point, however, as well as respecting the necessity of retaining the head of Small farms and licenses in the accounts at all, will be given after communication with the Accountant General, in connection with the revision of the revenue accounts now in progress. Meanwhile the items of Forest Revenue should be credited till further orders, to the head of "Ready money items."

20. To one point however the Government wish to draw the Board's attention without delay, viz. to the necessity of restricting the head "Sevoy Jumma" to its proper function. It is the practice in some Districts to credit systematically to this head receipts properly belonging to some regular head of account; for example, the Forest Revenue in Canara and the Sandalwood proceeds in Coimbatore, above remarked on. It is also customary in some districts to credit money receipts to this head temporarily for a few years which ought properly to be carried at once to some definite head of account, as for example, the collections from resumed Enams. This latter practice has indeed been materially restricted of late years, but still more restriction is necessary. Up to a very few years ago this head of account was kept very much out of sight; it is now subjected to more systematic control by the Board; but being an irregular and indefinite head, it is proper on every account, both for the orderly arrangement of receipts and for the prevention of fraud, that it should be strictly limited to those items which cannot find a place under any other head of account.

(A true Extract,)

(Signed) J. D. BOURDILLON,

Secretary to Government.

as detailed in his statement 22, and in the Board's statement of the same number. In the same para., the Commissioner asks sanction to write off various small arrears of extra sources and Sevoy Jumma, but he has given round numbers only without any detail of the exact sums. This practice of omitting fractions, very convenient and proper in mere general statements for information, is unsuitable in the case of accounts or when an order for money is to be passed. Mr. Goldingham will now be pleased to notify the exact sums to be remitted, in order that sanction may be given.

16. Exclusive of the arrears thus recommended to be written off there still remain old balance to the amount of Rupees 10,00,775. These should receive the Commissioner's early notice in view to their final settlement. His attention is called to the order of Government of August 1st 1855, calling for a report on the old balances. Of the total sum above specified as remaining after the remissions now proposed, viz. Rupees 10,00,775, no less than Rupees 3,49,911, is stated to be Sevoy Jumma, (Commissioner's statement No. 20.) But in the Board's Statement (No. 20) the amount of Rupees 9,953, and in No. 24, Rupees 9,935, is shewn as the balance; and in a note to the former statement it is explained that the correct amount according to the Demand, Collection and Balance Statement, is entered. It should be explained what the large remaining sum consists of; the discrepancy between the Board's two statements also needs explanation.

17. In passing orders on the Revenue reports of Fusly 1262 (Extract Minutes of Consultation November 6th 1854) Government ordered (para. 34) that the report of the Commissioner of the Northern Circars should be sent through the Board of Revenue, who should submit it with their own, and with one set of Statements in illustration of both; and this has accordingly been done on the present occasion. This arrangement however is found to create some confusion, inasmuch as the Board's report speaks generally of the districts under their own control, while the Statements to which those remarks refer include also the districts under the Commissioner. It is very desirable also that the Government should have before it one general and comprehensive Report of the Revenue of the Presidency without artificial and arbitrary geographical distinctions. It was with the intention of obtaining such a Report that the substitution of a general report for the former Reports on particular Districts was ordered; and the object is only partially attained under the present plan. The Right Honorable the Governor in Council is therefore pleased to direct that for the future the Board's Report shall comprehend the Northern Districts in every general particular; that is, that it shall include the same remarks and explanations respecting the season and its incidents and the fluctuations of the revenue, with the same notice of the collections and balances, and the same applications for remission of old arrears, as it would do if those Districts were under its immediate charge. In short, it is the wish of Government that the Board's Report should be really a General Revenue Report for the whole of the Madras Territories. The materials for doing what is now required will be at hand in the Commissioner's Report, and it is believed therefore that no great amount of additional labour will thus be entailed on the Board. The Government will still refer to the Commissioner's report for details not brought into the General Report of the Board.

18. It only remains to notice a few points in the accounts, which in the opinion of Government ought to be altered. From para. 35 of the Board's Report it appears that in their accounts the item of "Ameen devi coir" in Canara is credited to Small farms and licenses; in the Accountant General's books on the other hand it forms a head by itself. Both plans are open to objection; there is nothing really so distinctive as to require that this small item should be a separate head in the General books, and it is also out of place where the Board put it.

Again, from para. 40 it is seen that the forest revenue of Canara is in great part credited to Sevoy Jumma, though without any good reason, while an examination of the detailed accounts shews that part of it, merely because it is levied in the form of a "rent" or "farm" is credited to the head of Small farms and licenses. The receipts from the Annamalay Forests also are credited to Sevoy Jumma. As to the income from the forests and jungles generally in other Districts, it is for the most part credited to Small farms and licences, because levied in that form; while in others again it is credited under land revenue to the head of Ready money items. The revenue from Sandalwood in Coimbatore is credited to Sevoy Jumma.

19. Thus there is very little system in the way in which these various kinds of forest revenue are credited; but there seems no difficulty in determining what is the proper head.

All of the foregoing items belong undoubtedly to land revenue being derived from the land, and they ought therefore to be brought to account under land revenue. The proper head under that general head is "Ready money items;" but the designation of that head should be altered. It was appropriate and had a meaning when Land Revenue generally was taken in kind; as it included all the various small particulars which then were levied in money. But after the Land Revenue generally was commuted into money the term became quite unmeaning; and it may now with propriety be altered to that of "Sundry items." To this head all the various particulars above detailed should hereafter be credited, both in the Board's accounts and in the books of the Accountant General, as well as all the items now carried to "Ready money items," except where it may be otherwise ordered. Final orders on this point, however, as well as respecting the necessity of retaining the head of Small farms and licenses in the accounts at all, will be given after communication with the Accountant General, in connection with the revision of the revenue accounts now in progress. Meanwhile the items of Forest Revenue should be credited till further orders, to the head of "Ready money items."

20. To one point however the Government wish to draw the Board's attention without delay, viz. to the necessity of restricting the head "Sevoy Jumma" to its proper function. It is the practice in some Districts to credit systematically to this head receipts properly belonging to some regular head of account; for example, the Forest Revenue in Canara and the Sandalwood proceeds in Coimbatore, above remarked on. It is also customary in some districts to credit money receipts to this head temporarily for a few years which ought properly to be carried at once to some definite head of account, as for example, the collections from resumed Enams. This latter practice has indeed been materially restricted of late years, but still more restriction is necessary. Up to a very few years ago this head of account was kept very much out of sight; it is now subjected to more systematic control by the Board; but being an irregular and indefinite head, it is proper on every account, both for the orderly arrangement of receipts and for the prevention of fraud, that it should be strictly limited to those items which cannot find a place under any other head of account.
