(a) In 1905-06 the major portion (about 78 per cent) of the Sambalpur district was transferred from Central Provinces to Bengal. The remaining portion together with the districts of Raipur and Bilaspur was formed into the three districts of Drug, Raipur, and Bilaspur. The figures for the years 1903-04 and 1904-05 for the whole of the old Sambalpur district are shown in the tables for Bengal in this volume.

TABLE No. 4—LIVE-STOCK, PLOUGHS, AND CARTS.

This table deals with agricultural stock. The headings of the form now in use differ from those of 1866 and 1884 in the following respects :

1866 III D—2	1884 III D—2	1891 A—4
Cows and bullocks	Cows and bullocks	{ Bulls and bullocks. Cows.
.....	Buffaloes	{ Male buffaloes. Cow buffaloes.
.....		Young stock (calves and buffalo calves).
Horses }	Horses and ponies	Horses and ponies.
Ponies }	Mules and donkeys	Mules and donkeys.
Donkeys	Sheep and goats	{ Sheep. Goats. Camels.

In most provinces mules have been separately enumerated since 1899-1900.

GENERAL NOTES.

In some provinces the figures include, and in others exclude, animals in towns, cities, and cantonments. The Government of India decided in 1896 that live-stock in cities and cantonments should be included wherever it is possible to secure their enumeration, and that oxen and buffaloes not old enough for work or to produce young should be treated as "young stock."

The figures generally are greatly lacking in accuracy.

PROVINCIAL NOTES.

Upper and Lower Burma. The figures of live-stock in Upper and Lower Burma were collected until 1897-98 by thugyis or headmen when preparing the capitation tax or *thathameda* (household tax) rolls, or when required for the statement. Cattle were not counted on any particular day.

From 1898 to 1907 annual statements of cattle and agricultural implements were prepared in Lower Burma, during the field season, by circle thugyis and revenue surveyors.

Since then annual returns of agricultural stock are prepared by village headmen, revenue surveyors and *taikthugyis*, the enumeration taking place about the 20th February in each year.

The figures include all animals in towns and also those employed in each district by Government departments, such as transport, military, police, and by municipalities.

Assam. The statistics are based on a cattle census taken every five years. The census is, however, not taken at one time throughout the province.

In the Assam Valley districts (excluding the permanently-settled tracts of Goalpara) the last census was taken in 1904. In Cachar it was taken in 1907, and in the Garo Hills (plains portion only) in 1908.

In Sylhet the last census was taken in 1904 in the Jaintia Parganas only; for the rest of the district an estimate was made on the assumption that the proportion between cattle and population found in the Jaintia Parganas holds good in the rest of the district.

Eastern Bengal. Statistics of live-stock are collected only in tracts where surveys are being made or a record of rights prepared. The figures, however, are not collected each year, but for each tract when the tract is under survey. In the present table figures have been given only for the two districts of Backerganj and Chittagong, of which the whole area has been cadastrally surveyed.

Bengal. Statistics of live-stock are collected only in tracts where surveys are being made or a record of rights prepared. The figures, however, are not collected each year, but for each tract when the tract is under survey. In 1908-09 complete estimates of the number of live-stock in each district were made for the first time.

United Provinces. Until 1897-98 the figures of live-stock were obtained by an annual census made by the patwari when he made his round for the record of the spring crops. A rough record of the detail for each tenant was made by the patwari and tested from time to time by the kanungo. The resultant totals were preserved in the patwari papers. The table is now prepared quinquennially on a census in each district taken every five years. The last census was taken in 1908-09 in all the districts, except Almora and Garhwal, under the supervision of the superior kanungoes and such members of the district and tahsil staff as could be spared. For Almora and Garhwal the figures collected in the previous census of 1893-99 were retained. The figures obtained by the quinquennial census are believed to be more accurate than the earlier figures.

The table is prepared quinquennially, and the figures were last collected in 1908-09.

Ajmer-Merwara.

An annual census is taken on the 15th March.

Manpur.

Until 1897-98 the table was based on figures furnished by patwaris who made an enumeration of the cattle in a village every fourth year, when a detailed jamabandi was prepared. The enumeration was not made on a particular day, but whenever the patwari found time for it, between April and August. The result was that in a fourth of the province an enumeration was made every year, and the fresh figures for that fourth part were incorporated in the annual statement by subtracting from the preceding year's figures the old statistics and adding the new figures. This system has been replaced by a census for the whole province to be taken every fifth year in the first week of February. The last census was taken in February 1909.

Punjab.

Until 1896-97 stock in cantonments was excluded except in Lahore. Since that year cattle in cantonments and municipalities have been included; and since 1897-98 all cattle belonging to Government have been included.

A census for the whole province is taken every fifth year in the first week of February. The last census was taken in 1909. All cattle belonging to Government were included.

N.-W. Frontier.

Until 1901-02 the figures were collected annually by village officers at a house-to-house enquiry in June. In that year it was decided that they should be collected once in five years, and the first quinquennial return of live-stock was prepared for 1905-06. The next return will be due for 1910-11.

Bombay.

All animals belonging to a family are entered against the name of the head of the family even though the animals are temporarily absent from the village. Animals belonging to other villages are excluded, and those belonging to a roving grazier who has no permanent residence are noted, but are not included in the village resources. The figures are regularly tested by circle inspectors (kanungoes).

Stock statistics are not collected in the city of Bombay. Arrangements are, however, being made for the enumeration of stock there in 1910-11.

The figures were collected for the first time in 1899-1900; and, as in Bombay, it was decided in 1901-02 that they should be collected once in five years, and the first quinquennial return of live-stock was prepared for 1905-06.

Sind.

The figures are collected annually, between the 1st January and the 15th March, by the patwaris for each village of the areas in their charge. The total figure is recorded in the tahsil by the kanungo in a village register. The patwari takes into account all animals, including those temporarily sent elsewhere (e.g., for grazing), which belong to residents of the village, and excludes animals which are temporarily in the village for grazing or other purposes, but do not belong to residents. Stock in cities, large towns, and cantonments has been included from 1896-97 and that in forest villages from 1907-08.

Provinces.

A census is made annually by the village officers.

All cattle belonging to one owner are entered against his name, even though the animals are temporarily absent from the village. When an owner cultivates land in more than one village, the actual number in each particular village on the night of enumeration is entered in the statement for that village. Cattle belonging to other villages, but temporarily in the village for grazing, are not entered in the statement for that village.

Berar.

Previous to 1884 a census was taken every five years. From that year until 1898-99 a census of cattle in Government villages was taken annually, but it was then decided to revert to the former practice and take a census every five years. The last quinquennial census was taken in 1904-05. In inam villages, however, there is no suitable agency for the work, and Collectors obtain information for these villages as best they can: it is not known to what extent any census is made in them. No information exists regarding live-stock in permanently-settled (samindari) estates.

Madras.

The table includes stock statistics of all towns and cantonments except those in zamindaris, and those which do not form part of any revenue village and where the statistics are not collected because there is no agency for the purpose.

The table is prepared quinquennially on a census taken every five years.

The last census was taken in March 1905 by the circle shanbogs, and the particulars entered in a register maintained under Rule 73 of the Rules framed under the Coorg Land and Revenue Regulation, 1899.

Coorg.

Animals in municipal towns are included.

Figures are given only for the two districts of which the whole area has been cadastrally surveyed, and the information was collected gradually during survey operations extending over several years. These two districts have a population of 3,645,000, being 15 per cent of the provincial total, and contain 14 per cent of the cropped area of Eastern Bengal.

See explanation given in the Explanatory Notes (page 256)

See explanations given in the Explanatory Notes (page 257)

TABLE No. 5—LAND REVENUE.

This table is intended to indicate the relation between area, population, and land revenue, or, in other words, to exhibit the mean burden of the State assessment on the land assessed to it and on the community at large. It was prescribed in 1884, and revised in 1893. Similar information previous to 1884 is contained in Tables I D, I E—2, and I E—6, appended to the General Administration Reports.

The two main classes of tenure, (1) raiyatwari and (2) zamindari and village communities, specified in 1884, were not exhaustive, and the provincial administrations were allowed to make additions in accordance with local requirements. The table now states all tenures under one or other of three heads, namely, (1) raiyatwari, (2) zamindari and village communities (temporarily settled), and (3) zamindari (permanently settled).

The present form differs from that prescribed in 1884 in the following respects:—

1884	1893
I.—(1) Raiyatwari (2) Zamindari and village communities	(1) Raiyatwari. (2) Zamindari and village communities (temporarily settled). (3) Zamindari (permanently settled).
II.—Deduct area not fully assessed, including estates assessed at privileged rates.	Deduct { (a) Area not fully assessed. (b) Area for which the returns required for this table are not available.
III.—Balance of area fully assessed.	Balance, that is, fully assessed area for which returns are available. (a) Total. (b) Cultivated.

GENERAL NOTES.

In July 1893 the following rules were prescribed for filling in this table:—

Entry 1 in general table No. 5 (pages 284—289), column 2 in provincial tables Nos. 5 (A to O) (pages 296—322).

The varieties of tenure entered should be included, as far as possible, under one or other of the following heads, namely, (1) raiyatwari, (2) zamindari and village communities (temporarily settled), and (3) zamindari (permanently settled).

Entry 2 (a) in general table (pages 284—289), column 3 (a) in provincial tables (pages 296—322).

Areas held revenue-free or at privileged rates should be deducted, but the deduction need not be made where such areas are in any case less than an entire village, and where there is any difficulty in estimating the corresponding deduction to be made in the population head 10 (column 11). In Madras, Bombay, and Berar all land on which a full assessment has not been leviable during the year (for instance, assessed unoccupied land) should be classed for the purposes of this column as "area not fully assessed." Areas should not be entered in this column merely because the assessment due from them has been suspended or remitted on account of short crops, or for other special reasons.

Entry 3 in general table (pages 284—289), column 4 in provincial tables (pages 296—322).

This column should be subdivided into (a) total fully assessed area for which returns are available, and (b) area cultivated out of the area given in head (a). The latter head should be equal to the former after deducting current fallows and fully assessed waste, and should be either equal to or less than the net cropped area as shown in column 6 of Table No. 2.

Entry 4 in general table (pages 284—289), column 5 in provincial tables (pages 296—322)

Where the land revenue includes the zamindar's share, the net demand should be entered, and the table should state the payments due by the zamindars to Government, not those due by raiyats to the zamindars. The actual realisable demand for the year should be entered, after excluding arrears for past years. Sums remitted on account of unoccupied lands, short crops, etc., should be excluded. In 1904 it was decided by the Government of India that this column should include all the heads classed as "Land Revenue" in the Civil Accounts.

Entry 7 in general table (pages 290—295), column 8 in provincial tables (pages 297—323).

As in entry 4 (column 5), but only ordinary land revenue on fully assessed areas is to be

Entry 8 in general table (pages 290—295), column 9 in provincial tables (pages 297—323).

To be entry 7 (column 8), divided by entry 3 (a) [column 4 (a)].

Entry 9 in general table (pages 290—295), column 10 in provincial tables (pages 297—323).

To be entry 7 (column 8), divided by entry 3 (b) [column 4 (b)].

Areas under forest are included in entry 1 (column 2), under the prevailing tenure of the province.

The population in entry 5 (column 6) is that of the last general census.

PROVINCIAL NOTES.

Upper Burma.

Columns 1 and 3 (a) (page 296).—No areas are now classed as zamindari, as no system of communal assessment prevails. Column 3 (a) shows grants under Appendices I and II of the Rules under the Upper Burma Land and Revenue Regulation. Before 1902-03 such grants were classed as zamindari (temporarily settled).

Column 3 (b) includes non-State lands in districts where no land revenue rates are yet imposed and where the *thathameda* rates have not yet been adjusted.

Column 4 (a) contains figures of State and non-State lands assessed to land revenue, including current fallows which are not assessed to land revenue. This column also includes the areas of waste land grants of which the rates have been fixed in perpetuity.

Column 5 states ordinary land revenue, *thathameda*, water rate, rents of fisheries, and items under "Miscellaneous Land Revenue," appearing in the Civil Accounts.

Column 8 (page 297) states the ordinary land revenue, as defined in the Civil Accounts, on areas fully assessed.

Column 11.—The population of villages and kwins is considered as belonging to fully or not fully assessed area accordingly as the greater portion of the village or kwin lands are or are not fully assessed.

Lower Burma.

Column 1 (page 298).—No areas are now classed as zamindari, as no system of communal assessment prevails. Before 1893-94, however, all grants made under the waste land rules were classed as zamindari (temporarily settled); and since that year until 1902-03 grants under the waste land rules of Arakan (1839-41), and Pegu (1865), were classed as zamindari (temporarily settled), while grants under Lord Canning's rules (1863) were classed as zamindari (permanently settled).

Column 3 (a) includes special grants which are not yet fully assessed.

Column 3 (b) includes old grants exempt from the payment of revenue under special terms.

Column 4 (a) states the areas of occupied lands, cultivated or left fallow; it also includes the areas of waste land grants of which the rates have been fixed in perpetuity.

Column 4 (b) excludes current fallows.

Column 5 shows ordinary land revenue, rents of fisheries, and the items under "Miscellaneous Land Revenue," appearing in the Civil Accounts.

Column 8 (page 299) states the ordinary land revenue, as defined in the Civil Accounts, on areas fully assessed; revenue on fallow areas which are treated as fully assessed is also included.

Assam

Column 1 (page 300)—*Raiyatwari* includes all unsettled Government waste and forest and areas in which house-tax or poll-tax is levied. *Zamindari (temporarily settled)* includes fee-simple grants, wholly or partially revenue-free tenures, and grants under progressive assessment; it also included up to 1901-02 certain temporarily settled estates in Sylhet, but from 1902-03 they have been included under *raiayatwari*.

Column 3 (a) excluded until 1902-03 an area of 21,000 acres of *lakhiraj* land in Goalpara, which was treated as fully assessed area on account of the difficulty of separating its population from that of the permanently-settled estates. It also excluded until 1903-04 about 78,000 acres of uncultivated land in the revenue-free estates.

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts.

Column 6 included the population of the Feudatory States in the Khási and Jaintia Hills until 1900-01, but from 1901-02 the column shows the population of British territory only.

Column 10 (page 301).—Since 1893-94 the incidence has been calculated on the cultivated portion of the fully assessed area. Information has not been available for the cultivated portion of the fully assessed area in Sylhet from 1903-04, in Kamrup from 1905-06 and in Nowgong from 1906-07.

Eastern Bengal.

The table is prepared quinquennially, and the figures were last collected in 1904-05.

Column 1 (page 302).—Since 1896-97 the following classification of estates has been adopted:—

(1) *Zamindari (permanently settled)* including estates managed for proprietors by Government.

(2) *Zamindari (temporarily settled)* comprising (a) all temporarily settled estates, namely, those settled for periods with proprietors, and estates leased to farmers for periods; and (b) all estates owned by Government as proprietor.

Column 2 stated until 1896-97 the area of estates borne on the revenue roll of the district, whether entirely situated within the district boundaries or not, and did not include lands of estates partly situated within the district boundaries but borne on the revenue roll of another district. This accounted for the discrepancy between the district areas stated in this column and those entered in table No. 1.

Since 1896-97 the area in this column agrees with the area entered in table No. 1. It represents the total area by survey less the area of Feudatory States.

Column 4 (b) includes in certain cases fully assessed current fallows.

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts.

Bengal.

The table is prepared quinquennially, and the figures were last collected in 1906-07.

Column 1 (pages 304—306).—Since 1896-97 the following classification of estates has been adopted:—

(1) *Zamindari (permanently settled)* including estates managed for proprietors by Government.

(2) *Zamindari (temporarily settled)* comprising (a) all temporarily settled estates, namely, those settled for periods with proprietors, and estates leased to farmers for periods; and (b) all estates owned by Government as proprietor.

Column 2 stated until 1896-97 the area of estates borne on the revenue roll of the district, whether entirely situated within the district boundaries or not, and did not include lands of estates partly situated within the district boundaries but borne on the revenue roll of another district. This accounted for the discrepancy between the district areas stated in this column and those entered in table No. 1.

Since 1896-97 the area in this column agrees with the area entered in table No. 1. It represents the total area by survey less the area of Feudatory States.

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts.

United Provinces.

The table is prepared quinquennially, and the figures were last collected in 1906-07.

Columns 3 (a) and 3 (b) (pages 308—310) exclude small revenue-free plots, for which details are not forthcoming.

Column 4 (b) states the net cropped area of the year corresponding with that in column 4 of table No. 3 (area under crops) but limited to the fully assessed area for which returns are available of column 4 (a).

Column 5 states—(1) "ordinary revenue," comprising (a) fixed collections, (b) fluctuating collections (including collections from estates under direct management), (c) surplus collections and (d) collections from Government estates; (2) sale-proceeds of Government estates; (3) sale-proceeds of waste lands and redemption of land tax, comprising (a) capitalised value of abatement of land revenue, etc., and (b) other receipts; (4) "miscellaneous," comprising (a) malikana revenue, (b) fines and forfeitures of revenue courts, (c) recoveries in India of law charges in England on account of appeals from India, (d) rent of railway class C lands and rents of buildings situated on such lands, (e) recoveries on account of law charges in civil suits, (f) recoveries of cost of erecting boundary pillars, (g) contribution on account of establishment for attached estates, (h) miscellaneous receipts, (i) mutation fee, (j) mutation fines, (k) sale of waste paper, (l) land revenue on resumed gorait jagirs in Basti, (m) receipts from quarries and minor mineral products in forests and land not under the management of the forest department, (n) recoveries of building advance to patwaris, (o) water mill rent, (p) voluntary contributions for the maintenance of special patwari circles, and (q) patwari miscellaneous receipts (including receipts for sale of waste patwari records).

Column 6.—The total population of the provinces excludes the population of the family domains of the Maharaja of Benares in the Benares and Mirzapur districts, except that of the Gangapur taluka in Benares.

Column 11 (pages 309—311) includes population of revenue-free lands when the area of such lands is less than an entire village. The inclusion does not materially affect the incidence entered in column 12.

No figures have been entered in columns 8 to 13 opposite "Lucknow, permanently settled," as no portion of the permanently settled area has been fully assessed to land revenue.

Columns 13 and 14.—The figures are taken from the latest census report.

The table is prepared quinquennially, and the figures were last collected in 1906-07.

Ajmer-Merwara.

Column 1 (page 310).—Since 1893-94 the khalsa area has been classed as "zamindari and village communities (temporarily settled)" and the jagir and istamrâri areas as "zamindari (permanently settled)".

Column 4 includes in the case of the khalisa villages the assessed cultivated area, including assessed fallows.

Column 5 states ordinary and miscellaneous land revenue appearing in the Civil Accounts.

Column 10 (page 311).—The cultivated area is, in the case of "zamindari (temporarily settled)," the cropped portion of the fully assessed area.

Column 11 excludes population of jagir villages.

Entry 5 (page 287) includes since 1893-94 the population of jagir villages which was Manipur, previously omitted.

Columns 3 (a) and 3 (b) (page 312) include villages receiving frontier remissions, tracts Panjab, which are entirely unassessed (such as the Kulu mountains), and istamrari tenures.

Column 5 includes assigned revenue. As regards the heads of land revenue included in this column until 1903-04, the practice was not uniform, different districts having included different items. From that year the column includes all the items falling under the head "Land Revenue" in the Civil Accounts.

Column 10 (page 313).—The cultivated area taken for calculating the incidence is, since 1893-94, exclusive of current fallows.

Columns 3 (a) and 3 (b) (page 314) include villages receiving frontier remissions and istamrari tenures.

N.-W.
Frontier.

Column 4 (b) includes fully assessed current fallows which bore any crop in the preceding year.

Column 5 shows all the items falling under the head "Land Revenue" in the Civil Accounts, including assigned revenue.

Column 10 (page 315).—The cultivated area taken for calculating the incidence is exclusive of current fallows.

Sind.

Column 3 (a) (page 314) includes fallows and fully assessed unoccupied area.

Column 4 excludes fallows and fully assessed unoccupied area [see note to column 3 (a)]. Fallows are assessed once in five years.

Column 5 states ordinary and miscellaneous land revenue appearing in the Civil Accounts.

Column 10 (page 315).—The incidence is calculated from the cultivated area (excluding fallows) and the assessment on that area.

Column 1 (page 316).—Lands held under special tenures, such as talukdari, meh-wasi, udliad-jamabandi, narvadari, and bhagdari in Gujarat, and khoti and izafat in the Konkan, are classed as "zamindari and village communities (temporarily settled)."

Bombay.

Column 3 (a) includes alienated area and the area held free of revenue or the revenue of which has been reduced by special agreement, and also the fully assessed unoccupied area since 1893-94.

Column 3 (b) includes land not available for cultivation or unassessed.

Column 4 includes land under temporary cultivation; also pôt inâms paying full assessment.

Column 5 states ordinary and miscellaneous land revenue appearing in the Civil Accounts.

Column 10 (page 317).—The incidence is calculated from the occupied area, which, in the Presidency proper, is treated as the cultivated area for the purposes of this table, and the assessment on that area.

Column 11 includes population of pôt inâms and the like scattered areas which cannot be distinguished from the population of the fully assessed area.

Column 12.—The incidence is based on the figures given in column 11 and those in column 8, plus the amount of full assessment on privileged lands held in fully assessed villages at less than that assessment.

Column 1 (page 318).—Zamindari (temporarily settled) includes malguzari and thekadari.

Column 2 states the area by village papers (column 6 of table No. 1).

Central
Provinces.

Column 3 (a)—Zamindari estates properly so-called (that is, excluding malguzari) are classed as not fully assessed.

Column 4 (b) excludes fallows since 1894-95.

Column 5.—The figures represent different items of land revenue for different districts, no uniform practice having been followed throughout the province.

Column 10 (page 319).—The cultivated area referred to in this column included fallows until 1894-95. Since then the net cropped fully assessed area has been taken in calculating the incidence.

Column 3 (a) (page 320).—This column states jagir, izâra, and palampat villages, all unassessed land, forest areas, village sites, ponds, rivers, etc.

Berar.

Column 4 (a).—Pôt khard lands are excluded from this column, which includes only occupied lands available for cultivation.

Column 4 (b) states the cultivated area in khalsa villages only.

Column 5.—The figures include the revenue derived from jagir, palampat, and izara villages. As regards the items of land revenue included, the practice has not been uniform, different districts having entered different items.

Column 6.—The population is that of the last general census.

Column 8 (page 321) includes assessment on occupied lands only, as stated in column 4 (a).

Column 10.—The incidence since 1896-97 has been calculated on the area entered in column 4 (b), that is, the cultivated area in khalsa villages only.

Column 11 excludes population of jagir and izara villages.

Madras.

The table is prepared quinquennially. The figures were last collected in 1908-09.

Column 3 (a) (page 322).—In the case of raiyatwari tracts this column states the area of unoccupied assessed lands, of all unassessed poramboke, of minor inam lands in Government villages held rent-free or subject to quit-rent, and of forest lands, excluding portions of the first mentioned two classes occupied under "miscellaneous;" and in the case of zamindari tracts the areas of hills, poramboke, and minor inams are entered. The entire area of whole inam villages is deducted in this column.

Column 3 (b).—Raiyatwari; includes the area of certain Agency tracts in Ganjam, Vizagapatam and Godavari and also the difference between the area by professional survey and the area according to village papers.

Column 4 (a).—Raiyatwari; states the total occupied area as stated in village papers.

Column 4 (b).—For certain districts areas actually cultivated and for certain others estimates or actuals supplemented by estimates are shown in this column.

Column 5 stated until 1903-04 only "ordinary revenue" according to the classification in the Civil Accounts. In the case of raiyatwari villages, this item comprised the net land revenue demand, excluding remissions and deductions, but including quit-rent on minor inams and miscellaneous revenue from the cultivation or occupation of lands not included in holding and also water-tax. In the case of zamindari and whole inam villages, it comprised the peshkash or quit-rent payable to Government, and the water-rate on lands included in such tracts, as also jodi or quit-rent on minor inams situated therein. From 1903-04 the column includes all the items falling under the head "Land Revenue" in the Civil Accounts.

Column 8 (page 323).—Until 1903-04 this column stated in the case of raiyatwari the net land revenue demand, excluding remissions and deductions and revenue from minor inams (quit-rent and water-tax); and in the case of zamindari it showed the peshkash or quit-rent payable to Government, excluding the jodi or quit-rent and water-rate on minor inams. From 1903-04 this column shows only the "ordinary revenue," as defined in the Civil Accounts, on areas fully assessed.

Column 10.—The cultivated area is, in the case of raiyatwari and zamindari lands, the net cropped area out of the area given in column 4(a).

Column 11 states the entire population of raiyatwari and zamindari villages, respectively.

Coorg.

The table is prepared quinquennially, and the figures were last collected in 1907-08.

Entry 2 (page 259) includes bané and cardamom lands.

Entry 4 shows ordinary revenue, sale-proceeds of waste lands, and miscellaneous land revenue.
