(a) Cleveland No. 3 from 1905 to 1916.

(b) G. M. B. from 1905 and Standard from 1911.

(c) Standard from 1912.

(d) Middling American from 1905.

(e) West from 1905 (f) Dutch creameries from 1904 to 1914; Danish from 1915 (g) Coffee (Ceylon) was changed to coffee (E. I. Plantation) in 1899 (h) Bengal from 1912.

* Price in 1874. † English shoulders. ‡ Best Yorks Silks't'ne. § Lincoln Hogs in 1916 and Lincoln half Hogs in 1917.

NOTE.—The prices in this table, excepting those of wheat and bar silver, are the annual averages of prices reported in the monthly Trade Supplement to the *Economist* up to 1916 and those in the annual commercial review published in the *Economist* from 1917, the publication of the former having been discontinued from that year; prices of wheat are taken from the *Corn Trade News* as in the case of table No. 9 and those of bar silver are taken from quotations reported by the Bank of Bengal. Quotations for iron, wool and tea are compiled from the *Statist* from 1917.

NOTE.—In this table, the variations in the prices of gold (measured in silver) are arrived at by multiplying the price of bar silver in London in 1873 (59½d. by 100 and dividing the product by the price of bar silver in the particular year

Example—

Price of silver in 1899 = 27½d. (table No. 10); price of silver in 1873 = 59½d.; price of gold in 1873 = 100. The variation in the price of gold in 1899 is then worked out thus—27½ : 59½ :: 100 : 215

The variations in the prices of the other articles in this table are calculated thus: As the variation in the price of gold in table No. 11 is to the variation in the price of gold in this table, so is the variation in the price of the article in table No. 11 to the variation required

Example—

Variation in the price of gold in table No. 11 = 100; variation in the price of gold (measured in silver) in 1899 in this table = 215; variation in the price of copper (measured in gold) in 1899 = 86 (table No. 11). Therefore—100 : 215 :: 86 : 185

(a) Price of 1874 being taken as 100
