PREFACE

THE table (No. 1) of retail prices of food-grains and salt contained in Part I of this volume, and printed on pages 2 to 91, is a compilation from half-monthly statements received from most districts in India which are published regularly in the *Gazette of India*.

The districts are grouped with reference to their climatic character and rainfall, and for each such group and annual an a quinquennial average has been struck. The quinquennial averages are given in a separate table (No. 2), pages 92 to 131. Similar averages for the whole of each province have also been inserted.

Table No. 4 in Part I (pages 164 to 171) gives the prices of the most important food-grains at twenty-three stations in different provinces of the country, the stations being selected to give a fair indication of the general level of prices throughout each province.

Table No. 6 in the same part (pages 180 to 191) is compiled from monthly lists which have for many years past been prepared by the district officials in the Bombay Presidency for the information of the army. These tables contain the prices of provisions and tobacco in addition to the prices of food-grains. The prices of provisions are a fair indication of the cost of living among Europeans in the tracts to which the tables relate.

The record of wholesale prices in Part II (tables 10 to 19) is a compilation from the price-current of the Chamber of Commerce for Calcutta, from various statements for Bombay, Karáchi, Madras, and Rangoon, from the *Economist* for London, and from official statements.

Tables Nos. 23 and 24 in Part III are a series of statements of wages received annually from certain State railways and Government establishments, and from the owners or managers of industrial establishments in various parts of the country. These statements supplement the statements of wages in tables Nos. 20, 21, and 22.

Prefixed to the volume is a table of the equivalents, in annas per acre, of the term of sars per rupee in which retail prices are expressed in India generally and in Part I of this volume.

J. E. O'CONOR

Director-General of Statistics

June 30, 1899

CONTENTS

PART I.—RETAIL PRICES
