LOCAL OBSERVATIONS.

PART I.

BENGAL ALMANAC.

Local Observations.

JANUARY.

This is one of the most pleasant months in the year; its temperature is cool and refreshing, and extremely congenial to all but the victims of gout and rheumatism. The air at mid-day is generally clear and wholesome, but the mornings and evenings are sometimes damp and foggy.

The thermometer ranges, in the shade, from 52° in the morning to 65° in the afternoon.

A northerly wind prevails during this month, but seldom blows with much strength: when it does, and is accompanied with rain, the cold is very disagreeable.

In the meat market there is a plentiful supply of beef, mutton, veal, lamb, pork, kid, poultry, etc., of the most superior kinds.

Game also is to be had in great abundance—snipe, duck, teal, etc.

The fish market is well supplied at this season, with beekty, or cockup, (the salmon of the East,) moonjee, rooe, cutlah, quoye, sowle, selliah, bholah, eels, soles, and many others of inferior descriptions.

Vegetables of all kinds are now in the highest state of perfection; the markets abound with green peas, cauliflowers, cabbages, turnips, potatoes, asparagus, yams, carrots, spinage, greens, cucumbers, radishes, celery, lettuces, young onions, knol-khole, kutchoo, French-beans, seem, brinjals, red and white beet, etc., etc.

Fruit trees, in general, begin to show their buds and blossoms this month; mangoe, peach, pumplenose (shaddock), rose-apples, etc.

The fruits in season are Sylhet and China oranges, loquats, plantains, pine apples, long and round plums, large guavas, pumplenose, tipparah and a few others.

N. B.—The following fruits and vegetables, are procurable not only in this month but throughout the whole year, viz.—plantains, sugar-canes, cocoanuts, guavas, pine apples, papias, custard-apples, jack, country almonds, tangerinds, omrah, barbutty, mint, sage, parsley, onions, radishes, lettuce, etc.

FEBRUARY.

This month is generally cool and comfortable, particularly if the northerly wind prevails; the weather afterwards becomes disagreeable, till a change of season takes place about the end of the month.

When the weather is variable, the wind blows principally from the N. W., veering round occasionally to the N. E. attended with clouds and drizzling rain; this continues till about the 20th, when the Southerly wind sets in. The weather now becomes mild and genial; the days, however, sometimes rather hot, and the nights cold, with heavy dews.

The thermometer, in the shade ranges, on a medium, from 58° to 75° .

The measles in children, are very prevalent during the whole of this month.

Rheumatism and gout become less troublesome after the southerly winds have set in. Warm clothing becomes rather unpleasant to new comers, but not so to old Indians, whose blood is not so easily heated. Sometimes this month is rather showery, which protracts the cold season until the middle of the following month.

Meat continues good and abundant.

The fish market has the addition of the small hilsah, (the Indian mackerel.)

The additional vegetables are pumpkin and young cucumbers: and the fruits custard-apples, mulberries, and small water-melons.

LOCAL OBSERVATIONS.

The meat and fish markets are much the same as last month.

The pumplenose (shaddock) appears this month; pine-apples, custard-apples, and guavas continue in perfection.

The vegetables procurable are salad, asparagus, cucumber, brinjalls, kidney-beans, radishes, turnips, cabbage sprouts, and indifferent potatoes. Indian corn, cucumbers, and spinage, are to be had now and all the year round, but they are tasteless, except at this season, when they become firm, good, and very palatable. The avigato pear is sometimes procurable at this period.

SEPTEMBER.

The rains subside considerably during this month.

The wind continues light and variable, attended with occasional cloudy weather. The days are sometimes fair, mild, and bright,—and the temperature agreeable.

The thermometer ranges from 78° in the morning to 85° in the afternoon.

The meat market is much the same as in last month.

The fish market experiences but slight improvement; for although there is abundance of fish, yet it is not always firm and good, except the beekty, which becomes larger and better flavored. The following are also in the market:—the bholah, dessy tangrah, konteh, bhengirs, gungtorah, kowell, toontee, pyrah chondah, and crawfish.

Vegetables and potatoes are very indifferent; yams come in season about this time.

In the fruit market, small oranges make their appearance, but they are very acid. Custard-apples, pine-apples, guavas, and pumplenose continue in season.

OCTOBER.

The first half of this month, generally yields a good supply of rain, and introduces the powerful influence of a second spring season upon all vegetating bodies.

The rainy season breaks up generally between the 10th and 20th of this month; sometimes, however, it continues a little longer, but this is seldom the case; the concluding showers are frequently heavy, continuing from six to twenty-four hours, incessantly; after which the weather becomes fair, calm, and settled.

The thermometer ranges, in the shade, from 75° in the morning to 80° in the afternoon.

The winds are in general light and variable during this month, veering from south to north-west thence to north and north-east.

The monsoon changes about the 21st of this month, after which, light breezes set in from the north and north-east.

As soon as the weather sets in fair, the season becomes propitious for preparing the kitchen garden.

The meat markets begin to revive, and the fish market to improve; the beekty becomes firm, and the other fish proportionably good; snipes make their appearance.

Vegetables and fruit continue much the same as last month, till the latter end of the present month, when, if the season is favorable, both experience a considerable improvement. Oranges become larger and better flavoured, and custard-apples are in great perfection.

Young potatoes, sometimes, make their appearance this month, but they have very little flavour;—they are small and watery. Pomegranates are procurable, also sour wood-apples.

NOVEMBER.

The weather is clear and settled and the temperature temperate. Sometimes the days are warm, but the mornings and evenings are cool and agreeable.

If the rains cease early in October and the cold weather follows shortly after, November becomes a beautiful and delightful month. Nothing can be more favorable than this season for the renovation of the health of the valetudinarian, after having experienced the debilitating effects of the hot weather.

Light northerly winds prevail this month.

The thermometer ranges from 70° in the morning to 75° in the afternoon.

The seeds committed to the soil during the last and present month start into life, with a vigour unknown to other climes.

The meat market looks wholesome; beef, mutton, veal, pork and poultry, become firm and good.

GARDENER'S CALENDAR.

JANUARY.

The season is too far advanced to sow the generality of vegetables with much prospect of success; but turnips, carrots, love-apples, vegetable marrow, all sorts of pumpkins, lettuce, endive, radish, mustard and cress, spinage and Nepaul spinage may be sown during all this month; also successive crops of late cabbage and knol-khole every fortnight. Turnips are said to succeed best when placed in rows: they should be thinned to a distance of six inches from each other. Carrots rarely succeed well when planted at this season; they should be thinned, but not transplanted, except when required for seed. Love apples, when two or three inches high, should be planted out in beds five inches apart: afterwards transplant in rows two feet from each other, with a frame work to run upon. Vegetable marrow should be sown in rich light soil: earth up the stems as they increase, and peg down the leading branches at a joint. Lettuce and endive should be planted in boxes or beds, and transplanted at one foot apart from each other; they may also be sown in beds, and thinned to the proper distance—a few days before use they should be blanched by tying the tops of the outer leaves over the rest. Radish, mustard and cress may be sown every week or ten days: the two last throughout the year. Spinage, to be sown in beds and thinned until the plants are one foot apart. Nepaul spinage should be planted in rows, with trellis work to run over: this vegetable continues to flower and bring forth fresh leaves throughout the year, and requires no care. Cabbage and knol-khole should be planted in boxes or beds, and transplanted into other beds about three or four inches apart in three weeks or a month: they may be transplanted a second or third time; especially the latter; when transplanted for the last time they should be put in well manured trenches at two feet from each other. Horse manure and ground bones are strongly recommended for all the cabbage tribe. With care common cabbage and knol-khole may be procured during every month in the year; but those produced from the end of October to the middle of February, are far superior to any others.

Potatoes may be planted during the first week of this month also; and if the season prove cool they may be expected to arrive at considerable perfection. From the middle of July to the early part of September, is the most favourable time for planting potatoes.

In this month the following vegetables and fruits are procurable in the market, in large quantities and at very cheap prices,—carrots, turnips, cabbage, knol-khole, beets Bombay and country onions, country double French, white and windsor beans, and peas Pumplenose, Sylhet and country oranges, pomegranates, guavas, custard-apples, limes, plantain, long plums, tippareah or Brazillian gooseberries, and several other kinds of common fruits and vegetables.

Peach trees should be slightly pruned during this month, and the small fruit thinned, where too thick.

The finest flowers are now in bloom, and at the end of the month the collection of flower seeds should commence. Indeed early mignonette and larkspur seeds may be collected in the beginning of the month. Sow early melon and water-melon seeds, also the last crop of red pumpkins.

FEBRUARY.

The remarks on last month apply generally to this; but there is less chance of success in rearing vegetables, as they seldom acquire much strength before the hot winds set in. Turnips and carrots rarely succeed; but radish, mustard and cress, lettuce, endive, spinage, and some of the cabbage tribe, may all be planted in this month and throughout the year. Throughout this month the collection of flower seeds is carried on rapidly.

All the fruits, vegetables, and flowers, mentioned as procurable in the market in January, may be had in as great perfection and as cheap or cheaper during this month.

In this month peas are plentiful, and the following may be obtained of good quality,—Jerusalem artichokes, asparagus, duffin and French beans, scarlet runners, beets brocoli, cabbage, carrots, cauliflowers, celery, endive, lettuce, knol-khole, onions, parsnips, spinage, turriips, and yams. Also the following fruits,—custard apples, Brazil gooseberries, guayas, lemons, mulberries, pumplenose, raspberries,

LOCAL OBSERVATIONS.

vii

Game comes in also this month, in considerable quantities; wild ducks, snipe, teal, &c.

Abundance of fish is procurable, also firm and good, such as beekty, banspatah, gungtorah, mirgal, carp, and mangoe-fish without roes.

The vegetable market begins afresh this month by the introduction of green peas, new potatoes, lettuces, greens of different kinds, spinage, radishes, and turnips.

In the fruit market may be had oranges, limes, lemons, pumplenose, pine-apples, custard-apples, papiah, plantains, cocoanuts, country almonds, pomegranates, sour wood apples, etc.

DECEMBER.

The weather continues fair, cool, and, on the whole, extremely fine, throughout the month, with a light northerly wind.

The days and nights are cold and clear, and the mornings and evenings foggy; particularly at the latter end of the month.

The thermometer ranges from 58° in the morning to 65° in the afternoon.

The meat and fish markets are in great perfection, both as to quantity and quality; game of all kinds in abundance.

The vegetable market is excellent, yielding green peas, young potatoes, lettuces, young onions, radishes, small sallad, sweet potatoes, French beans, seem, brinjalls, yam, carrots, turnips, greens, young cabbages and cauliflowers.

The fruit market continues much the same as last month—Brazilian gooseberries (tippareahs) make their appearance this month, together with wood-apples and other fruits.

strawberries, peaches, pine-apples, and a few other kinds. Melons and cucumbers should be sown during this month. Gather winter flower seeds. Lay bare, for a fortnight or three weeks, the roots of peach trees, to harden, and preserve them from being destroyed by white ants. Use house-plaster rubbish, as manure when closing the roots.

MARCH.

But few vegetables come to any perfection that are sown in this month; but it is desirable to sow successive crops of cabbage and lettuce which may be planted in beds which are partly protected from the sun, and transplanted into rows as required.

In the market, brinjal, carrots and turnips may be procured in considerable quantities and pretty good. Turnips are generally very stringy towards the end of March. Country radish and all kinds of country greens may be had in large quantities, and all the kinds of fruit procurable in February are obtainable with the addition of green mangoes and jakes, loquots, a few dates and black berries. Young plants should be weeded in this month, and encircled with a slight embankment, to retain the water which they must be afforded during the greater part of this and the two succeeding months. Melons and cucumbers, should be sown during this month also as well as grape and apple seeds, Indian-corn and sugar-cane. Still gather winter flower seeds.

APRIL.

The remarks on March apply equally to this month; but as the hot season advances the chances of success in rearing most kinds of vegetables diminish. Late melons and cucumbers may be sown during this month likewise. Sow melons in rich light soil, giving the plants plenty of room to run. When they have thrown out four leaves stop them by pinching off the leading bud: they will then produce two lateral shoots, which stop in a similar manner; and so continue to treat each new formed shoot, stopping it at the second or third joint. When the plants begin to show fruit, stop the fruiting branches two joints before the fruit. Cover the ground with leaves or straw to keep the roots cool, and to prevent the fruit from becoming spotted.

In this month plantains, pine-apples, pumplenose, black berries, ripe mangoes, peaches, lichees and all the other fruits procurable in March are abundant in the market. Carrots, turnips, beans and cabbages are reduced in quantity, and their prices are considerably increased, when good. Brinjal, radish, water pumpkins, and greens in plenty are to be had. Musk-melons, and several other country melons, come into season about the middle of this month.

In the latter part of this month plant all the amaryllis or lily tribe, and in fact all bulbous roots and plants, should be sown or planted. Sow early cucumbers, okra, Indian-corn, sugar-cane, grape, apple, and all country fruit seeds, so that the plants may have the advantage of the rain to grow up vigorously. Gather winter flower seeds and commence grafting and budding. Plentifully water young plants.

MAY.

Mangoes, pine-apples, pumplenose, plantains, and all the fruits procurable last month are supplied abundantly. Brinjals, greens, and summer flowers of almost all sorts are to be had plentifully in the market. Musk and water-melons, etc., are plentifully supplied to the market about the end of this month.

Grafting and budding, of all kinds, should be performed during this month, which is the most favorable for such operations. And the gathering of the seeds of winter flowers, should be finished at its end. Water young plants. Lichees and peaches get scarce at the end of this month, but wampees, wild lichees and melons, continue plentiful. Sow long cucumbers and white pumpkin seeds, grape seeds, peach stones and fruit seeds generally.

JUNE.

Asparagus seed should be sown in boxes towards the latter end of the month, and transplanted in November, in rows two feet apart, and the plants one foot from each other. The soil should be mixed with a large portion of rotten horse manure: it is scarcely possible to make the ground too rich for asparagus. Fresh asparagus seed should be sown whenever procurable, and especially between the end of June and the beginning of December.

In this month mangoes, oranges, pine-apples, pumplenoses, plantains, pomegranates, cucumbers, melons, limes, wild-lichees, jake, monkey-jake, and a great variety of berries and other fruits are abundantly supplied at low prices in the market. Carrots, turnips, cabbage, and other European vegetables, are very scarce and dear; but

GARDENER'S CALENDAR.

country greens and brinjals, are procurable in small quantities. About the end of the month melons disappear.

Young and tender plants should be carefully watered every evening during this month, and chillies, okra, Indian-corn, pea-sticks, jute, red and China spinach and the common native greens in general, including pulbul, kurrula, jhingah, burbuttee and chichingah, should be sown. The planting of cuttings of all kinds of fruits and flowers, should be commenced at the end of this month. Sow peach stones and fruit seeds generally. Sow long cucumber seeds at the end of the month.

JULY.

At the end of this month it is desirable to sow seeds for early parsley, peats, knol-khole, cabbage, cauliflower, brocoli, asparagus, endive, lettuce, carrots, turnips and other winter vegetables.

Celery.—Sow in boxes in this and the five following months. Remove to beds when about three inches high, and into trenches, as required, after being a month in the beds. The trenches should be 2½ feet deep, filled up with a foot of light soil and stable manure, and afterwards gradually, as the plant grows, with light soil, till within about six inches of the top. Water for the first two months with the hand, after which they may be occasionally flooded.

Another way.—Having sown and transplanted as above, remove into trenches four feet apart, and about 18 inches deep, nearly filled with horse manure and rich earth. As the plant grows, bank up into ridges with light soil. By this method the root of the plant, and not the stem, is watered when flooded.

Knol-khole, cabbage, cauliflower, and brocoli.—Sow in boxes during this and five following months. Remove in beds when two inches high, and transplant the cabbage and knol khole twice, and cauliflower and brocoli at least three times, allowing the growth of a couple of new leaves between each planting.

Asparagus.—Sow in beds in July, and remove the plants in November, into raised beds of one or two rows. When the berries become red, cut the plants two inches above the ground and top dress, when they will be ready to cut in ten days. By dressing the beds in succession, asparagus may be produced for the table all the year:—stable manure is the best, and the plant should invariably be watered by the hand, and never flooded except in very hot weather. Plants if taken care of will produce for eight or ten years. They should, however, be wintered (roots cleared of the earth and exposed for some days) and the ground dressed every second year.

Lettuce and endive.—Sow in boxes or pots surrounded with water, till the plants appear, otherwise the small red ant will destroy them. Plant out as required, and tie up a few days before you cut for use.

Carrots.—Sow in a light deep sandy soil.

Turnips.—Sow in a rich soil, well manured.

In the market all Europe vegetables are very scarce and dear this month. Brinjal, greens, and other native vegetables are supplied. Pine apples, and melons are getting out of season. Plantains, pumpkins and cucumbers, are plentiful.

Mangoes continue till towards the end of the month. Pine apples, jakes, monkey-jakes, bonch, and guavas are very abundant. Young plants and grafts should all be planted out during this month, and the trees pruned as soon as they have done bearing, as that is the only time when it can be done with benefit to them. Cuttings of all trees and shrubs should be put in this month, as well as slips of artichokes, which, as soon as they have established themselves, should be cut down close to the ground. Standard flower and dahlia seeds should be sown. Balsam seeds should be sown in the beginning of the month and until the end of October.

All grafting and budding should be finished this month, so that the rains of the two succeeding months may cause them to shoot up with vigor when planted out. Wampees, blackberries and wild-lichees go out of season during the early part of this month. Sow mangoe, jake, blackberry, date, and all kinds of summer fruit seeds during this month—they will thrive well—likewise sow gooseberries. Expose the roots of young plants from the middle of this month to the middle of September, to harden them, or they may fall sacrifices to white ants. Sow the irregular *early* crop of potatoes.

AUGUST.

Successive crops of all the vegetables sown in July should be planted at the end of this month, more especially celery and beet, which should be fit to transplant a second time before the monsoon. These two vegetables are less likely to suffer by excessive rain than most others. Artichokes should be sown in beds during this month, three

inches between each seed, so as to allow the removal of the plants in November: without disturbing the roots. To propagate by suckers:—take off the suckers, and prick them out six inches apart; and when they become well rooted, transplant into deep rich soil, setting them two feet apart. If large, suckers may be planted at once where they are intended to remain.

To prevent artichokes running to leaf, and producing small heads, when the plants are from ten to fifteen inches high, cut them off close to the ground, and cover them over with light dry old manure: when they have advanced a few inches repeat the operation. If the young plants are tied up for a few days before being cut off, they will become blanched and may be eaten as salad.

French beans and scarlet runners may be sown during this month, and until February. They should be planted in rows two feet apart, north and south, and be well supported with sticks, or with an arched bamboo trellis, which is very ornamental. Sow also early radish, turnip, cabbage, cauliflower, parsley, celery, onions, tobacco, and early flower and vegetable seeds, generally at the end of this month. Sow the first regular crop of potatoes.

Mangoes are very scarce. Plantains, pine-apples and guavas continue in abundance; and custard-apples, kumrungs, punniallas, avigoto-pears, and corrodas, come into season.

Insects are excessively numerous and destructive. The orange tribe should be budded and inarched, and propagated by seeds. Continue grafting mangoes. Transplant cotton. Propagate carnations and pinks by layers. Finish cutting peach and pichie grafts. About the end of this month sow dahlia, balsam, early mignonette, sun-flower, cox-comb, polyanthus, hybiscus, holyhock, lark spur, lupin, poppy, sweet-sultan onion, cabbage, salsafy, cauliflower, lettuce, and all the other seeds sown last month.

SEPTEMBER.

Continue to sow all the vegetables mentioned for August. Transplant early cabbage, cauliflower, brocoli, beet, celery, endive, and lettuce. Two or three crops of peas may be sown during this month, if the weather is favourable, but not with much prospect of success unless sown at the latter end.

Peas should be planted in trenches, in double rows, about two feet apart. They should be watered by hand for the first fortnight and afterwards flooded until they are two or three feet high, by which time the winter dews will be sufficient to separate them. Peas require no manure, but should be planted in good soil. Sun-flower seeds for the winter should be planted now; but this flower grows all the year round. Coxcomb, larkspur and mignonette seeds might be sown.

Avigato-pears still continue, and early loquots, and sour oranges begin to make their appearance about the end of this month. A species of hard, tasteless musk melon is procurable in abundance. Sow avigato-pear stones. Young potatoes in season. The American cotton sown early in full fruit. Plant Cape bulbs, either in the ground, or in very deep pots well drained. The turnips and cabbages are much infested by a small dark caterpillar which may be destroyed by sprinkling the plants with powdered lime. The rice begins to flower. Put down cuttings of geraniums, roses, violets, hearts-ease, etc. Flowers in great perfection. As most of the peach trees will have lost their leaves, the roots should be opened and exposed for 14 days, and then strongly manured. Potatoes should be sown during this month. The whole of the grafts should be cut this month, if possible so that they might still benefit by the showers of rain that fall at this time.

OCTOBER.

The remarks on last month apply equally to this. Continue to sow all kinds of vegetable seeds in boxes; transplant from the boxes into beds; and immediately after the first heavy fall of rain remove into beds, rows and trenches, more particularly celery, beet, cabbage, knol khole, cauliflower, and brocoli. Care should be taken in finally transplanting all the cabbage tribe this month, to provide against heavy falls of rain, by making trenches to carry off the water. Crops of peas should be sown every week or ten days from the beginning of this month until the end of December—peas sown after that time seldom pod.

Onions and leeks should be sown during this month also, in light rich earth, carefully covering the seed. When leeks are a few inches high, plant them in drills, eighteen inches apart, and nine inches, from plant to plant. As they increase in size draw up the earth to their stems, in order to blanch them, as leeks are much improved by blanching.

Sow parsnips in rich deep soil. Trench the ground two feet deep, sow the seeds in drills one foot apart, and thin the plants so as to leave eight inches from each other.

The main beds for strawberries should be planted. Oranges begin to get palatable this month, and the cutting of the sugar-cane commences. Brinjals and native greens become plentiful, and the last crop of Indian-corn is gathered. The last of the grafts should positively be cut, and suckers transplanted. Plant larkspur, marigold sweet-sultan, mignonnette, pinks, carnation, asters, and all annual plants during this month. Propagate geraniums by slips; and sow all kinds of vegetable and flower seeds every six or eight days, throughout the month.

NOVEMBER.

This is the month for activity in the vegetable gardens, as but few things arrive at much perfection which are not planted before the end of this month. The principal crops of peas should be sown during the first week; and continued every six days during the month; also scarlet runners, French, Broad and Windsor beans. Sow beet, knol-khole, cabbage, brocoli, and cauliflowers, in beds, and remove from beds into rows. Transplant celery and remove into trenches. Plant out artichokes and asparagus.

The middle crop of potatoes should be sown about the middle of this month. They should be planted in light soil, in which no horse dung is mixed. The potatoe should be cut according to the number of eyes, taking care that each piece is of sufficient size to nourish the eye, until it roots—twice the size of a man's thumb nail round the eye, will do well. When planted, not more than one inch, or one and a half inch, of soil should be placed over it; and it should not be watered oftener than once in four days, even during the hottest weather. As it grows up, the soil should be banked up to the stalk. Great care should be taken not to give too much water, and not to put too much soil upon the potatoe when first planted.

This is the last month in which the generality of vegetables can be sown with advantage. Sow winter fruit seeds of all kinds, except oranges. Oranges, guavas and plantains and all European and Cape vegetables are abundant.

DECEMBER.

In the beginning of the month sow French beans, scarlet-runners, broad and Windsor beans. Peas sown in this month produce scantily: Plant out late celery from boxes to beds, and remove from beds to trenches. Sow late cabbages and knol-khole; and transplant as above. Vegetable-marrow may be sown in the early part of this month in light rich soil. Earth up the stems of the plants as they increase in growth, and peg the leading branches down at a joint, and they will strike root.

Potatoes may be planted until the end of this month; but those sown during the first fortnight are most likely to succeed. When potatoes are planted whole, the produce is finer than when they are divided into two or three pieces; but the same number of potatoes yield a far larger crop by the latter than by the former method. Potatoes should be planted in beds fully exposed to the sun. In rather shady places the crop is small; and when altogether excluded from the direct rays of the sun, they produce nothing.

Europe and native vegetables are plentiful during this month; and also all sorts of brinjals, sweet-potatoe, yams. Fruits are scarce, except plantains, plums, gooseberries, guavas and oranges. Flowers of all kinds are abundant.

A good month for sowing early musk-melon and dwarf-cucumber seeds, as well as peas, radish, and spinage; but very few other vegetable seeds. Most of the exotic plants will also now be flowering.

Strawberries come in at the middle of this month, and last through all the next.

Memoranda

FOR THE

CONCLUSION OF THE YEAR.

Calculations of the Almanac.

The times given in this Almanac are the civil or common reckoning time, from Midnight to Midnight. The column of the Sun's Meridian passage is calculated to the nearest second of time for every day of the year rejecting fractional parts and will be found sufficiently exact for all ordinary purposes. The Moon will serve as well as the Sun to set or compare a watch by the dial; when the shadow of the gnomon falls on 12h., a watch ought to show at the same moment the time indicated in the column "Moon on Meridian" answering to the day the observation is made. This time is calculated to the nearest tenth of a minute; should the shadow fall on any other hour, as 3, 4 or 5, add to the time indicated in that same column, about 62 minutes for every hour after twelve, but should the dial show 6h., 8h., or 11h., as many minutes must be deducted for every hour before 12.

The two columns of the Sun's rising and setting include the refraction, which causes the Sun and all the heavenly bodies to rise on the eastern horizon about two minutes earlier, and to set on the western, about two minutes later than they would rise or set were the Earth not surrounded by an atmosphere. Refraction is not exactly of the same duration throughout the whole year, the duration is in proportion of the obliquity of the Sun's rising or setting.

At the head of each month, will be seen whether Saturn, Jupiter, Mars, or Venus are visible in the Morning or Evening.

When the symbol (\odot) denoting opposition occurs, such as on the 1st Nov. 1849, we are to understand that the Moon does not pass the Meridian of Calcutta, on that (civil) day. This is the case once, sometimes twice in a Lunar month, as on the 30th of the same month of November, and arises from the circumstance of the Lunar day being longer than the mean Solar day.

And because the Moon does not pass the Meridian in every civil day, but fails to do so, once at least in every civil month, and as one Meridian passage of the Moon produces only two High Water tides, there are in every Lunar month not less than two High Water tides sometimes three wanting; therefore on two days every month, falling sometimes after Midnight sometimes after Noon, there is but one High Water given. The march of the tide-wave over the surface of the ocean is of immense rapidity, the crest of the wave travelling round the globe in every Lunar day.

In a place like Calcutta, so far removed from the Sea, the tides are strongly affected by the monsoons, occasional winds, the freshes, and various local causes, so that it will always remain an imperfectly solved problem to give the times of the High Water with accuracy; It will always, however, be found that for any period there will be only twice the number of High Water tides, as the Moon passes the Meridian.

It should be recollected that the time of High Water is not that when the ships in the river turn round, but that when the water is actually highest, which always happens about half an hour before the current is changing its direction.

At the head of each Month the observations of the Highest and Lowest Pressure and Temperature are given; they are the average of many years, the Least Temperature is that at Sunrise, the Greatest Pressure at 9h. 50m. A. M. the Greatest Temp. at 2h. 50m. P. M. and the Least Pressure at 4h. P. M. The observations of the Barometer are recorded in inches and hundredth parts of an inch.

The Temperature registered is that of the air in the shade.

ECLIPSES OF THE SUN AND MOON.

In the year 1849 there will be two Eclipses of the Sun, and two of the Moon.

CHRONOLOGICAL CYCLES.

Dominical Letters.....	G	Julian Period.....	6562

The Solar Cycle, or Cycle of the Sun, is a period of 28 years, in which all the varieties of the Dominical Letters will have happened, and they will return in the same order as they did 28 years before. This Cycle commenced 9 years before the Birth of Christ.

The Lunar Cycle, or Cycle of the Moon, commonly called the Golden Number, and sometimes the Metonic Cycle, (from Meton, an Athenian, who invented it about 432 years before the Birth of Christ,) is a revolution of 19 years; in which time, the conjunctions, oppositions, and other aspects of the Moon, are within an hour and a half of being the same as they were on the same days of the months 19 years before. The prime, or Golden Number, is the Number of years elapsed in this Cycle. At the Birth, the Golden Number was 2.

The Roman Indiction, is a period of 15 years, used by the Romans for the time, of taxing their provinces.—Three years of this Cycle had elapsed at the Birth of Christ.

The Julian period contains 7980 years, and arises by multiplying together 28, 19, and 15, being the Cycles of the Sun, Moon, and Indiction. This was also contrived as a period for chronological matters, and, is assumed, as a correct and fixed rule in Calculations, by all the astronomers and chronologers throughout the Christian world. Its beginning is supposed to have commenced 710 years before the usual date of the creation of the world, or 4714 before the commencement of the Christian Era.

The Companion to the Almanac.

THE CALENDAR, AND ITS SUCCESSIVE REFORMS.

The divisions of time, such as they are presented in the Calendar, are composed of days, weeks, months, and years. The modes of determining these divisions, have been various amongst the nations of antiquity, and there are still variations in these modes in the modern world.

The manner of reckoning the days by the ancient Jews, and which subsists amongst that people at the present time, is, to commence the day at a certain hour of the evening, and to finish it on the next evening at the same hour. Thus their sabbath begins on the afternoon of Friday, and is completed on the afternoon of Saturday. The Roman Catholic church also commences its festivals in the evening; and this custom is retained amongst ourselves in some of our popular observances, such as the eve of St. John, and Christmas eve.

The civil day now commences at 12 o'clock at midnight, and lasts till the same hour of the following night. The civil day is distinguished from the astronomical day, which begins at noon, and is counted up to 24 hours, terminating at the succeeding noon. This mode of reckoning the day, is that used in the Nautical Almanac, and it sometimes leads to mistakes with persons not familiar with this manner of computation; a little consideration will obviate the difficulty. Thus, January 10, fifteen hours in astronomical time, is January 11, 3 in the morning, civil time. In France, and in most of the states of Europe, as with us, the hours are counted up to 12, from midnight till noon, and from noon till midnight. In parts of Italy, and of Germany, the day is held to commence about sun-set, and the hours are counted on till the next sun-set. This mode is very inconvenient to travellers, as the noon of the "Italian hours" at the summer solstice is 16 o'clock, and 19 o'clock at the winter solstice.

The English names of the days of the week are derived from the Saxons; and they partly adopted these names from the more civilized nations of antiquity. The following ingenious origin of the ancient names has been suggested in connexion with astronomical science. The planetary arrangement of Ptolemy was thus 1, Saturn; 2, Jupiter; 3, Mars; 4, the Sun; 5, Venus; 6, Mercury; 7 the Moon. Each of these planets was supposed to preside, successively, over each hour of the 24 of each day, in the order above given. In this way Saturn would preside over the first hour of the first day; Jupiter over the second hour; Mars over the third; the Sun over the fourth, and so on. Thus the Sun presiding over the fourth, eleventh, and eighteenth hours of the first day, would preside over the first hour of the second day, and carrying on the series, the Moon would preside over the first hour of the third day, Mars over the first hour of the fourth day, Mercury over the first hour of the fifth day, Jupiter over the first hour of the sixth day, and Venus over the first hour of the seventh day. Hence, the names of the days yet used in the learned professions throughout Europe. The present English names are derived from the Saxon:—

Latin.	English.	Saxon.
Dies Saturni	Saturday	Saturn's day.
Dies Solis	Sunday	Sun's day.
Dies Lunæ	Monday	Moon's day.
Dies Martis	Tuesday	Tiw's day.
Dies Mercurii	Wednesday	Woden's day.
Dies Jovis	Thursday	Thor's day.
Dies Veneris	Friday	Friya's day.

Tiw, Woden, Thor, and Friya were deities of the Pagan Saxons. Thor was the god of thunder, as well as the ancient Jove; and Friya was a goddess, the wife of Woden.

Almost all nations have regulated their MONTHS, in a great degree, by the evolution of the moon. Some have endeavored to unite this division with the annual course of the sun, by an augmentation of days at the end of each year, or by adding a thirteenth month at the end of every third year. The Jews and the Athenians followed this latter method; the Macedonians, and some nations of Asia, assigned their months 30 and 31 days; the Turks and the Arabs have 29 and 30 days; the months of the Anglo-Saxons were governed by the revolutions of the moon. Their common year consisted of twelve lunar months, three months being appropriated to each of the four seasons; but every third year contained an additional lunar month, which was given to the summer season. The names of their lunar months, either had reference to their religious ceremonies, or to the natural appearances of the year.

A considerable variation prevailed, generally, amongst the nations of antiquity and still partially prevails, with regard to the commencement of the year. The Jews dated the beginning of the sacred year in the month of March; the Athenians in the month of June, the Macedonians on the 24th September; the Christians of Egypt and Ethiopia on the 29th or 30th of August, and the Persians and Armenians on the 11th of August. The Jewish civil year begins on the first day of the Month *Tisri*, which year corresponds with our 9th of September; the Mahomedan's begins of the first of the month *Moharem*, which year, corresponds with our 14th of July. Nearly all the nations of the Christian world now, commence the year on the 1st of January; but as recently as 1752, even in England, the year did not legally and generally commence till the 25th of March. In Scotland, at that period, the year began on the first of January. The difference caused great practical inconveniences, and January and February, and part of March, sometimes bore two dates, as we often find in old records, as 1711-12. This practice often leads to chronological mistakes; for instance, we popularly say, "The Revolution of 1688," that great event happening in February of the year 1688, according to the then mode of computation; but if the year were held to begin, as it does now, on the 1st of January, it would be "The Revolution of 1689". In the anniversaries given in the *British Almanac*, the alterations of style, made in 1752, have not been followed, as any correction of date would have embarrassed the reader in historical and biographical references.

The year, properly so called, is the solar year or the period of time in which the sun passes through the twelve signs of the Zodiac. The period comprises 365 days, 5 hours, and 48 minutes, 51 seconds, 6 decimals, and is called the astronomical year.

The CALENDAR is a table of the days of the year, arranged to assist the distribution of time, and to indicate remarkable days connected with devotion or business. If every nation had adopted the same division of time, and a uniform calendar had been general throughout civilized states, history would present much fewer difficulties and contradictions. The progress of astronomical science has necessarily produced great changes in the manner of dividing time; and thus, whilst some nations have been ready to give their calendar every possible advantage of a scientific construction, the prejudices of others have rendered them unwilling to depart from their accustomed mode, however inaccurate. It may be curious and instructive to trace, very briefly, the changes of the calendar, ordinarily called, the changes of style.

The Romans called the first days of each month, *Calends*, from a word which signified *called*; because the Pontiffs, on those days, called the people together, to apprise them of the days of festival in that month. Hence we derive the name of CALENDAR.

The Roman Calendar, which has, in great part, been adopted by almost all nations, is stated to have been introduced by Romulus, the founder of this city. He divided the year into ten months only; Mars, Aprilis, Maius, Junius, Quintilis, (afterwards called Julius,) Sextilis, (afterwards called Augustus,) September, October, November, December. Mar, Maine, Quintius, and October, contained 31 days, and each of the six other months 30 days; so that the ten months comprised 304 days. The year of Romulus was, therefore, of 60 days' less duration than the lunar year, and of 61 days less than the solar year; and its commencement of course did not correspond with any fixed season. Numa Pompilius corrected this calendar, by adding two months, Januarius, and Februarius, which he placed before Mars, Julius Cæsar, being desirous to render the calendar

still more correct, consulted the astronomers of his time, who fixed the solar year as 365 days, 6 hours, comprising, as they thought, the period from one vernal equinox to another. The six hours were set aside, and at the end of four years, forming a day, the fourth year was made to consist of 366 days. The day thus added, was called intercalary, and was added to the month of February, by doubling the 24th of that month, or according to their way of reckoning, the sixth of the Calends of March. Hence the year was called Bissextile. This almost perfect arrangement, which was denominated the Julian style, prevailed generally throughout the Christian world, till the time of Pope Gregory XIII. The Calendar of Julius Cæsar was defective in this particular; that the solar year, consisting of 365 days, 5 hours, and 49 minutes, and not of 365 days, 6 hours, as was supposed in the time of Julius Cæsar; there was a difference between the apparent year and the real year, of eleven minutes. This difference at the time of Gregory XIII., had amounted to ten entire days, the vernal equinox falling on the 11th, instead of the 21st of March, at which period it fell correctly at the time of the Council of Nice, in the year 325. To obviate this inconvenience, Gregory ordained, in 1582, that the 15th October should be counted instead of the 5th, for the future; and to prevent the recurrence of this error, it was further determined that the year beginning a century, should not be bissextile, with the exception of the beginning of each fourth century. Thus, 1700 and 1800 have not been bissextile, nor will 1900 be so; but the year 2000 will be bissextile. In this manner, three days are retrenched in four hundred years; because the lapse of the eleven minutes makes three days in about that period. The year of the calendar is thus made, as nearly as possible, to correspond with the true solar year; and future errors of chronology are avoided.

The adoption of this change, which is called the Gregorian, or New Style, (the Julian being called the Old Style,) was for some time resisted by states not under the authority of the See of Rome. The change of the style in England, was established by an Act of Parliament passed in 1752. It was then enacted, that the year should commence on the 1st of January, instead of March 25th; and that in the year 1752, the days should be numbered as usual until September 24, when the day following should be accounted the 14th of September, omitting 11 days. The Gregorian principle of dropping one day in every hundredth year, except the fourth hundredth, was also enacted. The alteration was, for a long time, opposed by the prejudices of individuals; and even now, with some persons the Old Style is so pertinaciously adhered to, that rents are made payable on the old quarter days, instead of the new. For this reason, and not in deference to the prejudice, the old festivals are mentioned in the *British Almanac*. The Russians still retain the Old Style, thus creating an inconvenience in their public and commercial intercourse with other nations, which, we trust, that the growing intelligence of the people will eventually be correct.

During the period in which France was a Republic, the authorities introduced an entire change in the calendar, which was in existence more than twelve years; and is important to be noticed, as all the public acts of the French nation were dated according to this altered style. The National Convention, by a decree of the 5th October, 1793, established a new Era, which was called, in the place of the Christian era, the era of the French. The commencement of each year, of the first "Vendémiaire," was fixed at the midnight commencing the day, on which the autumnal equinox fell, as determined at the observatory at Paris. This era commenced on the 22nd of September, 1792, of being the epoch of the foundation of the Republic; but its establishment was not decreed till the 4th "Frimaire" of the year II. (4th November, 1793). Two days afterwards the public acts were thus dated. This calendar existed till the 10th "Nivose," year XIV. (the 31st Decemoer, 1805,) when the Gregorian mode of computation was restored.

EXPLANATORY NOTES FOR THE YEAR.

1. **DOMINICAL LETTERS.**—The seven days of the week, reckoned as beginning on the 1st of January, are designated by the first seven letters of the alphabet, A, B, C, D, E, F, G; and the one of these, which denotes Sunday, is the dominical letter. Thus, if the year begin on Sunday, A is the dominical letter; if it begin on Monday, that letter is G; if on Tuesday, it is F; and so on generally. To find the dominical letter, call New Year's Day A, the next day B, and so on till you come to the first Sunday, and the letter that answers to it, is the dominical letter. If there were 364 days, or exactly 52 weeks in the year, the dominical letter would be always the same; but the year contains 365 $\frac{1}{4}$ days; an excess of $\frac{1}{4}$ day over 52 weeks. The day is taken into the account every year, and the one fourth makes a day in every four years; so that the dominical letter falls backward one letter for each of the three years, in which the date or number of the year cannot be divided, without remainder, by 4, and, two letters every fourth year, when the date can be so divided; as in the year 1828, it is divisible by 4, and, therefore, February will contain 9 days. The year began on Tuesday; count forward Tuesdays to Sunday, inclusive, is six days; and the sixth letter from A inclusive is F. Therefore at first, F is the dominical letter; but the 29th of February, which is added, or *intercalated*, throws the 1st day of March a day later in the week than it would otherwise have been; and, therefore, the Sunday letter for March and all the remaining months will be E. The years which have the 29 days in February, and the two dominical letters are called *bisextiles*, for the reason already given or *leap years*; because the day of the month, after February, leap over a day of the week. In law, the 18th and 29th of February are accounted ~~one~~ *one* day.

2. **THE GOLDEN NUMBER.** At the end of every nineteen years the new and full moons happen at very nearly the same times of the year. The ancients discovered this, and reckoned the nineteen years, or "cycle of the moon" as it is called, so that it terminated the year before the Christian era. This cycle was marked by the Greeks with letters of gold. Therefore, to find the golden number or number of the year in this cycle, add 1 to the date; divide by 19; the quotient in the number of cycles of the moon since the birth of Christ, and remainder is the golden number; as the present year is 1828, add 1, is 1829; divide by 19 is 96 cycles, and there remains 5, the golden number.

3. **THE CYCLE OF THE SUN** is the number of years that elapse before the Sundays throughout the year, happen on the same days of the month. If there were 364 days in the year, that would happen every year; if 365, it would happen every seventh year; but because the one-fourth of a day makes an alteration of a day every fourth year, the cycle must extend to 28 years. Nine years of this cycle had elapsed before the birth of Christ. Therefore, to find the cycle of the sun add 9 to the date divide by 28; the quotient is the number of cycles since the birth of Christ, and the remainder is the cycle of the sun; as, for the year 1828, add 9, is 1837, divide by 28, the quotient is 65 cycles, and the remainder is 17, the cycle of the sun.

4. **THE EPOCH** is the moon's age for the first day of January, or the equation between the beginning of the solar and the lunar year. The time from one new moon to another is about 29 $\frac{1}{2}$ days. Thus there are, in a year, twelve revolutions of the moon, and 11 days over, therefore, the twelfth new moon will take place 11 days earlier each year than it did the year before. In the lunar cycle of 19 years, there are 12 new moons in each of 12, and 13 in each of 7; because the 11 days of yearly difference in three years, exceed a lunar month by 3 $\frac{1}{2}$ days. If it were not for the odd minutes and seconds, the age of the moon, on the 1st of January, could always be found, by multiplying the golden number by 11, and dividing by 30; then the remainder would be the epoch or age of the moon on the 1st of January. The following method will answer for the day of the moon's age on the 1st of January, till the end of the present century. Take 1 from the golden number, multiply what is left by 11, divide by 30; the remainder is the epoch, or moon's age on the 1st of January; as for 1828 the golden number is 5; take away 1, leaves 4; multiply by 11, is 44; divide by 30, remains 14, the epoch, or moon's age on the 1st of January.

5. **THE NUMBER OF DIRECTION** is the number of days after the 22d of March, including both days, upon which Easter Sunday takes place. For instance, the number of Direction for 1828 is 16. Easter Sunday is April 6, being 16 days inclusive from March 22.

6. **EASTER** is directed to be celebrated on the first Sunday after the full moon that happens next after the 21st of March; which being the fourteenth day of the first Jewish month, corresponds to their first day of the week after the Passover, the anniversary of the resurrection of Christ. The time at which this day must happen, varies with the year; but the limits within which it must fall, are the 22d of March, and the 25th of April, inclusive, making a period of 35 days.

In order to find Easter, the first thing to be done is to find *Easter limit*, that is, the number of days after the first of March, on which the full moon, preceding Easter, shall happen. To do this, add 6 to the epact, and subtract the sum, if less than 0, or the remainder, when 30 is taken away; if more, from 50; the remainder is the day after the first of March, on which the full moon, preceding Easter, happens. Thus, for 1828 the epact is 14, add 6 is 20, subtract this from 50; leaves 30 days after the 1st of March, when the full moon preceding Easter takes place, which is the 31st, or last day of March, when the following Sunday is Easter-day. To find the day itself, add 4 to the number of the dominical letter; subtract the sum from the limit, and the remainder from the next number of 7s, that is greater than itself; this last remainder, added to the limit, will give the number of days from the first of March to Easter-day, including both: if less than 31, it will show on what day of March Easter falls; and if greater, take 31 from it, and the remainder will show upon what day of April. Thus, for 1828, the dominical letter is E, the number of which is 5. Add 4 to 5 is 9; take this from 30 (the limit) leaves 21; take this from 28, (the number of 7s next greater,) there remains 7; add this to 30, (the limit,) gives 37 days from the first of March to Easter, both included; take 31, (the days in March, from 37, leaves 6;) therefore Easter-day must fall on the 6th of April.

On what day will it fall in 1829.

The *Dominical letter* for that year will be D.

The *Golden number*: $1830 \div 19$ leaves 6; then $6 - 1 = 5$; $11 = 55 - 30$ leaves 25, the epact.

Then for *Easter limit*.

$25 + 6 = 31$, take away 30 leaves 1; and $50 - 1 = 49$ days after the first of March to the Easter full moon Again:

Dis 4, add 4 = 8 and $49 - 8 = 41$, $42 - 42 = 0$, and $49 + 1 = 50$ days from March 1st to Easter, including both. Take away 31 for March, leave 19, the day of April on which Easter will happen in 1829.

7. **THE ROMAN INDICITION.** The cycle of indiction has no connection with the motions of the Sun and Moon, further than its consisting of 15 years. It was established by the Emperor Constantine, in the year 312, to regulate certain payments by the subjects of the empire; therefore, to find it for any year, subtract 312 from the date, divide by 15, and the remainder is the Indiction; as from 1828, subtract 312, leaves 1516; divide by 15 leaves 1, the Roman Indiction.

8. **SEPTUAGESIMA SUNDAY** is the ninth Sunday before Easter.

9. **SHROVE SUNDAY** is the seventh before Easter.

10. **WHIT SUNDAY** is the seventh after Easter.

11. **TRINITY SUNDAY** is the eighth after Easter.

12. **ADVENT SUNDAY** is the Sunday nearest the 30th of November, whether before or after.

When Easter is known, any of the days that depend on it can be easily found as, for 1828 Easter is April 6, Whitsunday is 7 weeks, or 49 days, after; then; from 30 (days in April leaves 24; 24 from 49 leaves 25; therefore, Whitsunday, 1828, is the 25th of May.

THE DAYS OF THE CALENDAR.

JANUARY.

1. **New Year's Day.**—The ancient popular customs connected with New Year's Day, Shrove-tide, May day Christmas, and other festivals, will be illustrated in future "Companion to the Almanac."

1. **Circumcision.**—This festival was originally called the Octave of Christmas; and the first mention found of it is in the year 487. It was instituted by the Church, to commemorate the ceremony under the Jewish law, to which Christ submitted, on the eighth day of the nativity; and was introduced into the Liturgy of the Church of England in 550.

6. *Epiphany*.—The word *Epiphany* signifies *appearance* or *apparition*. This festival is kept in commemoration of the “*Manifestation*” of the Saviour of mankind to the Gentiles, and appears to have been first observed as a separate feast in the year 813. The primitive Christians celebrated the Festival of the Nativity for twelve days, observing the first and last with the greatest solemnity. From the circumstance of this festival being twelve days after Christmas, it is vulgarly called “*Twelfth days*.”

8. *Plough Monday* is the first Monday after the Epiphany, and received this appellation from its having been fixed upon by our forefathers, as the period when they returned to the duties of agriculture, after the festivities of Christmas.

30. *King Charles the First's Martyrdom*.—The death of Charles I., is celebrated as a fast of the Church.

FEBRUARY.

2. *Purification*.—This day is kept in the reformed Church, as a solemn festival, in memory of the Purification of the Virgin Mary, who submitted to the injunction of the law, under which she lived, and presented the infant Jesus in the Temple. The festival was celebrated in the Christian Churches with an abundance of light, and was originally called “*Candlemas Day*,” as well as the Day of Purification. The practice of lighting the Churches has been discontinued in this country since the second year of Edward the VI. In the Romish Church, the original name and all its attendant ceremonies, are still retained.

4. *Septuagesima Sunday*.—*Septuagesima* Sunday, is a Sunday dependent upon Lent, as that season is upon Easter. It is to be considered as the preparation for the fast of Lent. Its observation was instituted by Pope Gregory the Great. The name of the first Sunday in Lent having been distinguished by the appellation of *Quadragesima*, and the three weeks preceding, having been appropriated to the gradual introduction of the Lent Fast, the three Sundays of these weeks were called by names significant of their situation, and reckoning by *Decades* (tenths), the Sunday preceding *Quadragesima*, received its present title of *Quinquagesima*, the second *Sexagesima*, and the third *Septuagesima*.

14. *St. Valentine*.—The practice of “*choosing a Valentine*,” as it is called on this day, is too well known to need explanation. The origin of this custom has been much controverted: it is indisputably of very ancient date. Valentine was a presbyter of the Church, who suffered martyrdom under Claudius II, at Rome, A. D. 271.

18. *Shrove Tuesday*.—After the people had made the confession required at this season, by the discipline of the ancient Church, they were permitted to indulge in festive amusements, although not allowed to partake of any repast beyond the usual substitutes for flesh; and hence arose the custom, yet preserved, of eating pancakes and fritters at Shrovetide. On these days of authorized indulgence, the most wanton recreations were tolerated, provided a due regard was paid to the abstinence commanded by the Church; and from this origin sprang the Popish Carnival. From the loose pastimes of the age in which the Carnival originated, are also to be traced the nearly exploded diversions of cock-fighting, and cock-throwing.

21. *Ash Wednesday*.—The primitive Christians did not commence their Lent, until the Sunday now called the first in Lent. Pope Felix III, in the year 487, first added the four days preceding the old Lent Sunday, to complete the number of fasting days to forty. Gregory the Great introduced the sprinkling of ashes on the first of the four additional days, which give it the name of *Dies Cinerum*, or *Ash Wednesday*. At the Reformation, this practice was abolished, “*as being a mere shadow, or vain show*.”

25. *Quadragesima, or first Sunday in Lent*.—Ercombert, King of Kent, first appointed the fast of Lent in this country, in the year 641; succeeding generations marked the distinctions between the various foods. We find flesh to have been early prohibited during Lent, though Henry VIII, published a proclamation in 1543, allowing the use of *white meat*, which continued in force until, by proclamations of James I, in 1619 and 1625, and by Charles I, in 1627 and 1631, flesh was again wholly forbidden.

26. *Mid lent Sunday*.—This day received its appellation, because it is the middle Sunday between *Quadragesima* and *Easter Sunday*. It is by some called the *Mothering Sunday*, a term expressive of the ancient usage of visiting the Mother, or Cathedral Churches of the several dioceses, when voluntary offerings were made, which are now called *Easter Offerings*.

MARCH.

17. *St. Patrick*.—St. Patrick, from the eminent services he rendered the Irish, in converting them from idolatry is called the Apostle and Father of the Hibernian Church, and is the Patron or tutelar saint of that island.

25. *Annunciation or Lady Day*.—The reformed Church celebrates this day as a joyful festival from the connexion between the circumstance commemorated, and the incarnation. "Our Lady" is the ancient and popular name of the Virgin Mary.

APRIL.

—1. *Palm Sunday*.—Palm Sunday is the Sunday preceding Easter, or the last Sunday in Lent. In the ancient Church Palm Sunday, with the whole of the week, which it commences was held in strict devotion, and deserved with greater rigour as to fasting and humiliation than any other part of the Lent season. The festival commemorates our Saviour's triumphal entry into Jerusalem; when branches of palm were spread before him.

6. *Good Friday*.—From the earliest records of Christianity, this day has been held as a solemn fast, in remembrance of the Crucifixion. Its appellation of *Good*, appears to be peculiar to the Church of England. Our Saxon forefathers denominated it *Long Friday*, from the length of the offices and fastings on that day.

8. *Easter Sunday* is a moveable festival, held in commemoration of the Resurrection, and being the most important and most ancient in observance: governs the whole of the other moveable feasts throughout the year.

15. *Maunday Thursday*.—Edward III in the year 1363, appears to have been the first English monarch, who introduced into this country, the practice of feeding, clothing, and distributing money to indigent persons on Maunday Thursday. The Custom has continued without intermission to the present period; and yearly, on this day, the Lord Almoner, or in his absence, the sub-almoner, attends for that purpose, in Whitehall Chapel.

23. *Saint George*.—Edward III, at the battle of Calais, in the year 1349 joined to, England's then supposed principal guardian, St. Edward the confessor, the name of St. George, both of whom he earnestly invoked to aid his arms. The next year, the Order of the Garter was established, dedicated to St. George; and the Saint himself has, from that period, been considered as protector of England.

25. *St. Mark the Evangelist*.—On this day the reformed Church holds a festival in commemoration of the benefits the Christian religion has received from the exertions of this Evangelist.

MAY.

1. *St. Philip and St. James, Apostles*.—The Church, on this day, commemorates the sufferings of St. Philip; and also of St. James the Less, the first Bishop of Jerusalem.

13. *Rogation Sunday*.—Rogation Sunday received and retains its title from the Monday Tuesday, and Wednesday immediately following it which are called *Rogation Days*, derived from the Latin *Rogare*, to beseech. The earliest Christians appropriated extraordinary prayers and supplications for those three days; a preparation for the devout observance of our Saviour's Ascension, on the day next succeeding to them, denominated Holy Thursday, or Ascension Day. The whole week, in which these days happen, is styled Rogation Week; and in some parts it is still known by the other names of Crop-Week, Grass-Week, and Gang or Procession-Week. The perambulations of parishes are made in this week.

JUNE.

1. *Ascension-Day or Holy Thursday*, is the day on which the Church celebrates the Ascension of our Saviour, the fortieth day after his resurrection from the dead.

10. *Whitsunday*—On this day is celebrated the descent of the Holy Ghost upon the Apostles, in the visible appearance of fiery cloven tongues, and in those miraculous powers, which were then conferred upon them Whitsuntide is seven weeks after Easter.

13. *Trinity Sunday*.—Trinity Sunday is a festival observed by the Latin and Protestant Churches on the Sunday next following Pentecost, or Whitsuntide, of which, originally, it was merely an Octave.

24. *St. John the Baptist.*—The reformed Church holds a festival on this day, in commemoration of the "Nativity of St. John the Baptist."

29. *St. Peter the Apostle.*—The Feast of St. Peter was instituted in the year 813, perhaps to celebrate the martyrdom of the Apostle, who suffered at Rome about 64.

JULY.

3. *Dog-days begin.*—The Canicular, or Dog-days, commence on the 3rd of July, and end on the 11th of August. Common opinion has been accustomed to regard the rising and setting with the Sun, or Sirius, or the Dog-star, as the cause of excessive heat, and consequent calamities, instead of viewing it as the sign when such effects might be expected. Of this notion, Dr. Hutton says, "the star not only varies in its rising, in every one year as the latitude varies; but is always later and later every year, in all latitudes; so that in time the star may, by the same rule, come to be charged with bringing frost and snow."

25. *St. James.*—This Apostle is called James the Great, to distinguish him from the other Apostle, who is called the Less.

AUGUST.

1. *Lammas Day.*—Lammas is one of the four Cross Quarter-days of the year, as they are now denominated. Whitsuntide was formerly the first of these quarters, Lammas the second, Martinmas the next, and Candlemas the last; and such partition of the year was once equally common with the present divisions of Lady-day Mid-summer, Michaelmas, and Christmas. Some rents are yet payable at these ancient quarterly days in England, and they continue general in Scotland.

24. *St. Bartholomew the Apostle.*—The proper name of this Apostle was Nathaniel, by which, and not by that of Bartholomew, he is mentioned by St. John. The festival of St. Bartholomew was instituted A. D. 1130.

SEPTEMBER.

21. *St. Matthew.*—This Evangelist's festival is of great antiquity.

29. *St. Michael.*—This festival was, in the year 487, established in honour of Michael, the reputed Guardian of the Church, under the title of "St. Michael and All Angels."

OCTOBER.

18. *St. Luke the Evangelist.*—The festival held in commemoration of this Evangelist, was first instituted by the Christian Church in the year 1130.

28. *St. Simon and St. Jude Apostles.*—The two Apostles, St. Simon and St. Jude, are jointly commemorated by the Church on this day, as appears to have been the usage from the year 1091, when their feast was first instituted.

NOVEMBER.

1. *All Saints.*—All Saints, or All Hallows, in the Protestant Church, is a day of general commemoration of all those saints and martyrs, in honour of whom, individually, no particular day has been expressly assigned.

4. *King William landed.*—"On the 3rd of November," says Burnet, who was in the fleet, "we passed between Dover and Calais and before night, saw the Isle of Wight. The next day, the 4th, being the day, on which the Prince was both born and married, he fancied, if he could land that day, it would look suspicious to the army, and animate the soldiers; but others, who considered the day following was Gunpowder Treason day, though our landing that day might have a good effect on the minds of the English nation. And Divine Providence so ordered it, that after all hopes of our landing at Torbay were given up, and Russell bid me go to my prayers for all was lost the wind suddenly shifted, and carried us into the desired haven. Here the Prince, Marshal Schomberg, and the foot soldiers, landed on November the 5th." The Almanac is thus at variance with the historian.

5. This day is commonly called *Gunpowder Treason*, and has been kept as an anniversary in commemoration of the great plot of 1605.

9. *Lord Mayor's Day.*—Our Almanacs style this, the "Lord Mayor's Day," in allusion to its being the period when the chief magistrate elect of the city of London annually enters upon his high and important office. Until the 9th of May, 1214, the office of chief magistrate of London was held for life.

11. *St. Martin.*—This anniversary is still one of the four Cross Quarter-Days.

29. *Advent Sunday.*—Advent in the Calendar properly signifies the approach of the Feast of the Nativity. It includes four Sundays; the first of which is always the nearest Sunday to Saint Andrew, whether before or after Advent was instituted by the Council of Tours, in the sixth century.

DECEMBER.

25. *Christmas-Day.*—Christmas Day is a festival of the Church, universally observed on the 25th December, in memory of the Nativity of our Saviour; and it has been denominated *Christ Mass* from the appellation, Christ having been added to the name of Jesus, to express that he was the Messiah, or the Anointed.

26. *St. Stephen.*—He was the first martyr to the Christian faith. Lardner and Doddridge think his death was rather the effect of popular fury than the result of a legal sentence.

27. *St. John the Evangelist.*—This festival is kept to commemorate the slaughter of the Jewish children by Herod. This is also called *Childmas-Day* (from Child and Mass,) on account of the Masses said in the Romish Church for the souls of innocents.

THE CELESTIAL PHENOMENA OF THE YEAR.

It is impossible for any one, learned, or unlearned, to live through the year; or even through the months, or the day, without noticing the influence which the changing positions of the heavenly bodies, have upon his own comfort, and upon the state of all things around him. This is the book of wonder, which, at the first dawning of reason, both individuals and nations, attempt to read. It is always open; no perception is so dull as not to be able to trace its greater lines; and, from the magnitude of these, and the unerring certainty of their recurrence at their regular times, and the changes which they produce upon every thing that grows or lives, it is difficult to imagine the existence of a mind, so incurious as not to form to itself some theory of their nature and causes.

In a country like England, where the changes are so frequent, and the contrast so striking, the subject is constantly before every body; and be it in city or on common, in hall or in hut, the season, the day, and the weather, are among the very first topics of conversation. If even, in the centre of a crowded city, where nature is, as it were, excluded, and man and art rule supreme,—if there, amid all the displays of manufacture, all the bustle and occurrences of society, and all the news of nations, the phenomena of the day and the year can claim the attention, how much more must they do, this, to the people who are scattered over the country, and spend most of their time in the open air? To all these, that volume, of which the Almanac is the index, is a daily book to man; and especially to those who have not had the advantages of education, it is the only book.

A subject, the appearance of which force themselves upon the notice of all, but of which the philosophy lies in the depths of science, must be the means either of great good or of great evil; for, upon any subject that interests the mind powerfully, if knowledge be not planted superstition is sure to spring up of its own accord. That he who knows nothing may be made to believe any thing is found to be a maxim of but too general truth; and upon no subject has its truth been more frequently verified than upon the one under consideration. In the early ages of the world, and before revelation had substituted a moral and intellectual system for an ideal and superstitious one the phenomena of the year and more especially the luminaries that are attendant upon and produce these phenomena were acknowledged and worshipped as gods—substituted in the place of Him whose instruments they are, and who implanted in them those properties and assigned them those motions, in consequence of which they produce these effects. In moulding them for this purpose, there is no doubt that the artful portion of society employed all their cunning, in order to enslave the minds of the multitude, and enable themselves to profit by the darkness which they occasioned. But if the subject itself had not been the best adopted for superstition, the very cunning which made use of it would have necessarily chosen that which answered its purpose better. So far, however, as research can be made into the early history of mankind the sun the moon, and such stars as have any thing remarka-

ble in their appearance, have been the first objects of adoration; and that adoration has always been the more marked, in proportion as the appearance of the luminaries have been the more varied. We find it much more in the Laplander and the inhabitant of Greenland who have their months of summer's day and winter's night, than we do in those tropical countries, where the day is always of nearly the same length and where flooding rain and burning drought are the chief phenomena that vary the year.

But the superstitious adoration of the celestial appearance is not confined to the early and barbarous state of nations. When this superstition was expelled from religion and the luminaries were deprived of their godship, they did not at once lose the whole of their consequence; but held their place as the agents and arbiters of human destiny. Upon this arose a system of superstition, which left not a thing in nature, a member of the human body or an event of human life upon which it did not lay hold. The individual bodies had each their special virtues, their good or their bad influence; these were modified by the grouping of the stars into constellations and from the positions of the sun, moon, and planets, among these there arose other compound influences till the system became as complicated as it was ridiculous. So firmly was this believed at one time, that nothing could be done or undertaken without a previous consultation of stars, to find out whether it was their pleasure that the issue should be prosperous; and the aspect of the stars at a man's birth was admitted to have ten times as much influence upon his success in life, as his talents, his education, and his conduct. Indeed it had much more; for if it was not the pleasure of the stars—and the revealing of that was committed entirely to the astrologer—the man could not act, or be educated or even born. If one wished to know whether any substance would answer any purpose, he did not try it, he consulted the moon; and if any thing was lost search was not made for it the moon was questioned through the medium of the astrologer, who always contrived, by his confederates to be in possession of as many lost things as kept up the credit of the craft.

By this most absurd system of superstition the reason and common sense of the people were rendered completely useless; and which was far worse the foundation of morality was completely taken away,—because, if the success or the failure the good or the bad of human actions, did not depend upon men themselves, but upon an unerring destiny, to be read in the aspect of the stars there was an end of all virtue and attempting to do rightly; because, as the destiny was fixed, no effort on the part of the man could alter it—indeed he could make no effort, unless that was also set down in the aspect of the heavens at his nativity.

When superstition had thus destroyed both the intellect and the morals of mankind, the absurdities into which it led them were endless; and as any subject in order to be wondered at, requires only to be incomprehensible, the delusion became very general. Nor is it yet eradicated. Language contributes a little to this: even the well informed talk about "stars" and "destinies," and those who have little information believe that these words have a literal signification. The disposition which all people have to pry into the future also tends to perpetuate this superstition. The proper key to the future is induction from the past; but the proper use of that supposes habits of observing and reasoning which cannot yet be regarded as general among the people of any country; so, they who cannot anticipate the future, by connecting it with the present and the past, still follow after the delusion not only of astrologers—moon-and-star men,—but fortune-telling impostors of all sorts; and the delusion is helped to be perpetuated by those publications in which the nonsense of astrology is still retailed to the public.

These circumstances render it necessary that the phenomena of the year should be explained in the most simple and philosophic manner, that the real causes of those phenomena should be made palpable to the most ordinary capacity; and that it should be plain to every one, that there is no mystery in the matter,—that the revolutions of the heavenly bodies produce the appearances of the seasons, and nothing more. The motives of these have, in fact, no more influence upon the conduct and the destinies of mankind than the motion of a river towards the sea, or the fall of a stone to the ground, when it is not borne up by some thing that can support its weight; and it would be just as rational to calculate the nativity of a man from the motion of the Thames towards the sea as from the motion of the moon or the planets. Nay, the revolution of a coach-wheel upon the road had just as much to do with human destiny as the motion of the heavenly bodies; and when, in its revolution upon the dial, the minute hand of a clock

passes over the hourhand, that has just as much influence upon the fate of nations or individuals as an eclipse of the sun or the moon.

With the exception of the light and heat produced by the sun, and the light of the moon, and still fainter illumination of the stars, there is no reason to infer that the celestial bodies exert any influence, other than that of gravitation, upon the earth itself; and as their influence is wholly of a physical nature, it can have no effect whatever upon the minds or conduct of men, any more than can be produced by the natural or artificial motion of any other substances. So far as the luminaries make men more or less comfortable at the time they have an influence—as the genial temperature of the day raises the spirits in the same way, and to the same extent that they are raised by a similar temperature of a common fire, or the light of the moon enables a man to find his way at night, just in the same physical he would find it by the same degree of lamp light; but beyond these way as effects, there is, and there can be, nothing. If the luminary is at the same distance, shines for the same length of time at the same height above the horizon, it matters not in what sign of the zodiac, or in what part of the heavens it may make its appearance, any more than it signifies whether the fire by which one is warmed, or the lamp by which one is lighted, is one of the east or the west of St. Paul's; and it would be just as philosophical to calculate the future destiny of a man from the "house" in which he happened to be born, as from the "house" of the planets at the time of his birth. Indeed it would be much more so; for if *intelligence and good sense* happen to be *lords of the ascendant* in the house of the parent, they are very rational grounds for predicting the future welfare of the child; and so, also ignorance dissipation, and vice in the parent are far more malignant respects for the infant that has the misfortune to be born under them, than any configuration which either the stars, or any thing else out of any family can assume.

There was a time when not the people merely but the titled and the learned, were thrown into the greatest consternation by an eclipse of the sun or moon, or the appearance of a comet or the aurora borealis. And why? Because they are of comparatively rare occurrences and when mankind do not know the rational cause of any thing, they always form to themselves a superstitious one. A candle is to the inmates of a room at night what the sun is to the inhabitants of the earth during the day; it gives them light, and, if the flame be large enough it gives them heat. If, too, there be a mirror upon the wall and the candle be so placed as that the light reflected by the mirror is thrown into a room which the candle does not illuminate, the mirror will give a sort of moonlight to any one who happens to be there. Now, if one of the family were to stand between another of the family and the candle, the candle—their sun for the time—would be just as much eclipsed to the one from whose sight it were hidden, as the sun of the world is when the moon comes between it and the earth; and so also if any one placed himself in such manner, as that his shadow fell upon the mirror, that mirror—the temporary moon of those in the dark chamber—would be just as much eclipsed, as the moon of the world is when the earth comes between it and the sun, deprives it of the light of that luminary, and prevents it from reflecting that light to the earth. Well is there any person in his senses that would say, that because one of a family had come between another and the candle, or between the candle and the looking glass, that some direful calamity would befall the family, or that they would inevitably have a brawl or a law-suit with the folks at the next cottage; and yet the consequences just mentioned are precisely of the same nature with the eclipses of the sun and moon; and from their nearness they have much more effect on the inhabitants of the cottage than the celestial ones can have upon the inhabitants of the earth. A temporary want of light is the whole effect in both cases; and as that of the celestial eclipse is never so complete as in the case of the candle and the mirror, it is, except as a matter of curiosity, or as fixing a point of time of much less consequence than the other.

With regard, again, to a comet, it is much the same as if one were to come into the room with a burning torch or taper and then go out again; an occurrence which could do no harm, unless the bearer of the torch were to run against somebody or set fire to the house. So also, if the comet be a solid substance, and if the light which it emits be of the burning kind, (for comets are so distant, and continue so short a time, that we are unable to be certain about their nature,) it

might if it came in contact with the earth, shatter it as a cannon ball shatters a house, or burn it as a red-hot shot or a shell does; but as long as we are out of its way, we are just as safe from harm as we would be if we stood on a high cliff and saw rockets let off ten miles at sea. A rocket let off in Vauxhall Gardens has just as much influence on the fate of nations and individuals, as all the comets that ever appeared; and if the stick of the rocket happened to fall upon any body, it would have a good deal more.

There was a time when the "Jack-o'-the-lantern"—inflammable air over a fen, a piece of rotten wood, or a putrid fish—both of which, in a certain state of rottenness, give out a gas which becomes luminous, was accounted as something alarming; but as every bungler in chemistry can now produce the same appearances whenever he pleases, they have ceased to be regarded with any degree of apprehension.

All these follies, with which people wasted their time, disturbed their imaginations, and made themselves uneasy, resulted from the want of a little—a very little—sober and independent thinking. Effects must be similar to their causes; and every subject which is matter cannot affect the mind in any other way than by affecting the body. The arsenic which lies buried a mile under ground, or that which is contained in the stores of the Apothecaries' Company, is just as deadly in its nature as that which has, by accident, crime, or madness, got into the human stomach. But while it remains there it poisons nobody; and though, by continually alarming himself about it, a man of weak mind might, in time, bring himself to believe that it would; and though this should injure his health, or even frighten him to death the arsenic would be quite innocent of the matter. What would even the most ignorant man now living think, if he were told, that if a pinch of gunpowder were to be stolen from the stores of the Grand Signior, brought to London, and burned according to the rules of art, it would instantly blow up all the magazines in Turkey? Well, there was a time when the belief of such an influence in powder was far more prevalent than that of the influence of the appearances of the year upon human life and fortune is now.

The sun, and moon and the planets and stars, are merely masses of matter—inanimate, and, of course, without any power of thinking and acting as whole—though they may have different classes of growing and living beings upon them, in the same way that the earth has; and it may be, that while we are frightening ourselves with the changing phases of the moon, the people on that luminary are in the same alarm at our planet. But bodies placed at so great a distance from each other, as the planets and stars are, can have no influence upon each other, saving that of gravitation, and light and heat, which will, of course, change with every change of position and distance. As, if the moon be far north in the sky, it will be longer "up," or above the horizon, to us in these northern latitudes; if it be near to the sun, on the eastern side, it will shine in the early part of the night; if it be near, on the western side, it will shine in the latter part of the night; if it be directly opposite to the sun, it will, if just as far north in the sky, rise at sunset and set at sunrise; if it be farther north, it will rise before the sun sets, and set after the sun rises;—if south of the sun, it will rise after sunset, and set before sunrise;—and if it be in the same part of the sky with respect to east and west, as the sun, it will rise and set at the same time with that luminary, and not be seen, unless it be also in the same part of the sky with regard to north and south; and in that case it will come, in whole or in part, between the earth and the sun, according as their places are exactly or only nearly the same, and occasion a total or a partial eclipse of the sun. All the changes of the moon, with regard to shape and time of appearance, take place in every lunar month, from one new moon to another. All the variations, of appearances, eclipses and other phenomena, recur in a period of about nineteen years; and any of them may be fore told by one who has a knowledge of astronomy.

There are some other particulars in the moon's appearance, upon which superstition is still apt to lay hold, and predict, if not something as to human life at least something about the weather which is a fertile subject for imposture. One of them is the position of the cusps, or points, of the new moon when first seen. These are always both at equal distances from the sun, and, of course, their standing straight, or leaning backwards, or forwards, depends upon the distance that the moon is north or south of the sun. Any one can see this by a very simple

experiment. Take an orange or an apple, or any thing round, and hold it in your left hand between you and the candle, only as far to the left as that the light will shine on a part of it in the shape of a new moon. This moon may be much narrower or broader, according as you hold it nearer or further from the line between you and the candle. If you hold it just as high as the candle, the line of the points will be upright; if you move it higher the candle, the line will lean backwards, more and more as it is raised; and if you move it down lower than the candle, the line will lean forward, more and more as it is lowered.

Two other peculiarities of the moon, that occasion a good deal of speculation among those who are ignorant of the causes are, "the harvest moon," in September, and "the hunter's moon," in March; the former of which, when near the full, rises for several nights at nearly the same hour, and the latter, at the same age, is equally remarkable for the difference between the times of its rising. The moon moves nearly to the same distance from the sun every day, but it moves in a path, the one-half of which is much nearer the north than the other; and this is the case also with the apparent annual path of the sun; that luminary appearing much nearer to the north in summer than in winter. Thus, when the moon is moving northward at the most rapid rate, it escapes from the horizon northward, and rises earlier; and when it moves southward at the most repaid rate, it approaches to the horizon, and sets earlier. The full moon can be in the former position only in September or October, and in the latter in March or April; and thus the harvest and hunter's moons are occasioned.

Such are the principal changes in the moon's appearance; they are all to be explained upon the simple facts of the motions of the moon and the earth; and, therefore, they neither have, nor can have, any of those influences which superstition, the child of ignorance, ascribes to them.

The planets being all much more remote from the earth than the moon is, and having little difference in their appearances, saving what arises from their own motions and that of the earth round the sun, have little about them that claims attention, as connected with the appearances of the year. Influence upon the earth, upon the changes of the seasons, or upon any thing that in any way affects the comfort or the ordinary pursuits of mankind, they have none whatever; and therefore, the explanations of their appearances and motions may very properly be left to the study of astronomy.

Thus, the only thing that remains in order to complete this simple notice of the phenomena of the year, is some account of the annual appearances of the sun—that grand source of light, and life, and enjoyment, to all the animal and vegetable tribes.

In order that the whole may be clearly understood by those who have not much knowledge of geography and astronomy it may not be improper to begin with the apparent revolution of the heavens, every day, as arising from the real rotation of the earth. When a round body, such as an orange, or a billiard ball, is made to whirl round in the same place upon the table, by spinning it, although there may be no mark upon it, one can easily perceive that there is one point in the middle of the upper part of it, round which all the rest turns, just as a wheel turns upon an axle; and if one could see it from below, there would be found a similar point in the middle of the under part, round which the whole would be seen to turn. These two fixed points would be the poles of the ball or orange; and if we imagine a line drawn from the one, through the centre to the other, that line would be the axis of rotation. The earth turns round from west to east every twenty-four hours, in the very same manner; only, instead of being supported upon any thing like the ball or the orange, it is kept in its place by the mutual attraction between it and the sun. If we make a little mark any where upon the ball, and imagine ourselves to be living there, the candle which stands still upon the table would appear to move in the contrary direction to that of the ball. If the candle be held just as high as the middle of the ball, the mark, wherever we place it, (say in the upper part, half way to the centre or pole,) will pass one-half of its revolution through the light of the candle, and the other half not. If (the mark being still in the same place) the candle be raised higher up than the centre of the ball or (which will have just the same effect) if the ball is put lower down than the candle, the mark will pass through the light for a longer time of each rotation than it is in the dark; and if the candle be held further down than the centre of the ball, or the ball raised higher than the centre of the candle, the mark will pass through the light for a shorter time than it does through the dark.

ness on the other side. Also, the increase of light in the former case, and the decrease in the latter, will be the greater, the farther the centre of the ball is below or above the candle, and the nearer the mark is to the pole or point round which the upper part of the ball seems to turn. If we call the upper pole of the ball the *north pole* the mark (rather more than a third of the upper half from that pole) any place in the British islands; and suppose the ball to be the earth, and the candle the sun, we have before us the whole principles of the motions that produce the changes of the seasons.

We have only to imagine a level plane, or even flat surface, to pass through the centre of the sun; that the axis upon which the earth turns round is always upright to that place; that the orbit, or path, which the earth moves in during the year, lies, one-half of it above the plane, and the other below; and that this orbit has an inclination, or makes an angle of about twenty-three degrees and a half with the plane each way, then if we further imagine, that the north pole of the earth is uppermost and that the earth, in moving round the orbit from west to east, performs as many rotations as there are days in a year, we shall have the whole means of explaining the changes of the seasons.

If we imagine that the point at which the earth is highest above the level plane passing through the centre of the sun, is immediately before us and nearest to us; then the point at which it meets the level plane, in descending, will be the one farthest to the right of the sun; that where the earth is farthest below the level plane will be the one at the greatest distance, and right before us; and that at which the earth meets the level plane in ascending towards us, will be the one most remote from the sun on our left hand.

The first of these points will be the shortest day to those in the northern hemisphere; and for the quarter of a year from that to the second point, the day there, will always be less than twelve hours, and the night more.

The second point will be the vernal equinox, — equal day and night in the spring; and in the quarter from thence to the third point, the days in the northern hemisphere will always be more than twelve hours, and the nights less.

The third point will be the midsummer, or longest day, in the northern hemisphere; and in the quarter from that to the fourth point, the day will be again more than twelve hours, and the night less.

The fourth point will be the autumnal equinox, — equal day and night autumn; and in the quarter from thence to the point at which we supposed the earth to set out, the day will be, as in the quarter first noticed, less than twelve hours, and the night more.

It is evident, that on the half of the surface which is round the other, or south pole, the appearances of the seasons will be quite reversed.

Thus, in the whole of the half that lies above the level plane, the day will be shorter than the night; it will decrease during the first part of that half, and lengthen again, at the same rate, during the second. Also, in the whole half below the plane, the day will be longer than the night. It will lengthen during the first part, and shorten at the same rate during the second.

On the earth, the motion which causes the lengthening and shortening of the day is not seen, except by all the stars that are round the heavens coming to the south in succession at midnight; and the sun being farther north at rising and setting, and higher at mid-day when the day lengthens, — and the reverse when it shortens.

The lengthening and shortening are not at the same rate at all times of the year; for it is not the absolute distance of the earth from the level plane, but the change of distance between one day and another that makes the difference of their lengths. Now, if any one take two rings of hoops of any kind, and put the one across the centre of the other, a little obliquely, he will see that they recede from each other most rapidly at the two points where they cross, and that mid way between these points there is a considerable space where they are nearly at the same distance. Therefore, the days must lengthen and shorten most rapidly at the equinoxes, and be for some little time of nearly equal lengths at mid summer and mid winter.

The different duration of the day, and the different heights of the sun, are the causes of those variations of natural heat which so beautifully diversify the year.

Under the word 'years' find the year; above which is the Dominical letter for that year; then against the months find the same letter, over which are placed the days of the month, for every Sunday in the month. In leap year, for January and February, use the letter above the blank space before the year; for all the rest of the months, use the letter for the year.

To find out when it is Leap Year, divide the year by 4; if there is no remainder, it is Leap Year; and if any remainder, it is 1, 2, or 3 years after Leap Year.

3,300 Factory Maunds.

To reduce Bazar weight into Cwt.; add 1-10th and deduct 1-3rd of that sum, the remainder will be Cwt.

Thus 3,000 Bazar Maunds.

Add 1-10th 300

3,300

Deduct 1-3rd 1,100

Remainder 2,200 Cwt.

To reduce Factory Maunds into Tons; divide by 30, and the quotient will be the answer.

Thus, Factory Maunds 3,000 \div 30 = 100 Tons.

COMPARATIVE TABLE FOR THE VALUATION OF INDIGO.

If Exchange per one Sicca Rupee be	10 Rupees per one Factory Maund equals Net* per 1 lb.	1 Shilling per 1 lb. equals Net* per 1 Factory Maund.

22	3,43	34,91

* That is, deducting more than 14 per cent. from the Factory maund, to meet all charges and contingencies. The Factory maund, 74 lbs. 62-100 is thus taken at 64 lbs.

The use of this Table is obvious. If Indigo sells in Calcutta at 200 Rs. per maund, and Bills on London at 2s. per 1 R,—what price must be expected in London to render the purchase of Indigo or bills indifferent? by column 2d—

Rs. D. Rs. Rs. d.
100 : 375 :: 200 : 63 the answer.

The third column will give the same result.

If the London price of Indigo be assumed as 7 shillings per lb. and bills on London sell here at 2s. 3d,—how much can a buyer give for a maund of Indigo without fear of loss?

From column 3d—

Sh. Rs. Sh. Rs.
1 : 33.39 :: 7 : 233½ Answer

The same result is obtainable from column 2d.

Time Table.

No. 1.—Shows the number of days from any given day in one month to the same day of any other month. It must be observed, that in Leap Year, if the end of the month of February be included in the time, one day must be added. If it be desired to find the number of days from a given day in one month to a different day in another, the difference between the dates must be added to, or subtracted from (as the case may be) the amount. For Example:

—To find the number of days between the 5th of January, and 12th of November—
 From 5th of January to 5th of November, 304 Days.
 From 5th to 12th of November, 7

311
 If it be Leap Year, add 1

Answer, 312

No. 2.—Shows the decimal parts for each and all the days in the twelfth part of a year, consisting of 365 $\frac{1}{4}$ days.

THE USE OF THE FOREGOING TABLE.

I. To find the number of days from the end of the year to any day in any month of the year following.—*Rule*: Opposite the given day in the margin look under the given month, which will show the number of days required. Thus, from 31st December till 19th August following are 230 days, and to 30th October 303 days.

II. To find the number of days from any particular day, to the end of the year.—Suppose 27th July.
From 365, the days in a year,
take the number answering to 27th July, viz. 209

Remainder 157 days required

III. To find the number of days from any day in one month to any day in another month—suppose from 5th April to 28th November.—*Rule*: Take the difference between the numbers corresponding to those days.

28th November 333

5th April.... 59

Answer..... 237

IV. To find the number of days between any day in one year to any day in the year following.—suppose from 21st August, 1822, to 27th May, 1823.—(See Rules I and II)

From 266 Days in a Year.

Take the number of 21st August 233

232 days in 1822

Add the number of 27th May 147

Total..... 370 days required.

* * * The Use of this Table is too obvious to require an explanation.—Observe, that by reason of the Refraction, the Sun appears to be much higher than it really is; so that if the rising and setting be reckoned from the time when the body of Sun is quite above the Horizon, it will be nearest the truth.

A F F G H A N I S T A N.

DOST MAHOMMED KHAN, one of the Brothers of FETTER KHAN, the celebrated Vizier of MAHMOOD, and chief of the *Barickzye Clan*, the most powerful in Afghanistan had for some years ruled this country previous to the *Restoration* of SHAH SOOJAH OOL MOOLK in 1838. On the death of this Prince, DOST MAHOMED again assumed the reins of Government which he still holds.

On the base and cruel murder of FETTER KHAN by MAHMOOD at the instigation of PRINCE KAMRAN, his brothers revolted from their allegiance under the guidance of Azeem Khan, the Governor of Cashmere, and drove Mahmood and his son from Cabul. Azeem Khan in the first instance offered the vacant throne to Shah Soojah, (considered the legitimate King by the British Government,) but offended by some personal slight, withdrew his support, and placed in his room, EYOOR, a Brother of SHOORJA, who was content to take the trappings without the power of royalty. On AZEEM KHAN'S death, his Brothers dissatisfied with their position conspired against his son, HUBEER OOLLAH KHAN, and seizing his person, by threats of blowing him from a Gun, induced his mother to deliver up the residue of Azeem Khan's immense wealth. EYOOR'S son was killed in these disputes and he himself alarmed by these scenes of violence fled to Lahore. DOST MAHOMMED, the most talented of the Brothers, then took possession of the throne and became *de facto* King of CABUL. SHERE DIL KHAN accompanied by four Brothers carried off about half a million ~~stealing~~ of AZEEM KHAN'S money, and seated himself in CANDAHAR, as an Independent Chieftain. He and one of his Brothers are dead; and CANDAHAR was until lately ruled by COHUN DIL KHAN, assisted by his two surviving Brothers, RUZEEM DIL and MEER DIL.

THE PUNJAB.

Maharajah DULEEP SING, a minor of the age of ten years, will sit on the throne of the Punjab on coming of age.—The Government of the Punjab is in the meanwhile administered by a Council of Regency, which is under the control of the British Resident. When these pages went to press the continuance of the above arrangement was more than doubtful.

KINGDOM OF OUDE.

The family of the princes of Oude are descended from MEER MAHOMMED AMEEN, of a noble family in Persia, who came to India in the reign of BEHADOOR SHAH, and was received into the Imperial service, under the name of SAADUT KHAN. He was appointed to the Government of Oude in 1719 on the accession of MEHAMED SHAH to the throne of Delhi. He had no son, and was, therefore, succeeded by his nephew and son-in-law. MUNSOOR ALLY KHAN, who took the title of SUPDER JUNG. He was succeeded by SUJA-OOL-DOWLA, who was again succeeded by ASOPH-UD-DOWLA. On the death of ASOPH-UD-DOWLA without any male issue, his spurious son, VIZIER ALLY, assumed the reins of government, but his illegitimacy being discovered, he was after a reign of four months deposed, and SAADUT ALLY KHAN, the brother of ASOPH-UD-DOWLA ascended the *musnud* on the 21st of January, 1798. He died in 1814 and was succeeded by his son, GHASID-UD-DIEN HYDER, who relinquished the title of Nawab, in 1819 and assumed that of King; he died in 1827 and was succeeded by his son SHAH ZEMAN, who assumed the titles of "His

Majesty ABOO NUSSER, KOOTAB-OD-DEEN. SOLIMAN JAH, SULTAN, AHMIL NOUSSHERWAN ZEMAN, NUSSER-OD-DEEN, HYDER SHAHJAHAN BADSHA, GHAZEE, KHOOLD-OLLA MOOLUK-A-HOO SULTAN, NOT A-HOO." This prince died in 1837 and was succeeded by his uncle, NUSSER-OD-DOWLA, who assumed the title of "His Majesty ABOU PUTTEY MOHEN-OD-DEEN SULTANA ZEMAN MOHAMED-ALLY SHAH BADSHA-A-OUDE," who died in 1847.

KINGDOM OF AVA OR BURMAH.

The family name of the (said to be) deposed King of Burmah, or that given to him by his Grand father, is Maung Khaung, but it is not considered respectful to mention this name. Having obtained as an appanage, and held until he assumed the throne, the rich District of Tharawadi, which contains the principal teak forests in the country, he was always styled Tharawadi, Meng tha, or Prince of Tharawadi. He was born on Wednesday the 8th of September 1786, and he is therefore now (1st January 1844) in his 59th year. His father was the Heir apparent to the throne when Colonel Symes visited Amarapura, and, whom that officer calls Engg Taekien, more properly, Ain-ye-thakhen, or Ain-ye-Meng, Lord or Prince of the Eastern House. His Grand father was Colonel Symes's Minderagse, more properly Meng-dara-gyee, the Great King of Righteousness, one of the titles borne by the Kings of Burmah; but his subjects now refer to him as Pho-dau-gyee, the great royal Grand-father, or Badoun Thakhen, the Lord of Badoun, the town which he had held before he came to the throne. He died on the 6th June 1819 and was succeeded by the present King's Elder Brother once known as Tsa gain-meng tha, Prince of Tsagain, with the family name of Maung Tsen, the same who engaged in war with the British Government, and who was dethroned by the present monarch in the month of April 1837.

In June 1837 the deposed King deserted his Brother's Capital of Ava, which has now become a ruin, and proceeded sixty miles to the northward, with the ostensible object of building a new city there, but in reality for the purpose of escaping from the British resident, for on the withdrawal of that officer, the King returned, and established himself in his Grand-father's city of Amarapura, which is now again the Capital of the country.

By his principal Queen he has a grown up son and daughter, the former now styled Taung-dweng-gyaung Mengtha, Prince of Taung-dweng-gyaung, and the latter highly skilled in Burmese science, particularly astrology. By his numerous inferior Queens he has several other children, the principal of whom is a bold, spirited character, formerly named Tait-teng-gyee, but since his father's accession to the throne styled, from the town the revenues of which he enjoys, Pye Meng-tha or Prince of Prome. Besides him, and the King's Uncle, the Philosopher-Prince of Mekkhara, the Lhwottan or grand council of the kingdom now consists of four Woongyees, two of whom are, Maung Shwe-za, who was Governor of Rangoon during Major Canuing's mission in 1811-12 and Maung Dauk-kyee, who held the same office when Colonel Benson was deputed to the Court of Ava in 1838.

Shortly after the present king seized the throne, he put to death the late Monarch's only son, the Tsakya Meng, his principal Queen, her Brother Meng-tha-gyee, or the great Prince, and most of the ministers and Chief officers of the late Government. The life of the late Monarch however, has been spared and he is not ill-treated excepting in being kept as a state prisoner. The country is stated to be in a very unsettled state, and there is now no Burmese officer of superior rank and authority to the southward of the Capital. Every town and almost village has its own petty governor independent of all interference excepting from the Court itself. Commercial speculations also are hazardous, particularly as the present King has endeavoured to destroy his principal Sea-port town of Rangoon, where British subjects are now not sure of protection and freedom from official exactions and molestation; and it is very important that it should be generally known, that the Government of India declined to interfere when a complaint was submitted to it by a British Commander of ill usage at Rangoon. Although the

relations of the British Government with the present King continue in an unsatisfactory state and no British Officer resides in Burmah, there is no ground for supposing that he entertains the smallest idea of risking a war with us. On the contrary, strong hopes may now be entertained, as two of the most violent of the war party, the King's Son Tait-teng-bbyu, and the Mya-wade Woongyee, have been recently carried off by Cholera, that the convenience and advantage of re-establishing amicable relations with the British Government will be acknowledged by the King of Burmah.

The following may be considered as a fair translation of the state and title of the King's of Burmah:—"His most glorious and excellent Majesty the Lord of the Tshaddan, King of Elephants, Master of many White Elephants, and Proprietor of Mines of Gold, Silver, Rubies, Amber and the Noble Serpentine, Sovereign of the Empires of Thunaparanta and Tampadipa and other great Empires and Countries, and of all the Umbrella wearing Chiefs, the Supporter of Religion, the Sun-descended Monarch, Arbiter of Life, and great King of Righteousness, who bears the honorary name (in Pali) of the Illustrious in the three worlds, the King of Kings, possessor of boundless dominion and supreme wisdom, and great King of Righteousness."

His dominions consist of Burmah Proper, the old kingdoms of Toung-ngu and Pegu, and the Shan States and Districts of Kale, Thanngthut, Khanti, Mogaung, Bamo, Monhyen, Momait, Main Louu, Taung-hain, Thainni, Kaingmah, Main Main, Main Leng-gyih, Kyain Youn-gyih, Kyaintoun, Kyain Khyaing, Thibo, Thoun-zay, Moneh, Kyain-toung, Kyain-kham, Nyaung-yur, Lègya, Mauk-me, Mobyé, Main Pyia, Main Pau, Main Pan, Main Kaing, Naung-mun, Thigit Tabet, Youk-zouk, Main Tsait, Enle, &c., all of which States and districts however are differently named, more or less, by the Shans themselves.

KINGDOM OF SIAM.

The King's usual titles are, "The God Buddh who dwells over every head, the Lord of life and master of the Palace". His dominions consist of Siam Proper, of the Shan States of Ch'hiung Mai, Lamp-hun, Lak-hon, Meuang Nan, Meuang Fang, Lan-ch'hang, Luang Phua-ang, Ch'hiung Sen, Ch'hiung Rai, and others, of part of the old kingdom of Cambodia, and of the Malayan States of Queda and Patani.

The present King is the same person whom Mr. Crawford saw as Prince Krom Chiat a Bangkok in the year 1822. He was the eldest son by an inferior wife of the late King, whom he succeeded on the 21st July 1824, with the general consent of the Country, and he is now about 50 years of age. His successor, it is supposed, will be his brother *Chao Fa*, "Lord of Heaven," the eldest son of the late King by his principal Queen. The other Members of the Royal family of Siam are said to amount to nearly three thousand.

KINGDOM OF NEPAUL.

Maharaja RAJ RAJENDRA VIKRAM SAH, King of Nepal, succeeded his father at the early age of two years; he is the son of GIRIVAN JUDDHA VIKRAM SAH, the son of PRITHWI PAL SAH, the successor of RUN BAHADUR the son of SING PERTAB, the son of PURTHI NARAIN, the Goorkhali conqueror of Nepaul, who subdued it in 1768.

The death of the present Rajah's father is one of those, which Princes whose caprice is the law, have met with. GIRIVAN JUDDHA VIKRAM SAH having caused a pagoda, like that of Juggernath, to be erected, ordered similar obedience to be paid to it. This excited dissatisfaction amongst his people; and one of his brothers took advantage of this opportunity of revenge, the death of another brother, who had been put to death by the eradication of his eyes, by order of the Rajah. He accordingly went to the Court, and pretending to remonstrate with him on the injustice of his late order, struck him with his sabre. He was, however, imme-

diately killed by the Causy Bhimsen, who was present, and the infant prince was placed on the Musnud. On the night of the same day, three hundred persons, on whom any suspicion fell, were, it is supposed, put to death by the Causy's order. Nepal is tributary to China from the year 1792.

NIZAM OF HYDRABAD.

His Highness Nawab ASOPH JAH MOOZUFFIER-UL-MOOMALIK MEER FURKONDEH ALI KHAN BARADOOR FATER JUNG, Nizam of Hyderabad, ascended the Musnud on the 24th of May, 1829; is the son and successor of SECUNDEH JAH the eldest of the eight sons of NIZAM ALI KHAN, the younger brother of SALABUT JUNG, the uncle and successor of MOZUFFIER JUNG, the nephew and successor of NAZIR JUNG, the second son of NIZAM-UL-MOOLK, who obtained the Soubadary of the Deccan in 1717, in the reign of Ruffee-ul-Dirjet.

Before the formation of a treaty of perpetual alliance with the English, on the 12th October, 1800, the subadary of the Deccan had suffered continual disturbance. When Asoph Jah Nizam-ul-moolk returned from Delhi, in 1740, he fought in 1741, his son NAZIR JUNG who had rebelled against him. Nizam-ul-moolk died in 1748, from which time, to the year 1763, a period of 15 years, three princes had ascended the Musnud, and were successively assassinated. Muzaffer Jung was grandson to Nizam-ul-moolk by his younger daughter's side. Nizam-ul Moolk removed his capital from Aurungabad to Hyderabad.

RAJAH OF GWALIOR.

His Highness, Maharajah Ali Jah Jyjee Rao Scindia, the adopted son of, JANKO RAO Scindia, succeeded to the Government on the 4th February 1843, on the death of his predecessor, JANKO RAO who was elected by Baiza Bai, the widow of DOWLET RAO Scindia; the nephew of MADHAJEE Scindia, the son of RANOJEE Scindia.

The family of Scindia are Sudras, of the tribe of Kumbhee, or cultivators. Ranojee was employed by Peishwa Bajerow, as the bearer of his slippers, from which situation he rose to eminence; and when Bajerow having succeeded his father, Biswanath Row, in the office of Peishwa, in May, 1720; came into Malwa in 1731, Ranojee was a Marhatta chieftain of high rank; so that the Sovereign authority of the Scindia family cannot have existed much more than one hundred years.

RAJAH OF BHURTPORE.

His Highness, Maharajah BALWONT SINGH, Rajah of Bhurtpore, succeeded his father in August, 1824; was displaced by one of his cousins, DURJUN SAL, in March, 1825, but reinstated by the British Government, on the 19th of January, 1826; is yet a minor in age; the son of BULDEH SINGH, the second brother of RANADHAR SINGH, the eldest of the four sons of RUNJEET SINGH, the son of KAIRY SINGH, the brother of RUTTUN SINGH, the brother of JOWAHUR SINGH, the son of SOURAJ MULL, the founder of the principality, killed in 1763.

The settlement of the Jauts, (of which tribe the Rajah of Bhurtpore is,) in the Doonab of the Ganges and Jumna, is dated in 1700, when they migrated from the banks of the Indus. During Aurengzeer's last march towards the Deccan, CHURAMUN, the Jaut, pillaged the baggage of the Army, and with part of the spoil erected the fortress of Bhurtpore. The present prince, like many of his predecessors, is not legitimately descended being the son of a female slave of the name of Saheb Ramar. When a Rajah has no son, he purchases females, and the boy begotten on any of them, is adopted by the Rajah and the Pant Ranees.

RAJAH OF KOTAH.

His Highness, Maharaja BISHEN SINGH, Rajah of Kotah. The son of KISHOUR RAO, the son of Maha Rao OMID SINGH.

RAJAH OF INDOOR.

His Highness, Maharaja HURRY RAO Holkar the cousin and successor of MOULHAR RAO the third the adopted son and successor of JESWONT RAO Holkar, the brother of CASI RAO, the eldest of the four sons of TUKAJEE Holkar, a chief who was elected to the Government of the Holkar state by ABILLIA BAI, on the death of her son MALLER ROW.

The Holkar family are of the Dhoengur or-shepherd tribe. The derivation of the name Holkar, or, more properly, Hulkur, is from Hull a village, and Kur, an inhabitant. MOULHAR RAO, I. was the first prince of the Holkar family; and the time when he obtained any local authority was in 1728; the district of Indore was assigned to him in 1738. He had only one son, Kandi Row, who died in 1754, many years previous to his father's death, and left an only son Mallee Row. He also died after a reign of nine months after the death of MOULHAR Row. The original family being thus extinct, ABILLYA BAI elected TUKAJEE HOLKAR to the principality. He had four sons, CASI Row and MOULHAR Row by his wife, and Jeswont Row and Etojee by his mistress.

RAJAH OF JOYNAGAR OR JYEPOOR.

His Highness, the infant son of Maharaja SEWAI SINGH, Rajah of Joynagar, or Jyepoor, who is the son of JAGAT SINGH, the son of PRATAP SINGH, the son of MADHO SINGH, the son of RAM SINGH, the son of SEWAI JYSINGH, who lived in the time of MEHAMED SHAH. The young prince is of tender age and RAWUL BAIRI SAUL is the regent during his minority, appointed by the British government.

RAJAH OF JOUDHPOOR OR MARWAR.

His Highness, Maharaja MAUN SINGH, is Rajah of Joudhpoor or Marwar. He is of the tribe of Rhattore Rajpoots.

The earliest Rajah of this country on record was Maharaja Jeswont Singh, who having died near Cabul, in 1581, Aurungzebe, one of whose best generals the Maharaja was, gave orders forcibly to convert his children. The family were thus compelled to take refuge in the hills and woods, and on the death of Aurungzebe, regained their former possession. AJIT SINGH, the grand son of Jeswont Singh, having rebelled.

RAJAH OF BOGHELKUND.

His Highness Maharaja BISWANATH SINGH, Rajah of Boghelkund which is perhaps the most ancient Hindu dynasty now existing in India.

RAJAH OF BHOONDEE.

His Highness Rao Rajah RAM SINGH, Rajah of Bhoonde, is of the Hara tribe. "During the retreat of Colonel Monson, in 1804, the Bhoondee Rajah greatly assisted him in his distress; and his conduct has been uniformly friendly to the English; yet, at the peace of 1805, he was abandoned by the Government to the vengeance of the Mahrattas." *Hamilton, page 173.*

RAJAH OF OUDEYPORE.

His Highness, Raj Rana JAWAN SINGH, the son of RANA BHIM SINGH, Rajah of Oudeypore. The family of the princes of Oudeypore, belong to the Sesodia tribe of Rajpoots, which is considered the most noble of all the tribes. The family is also regarded highly by the Mohamedans, in consequence of a tradition, that he is descended, in the female line, from the celebrated Noushirvan, who was King of Persia at the birth of Mohamed, and thus to have in that line a common origin with the descendents of Hossein, the son of Ali.

RAJAH OF BIKANERE.

His Highness, Maharaj RATTEN SINGH, Rajah of Bikanere, the son of SURAT SINGH. The country of Bikanere is governed by the Rhattore Rajpoots, but the cultivators are mostly Jats.

BENGAL ALMANAC

Part V.

Coins, Weights, Measures, &c.

Coins, Weights, Measures, Exchange, &c.

CALCUTTA IN BENGAL.

COINS.—Accounts are kept here in Rupees, with their subdivisions, Annas and Pie; 12 Pie make 1 Anna; 16 Annas 1 Rupee.

The standard of the Bengal money has ever been silver. Gold is occasionally coined, but the great bulk of the currency is silver.

There are various kinds of Rupees to be met with in Bengal, whose fineness and weight are different, though their denominations are the same. From this, and from the natives frequently punching holes in the Rupees, and filling up the vacancy with base metal, and their wilfully diminishing the weight of the coin after coming from the mint, the currencies of Rupees from the different provinces are of different values. This defect has introduced a custom of employing shroffs or money-changers, whose business is to set a value upon these different currencies, according to every circumstance, either in their favour, or their prejudice. When a sum of Rupees is brought to one of these shroffs, he examines them piece by piece, and arranges them according to their fineness; then by their weight; he then allows for the different legal battas upon Company's Rupees, Siccas and Sonauts; and this done, the values in gross by the Rupees current what the whole are worth; so that the Rupee current is the only thing fixed, by which coin is valued.

A Lac of Rupees is 1,00,000; and a Crore, 100 Lacs or 1,00,00,000 Rupees; and in accounts, sums are distinguished into Crores, Lacs, and single Rupees, by marks or divisions, as in the foregoing examples.

Cowries, small, white, glossy shells, are made use of for small payments in the Bazar, and are generally thus reckoned :—

4 Cowries	} equal to	1 Gunda
20 Gundas		1 Pun
4 Puns...		1 Anna
4 Annas..		1 Cahun, which is about $\frac{1}{4}$ of a Rupee.

But they rise and fall according to the demand there is for them, and the quantity in the market.

COINAGE.

FORT WILLIAM, FINANCIAL DEPARTMENT.

11th November 1840. *Proclamation.*—The Governor General in Council is pleased to notify, that from and after the 11th day of November 1840, in respect to the Mint of Calcutta, and from and after the 1st day of April 1841, in respect to the Mints of Fort Saint George and Bombay, those parts of Act No. XVII. of 1835, which were suspended by Act No. XXXI. of 1837, directing that certain Silver Coins issued from the Mints within the Territories of the East India Company shall bear on the Obverse the Head of the Reigning Sovereign of the United Kingdom of Great Britain and Ireland, will be again in force; and that the Device of the Silver Coins which shall be coined from and after the said dates respectively in the Mints of India, in conformity with Acts XVII. of 1835 and XXI. of 1838, will be as Act No. XVII. of 1835 requires, viz.

On the Obverse—the Head of Her Majesty Victoria, with the words

VICTORIA QUEEN.

On the Reverse—The denomination of the Coin in English and Persian in the Centre, encircled by a Wreath, and around the margin the words—

EAST INDIA COMPANY,

1840.

The Coin will be milled on the edge, with a serrated or upright milling like the Rupee now Current bearing the Head of His late Majesty William IV.

The Weight, Standard, Fineness and Value of the Company's Rupees, as defined in the Act, are here repeated.

Weight.—180 grains Troy, or one Tolah.

Standard Quality.—Eleven-twelfths Silver, one twelfth alloy.

Value.—The same as the Company's Rupee of 1835, the Madras, Bombay, Furrukabad, and Sonat Rupee, and equal to fifteen-sixteenths of the late Sicca Rupee.

The other Silver Coins authorized to be issued from the Government Mints by Act No. XVI. of 1835 and Act No. XXII. of 1838, viz. double, half, and quarter rupees, and two anna pieces, will bear in all respects a due proportion to this Rupee.

The Governor General in Council hereby directs that all Magistrates, Collectors, and other Public Officers, will promulgate this Proclamation throughout their respective Districts; and that a translation of it be affixed in a conspicuous place, at every Public Treasury.

Money Changers, Shroffs, Podars and others, should be required to take notice of the Provision in Act No. XVII. of 1835, against clipping, filing, punching, or otherwise defacing the legal Coin. The Silver Coins issued from the Mints of Government, under Act XVII. of 1835, if not cut, clipped, marked, or otherwise wilfully impaired, are legal tender for their full value, until by gradual wear, they have lost two per cent. of their original weight.

Secy. to the Govt. of India.

Small shells, called cowries, are also still partially made use of for fractional payments, and are reckoned as follows: but their value is subject to considerable fluctuation, and they are now nearly superseded by the copper currency.

EXCHANGES.

EXCHANGES.

For the conversion of the rupee into the equivalent currency of other nations, it is necessary to take into consideration the fluctuating relative value of the precious metals *inter se*, from the circumstance of gold being in some, and silver in others, the legal medium of circulation.

It is also necessary to take account of the mint charge for coining at each place, which adds a fictitious value to the local coin. The *par of exchange* is, for these reasons, a somewhat ambiguous term, requiring to be distinguished under two more definite denominations. 1st, the *intrinsic par*, which represents that case in which the pure metal contained in the parallel denominations of coins is equal. 2nd, the *commercial par*, or that case in which the current value of the coin at each place (after deducting the seignorage leviable for coinage) is equal: or in other words, 'two sums of money of different countries are *commercially* at par, while they can *purchase* an equal quantity of the same kind of pure metal.*

Thus if silver be taken from India to England, it must be sold to a bullion merchant at the market price, the proprietor receiving payment in gold (or notes convertible into it). The London mint is closed against the importer of silver; which metal has not therefore a minimum value in the English market fixed by the mint price: although it has so in Calcutta, where it may always be converted into coin at a charge of 2 per cent. On the other hand, if a remittance in gold be made from this country to England, its out-turn there is known and fixed: each new Calcutta *gold mohur* being convertible into 1-68 or 1½ sovereign nearly; but the price of the *gold mohur* fluctuates as considerably in India as that of silver does in England, the natural tendency of commerce being to bring to an equilibrium the operations of exchange in the two metals.

The exchange between England and India, has therefore a twofold expression; for silver, the price of the sicca rupee in shillings and pence;—for gold, the price of the sovereign in rupees. To calculate the out-turn of a bullion remittance in either metal, recourse may be had to the following

Table of English and Indian Exchanges.

The data for the calculation of these tables are:

1st. One *mun.* (or 100 lbs. troy) of silver ($\frac{1}{12}$ ths alloy) is coined into 3200 Company's rupees, of which 64 and 60 respectively are taken as mint duty, being at the rate of two per cent.

2nd. 100 lbs. troy of English standard silver ($\frac{1}{20}$ ths alloy) is coined into 6600 shillings, of which 400 are taken as seignorage or mint duty, being 4s per lb. or nearly 6 per cent.; but the mint is not open to the holders of silver bullion, which is only purchased through the bank when required for coinage.

3rd. The sovereign ($\frac{1}{2}$ ths alloy,) weighs 123 25 grains troy, and no duty is charged on its coinage. 100 lbs. of pure gold yield 5,098 3 sovereigns,—3,069.5 new *gold mohurs*,=3041.4 old *gold mohurs*,=3490.9 Madras and Bombay *mohurs*.

The par of exchange with other countries may be estimated from the intrinsic and mint produce of their coins, thus,—assuming the Spanish dollar to weigh 416 grains troy, and to be 5 dwts. worse in assay, we have for

MUNIES.

Spain and America

100 DOL. { =231.111 tolas in weight,
 LARS. { =225.858 Pd. rupees, } or deducting duty } 221.341 Pd. Rs.
 { =211.742 Sa. rupees. } of 2 per cent. } 207.508 Sa. Rs.

The Spanish dollar forms also the currency of the Straits of Malacca and of Manilla; and it is extensively known in the colonies of England, Ceylon, the Cape, Australia, &c.

For the British colonial possessions, however, an order of Council was promulgated on the 23rd March, 1825, extending to them the circulation of British silver and copper money, and directing all public accounts to be kept therein. Where the dollar was, either by law, fact, or practice still a legal tender, it was to be accounted equivalent to 4s. 4d. and *vice versa*. For the Cape of Good Hope, where the circulation consisted of paper rix-dollars;—and Ceylon, where it consisted of silver and paper rix-dollars, as well as a variety of other coins;—it was provided that a tender and payment of 1s. 6d. in British silver money should be equivalent to the rix-dollar. The Company's rupee is allowed circulation at 1s. 11d. and the 5-franc-piece at 4s. These regulations are still in force in Ceylon, Australia, Van Dieman's Land, the Cape, Mauritius, and St. Helena.

France.

The French *kilogramme* of standard silver ($\frac{1}{10}$ h alloy) is coined into 200 francs and the *kilogramme* weighs 85,744 tolas; therefore

100 FRANCS { =42.872 tolas in weight,
 { =42.092 Co.'s rs, } or deducting duty } 41.250 Pd. Rs.
 { =39.462 Sicca rs, } of 2 per cent. } 38.673 Sicca Rs.

The coinage duty on silver at Paris is $1\frac{1}{2}$ per cent., or $\frac{1}{2}$ per cent. less than in India; hence it will be found that

100 Sa. Rs. realize almost precisely 250 francs at the Paris mint.

Minted gold in France is worth $15\frac{1}{2}$ its weight of minted silver, or the *kilogramme* is coined into 155 *Napoleons* or 20 franc-pieces: the seignorage on gold is only $\frac{1}{2}$ per cent.

1 kilogramme of pure gold yields 81,457 gold mohurs, or (deducting 2 per cent. mint duty) 79,328 ditto, therefore

100 NAPO. { =55.319 tolas in weight,
 LEC NS. { =47.315 old gold mohurs, } or deduct { 46.369 old gold mr.
 { =47.757 new ditto. } ing duty { 46.802 new ditto
 { =54.913 Madras and } of 2 per { 53.227 Mdadras &
 Bombay gold rupee, } cent. } Bombay gold Rs.

NOTE.—In a coin we consider the weight and standard. By standard is meant the proportion of pure gold or silver which it contains; the rest is alloy. Thus, if we suppose a coin to contain a thousand parts of metal, of which 917 are pure gold or silver, the 83 remaining parts being alloy, the 917 represent the standard or relative purity of the coin.

Suppose we wish to know what is the value, in English money, of the Russian Imperial of 10 rubles: the weight is 13,073 gram., the standard at 917; deducting the alloy, that is, 108 gram., there remain, in pure gold, 11,988 grammes.

The English Sovereign weighs 7.9808 gram., the standard is at 917, the alloy consequently contained in it 7.3184 gram. 662 gram., and the weight of pure gold contained in it 7.318 gram.

Now, by the rule of three, the question will thus be resolved:
 7,318 gram.: 11,988 gram.:: 20 shillings:=£1 12s 9d.

By this method, we can ascertain the relative value of all coins: but sometimes the value thus ascertained will not exactly agree with the sum allowed in exchange. This difference arises from political causes and commercial vicissitudes. Thus, for instance, the value at par of the sovereign in French money, is 25 fr. 26 c., yet it rose to 25 fr. 50 c. on one occasion (1840) after the change of a French Ministry. This fall and rise, in the relative value of money, principally takes place whenever there is a paper currency.

CHINESE MONEY, WEIGHTS, AND MEASURES.

China Weights and Money.

10 hwuh	make a sze †
10 sze	— a haou
10 haou	— a le or cash.
10 le*	— a fun or candareen†
10 fun	— a tsien or mace.
10 tseen	— a leang or tael.
16 leang	— a kin or cattys=1 $\frac{1}{2}$ lb. avoirdupois.
100 kin	— a tan or pecul=133 $\frac{1}{3}$ lbs.
7 mace 2 can	— a Spanish Dollar§

As the Chinese have no gold or silver coins, but make payments in those metals by weight, this table applies equally to money and to weights of all kinds, excepting that, in money reckoning, nothing higher than the leang or tael is employed. The only coined money the Chinese have is the le or cash. It is made of a very base alloy of copper, is round, about the size of an English farthing, and has a square hole in the middle, by which a hundred or more are usually strung together; on one side are Chinese characters, denoting the reign under which the cash was cast; and on the other side, in those of the present dynasty, are either Chinese or Mantchou characters, designating the place of coinage. Under preceding dynasties, two, five, and ten cash pieces have been in use, as well as other coins of various descriptions; but the single cash is the only coin now current throughout the Empire. It is cast also in Japan, Corea, and Cochin-China; and is clandestinely imported from the last named place, to a large amount.

* There are pieces of five, ten, and twenty fuddabs.

† These terms are also applied to designate the parts of a dollar: haou is a tenth, and sze a hundredth part.

‡ In money, the value of the candareen varies from 10 to 13 or 14 copper each, and hence the mace varies from 100 to 140, and the dollar from 720 to 1000 cash; but in weight whether of silver or of any other article, the le or cash always continues the same integral part of a candareen.

§ This is the general estimate, made by the Government, and the bazar change for dollars to small amount, 7 mace 2 candareen being the full weight of a good and unutilated dollar, but in consequence of the system adopted by all Chinese merchants and shopkeepers, stamping every dollar they pay out, the weight very speedily diminishes, until the Dollar is eventually broken into pieces, in which state it is melted into sycee.

Weights.

In China, almost every thing is sold by weight, not excepting even liquids and live stock. The only weights are those already given above, the principal of which are the pecul, catty, and tael divided thus:—

16 taels make a catty.

100 catties — a pecul.

At Macao, the pecul is distinguished by the Portuguese into three kinds, viz.

The pecul balance of 100 catties = 133½ lbs. avoirdupois;

The pecul seda of 111-15 do. = 148 1 5th lbs; and

The pecul chapa of 150 do. = 200 lbs.

90 Catties seda = a Canton pecul or pecul balance.

By the first, are sold cotton and valuable articles; by the second, alum, pepper, and coarse goods, and by the third, rice.

In transactions between one Chinese and another, goods are weighed by the Chinese docthin or balance, which is about 3 per cent. less than the English weights; the latter are always used in transactions with foreigners.

Note. At the money standard of 120 oz. 16 dwts. English troy weight for 100 taels, the pecul, which contains 1600 taels, should weigh avoirdupois lbs. 132 535. The actual standard of the pecul being 133½ lbs., a slight discrepancy thus appears between the *money* tael and the *commercial* tael, at the standards assigned to each. But no such difference is recognized by the Chinese. This is noticed to account for what will otherwise appear erroneous in some of the following tables:—

Measures.—I. Long Measure.

10 fun	or parts make a tsun	or punt.
10 tsun or punts	— a chih	or covid = 14½ inches.
10 chih or covida	— a chang	= 4 yds. nearly.
10 chang	— a yin	

The above are employed in the measurement of all kinds of piece-goods, &c. as well as of every description of workmanship. The following are employed in measuring distances:

5 chih or covida	make a poo	or pace = 5½ ft. nearly.*
360 poo or paces	— a le	or Chinese mile = 959½ yards
250 le	or miles — a too	or degree on the Equator.

The Chih, covid, or foot is of several varying lengths; according to Milburne, that of the mathematical academy is about 13½ English inches; that of the tribunal of Public works 12.7 inches; and that employed by tailors and tradesmen, 13½ inches. None however, of these three, is the same as the ordinary covid of Canton, used both in the measurement of vessels, and by tradesmen, which is about 14½ inches. The le or mile, is likewise a very uncertain measure of length, varying in almost every part of the country. It also, like the European geographical mile, forms an integral part of a degree, whether of latitude or longitude. But the scientific division of the degree, derived from the European Missionaries, is into 60 fun, or minutes, the fun being divided into 60 meau or seconds.

* This, being according to the measure of the mathematical academy, differs from the preceding statement.

II. Land Measures.

5 chil or covida make a poo or kung;
 240 poo or kung — a mow or acre.
 100 mow or acres — a king

This is the present established land measure, which varies considerably from that formerly in use. In scientific calculations, the mow is divided into ten fun, and the fun into 24 le, and so on, through the several fractional terms which have been already given, at the commencement of the table of weights. The poo or pae, also, is divided decimally the same terms, fun, le, &c., being employed.

III. Measure of Contents.

6 suh make a kwei .
 10 kwei — a chaou .
 10 chaou — a tsuy .
 10 tsuy — a cho .
 10 cho — a ho .
 10 ho — a shing = 31½ cubic punts,
 10 shing — a tow = 316 " "
 5 tow — a hwo = 1580 " "
 2 hwo — a shih = 3160 " "

This is the scientific division, established by the reigning dynasty. The common measures are,

2 y8 make a h8
 10 h8 — a shing, or pint.
 10 shing — a tow.
 10 tow — a hw8.

This table is employed almost exclusively in the measurement of grain; all other articles and even liquids being sold by weight. In dealings with foreigners, however, and probably, also, in large dealings among themselves, the Chinese sell rice and other grain by the catty and pecul weight, instead of the shing, tow, &c. In the sale of paddy, two-thirds are allowed for the trouble and diminution in weight, which accompany the taking off the husk, or, which is the same thing, paddy is sold at one-third the price of the same weight of rice.

Numbers.

Though not properly included among the subjects now treated of, may be, not inappropriately, here given. The ten unites are the following:

<i>At full length.</i>	<i>Common form</i>	<i>Contracted</i>	<i>Canton.</i>	<i>Fokien.</i>
1, Yih	—	yat.	yit,*	chit.
2, Urh	—	ee.	je,	no.
3, San	—	sam.	sam,	ana.
4, Sze		se.	soo,	se
5, Woo		ing.	ngoe,	goe,
6, Lew		luk	leuk,	lak.
7, Tseih		tsat,	chit	chit
8, Pa		pat.	pat,	payh
9, Kew		kow.	kew	haou.
10, Shih		shap.	sip,	chap.

The Chinese term for expressing 100 is pih; 1000, trëen; 10,000 wan; 1,000,000, pih wan, 'a hundred myriads;' 100,000,000, yih, &c.,—progressing decimally through the terms chaou, king, hae, to

* In the Fokien provincial dialect, characters have two pronunciations, the reading and the spoken or colloquial. The pronunciations here printed in italics are the colloquial.

Jang kon, kē-n, ching, and tsae. To express 12, 13, &c. the words are figures 10 and 2, 10 and 3 are put together; thus shih-urh, 12; shih-san, 13, &c. Also urh-shih-yih, 'two tens and one,' denotes 21, &c.

In China almost every trade has a distinct system of secret numbers, that is, instead of using the proper characters for designating prices, they adopt other characters, by which they arbitrarily express their meaning, so as to be understood only by persons of the same trade.

The Chinese method of computing is by a kind of abacus, which they call a Swan-pwan, 'counting board.'

ENGLISH WEIGHTS AND MEASURES.

Agreeably to the Act of Uniformity, which took effect 1st Jan. 1826.

The term Measure is the most comprehensive of the two, and it is distinguishable into six kinds, viz. :—

- | | | |
|---------------------------|------------------|---|
| 1. Length. | } <i>Mea.</i> of | 4. Force or Gravity, or what is commonly called Weight. |
| 2. Surface. | | 5. Angles. |
| 3. Solidity, or Capacity. | | 6. Time. |

The several denominations of these Measures have reference to certain standards, which are entirely arbitrary, and consequently vary among different nations.—In England.

The standard of	{	Length	is	a Yard
		Surface	"	a Square Yard, the $\frac{1}{4840}$ of an Acre
		Solidity	"	a Cubic Yard
		Capacity	"	a Gallon
		Weight	"	a Pound

The standards of Angular Measure, and of Time, are the same in all European, and most other countries.

1. MEASURE OF LENGTH.

12 Inches = 1 Foot		8 Furlongs = 1 Mile
3 Feet = 1 Yard		69 $\frac{1}{5}$ Miles = 1 Degree of a Great Circle of the Earth.
5½ Yards = 1 Rod, or Pole		
40 Poles = 1 Furlong		

An Inch is the smallest lineal measure to which a name is given, but subdivisions are used for many purposes. Among mechanics the inch is commonly divided into *eighths*. By the officers of the revenue, and by scientific persons, it is divided into *tenth*, *hundredths*, &c. Formerly it was made to consist of 12 parts, called *lines*, but these have properly fallen into disuse.

Particular Measures of Length.

A Nail = 2½ Inches	}	used for measuring cloth of all kinds.
Quarter = 4 Nails		
Yard = 4 Quarters		
Ell = 5 Quarters		
Hand = 4 Inches, used for the height of horses.		
Fathom = 6 Feet, used in measuring depths.		
Link = 7 Inches, 92 hundredths.	}	used in Land Measure, to facilitate computation of the content 10 square chains being equal to an Acre.
100 Links.		

2 MEASURE OF SURFACE.

144 Sqr. Inches = 1 Sqr Foot	40 Perches = 1 Rood
9 Sqr Feet = 1 Sqr Yard	4 Roods, or 160
30 $\frac{1}{4}$ Sqr Yards = 1 Perch or Rod	Perches = 1 Acre
	640 Acres = 1 Sqr. Mile

3. MEASURES OF SOLIDITY AND CAPACITY.

DIVISION I.—SOLIDITY.

1728 Cubic Inches = 1 Cubic Foot	27 Cubic Feet = 1 Cubic Yard
----------------------------------	------------------------------

DIVISION II.

Imperial Measure of CAPACITY for all liquids, and for all dry goods, except such as are comprised in the third Division.

4 Gills = 1 Pint	= 34 $\frac{2}{3}$ cubic inches, nearly
2 Pints = 1 Quart	= 69 $\frac{1}{3}$ ————
4 Quarts = 1 Gallon	= 277 $\frac{1}{4}$ ————
2 Gallons = 1 Peck	= 554 $\frac{1}{2}$ ————
8 Gallons = 1 Bushel	= 2218 1-5th. ————
8 Bushels = 1 Quarter	= 10 $\frac{1}{4}$ cubit feet, nearly
5 Quarters = 1 Load	= 51 $\frac{1}{5}$ ————

The four last denominations are used for dry goods only. For liquids several denominations have been heretofore adopted, viz.:—For Beer, the Firkin of 9 Gallons, the Kilderkin of 18, the Barrel of 36, the Hogshead of 54, and the Butt of 108 gallons. These will probably continue to be used in practice. For Wine and Spirits, there are, the Anker, Runlet, Tierce, Hogshead, Puncheon, Pipe, Butt, and Tun; but these may be considered rather as the names of the casks in which such commodities are imported, than as expressing any definite number of gallons. It is the practice to gauge all such vessels, and to charge them according to their actual content.

Flour is sold, nominally, by measure, but actually by weight, reckoned at 7lb. Avoirdupois to a Gallon.

DIVISION III.

Imperial Measure of CAPACITY, for coals, culm, lime, fish, potatoes, fruit, and other goods, commonly sold by *heaped measure*:—

2 Gallons = 1 Peck	= 724 cubic inches, nearly
8 Gallons = 1 Bushel	= 2815 $\frac{1}{2}$ ————
3 Bushels = 1 Sack	= 48 9ths cubic feet, nearly
12 Sacks = 1 Chaldron	= 58 $\frac{2}{3}$ ————

The goods are to be heaped up in the form of a cone, to a height above the rim of the measure of at least $\frac{2}{3}$ of its depth. The outside diameter of Measures used for heaped goods are to be at least double the depth, consequently not less than the following dimensions:—

Bushel	19 $\frac{1}{2}$ inches	Gallon,	9 $\frac{3}{4}$ inches
Half-Bushel	15 $\frac{1}{2}$ —	Half-Gallon,	7 $\frac{3}{4}$ —
Peck,	12 $\frac{1}{2}$ —		

The Imperial Measures, described in the second and third Divisions, were established by Act 5 Geo. iv. c. 74. Before that time there were four different measures of capacity used in England.—1. For wine, spirits, cider, oils, milks, &c.; this was one-sixth less than the Imperial Measure.—2. For malt liquor, this was one-fifty-ninth part greater than the Imperial Measure.—3. For corn, and all other dry goods not heaped, this was one-thirty-third part less than the Imperial Measure.—4. For coals, which did not differ sensibly from the Imperial Measure.

The Imperial Gallon contains exactly 10lbs. Avoirdupois of pure water; consequently the pint will hold 1 $\frac{1}{2}$ lb., and the bushel 80.bs.

4. MEASURE OF WEIGHT.

DIVISION I.—Avoirdupois Weight.

27½ Grains	= 1	Dram	= 27½ Grains
16 Drams	= 1	Ounce	=
16 Ounces	= 1	Pound (lb.)	= 437½ —
28 Pounds	= 1	Quarter (qr.)	= 7000 —
4 Quarters	= 1	Hundred Weight (cwt.)	=
20 Hundred Weight	= 1	Ton.	=

This weight is used in almost all commercial transactions, and in the common dealings of life.

Particular weights belonging to this Division :—

8 Pounds	= 1	Stone	cwt. qr. lb.	used for Meat.
14 Pounds	= 1	Stone	= 0 0 14	Used in the Wool Trade.
2 Stones	= 1	Tod	= 0 1 0	
6½ Tod	= 1	Wey	= 1 2 14	
2 Weys	= 1	Sack	= 3 1 0	
12 Sacks	= 1	Lst	= 39 0 0	

DIVISION II.—Troy Weight.

24 Grains	= 1	Pennyweight	= 24 grains
20 Pennyweights	= 1	Ounce	= 480 —
12 Ounces	= 1	Pound	= 5760 —

These are the denominations of Troy Weight when used for weighing gold, silver, and precious stones, (except diamonds). But Troy weight is also used by apothecaries in compounding medicines, and by them the ounce is divided into 8 drams, and the dram into 3 scruples, so that the latter is equal to 20 grains.

For scientific purposes the grain only is used ; and sets of weights are constructed in decimal progression, from 10,000 grains downwards to 1-100ths of a grain.

By comparing the number of grains in the Avoirdupois and Troy pound and ounce respectively, it appears that the Troy pound is less than the Avoirdupois in the proportions of 14 to 17 nearly ; but the Troy ounce is greater than the Avoirdupois, in the proportion of 79 to 72 nearly.

The *carat*, used for weighing diamonds, is 3 1 6th grains. The term, however, when used to express the fineness of gold, has a relative meaning only. Every mass of alloyed gold is supposed to be divided into 24 equal parts : thus the standard for coin is 22 carats fine ; that is, it consists of 22 parts of pure gold, and 2 parts of alloy. What is called the *new standard*, used for watch cases, &c., is 18 carats fine.

5. ANGULAR MEASURES ;

OR, DIVISIONS OF THE CIRCLE.

60 Seconds	= 1 Minute	90 Degrees	= 1 Quadrant
60 Minutes	= 1 Degree	360 Degrees, or	= 1 Circumference
30 Degrees	= 1 Sign	12 Signs	

Formerly, the subdivisions were carried on by sixties ; thus, the second was divided into 60-thirds, the third into 60-fourths, &c. At present, the second is more generally divided decimally into 10ths, 100ths, &c. The degree is frequently so divided.

6. MEASURE OF TIME.

60 second = 1 minute	28 2930 or 31 days = 1 calendar month
60 minutes = 1 hour	12 calendar months = 1 year
24 hours = 1 day	365 days = 1 common year
7 days = 1 week	366 days = 1 leap year
28 days = 1 lunar month	

In 400 years, 97 are leap-years, and 303 common. The second of time is subdivided like that of angular measure.—We shall now give a table of itinerary measures of different countries, exhibiting the number of each answering to 100 English miles; also the length of a single measure of each sort in English yards:

BRITISH-INDIAN WEIGHTS AND MEASURES.

The unit of the British Indian ponderary system* is called the *Maund*. It weighs 180 grains English Troy Weight. From it upwards, are derived the heavy weights, viz: *Chitak*, *Seer*, and *Mun* (or *Maund*);—and by its subdivision the small or jeweller's weights, called *Dishas*, *ruttees*, and *dhans*.

* The advantages of this system are

1. That the maund formed from the modified weight would be precisely equal to 100 English troy pounds: and

2. That thirty-five seers would also be precisely equal to seventy-two pounds avoirdupois:—thus establishing a simple connection, void of fractions, between the two English metrical scales and that of India.

† For particulars of Madras and Bombay Weights and Measures, vide respective Directories.

The following scheme comprehends both of these in one series

The *Mun* (or that weight to which it closely accords in value, and to which it is legally equivalent in the new scale) has been hitherto better known among Europeans by the name of *Bazar Maund*, but upon its general adoption, under Regulation VII. 1833, for all transactions of the British Government, it should be denominated the **BRITISH MAUND**, (in Hindee, *Ungréeze Mun*;) to distinguish it at once from all other weights in use throughout the country*.

The *Passeree* is, as its name denotes, a five-seer weight, and therefore should not form an integrant point of the scale; but as its use is very general, it has been introduced for the convenience of reference.

The *Seer* being the commonest weight in use in the retail business of the Bazars in India, and being liable, according to the pernicious system hitherto prevalent, to vary in weight for every article sold as well as for every market, is generally referred to the common unit in native mercantile dealings, as, "the seer of so many *tolas*," (or *sicca*, *barees*, *takas*, &c.) The standard or *bazar seer* being always 80 *tolas*.

The *Chitak* is the lowest denomination of the gross weights, and is commonly divided into halves and quarters, (called in Bengalee, *kacha*;) thus marking the line between the two series, which are otherwise connected by the relation of the seer, &c. to the tola.

The *Tola* is chiefly used in the weighing of the precious metals and coin; all bullion at the mints is received in this denomi-

*In the same way the Madras, Bombay, and Furukhabad, rupee (when the *sicca* rupee is abolished, and an English device adopted,) may be called "the **BRITISH RUPEE**," and in the native languages *Ungréeze Rupya*.

nation, and the tables of bullion produce (as seen in the foregoing pages) are calculated per 100 tolas. It is also usual at the mints to make the subdivisions of the tola into annas (sixteenths) and pie, in lieu of mashas and ruttees.

Mashas, ruttees, and dhans, are used chiefly by native goldsmiths and jewellers. They are also employed in the native valuation by assay of the precious metals; thus 10 mashas fine, signifies 10-12ths pure, and corresponds to "10-oz. touch" of the English assay report or silver. There is a closer accordance with the English gold assay scale, inasmuch as the 96 ruttees in a tola exactly represent the 96 carat grains in the gold assay pound, and the *dhan*, the quarter grain.

Comparison with Troy Weights.

For the conversion of English troy weights into those of India, the following scale will suffice, since the simplicity of their relation renders a more detailed table unnecessary.

Lb. Troy.	Ounce.	Penny-weight.	Grain.	TOLAS and Decimals
1	12	240	5760	= 32,000
	1	20	480	= 2,6666 &c.
		1	24	= 0,1333 &c.
			1	= 0,0055 &c.

The accordance of the *mun* weight with the 100 lbs. troy of England, affords a ready means of ascertaining its relative value in the Standards of other countries employed in weighing the precious metals, since tables of the latter are generally expressed in lbs. troy. The following are a few of those valuations for the principal weights of Europe, &c. extracted from *Kelly's Cambist.* page 222. The weights in troy grains have been converted into *tolas* by dividing them by 180.

*Required the equivalent of 57353 muns 35 seers 6 chitaks, in
avoirdupois pounds.*

Taking the numbers opposite to 57, 35, and 30 respectively, and removing the decimal point,—in the first, three places to the right hand;—in the second, one place to the right;—and in the third, one place to the left, we have

$$\begin{array}{rcl}
 57000 \text{ muns} & = & 4690286. \\
 350 & = & 38800. \\
 3 & = & 246.857 \\
 37 \text{ seers} & = & 76.114 \\
 6 \text{ chit.} & = & .771
 \end{array}$$

lbs. 47,9409.742 = 12 ounces nearly.

Since 35 seers are exactly equal to 72 pounds avoirdupois, the following simple and accurate rules for their mutual conversions will be found equally convenient with the table.

RULE 1.—To convert Indian weight into avoirdupois weight.

1. Multiply the weight in seers by 72, and divide by 35: the result will be the weight in lbs. av.

2. Or, multiply the weight in *mun* by 36, and divide by 49: the result will be the weight in cwt. av.

RULE II.—To convert *avoirdupois* weight into *Indian* weight.

1. Multiply the weight in *lbs. av.* by 35, and divide by 72: the result will be the weight in *seers*.

2. Or multiply the weight in *cwt.* by 49, and divide by 36: the result will be the weight in *muns*, or *maunds*.*

One ton=27,222 *muns*, or $27\frac{1}{4}$ *mun* nearly.

One *mun*=82½ *lbs. avoird.* exactly.

For converting *Avoirdupois* weights into *British India* weights.

Of one hundred weights should you incline

A sum in *India* muns to fix ;—

And then divide by thirty-six.

The word *mun*, of Arabic or Hebrew origin,* is used throughout Persia and Northern India; but, as might be expected, it represents very different values in different places: thus the *mun* of Tabriz is only 6½ lbs. avoird. while that of Pallode, in Ahmednuggur, is 163½ lbs.

It is probable that the seer or sér, a Hindu weight (*sétak*), was more uniform than the maund, since it was founded upon the tola (*tolaka*), which, with its subdivision, the *wassa*, must in very ancient times have been extensively known throughout commercial Asia: there can be little doubt that the *tale* and *mace* of the Chinese are identical in origin.

It may be generally assumed that the maund system follows the common scale, viz.

16 chitake = 1 seer

40 seers = 1 maund.

20 maunds = 1 candy or maunee.

The use of a five-seer weight also universally prevails under the name of *purséree*, *dhuree*, or *vis*. The *dhuree*, from its name, however, seems to be properly a measure, and accordingly, while in Malwa it is equal to 5 seers, in other places it is found of 4, 4½, 5½, 10, 11, and 12 seers. The terms *adhola adhelee*, (half,) *pao*, *powah*, (quarter,) *adh-pao*, (half-quarter,) frequently occur: they explain themselves.

* The Hebrew *maneh* was equal to 13, 110 grs. tr. or 72, 83 tolas. The Greek *ina* to 6, 244 grs. or 34.57 tolas.

NOTICE.

The publishers believing that it would be a convenience to the Mercantile Community of Bengal and Agra, to have correct return of the varying systems of weights and measures prevailing in the interior districts, have obtained through the kindness of the authorities the following detailed returns. Much additional matter and several corrections are given in the present edition.

The subdivisions of the ponderary systems, throughout the whole of British India, generally agree in name, though they differ in value. Thus in every case

20 Jussos = 1 guj or clothier's yard.

24 Jussos = 1 guj or artificer's yard.

42 Ungooles = 1 Mahomedan guj or yard.

From the very careful investigations of Major Jervis, as given in his work on Indian Metrology, it appears that :

1 Cubit or bath of 14 } = 19.5489 inches.
Jussos or 24 ungoolee, }

1 Guj of 20 Jussos = 27.9271 "

1 Guj of 24 Jussos = 33.5125 "

1 Guj of 42 ungoolee = 34.2106 "

The standard or Ilahes guj used in the land settlement of the North Western Provinces has been fixed at 33 inches, whence

33 Inches = 1 Ilahes guj.

3 Gujes = 1 Bans or measuring rod.

20 × 20 = 400 Sq. Bans = 1 Beegah = 3025 Sq. yards.

In Bengal the bath or cubit has been assumed to be 18 inches in length, and thus generally

4 Square Hathes = 1 Square Cowrie or Kurra.

4 " Cowrie = 1 " Gunda.

20 " Gundas = 1 " Kutta.

20 " Kuttas = 1 Beegah = 1600 Square yards.

These are the beegahs most in use, and are the only values referrible to fixed standards. The hath may be said to vary between 15 and 30 inches, and the beegah between 1500 and 3000 square yards. The data at present before us are not sufficiently precise, and we have consequently not affected an accuracy which in truth we could not attain.

One precedes, and when he has gone the whole length of the rope he places a stick in the ground, as a mark which the other removes as he comes up to it. The mechanical impossibility of pulling the rope straight, renders this mode of measuring incorrect, and the error is roughly compensated by a deduction of 2 cubits in each rope, or 4 cubits in each beegah; this is termed 'Hattan' and 'Kandah.'

BIRMAH.*Measures of Distance.*

The Birmese make use of two measures of distance; one they call 'the poor man's measure,' and the other, the 'chief, or great man's measure.' This last is the Royal or standard measure, but the other is in most common use, except in matters where the Government is concerned.

The equivalents given above are for 'the poor man's measure, Theet Maik, Twa, Toung, Ta and Daing are the Measures in most frequent use. The Royal cubic, Thantoung, which is the Government standard upon being carefully compared was found to measure exactly 19½ English inches. According to this, the finger-breadth (Theet) which is that of the fore-finger taken at the middle point is $\frac{99}{100}$ of an inch; the fathom (Lan.) $76\frac{1}{10}$ inches; the D bamboo (Ta) $133\frac{7}{10}$; and the Daing 2 miles, 193 yards 2 feet 8 inches.

In the Tenasserim Provinces, however, the English foot measure is coming into use, and will soon supersede those above given.

CONVERSION OF BRITISH EUROPEAN WEIGHTS INTO BRITISH INDIAN WEIGHTS, AND VICE VERSA.

By Regulation VII. 1883, a new British Indian system of weights has been ordered; but the change not being enforced by any penal enactment, the new weight has been adopted by a very few European houses, while it is the only one in use at the several Government offices of Calcutta,—the Custom house, the Mint, the Treasury, the Bank, and the Police.

The difference however between the new and the old system is extremely small; viz. the unit or tolah was the old Moorshedabad rupee, and weighed 179.666 Troy grains. By the said Regulation the tolah is of 180 grains Troy, and therefore exceeds the old one by *one-third* of a grain, which difference makes the new bazar or Indian maund heavier than the old one by about one chittak and a quarter, or 2.22 ounces Troy.

The following tables have been calculated on the old elements of Indian weights, as being still of a more general use. If it was necessary to convert old bazar maunds into new ones, the operation would consist simply in the following rule:—

A (The old Weight): Y (The new Weight):: 179 666: 180,000.

- 1789 The decennial settlement of the lands, commenced towards the end of the year in Bengal; in the following, the same regulation was begun in Behar; the whole was completed in 1793, when, in pursuance of instructions from England, the settlement was declared perpetual.
- By this settlement, which produced such an important change in that large portion of India, the Zemindars, who were in fact the revenue agents of the Mogul Government usually hereditary and possessed of much power and influence, but not owners of the land, which they could neither sell nor alienate, were declared the actual landowners, and from them the principal revenue of India was to be derived, in the shape of landtax. The ryots, or peasantry, who, though often grievously oppressed, were, after the Sovereign, the real owners of the soil, of which they could not be dispossessed, while they paid the assessments levied upon it, were declared the tenants of the Zemindars. The effects of this financial measure were disastrous. The Zemindars, obliged to go through the legal formalities to collect their rents from the ryots were unable to pay their taxes to the Government, whose proceedings were summary. Their lands were gradually sold for arrears of taxes, and passed into the hands of absentee landlords; in a few years almost all the Zemindars disappeared. No improvement took place among the ryots, who were perhaps more oppressed by the middlemen immediately above them, than they had been by the Zemindars.

SURVEY.

§ 15. *Vessels to be surveyed previous to Registry.*—In order to enable the collector and comptroller of her Majesty's customs to grant a certificate truly and accurately describing every ship or vessel to be registered in pursuance of this act, and also to enable all other officers of her Majesty's customs, on due examination, to discover whether any such ship or vessel is the same with that for which a certificate is alleged to have been granted; be it enacted, that previous to the registering or granting of any certificate of registry as aforesaid, some one or more person or persons appointed by the commissioners of her Majesty's customs (taking to his or their assistance, if he or they shall judge it necessary, one or more person or persons skilled in the building and admeasurement of ships,) shall go on board of every such ship or vessel as is to be registered, and shall strictly and accurately examine and admeasure every such ship or vessel, as to all and every particular contained in the form of the certificate hereinbefore directed, in the presence of the master or of any other person who shall be appointed for that purpose, on the part of the owner or owners, or in his or their absence by the said master, and shall deliver a true and just account in writing of all such particulars of the build, description and admeasurement of every such ship or vessel as are specified in the form of the certificate above recited, to the collector and comptroller authorized, as aforesaid to make such registry and grant such certificate of registry*; and the said master or other person attending on the part of the owner or owners is hereby required to sign his name also to the certificate of such surveying or examining officer, in testimony of the truth thereof, provided such master or other person shall consent and agree to the several particulars set forth and described therein.

§ 16. *The Rule by which Tonnage of Vessels is to be ascertained.*—From and after the commencement of this act, the tonnage of every ship or vessel required by law to be registered shall, previous to her being registered, be measured and ascertained while her hold is clear, and according to the following rule; (that is to say,) divide the length of the upper deck between the after-part of the stem and the fore-part of the stern-post into six equal parts; depths; at the foremost, the middle and the aftermost of those points of division, measure in feet and decimal parts of a foot the depths from the under-side of the upper deck, to the ceiling at the limber strake; in the case of a break in the upper deck, the depths are to be measured from a line stretched in a continuation of the deck; breadth; divide each of those three depths into five equal parts, and measure the inside breadths at the following points; (*videlicet*) at one-fifth and at four-fifths from the upper deck of the

* It is not necessary in future to insert in certificates of registry the tonnage of a vessel, according to the former and present modes of admeasurement generally, but only in cases where vessels entitled to the privilege of carrying bonded goods under the former rule of admeasurement, being of 70 tons and upwards, have the privilege continued to them, although of less than 60 tons under the present mode of admeasurement.—*Min. C. C.*, 11th Aug. 1843.

foremost and aftermost depths, and at two-fifths and four-fifths from the upper deck of the midship depth; length; at half the midship depth measure the length of the vessel from the after-part of the stem to the fore-part of the stern-post; then to twice the midship depth add the foremost and the aftermost depths, for the sum of the depths; add together the upper and lower breadths at the foremost divisions, three times the upper breadth and the lower breadth at the midship division, and the upper and twice the lower breadth at the after division, for the sum of the breadths; then multiply the sum of the depths by the sum of the breadths, and this product by the length, and divide the final product by 3500, which will give the number of tons for register. If the vessel have a poop or half-deck or a break in the upper deck, measure the inside mean length, breadth, and height of such part thereof as may be included within the bulkhead; multiply these three measurements together, and, dividing the product by 92,4, the quotient will be the number of tons to be added to the result as above found: in order to ascertain the tonnage of open vessels, the depths are to be measured from the upper edge of the upper strake.

§ 17. *Mode of ascertaining Tonnage of Steam Vessels.*—In each of the several rules hereinbefore prescribed when applied for the purpose of ascertaining the tonnage of any ship or vessel propelled by steam, the tonnage due to the cubical contents of the engine-room shall be deducted from total tonnage of the vessel as determined by either of the rules aforesaid, and the remainder shall be deemed the true register-tonnage of the said ship or vessel; the tonnage due to the cubical contents to the engine-room shall be determined in the following manner; (that is to say,) measure the inside length of the engine-room in feet and decimal parts of a foot from the foremost to the aftermost bulkhead, then multiply the said length by the depth of the ship or vessel at the midship division as aforesaid, and the product by the inside breadth at the same division at two-fifths of the depth from the deck, taken as aforesaid, and divide the last product by 92,4, and the quotient shall be deemed the tonnage due to the cubical contents of the engine-room.

§ 18. *Length and Cubical Contents of Engine-room to be set forth in Description of Steam Vessel.*—The tonnage due to the cubical contents of the engine-room, and also the length of the engine-room, and also the length of the engine-room, shall be set forth in the certificate of registry as part of the description of the ship or vessel, and that any alteration of such tonnage due to the cubical contents of the engine-room, or of such length of the engine-room after registry, shall be deemed to be an alteration requiring registry *de novo*, within the meaning of his Act.

§ 19. *Rule for measuring Ships with Cargoes on board.*—And be it enacted, that, for the purpose of ascertaining the tonnage of all such ships as there shall be occasion to measure while their cargoes are on board, the following rule shall be observed, and is hereby established; (that is to say,) measure, first, the length on the upper deck between the after-part of the stem and the fore-part of the stern-post; secondly, the inside breadth on the under side of the upper deck at the middle point of the length; and thirdly, the depth from the under-side of the upper-deck down the pump-well to the skin; multiply these three dimensions together, and divide the product by one hundred and thirty, and the quotient will be the amount of the register tonnages of such ships; if the vessel have a poop, or half deck, or a break in the upper deck, measure the inside mean length, breadth and height of such part thereof as may be included within the bulk-head; multiply these three measurements together, and, dividing the product by ninety-two and four-tenths, the quotient will be the number of tons to be added to the result above found.

§ 20. *Amount of registered Tonnage to be carved on Main Beam.*—The true amount of the register tonnage of every ship or vessel required by law to be registered, ascertained according to the rule by this Act established, shall be deeply carved or cut in figures at least three inches in length on the main beam of every such ship or vessel prior to her being registered.

§ 21. *Not to alter Tonnage of Vessels already registered.*—Nothing herein contained shall extend to alter the present measure of tonnage of any ship or vessel which shall have been registered prior to the commencement of this Act, unless in cases where the owners of any such ships shall require to have their tonnage established according to the rule hereinbefore provided, or unless there shall be occasion to have any such ship admeasured again on account of any alteration which shall have been made in the form or burden of the same, in which cases only such ships shall be re-admeasured according to the said rule, and their tonnage registered accordingly.

§ 22. *Tonnage, when so ascertained, to be ever after deemed the Tonnage.*—Whenever the tonnage of any ship or vessel shall have been ascertained according to the rules herein prescribed, such account of tonnage shall ever after be deemed the tonnage of such ship or vessel, and shall be repeated in every subsequent registry of such ship or vessel, unless it shall happen that any alteration has been made in the form and burden of such ship or vessel, or it shall be discovered that the tonnage of such ship or vessel had been erroneously taken and computed.

REGISTRY.

§ 23. *Bond to be given at the Time of Registry—Conditions that the Certificate shall be solely made use of for the Service of the Vessel, or given up to be cancelled in certain cases.*—At the time of the obtaining of the certificate of registry as aforesaid, sufficient security by bond shall be given to her Majesty, her heirs and successors, by the master and such of the owners as shall personally attend as is hereinbefore required; such security to be approved of and taken by the person or persons hereinbefore authorised to make such registry, and grant such certificate of registry, at the port or place in which such certificate shall be granted, in the penalties following; (that is to say,)—

If exceeding 300 tons, then in the penalty of 1000

and the condition of every such bond shall be, that such certificate shall not be sold, lent, or otherwise disposed of to any person or persons whatever, and that the same shall be solely made use of for the service of the ship or vessel for which it is granted; and that in case such ship or vessel shall be lost, or taken by the enemy, burnt, or broken up, or otherwise prevented from returning to the port to which she belongs, or shall on any account have lost and forfeited the privileges of a British ship, or shall have been seized and legally condemned for illicit trading, or shall have been taken in execution for debt, and sold by due process of law, or shall have been sold to the crown, or shall, under any circumstances, have been registered *de novo*, the certificate, if preserved, shall be delivered up within one month after the arrival of the master in any port or place in her majesty's dominions to the collector and comptroller of some port in Great Britain, or of the Isle of Man, or of the British plantations, or to the governor, lieutenant-governor, or commander-in-chief, for the time being, of the islands of Guernsey or Jersey; and that if any foreigner, or any person or persons for the use and benefit of any foreigner, shall purchase or otherwise become entitled to the whole or to any part or share of or any interest in such ship or vessel, and the same shall be within the limits of any port of Great Britain, or of the islands of Guernsey, Jersey or Man, or of the British colonies, plantations, islands or territories aforesaid, then and in such case the certificate of registry shall, within seven days after such purchase or transfer of property in such ship or vessel, be delivered up to the person or persons hereinbefore authorised to make registry and grant certificate of registry at such port or place respectively as aforesaid; and if such ship or vessel shall be in any foreign port when such purchase or transfer of property shall take place, then

§ 24. *When Master as changed, new Master to give similar Bond, and is Name to be indorsed on Certificate of Registry.*—When and so often as the master or other persons, having or taking the charge or command of any ship or vessel, registered in manner hereinbefore directed, shall be changed, the master or owner of such ship or vessel shall deliver to the person or persons hereinbefore authorised to make such registry and grant such certificates of registry at the port where such change shall take place, the certificate of registry belonging to such ship or vessel, who shall thereupon indorse and subscribe a memorandum of such change, and shall forthwith give notice of the same to the proper office of the port or place where such ship or vessel was last registered, pursuant to this act, who shall likewise make a memorandum of the same in the book of registers which is hereby directed and required to be kept, and shall forthwith give notice thereof to the commissioners of her majesty's customs: provided always, that before the name of such new master shall be indorsed on the certificate of registry, he shall be required to give, and shall give a bond in the like penalties and under the same condition as are contained in the bond hereinbefore required to be given at the time of registry of any ship or vessel.*

* In the case of the *King v. Dixon*, the defendant was brought up to receive the sentence of the court on the motion of the attorney-general, having admitted judgment to go by default, on an information charging him with a misdemeanour under the navigation laws. It appeared that the defendant had been appointed master of a transport in the service of government, named the *Robert and Ann*, succeeding a person of the name of *Newman*; but, in consequence of haste in going to sea on foreign service, he had neglected to obtain the necessary memorandum of indorsement on the certificate of registry required by the statute in all cases where the master of the ship is changed. When he discovered this omission, he placed upon the back of the certificate or registry the names of one of the comptrollers, a *Mr. Williams*, and of the registrar of the customs. On his return to port, he put this very document into the hands of *Mr. Williams*, whose name it appeared to bear. The court sentenced the defendant to pay a fine of 50*l.*—*King's Bench*, 17th June, 1816.

§ 25. *Bonds liable to same Duties of Stamps as Bonds for Customs.*—All bonds required by this act, shall be liable to the same duties of stamps as bonds given for or in respect of the duties of customs are or shall be liable to under any act for the time being in force for granting duties of stamp.

§ 26. *Certificate of Registry to be given up by all persons as directed by the Bond*—If any persons whatever shall at any time have possession of and wilfully detain any certificate of registry, granted under this or any other act, which ought to be delivered up to be cancelled, according to any of the conditions of the bond hereinbefore required to be given upon the registry of any ship or vessel, such person is hereby required and enjoined to deliver up such certificate of registry, in manner directed by the conditions of such bond in the respective cases and under the respective penalties therein provided.

§ 27. *Name of Vessel which has been registered never afterwards to be changed, and to be painted on the Stern—Penalty for Omission, 100l.*—It shall not be lawful for any owner or owners of any ship or vessel to give any name to such ship or vessel other than that by which she was first registered in pursuance of this or any other act, and the owner or owners of all and every ship or vessel which shall be so registered shall, before such ship or vessel, after such registry, shall begin to take in any cargo, paint or cause to be painted, in white or yellow letters, of a length of not less than four inches, upon a black ground, on some conspicuous part of the stern, the name by which such ship or vessel shall have been registered, pursuant to this act, and the port to which she belongs, in a distinct and legible manner, and shall so keep and preserve the same; and that if such owner or owners, or master or other person having or taking the charge or command of such ship or vessel, shall permit such ship or vessel, to begin to take in any cargo before the name of such ship or vessel has been so painted as aforesaid, or shall wilfully alter, erase, obliterate, or in any wise hide or conceal, or cause or procure or permit the same to be done (unless in the case of square-rigged vessels in time of war), or shall, in any written or printed paper or other document, describe such ship or vessel by any name other than that by which she was first registered, or shall verbally describe or cause or procure or permit such ship or vessel to be described by any other name, to any officer or officers of her majesty's revenue in the due execution of his or their duty, then and in every such case such owner or owners or master or other person having or taken the charge or command of such ship or vessel shall forfeit the sum of 100l.

§ 28. *Builder's Certificate of Particulars of Ship—Declaration to be made thereto.*—All and every person and persons who shall apply for a certificate of the registry of any ship or vessel, shall and they are hereby required to produce to the person or persons authorised to grant such certificate a true and full account under the hand of the builder of such ship or vessel, of the proper denomination of such vessel, and of the time when and the place where such ship or vessel was built, and also an exact account of the tonnage of such ship or vessel, together with the name of the first purchaser or purchasers thereof, (which account such builder is hereby directed and required to give under his hand, on the same being demanded by such person or persons so applying for a certificate as aforesaid), and shall also make and subscribe a declaration before the person or persons hereinbefore authorised to grant such certificate, that the ship or vessel for which such certificate is required is the same with that which is so described by the builder as aforesaid: provided always, that where by reason of the death of such builder, or some other unavoidable cause, such certificate cannot be produced, it shall be lawful for the commissioners of her Majesty's customs, on proof being made to their satisfaction of all the particulars required as aforesaid, to dispense with the account hereby required under the hand of the builder, and to allow the certificate of registry to be granted.

§ 29. *Certificate of Registry lost or mislaid*—Commissioners may permit Registry *de novo* or grant Licence.—If the certificate of registry of any ship or vessel shall be lost or mislaid, so that the same cannot be found or obtained for the use of such ship or vessel when needful, and proof thereof shall be made to the satisfaction of the commissioners of her majesty's customs, such commissioners shall and may permit such ship or vessel to be registered *de novo*, and a certificate thereof to be granted: provided always, that if such ship or vessel be absent and far distant from the port to which she belongs, or by reason of the absence of the owner or owners, or of any other impediment, registry of the same cannot then be made in sufficient time, such commissioners shall and may grant a licence for the present use of such ship or vessel, which licence shall, for the time and to the extent specified therein, and no longer, be of the same force and virtue as a certificate of registry: provided also, that before such registry *de novo* be made, the owner or owners and master shall give bond to the commissioners aforesaid in such sum as to them shall seem fit, with a condition that if the certificate of registry shall at any time afterwards be found, the same shall be forthwith delivered to the proper officers of her majesty's customs to be cancelled, and that no illegal use has been or shall be made thereof with his or their privity or knowledge; and further, that before any such licence shall be granted as aforesaid, the master of such ship or vessel shall also make and subscribe a declaration that the same has been registered as a British ship, naming the port where and the time when such registry was made, and all the particulars contained in the certificate thereof, to the best of his knowledge and belief, and shall also give such bond, and with the same condition as is hereinbefore mentioned: provided also, that before any such licence shall be granted, such ship or vessel shall be surveyed in like manner as if a registry *de novo* were about to be made thereof, and the certificate of such survey shall be preserved by the collector and comptroller of the port to which such ship or vessel shall belong; and in virtue hereof it shall be lawful for the said commissioners, and they are hereby required to permit such ship or vessel to be registered after her departure, whenever the owner or owners shall personally attend to take and subscribe the declaration required by this act before registry be made, and shall also comply with all other requisites of this act, except so far as relates to the bond to be given by the master of such ship or vessel; which certificate of registry the said commissioners shall and may transmit to the collector and comptroller of any other port to be by them given to the master of such ship or vessel, upon his giving such bond and delivering up the licence which had been granted for the then present use of such ship or vessel.

§ 31. *Ship altered in certain manner to be registered de novo.*—If any ship or vessel, after she shall have been registered, shall in any manner whatever be altered so as not to correspond with all the particulars contained in the certificate of her registry, in such case such ship or vessel shall be registered, *de novo* in manner hereinbefore required, as soon as she returns to the port to which she belongs, or to any other port which shall be in the same part of the United Kingdom, or in the same colony, plantation, island or territory as the said port shall be in, on failure whereof such ship or vessel shall, to all intents and purposes, be considered and deemed and taken to be a ship or vessel not duly registered.

§ 32. *Vessels condemned as Prize, or for Breach of Laws against Slave Trade, Certificate of Condemnation to be produced*—The owner or owners of all ships and vessels taken by any of her majesty's ships or vessels of war,† or by any private or other ship or vessel, and condemned as lawful prize in any court of admiralty, or ships or vessels condemned in any competent court as forfeited for breach of the laws for the prevention of the slave-trade, shall, for the purpose of registering any such ship or vessel, produce to the collector and comptroller of her majesty's customs a certificate of the condemnation of such ship or vessel, under the hand and seal of the Judge of the court in which such ship or vessel shall have been condemned (which certificate

† It had been found necessary to remove the figure-head of the ship David Shaw of Plymouth, and it was questioned if this rendered a registry *de novo* necessary. After much discussion it was determined that it did, on the ground that, amongst many other particulars, the head and *kind of head* is mentioned in the form of the certificate.—*Manuscript Case* (1815.)

* In all future transfers of ships or shares in ships, each party transferring shall be required either to do so by a separate conveyance, or, where the owners of shares join in one conveyance, they shall be required to state what share or shares each of them conveys; and in the granting part, after the customary words, "grant, bargain, sell, assign, and set over," the words "in the proportions above specified" shall be likewise inserted.—*Min. § 36. *Only Thirty two Persons to be Owners of any Ship at one time—Joint Stock Companies—Trustees may apply to have Registry made.*—No greater number than thirty-two persons shall be entitled to be legal owners at one and the same time of any ship or vessel, as tenants in common, or to be registered as such: provided always, that nothing herein contained shall affect the equitable title of minors, heirs, legatees, creditors or others, exceeding that number, duly represented by or holding from any of the persons within the said number, registered as legal owners of any share or shares of such ship or vessel: provided also, that if it shall be proved to the satisfaction of the commissioners of her majesty's customs, that any number of persons have associated themselves as a joint-stock company, for the purpose of owning any ship or vessel, or any number of ships or vessels, as the joint property of such company, and that such company have duly elected or appointed any number not less than three of the members of the same to be trustees of the property in such ship or vessel, or ships or vessels, so owned by such company, it shall be lawful for such trustees, or any three of them, with the permission of such commissioners, to make and subscribe the declaration required by this act before registered be made, except that instead of stating therein the names and descriptions of the other owners, they shall state the name and description of the company to which such ship or vessel or ships or vessels shall in such manner belong.

they are hereby required to indorse the aforesaid particulars of such bill of sale or other instrument on the certificate of registry of the said ship or vessel, when the same shall be produced to them for that purpose, in manner and to the effect following: viz.—

“Custom-house [port and date].

“[Name, residence and description of vender or mortgager] has transferred by [bill of sale or other instrument], dated [date, number of shares], to [name, residence, and description of purchaser or mortgagee].

“A. B., Collector.”

“C. D., Comptroller.”

And forthwith to give notice thereof to the commissioners of customs; and in case the collector and comptroller shall be desired so to do, and the bill of sale or other instrument shall be produced to them for that purpose, then the said collector and comptroller are hereby required to certify by indorsement upon the bill of sale or other instrument, that the particulars before mentioned have been so entered in the book of registry, and indorsed upon the certificate of registry as aforesaid.

§ 38. *Entry of Bill of Sale to be valid, except in certain cases.*—When and so soon as the particulars of any bill of sale or other instrument by which any ship or vessel, or any share or shares thereof, shall be transferred, shall have been so entered in the book of registry as aforesaid, the said bill of sale or other instrument shall be valid and effectual to pass the property thereby intended to be transferred as against all and every person and persons whatsoever, and to all intent and purposes, except as against such subsequent purchasers and mortgagees who shall first procure the indorsement to be made upon the certificate of registry of such ship or vessel, in manner hereinafter mentioned.

§ 39. *When a Bill of Sale has been entered for any Shares, Thirty Days shall be allowed for indorsing the Certificate of Registry before any other Bill of Sale for the same shall be entered—Nature of the Priority intended in this Act—Provision in case Certificate be mislaid.*—When and after the particulars of any bill of sale or other instrument by which any ship or vessel, or any share or shares thereof, shall be transferred, shall have been so entered in the book of registry as aforesaid, the collector and comptroller shall not enter in the book of registry the particulars of any other bill of sale or instrument, purporting to be a transfer by the same vender or mortgagor, or venders or mortgagors, of the same ship or vessel, share or shares thereof, to any other person or persons, unless thirty days shall elapse from the day on which the particulars of the former bill of sale or other instrument were entered in the book of registry; or in case the ship or vessel was absent from the port to which she belonged at the time when the particulars of such former bill of sale or other instrument were entered in the book of registry, then, unless thirty days shall have elapsed from the day on which the ship or vessel arrived at the port to which she belonged; and in case the particulars of two or more such bills of sale or other instruments as aforesaid shall at any time have been entered in the book of registry of the said ship or vessel, the collector and comptroller shall not enter in the book of registry the particulars of any other bill of sale or other instrument as aforesaid, unless thirty days shall in like manner have elapsed from the day on which the particulars of the last of such bill of sale or other instrument were entered in the books of registry, or from the day on which the ship or vessel arrived at the port to which she belonged in case of her absence as aforesaid; and in every case where there shall at any time happen to be two or more transfers by the same owner or owners of the same property in any ship or vessel entered in the book of registry as aforesaid, the collector and comptroller are hereby required to indorse upon the certificate of registry of such ship or vessel the particulars of that bill of sale or other instrument under which the person or persons claim or claims property, who shall produce the certificate of registry for that purpose within thirty days next after the entry of his said bill of sale or other instrument in the book of registry as aforesaid, or within thirty days next after the return of the said ship or

vessel to the port to which she belongs, in case of her absence at the time of such entry as aforesaid; and in case no person or persons shall produce the certificate of registry within either of the said spaces of thirty days, then it shall be lawful for the collector and comptroller, and they are hereby required, to indorse upon the certificate of registry the particulars of the bill of sale or other instruments to such person or persons as shall first produce the certificate of registry for that purpose; it being the true intent and meaning of this act that the several purchasers and mortgagees of such ship or vessel, share or shares thereof, when more than one appear to claim the same property, or to claim security on the same property, in the same rank and degree, shall have priority one over the other, not according to the respective times when the particulars of the bill of sale, or other instrument by which such property was transferred to them were entered in the book of registry as aforesaid, but according to the time when the indorsement is made upon the certificate of registry as aforesaid: provided always, that if the certificate of registry shall be lost or mislaid, or shall be detained by any person whatever, so that the indorsement cannot in due time be made thereon, and proof thereof shall be made by the purchaser or mortgagee, or his known agent, to the satisfaction of the commissioners of her majesty's customs, it shall be lawful for the said commissioners to grant such further time as to them shall appear necessary for the recovery of the certificate of registry, or for the registry *de novo* of the said ship or vessel under the provisions of this act; and thereupon the collector and comptroller shall make a memorandum in the book of registers of the further time so granted, and during such time no other bill of sale shall be entered for the transfer of the same ship or vessel, or the same share or shares thereof, or for giving the same security thereon.

§ 40. *Bills of Sale may be produced after Entry at other Ports than those to which Vessels belong, and Transfers indorsed on Certificate of Registry.*—If the certificate of registry of such ship or vessel shall be produced to the collector and comptroller of any port where she may then be, after any such bill of sale shall have been recorded at the port to which she belongs, together with such bill of sale, containing a notification of such record, signed by the collector and comptroller of such port as before directed, it shall be lawful for the collector and comptroller of such other port to indorse on such certificate of registry (being required so to do) the transfer mentioned in such bill of sale; and such collector and comptroller shall give notice thereof to the collector and comptroller of the port to which such ship or vessel belongs, who shall record the same in like manner as if they had made such indorsement themselves, but inserting the name of the port at which such indorsement was made: Provided always, that the collector and comptroller of such other port shall first give notice to the collector and comptroller of the port to which such ship or vessel belongs, of such requisition made to them, to indorse the certificate of registry, and the collector and comptroller of the port to which such ship or vessel belongs shall thereupon send information to the collector and comptroller of such other port, whether any and what other bill or bills of sale have been recorded in the book of the registry of such ship or vessel; and the collector and comptroller of such other port having such information shall proceed, in manner directed by this act, in all respects, to the indorsing of the certificate of registry, as they would do if such port were the port to which such vessel belonged.

§ 41. *If upon Registry de novo any Bill of Sale shall not have been recorded, it shall then be produced.*—If it shall become necessary to register any ship or vessel *de novo*, and any share or shares of such ship or vessel shall have been sold since she was last registered, and the transfer of such share or shares shall not have been recorded and indorsed in manner hereinbefore directed, the bill of sale thereof shall be produced to the collector and comptroller of her majesty's customs, who are to make registry of such ship or vessel, otherwise such sale shall not be noticed in such registry *de novo*, except as hereinafter excepted; provided always, that upon the future production of such bill of sale, and of the existing certificate of registry, such transfer shall

and may be recorded and indorsed as well after such registry *de novo* as before.

§ 42. *Upon Change of Property, Registry de novo may be granted if desired, although not required by this Act.*—If upon any change of property in any ship or vessel, the owner or owners shall desire to have the same registered *de novo*, although not required by this act, and the owner or proper number of owners shall attend at the custom-house, at the port to which such ship or vessel belongs, for that purpose, it shall be lawful for the collector and comptroller of her majesty's customs at such port, to make registry *de novo* of such ship or vessel at the same port, and to grant a certificate thereof; the several requisites hereinbefore in this act mentioned and directed being first duly observed and complied with.

§ 43. *Copies of Declarations, &c. and of Extracts from Books of Registry, admitted in evidence.*—Whereas great inconvenience hath arisen from the registering officers being served with subpoenas, requiring them to bring with them and produce on trials in courts of law relative to the ownership of vessels or otherwise, the oaths or declarations required to be taken by the owners thereof, prior to the registering thereof, and the books of registry, or copies or extracts therefrom: and whereas it would tend much to the dispatch of business if the attendance of such registering officers with the same upon such trials were dispensed with; be it therefore enacted, that the collector and comptroller of her majesty's customs at any port or place, and the person or persons acting for them respectively, shall, upon every reasonable request by any person or persons whomsoever, produce and exhibit for his, her, or their inspection and examination, any oath or declaration sworn or made by any such owner or owners, proprietor or proprietors, and also any register or entry in any book or books of registry required by this act, to be made or kept relative to any ship or vessel, and shall upon every reasonable request by any person or persons whomsoever, permit him, her, or them to take a copy or copies, or an extract or extracts thereof respectively; and that the copy and copies of any such oath or declaration, register or entry shall, upon being proved to be a true copy or copies thereof respectively, be allowed and received as evidence upon every trial at law, without the production of the original or originals, and without the testimony or attendance of any collector or comptroller, or other person or persons acting for them respectively, in all cases, as fully and to all intents and purposes as such original or originals, if produced by any collector or collectors, and comptroller or comptrollers, or other person or persons acting for them, could or might legally be admitted or received in evidence.

§ 44. *Vessels or shares sold in the Absence of Owners, without formal Powers—Commissioners may permit record of such sales or Registry de novo, as the case may require; and also in other cases where bills of sale cannot be produced—Security being given to produce legal powers, or abide future claims.*—If the ship or vessel, or the share or shares of any owner thereof who may be out of the kingdom, shall be sold in his absence by his known agent or correspondent under his directions, either expressed or implied, and acting for his interest in that behalf, and such agent or correspondent who shall have executed a bill of sale to the purchaser of the whole of such ship or vessel, or of any share or shares thereof, shall not have received a legal power to execute the same, it shall be lawful for the commissioners of her majesty's customs, upon application made to them and proof to their satisfaction of the fair dealing of the parties, to permit such transfer to be registered, if registry *de novo* be necessary, or to be recorded and indorsed, as the case may be, in manner directed by this act, as if such legal power had been produced; and also if it shall happen that any bill of sale cannot be produced, or if, by reason of distance of time or the absence or death of parties concerned, it cannot be proved that a bill of sale for any share or shares in any ship or vessel had been executed, and registry *de novo* of such ship or vessel shall have become necessary, it shall be lawful for the commissioners of her majesty's customs, upon proof to their satisfaction of the fair dealing of the parties, to permit such ship or vessels to be registered

de novo, in like manner as if a bill of sale for the transfer of such share or shares had been produced: provided always, that in any of the cases herein mentioned, good and sufficient security shall be given to produce a legal power or bill of sale within a reasonable time, or to abide the future claims of the absent owner, his heirs and successors, as the case may be, and at the future request of the party whose property has been so transferred without the production of a bill of sale from him or from his lawful attorney, such bond shall be available for the protection of his interest in addition to any powers or rights which he may have in law, or equity against the ship or vessel, or against the parties concerned, until he shall have received full indemnity for any loss or injury sustained by him.

§ 45. *Transfer by way of Mortgage—Mortgage not to be deemed an owner.*—When any transfer of any ship or vessel, or of any share or shares thereof, shall be made only as a security for the payment of a debt or debts, either by way of mortgage or of assignment to a trustee or trustees, for the purpose of selling the same for the payment of any debt or debts, then and in every such case the collector and comptroller of the port where the ship or vessel is registered shall, in the entry in the book of registry, and also in the indorsement on the certificate of registry in manner hereinbefore directed, state and express that such transfer was made only as a security for the payment of a debt or debts, or by way of mortgage, or to that effect; and the person or persons to whom such transfer shall be made, or any other person or persons claiming under him or them as a mortgagee or mortgagees, or a trustee or trustees only, shall not by reason thereof be deemed to be the owner or owners of such ship or vessel, share or shares thereof,* nor shall the person or persons making such transfer be deemed by reason thereof, to have ceased to be an owner or owners of such ship or vessel, any more than if no such transfer had been made, except so far as may be necessary for the purpose of rendering the ship or vessel, share or shares, so transferred, available, by sale or otherwise, for the payment of the debt or debts for securing the payment of which such transfer shall have been made.

§ 46. *Transfer of Ships for Security of Debts being registered, Rights Mortgagee not affected by any Act of Bankruptcy of Mortgager, &c.*—When any transfer of any ship or vessel, or of any share or shares thereof, shall have been made as a security for the payment of any debt or debts, either by way of mortgage or of assignment as aforesaid, and such transfer shall have been duly registered according to the provisions of this act, the right of interest of the mortgagee or other assignee as aforesaid shall not be in any manner affected by any act or acts of bankruptcy committed by such mortgager or assigner, mortgagers or assigners, after the time when such mortgage or assignment shall have been so registered as aforesaid, notwithstanding such mortgager or assigner, mortgagers or assigners, at the time he or they shall so become bankrupt as aforesaid, shall have in his, her, or their possession, order and disposition, and shall be the reputed owner or owners of, the said ship or vessel, or the share or shares thereof, so by him or them mortgaged or assigned as aforesaid; but such mortgage or assignment shall take place of and be preferred to any right, claim, or interest which may belong to the assignee or assignees of such bankrupt or bankrupts in such ship or vessel, share or shares thereof, any law or statute to the contrary thereof notwithstanding.

* The sale of a vessel under the authority of the High Court of Admiralty, on a sentence which has passed without appeal or application for a prohibition, is sufficient to entitle the purchaser to a register, and would divest all other parties of property in the said vessel, and the registering officers have no authority to carry on upon the new certificate of registry, any mortgage indorsed on the former one.—*Opinion of King's Advocate. Cust. Order, 8th February 1828.*

GENERAL RULES.

§ 47. *Governor of Colonies, &c. may cause Proceeding in Suits to be stayed.*—It shall and may be lawful for any governor, lieutenant-governor, or commander-in-chief of any of her majesty's colonies, plantations, islands, or territories, and they are hereby respectively authorised and required, if any suit, information, libel, or other prosecution or proceeding of any nature or kind whatever, shall have been commenced or shall hereafter be commenced in any court whatever in any of the said colonies, plantations, islands or territories respectively, touching the force and effect of any register granted to any ship or vessel, upon a representation made to any such governor, lieutenant-governor or commander-in-chief, to cause all proceedings therein to be stayed, if he shall see just cause so to do, until her majesty's pleasure shall be known and certified to him by her majesty, by and with the advice of her majesty's privy council; and such governor, lieutenant-governor, or commander-in-chief is hereby required to transmit to one of her majesty's principal secretaries of state, to be laid before her majesty in council, an authenticated copy of the proceedings in every such case, together with his reasons for causing the same to be stayed, and such documents (properly verified) as he may judge necessary for the information of her majesty.

§ 48. *Penalty for making False Declaration, or falsifying any Document.*—If any person or persons shall falsely make declaration to any of the matters hereinbefore required to be verified by declaration, or if any person or persons shall counterfeit, cause, alter, or falsify any certificate or other instrument in writing, required or directed to be obtained, granted or produced by this act, or shall knowingly or wilfully make use of any certificate or other instrument so counterfeited, erased, altered, or falsified, or shall wilfully grant such certificate or other instrument in writing, knowing it to be false, such person or persons shall for every such offence forfeit the sum of 500*l*.

§ 49. *Owners of British Vessels to give Notice to Collectors of Customs at the Port of Registry of the Loss, &c. of such Vessels*—The person or persons registered as owner or owners of any British ship or vessel which shall have been lost or taken by the enemy, or burnt or broken up or otherwise prevented from returning to the port to which such ship or vessel belongs, or which shall on any account have lost or forfeited the privileges of a British ship, shall, immediately upon obtaining knowledge of any of the circumstances aforesaid, give notice in writing of such circumstances to the collector or comptroller of the customs at the port of registry of such ship or vessel.

§ 50. *If Vessel absent from the Port of Registry for Three Years, to state the Cause.*—In all cases where any British registered ship or vessel shall have been absent from the port of registry for the space of three years, the person or person registered as the owner or owners of such ship or vessel shall in like manner give notice in writing to the collector or comptroller of the customs at such port, stating therein the cause of such absence, and that the said vessel has not forfeited her privileges as a British ship.

§ 51. *Failing to give such Notices, &c. to forfeit 5*l**—Every such owner or owners failing to give such notice in either of the cases aforesaid, or making any untrue statement in respect of any such ship or vessel, shall forfeit the sum of 5*l*.

§ 52.—*How Penalties are to be recorded; and Officers' Shares*—All the penalties and forfeitures inflicted and incurred by this act, shall and may be sued for, prosecuted, recovered, and disposed of in such manner and by such ways, means, and methods as any penalties or forfeitures inflicted or which may be incurred for any offences committed against any law relating to the customs may now legally be sued for, prosecuted, recovered, and disposed of; and that the officer or officers concerned in seizures or prosecutions under this act shall be entitled to and receive the same share of the produce arising from such seizures, as in the case of seizures for unlawful importation, and to such share of the produce arising from any pecuniary fine or penalty for any offence against this Act, as any officer or officers is or are

now by any law or regulation, entitled to upon prosecutions for pecuniary penalties.

CASES AND OBSERVATIONS ILLUSTRATIVE OF VARIOUS SECTIONS IN THE REGISTRY ACT.

§ 13. Under the old state. 16 G. 3. c. 60. s. 8., it was held that no person whose usual residency was not in Great Britain, or in the dominions attached, was entitled. An occasional residence is not sufficient.—*Lord Stowell, Eleanor Hall, 1 Edwards, 135.*

§ 26. Where a builder gave a certificate of this nature, in which he declared, that the general property of the ship was vested in his customer: it was held, that he still had the right to detain the ship till the whole of the price was paid.—*Wood v. Russell, 5 B. & A. 942.*

§ 30. —A party with whom the certificate of registry has been deposited, to secure advances for the use of the ship, can support his claim to detain it in an action of trover brought by the owner. And it seems that such a detention is not a wilful detention within the meaning of the Act.—*Bowen v. Fox, 10 B. & C. 41.* A conviction under this section for not delivering the certificate to the officers of the customs must state that they were the proper officers, and why the certificate was required.—*Rex v. Walk 1 A. & E. 481.* These cases were decided on 4 G. 4 c. 41. s. 25., the enactments of which are similar to those of the present section.

§ 34. By 6 G. 4. c. 41., conveyances, assignments, or transfer of property in ships, are relieved from the payment of all stamp duties. In all future transfers of ships, or shares in ships, each party transferring is required to do so by a separate conveyance; or where the owners of shares join in one conveyance, they are required to state what share or shares each of them conveys, and in the granting part, after the customary words, "grant, bargain, sell, assign, and set over," the word, "in the proportions above specified," are to be inserted.—*Cust. Min., 12th Dec. 1835.*

§§ 35, 36. Partners holding shares, it would seem, are reckoned, with a view to the number of shares into which the ship is divided, as one person only. But the names of all the partners should be inserted in the registry, otherwise probably the ship would, both at law and in equity, be considered as the property of those partners only whose names appear in the registry. On the death of a partner, the right of transfer survives to the surviving partners at law, and the representatives of the deceased partner ought not to join.—*Opinion of Attorney and Solicitor-General, 21st Dec. 1826.*

§ 39. The thirty days, mentioned in this section, after the entry of the bill of sale or mortgage deed, or the arrival of the ship in port, are thus reserved to the first purchaser or first mortgagee. And during that time no other purchaser or mortgagee of the same part of the property can endorse his purchase or mortgage on the certificate. But if that time has elapsed, and not been enlarged, other subsequent purchasers or mortgagees may cause their sales or mortgages to be endorsed, and may so defeat the first claimant. An owner who has sold or mortgaged a portion only of his property may afterwards dispose of the residue. And if the instrument by which the residue is conveyed, notice the prior sale or mortgage, it will not give the party claiming under it a priority over the first claimant, even though it be first endorsed on the certificate.—*Ex parte Jones, 2 Tyrwh. 686.*

§ 43. Ownership can only be conclusively established by giving in evidence the title and modes of conveyance required by the statute; but presumption of ownership may be raised by proof of mere acts of ownership, as in respect of any other property.—*Abbott, edition, 1840, p. 78.* But see Chapter I.

§§ 45, 46. A transfer from one part-owner to another ought to observe the requisites of this Act.

Offices, &c. held by insolvent, if unsaleable, may be charged with proportionate payment, to assignee, if saleable shall vest in assignee.

XXVIII. And be it enacted, that it shall be lawful for the assignee or assignees, with the leave of the court first obtained upon application to such court, and by and with such notice to such creditors as it shall think fit to direct, to take such reasonable part of any debts due to the insolvent as may by composition be gotten in full discharge of such debts, and to submit to arbitration any difference or dispute between the assignee or assignees and any other person or persons for or on account or by reason of anything relating to the estate and effects of such insolvent.

XXXII. And whereas insolvents may be entitled to annuities for their own lives, or other uncertain interests, or to reversionary or contingent interests, or may have made advances of money for the cultivation of lands, or may be interested in property in other ways under such circumstances that an immediate sale and payment of their debts may be very prejudicial to them and to their creditors, and it may be proper in some cases to defer the sale of their property, or some parts thereof, and to put it under temporary management, or to authorise the raising of money by way of mortgage or otherwise for payment of the debts or part of the debts of an insolvent, and for defraying the expenses attending the execution of this act, instead of selling for such purpose; be it enacted, that in all such cases it shall be lawful for the said courts for the relief of insolvent debtors at any time to take into consideration all circumstances affecting any property of the insolvent, which shall have been vested under the provisions of this act; and if it shall appear to any courts that it would be reasonable to make any special order touching the same, it shall be lawful for such court so to do, and to direct that so much of the said property as it may be expedient not to sell immediately according to the provisions of this act shall not be so sold, from time to time to order and direct in what manner such property shall be managed for the benefit of the creditors of such insolvent, until the same can be properly sold, or until pay-

mand, whether due by such insolvent solely or jointly with any other person or persons; and such person shall be entitled to and receive a dividend thereon rateably with the other creditors of the said insolvent, although the name of such creditor may have been wholly omitted by the said insolvent in his or her schedule, or may have been inserted for a smaller amount than the debt or demand really due to such person; and where any objection to the existence or amount of such debt or demand shall be made by such insolvent, or any creditor, such court shall hear the same, and may make such order thereon as may seem meet and just.

XXXIX. And be it enacted, that when there has been mutual credit given to the insolvent and any other person or persons, one debt or demand may be set against the other. Mutual demands may be set off against each other.

XL. And be it enacted, that all such debts, dues, and claims as might be proved under a fiat of bankruptcy, bearing even date with the insolvent's petition or the adjudication (as the case may be), according to the provisions of the said act passed in the sixth year of the reign of his late majesty king *George the fourth*, intituled *an act to amend the law relating to bankrupts*, or any other statute or statutes now in force, or hereafter to be passed relating to bankrupts, may also be proved as is herein-before mentioned, in the same manner and subject to the like deductions, conditions, and provisions as in the said statutes are or may be set forth and prescribed. ABSENTEES' SALARY ACT.

*Fort William, General Department.**3d January, 1837.*

The following Act of Parliament, passed in the first year of the reign of her present Majesty, is published for general information;—

VICTORIA 1. CAP. XLVII.

An act to repeal the prohibition of the payment of the salaries and allowances of the East India Company's officers during their absence from their respective stations in India.

(12th July, 1837.)

33 G. 3. c. 52. Whereas under and by virtue of an act passed in the thirty-third year of the reign of his Majesty King George the Third intitled *An Act for continuing in the East India Company, for a further term the possession of the British territories in India, together with their, exclusive trade under certain limitations; for establishing further regulations for the Government of the said territories, and the better administration of justice within the same; for appropriating to certain uses the revenues and profits of the said Company; and for making provisions for the good order and government of the towns of Calcutta, Madras and Bombay,* and of another act passed in the third and fourth, years of the reign of his late Majesty King William the Fourth, intitled *An Act for effecting an arrangement with the East India Company and for the better government of his majesty's India territories, till the thirteenth day of April, one thousand eight hundred and fifty-four,* it is enacted, that "if any governor or other officer whatever, in the service of the said company, shall leave the presidency to which he shall belong, other than in the known actual service of the said company, the salary and allowances appertaining to his office, shall not be paid or payable during his absence, to any agent or other person for his use, and in the event of his not returning, or of his coming to Europe, his salary and allowances shall be deemed to have ceased on the day of his leaving the said territories, or the presidency to which he may have belonged; and whereas, it is further provided, in the said last-mentioned Act, that it shall be lawful for the said company, to make such payment as is now by law permitted to be made to the representatives of their officers or servants, who, having left their stations, intending to return thereto, shall die during their absence; and, it is expedient, that such provision of the law should be altered in manner hereinafter mentioned; be it therefore enacted, by the Queen's most excellent majesty, by and with the advice and

consent of the Lords spiritual and temporal, and commons in this present Parliament assembled, and by the authority of the same that so much and such parts of the said two acts passed respectively in the thirty third year of the reign of his majesty King George the Third, and in the third and fourth years of the reign of His said late majesty King William the Fourth, and of any other act or provision of the law, as enacts that if any governor or other officer whatever, in the service of the said company, shall leave the presidency to which he shall belong, other than in the known actual service of the said company, the salary and allowances appertaining to his office, shall not be paid or payable during his absence, to any agent or other person for his use, shall not extend to the case of any officer or servant of the company under the rank of governor, or member of council, who shall quit the presidency to which he shall belong in consequence of sickness under such rules as may from time to time be established by the governor-general of India in council, or by the Governor in Council of such presidency, as the case may be, and who shall proceed to any place within the limits of the East India Company's charter, or the Cape of Good Hope or to the Mauritius, or to the Island of St. Helena; nor to the case of any officer or servant of the said company, under such rank as aforesaid, who with the permission of the Government of the presidency to which he shall belong, shall quit such presidency in order to proceed to another presidency, for the purpose of embarking thence for Europe, until the departure of such officer or servant from such last-mentioned presidency, with a view to return to Europe, so as that port of such departure for Europe shall not be more distant from the place which he shall have quitted in his own presidency, than any port of embarkation within such presidency.

So much of the provision of the recited Acts as prohibits the payment of salaries to officers in the service of the East India Company, during their absence, shall not extend to cases of sickness.

Nor the cases of officers quitting one presidency for another, in order to embark for Europe.

II. Provided always, and be it enacted, that no such rule so to be established as aforesaid, shall have any force or validity until the same shall have been approved by the court of directors of the said company, subject to the control of the commissioners for the Affairs of India, in like manner as is provided by the said act of the third and fourth years of the reign of his late Majesty, King William the Fourth.

No rule valid till approved by the Court of Directors, subject to the control, of the commissioners for the Affairs of India.

III. And be it further enacted, that it shall be lawful for the said court of directors, subject to such control as aforesaid, to direct the re-funding by any officer or servant, of the said company, or by the representatives of any such officer or servant, of the whole or any part of the salary or allowance, which he or they may have received under or by virtue of any such rule so to be established as aforesaid, if it shall appear to the said court subject to such control as aforesaid, that the permission to such officer or servant to quit the presidency to which he shall belong; hath been improperly granted or obtained; and such sum as the said court, subject to such control as aforesaid, shall direct such officer or servant or the representatives of such officer or servant, to refund, shall be a debt due to the said company, and shall be recoverable by them in any court in like manner, as any debt may now, or hereafter shall, be recovered by them.

Power for the Court of Directors subject to aforesaid control, to direct the refunding of any part of the allowance paid under any of the said rules.

The honorable the president in council having considered the terms of sections I and II, of the above act, and also of paragraph 3, of a dispatch from the honorable Court of Directors, is of opinion that the exemption ground by that act, from the provision of the Act 33d, George III. which prohibited the payment of any salary to servants of the honorable

are those which you will observe giving effect to the provisions of this act.

company after the date of their departure from the presidency to which they might be attached, may be granted to servants of either presidency, the Members of Government excepted, who may have quitted or who may quit the same, in consequence of sickness under the rules established by the Governor-General in Council, with the sanction of the Hon'ble Court, or who may proceed to another presidency not more distant than their own, for the purpose of embarking for Europe. But no new rules on the subject can be established hereafter, to take effect before their approval by the Honorable Court.

The president in council deeming it necessary, therefore, to declare the rules that have been passed under such sanction and are still in force, and the modifications made therein by the application to them of the act in question, direct the following rules to be published together with the Act 1 Victoria, cap. 47. for General information.

CIVIL SERVANTS.

1. Civil Servants proceeding to the Cape of Good Hope, Mauritius or the Island of St. Helena, or to any place within the limits of the East India Company's charter, with leave granted by the Governments to which they are respectively attached, under medical certificates, countersigned by a Member of the Medical Board at the presidency, shall, from the date of the pilot leaving the vessel in which they embark to date of their return, provided the period of absence do not exceed two years, draw the allowances of their respective offices, subject to the following deductions.

If the salary exceeds 2,000 rupees per mensem, one-sixth for one year, and for the second year one-fourth.

If the salary do not exceed 2,400 rupees per mensem, one-eighth for first year, and one-sixth for the second year.

If the salary of officer be not more than 500 rupees per mensem, no deduction shall be made for the first year; and if it be only so much more, that the prescribed deduction at the rate one-eighth would reduce the allowance drawn to less than 500 rupees per mensem, only so much shall be deducted as will reduce the salary drawn to 500 rupees per mensem. After the first year, of deduction of one-eighth shall be made from the salary of the officers referred to in this rule.

2. After the close of the second year, when the salary of office ceases, civil servants who may obtain an extension of leave, will draw the subsistence allowance of their rank only, but no such servant, absent on leave, on account of sickness, shall draw a less allowance as a civil servant out of employ, than that of a junior merchant, viz. Sa. Rs. 224 per mensem.

3. The maximum period of which any civil servant shall be allowed to draw the salary of office, or any part thereof, is two years from the date of embarkation, and the offices of servants who may not return within that period, will be vacant and liable to be filled by fresh appointment. Civil servants who may so overstay the period of two years, provided they obtain an extension of leave, and account to the satisfaction of the Government to which they are attached, for the delay of their return, shall, as above provided, receive the subsistence allowance of a servant of their rank, subject to the exception above specified in favor of junior servants; but if they continue absent in disobedience of an order to return, or without sufficient cause shown, that allowance also will be forfeited.

4. Civil Servants absent on leave, on account of sickness duly certified, if they proceed to England without returning to their presidency, may, as

heretofore, apply to be admitted to furlough by the Honorable the Court of Directors, and the furlough will, in such cases, take effect from the date of leaving their presidency, consequently the allowances of office that may have been drawn by themselves or their agents, after their departure, must, in that case, be re-adjusted, and the difference re-funded.

5. Civil Servants desiring to avail themselves of the benefit of the act above referred to, and to draw their allowances while absent on account of sickness under the above rules, will be required to give security in such amount as may be required by the Government for the refund of any excess that may be drawn, either by agents at the presidency or by themselves, in case of their proceeding to Europe on Furlough, or otherwise coming under retrenchment.

6. No second leave will be granted to any Civil Servant who has been absent beyond sea for two years, until three years after the date of return from sea; but if a Civil Servant is compelled by sickness to proceed to sea again within this period, after having been absent less than two years, he will be allowed to complete that period, drawing the proportion of salary allowed for the remaining time, as if the leave had been continuous.

MILITARY OFFICERS HOLDING CIVIL SITUATIONS.

7. Military officers employed in the civil department and drawing a civil allowance, are entitled, in common with officers holding staff situations in the military department, to draw the military pay and allowances of their rank while absent at sea, on leave under medical certificate, and likewise one-half of the difference between such allowances and the civil or staff pay of the offices to which they stand appointed.

8. The above allowances are to be drawn for a total period not exceeding two years from the date when the vessel in which such officers embark may leave the presidency or other port of departure; and the civil situation held by any officer who shall not return within that period, shall be considered vacant.

9. The rules for furnishing medical certificates and for regulating the forms and manner of drawing military allowances during absence on leave, have been laid down in General Orders in the Military Department.

10. The Civil Auditor will pass the bills of officers on leave beyond sea, under medical certificate, for the portion of their civil salary which they are permitted to draw by those rules, in like manner, as is provided for Civil Servants proceeding to sea on medical certificate. But it is hereby provided, that Civil allowances shall not be drawn by a military officer under this rule, after the date of departure beyond sea, unless security shall have been previously given in such amount as may be fixed by Government.

ECCLESIASTICAL DEPARTMENT.

11. Chaplains proceeding to any place beyond sea for the benefit of their health, under the rules prescribed for officers of the Ecclesiastical department, shall, in respect to the proportion of allowances to be drawn during the period of absence, as also in respect to the conditions and period for which such allowances are to be drawn, and likewise in respect to the allowances to be drawn in case of their not returning within two years, be subject to the same precise rules as Civil Servants proceeding to any place beyond sea on sick leave.

PILOTS.

12. The following rules have been established for members of the Pilot Service, under the sanction of the Honorable Court of Directors:—

13. Members of the pilot service, whose state of health may require a voyage to sea or who may on that account desire to leave the presidency, shall submit application for the same through the Master Attendant to the Marine Board, forwarding with the application a certificate from the Marine Surgeon, or Assistant Surgeon, the Marine Board may grant leave for any period not exceeding three months, and the party availing himself of it may draw, while absent on such leave, his entire pay and allowances without deduction. 17. A Member of the pilot service, absent under the above rules, may, provided he forwards renewed medical certificates every six months, as required in the preceding rule, continue absent from India, for a total period not exceeding two years, drawing during absence the allowances stated, either through his agent, at Calcutta, or by bill signed in the presence of a Magistrate at the place where he may be residing, and certified to be so signed on the date specified. The bills may be drawn in duplicate, and will be payable to the order of the pilot, provided, however, that no pilot shall be allowed to benefit by this provision, unless he shall give security to such amount as may be prescribed by government to cover any re-funds to which he may become liable in case of proceeding to Europe or of over-receipt by agents.

18. Any member of the pilot service who shall be absent beyond sea for a period exceeding two years, shall, from the date of the expiration of the two years, be considered as suspended from the service. It will remain to be decided upon his return at any subsequent date, whether he shall be restored or not, according as he shall be able to satisfy the marine board and government, that he used all possible exertions to return within the time fixed, but failed to do so from causes beyond his control.

19. Under the authority of the provisions contained in the latter part of clause I. Act I. Victoria, cap. 47, it is further provided, in respect to all the above classes of officers, that if they embark with the permission of government, at any other presidency than their own, or at any other place or port in India, provided, that it be not more distant from their station than the ports of their own presidency, the date for the commencement of the operation of the above rules for sick leave beyond sea, shall be that of actual embarkation at such place or port, and not that of leaving the frontier of their own respective presidency, and the same privilege in respect to the date of leaving India, will be granted to officers of the several services referred to embarking at other presidencies or places in India, not more distant from their station than the ports of their own presidency, with the leave of government previously obtained for the purpose of proceeding to Europe on furlough, or of retiring from the service altogether.

20. In the above rules no provision is made for cases of servants of the classes mentioned resigning the service after leaving their presidency with the permission of the Government in consequence of sickness. The case of such persons has been considered by the President in Council, to require a new rule, which, under the terms of the act, requires to be submitted for the confirmation of the Hon'ble the Court of Directors, before it can take effect. It is accordingly declared, that the security to be given by servants as the condition of their drawing allowances while absent from their presidency, must provide for the case of such retirement, and the servants must bind themselves to re-fund the whole of the allowances so drawn, in case of their resignation and departure for Europe without return to their presidency, provided, that the new rules to be established, should require such re-fund.

By order of the Hon'ble the president in council,

H. T. PRINSEP, Secy. to the Govt. of India.

ACT NO. XX. DATED DECEMBER 18, 1847.

An Act for the encouragement of learning in the Territories subject to the Government of the East India Company, by defining and providing for the enforcement of the right called Copyright therein.

Whereas doubts may exist whether the right called Copyright can be enforced by the Common Law of England in those parts of the Territories subject to the Government of the East India Company into which the Common Law of England has been introduced :

And whereas doubts may exist whether the said right can be enforced by virtue of the principles of equity and good conscience in the other parts of the Territories subject to the Government of the East India Company :

And whereas for the encouragement of learning it is desirable that the existence of the said right should be placed beyond doubt, and that the said right should be made capable of easy enforcement in every part of the said Territory :

And whereas it is doubtful whether the Act of Parliament 5 and 6, Victoria, C. 45, entitled "*an Act to amend the Law of Copyright*," although such Act extend to every part of the British Dominions, has made appropriate and sufficient provision for the enforcement in every part of the said Territories subject to the Government of the East India Company of the said right by proprietors thereof: and whether the said Act of Parliament has made provision for the enforcement of the said right by or against any persons not being subject to the jurisdiction of the Courts established by Her Majesty's Charter :

I. It is therefore hereby enacted, that the Copyright in every book published in the life-time of its author within the said Territories after the passing of the Act of Parliament 3 and 4, Wm. 4 C. 85, entitled "*an Act for effecting an arrangement with the East India Company and for the better government of His Majesty's Indian Territories till the 30th day of April, 1854*," shall endure for the natural life of such author, and for the further term of seven years commencing at the time of his death and shall be the property of such author and his assigns: Provided always, that if the said term of seven years shall expire before the end of forty-two years from the publication of such book the Copyright shall in that case endure for such period of forty-years; and that the Copyright in every book published after the death of its author and after the passing of the Act of Parliament last aforesaid shall endure for the term of forty-two years from the first publication thereof and shall be the property of the proprietors of the author's manuscript, from which such book shall be first published, and his assigns.

II. And whereas it is expedient to provide against the suppression of books of importance to the public: it is enacted, that it shall be lawful for the Governor General in Council on complaint made to them that the proprietor of the Copyright in any book published after the passing of this Act within the said Territories, has after the death of its author refused to republish or to allow the republication of the same, and that by reason of such refusal such book may be withheld from the public, to grant a licence to such complainant to publish such book in such manner and subject to such conditions as they may think fit, and it shall be lawful for such complainant to publish such book according to such licence.

III. And it is hereby enacted, that a Book of Registry wherein may be registered as hereinafter enacted the proprietorship in the Copyright of books and assignments thereof, and licences affecting such Copyright, shall be kept in the office of the Secretary to the Government of India for the Home Department, and shall at all convenient times be opened to the inspection of any person on payment of Eight Annas for every entry which shall be searched for or inspected in the said book, and that such Officer shall whenever thereunto reasonably required, give a copy of any entry in such book certified under his hand, to any person requiring the same on payment to him of the sum of Two Rupees, and such copies so certified shall be received in evidence in all Courts and in all summary proceedings, and shall be *prima facie* proof of the proprietorship or assignment of Copyright or licence as therein expressed, but subject to be rebutted by other evidence.

IV. And it is enacted, that if any person shall wilfully make or cause to be made any false entry in the Registry Book aforesaid, or shall wilfully produce, or cause to be tendered in evidence any paper falsely purporting to be a copy of any entry in the said Book, he shall be guilty of a misdemeanour and shall be

punished with imprisonment with or without hard labour for a term not exceeding three years.

V. And it is enacted, that after the passing of this Act, it shall be lawful for the proprietor of Copyright in any book published, after the passing of the said Act of Parliament 3 and 4, Wm. 4, C. 85, to make entry in the Registry Book of the title of such book, the time of the first publication, and the name and place of abode of the publisher thereof, and the name and place of abode of the proprietor of the Copyright of the said book, or of any portion of such Copyright in the form in that behalf given in the Schedule to this Act annexed upon payment of the sum of Two Rupees to the said Secretary, and that it shall be lawful for every such registered proprietor to assign his interest or any portion of his interest therein, by making entry in the said Book of Registry of such assignment, and of the name and place of abode of the Assignee thereof in the form given in that behalf in the said Schedule on payment of the like sum; and such assignment so entered shall be effectual in Law to all intents and purposes whatsoever without being subject to any stamp or duty, and shall be of the same force and effect as if such assignment had been made by Deed.

VI. And it is enacted, that if any person shall deem himself aggrieved by any entry made under colour of this Act in the said Book of Registry, it shall be lawful for such person to apply by motion to the Supreme Court of Calcutta, or if the Court shall not be then sitting to any Judge of such Court sitting in Chambers for an order that such entry may be expunged or varied, and that upon any such application to the said Court, or to a Judge as aforesaid, such Court or Judge shall make such order for expunging, varying or confirming such entry either with or without costs, as to such Court or Judge shall seem just, and the said Secretary shall on the production to him of any such order for expunging or varying any such entry, expunge or vary the same according to the requisitions of such order.

VII. And it is enacted, that if any person shall after the passing of this Act print or cause to be printed either for sale or exportation, any book in which there shall be subsisting Copyright without the consent in writing of the proprietor thereof, or shall have in his possession for sale or hire any such book so unlawfully printed without such consent as aforesaid, such offender if he shall have so offended within the local limits of the jurisdiction of any of the Courts of Judicature established by Her Majesty's Charter, shall be liable to a special action on the case in such Court, and if he shall have so offended in any other part of the Territories subject to the Government of the East India Company to a suit in the Zillah Court within the jurisdiction of which he shall have so offended, which shall and may be prosecuted in the same manner in which any other action of damages may be brought and prosecuted there, and if he shall have so offended in any such lastmentioned part of the Territories subject to the Government of the East India Company in which there is no Zillah Court, to a suit in the highest local Court exercising original Civil jurisdiction in such part of the said Territories.

VIII. And it is hereby enacted, that after the passing of this Act in any suit or action brought in any of the Courts of Judicature established by Her Majesty's Charter under the provisions of this Act against any person for printing any such book for sale, hire or exportation, or for selling, publishing or exposing to sale or hire, or causing to be sold, published or exposed to sale or hire, or for having in his possession for sale or hire any such book so unlawfully printed, the defendant on pleading thereto shall give to the plaintiff a notice in writing of any objections on which he means to rely on the trial of such action, and if the nature of his defence be that the plaintiff in such action was not the author or first publisher of the book in which he shall by such action claim Copyright, or is not the proprietor of the Copyright therein, or that some other person than the plaintiff was the author or first publisher of such book, or is the proprietor of the Copyright therein, then the defendant shall specify in such notice the name of the person who he alleges to have been the author or first publisher of such book, or the proprietor of the Copyright therein, together with the title of such book, and the time when and the place where such book was first published, otherwise the defendant in such action shall not at the trial or hearing of such action be allowed to give any evidence that the plaintiff in such action was not the author or first publisher of the book in which he claims such Copyright as aforesaid, or that he was not the proprietor of the Copyright therein, and at such trial or hearing no other objection shall be allowed to be made on behalf of such defendant than the objections stated in such notice, or

that any other person was the author or first publisher of such book, or the proprietor of the Copyright therein than the person specified in such notice, or give in evidence in support of his defence any other book than one substantially corresponding in title, time and place of publication with the title, time and place specified in such notice.

IX. And it is hereby enacted, that after the passing of this Act in any such suit or action as last aforesaid brought in any Zillah Court or other local Court as aforesaid the defendant shall state in his answer all such matters as he means to rely on and which by the last preceding Section the defendant in any suit or action brought in any of the Courts of Judicature established by Her Majesty's Charter is required to give notice of in writing, otherwise such defendant shall be subject to the same consequences for any omission in his answer as a defendant is made subject to by the last preceding Section for any omission in his notice.

X. And it is hereby enacted, that when any publisher or other person shall within the said Territories before or at the time of the passing of this Act, but after the passing of the said Act of Parliament 3 and 4, Wm. 4, C. 85, have projected, conducted and carried on, or shall hereafter project, conduct or carry on, or be the proprietor of any Encyclopædia, Review, Magazine, Periodical work or work published in a series of Books or Parts, or any book whatsoever, and shall have employed or shall employ any persons to compose the same, or any Volumes, Parts, Essays, Articles or Portions, thereof for publication in, or as part of the same, and such Work, Volumes, Parts, Essays, Articles or Portions shall have been, or shall hereafter be composed under such employment on the terms that the Copyright therein shall belong to such Proprietor, Projector, Publisher or Conductor, and paid for by such Proprietor, Projector, Publisher or Conductor, the Copyright in every such Encyclopædia, Review, Magazine, Periodical work and work published in a series of Books or Parts, and in every Volume, Part, Essay, Article and Portion so composed and paid for shall be the property of such Proprietor, Projector, Publisher or Conductor who shall enjoy the same rights as if he were the actual author thereof and shall have such term of Copyright therein as is given to the authors of Books by this Act, except only that in the case of Essays, Articles or Portions forming part of and first published in Reviews, Magazines or other Periodical works of a like nature after the term of twenty-eight years from the first publication thereof respectively the right of publishing the same in a separate form shall revert to the author for the remainder of the term given by this Act. Provided always, that during the term of twenty-eight years the said Proprietor, Projector, Publisher or Conductor shall not publish any such Essay, Article or Portion separately or singly without the consent previously obtained of the author thereof or his assigns: Provided also, that nothing herein contained shall alter or affect the right of any person who shall have been or shall be so employed as aforesaid to publish any such his composition in a separate form who by any contract, express or implied, may have reserved or may hereafter reserve to himself such right, but every author reserving, retaining or having such right shall be entitled to the Copyright in such composition when published in a separate form according to this Act without prejudice to the right of such Proprietor, Projector, Publisher or Conductor as aforesaid.

XI. VI. And it is enacted, that it shall be lawful for any person seized in fee or entitled absolutely for his own benefit to any lands, buildings or tenements authorized to be purchased for the purposes of this Act to sell and convey such lands, buildings or tenements, or any part thereof, unto the said Commissioners in consideration of an annual rent-charge payable by the said Commissioners, but except as aforesaid the consideration to be paid for the purchase of any such lands, buildings or tenements, or for any damage done thereto, shall be in a gross sum.

VII. VIII. And it is enacted, that when the said Commissioners shall require to purchase or take any of the lands, buildings or tenements which by this Act they are authorized to purchase or take, they shall give notice thereof to all the parties interested in such lands, or to the parties enabled by this Act to sell and convey or release the same or such of the said parties as shall after diligent inquiry be known to the said Commissioners, and by such notice shall demand from such parties the particulars of their estate and interest in such lands and of the claims made by them in respect thereof, and every such notice shall state the particulars of the lands so required, and that the said Commissioners are willing to treat for the purchase thereof, and as to the compensation to be made to all parties for the damage that may be sustained by them by reason of the execution of the works.

XI. And it is enacted, that when any question of disputed compensation by this Act authorized or required to be settled by arbitration, shall have arisen then unless both parties shall concur in the appointment of a single arbitrator, each party on the request of the other party shall nominate and appoint an arbitrator to which two arbitrators such dispute shall be referred and every appointment of an arbitrator shall be made on the part of the said Commissioners under the hands of two of the said Commissioners, or of their Clerk duly authorized by such two Commissioners, and on the part of any other party under the hand of such party, or if such party be a corporation aggregate under the common seal of such corporation, and such appointment shall be delivered to the

XII. And it is enacted, that if before the matters so referred shall be determined, any arbitrator appointed by either party shall die or become incapable to act, the party by whom such arbitrator was appointed may nominate and appoint in writing some other person to act in his place, and if for the space of seven days after notice in writing from the other party for that purpose he shall fail to do so, the remaining or other arbitrator may proceed to hear and determine the matters which shall be in dispute, and every arbitrator who shall be so substituted as aforesaid shall have the same power and authorities as were vested in the former arbitrator at the time of such his death or disability aforesaid.

XIV. And it is enacted, that if in either of the cases aforesaid the said arbitrators shall refuse, or shall for seven days after request of either party to such arbitration, neglect to appoint an umpire, any two of the Magistrates of Calcutta shall on the application of either party to such arbitration appoint an umpire, and the decision of such umpire on the matters on which the arbitrators shall differ or which shall be referred to him under this Act shall be final.

XV. And it is enacted, that when a single arbitrator shall have been appointed as hereinbefore provided, and such arbitrator shall die or become incapable to act before he shall have made his award, the matters referred to him shall be determined by arbitrators under the provisions of this Act in the same manner as if such arbitrator had not been appointed.

XVI. And it is enacted, that if where more than one arbitrator shall have been appointed either of the arbitrators refuse, or for seven days after the day of his appointment shall neglect to act, the other arbitrator may proceed to hear and determine the matters in dispute, and the decision of such other arbitrator shall be as effectual as if he had been the single arbitrator appointed by both parties.

XVII. And it is enacted, that if where more than one arbitrator shall have been appointed and where neither of them shall refuse or neglect to act as aforesaid, but such arbitrators shall fail to make their award within twenty-one days after the day on which the last of such arbitrators shall have been appointed, or within such extended time, (if any) as shall have been appointed for that purpose by both such arbitrators under their hands, the matters referred to them shall be determined by the umpire to be appointed as aforesaid.

XVIII. And it is enacted, that the said arbitrators or other umpire may call for the production of any documents in the possession or power of either party which they or he may think necessary for determining the question in dispute, and may examine the parties or their witnesses on oath or solemn affirmation, and administer the oaths and solemn affirmation necessary for that purpose.

XIX. And it is enacted, that before any such arbitrator or umpire as aforesaid shall enter into the consideration of any matters referred to him he shall in the presence of a Magistrate of Calcutta make and subscribe the following declaration, that is to say—

XXI. And it is enacted, that the said arbitrators or the said umpire, as the case may be, shall deliver their award in writing to the said Commissioners, and the said Commissioners shall retain the same, and on demand made at the office of their Clerk shall forthwith at their own expence furnish a copy thereof to the other party to the arbitration, and shall at all reasonable times when thereunto required produce the said award and allow the same to be inspected or examined at the office of their said Clerk by such party or any person appointed by him for that purpose.

IX. And it is enacted, that the said Commissioners shall keep in sufficient repair every street, public way and public thoroughfare existing in the said Town at the time of passing this Act, or at any future time, and shall be liable to be indicted for not sufficiently repairing the same.

X. And it is enacted, that if any person shall displace, take up or make any alteration in the pavements, flags or other materials of any foot or carriage way in any street within the said Town without the consent in writing of the said Commissioners, or of their said Surveyor, or shall cause any obstruction to, or make any encroachment upon any street in the said Town, any such person so offending shall for every such offence on conviction before a Magistrate forfeit a sum not exceeding Fifty Rupees.

XI. And whereas it is essential to the health and convenience of the inhabitants that straight and spacious streets and thoroughfares should be continued where they have been begun, and should be opened at convenient and suitable distances where such do not at present exist so as to perforate the mass of buildings within the said Town in straight lines as nearly as may be from South to North, and from East to West, crossing each other at right angles, and from South East to North West and from South West to North East, crossing the straight lines abovementioned diagonally with large open spaces forming squares or circles at convenient and suitable distances from whence the said streets may conveniently diverge in lines without interruption to the river and to the open country without the said Town so far as the completion of such plan may be practicable and where not entirely practicable upon a plan as nearly approaching to such plan as may be: And whereas it is also expedient and necessary that the narrow lanes and gullies which compose the greater part of the said Town inhabited by the Native inhabitants should be converted into such straight and spacious streets and thoroughfares formed as abovementioned due regard being had to the compensation of Owners of houses, buildings and grounds, which may be required to be vested in the said Commissioners for any such purposes as aforesaid:

It is enacted, that as soon as may be after the passing of this Act, the said Commissioners shall cause plans to be made by their said local Surveyor and by other competent Surveyors, shewing the direction and breadth of such streets and thoroughfares, and the situations and dimensions of such open spaces to form squares or circles as aforesaid, which in their opinion shall be the most suitable for carrying into effect the abovementioned objects, keeping in view the salubrity of the said Town, the convenience of communication within the same, and the economy with which the said improvements may be carried into execution, together with estimates of the expence of the necessary works and estimates of the probable value of the houses, buildings and grounds, which it will be necessary for the said Commissioners to purchase for these purposes, and the said Commissioners shall select from the plans which shall be so furnished to them the one which they, or a majority of them, shall consider the best and most eligible, and shall transmit to the Secretary to the Government of Bengal, the said plan and the resolution of the Commissioners thereupon for the consideration of the said Governor of Bengal, and upon the said Governor signifying through the said Secretary by writing, signed by the said Secretary, his approval of such plan, the said Commissioners shall proceed with all convenient speed to carry the same into execution so far as the funds at their disposal, and the circumstances under which the works are to be carried into execution will allow, in conjunction with the other improvements contemplated by this Act, and in case the said Governor shall signify his disapproval of the plan so submitted to

Commissioners shall cause another plan to be drawn by the same competent Surveyor, which plan shall in like manner be submitted to the said Commissioners to the said Governor, and so from time to time until the plan is finally approved of by the said Governor, and as soon as may be the final approval of the said Governor shall be intimated to the Commissioners as aforesaid, the said Commissioners shall proceed to carry the plan so approved into execution with all such convenient speed as may be.

XIII. And whereas it is essentially necessary to the salubrity of the said Town to make provision for the effectual sewerage and drainage of the same:

It is enacted, that as soon as conveniently may be after the passing of this Act the said Commissioners shall cause their said Surveyor to make a careful survey of the whole of the said Town, and in an accurate and distinct report to be framed by him to state what in his opinion are the defects of such sewerage, works and drains as shall at that time exist therein, and what alterations of the same, and what new main and other sewers and drains are necessary and proper for the effectual draining and clearing of the whole of the said Town, and what reservoirs, engines, sluices, penstocks and other works are required for properly flushing and cleansing out such sewers and drains, and at and from what places such drains and sewers respectively ought to commence, in what precise direction they are to be conducted, and at what places respectively they ought to terminate.

XIV. And whereas it is of the most essential importance that all the inhabitants of the said Town should be supplied with good and wholesome water for drinking and for domestic purposes to the utmost extent that the local and other circumstances of the said Town will permit, and especially that the poorer inhabitants thereof should be so supplied with water; and whereas supplies of water are also required for the efficient and wholesome cleansing and watering of the streets, and cleansing the main and other sewers and drains which may be constructed or maintained under the provisions of this Act:

It is enacted, that the said Commissioners shall at the same time cause their said Surveyor to report upon the existing supplies of water in the said Town, the sufficiency or insufficiency of such supply for all the several purposes aforesaid, and the healthful or palatable quality as water for drinking of every description of water so supplied, or which the said Surveyor shall recommend in future to be supplied, and with a view to test the accuracy of his report upon this latter subject the said Commissioners shall cause such water or waters to be analysed and reported on by competent Chemists and Medical men, and the said Surveyor shall also state in his report from what point on the River Hooghly, North of Calcutta, water in sufficient quantity can be conveyed into the Town for the domestic purposes of the said inhabitants, and for the efficient and wholesome cleansing and watering of the said streets, and cleaning the main and other sewers and drains which shall or may be constructed and maintained under the provisions of this Act, and shall state whether in his opinion one supply of water from one place can be commanded adequate to all these several purposes, and from what distance and at what probable expence, and what reservoirs, engines, sluices, canals, aqueducts, pipes and other works, and of what respective dimensions are required for the adequate and abundant supply of such water for all such purposes as aforesaid.

XV. And for carrying into effect the purposes aforesaid it is enacted, that all sewers and drains, together with all buildings and other works, materials and things therewith connected, and all canals, aqueducts, tanks and wells provided for or lawfully applied to public use, and which are not the property of any private person or persons, together with all buildings, engines, works, materials and things therewith connected existing in the said Town at the time of the passing of this Act, or which hereafter shall at any time be constructed and made therein whether constructed at the cost of the said Commissioners or otherwise, and the entire management and control over the same, subject to the provisions hereinafter contained, shall be the property of, and are hereby vested in the said Commissioners as such Trustees as aforesaid.

XVI. And it is enacted, that the said Commissioners constructed and made such and so many sewers and drains, many reservoirs, canals, aqueducts, engines and other works, and so many water pipes as shall in the opinion of the said Commissioners be necessary and proper for the effectual draining and cleansing of the Town aforesaid, and for the properly flushing and cleansing out such and under or across all or any of the streets and ways whether dedicated to public use or not, roads and other places within the said Town, and through and across all under ground cellars and vaults which they may find under any of the said streets, ways, roads or places, doing as little damage as may be, and also to cause such and so many rings and openings to be made or left in the sides of the said sewers as will be sufficient for the making or branching any drain or drains from any or all of the houses built, and which may probably be built adjoining or near thereto into any of the said sewers as the said Commissioners shall think fit necessary and expedient for that purpose; and in case it shall be found necessary for completing any of the aforesaid works to build, carry or continue the same in into or through any enclosed lands or other place not being a public way, it shall be lawful for the said Commissioners to build, carry or continue the same in into or through the said lands or other places accordingly, and the said Commissioners may and shall cause such sewers to communicate with and empty themselves into any public river, stream, canal or water-course, or to cause the refuse from such sewers to be conveyed by an appropriate channel to the most convenient site for its deposit, collection and sale, and its application as manure for agricultural purposes or otherwise as they shall deem most expedient; but so that the same shall in no case become a public nuisance or annoyance to the neighbourhood, and all such sewers, water-courses, canals, reservoirs and other works and premises shall be the property of and are hereby vested in the said Commissioners, and shall be at all times under the care, control and management of the said Commissioners and of their Surveyor and Officers.

XVII. And it is enacted, that the said Commissioners shall have authority from time to time as they shall see fit, and they are hereby required to widen, deepen, embank, alter, arch over, amend, clean and scour out all or any of the sewers within the said Town as may be necessary, and also to cleanse and drain off into any sewers or otherwise abate all stagnant pools, ditches, tanks and other receptacles of foul water and filth existing within the said Town, whether the same be the private property of any person or persons or otherwise, and further in cases in which any of the existing or future sewers vested in the said Commissioners shall from any cause whatever appear to the said Commissioners to have become useless or unnecessary, it shall be lawful for the said Commissioners if they shall think fit so to do to take up, stop, fill in and discontinue such old sewers in such manner that the same shall not be or become a nuisance or annoyance to the neighbourhood.

XVIII. And it is enacted, that before beginning to dig or lay the foundations of any new house within the said Town, or to re-build any house therein, and also before making any drain for the purpose of draining water directly or indirectly from any land or tenement into any sewer under the jurisdiction of the said Commissioners, fourteen clear days notice in writing shall be given to the Clerk to the said Commissioners by delivering the same to him, or leaving it at his office by the person intending to build or re-build such house, or to make such drain, and every such foundation shall be laid at such level as the said Surveyor of the said Commissioners shall direct, and every such branch drain shall be made in such direction, manner and form, and of such materials and workmanship as the said Surveyor shall order, and the making of every such drain shall be under the survey and control of the said Commissioners; and in default of such notice, or if such building or drain shall be begun or made without or in any respect contrary to any order of the said Surveyor, or of the provisions of this Act, it shall be lawful for the said Commissioners to cause such building to be demolished, and to cause such drain to be relaid, amended, or remade as the case may require, and to cause the expenses thereof to be levied and repaid to them from and by the Owner thereof in the manner hereinafter provided.

XIX. And it is enacted, that it shall be lawful for any person at his own expence to make or branch any drain into any of the sewers vested in the said Commissioners, or authorized to be made by virtue of this Act, or otherwise acquired by the said Commissioners, such drain being made of such a size and in

communication in all respects as the said Surveyor of the said all direct or appoint, and for that purpose to take up and of the pavement and other materials of any street, as may be the said Commissioners shall consent and agree which they are to do to form so much and such portion of such drain as shall a point of communication in such sewer to the extremity of such In case any person shall make or branch any drain into any of the sewers so vested in the said Commissioners, or authorized to be made under by virtue of this Act of a larger size, or in a different manner and form of communication than shall be directed or appointed by the said Surveyor, every person so offending shall for every such offence forfeit and pay on conviction before a Magistrate a sum not exceeding Fifty Rupees.

XX. And whereas it would tend to insure a greater efficiency and economy in the execution of works if the same were executed by persons under the immediate direction and control of the Surveyor of the said Commissioners, it is enacted, that it shall be lawful for the said Commissioners to contract and agree with the Owners of any houses or other tenements within the said Town, that any drains required to be made by such Owners shall be constructed and made by the Surveyor of the said Commissioners, and the cost price of making such drains (as certified by the said Surveyor of the said Commissioners) shall be repaid by such Owners to the said Commissioners, and in default of such payment the same may be recovered in the manner hereinafter provided.

XXI. And whereas the noxious effluvia exhalng from gully holes of sewers and drains has been found to be injurious to health, and it is therefore expedient that some provision should be made in respect thereof to obviate the same, it is enacted, that the said Commissioners and the Owners of any private drains in the Town aforesaid, shall by providing proper traps or other coverings, or by ventilation, or by such other ways and means as shall be practicable for that purpose effectually prevent the effluvia of sewers and drains from exhalng from gully holes, gratings or any other openings whatsoever of drains or sewers in streets or other places, and in case the Owner of any private sewer or drain shall neglect or delay so to do, the Surveyor of the said Commissioners shall give him notice effectually to prevent the effluvia of such sewer or drain from so exhalng, and if the same shall not be effectually done by such Owner within ten days after such notice shall have been given him, the said Surveyor shall forthwith provide and apply proper traps or other coverings, or such other means as aforesaid so as effectually to prevent such effluvia from exhalng and the expence incurred thereby shall be paid by the Owner of such sewer or drain to be recovered in manner hereinafter mentioned.

XXII. III. And whereas it is expedient to make provisions for supporting Coroner's Inquisitions and for preventing the same from being quashed on account of technical defects:

It is therefore hereby enacted, that no Inquisition found upon or by any Inquest of any of the said Coroners, nor any judgement recorded upon or by virtue of any such Inquisition shall be quashed, stayed or reversed for want of the averment therein, of any matter unnecessary to be proved, nor for the omission of the words "with force and arms," or of the words "against the peace," or of the words "against the form of the Statute," or for the omission or insertion of any other words or expressions of mere form or surplusage, nor for the insertion of the words "upon their oath," instead of the words "upon their oaths," nor for omitting to state the time at which the offence was committed when time is not of the essence of the offence, nor for stating the time imperfectly, nor because any person or persons mentioned in any such Inquisition is or are designated by a name of office or other descriptive appellation instead of his, her or their proper name or names, nor by reason of the non-insertion of the names of the Jurors in the body of any such Inquisition, or of any difference in the spelling of the names of any of the Jurors in the body of any such Inquisition and the names subscribed thereto, nor because any Juror or Jurors shall have

set his or their mark or marks to any such Inquisition instead of subscribing his or their name or names thereto, nor because any such mark or marks is or are unattested, provided that the name or names of such Juror or Jurors is or are set forth, nor because any Juror or Jurors has or have signed his or their Christian name or names or other name or names which is not or are not a family name or names by means of an initial or partial signature only, and not at full length, nor because of any erasures or inter-lineations appearing in any such Inquisition unless the same shall be proved to have been made therein after the same was signed, nor (except only in cases of murder or manslaughter) for or by reason of any such Inquisition not being duly sealed or written upon parchment, nor by reason of any such Inquisition having been taken before any Deputy instead of the Coroner himself, nor because the Coroner and Jury did not all view the body at one and the same instant, provided that they all viewed the body at the first sitting of the Inquest, and in all or any such cases of technical defect as are hereinbefore mentioned, it shall be lawful for any Judge of Her Majesty's Supreme Court at the Presidency at which such Inquest shall have been held, if he shall so think fit, upon the occasion of any such Inquisition being called in question before him, to order the same to be amended in any of the respects aforesaid, and the same shall forthwith be amended accordingly.

IV. And it is enacted, that it shall be lawful for each of the Coroners of Calcutta, Madras and Bombay from time to time to appoint by writing under his hand and seal a fit and proper person, such appointment being subject to the approved of the Governor of the Presidency of which he is the Coroner, to act for him as his Deputy in the holding of Inquest; and all Inquests taken and other acts performed by any such Deputy Coroner under and by virtue of any such appointment shall be deemed and taken to be the acts and deeds of the Coroner by whom such appointment was made. Provided that no such Deputy shall act for any such Coroner except during the illness of the said Coroner or during his absence for any lawful and reasonable cause. Provided also that every such appointment may at any time be cancelled and revoked by the Coroner by whom the same was made.

ACT NO. V. DATED MARCH 4, 1848.

An Act to amend the Law regarding the taking of Mochulkas or Penal Recognizances.

I. And it is hereby enacted, that Section 4, Regulation IV. of 1825, of the Bengal Code, is repealed.

II. And it is hereby enacted, that in the Territories subject to the Presidency of Bengal, it shall be lawful for the Zillah and City Magistrates and Joint Magistrates to take Mochulkas or Penal Recognizances in the form annexed to this Act, as well from British subjects as from other persons in all cases wherein it may appear just and necessary to require the same for the maintenance of the peace in their respective jurisdictions although the party to be bound in such recognizances may not have been convicted of any specific offence, provided that the amount of the recognizance in all such cases shall be proportionate to the condition in life of the said party and to the circumstances of the case.

III. And it is hereby enacted, that in cases of an aggravated nature wherein it may appear necessary to require security for keeping the peace in addition to the recognizance of the party, it shall be lawful for such Magistrates to direct the same and to fix a reasonable amount for the security bond to be executed in the form annexed to this Act by the surety or sureties.

IV. And it is hereby enacted, that whenever it shall appear to the Magistrate that the period for which the party should be bound to keep the peace with or without additional security, need not exceed one year, it shall be lawful for him, without reference to superior authority, to give directions accordingly, and in default of such recognizance or additional security, to commit the party to prison in the Civil Jail until he shall do what has been required of him.

V. And it is hereby enacted, that whenever it shall appear to the Magistrate that the period for which the party should be bound to keep the peace with or without additional security ought to exceed the period of one year, the Magistrate shall record his opinion to that effect with an order specifying the amount of recognizance and security as well as the number of sureties which should in his judgment be required, and the period for which the recognizance and security should be required, which however shall in no case exceed three years. If the party shall not furnish the recognizance and security so required, the proceedings

ACT NO. XX. DATED SEPTEMBER 23, 1848.

An Act for better enforcing the attendance of Proprietors and Farmers of Land before Collectors of Land Revenue in the Lower Provinces of the Bengal Presidency.

Whereas, by sundry Regulations of the Bengal Code, provision is made for the imposition of a daily fine, by the Board of Revenue or other authority exercising the powers of that Board, on any proprietor or farmer of land subject to the provisions contained in the said several Regulations, who, when duly summoned by the Collector or other Officer exercising the powers of Collector, shall omit or refuse to attend, or to cause his Officer or Agent to attend, or to furnish the accounts or documents required, and shall not shew sufficient cause for such omission; and it is further provided that the fine, when confirmed by Government, is to be levied by the same process as is prescribed for the recovery of arrears of revenue; and whereas in many cases, by the delay thus occasioned, the whole burden of the penalty is greatly increased beyond what would be necessary, if summary power were given to the Officer by whom the requisition is made, to impose and levy reasonable fines, subject to review by the Commissioner of Revenue and other superior authority, It is enacted as follows:

I. If any proprietor or farmer of land shall omit or refuse to attend, or to cause his Officer or Agent to attend, when duly summoned by the Collector, in any case specified in any of the said Regulations, by the time prescribed in the notice issued by the Collector, or shall omit or refuse to furnish the accounts or documents required, and shall not shew sufficient cause for such omission, the Collector may impose of his own authority such daily fine, to be payable daily until compliance with the requisition, as he may think adequate to the situation and circumstances in life of the defaulter, not exceeding in any case the daily fine of 50 Rupees: and the amount of such fine, accruing due from time to time, may be levied, without further confirmation, by the same process as is prescribed for the recovery of arrears of revenue.

II. The Collector shall forthwith report the imposition of every such fine, and the amount thereof, and also from time to time the amount levied, to the Commissioner of Revenue, who shall report the same for the information of the local Government.

III. Every order passed by a Collector under this Act shall be appealable in the usual manner to the Commissioner of Revenue, and other superior authority; but no such appeal shall avail to prevent the levy of any fine so imposed pending the appeal.

IV. Whenever the amount levied under any such order, issued for any default by authority of a Collector under this Act, shall have exceeded 500 Rupees, the Collector shall report the case specially to the Commissioner of Revenue; and no further levy for such default shall be made otherwise than by authority of the Commissioner of Revenue.

V. Nothing in this Act contained shall be deemed to repeal the power of imposing daily fines and of levying the fines so imposed in the manner prescribed, by the said several Regulations.

VI. The word "Collector" used in this Act shall be taken to mean any person lawfully exercising the powers of a Collector.

VII. This Act shall not extend to the North West Provinces of the Presidency of Bengal.

II. The several Courts of Justice established by Royal Charter, instead of directing an issue to be tried on a feigned wager for ascertaining any disputed fact, in the exercise as well of the Equity or Admiralty or any other Jurisdiction as of the common Law Jurisdiction of the Court, may issue summonses to witnesses and cause them to be examined orally in open Court as witnesses in the cause; and the witnesses so summoned shall be bound to attend and give their evidence in the same manner, and under the like penalties for neglect or disobedience, or for giving false evidence, as any witness duly summoned to give evidence according to the practice of the Court before the passing of this Act.

IV. N. B. The students are to provide themselves with proper academical habits.

RECKONING OF TIME PASSED IN COLLEGE.

The East India Company having established a college in England, for the appropriate education of young men designed for their civil service in India, it will be therefore expedient that, under certain circumstances, the time spent by such young men in the said college after they shall have attained the age of 17 years, entitles them to the same privileges as they would have been entitled to, if they had been resident such time in India, and it has been enacted that all time not exceeding two years, as shall be *bona fide* spent in college, in the regular course of such education, by any person, after they shall respectively have attained the age of 17 years, provided they shall *bona fide* spend, either before or after 17 years of age, two years at least, in the said college regular course of such education and shall afterwards go to India, in the civil service of the said company, shall be appointed to the offices, places, and appointments, which such persons are entitled to be appointed to, and to hold, as so much time actually spent in India.

Extract from a public General Letter from the Hon'ble the Court of Directors dated the 12th June 1816.

Par. 20. We perceive by the abstract of the Act of the 53d of the present majesty, chap. 155, annexed to your list of civil servants, dated 31st May, 1844, that according to your construction of that act, a civil servant may now, upon his arrival in India, receive £500 a year, but this is most assuredly a mistake, the act abovementioned has shortened the period two years, which it was required previously to the passing of that act, for a servant to have resided in India to enable him to receive more than 1,500, 3,000, or 4,000 pounds a year; but it has not shortened the period which it was required previously thereto, for a servant to have resided as abovementioned, to enable him to receive more than £500 a year; consequently that remains the same as it was before the act of the 53d was passed, namely three years. Allowing, with respect to the servants educated at Hertford college, the time not exceeding two years, passed in that institution after they were seventeen, to be considered as time passed in India, and this will be your guide in future.

And whereas, by virtue of an act passed in the forty-seventh year of the reign of his said late Majesty, all such time as shall be *bona fide* spent in the college established in England by the East India Company, for the education of their civil servants by any person after they shall respectively have attained the age of seventeen years, is accounted as to certain offices, places and employments, which such persons are entitled to hold in India, as so much time actually spent in India, provided that such persons shall, either before or after seventeen years of age, spend two years at least in the said college; and whereas it is expedient, that the privilege so granted, should, under certain circumstances, be extended to young men, who may have spent less time than two years in regular course of education at the said college; be it therefore enacted, that all such time not exceeding two years, as shall have been or will be *bona fide* spent in the said college in the regular course of such education as aforesaid, by any person after they shall respectively have attained the age of seventeen years, who shall have proceeded or shall hereafter proceed to India in the civil service of the said company, shall be accounted as to all offices places and employments to which such persons are entitled to be appointed, and to hold the salary, perquisites and emoluments whereof shall not exceed the sum of one thousand five hundred pounds.

In adjusting the original rank of the writers of 1808—9, and subsequent years, I have made it to commence from the 30th April, of the years they severally stand appointed to, finding it very difficult to adjust it, according to

the old established rule, or form, the date of the arrival to this country of the first writers of each season, several gentlemen of one season having of late years arrived at this presidency before any of the writers nominated to a preceding season, which according to the old rule would make the arrival of a writer of a subsequent season establish the original rank of all the writers of a preceding season. These difficulties will be obviated by the present arrangement, without creating any inconvenience.

PURCHASE OR SALE OF APPOINTMENTS FORBIDDEN.

And no person who shall be nominated to a situation in the service of the East India company, and who shall have obtained such nomination in consequence of purchase or any corrupt practice whatever, either direct or indirect; by himself or by any other person, with or without his privity, shall be rejected from the service of the company, and ordered back to England, if he shall have proceeded to India before a discovery of such corrupt practice he made; and if such situation shall have been so corruptly procured by himself, or with his privity, he shall be rendered incapable of holding that or any other situation whatever in the company's service, provided always, that if a fair disclosure of any corrupt transaction or practice of the nature before described, wherein any director has been concerned, shall be voluntarily made by the party or parties engaged in the same with such director, the appointment hereby procured shall be confirmed by the Court.

VACANCIES HOW TO BE FILLED UP.

A strict adherence to the prohibitions contained in an act made in the thirty third year of the late reign, in respect to the filling up and supplying vacancies in the civil service of the E. I. company, has been found impracticable, without detriment to the public service, or injury to the just claims and meritorious exertions of individuals, and a modification of the said act having been in part adopted in the act of the forty seventh of the same reign, relative to the scholars education at *Herdford College*; it has been enacted that any office, place or employment, the salary and perquisites where of shall exceed the sum of fifteen hundred pounds, may be granted to and conferred upon any civil servant who shall have been actually resident in *India* in the company's service, for the space of four years antecedent to such vacancies; and the salary, perquisites, and emoluments, shall exceed the sum of three thousand pounds *per annum*, such office may be conferred upon any of the said servants who have been actually resident in *India* seven years, at least, in the whole; and if the salary perquisites, and emoluments, at any office, place or employment, shall exceed four thousand pounds *per annum*, such office, including that of the Council, may be granted or conferred upon any of the said servants, who shall have been actually resident in *India* in the company's service, for the space of ten years, at least, in the whole.

LIMITATION OF SALARIES &c. OF CIVIL SERVANTS.

Abstract of an act of parliament passed 53d of George III limiting the salaries, perquisites, and emoluments of the company's servants holding one or more offices, place, or emolument in the civil line according to the period of their actual residence in India, in the company's service: vide section 82.

He requested leave of absence from the Government at Calcutta till the sailing of the ship in which he was about to embark, to enable him to draw the salary that might become due to him to that period. He was informed in reply that unless circumstances were shown for anticipating the orders of the Government of his own division of the Presidency his request could not be complied with. He explained that his illness was such as to require immediate removal—and that the ship in which he had taken his passage would sail before he could receive an answer to any application he might make to the N. CHAPTER II.

RULES FOR SICK LEAVE.

SEC. V. When an application for leave of absence is made on the ground of ill health it *must be accompanied by a certificate*, from the medical officer by whom the applicant has been attended, distinctly stating from his personal observation, the nature of the disease, the symptoms by which it is manifested, the period during which it has existed, as far as the knowledge of the medical officer extends, and the necessity for temporary removal to some other place, either within the territories subject to the government of the East India Company or beyond them, but within the limits laid down in Sec. 4th, as the case may be, and such certificate must be submitted to the consideration of the medical board, and if satisfactory shall be countersigned by one of its members. (6) If the applicant shall have proceeded beyond the territories under the government of the East India company, he must furnish a certificate to the required effect from a surgeon or physician at the place of his temporary residence, by whom he has been attended, such attendance and the period of it to be stated, and the certificate to be countersigned by the principal medical authority of the colony or country. When any of the required particulars are neglected leave will be refused. (7)

SEC. VI. (Amended) Civil Servants absent from their Stations under Medical Certificate, within the limits of their respective Presidencies, shall be entitled to the Salaries of their Offices for the period of two years, subject to a deduction of $\frac{1}{3}$ d for the whole term of such absence, save and except that for the first year, if the Salary be not more than 500 Rupees per annum, no deduction shall be made, and if it be only so much more than 500 Rupees that the prescribed deduction of $\frac{1}{3}$ d would reduce the allowance below that sum, only the excess

TRANSGRESSING INDIAN LIMITS.

(5) An officer of the Civil Service at Madras obtained leave for six months to visit Egypt on private affairs, with permission to embark at Bombay. The home authorities observed from the Bombay Gazette that he sailed thence for Suez on the 1st November, and from the newspapers that he was at Malta in the month of January.

The home authorities ruled that although it might not have been the officer's intention to go to Europe when he applied for leave of absence, it was prescribed by law (V. Sec. 37-33 Geo. III. C. 52 and 3 and 4 W IV. C. 85 Sec. 79 and 1. Vic. Cap 47) that such a step as that here referred to involved the cessation of salary and allowances from the date of the officer's quitting his own presidency, and that accordingly the penalty described must be inflicted in his and in all similar cases. It was and will be inflicted accordingly.

EXPLANATION OF SEC. V.

(6) In explanation of Section V. of the Rules respecting absence from Civil Appointments on account of ill health, published under date the 29th of January last and in modification of the said Section:—The Governor General in Council is pleased to resolve that in cases of extreme emergency, which owing to the distance of the residence of the Medical Board, preclude the previous reference to that authority, the Certificate of the Medical Attendant required from Applicants for leave of absence on account of ill health, shall be submitted by them for the Consideration, and countersignature of the superintending Surgeon of the Division, or of the nearest Division, which Officer in these cases will be responsible for the prescribed regularity of the Certificate, instead of the Medical Board.

MEDICAL CERTIFICATE—HOW TO BE SIGNED.

(7) All Medical certificates granted to Civil officers employed in the provinces, under which they propose to proceed to the hills without visiting the Presidency (in which latter instance the necessity of the case will be certified by a member of the Medical Board) must be countersigned by the superintending Surgeon of the division. It will rest with the Government to admit of exception to the strict observance of this rule in cases of great emergency, or when attendance upon the Superintending Surgeon would be hazardous and extremely inconvenient to an officer in a very delicate or precarious state of health.

herend Rs. 500 shall be deducted, but for the second year, the full deduction shall be in force. An absent Servant, whether Civil or Military, shall in no case retain any Civil Office or employment, nor be permitted to draw any portion of official Salary for a longer period than (8) two years, but a Civil Servant who may, on account of sickness duly certified, obtain an extension of leave beyond two years shall, if his period of actual residence be less than 12 years, be allowed to draw the second rate of subsistence allowance, and if the period of such actual residence be 12 years the highest rate of subsistence allowance, but if he continues absent in disobedience of an order to return, or without sufficient cause shewn that allowance also shall be forfeited. The period of absence shall be computed from the date of his quitting his Station to the date of his return thereto. (9)

SEC. VII. Civil servants absent on leave on account of sickness, duly certified, if they proceed to England without returning to their presidency, may as heretofore, apply to be admitted to Furlough by the honorable the court of directors, and the furlough will in such cases take effect from the date of leaving their presidency consequently the allowances of office that may have been drawn by themselves or by their agents after their departure, must in that case be re-adjusted, and the difference refunded.

NOTE.— *This rule applies to all descriptions of leave on account of health excepting those granted under Section XII.*

Thus a second leave within the Presidency, no less than a second time to sea, will be computed as forming part of the period of two years, if taken before three years have elapsed since return from the first leave and the deductions will be made upon computation of the accumulated period of absence under all such leaves taken without the intervention of three years of consecutive service.

SEC. VIII. No second leave will be granted to any civil or military servant (10) holding a civil appointment who has been absent under the above rules for two years, until three years at the least shall have passed after the date of such servant's return, but if such a servant is compelled by sickness again to absent himself from his station within three years after having been absent under the above rule for less than two years, he will be allowed to complete that period, subject to the limitations and conditions heretofore prescribed, drawing the proportions of salary allowed for the remaining time as if the leave had been continuous.

EXCESS OF LEAVE.

(8) Mr. A. B. a Civil servant, in 1835 took fifteen months leave to the Cape. In 1838 he again applied for nine months leave, i. e. the balance of the two years. This was granted. In 1839 after an absence of 9 months and 10 days he reported his return, and explained at the same time that the transgression was wholly unavoidable on his part, because 1st no vessel left the Cape for Calcutta during several weeks before he took his passage by the "Helen" the first vessel which offered an opportunity, 2dly because he took his passage in the "Helen" seventy-five days before the expiry of his leave, a period (he argued) within which it was quite reasonable to expect that he would reach Calcutta. 3dly Because the vessel was inordinately detained both at the Cape and at sea in a manner not to be expected or controlled and if he had taken his passage in vessels that sailed subsequently and reached Calcutta before the "Helen" he would have not exceeded his leave. The Government in the General Dept. in consideration of the circumstances that had delayed him, and by which his leave had been exceeded; with reference also to the fact that his appointment had not been (as it was liable to be under the rules) filled up on the expiry of the nine months, determined to transfer the representation in question of the officer's own Department, (the Revenue) in order that the expediency of restoring him to office from the date of his return might be considered in that Department. The Revenue Department did restore him to office but with a forfeiture of salary for the 10 days by which he exceeded his leave.

(9) Mr. A. B. in the latter end of 1837 received one year's leave of absence to visit the hills on medical certificate and remained at Simlah till near the expiry of leave, when health being in no way restored, Mr. A. B. was ordered by his medical attendant to visit the Cape of Good Hope. He furnished the necessary certificate and received permission to proceed to sea for two years, and embarked on the _____ which left the Sand Heads on the 25th January, 1839.

The leave was to commence from the date on which the pilot should leave the ship at sea, and Mr. A. B. supposed that consequently the cutting of a sixth from the first year and of a fourth from the second year's pay, was to commence from that date also.

The Civil Auditor, however, on the ground that the two year's sea leave thus obtained, did not commence on that date but was merely a continuation of old Hill leave, cut one fourth for the first year instead of sixth, hereby causing a loss of the difference between one-sixth and one-fourth. Mr. A. B. was informed that under all the circumstances of his case and referring to the extended period of three years' leave which was granted to him by the Government of the N.W. Provinces, the Right Hon'ble the Governor of Bengal did not feel, that he could with propriety accede to the indulgence received by allowing more favourable terms with respect to the deductions from salary than had been admitted by the Civil Auditor.

CIVIL MILITARY—HOW TO APPLY.

(10) Military officers employed on Civil Duties before applying through the Adjutant General's office for leave to proceed to Sea or on Furlough, are to apprise the Government under which they are civilly employed, of their intention of doing so—*Gazette*, 31st Oct. 1835, P. 864.

Sec. IX. Military officers employed in the civil department and drawing a civil allowance may obtain leave under medical certificate on precisely the same conditions as civil servants, except as to allowances. Such officers, in common with those holding staff situations in the military department, will draw the military pay and allowances of their rank while absent on leave under medical certificate, in the form and manner prescribed in general orders in the military department, and likewise one-half of the difference between such allowances and the civil pay of the offices to which they stand appointed.

Sec. X. Civil or military servants holding civil appointments who may desire to avail themselves of the benefit of the act I Vic. Cap. 47, and to draw their allowances (11) while absent on account of sickness under the above rules, will be required to give security in such amount and form as may be fixed by the government for the refund of any excess that may be drawn, either by the agents at the presidency or by themselves, in case of their proceeding to Europe on furlough or otherwise coming under retrenchment. (12)

Sec. XI. (Amended.) The government of each presidency may grant to civil or military servants holding civil appointments leave of absence for one month in each year without deduction from the salaries and emoluments drawn by such servants. Such leave however will only be granted when the government is satisfied that no inconvenience or expense will arise from the departure of the officer seeking it. No second leave can be granted under this rule until the completion of eleven months from the expiration of the last leave,* but servants not availing themselves of the indulgence any one year may obtain, under the like conditions, leave of absence for two successive months to commence at or after the expiration of 22 months from the termination of their former leave, and if two years elapse without enjoyment of the privilege, leave for three months may in like manner be granted at the expiration of 33 months from the termination of the last preceding leave. But no leave shall be granted under this rule for any period exceeding three months. If an officer shall not return at the expiration of the period of leave granted him under this rule, he shall, if absent on private affairs, be subjected to the deduction of one-third of his salary and allowances for the entire term of absence, and if he shall continue absent for more than one month beyond the term granted, his office shall

PASSAGE MONEY.

(11) Messrs. A B and Co. having under this Sec. asked to draw passage money on behalf of Civil Employee proceeding to the Cape of Good Hope on sick certificate, were informed that they were mistaken in supposing any passage money payable to such officers, under such circumstances.

SECURITY, &c.

(12) The form of security should be after this wise. We (or I) hereby guarantee that if we (or I) are (or am) permitted by the Government to draw the salary or allowances due to—of the civil service (or in civil employ, as the case may be) during his authorized absence on leave, we (or I) will return, or make good the whole or any part of the sum drawn in excess or otherwise ruled by government, to be liable to be refunded by us (or me).

Mr A B a Civilian of the N W P arrived at Calcutta, about to embark thence to the Cape on sick certificate—and giving as the security required by this Sec X that of a brother Civilian in the N W P requested the Government of Bengal to make his salary payable under that security to the Secretary to the Agra Bank. He was in reply referred to his own Government for the payment of his salary, at its Head Quarters.

To enable the salaries of the Civil service of the N W P being made payable in Calcutta to Agents there, it is necessary that the General Department Secretariat at Calcutta be furnished with a certificate of the last payments made and due, from the officers of account and Audit at Agra, through the applicant himself—This is important and often overlooked.

* LETTER FROM THE FINANCIAL SECRETARY TO THE SECRETARY TO THE GOVERNMENT OF BENGAL, DATED 23rd AUGUST 1844.

Sir,—I am directed by the Gov. Genl. in C1. to annex for the information of the Hon'ble the Deputy Gov. of Bengal, extract from a dispatch from the Honorable the Court of Directors No. 11, dated 3rd July 1844, and in accordance with the views of the Hon'ble Court, to authorize the Govt. of Bengal at its discretion, and provided it be attended with no inconvenience to the public service, to grant to such servants only as under the old rules, of January 1840, may have acquired a title to the indulgence by a continued residence of 22 or 23 months at their respective stations up to the date of the promulgation of the amended rules of May 1843, leave of absence free from deduction, for 2 or 3 months as the cause may be, under sec. 11 of the rules prior to their amendment.

2nd. Reckoning from the date of the publication of the amended rules of May 1843, Sec. XI. will have full force in its amended shape, and the Honorable Court particularly enjoin that the one month of absence grantable under that section, shall be invariably attended with the conditions that it shall be without injury to the public business, and without expense to the Govt. In all other respects the amended rules of May 1843 continue unchanged.

become vacant. If his protracted absence be occasioned by sickness, the case must be determined under the provisions of chapter, II. (13)

SAC. XII. (14) (Amended). The Government of each Presidency may, on sufficient cause being shewn, grant to a Civil or Military Officer holding a Civil Office special leave of absence on private affairs. Provided however that if any Officer to whom such leave shall be granted shall be absent from his station for any period exceeding that to which under the last rule he may be entitled without deduction, the absentee if a Civil servant shall for the period in excess draw no more than one-half of his salary and allowances, and if a Military Officer (15) only

DEPOSIT.

(13) Besides the security it must be remembered that in cases where parties take Native Servants beyond sea, a deposit of 500 Rs. for each person (formerly it was 1000) is required. This is done with a view to the meeting of any expence that may accrue from their becoming Vagrants &c. after being discharged by their masters while beyond sea. On the proof of the return or death of the native Servants the deposit money is returned—great confusion has sometimes arisen and difficulty as to the return of the deposit money where one servant has been engaged, and the deposit made for him, and then that one discharged and another engaged, no fresh deposit being made in his name. The Captain seeing a Certificate for one servant does not often compare the certificate with the particular individual to whom it refers. The order by which the deposit is required are these.

GENERAL DEPARTMENT, MAY 3, 1822.

Mistakes having occurred on the part of individuals applying to Government for permission for Servants to proceed on board ship with respect to the descriptions of such servants, the Governor General in Council is pleased to direct, that all persons applying to Government to authorize the reception of any Servant on board ship shall distinctly specify in their application, after careful inquiry, the country to which such servant may belong.

His Excellency in Council is also pleased to direct, that extracts from former Orders of the honorable the Court of Directors, relative to Servants proceeding on board ship, be now re-published for general information.

Extract from Public General Letter from the Hon'ble the Court of Directors, dated the 19th August 1807.

14.—We have resolved that in future, previous to any black servant, or the wife of any Non-Commissioned Officer or private, either in His Majesty's or the Company's service, being allowed to come to England in attendance upon Passengers on board any ship whatever, a deposit of £100 be made in the company's treasury at your Presidency.

Extract from Paragraph 17 of a Public General Letter from the Hon'ble the Court of Directors, dated the 11th of January, 1819.

We think it necessary here to state, that in giving these directions it was our intention that the Deposit should be made not only for the Return of Natives of India, but for that of black servants in general, and we therefore now direct, that the prescribed deposit shall be made for the return of all servants, who may be natives of any part of Asia or Africa or other Countries whatever Continents, or Islands which are situated within the limits of the company's exclusive Trade.

Extract from a Public General Letter from the Hon'ble the Court of Directors dated the 2d July 1814.

62.—We however direct, that in future, upon permission being given for any female European servant to proceed to Europe, the deposit ordered by our General letter of the 19th August, 1807, be made previous to the order for the person to be received on board being delivered, and that it be particularly expressed in the order, whether the female servant is the wife of a Non-Commissioned Officer or private in His Majesty's or Company's service; if so, to what Regiment or Corps the husband belongs, and whether it is the woman's intention to apply for leave to return to India.

Extract from a Public General Letter from the Hon'ble the Court of Directors, dated the 7th of January, 1816.

4.—We have of late received various applications from the wives of soldiers in the Company's service, who have come to England in attendance on Passengers, during the voyage, to be granted a passage back to India, at the Company's expence,—these persons have no claim whatever upon the Company and we have resolved not to accede to such applications under any circumstances. We therefore desire, that you will make our determination in this respect public, in order that females coming home in the service of individuals, may be aware, that they cannot entertain any expectation of being returned to India, at the Company's expence.

In the course of 1819, a native servant went on board a vessel to England with his master, a passenger. The master died, no deposit had been made for the servant, and he became a vagrant. The city police had to provide him in London with subsistence, and came upon the E. I. House to pay the sum. This was done, and the Court of Directors desired the Captain of the vessel who received him on board without sufficient authority, i.e. without the certificate of deposit, might be called upon to pay the expence they had incurred. He was so called on and pleaded that he was ignorant of the servant being on board till he got to sea. Further that since the new charter act no licence was necessary for him to receive native servants on board. The question was then referred home.

SPECIAL CASE.

(14) In 1831, an officer of the N. W. P. having obtained leave from his own Government for a certain time did arrive at Calcutta within it, but requested from the Calcutta Government, an extension for a short time till the sailing of the ship in which he had taken his passage. He was told that though he would thus exceed his leave from the Agra Government he might embark, but that the question of granting leave for the extended period for which he remained in Calcutta preparing to embark for Europe would be decided by his own Government.

(15) Lieut. Col. A. B. officiating resident at Gwalior claimed the adjustment of his acting allowances by the apportioning a moiety of the salary of the Resident and another moiety of his own salary as Political Agent at Meywar, in lieu of the half difference of Civil and Military allowances.

so much of the salary and allowances of any Civil Office to which he may stand appointed as added to the Military pay and allowances which he may be entitled to draw, shall equal one-half of his entire Military and Civil emoluments. After an absence of three months (exclusive of any period which may be granted under Sec. XI.) any Office held by the absentee shall become vacant.

CHAPTER III.

Rules for Leave Preparatory to Embarkation and for joining Station.

Sec. XIII. (16) is rescinded.

Note—This rule is only applicable to civil servants. Military Officers appointed to civil office will draw salary only from the date of joining as heretofore; the rule in force in respect to staff situations being applicable to them.

Sec. XIV. There shall be allowed to officers appointed to any New Office the periods of one month, two months, or three months, for joining accordingly as the distance may not exceed 300 or 600 miles, or be in excess of the last mentioned distance. Officers not joining their stations within the said period respectively shall forfeit their salary, for the time delayed in excess of the above periods and such excess shall exceed one month, the Office

shall be vacated unless otherwise specially ordered by government.

Sec. XV. Upon the first appointment of any civil servant who shall be reported qualified for the public service by the examiners appointed by the government, to any civil situation, there shall be allowed for travelling expenses to the station, an allowance at the rate of 8 annas per mile by the direct post road according to the polymetrical tables of the Post Office, the Bill for which allowance will be passed by the civil auditor after the officer shall have joined the station: if required in advance, an order of the government shall be necessary.

Sec. XVI. The salary of office will be payable from the date only of the officer joining, but in the case of junior civil servants, the salary (17) of assistant will be payable from the date of their being reported qualified for public service, unless forfeited under the preceding rules through delay in joining the station to which they may be appointed.

Note.—This rule also is only applicable to civil servants, military servants. Drawing as in the case of staff situations no civil salary from the date of leaving one office, till the date of joining the other.

Sec. XVII. In case of a change of office when an officer is appointed to a higher situation, he shall not draw the higher salary until he joins. For the period occupied in travelling the rule No. XIV. regulating the time and distance for joining station shall be applicable, and the officer will, for the periods allowed in that rule respectively, draw out of the salary of the office he is about to join, a sum equal to that of his previous situation.

After consulting the Civil Auditor at the Presidency, Lieutenant Colonel A. B. was informed that the existing rule for regulating deputation allowances of an officer in the Military service was as follows:—A military man in civil employ when officiating for another in a civil office, draws precisely the amount out from the absence and forfeits, to pay the person acting for him, self the same half difference between his military allowances and the salary of his Office. It was further explained to Lieutenant Colonel A. B. that the military pay of officers employed in civil situation to which fixed allowances were attached, was ordered by the Home Authorities to be included in those allowances, their military pay thus making a portion of such fixed civil allowances.

DRAWING OF PAY UNDER SECTION XIII.

(16) It being a source of inconvenience to public officers attached to the civil Department who on the eve of embarkation for Europe or on leave are desirous of receiving their allowances up to the latest period with a view to close their accounts before their final departure from this presidency, the Civil Auditor may exercise a discretion in passing such allowances as may be eventually issuable to the account of persons so circumstanced up to the latest period of their departure from this presidency, making the same payable from the Treasury on their producing at the Civil Auditor's office certificates of non payment at their proper station and in other respects on the Civil Auditor being satisfied that the permission of the Government has been previously obtained for leave to proceed to Europe or to sea. A deduction of a premium of one per cent. is made in complying with applications as above from officers of the civil department in the Lower Provinces.

The Rule noticed is held applicable to deceased officers whenever their administrators or executors may be desirous of receiving audit and payment of arrears of allowances due to them from the General Treasury at the presidency.

(17) Vide notes to page 103 relative to salary of assistants.

PUBLIC DEPARTMENT,

No. 20 of 1840.

OUR GOVERNOR OF THE PRESIDENCY OF FORT WILLIAM IN BENGAL.

Para.—1. We have to acquaint you that we have adopted the following regulations with respect to the grant of extensions of leave to members of the Indian civil establishments repairing to this country under the absentee regulations or on special leave of absence, viz.

That civil servants coming to England under the absentee regulations or on special leave, shall immediately on their arrival, report themselves with their address, by letter to our secretary forwarding at the same time the certificates which they received in India.

That in all cases of leave, civil servants be required to join the establishment to which they belong at the expiration of the term, for which leave may have been granted unless they shall have obtained an extension of it from us, six months before the expiration of the said leave.

That extension of leave will not in future be granted by us except in cases of sickness certified to our satisfaction, or in cases in which it shall be proved that a further residence in Europe is indispensably necessary.

That when under any such circumstances a civil servant shall have obtained an extension of leave to a given period he must at the expiration thereof apply for, and obtain our permission either to return to his duty or to reside a further time in Europe, failing in which he shall be liable to be struck off the list of civil servants.

That the act of the 33d Geo. 3d. cap. 52. Sec. 70, as it respects civil servants applies only to cases of sickness, infirmity, or inevitable accident, and that no civil servant be hereafter considered eligible to return to the service after five years absence under that enactment who has failed to obtain from us agreeably to the foregoing regulations, an extension of leave under the circumstances referred to in the act.

2. We desire that the foregoing regulations be published for general information and that each civil servant returning to this country under the absentee regulations or on special leave be furnished with a copy for his guidance.

We are, &c.

London, 2d Sept. 1840.

FURLOUGHS AFTER TEN YEARS' SERVICE.

Are granted under Paras. 21, 23, 24, 25, of the despatch of the Hon'ble Court, dated 8th December, 1824.

That, after an actual residence in India, in the civil service, of ten years or upwards, a covenanted civil servant of the company, upon either of the establishments of Bengal, Madras, or Bombay, (18) shall be entitled, whether on account of ill health, or from any other cause, and without reference to his private fortune to come once to Europe on leave for three years, and to receive for that period, from the company's cash, an allowance of £500 per annum, provided that in no case shall a greater number of servants come home under this regulation annually, than seventeen from Bengal, nine from Madras, and six from Bombay; nor shall a larger number of servants, who may have come home under this regulation, be absent in the whole at one time, than fifty-one from Bengal, twenty-seven from Madras, and eighteen from Bombay; and that the preference shall be given, first to servants producing medical certificates upon oath, that a visit to Europe is indispensably necessary for the restoration of health, and then to servants in their order of seniority, according to the rank assigned to them by the court of directors in the gradation list of the service.

23. The servants coming, in the first instance, to the Cape of Good Hope for the benefit of their health, and being compelled from the same cause to come from thence to Europe, without previously returning to India, shall be considered as entitled to the benefit of the foregoing regulations.

(18) Mr. A. B. a China Servant, having withdrawn his acceptance of the retiring pension offered to China Servants, consequent on the new charter was admitted to furlough of three years commencing on the 7th of January, 1837, (the date of his departure from China) with an Absentee Allowance of £150 per annum; but as he had previously enjoyed a furlough while on the China Establishment, it was decided that he was not again to be allowed absentee furlough allowance in any case.

24. That in all cases, as well in those of servants coming in the first instance to the Cape, as well as of those coming direct from India, the said allowances be considered as commencing from the date of leaving India and terminating at the expiration of three years from that date, or at the time of arrival in India, which ever may first happen.

25. That the same be paid half yearly in Europe, that on no account or plea whatsoever, the allowances in question be extended beyond the period of three years.

(19) RULES FOR GRANTING FURLOUGHS.—September, 1828.

First. A furlough granted to a civil servant, (20) whether under a sick certificate or otherwise, in conformity with the rules of the honorable court's despatch, dated 8th December 1824, shall be considered to have lapsed on the occurrence of any of the following events:

1st. On the death of the party in the course of 3 years from the date of his leaving the Presidency.

2nd. On the retirement from the service by acceptance of an annuity granted under the rules of the Bengal annuity fund institution.

3rd. On return to India before the expiration of three years.

4th. On the expiration of three years from the date when the ship sailed in which the party proceeded to Europe.

Second. Civil servants will be entitled to proceed to Europe on furlough on sick certificate at any time of the year, provided there shall not be at the period of their applying for the certificate, fifty-one individuals in the enjoyment of the furlough.

Third. On the 1st November and on every succeeding 1st November, the number of furloughs to be tendered to civil servants of ten year's standing and not claiming the indulgence on the ground of ill health, shall be calculated as follows:

Form of calculating available furloughs.	Complement of 51 furloughs as on the 1st November 1827.		
	First year taken.....	14, deficient	3
	Second year,.....	9, ditto	8

RULE PRECLUDING RETURN TO DUTY AFTER ABSENCE OF FIVE YEARS.

(19) No person, who shall have held any station whatever in India in the service of the East India Company being under the rank or degree of a Member in Council, and who having departed from India by leave of the Governor General in Council shall not return to India, within the space of five years next after such departure, shall be entitled to any rank or restoration of office or be capable of again serving in India in the civil line of the Company's service, unless it shall be proved to the satisfaction of the Court of Directors that such absence was occasioned by sickness or infirmity, or unless such person be permitted to return with his rank to India by a vote or resolution passed by way of ballot, by three parts in four of the proprietors assembled in a General Court especially convened for that purpose, when eight days' previous notice of the time and purpose of such meeting shall be given in the London Gazette, 33 Geo. III. Cap. 52, Sec. 78.

FURLOUGH IN INDIA.

(20) On a reference as to whether a civil servant could draw his furlough allowance in India, and take his furlough without proceeding to Europe it was ruled that a civil servant could not take furlough and remain in India so as to save his residence; because firstly the Hon'ble Court of Directors granted the furlough indulgence for reasons which would not hold if the servants remained in India; secondly because an officer by taking furlough and remaining would deprive another of the privilege; and lastly, because a civil servant remaining in India out of employ has the special subsistence allowance of his rank, and therefore cannot need the special separate allowance assigned the servants absent on Furlough. The Hon'ble Court have however, allowed their servants to take their furlough at the Cape of Good Hope, when for special reasons they have desired to remain there instead of going on to England, and doubtless this precedent will apply to all places within the limits laid down in the present leave of absence Rules.

Fourth. If the applications received by Government before the 1st November of any year, should not equal in number, the available furloughs calculated as above, the same may be taken by servants either on sick certificate or otherwise at any time of the year following, until the number shall be complete. When it may be so, further certificates on account of lapsing furloughs shall not be granted, except on the applications being accompanied by sick certificates; the lapses in the course of the year being reserved to meet the demands of the service according to the principle laid down by the Honorable Court of Directors, that is, with due preference to cases of sickness and to seniority.

Adverting (21) to the inconvenience likely to arise both to the Government and to the Members of the civil service, from the withdrawing of applications for furlough after they have been granted, the Governor General in Council has been pleased to determine, that henceforward, any civil servant who shall withdraw his application for furlough after the same has been granted shall be considered to have employed one year of the term allowed for that indulgence; unless the Government, on any case submitted to it, shall be satisfied that strong and sufficient reasons, which could not be foreseen when the application for furlough was made, have prevented its being carried into effect.

Individuals desirous of proceeding on furlough are hereby apprised that applications for furlough only are in the first instance to be addressed to the Secretary to Government in the General Department; and then an affirmative answer having been received, the usual forms with regard to relief from the charge of office, and (22) certificates from the offices of account, which are

EXCEPTION TO RULE.

(21) This rule though always *liable* to be enforced, is not always enforced. But each case is decided on its own merits. Another case which may arise with regard to the rule under review is illustrated in the following correspondence.

To the Secretary of the Governor General N. W. P. Simla: Sir, with reference to the "Rules" for regulating the grant of furlough, copy of which was transmitted to me with your letter of the 31st October last No 2862, I shall be much obliged if you will inform me as to the following point, viz. whether my application for furlough submitted last year ceases to have effect with the expiration of the present season or otherwise; and in the latter case, whether I am at liberty still to withdraw it, without incurring the forfeiting specified in the rules for non-acceptance of furlough when granted.

2d. Because in the event of my being considered an applicant for the ensuing season, but with the option of withdrawing my application without prejudice to my furlough at a future time, I beg leave to withdraw my application for furlough accordingly, but I would not wish to do so at the eventual sacrifice of one year of the usual term.

3d. My reason for soliciting the above favor at the present time is, that I have heard it said that my former application for furlough will be considered in force for the ensuing season, and that I am not at liberty to withdraw the same, but with the loss of one year to my term of furlough hereafter. Such construction of the rules I had never heard of before, and I cannot help thinking it a mistaken one; but as the subject is of some importance to me, I trust I shall be excused in soliciting to be put right in regard to it.

The answer was that "there is a penalty fixed for resigning furloughs after one has been appointed, but not for withdrawing an application before the date (1st November) when the appropriation takes place; no other servant being injured or put to inconvenience by such a withdrawal, there can be no reason to enforce any penalty."

Mr. A. B.'s name will accordingly be struck out of the list of persons whose applications are to be considered on the 1st Proximo.

OFFICERS WHO HAVE SERVED IN AGRA AND BENGAL.

(22) In cases where officers have served both in the N. W. Provinces and in Bengal Proper they must get certificates of no demands from the Accountant General, the Revenue Accountant at Calcutta, and from the Civil Auditor at Calcutta, also from the Revenue Accountant Agra, and the Civil Auditor Agra. Where there are no outstanding balances the applicant for furlough can immediately take his departure. Where there are, he must either wait for their adjustment before, or tender security for their due adjustment after his departure. In one case an officer got certificates of no demands from all the offices of Account and Audit, except that of the Civil Auditor of the N. W. Provinces in whose account there was an item in inefficient balance of a contingent bill amounting to about 20 Rupees, and which would be susceptible of adjustment on the 15th of the month, on the 5th of which the Officer was about to sail. The Government under the circumstances of the case refrained from detaining him from proceeding to Europe by adhering to the usual practice of calling for a guarantee from his agents, and gave the usual papers to allow the embarkation for furlough. In another case, on the breaking up of the Dacca Provincial Court, its accounts and records were sent by the Judge in charge of the Provincial Court under orders direct from the Sudder Dewanny and Nizamut Adawlut to that Authority. In these accounts there were unadjusted sums detected against the Judge in charge of the Court. For 5 or 6 years by a complication of difficulties, these accounts remained unadjusted. It may be as well to mention that the principle cause of difficulty in adjusting the debt against the Judge arose from the accounts of the Dacca Court having been sent to the Sudder Dewanny and Nizamut Adawlut contrary to the form of distribution required at the time of the dissolution of the Provincial Court. The Government decided that the Judge could not be blamed for the non-adjustment of the accounts and the debt against himself as he was warranted in concluding from the directed orders of the Sudder Dewanny and Nizamut Adawlut that they intended by issuing the orders they did, to relieve him from the duty of adjustment, &c.

prescribed in the case of civil servants returning to Europe, are to be observed in the department in which the party is officially employed.

The rules above referred to having been fulfilled, application is to be made to the Secretary to the Government in the General Department, for the certificate (23) (24) of permission to proceed on furlough prescribed in the first part of the 22d paragraph of the printed despatch from the honorable the court of directors, dated the 8th of December 1824, and for the usual (25) licence to be received on board the ship in which the applicant may intend to proceed, specifying the name of the ship and the time fixed for her departure from Bengal. Civil servants proceeding on certificate of ill health will also furnish themselves with the (26) certificate from the managers of the civil fund required by the despatch above quoted, and will transmit a duplicate of such certificate to the secretary to the Government in the general department.

Civil servants intending to retire from the service or to leave the country upon furlough, shall give notice thereof to the accountant of the department to which they belong, at least three months before the date on which they propose to leave the country, in order to allow that officer to ascertain and bring to adjustment, as far as possible, any items of account standing to their debit in the public books.

It further appeared after special enquiries that of the sum of 5,000 Rs. standing at the Judge's personal responsibility, 4,000 Rs. were composed of items that were mere matters of account and only required to be entered into the books of the Accountant's office to be duly adjusted. The remaining 1,000 Rs. were composed of items, which could be easily credited to Government, and for this a limited guarantee of a respectable householder to the amount was tendered to and accepted by Government, and the judge, whose case we have had under review, was allowed to embark for Europe.

(23) PART OF PARAGRAPH 32, REFERRED TO.

We desire that in every case of a civil servant upon your Establishment being permitted to come to Europe under the Regulations now communicated to you, he be furnished with a certificate from the proper officer, specifying the grant of the permission, and whether granted upon sick certificate or for private affairs, also specifying, as nearly as possible the date of embarkation for Europe.

PROCESS WITH FURLOUGH CERTIFICATE.

(24) The furlough certificate should be delivered to the Auditor of India accounts at the East India House.

On Civil servants returning also from England after having taken furlough they are required to sign a Security Bond in two sureties, and to obtain a certificate at the East India House, paying at the same time the sum £ 3 for said certificate. Should a civil servant forget or fail to do the above before he quits England, the papers are sent out by the Home authorities to the Bengal Government, and the civil servant is desired to attend before some officer at, or nearest to, the station of the Civil Servant in question to execute the bond. It is then returned to the Court of Directors, with the names and addresses of the parties in England who may be nominated the sureties to the bond.

On a Civil Servant returning to India from furlough without having drawn the full £300 per annum for three years, he is entitled on production to the Civil Auditor of the East India House Certificate of what sums have been paid on account of furlough allowance, such arrears as that document may prove to be due.

ARRIVAL FROM FURLOUGH.

A Civil Servant returning overland may report his arrival at Bombay from thence to the General Department, which department will inform the one in which he has last served of the circumstances in order that arrangements may be regulated accordingly. But he will not be considered arrived within his own presidency or gazetted in any way until he shall have reported himself from Qoree, if coming by that route, from Sumbhulpore if coming by that, and from Baitool or the first station he may reach of the Saugor and Nerbudda Territories if coming that route.

Officers formerly attached and again about to belong to the N. W. Provinces should report themselves both to the Agra and Bengal Secretaries to Government in the General Department.

LICENSE AND REPORT OF DEPARTURE REQUIRED.

(25) The same licence is required by civil employees from their own governments when about to embark from Bombay, to be received on board the ship or steamer sailing thence, in which they may intend to embark.

Where officers do not proceed from the port of Calcutta, they should report their departure from the last place within the limits of the Bengal and Agra Presidencies. Where they proceed from Calcutta, they must report from the Pilot's leaving the ship.

(26) Besides this certificate, the civil servant returning to Europe, should receive, and bear in mind, the contents of the following:—

SUBSCRIBER, BENGAL CIVIL FUND.

Sir,—Understanding that you contemplate proceeding to England soon, Rules 4, 32, 33 & 34. I have the honor to call your particular attention to the rule noted in the margin.

If it is not your intention to resign the service upon leaving this country, you will observe that you are required to continue your contributions to the Fund out of any Furlough allowance, to which you may be entitled; and that in case of your being entitled to no such allowance you must continue to contribute as if you were, if you are desirous that any family you may leave at your death shall have an interest in the civil fund.

On either of the above suppositions, it will be necessary for you to take steps to have th

MODIFIED FURLOUGH RESOLUTION* OF 1839.

The subjoined we quote at length for the information of those who may be desirous of calculating their chances of furloughs, by looking back for the lapses that may fall in 1841 and 1842, by expiries of 1839.

(27) Resolved on the 6th November, 1839, that the following rules be established for the grant of furloughs to members of the civil service in part monthly contributions due by you paid regularly in India. You can pay, in advance, the whole amount demandable from you during the three years, for which furlough allowance is receivable or any part of that amount, if you prefer such an arrangement to making provision for monthly payments through an agent.

If it is your intention to resign the service on or before sailing, and if the sum of your subscriptions to this fund, with interest, does not amount to Rs. 25,000, you will observe that it will be necessary for you now to pay to the treasurer of the fund, the amount by which the sum of your subscriptions with interest, falls short of the sum of Rs. 25,000, if you wish that any family you may leave at your death shall be entitled to benefit under the rules of the civil fund.

JUNIOR FURLOUGHS.

* The interpretation put upon the Resolution relating to the claim of servants who had been compelled by ill health to go to Europe before completing 10 years service in India, to a furlough, after they should have served that period, had been considered doubtful. It has lately been ruled by the Home Government that in the event of such parties preferring an application for leave of absence on private affairs after completing the prescribed term of service, it will be within the discretion of the local Government to comply therewith, always having reference however to the wants of the public service. But it is only in cases in which parties may be compelled by ill health after 10 years service to go to England a second time, that they are entitled to any pecuniary allowance for such second absence, and then only to the difference between £500 per annum for three years, and the amount drawn during their first absence.

LIMITATION OF PRIVATE AFFAIRS LEAVE.

(27) The Home authorities with reference to that part of this resolution which allowed of officers to go home on private affairs leave in anticipation, have ordered the strict observance of the principles laid down in the subjoined.

Extract Despatch to Fort St. George in the Public Department, dated 26th April, 1826.

3. 'In your despatch in this department dated the 6th September 1825, paras. 6 and 7 you have brought to our notice two questions raised in respect on the regulations formed by us for granting absentee allowance to Civil Servants when in Europe.

4. 'The spirit of these questions is—Whether it is competent to a Civil Servant who may have completed a residence of 10 years to proceed to England and there await his turn to the indulgence of the Honorable Court, having previously notified to Government his desire to avail himself of the liberality of the Honorable Court upon the first occasion on which it should be open to him?

5. 'The question we answer in the negative. In framing the Regulations, it was our object that whilst each Civil Servant might be enabled once in the course of his service to have the benefit of the Absentee Allowance, the number annually returning to England with that view should be limited, an object which would be defeated if Civil Servants were allowed to come home and wait their turn in England.'

Extract Despatch to Fort St. George in the public Department, dated 5th December 1827.

7. We adhere to the determination communicated to you in our despatch dated 25th April 1826, para 5, that no servant shall hereafter receive the Absentee Allowance who shall not have been admitted by the local Government to the benefit of the Regulations previously to leaving India, excepting only such Servants as may have been compelled by ill health to quit India on a voyage to some place within the limits of the company's Charter or to the Cape of Good Hope, and as may have been subsequently compelled by the same cause to come to Europe. In such cases where the Servant has resided more than ten years in India the benefit will of course be withheld whenever the

number of Absentees limited by the Regulations is complete.

dification of previous rules passed on the 6th October, 1823, and 18th September, 1828, and that the same be applied to the furloughs of the present year.

1. Civil servants desiring furlough must *Rules for grant of furloughs.* as heretofore submit their applications so as to reach the office of the secretary to government in the general department at Calcutta, on or before the 1st November of each year, when the furloughs then available to complete the number 51, will be appropriated to the senior applicants who have completed 10 years of actual residence, provided they have subscribed to the civil annuity fund and have not forfeited their claim by a previous absence as juniors so as to bring their case within the orders contained in the 22d para. of the letter of the hon'ble court of directors, dated 8th December 1824.

2. The applicants on the 1st November shall further have the benefit of the furloughs that may lapse by return or expiry to the 31st March next following, but during this period applicants under medical certificates will be entitled to preference, and such applicants may as heretofore take their furlough, if any furloughs are available, at any period of the year.

Applying the above rules to the applications now before the government, the following will be the order of admission to the benefit of furlough in the present season.

The applicants entitled to furlough on the 1st November, ranged in the order of seniority, are as follows:

1. W. A. Pringle, 2. R. H. Scott, 3. H. (28) Nisbett, 4. F. MacNaghten, 5. W. R. Young, 6. G. Udny, 7. J. A. Dorin, 8. Edward Deedes, 9. A. Reid, 10. W. H. Woodcock, 11. (29) A. Fraser, 12. H. F. James, 13. G. H. Battye, 14. W. J. H. Money, 15. E. F. Tyler, 16. W. R. Timins, 17. N. B. Edmonstone, 18. J. Muir, 19. B. J. Colvin, 20. P. C. Trench, 21. H. B. Beresford, 22. M. S. Gilmore, 23. J. Cumine, 24. W. P. Goad, and 25. W. M. Dirom.

Of these Messrs. W. A. Pringle and R. H. Scott are admitted from this date.

Mr. W. R. Young, Mr. W. J. Cumine, and Mr. P. Goad being applicants under medical certificate will be entitled to take the first furloughs that may lapse from this date.

Messrs. J. H. Crawford and C. W. Fagan whose periods of ten years' residence will be completed on the 7th of November of the present year, will also be entitled to avail themselves of any furloughs that may lapse after that date, their applications having been accompanied by medical certificates.

After furloughs shall have been allotted to the above applicants under medical certificate, and to any other similar applicants whose cases may be laid before the Governments of Bengal or of the N. W. Provinces in the interval between the 1st November, and the 31st March, the furloughs that may lapse

Extract Last Orders on Resolution of 1839.

6. With respect to the Gentlemen who have been permitted to come to this Country under a promise or with the expectation of being admitted in turn to the benefit of a Furlough Allowance we shall not under the special circumstances of their case object to their receiving that benefit during their present absence, if upon the occurrence of vacancies, they shall be admitted by you upon the application left by them on quitting India, and provided that they return to the Presidency within the period of 5 years to which absence is limited by law.

No permission is to be given to officers in future to go home and wait the chances of a prospective furlough.

(28) Mr. N. H. wrote to Government saying that he required to be reserved for him, under medical certificate the first furlough that might fall in (and that he should be at liberty to defer his departure from India until after the 19th of April 1840. He was informed in reply that the Government could not give effect to his application under medical certificate until the date when he should state it to be his desire to embark for England on furlough. But he was informed that, if, in the interval between the date of his application and the 19th of April, a furlough came to him by right of seniority, it would of course be appropriated to and reserved for him.

(29) In the course of November 1839, this civil servant begged to be informed of all applications for furlough that might be made between the 1st of November and 31st of March. On this Government determined to publish monthly, during the interval referred to a disposition list, shewing applications for and grants of furlough, under the following heads, viz:—

By turn.....	To A B on Medical Certificate.
By death.....	To C D ditto
By expiry.....	

Will lapse on return or expiry, and available accordingly.

Applicants according to seniority under Medical Certificate, and general seniority in the order of their claims on,——

until the date last mentioned, shall be allotted as they fall in, to the above applicants in the order of their rank in the above list.

For their assurance as to the time when they may reasonably expect to obtain furlough, the following list of the dates when the furloughs will respectively expire, if the incumbents do not previously return, is published for general information.

1. H. B. Brownlow, 13th Dec. 1836.	8. R. W. Maxwell, 21st Jan. 1837.
2. A. Lang,.... 25th ditto	9. W. S. Alexander, 27th ditto
3. R. Neave,..... 25th ditto	10. C. C. Jackson, 3rd Feb. 1837.
4. C. Phillips,.... 10th Jan. 1837.	11. T. O. Vibart,.... 18th ditto
5. M. Caldicott,.... 16th ditto	12. H. Fraser, senior, 28th ditto
6. H. Pridcock,..... 18th ditto	13. H. Lushington,.... 28th March
7. J. P. Gubbins,.... 18th ditto	14. R. J. Loughnan, 28th ditto

The (30) president in council, considering that under the above rules a full allotment of furloughs will be made to the members of the Bengal civil service, and that the exigencies of the public service will not admit, without inconvenience, of a larger number of servants being absent than is provided for by the rules established, deems it expedient to require that leave to proceed to Europe, on account of private affairs, shall be sparingly granted to servants not entitled to the privilege of furlough, (31) and that applications for such leave be not complied with, except under special circumstances to be explained to the satisfaction of the heads of the respective governments of Bengal and N. W. Provinces.

ASSAY MASTERS' FURLOUGH.

Whenever Assay Masters or deputy Assay Master are compelled by ill-health duly certified to come to Europe they shall be permitted to receive the furlough allowance of Surgeon and assistant Surgeon respectively.

(30) Messrs. Money, Edmonstone, Colvin and Trench, memorialized the Court of Directors praying that as the confident expectation under which they left India of being granted furloughs, in the season 1839-40 had not been realized, and as there was a great probability of some of them being again disappointed in the ensuing season, furloughs might be advanced to them in excess of the usual number for the season in which they left India, viz. 1838-39, the same to be deducted from the authorized number of furloughs in the year or years in which a furlough might fall to any of the memorialists. By this arrangement the memorialists observed that the claims of other parties would not be interfered with, their own Service would be available at a much earlier period than they otherwise could, as the proposed plan would have the effect of completing their three years of furlough towards the end of 1841, when they would return to their duty in Bengal, and not any additional charge would be thrown upon India. To meet however the possible case of the furlough allowance being advanced to an individual who, when his time came, might not be alive to claim it, the memorialists suggested that to guard against such contingency, security might be required for the repayment of the amount received.

In consideration of the peculiar circumstances in which the memorialists were placed, the Court of Directors determined as a special case, to comply with their prayer and to treat them as on furlough from the date of their quitting India. The Court offered the same boon to the other gentlemen who left India under similar circumstances, but it was made a condition with each of them that, if he availed himself of the indulgence, he should return to India at the expiration of his three years absence.

This is not to be quoted as a precedent; and the Court positively ordered that permission to gentlemen to return to Europe in anticipation of their procuring furloughs, should be never in future granted, it being their firm determination not to permit any servant hereafter to receive the absentee allowance, who should not have been admitted by the local government to the benefit of the regulations previously to leaving India, excepting only such servants, as, having proceeded on account of ill health to some place within the limits of the Company's charter or to the Cape of Good Hope, might be compelled by the same cause to go from thence to Europe.

QUERY.

(31) Suppose a Civilian who has returned from his regular furlough to Europe after 10 years' actual residence in India, is obliged to proceed on medical certificate, either to the Cape or Hills within a few months after his return; in such a case is he to proceed merely upon the subsistence allowance granted to Civilians, or is he entitled to the allowances of his appointment (should he have one) subject merely to the usual deductions? The query in fact is,—is the regular furlough to Europe to be considered the same as sick leave? for, if so, a Civilian must serve 3 years before he can go on sick certificate, although a Military man may have leave as often as necessary.

ANSWER.

A Civilian who, after having stayed ten years in India, and then three in England on furlough and then having returned to India, gets a substantive appointment, and then wishes to go to sea on sick certificate, may do so, and will draw the salary of such substantive office, less the regulated deductions for leave: if he only hold an acting appointment he will lose his acting allowance, and only have the bare subsistence of his rank; and if he hold no appointment, substantive or acting he will also only have bare subsistence of his rank.

for the prescribed period of 3 years, when it is to cease whether they may be allowed to resume office in India or not, a point which the court reserve for their own sole decision.

FURLOUGHS PREVIOUS TO THE COMPLETION OF TEN YEARS SERVICE.

Are granted under the authority of Para. 22—of the court's despatch, of 8th December 1834, viz. in cases of civil servants compelled by illness, certified upon oath, to come to Europe previous to their completion of an actual residence in the civil service of ten years, such covenanted servants shall each be presented with the sum of 2,000 sicca rupees as passage money, and shall be entitled, for a period not exceeding three years, to an allowance, from the company's cash, of £250 per annum, but servants having received this indulgence shall not in the event of their again coming to Europe after having completed a residence of ten years or upwards, be entitled to any allowance under the first Regulation, except their return be again occasioned by illness, to be in like manner certified upon oath, and then only to the difference between what they have before drawn in the shape of passage money, and that of £500 per annum for three years (32).

CHAPTER IV.

RULES FOR DEPUTATION (33) ALLOWANCES.

SEC. XVIII. The sum of company's rupees 52,200 per annum, having been fixed under the Orders of the Court of Directors as the Maximum salary of Civil Office for the offices of Government under the situation of Member of Council, Civil and Military servants holding Office in the Political Department, who may draw larger allowances than this annual sum as a consolidated personal and

sumptuary allowance in consideration of the necessary expences of their position, will in all cases of absence be treated in respect to deductions as drawing only the allowance thus limited, and the excess above the monthly salary yielded by that annual sum, shall remain as a local addition to the usual deputation allowance to be drawn by the Officer performing the duties to meet the necessary expenses of this position.

NOTE.—*This rule will equally apply in case of a political Resident taking a leave of three months for which in other cases he would suffer no deduction. The excess above the maximum monthly salary will in that case be enjoyed by the person in charge.*

SEC. XIX. Deputation allowances shall be granted to civil servants temporarily performing the duties of an Office according to the following scales, and subject to the limitations and conditions hereinafter laid down.

(32) In cases of extreme mental imbecility a friend may submit the application in behalf of the invalid, may be permitted to receive the usual passage Money, and sign the Salary bills. Where there are any outstanding balances against the officer about thus to go on furlough, the security of his Agent or any respectable house holder is usually accepted for the future adjustment of the claim of Government, and in one case where it was of vital importance that the invalid should embark in the first ship, and where there was not time to ask for and obtain an acquittance from the offices of Account and Audit in the N. W. Provinces where the invalid had once served as a Junior, but had not been in responsible charge of a treasury, an application was made to Government to dispense with the North Western Provinces certificate. In consideration of the circumstances of the case, especially as there was every ground for supposing that there were not any items standing against the invalid of so large an amount as would not be covered by the Furlough Allowance which it would be always in the power of the Court of Directors to take for the Government demands, this was granted.

Mr. A. B. in March 1836 went to England before the completion of ten years, on Medical certificate. Having stayed three years in England, he wished to proceed to the Cape for two years this was allowed by the Home authorities—with the proviso that he was to draw nothing from the Company's treasuries for the said two years, and that if he did not return to India within that period—i. e. the completion of 5 years from the date of his having quitted it, he should lose the service.

(33) Mr. A. B. 1st Assistant to the Accountant General whilst acting for the Presidency pay Master, claimed the moiety of the Staff salary of that officer. This was refused; but he was allowed deputation allowance according to the Civil service Rules. In all such cases the deputation allowance is to be charged to the Military Department.

NOTE.—Military persons acting for other military persons holding civil Office will, as in the case of staff, draw half the difference between the incumbent military allowances, and the consolidated civil salary as at present, that is will draw the amount retrenched from the absentee, but when acting for a civil servant they will draw at the rates of this table under the same rule as civil servants.

A civil servant acting (34) for another will have no claim to commission for Fees where any such sources of emoluments exist. These will be regarded as forming part of the income of the officer to be relieved by the occupant subject to the prescribed deductions. The Grant of special allowances—of allowances to commissioners, and other officers for travelling expences, and to Officers of Districts or assistants or when employed on settlement or special Police Duties will be regulated by a supplemental set of Rules (35.)

Sec. XX. No civil servant temporarily officiating for another shall draw an amount larger than the entire emoluments of the Office in which he is officiating, and if the amount of the Deputation allowance according to the prescribed scale added to the permanent emoluments of the officiating servants, would exceed the emoluments of the office in which he is temporarily acting, the excess shall

APPLICATIONS FOR OFFICE.

(34) All applications for appointments substantive or acting should be made to the head of the Government through the Governor General's private Staff, and not through an Official Department, the cognizance of such subjects in the first instance appertaining to the private patronage of the authority indicated. In cases of emergency a superior Board of Commissioner or other superior may appoint a person to the temporary charge of an office without such application pending a knowledge of the pleasure of the Head of the Government.

SPECIAL CASES.

(35) Doubt having arisen as to the rate of deputation allowance to be granted to officers nominated to act in temporary charge of the current duties of the office of Civil and Session Judge the Hon'ble the Vice President in Council is pleased to declare that officers nominated so to act are entitled only to a moiety of the Established deputation allowance granted to persons officiating in charge of the entire duties of the office.

not be drawn. But this provision shall not apply to the case of any officer deputed for special reasons to act in an office of inferior emolument to his own. In cases where an officer holding two appointments on being deputed to officiate for another shall be relieved only from one, he shall receive no deputation allowance unless the emoluments of the office in which he is deputed to act exceed the united emoluments of his permanent appointment, and in that case the deputation allowance shall be limited to the difference.

Sec. XXI. No (36) subordinate officer acting for his principal or for any other person holding a superior appointment in the same office of Establishment at the same station, shall be entitled to any deputation allowance until after the expiration of 3 months, and then the allowance is not to be drawn in arrear. But a servant previously (37) out of employment, or who may be deputed to act from a different station, shall be entitled to deputation allowance from the date at which he may enter upon the discharge of the duties to which he has been temporarily appointed.

Sec. XXII. A civil servant out of employment, if deputed to act at a distance, and civil servants having permanent employment, who may be so deputed and who may be restricted by any provision in these rules to the allowance of their own office, shall be permitted to draw travelling allowance at the rate sanctioned in the case of a first appointment. When the entire sum received as deputation allowance may fall short of that which, according to the distance would be allowed for travelling expenses the difference may be drawn. In all cases of absence under medical certificate, and in cases of absence on private affairs, when the absent officer shall not be subject to deduction, such payments shall be made at the charge of the government.

SUBSISTENCE ALLOWANCE.

Subsistence allowance to civil servants is granted with reference to the respective periods of their standing in the service; such as, 'senior merchant,' 'junior merchant,' 'factor or writer,' reckoned by the 12th, 9th, 6th, and 3d years from the first dating of their actual residence. That allowance is granted to civil servants 'out of employ' or not holding a permanent office so long as they may not be suspended or dismissed from the service. It has only apparently been maintained by a bye-law of the hon'ble company, but its rights appear to be held on nearly the same principle as the principal pay proper of military rank.

The rates of subsistence are as follow :

To a senior Merchant.....	£ 400 per Annum=	Ra. 240 3 7	per men.
Junior Ditto.....	£ 300 Ditto =	„ 255 2 9	Ditto.
Factor or Writer.....	£ 200 Ditto =	„ 170 1 9	Ditto.

These Allowances have usually been denominated as the 'reduced subsistence to civil servants out of employ,' that term ('reduced') apparently bearing allusion to certain compensation, the company alluded at the earlier period of their commerce, as may be gleaned from the old records about the year 1786-91. They were then regulated at the same rate of exchange, as was assigned for the salary of the governor general, which exchange had reference to the specific value in silver of

(36) An Assistant Secretary to Government in the Military Department was acting as Deputy whilst the Deputy was acting as principal in Calcutta during the absence of the Secretary at Simlah. And during the absence subsequently of the Deputy at Simlah the assistant acted as Secretary and Deputy at Calcutta and claimed two distinct deputation allowances. This was disallowed by the Civil Auditor, and it was ruled that the deputation allowance granted to an assistant in the Office of a Secretary for doing the duty of Deputy be considered to merge in the larger allowance allotted by Government to the same assistant when placed in charge of the Office of Secretary.

(37) A Civil Servant of the N. W. Provinces, having returned from furlough on his arrival at Calcutta stated to the Government of Bengal in the General Department that he had applied to his own Government for employment there and desired to officiate temporarily in any of the Civil or Criminal Courts at the Presidency pending the receipt of instructions from Agra. He was informed in reply that the rule of practice in the service was that Civil Servants attached to the N. W. P. at the time of their departure for furlough should be re-attached to that same division of the Bengal Presidency immediately on their return from the same; unless for special and satisfactory reasons the Civil Servant desired a change, and the Head of the respective Government saw no objection. It was added that the applicant was at liberty directly to proceed to Allahabad; there to await the further orders of the local Government; and further that all applications for acting or other appointments should be addressed to the private Secretaries of the Heads of Governments—and that the one Government under such circumstances as those under review would not take the services of an officer belonging to the other Government without previous consultation and arrangement.

the current rupee expressed in English money—Hence one current rupee was valued at one shilling, nine pence and parts of a farthing, and the sterling amount of all legalized income was converted at the same rate into the current and sica rupees. Since the new coinage an addition of 1 rupee 8 annas per cent. is made on sica value for the company's rupee.

Subsistence allowance is chargeable only so long as the officer may remain within India limits by express or implied permission of the governor of his own presidency, and without any official employment. It ceases whenever those limits are passed; nor is it regained or resumed until return to India in the actual service of the B. I. company.

TRAVELLING ALLOWANCES*

By an order of government, general department, dated 2nd October 1828, travelling allowance was restricted to cases of joining a first appointment and the same rule was extended to chaplains, medical and other officers. That rule has exceptions however in special cases under authority from an order of government.

Junior officers having once drawn the allowance for a near station on the first trip, have been considered entitled to a further allowance on removal, when not at their own wish, but by express order of government, thence to a remoter station. But if Mr. A. B. draws travelling allowance for Midnapore and not liking that station after reaching it *requests* to be sent on to Cuttack, he will not receive any travelling allowance for the distance between Midnapore and Cuttack.

By a resolution dated 1st June 1830, the civil Auditor was directed to fix the rates of travelling allowance with reference to the rates in use at the post office. They were signified at 8 annas per mile with exception to the Delhi and Oude districts where the charge was 12 annas, and in the Junpore division one rupee.

These rates generally governed the grant of travelling allowance, and were calculated by a table of distances printed by the post master general which also gave the additional charges made for certain routes direct from Calcutta, the cross distances also were ascertained by special application to the same authority. Since the publication of captain Taylor's Tables, however the distances exhibited therein, have been adopted.

The time for travelling from one to another station had also been regulated by allowing one day for every ten miles of such distances, and a week (or 7 days) over and above such computed time. A delay beyond which involved forfeiture of salary.

By the more recent rules of 29th January last, other periods are assigned of one, two and three months for 300, 600, &c. miles on exceeding which the loss of salary and by a month more that of office takes place.

By these rules 8 annas per mile by Taylor's polymetrical distances is the general allowance made when due under their specific provisions. This advantage has been extended to civil servants out of employ, when deputed to act at a distance, and they are allowed a charge at the same rate as that sanctioned in the case of a first appointment. The charge however is now to be made after the performance of the journey.

Covenanted officers and others employed in the interior of their own districts on settlement and police duties draw a travelling allowance at the rate of Rs. 5 per diem upon the countersign of commissioners of divisions and the superintendent of the police, provided their other allowance do not exceed 23,000 Rs. per annum, *Rule V.*

Commissioners and officiating commissioners of Division and superintendent of Police—draw a specific allowance of 250 Rs. on the same account for the circuit of their own jurisdictions whilst they hold respective charge.

The superintendent of police draws 500 Rs. per month travelling allowance:

(39)

* Private Secretaries to the Governments of Madras, Bombay, and Agra, are not in future to be allowed any travelling allowance.

SPECIAL CASES.

(38) Sir W. Morris, Recorder of Prince of Wales' Island, proceeded to the place of his destination not from any part of the United Kingdom but from the Island of Ceylon. Though it was ruled that he could not claim any thing as a right under the Act 53d Geo. III. Cap. 155, Sec. 89, still in consideration of the unavoidable expense attending his removal, he was allowed the sum of 3,000 Rs. for passage money.

NOTE.—‘Whenever the Salary and other allowances of an officer amount in the aggregate to less than the rate of Rupees 23,000 a year, he shall receive Rupees 5 a day as travelling allowance, whilst actually employed on duty intents at a distance from his sudder station, or so much within that allowance as shall make his total receipts amount to that rate.’

The Right Honorable the Governor of Bengal has been pleased to direct that the annexed rule, which was published in the Calcutta Gazette of the 25th April last, shall be held applicable also to Military Officers employed in civil duties in the non-regulation provinces or elsewhere.

SALARIES.

The following extract from a resolution by the hon'ble the president in council under date 20th March, 1839, communicated to the Bengal government is published for general information.

Extract from the proceedings of the hon'ble the president of the council of India in council in the financial department, dated the 20th March 1839.

RESOLUTION.—‘Resolved, that the 16th November 1836, the date when the hon'ble court's despatch dated 4th May 1836, was laid before the council of India for orders be the date which is to regulate the claim of incumbents to retain the allowances held by them on that date.

2nd. Resolved, that the date of the receipt of the present despatch in its application to be officers of the Bengal division of the presidency be the date when the letter from the Secretary to the right hon'ble the governor general forwarding the despatch from his lordship's camp was laid before the council, viz. 20th February, 1839.

3rd. With reference to the above dates Mr. C. Tucker, extra temporary Judge of the sudder dewanny and nizamat adawlut, under date 16th December 1836 (made permanent 9th September 1838,) and whose salary since the former date has been fixed at 45,000, must, from the 20th ultimo, be reduced to 42,000.

4th. In like manner the salary of Mr. Hawkins, register, which on the 16th January 1838 was fixed at 32,000 must, from the same date, be reduced to 30,000.

5th. Of the civil and sessions Judges, the officers drawing salaries in excess of 30,000 rupees, who will fall under the orders for reduction contained in this despatch, are—Messrs. R. P. Nisbet, A. Dick, J. Templer, W. Dent, & H. Oldfield, all of whom draw 32,000 upon augmentations made since the 16th November 1836. The other Officers named in the list as drawing more than 30,000 are old incumbents, viz. Messrs. Cracroft, Lee Warner, and J. D'Oyly; and those who have received the higher rate of 36,000 before the 16th November 1836, viz. Messrs. B. Barlow and H. Moore.

6th. Of the civil and session judges (in Number 23) the following draw allowances less than 30,000: Messrs. Smelt, Russell, Biscoe, Gouldsbury, Gough, Cathcart, Golding, Deedes and Dunbar. The salary of all these officers being 28,000, they are each respectively entitled to an increase of 2,000 per annum, provided that a deduction equivalent to furnish such an addition be immediately available, and if the deduction afford only a partial increase, the amount is to be ‘equitably apportioned among officers of

* *Court's Order's para. 53.* the same class.’ The present amount available from civil and session judges is 10,000, but his honor in council regards the immediate saving made in the allowances of officers of the sudder court, as likewise available for the augmentation of civil and session judges' salaries. Thus the amount in hand applicable for augmentation from the 20th February last is 15,000.

7th. Since that date Mr. Cracroft's resignation has been received; the Gentleman's salary was 41,800, being that of a 2d judge of circuit under the old system, considering of this amount the excess above 36,000 as personal, his honor in council deems 6,000 to be available for augmentation of the inferior grade of salaries of civil session judge. Thus the total amount at present available is 24,000, but in addition to the nine gentlemen named as filling the office of civil and session judge, a tenth, Mr. Ravenshaw, draws the same allowances

of 28,000 as an additional civil and Thuggee session judge, and the criminal duties to be performed in the trial of these offenders, are at last of equal responsibility and grade with those of ordinary sessions; his honor in council is therefore disposed to admit the claim of this gentleman to be placed on the same footing in point of salary.

8th. Thus there are ten officers entitled to receive in the whole 20,000 rupees from the 20th February, but from that date till the departure of Mr. Cracroft, the amount available being only 15,000, they will each respectively receive only three-fourths of the augmentation allotted to them until the date, when Mr. Cracroft's salary fell in, and from that date the entire increase.—The additional judges performing only civil duties, will continue to draw, as before ordered, only 26,000.

9th. In the statement laid before the president in council the next officers named are separate magistrates. Of these the chief magistrate of Calcutta, and magistrate of 24-pergunnahs are special officers, the allowances of which have been sanctioned by the hon'ble court. The remainder, twelve in number, have been appointed under an arrangement not before the court at the time of issuing their orders. The appointments having been substituted for those of joint magistrate and deputy collector.

10th. The despatch of the hon'ble court contains no orders specifically referring to these officers, but his honor in council is of opinion that the principle of the orders will apply, and therefore that the office of magistrate must be established with an equal salary, the duties performed and the powers exercised being all of the same description.

11th. Of the twelve magistrates appointed in Bengal three are drawing 18,000 Rs. per annum and the remainder 12,000. The right honorable the governor general has proposed to fix the equal salary of 15,000 per annum for this class of officers, in which case Messrs. Onslow, Gilmore, and Elliott would lose 3,000 per annum, and the remaining nine would obtain a corresponding increase. This would involve a net charge of 18,000 per annum, to meet which there is no deduction available from the salaries of officers of the same class, and as these officers were not embraced in the previous orders of the honorable court, and there has been no special salary assigned to this class of officers which was intentionally distributed unequally upon the principle of keeping the total the same, it cannot be assumed that there are vacancies of the higher grade.

12th. The President in Council concurring in the expediency of fixing the salaries of the magistrates on the uniform scale proposed, to wit, 15,000 per annum, feels that he would not be warranted in providing the means by so large a net charge upon the resources of the country; since therefore the despatch in question contains no specific orders in regard to this class, resolved, that the case of the magistrates be submitted to the honorable court with a recommendation that they be uniformly on the footing of 15,000 per annum.

REVENUE.

13th. In the Sudder Board of Revenue the salary of Mr. R. D. Mangles temporary member, will require to be reduced from 45,000, to 42,000, but as this gentleman has taken his departure in the 'Repulse' the case is only noted, for the saving which becomes available in consequence for other augmentations.

14th. Of the commissioners, Mr. Dampier only draws more than the amount fixed by the hon'ble court his salary was fixed at 39,000, viz. 36,000, + 3,000 for travelling charges on the 26th January 1836. The orders for reduction do not therefore apply to this case.

15th. The remaining six commissioners of revenue draw uniformly, 38,000 i. e. 35,000 + 3,000 travelling charge, which is the rate now finally established by the present despatch of the hon'ble court.

* These officers draw the old salary of 18,810 besides commission, which more than make up the deficiency. Mr. Barwell draws the special salary heretofore drawn by him as collector of Dacca, with the addition of a salt charge. The aggregate allowances of all these gentlemen is of course in excess of the present highest scale of salary, viz. 25,000.

There are thirteen gentlemen filling the office of collector only, of these, three A.C. Barwell, J. Wilkinson and Wm. H. Belli, are old incumbents, not affected by the present orders.* Of the remainder of the officers of this class two (hon'ble J. C. Erskine, and H. Dick) draw 25,000 under appointments made subsequent to 16th November, 1836 each of these gentlemen will, therefore, under the present orders, lose 2,000 per annum, (1,000) to reduce their salaries to the scale of 23,000 fixed

by the hon'ble court for this class. There are eight officers :—

A. Ogilvie,	R. Forbes,
N. Smith,	F. Skipwith,
E. Sterling,	W. Dirom,
J. Laurell,	H. C. Hamilton,

drawing only 21,000 per annum, and to each of whom therefore an increase of 2,000 per annum would have to be awarded were these funds available under the order to apportion the amount available from the same class which is in this case 4,000 per annum; each of the above eight gentlemen would receive from the 20th ultimo 500 per annum, and if the gain from reduction of Mr. Mangles be thrown into the account they will each receive in addition one-eighth of 3,000 per annum from the 14th March, the date of Mr. Mangles' departure, to wit, 375 per annum.

16th. According to the letter of the hon'ble court's despatch, there is no other fund at present available for addition to the allowances of the collectors drawing only 21,000, but as each of the three old incumbents, must be considered as collector of the 1st class, there will be a further 2,000 Rs. to be distributed upon each vacancy, and when the whole of these offices have lapsed the total salary of each of the collectors now drawing 21,000 will be $5,000 \div 75 + 750 = 1,625 + 21,000 = 22,625$. Messrs. Erskine and Dick will, however, draw 23,000, there would still therefore be a grade amongst these officers—for their successors will still draw 23,000, i. e. superior allowances to their collectors.

17th. There is however an important point still to be noticed, which is this that in the resolution of the 21st May 1837, upon the previous despatch of the hon'ble court, it was laid down as a rule that the total government payment to the class being taken at the amount fixed by the hon'ble court the distribution, instead of being equal should be by grades; one-half drawing an amount in excess of the average, and the other half in the same proportion less. But if this principle had been followed out as intended, the amount available for increase of the under-paid officers would, of course, have exactly equalled the demand, and it appears that the only reason why this is not the case, is that promotion to the higher grade has for sometime been suspended, and on that account there is, reckoning three incumbents of the former system as upper grade officers, a vacancy, of one of this grade to complete the number six, or one and half, if the exact half of 13 be taken, assuming 3,000 rupees per annum to be available for the augmentations; on this account a sum of 375 will be added immediately to the allowances of the underpaid collectors, which is the complement of the exact sum of 28,000 for each. The effect of the court's present orders will therefore be that instead of drawing 13,000 immediately 375 per annum of that amount will be payable from the date of Mr. Mangles' departure, and 750 in three parts, as Messrs. Barwell, Belli and Wilkinson vacate.

JUDICIAL.—REVENUE.

23d. The next officers on the list are magistrate collectors—to these the hon'ble court has allotted the uniform salary of 26,000 per annum, with exception to the three employed in Cuttack, who being also salt agents, we allowed to draw 28,000. There are 14 officers of this class, of whom one only, Mr. Haikes, draws 28,000 upon the ground of having small charge of customs—all the remainder, the Cuttack officers excepted, who draw also 28,000 as allowed

by the court in consideration of the districts being unsettled, and of there being a salt charge annexed to each, receive 24,000 per annum. There are thus ten officers to be increased 2,000 rupees each, and as the salary authorized by the court for Chittagong in the previous despatch was 28,000, the government having urged its being raised to 30,000 on special grounds personal to Mr. Harvey, which the present despatch recognizes, there are none who will suffer corresponding deductions. According to the strict principle of the hon'ble court's despatch, there is no fund from which to provide for these officers the increases allotted to them, and as expediency of dividing the magistrate's office from that of collector's appears now to be very generally admitted in Bengal, it may not be considered of so much importance to seek prospectively for the means of raising the salaries of the magistrate-collectors in the manner proposed by the court.

24th. It is observed however, that the cause of there being no collector-magistrates on the higher salary of 28,000 is the same, as remarked in the case of the collectors only, viz. the suspension of promotions to the higher rate. The entire half therefore of the number of these officers may, on the same principle, be deemed entitled to the augmentation, though they have not received it, in which case the fund, though in abeyance, exists for raising the whole to 26,000 from the 20th February last.

25th. In the business of administration there are evidently three distinct duties to be performed. The collection of revenue, the administration of civil justice, and the preservation of the police and peace of the country.

26th. The natural provisions for the performance of these duties is through separate officers for each, and if heretofore the police and peace have been united first with the administration of civil justice, and subsequently with the collection of revenue, the doubling-up of distinct duties has been a necessary imperfection arising from the desire to diminish the number of public officers as well for the sake of economy as from the want of servants in sufficient number to provide separate officers for all three duties.

27th. The latter want is not at present felt because of the extraordinary supply of civil servants furnished by the hon'ble court in the year 1826, 1827, and 1828.

28th. Of the fifty servants nominated in each of these years, forty have now passed their tenth year, which is a period of service at which full competence for the most responsible duties is of necessity reached. If in this condition of the service which enables the government and seems to require of it to provide separate officers for each of the three classes of ministerial duties, which have of necessity to be performed in every district.

29th. The only class of officers remaining to be noticed is that of independent joint magistrates and collectors, who have always been appointed at out-stations. Of these there are at present nine, of whom five receive 18,000 per annum, and four 12,000. If in order to follow out the principle laid down by the hon'ble court it be deemed necessary to equalize these allowances, and consequently it should be determined to place them all on the scale of 15,000, there will be an excess of 3000 beyond the amount required to raise the smaller salaries which may be added to the allowances of the magistrate-collectors, making a further addition to them of 300 rupees each per annum; but his honor in council is inclined to respect the rights of incumbents of the class, under review, and would not therefore order a present reduction, more specially as they are not included amongst the classes revised by the hon'ble court, so that the salary assigned is not in contravention of any orders of the hon'ble court. Moreover in several instances the separate joint office at the out-station had existed at the same salary for a long time, and though of necessity known to the hon'ble court, they have not been ordered to be reduced—his honor in council therefore, instead of equalizing the allowances of these out-station officers, prefers establishing 18,000 rupees as the ordinary salary of them, and seeking to reduce their number by a new distribution of zillahs so as to abolish the lower grade on 1,000 per mensem.

30th. There is an inferior class of officers not entered in the list called joint magistrate and deputy collectors of the 2d grade on the salary of head assistant under the old system, viz. 8,400 per annum.

31st. These officers were until lately divided into two classes, the higher of which received 1,000 per mensem. These have now however been entirely absorbed. The abolition of the gradation system will therefore have no application to the remaining single grade of these officers, which, as an useful aid in troublesome districts may require to be maintained.

32d. It only remains to notice the individual cases:—these are the case of Mr W. Young, secretary to the board of customs, salt and opium, to whom the hon'ble court confirm his previous allowances of 30,000, but direct the salary of the secretary to board of customs, salt and opium, to be reduced to 28,000 on a vacancy. This reduction will of course take effect.

33d. The cases of Messrs. Harvey and Mills require no orders, as both these officers are now commissioners. The case of the salt agent of Hidgellee and Tumlook is again referred to by the hon'ble court. The salaries of these officers were, in the previous despatch, ordered to be reduced from 50,000 to 42,000. Mr. Barlow, the salt agent of Hidgellee, as an incumbent, is entitled to continue upon his present allowances of 50,000, but Mr. Martin appointed in August 1835 upon a salary of 30,000.

34th. It is not clear to the president in council whether this latter salary shall be raised.

35th. Having thus disposed of these questions arising out of this despatch so far as they apply to Bengal, —ordered that copy of the above resolution be sent to the right hon'ble the governor general for his lordship's information.

CONSTRUCTION OF ACT REGARDING LIMIT SALARIES.

Extract from a public general letter from the Hon'ble the Court of Directors, dated the 12th June 1816.

Para. 20. We perceive by the abstract of the act of the 53rd of his present majesty, chapter 155, annexed to your list of civil servants, dated 31st May 1814, that accordingly to your construction of that act, a civil servant may now upon his arrival in India receive £6,500 a year, but this is most assuredly a mistake, the act above mentioned has shortened the period two years which was required previously to the passing of that act for a ~~servant to have~~ resided in India to enable him to receive more than 1,500, 3,000 or 4,000 pounds a year; but it has not shortened the period which it was required previously thereto for a servant to have resided as above mentioned to enable him to receive more than £500 a year, consequently that remains the same as it was before the act of the 53d was passed, namely, three years allowing with respect to the servant's education at Hertfort college, the time not exceeding two years passed in that institution after they were seventeen, to be considered as time passed in India, and this will be your guide in future.

NO ONE OFFICE SALARY TO BE PAID TO TWO OFFICERS AT THE SAME TIME.

The court of directors have laid it down as a positive rule that they 'can on no account consent to the salary of an office being issued to two persons for the same period of time.'

ORDER FOR PAYMENT OF SALARIES.

No salaries can be paid by the sub treasurer, at the presidency till after the publication in the official gazette of authority for their being paid on a specified date.

NO SALARIES TO BE DRAWN IN ANTICIPATION OF AUDIT.

No civil servants or civil employes (except under very peculiar circumstances such for instance as those in which an envoy and his suite in Central Asia are placed,) can be excused for drawing their salaries or those of others in their abstract, in anticipation of the audit.

RETRENCHMENT ON AUDITED BILLS.

On a question of whether the Government in the case of its having a claim against the drawer of an audited salary bill would recognize the bona-fide transfer by endorsement to a third party—it was noticed that it was the practice of the Government to order retrenchments to be made through the civil auditor prospectively upon the bills that might be subsequently for audit, and that government could scarcely imagine the case in which it would interfere between the audit and payment of a bill passed to an officer to whom the sum passed was absolutely due at the time of audit.

SALARIES UNDER 10 YEARS' SERVICE.

Mr. A. B., collector and magistrate at Rajeshaye, applied for full salary of his appointment for the period when in consequence of his standing being less than 10 years, he received a lower allowance than that of the office. This application was not complied with.

SALARIES OF MEMBERS OF COUNCIL NOT LIABLE TO DEDUCTION.

On an application from Bombay as to the allowances of Mr. A. B. second member of council at the Presidency while absent at the Neelgherry Hills, the reference was answered by an intimation that the rules for deductions in cases of absence could not apply to salaries fixed by Act of Parliament; but that the forfeiture of salary during absence, unless the officer should rejoin, would apply to members of Government.

SALARIES OF SPECIAL RESUMPTION OFFICERS.

The rule for the promotion of special Deputy-Collectors, as laid down by the Supreme Government is this,—‘that no resumption officer shall be raised to a higher grade of salary, in consequence of the promotion of a junior in another line of the service, unless the Deputy Governor of Bengal determines that his merits are such, that he would have been promoted instead of that junior, but for his employment in the resumption line.’

POWERS TO RECEIVE SALARY.

Messrs. A. B. and Co. applied to Government to receive under full power from Mr. E. F. a civil servant, certain arrears of salary due to him. The Government sanctioned the Sub-Treasurer paying the arrears in question to Messrs. A. B. and Co. on duly audited salary bill. The application to Government was necessary, for without its sanction in such case the Offices of Pay and Audit cannot pay or audit such bills. *This is a circumstance not sufficiently adverted to by agents generally.*

TANJORE COMMISSIONERS.

On the Tanjore commission being placed in abeyance by orders of July 1838, the salaries of the Commissioners were placed upon the same footing as those of Commercial Officers, whose situation were abolished consequently upon the withdrawal of the Company from their E. I. Trade; this gave them three fourths of their previous full salaries, whilst out of employ, and the remaining $\frac{1}{4}$ upon their nomination to any other office of inferior salary.

KARNATIC COMMISSIONER.

Mr. A. B. holding the above appointment submitted in expectation of being able finally to close the commission on the 1st of September 1839, instead of the 30th of April 1840, the latter being the date that had been fixed for its extinction by orders of August 1st, 1838, his title to the full allowance of 3,000 Rs. per month for 20 months, to which the appointment had been raised,—and asked that even if he should leave India before April 30th, 1840, an equivalent should be paid over to him; and laid stress also upon the fact of his not having taken the annual month's leave or his Furlough, as giving him a claim to draw additional salary. It was ruled that all such claim and pleas were inadmissible, that the month's leave was an indulgence, not a right; and that the zealous servant who worked assiduously and brought his duties to a close, sooner than anticipated, had his reward in a reputation for zeal and superior ability, but could not be allowed the salary of the additional time, that a less diligent person would have taken to do the same work. Further the continuance of salary for a period after a servant had left India for Europe is prohibited by act of Parliament.

SPECIAL COMMISSIONS ON CIVIL SERVANTS.

In some cases receive a Deputation allowance of 6,500 Rs. a month. In some a substantive salary, and in some instances no deputation allowance at all—a Government prosecutor has in one or two instances received a deputation allowance of 300 Rs.

LAW COMMISSIONERS.

The Law commissioners having claimed under 3 and 4, Wm. IV. Chap. 80, Sec. 65, a salary of 66,000 Rs. per annum instead of 50,000 as at present fixed, were informed that the sum of 50,000 Rs. having been settled, by rule passed several years before the appointment of the Law Commissions, as the highest for any person not a Member of Council, they must be regarded as coming within its operation.

GENERAL RULE FOR THE PAYMENT OF THE ALLOWANCES OF CIVIL SERVANTS WHEN EMPLOYED TEMPORARILY IN OTHER STATIONS OF THE SAME PRESIDENCY, OR DEPUTED TO ANOTHER PRESIDENCY.

Whenever a servant attached to one presidency shall have obtained temporary employment under another presidency, and shall desire to draw the allowances of his substantive office at the place or in the presidency to which he has been deputed, he shall apply to the Government of his presidency for an order to the Civil Auditor to grant him a certificate of the amount salary less deductions, to which he is entitled, and the Civil Auditor or of the Presidency in which he is doing duty shall on the strength of that certificate pass to him a monthly sum on account, as the Civil pay of the other presidency; the amount so passed to be made payable at the treasury of the place where the officer is employed under upon duplicate or triplicate receipts, and to be adjusted in account by the Accountant or Accountant General of the presidency, as a remittance to the debt of the presidency on account of which it is paid. With respect to divisions of the same presidency, as the Collectors of one divisions are in the habit of granting bills on those of the other, which are adjusted through the two offices of account, the Governor General in Council, adopting the suggestion of the Accountant General, determines that when an officer of the N. W. Provinces may be deputed to officiate within those of the Government of Bengal, or vice versa, the salary bill of his substantive office being transmitted for Audit to the Auditor of the proper division, shall by him be forwarded to the Collector of the district where it is ordinarily payable, and that officer shall, if it be duly receipted, issue and transmit to the officer a bill for the amount as per audit, payable to the individual at the Treasury of the place where he may be employed on duty. Such bills to be granted at par without any charge of *hoondeen*.

This complex process is sometimes superseded by taking the certificate of the officer himself (upon honor) and by passing a bill with the charge of one per cent, if coming within the other rates, and that of 9th June 1834.

The last named runs thus: 'The Hon'ble the Vice President in Council is pleased to direct that Collectors or other officers in charge of public Treasuries shall, on the application of covenanted Civil Officers of Government on leave of absence within the limits of the Presidency authorized to draw their pay from any such public treasuries, grant remittance bill for the amount of the allowances of such absent officers upon the Revenue Treasuries nearest the place of which they may reside on leave, the bill so granted being however restricted to the net amount of pay due, i. e. minus the several deduction which may be made by the Civil Auditor in favor of Government or on account of funds, &c. which are to be credited in the accounts in which the allowances may be chargeable to Government, viz. those of the divisions or *Zillahs* to which the Officers on leave stand appointed.'

The bills granted under this rule to Officers who may be on leave on account of private affairs will be subjected to a premium of one per cent. Bills granted to Officers who may be absent on medical certificate will be exempted from such premium.

RANK RULES.

The appointment of writers appears to have been originally established by an Act passed in the 24th year of his late Majesty Geo. III. Cap. 25, Sec. 43, prescribing admissions between the ages of 15 and 22 years.

The Act 47th of Geo. III. Cap. 68, prescribed the passing of two years or four terms in the College established in England for the education of such persons as were intended for the Civil service in India, 'and so much of the time spent therein after the age of 17 years shall be accounted as time actually spent to India.' This is to qualify them to draw certain salaries under the limitations assigned in previous Acts.

General Department, Original rank was computed under an order of the Hon'ble the Court of Directors dated 3d of July, 1795, assigned to writers appointed in any season who at the time of appointment were residing in India, the commencement of their periods of actual service of India, from the time of their arrival at the Presidency to which they were nominated, of the First Writer appointed in Europe of the same season. And to Writers appointed in Europe their periods of actual service in India as commencing from the time of their arrival at the Presidency at which they were to serve.

3d July, 1795.

It may be remarked however that in process of time the former of these Rules appear to have absorbed the latter, and to have been observed as the general rule of dating Original Rank.

It is also to be remarked that the periods of seniority were in practise computed from such duties of original rank reduced by one year below the terms specified in the Act; as follows, viz.

For a Senior Merchant, 11 years or on entering the 12th year from the date of original rank.

Junior Merchant, 8 years or on entering the 9th year.

Factor, 5 years or on entering the 6th year, and income tenable by law, was likewise regulated or rated by the same periods; although strictly the completion of 6 years, 9 years, and 12 years, was denoted by the Acts.

In July, 1827, it appears the Hon'ble Court entered into a further definition in reference to certain questions proposed by the Madras Government; and in these words: 'Previously to the enactment of 53d Geo. III. Cap. 155, it was our practice to forward to you Lists of the relative rank of writers appointed from time to time to your Establishment: under the authority of that enactment, regulations were framed for the Government of the College of Haileybury, one of which provided that the relative Rank of Writers should be fixed by the College Council, and specified in the College certificate subject however to loss of Rank, in the event of the Writer failing to proceed to India within a specified time. The term of service as Writer, Factor, Junior and Senior Merchants, has reference to the periods of service specified in Paragraph 17 to 19 of the Appendix No. 68, to the second report from the Select Committee of the House of Commons on the company's affairs in 1810, viz.

<p>A. B.</p> <p>5 + 3 = 8 years.</p> <p>8 + 3 = 11 years.</p>	<p>'After five years Writers became Factors, after three years Junior Merchants, and after three years further Senior Merchants, the first of which periods includes time spent at our College at Haileybury.'</p>
---	--

Upon another occasion in consequence of a reference from this presidency, the Hon'ble Court's decision was given as follows, through an order of Government, dated 15th November 1831. 'That in computing the term of service requisite to qualify civil servants when out of employ to draw the subsistence of Senior Merchants, Junior Merchant, and Factor, the same principle shall be observed as Parliament has prescribed in fixing the qualifications for holding offices of certain emoluments, viz. Actual residence in India in the company's service allowing however, time passed in the Haileybury College as provided for in the Act 47, c. Geo. III, cap. 68.

PRECEDENCE IN OFFICE.

The last Act on this subject makes it lawful for the Government of India to appoint any meritorious civil servant under the rank of member of council to courts, boards, and other official establishment in which several servants hold office collectively, and ordains "that such servant shall take precedence at or in such courts, boards, &c. according to the seniority of his appointment as a member thereof, although he may hereby not take precedence therein according to the seniority of his appointment in the service."

HAILEYBURY RANK.

The Act passed in the 10th year of Geo. IV. cap. 16th extended the privileges granted by the Act 47th of Geo. III. cap. 68 in favor of young men who may have spent a less time than two years in the college establishment in England, and enacted 'that all such time not exceeding two years bona-fide spent in that college after the age of 17 years, on proceeding to India, shall be accounted as time spent in India, in regard to offices, places, and employments, which such persons are entitled to be appointed to hold, the salaries, perquisites, and emoluments whereof shall not exceed the sum of one thousand five hundred pounds per annum.'

RANK OF CIVIL SERVANTS RETURNING TO INDIA AFTER FIVE YEARS' ABSENCE IN EUROPE.

When and as often as any person having held any civil situation in India in the service of the said company, and having departed from India by leave of the Governor in Council, or Governor in Council, shall be restored to the said company's service after an absence of five years from the time of such departure;

such person from and after such restorations shall take rank and precedence only according to the time he shall have passed in the service of the said company at the period of his departure from India, and on his return to India. If any other civil servant or servants at the settlement to which he shall belong, shall then have passed a greater or the like length of time in the service of the said company as the person so restored had passed when he left India, the person so restored shall be placed and take rank immediately below such other civil servant or servants, any matter or thing to the contrary notwithstanding.

SENIORITY.

The more recent provisions of the Acts 3 and 4 Will. IV., c. 85, S. 187.

So many of the said students in reference to those at the college at Haileybury as shall have a certificate from the said college of good conduct during the time of their residence therein, shall be subjected to an examination in the studies prosecuted in the said college and so many of the said students as shall appear duly qualified shall be classed according to merit, in a list to be prepared by the examiners, and shall be nominated to supply the vacancies in the civil establishments in India, and have seniority therein according to their priority in the said list.

To the above may be added an article which has appeared in the 'East India Register' of recent date, 'The rank of students leaving the college is determined by the certificate of the principal such Rank to take effect only in the event of the students proceeding to India, which in six months after they are so ranked.

N. B.—The order of Rank is now settled by the hon'ble court and the Governments of India are informed by periodical communications specifying the names of Writers, the period passed after the age of seventeen, of the court's order and that of sailing for India, with a reference for Rank to the certificates held by the individuals respectively. These data however do not appear to indicate any change in the mode previously adopted of computing seniority by actual service with an allowance of time passed in college in England.

Temporary absence under the furlough rules does not interfere with the computation of original rank or seniority in the service, unless such absence be prolonged beyond five years; in which case restoration became necessary. Hence all the period of non-residence incidental to those rules or not exceeding five years at any one time is included in that of seniority.

Temporary absence from the presidency to which the officer belongs, with the express leave of the Government of India, limited by rule to two years is likewise included in the period of seniority, or so long as he may continue within the geographical limits of such leave. But any absence without such leave must be held prejudicial to rank as also every refusal to renew the term thereof.

Withdrawal from the service by a Civil Servant joining any mercantile concern or firm has been held a relinquishment, or surrender of the original as well as the local appointment, and all rank in the service ceases thence forward. Such surrender involves a necessity of formal Restoration by the authorities at Home. Upon such restoration the loss of rank would follow unless it be made express 'without prejudice' to it.

Suspension or removal from the service affects rank under the provisions of Act 53d of Geo. III. sec. 83, which enacted, that 'no restoration by the hon'ble court of any servant so suspended or removed by the authority of the presidencies and Governments in the East Indies, shall be valid or effectual without the approbation and consent of the board of commissioners for the affairs of India.' Upon restoration, seniority would equally in this as in the preceding case be governed by the express terms of the order granting it.

The recall of a civil servant from India by a warrant under the sign manual being only revocable by another warrant of the sovereign; permission, (after such revocation) granted by the hon'ble court to 'return to India as a senior merchant' or without prejudice to past rank, was held a virtual restoration to its general privilege.

Here it may be noted that by the act 3rd and 4th of William IV. Cap 85, a power has been vested in the hon'ble court to remove or dismiss any of the officers or servants of the East India company, at their will and pleasure, with a

special reservation in favor of any officers appointed by her majesty's government who are not to be dismissed or removed without her majesty's approbation.

The transfer of a civil servant from one sister presidency to another (which has sometimes taken place under the old rules)

See Rule 3rd July. 1795, has given rank from the day of the first arrival, Genl. Dept. 1st Feb. 1807. of the season of his own appointment, and the same governs the case of a military officer who is appointed by a civil covenant.

The transfer of the civil servants of the late China and St. Helena establishments of the company was provided for by the act 3rd and 4th of the last reign, c. 85 Sec. 113, which enacted that a civil servant of the company employed in the factory of Canton, or in the Island of St. Helena shall be capable of taking and holding any office in any presidency or establishment on the Indian territories which he would have been capable of taking and holding, if he had been a civil servant of such Presidency or on such Establishment during the same time as he shall have been in the service of the said company.

The preliminary order of the hon'ble court bearing date the 27th December 1833, assigned to the China civil servants their rank on the Bengal Establishment, from the date of their respective first appointments, with certain specific allowances of time, to form their election upon the offer of transfer to the India service, the same being varied in some respects, according to the situation of the officers at the time, but not exceeding six months to all servants in China, from the date of this Government receiving the hon'ble court's despatch and the same periods, as respected servants in China, were to be considered part of the time of residence necessary to qualify them for 'annuities in the event of their accepting the transfer.' The present position of those servants who have done so, is that of the last of the season of their own appointments. The same principle was formerly applied to certain civil servants of the then Fort Marlboro' establishment, who were transferred to that of Madras, and by an express act of Parliament were directed to be considered the youngest of their respective ranks.

SPECIAL CASES CONNECTED WITH THE RULES ON RANK.

Rank of a civilian supposed to be wrongly stated.

Mr. A. B. represented to Government that the Secretary to the C. S. A. F. had made an error in regard to his standing in the service, and urged a claim to priority of opinion of taking the annuity over certain other civil servants in consequence. He was told that the rules of the Annuity Fund prescribed definitely that annuities should be tendered to members of the civil service in the order of rank as fixed in the lists received from the Hon'ble Court of Directors and contained in the Civil Auditor's books.

The rules of determining the method of computing the period of service is distinct from that which refers to rank, and though the period of service may have been completed under that rule before that of others standing higher in the gradation lists of rank, the latter would be entitled to take precedence, when both are alike qualified by standing and residence for the annuity.

Similar Case.

Mr. A. B. brought to notice a supposed mistake in regard to the position of his name in the gradation lists of the officers of civil service published in the Directories, and submitted a certificate granted by the Board of Examiners in Europe shewing his standing in the service and solicited that he might be restored to his rank. He was told that the circumstance represented by him would be brought to the notice of the Court of Directors as it was from the Honorable Court that the lists of relative rank of civil servants were received, and that the Governor of Bengal did not feel that he would be warranted in making any alteration in them without a special sanction.

Similar Case.

Mr. A. B. left Haileybury College in Dec. 1812, and signed his covenant at the E. I. House on the 24th March 1813, and arrived at Calcutta in November of that year, in the E. I. H. register of 1812, Mr. A. B. was entered as nominated for Bengal 12th Jan. 1810 and as transferred from the Madras nominations on 30th March, 1810. The rules in force fix the period of 25 years' service to commence

from the date of intimation of appointment, or from the date of covenant, whichever may be antecedent. By the Honorable Court's letter to the Government of Bengal, dated 1st April, 1814, rank was assigned to Mr. A. B. as a writer of the season 1808-1809, whereas by the Honorable court's despatch of 15th March 1816 rank was assigned to Messrs. C. D. and E. F. who retired on annuities of the season 1837-38, and who entered the college at the same time with Mr. A. B. but who in consequence of being implicated in a disturbance were sent out to India before the completion of their fourth term, as writers of 1811-12.

By Para. 3 of the H. Court's letters dated 25th January 1813 intimation of the appointment of Mr. G. H. (who proceeded to India in this same ship with Mr. A. B.) and of 20 other writers was conveyed to the Bengal Government and Mr. G. H. who signed his covenant subsequent to Mr. A. B. retired on an annuity of 1837-38, the period of his service being calculated from the date of the Honorable Court's letter above-mentioned.

Mr. A. B. never having proceeded to England on Furlough completed his period of 22 year's residence in India in Nov. 1836. At the end of 1837 he applied for one of the annuities available in 1837-38 on the favorable terms of value, and was told in reply that the date of intimation of his appointment as a writer 'not being traceable on the records of government, the period of his twenty-five years' service must be held to commence from the date of his covenant, viz. 24th March 1813.'

In consequence of this construction of the managers, which was subsequently upheld by the government of Bengal, Mr. A. B. was debarred from taking annuity before the 24th March 1843, by which period the available annuities of the season had been taken up (one of them by Mr. F. G. who completed his 22 years' actual residence on the 24th March 1838 only) and Mr. A. B. was consequently deprived of an advantage to which he conceived he was justly entitled.

Mr. A. B. urged that the circumstance of the intimation of his appointment 'not being traceable in the records of the Bengal government,' was a matter which was entirely beyond his own control, and further that it was obvious he must have been appointed to the H. Co.'s service at a period coinciding with, if not antecedent to Messrs. C. D. and E. F. and those other servants to whom rank was assigned by the court of directors of a date one or two years subsequent to that assigned by the honorable court to him, Mr. A. B.

Mr. A. B. compelled by ill health and other circumstances to embark for England on furlough, and had no chance of obtaining an annuity of the season of 1838-9, the then supposed last year of the annuity on the favourable terms of quarter premium sanctioned by the honorable court, by reason of the large numbers of civil servants at the head of the list, who it was understood had resolved to avail themselves of the six annuities of that season. Mr. A. B. therefore prayed that the court would ascertain from their records the actual date of his appointment to their service; and (not permitting him to suffer so serious a loss as would be entailed by his being compelled to pay rs. 50,000 to secure the same advantages, which but for a contingency entirely beyond his own control, would have been his for a payment of 25,000 rs.) would be pleased to assign him an annuity out of the surplus funds, or out of the one-third annually carried to the credit of the court, on the favorable terms of quarter premium.

The home authorities found that Mr. A. B.'s appointment took place on the 29th January 1821, and that the fact ought to have been duly brought to the notice of the local government within a reasonable period of its occurrence, and in that case it should have been so, on a much earlier date than that borne by Mr. A. B.'s covenant.

Further, that Mr. A. B. ought to have been admitted to an annuity from the 29th January 1838, and should undoubtedly have been so admitted but from his being unfortunately deprived of the requisite means of proving his period of service. On that defect being remedied, the court of directors decided that Mr. A. B. might be permitted to purchase an annuity at a quarter value commencing from 1st May 1838, and he was admitted to an extra annuity.

The point relative to the possible conflicting claims of rank and service; did not appear to the hon'ble government to call for interposition, because it was expressly stated in the rules of the fund that the annuities should be tendered, to the subscribers according to their seniority.

Further, the court of directors ruled that it was not necessary to disturb the rule by which the commencement of service is at present computed. If of the two documents, (the covenant and court's letter of notification,) upon which the decision rest, one only can be found; the question is to be decided by that

one, unless as in the case of Mr. A. B.'s evidence exists which supplies the place of the document which is wanting. In such cases the servant is to be restored to the advantages of which accidental circumstances have deprived him.

Mr. C. D. was appointed a writer at the same period as Mr. A. B. viz. the 20th January 1842, and under similar circumstances, his length of service must therefore be reckoned from that date.

MISCELLANEOUS.

RESPONSIBILITY FOR DELAY OF AUDIT.

From a delay of audit of a case, loss was occasioned to the Government; it was ordered to be adopted as a rule of the government, and distinctly explained to the officers of account and audit that the home authorities would hold each officer upon whom the duty of causing audit devolved, responsible for every loss incurred in consequence of his neglect in needlessly delaying to have recourse to the means which were available to prevent such loss.

Officers in charge of treasuries are to forward along with the half-yearly reports on inefficient balances, a sufficient proof that the non-adjustment of such items has been occasioned by circumstances beyond their control. Should any one item appear in two successive statements without proof being furnished that an adjustment had been applied for, it will be deemed a culpable remissness on the part of such officer; and the amount of the item will be deducted from his salary without reference to his having been the disbursing officer or not.

TRANSFER RULES.

To C. TROWER, ESQUIRE, *Civil Auditor.*

SIR,—I am directed to transmit for your information and guidance the annexed copy of a letter to the address of the secretary to the *General Department.* government North Western Provinces from the General Department of the government of India with copy of the resolution of the president in council dated the 8th May 1839, and of the letter dated 20th ultimo from the civil auditor at Agra, on the subject of transfer of civil servants from one division of the Bengal presidency to the other, and the regulation of their allowances under the circumstances there explained.

(Sd.) G. A. BUSHBY.

Secy. to the Govt. of Bengal.

To J. THOMASON, ESQUIRE,

Secy. to the hon'ble the Lieut. Gov. for the North Western Provinces.

SIR,—I am directed to acknowledge the receipt of your letter, dated the 3rd of June, and its enclosure, from the civil auditor at *General Department.* Agra, relative to Mr. A. B. and the rule, regarding the transfer of civil servants from one division of the Bengal presidency to the other.

2. I am directed on this subject to refer the hon'ble the Lieut. Governor to the resolution of the president in council, dated 8th May 1819, of which a copy is annexed to the present letter, from which it will appear, that the transfer having been previously arranged between the two local governments, and allowed by the government of India; it takes place at the same time with the appointment of the servant to a situation in the division to which he is moved.

3. The civil auditor reckons the period allowed to join the new station, and passes the bill for such servant's salary accordingly. If the salary is of higher amount than the salary of the situation which he was left, he draws in the time allowed for travelling, out of the salary of his new appointment, a sum equal to that of his previous situation.

4. Servants of one division are not eligible for deputation duty in another except under special circumstances.

5. If in contemplation of permanent transfer the service of an officer from one division are obtained for employment in another before the vacancy of the appointment has taken place, as for instance, by the departure of the incumbent to Europe, the sanction of the government of India having been

previously obtained for his being so placed at the disposal of the local government to which he is not yet permanently attached, he will be considered thereto, but for a definite time, which may be extended if necessary, until by the vacancy of the appointment for which he is intended, he can be permanently transferred, when his perfect transfer and appointment will be simultaneously gazetted.

6. Pending this announcement, he will draw the salary of his appointment in the other division, and such deputation allowance in his new division as he is entitled to by the rules of the service, and his appointment would not be filled up till the permanent transfer was made and a new appointment assigned to him.

7. There is no reason why this rule should not be observed in all cases of transfer with a view to eventual appointment in a fixed situation of another division, such for instance as the case of Mr. C. D. last year, who was permitted on sick certificate to proceed to the North Western Provinces, and obtained employment there, first in an acting situation, and eventually in a fixed situation. In that case the appointment that Mr. C. D. held in the lower provinces having been filled up without reference to his exact position, it becomes necessary as a measure of just compensation, to permit him to draw an allowance equal to what he lost by the premature appointment of a successor to his late situation during the short period which intervened before he was appointed to another fixed situation in the North Western Provinces.

8. In the case of Mr. A. B. also on account of sick certificate, retained for employ in the lower provinces after his return from the Cape of Good Hope, the circumstances were special as provided in the rule above explained, but his appointment in Bundelcund has not been disposed of, Mr. A. B. having been recently appointed to a fixed situation in the lower provinces, will, from the date of that appointment (2nd of June) cease to have any connection with the North Western Provinces, or to derive any part of his salary thence.

9. The word 'returns' made use of in the order of the government of India of the 20th November last as quoted in the reference from Mr. Morland, the civil auditor at Agra, meant only to denote that Mr. A. B. when the separation of the jurisdiction took place, being the incumbent of an officer in the N. W. P. was annexed to that division of the Bengal presidency, and was by the order of the 20th November re-annexed to the lower provinces.

10. Mr. A. B.'s salary bills, a deputy collector of Bundelcund, are to be audited at Agra up to the date of his recent appointment to a fixed situation in Bengal, when his transfer to Bengal and separation from Agra were completed.

11. The necessary directions will be given thro' the government of Bengal to the civil auditor of Calcutta to conform to the suggestion contained in the 5th paragraph of Mr. civil auditor Morland's letter to you dated the 20th May, viz. to furnish the audit office at Agra with a monthly return of all bills passed in the audit office at Calcutta for the salary of civil servants attached to the N. W. P.'s absent at the Cape or elsewhere, or which, from any other cause, may have obtained audit below with the deductions on account of leave, subscriptions to Funds, &c.

12. With regard to para. 2d of Mr. Morland's letter it would not appear that the words placed at the disposal of the governor of Bengal, have any different sense from the words 'transferred to the Bengal presidency.' In public correspondence and notifications they have, it is believed, always been used indiscriminately. The gazette would always, in due time, inform the auditor when a transfer was completed by permanent appointment.

13. Assistants drawing everywhere equal allowance if transferred from one division to another should be considered as transferred altogether, and be charged to the division in which they are employed from the date of transfer.

14. If servants are allowed to exchange appointments for their own convenience they ought to forego salary between the time of quitting the old appointment and joining the new one, and be considered for that interval as servants out of employ.

I am, &c.

Fort William,

the 24th June, 1840.

GENERAL CONSULTATION, 8TH MAY, 1839.

Read a letter from the secretary to the government of Bengal, general department, No. 367, dated the 24th ultimo, forwarding the following letter on the subject of transfers of public officers from one division of the presidency to the other.

Letter from offg. secretary to the governor general North Western provinces, dated the 7th February last.

Ditto to ditto, dated the 20th ultimo.

Ditto from ditto, dated the 5th ultimo.

Resolution. The president in council observing the difference of practice stated to prevail in the different divisions of the Bengal presidency, thinks that it will be expedient to provide by definite rule for cases of transfer of public officers from one division to the other.

His honor in council is of opinion that the servants of one division ought not to be considered eligible to fill situations on deputation in the other division except under special circumstances, which being stated to the government of India, the loan of the servants for the particular duty would, of course, be sanctioned.

His honor in council is further of opinion that the same rule ought to be established for all classes of servants, and that if the transfer of a servant be asked with a view to his being appointed to any particular office in another division, the transfer being made and notified in the gazette, the appointment to the office vacant should be ordinarily be made to take effect from the date of transfer, from which date the civil auditor and officers of account will reckon the period allowed to join the new station and pass the bills accordingly.

If an officer of one division be asked for, to fill a situation temporarily, preparatory to permanent appointment to be made when the incumbent shall after the usual period have embarked for Europe, or retired from the service, the circumstances being stated, the case may be brought under the first rule, and in lieu of a final transfer the officer will in such case be gazetted as authorized to proceed on duty for a definite time to the other division, preparatory to obtaining permanent employment there. At the end of the period mentioned, the salary of office in the division from which the officer has proceeded will cease, unless an extension be similar granted under orders from the government of India. A fresh order of final transfer will be necessary either at the close of the period or from any earlier date at which effect can be given to the appointment, which the officer is intended to find in the new division.

Secy. to the Govt. of India.

(COPY No. 238.)

TO J THOMASON, Esq.

Officiating Secretary to the Govt. North Western Provinces,

SIR,—I am under the necessity of troubling you with a reference relating to the existing doubts as to the intentions of government, *retransferring* Mr. A. B. to the Bengal presidency under the orders of the 18th November 1839.

2. The practice hitherto observed in the office has been to receive the orders of removal of civil servants from these provinces to the Bengal presidency in the following lights.

1st. When the orders state 'placed at the disposal of the governor of Bengal,' the removal is considered temporary.

2nd. If the orders expressly state 'transferred to the Bengal presidency,' it is looked upon as a permanent removal.

3rd. Mr. A. B.'s case would in my opinion appear to be special one. He is said to be 'retransferred to the Bengal presidency' never having to my knowledge been employed before in that division, and now he merely hold an officiating appointment there, and has submitted to me bills for audit for his salary as deputy collector of government customs at Bundelcund up to the end of the past month, from which it is evident that he still considers himself attached to these provinces.

4th. Under the above circumstances I have the honor to solicit that I may be favored with specific instructions how to act in the present instance, and in all future cases. I may perhaps be allowed to suggest that the ward 'temporary employments, or placed temporarily at the disposal of,' be used when the individual does not vacate his permanent appointment in the division in which he may have been previously employed.

5th. Under the impression that a reference to the government of India will be deemed expedient in the above matter, I have the honor to solicit that his honor the lieutenant governor will at the same time request instructions to be issued to the civil auditor at Calcutta, to furnish this office with a monthly return of all bills passed in his office for the salary of civil servants attached to the North Western provinces, absent at the Cape or elsewhere, or which from any other cause may have obtained audit below, with the deductions on account of leave, subscription to Funds, &c. This information is essentially necessary to allow of the Registers in my office being kept up complete for the whole period during absence at the Cape, whereas at present I am quite ignorant of what is passed or retrenched from the salary of such officers, as have their bills audited in Bengal.

I have, &c.

(Signed) E. H. MORLAND,

Civil Auditor N. W. P.

Civil Auditor's Office
N. W. P. Agra, the
20th May, 1840.

MISCELLANEOUS CONNECTED WITH LEAVE, &c. REJOINING, &c.

Any civil officer who may be absent from his station without leave, shall be considered to have forfeited the whole allowances of the office to which he stands appointed for the period of his unauthorised absence, unless the penalty be expressly remitted by government; and any officer exceeding his leave shall be held by the Civil Auditor to be absent without permission for the time of such excess.

Any officer leaving the limits of his jurisdiction, whether with or without the orders of government, shall be bound to report the circumstance to the Civil Auditor.

Any officer who may be removed from one station to another, shall in like manner report to the civil auditor the dates on which he may make over and receive charge; and the Civil Auditor is restricted from passing the bill of any officer appointed to a new office for the allowances belonging to such office (without the special orders of government) until he shall have received report of his having taken charge thereof.

Leave of absence, when solicited for the purpose of visiting any place on the continent of India, shall not be granted for a longer period than 6 months, but which will of course be extended at the discretion of government on due and sufficient cause being shown.

quit the presidency, on which occasion the vessel in which he embarks must be duly reported.

Any officer arriving at the presidency whether from the interior of the country or from abroad, shall report his arrival to the secretary to government in the department to which he belongs, as well as to the authority to which he may be immediately subject, if holding any office subordinate to any other.

Any officer returning to the presidency after having made a sea voyage, for the recovery of his health or otherwise, shall, unless the contrary is especially sanctioned by government, be required to rejoin his station within the time that may be prescribed for travelling to the station to which he stands appointed.

~~2.~~ We have no doubt that the Gentlemen to whom we refer will use their exertions, and in many cases those specially of the juniors, successfully, to qualify themselves to hold any office under your Government, but there are some offices of importance in which a knowledge of the languages is not indispensable.

The indents for the last few years have generally been,—For Bengal and Agra, 25, for Madras, 12, and for Bombay, 8.

PRIVATE TRADING.

Members of the Civil and Military services may become shareholders in the Universal Assurance Company, but it is not allowed that occupations of a private institution should interfere with the claims of the public service to the undivided attention of the company's servants, and they are 'positively interdicted' from taking any part in the management of U. A. Co.'s, or any other *similar company*.

EXCEPTIONS.

The above *interdict* does not apply to the Asiatic, the Agricultural, or other *such Societies*, which cannot be in any way looked upon as trading establishments.

SALE OF PROPERTY TO NATIVES.

19th September, 1837.

Civil Servants are allowed to sell private property to natives reporting the full cost of the property to be sold to them, the name of the purchaser, his rank, and the price of the purchase money.

SALE OF PROPERTY TO NATIVE PRINCES.

31st October, 1821.

RESOLUTION.

Circumstances having recently come to the knowledge of Government which suggest the expediency of preventing sales of valuable property, from being made by the Civil and Military Officers of the honorable company's service to foreign princes and chiefs, or to natives of rank or opulence residing under the protection of the British Government, without due intimation to Government through the principal local authorities, of the proposed sale and transfer of such property and the consideration to be received for it. His Excellency the Governor General in Council is pleased to prohibit in future all sales, purchases, and transfer, between the Civil and Military servants of Government on the one hand, and natives of the description above noticed on the other, of grounds, houses, boats, equipages, horses, elephants, plate, furniture, and generally, every description of private property exceeding the value of five thousand (5,000) Rupees, without the sanction of Government being previously obtained, under such penalties as the circumstances of each particular case of disobedience to these orders may demand.

The Governor General in Council takes this opportunity of adverting to the Resolution passed in the Political Department under date the 17th September 1831, and published in General Orders of the 18th of the same month, cautioning all Civil and Military Officers of Government against carrying on any communications with native princes and chiefs, or their *wakeels*, except through the channel of the Political Authorities.

CHARGES OF CORRUPTION.

Charges of corruption against civil servants are usually investigated in the presence of the accuser and accused, by Special Commissioners under the subjoined Regulation VIII of 1817, and a copy of the resolution ordering the investigation has been generally furnished to the accused.

Preamble.

Whereas by Section 7 Regulation XVII, 1813, the general control over the proceedings of all commissions constituted under the provisions of section 6, of that regulation, is vested

in the Sudder Dewanny Adawlut, the Board of Revenue, the Board of Commissioners and the Board of Trade respectively, (according as the person accused may be under one or other of those authorities;) and whereas by Section 13 and 14 of the regulation aforesaid, it is provided that the Commissioner or Commissioners so appointed shall transmit to one or other of the said authorities, as the case may be, the whole of the proceedings held and documents received, together with a summary of the pleading and evidence, and his or their opinion on the case, and that the Sudder Dewanny Adawlut, or the Board to which the case may belong, submit the whole of the proceedings and documents received by them to the Governor General in Council, with their opinion whether any and what facts, charged against the party, appear to have been established; and whereas, on some occasions, an adherence to the above form of proceeding may be productive of serious delay, in the final determination of the case and of consequent distress to the accused party, as well as of inconvenience to the Public Service; the following rules have been enacted, in modification of the provisions above mentioned, and of such part of Section 15 of the Regulations aforesaid, as refers to the said provisions.

The control over the proceedings of the Commission appointed under Regulation XVII. 1813 by whom to be exercised.

2nd. Whenever a Special Commission* shall be appointed under the provisions of Regulation XVII. 1813, for the investigation of charges exhibited against a public officer, the Governor General in Council will determine whether the Commission, so appointed shall be placed under the control of any of the authorities above specified, in the manner prescribed in Sections 7, 13, and 14. of the Regulation aforesaid, or shall act immediately under the authority of Government; and all Commissions appointed as aforesaid, shall be guided by the instructions which they may receive in this behalf from the Governor General in Council.

The Commission, when instructed to act immediately, under the authority of Government, shall submit their proceedings directly to the Governor General in Council.

3rd. When the Commission shall be instructed to act immediately under the authority of Government, it shall submit directly to the Governor General in Council, (without the intervention of any of the authorities above specified,) the proceedings held, and documents received on the occasion, accompanied by translations of papers not in the English language, together with a summary of the pleadings and evidence, and their opinion on the merits of the case, in like manner as they are now required to submit the same to the Sudder Dewanny Adawlut; and the Board of Revenue, Board of Commissioners, and Board of Trade respectively, and the Governor General in Council, after receiving the report and proceedings submitted by the Commissioners, will proceed in the case, in the same manner as if the said proceedings and the report had been submitted by the Sudder Dewanny Adawlut, or one of the said Board: provided however that if, in any case, on consideration of the proceedings and report of the commissioners it shall appear to the Governor General in Council, necessary, that further evidence be taken, or that a further explanation be given by the commissioners, of their sentiments on any point connected with the case investigated by them, it shall be competent to the Governor General in Council to direct the commissioners accordingly, and the commissioners shall be authorized and required to take such further evidence as far as the same may be attainable, and to furnish such further explanation as may be required.

ad to apply to Government for any instructions they may require.

4th. When a commission may be instructed as aforesaid to act under the immediate authority of Government, such commission shall apply to Government for any instructions they may require in the execution of the duty entrusted to them, for which orders may not have been expressly made by Regulation XVII. 1813, or any regulation; and the Governor General in Council will pass such order on the subject, as may appear consonant to the general principles of equity, and

most conducive to the purposes of substantial justice. And in any case in which any doubt or difficulty may arise in the conduct of the investigation, for which it may appear advisable to make provision by a general Regulation, the commissioners shall be competent to prepare the draft of Regulation for the purpose, and to submit it to the Governor General in Council for his consideration and orders.

Upon questions regarding the intent and meaning of any Regulations, the Commissioners to address themselves to the Court of Sudder Dewanny Adawlut, and to be guided by their determination.

The Commission in no case to consist of less than two persons, one of whom to be selected from among the Officers in the Judicial Department.

persons, one whom at least shall, in all practicable cases, be selected from among the Officers in the Judicial Department of the service.

5th. Provided however, that in any case wherein the Commissioners shall entertain doubts of the intent and meaning of any provisions of the Regulations which are or may be in force, they shall submit the point to the Court of Sudder Dewanny Adawlut for their consideration, and shall be guided by the determination passed by that Court.

6th. Provided further, that whenever Government shall determine that the Commission to be appointed under the provisions of the Regulation above-mentioned, shall not be placed under the control of the Sudder Dewanny Adawlut, the Board of Revenue, the Board of Commissioners, or the Board of Trade, such Commission shall in no case consist of less than two

BORROWING, LENDING.

By Regulation XXXVIII. of 1793, covenanted servants of the company employed in the administration of justice, or the collection of the Revenue, are prohibited lending money to proprietors or farmers of land, dependent talookdars, under farmers, or ryots, or their sureties.

By Revenue C. O. of June 4, 1822, it is ruled that there is nothing more to be deprecated, than that the officers charged with the civil administration of the country should be under pecuniary obligations to zemindars, or other holders, or farmers of land, in the districts under their authority; the objection applies still more directly to such loans received from the Guardians of Wards, or the managers of their estates.

In this respect the practice of borrowing money is likely to prove much more hurtful to the public service, and injurious to the good names of the officers of Government, than that of the lending, against which the Rule of Regulation XXXVIII. 1793, is directed.

The Revenue C. O. of May 23, 1823, requires that no public servant shall employ, or appoint, or continue in office, any relative to whom, or to whose relative or dependant, he is, either directly or indirectly, indebted, without incurring, whenever the circumstances may be made known to his superiors, the most serious responsibility.

SALES TO NATIVES.

The Court of Directors having declared they will consider every officer highly culpable in being habitually concerned in Sales of 'horses, cattle, &c. with zemindars who might be suitors in their Courts,' in as much as they infringe an expressed Regulation, and violate a solemn engagement.

RESOLUTION REGARDING NUZZURS AND SUPPLEMENTAL ORDERS OFFICERS OF THE SEVERAL DEPARTMENT.

Fort William, the 2d June, 1829.

The right hon'ble the governor general in council having resolved to the custom which prevails generally throughout the province subject to

presidency, of natives presenting Nuzzurs in money, and trays of fruit, and other articles, on the occasion of their paying official or complimentary visits to public Functionaries in the service of the honorable company, it is hereby notified for the general information of all public officers under this presidency, that the custom in question is strictly prohibited from the date of the publication of this notice, and that it is the expectation of government that all public Functionaries will adopt every measure within their power to make this prohibition generally known, and obeyed, by all natives of whatever rank or degree with whom they have official or private intercourse.

In direction the abolition of the custom above referred to the governor general in council deems it due to the servants of the hon'ble company generally, to declare that the measure has not been adopted by government on the ground that it has been perverted to improper purposes by any public officer under government, but from the conviction that it subjects natives to useless, and frequently vexatious expence, and to extortion on the part of menial servants and departments. His Lordship in Council is indeed fully persuaded that the abolition of a practice open to such serious objections will be viewed with satisfaction by every officer in the hon'ble company's service.

In circulating this resolution to political officers it was stated that the prohibition relative to the acceptance of nuzzers and presents of fruit, &c. was intended to apply to the cases of individuals who are subjects or dependents of the British government, and consequently under their control, and not to native princes and others to whom we have no right to issue a prohibitory order, for with regard to complementary presents of fruit from native princes, and others not subject to our authority the refusal might be offensive to their feelings, as contrary to established usage; but in as much as the practice can be discouraged without giving umbrage, the political officer were not to fail to act in the spirit of the resolution above quoted.

The resolution was circulated to all Revenue and Judicial officers and to the Army with a mere intimation, that it was for their information and guidance.

BORROWING ARTICLES FROM NATIVES OR OTHER PRIVATE INDIVIDUALS PROHIBITED.

Extract of a General Letter from the Honorable the Court of Directors, dated the 13th Nov. and 23d December, 1833.

Para 55. It was found that Mr. A. B. officiating commissioner of circuit had applied to a Zemindar for the gratuitous use of his budgerow which was to save him an expence of some hundred rupees. We entirely concur in the censure with you passed upon his conduct. Mr. A. B. we observe, made the following assertion: 'Borrowing boats and elephants is a circumstance of daily occurrence, and I may with safety assert I believe that there is not an officer in the service who has not done so.' If this representation be in any degree well founded, we desire that a practice which is not creditable to persons in public authority, and is in violation of the rules of our service, may be effectually put down.

On this it was ordered that the above should be circulated to the several commissioners for their information and for that of the officers subordinate to them.

THE MERIT-FOSTERING ORDER AS AT PRESENT IN FORCE.

No. 2271.

Fort William, Judicial and Revenue Department, 20th December, 1836.

The periodical Reports on the official characters, qualifications, and conduct of all the covenanted officers of government in the judicial and revenue

department, called for under the resolutions of the right honorable the Governor General in Council, dated the 8th of January, 1834, having been discontinued, under the orders of the Honorable the Court of Directors, by the resolutions of the Right Honorable the Governor General of India in Council dated the 27th of June last, and published in the *Gazette* of the 2d of July

** In obedience to the hon'ble Court's instructions it will be publicly notified that those reports shall henceforth be discontinued; but I am, at the same time, directed to state that his Lordship in council is strongly impressed with the expediency of adopting all methods short of the systematic personal reports which have been interdicted by the court for the purpose of bringing to notice the manner in which every public office is conducted, in order that Officers distinguished by merit may be brought forward and promoted, and that suitable notice may be taken of the conduct of those who are negligent and incapable.*

The right hon'ble the Governor of Fort William in Bengal is requested, therefore, in communication with the Lieutenant Governor of the N. W. Provinces, to prescribe to controlling authorities on the several Departments of Government, an improved system of reporting the results of administration, or to issue such other instructions as to His Lordship may seem best calculated to promote the object contemplated by the system now discontinued, namely, that the promotion of the service may be usefully and efficiently distributed and its discipline and spirit upheld.

following, it has become necessary, under the orders of the Supreme Government, cited in the margin,* to provide some method that shall not be open to the objections that have been urged against a system requiring superintending officer to prepare, at stated intervals, in analysis of the official characters of all the Officers under them; but that shall, nevertheless, be sufficiently effective for the objects which that system was organized to obtain, and of which the importance has been fully admitted.

Those objects are, firstly, the carrying into effect the principle, which has been specially enjoined, of 'enforcing responsibility in all superior functionaries for the incapacity or neglect, or wrongs committed by the civil servant under them, unless they are, as the cases may admit, either redressed, or reported to Government.' Secondly, the bringing to the knowledge of Government all instances of eminent merit and qualifications amongst its covenanted Officers of all ranks; so that the Government may be able, generally, to reward merit, to stimulate exertion, and to secure to the public servants for vacant Offices the best qualifications, available.

The following Rules, in amendment of those already preserved for preparing reports of the results of administration, have accordingly been proposed by the Right Honorable the Governor of Bengal, in communication with the Honorable the Lieutenant Governor of the N. W. Provinces, and have been approved by the Right Honorable the Governor General of India in council; they are now promulgated for the information and guidance of all officers in the Judicial and Revenue Department subject to the Orders of the Governor.

In hearing appeals from the Zillah Courts, every Judge of the court of Sudder Dewanny Adawlut shall note, as each case proceeds, any points that may strike him as affecting materially the character of the court below, and whenever, at the conclusion of an appeal, any Judge may be of opinion that the proceedings of such a court have been either remarkably well, or remarkably ill, conducted, it shall be his duty to make a note thereof of the consideration of the court, collectively, at their English sitting. The court will determine in what manner these notes may best be made available in the preparation of their annual report, for the expression of their collective opinion on the quality of the business performed in every Zillah Judge.

The court of Sudder Dewanny Adawlut is hereby required to make a Special Report on the subject of any Zillah, in which they may be of opinion that the state of civil business is such as to make it desirable for the sake of the public interests, that measures should be immediately taken to remedy the evil. In cases of less importance, it shall be the duty of the court to notice in their annual Report any serious defect which they may believe to exist in the administration of civil justice in any district under their Jurisdiction.

In addition to the number of cases decided by each Zillah Judge, the number of miscellaneous Judicial Orders passed by him, and the number of days employed in Session business, which information is now given in the annual Report of the court of Sudder Dewanny Adawlut, that report shall in future show the number of appeals, Regular and Special, lodged against such Decisions and miscellaneous Orders, the result of all the appeal of a like nature from each Judge decided on during the course of each year, and the number of days in which each Judge sit for the transaction of civil business.

Corresponding information, with respect to the Proceedings of the several Session Judges, must be embodied in the annual Reports submitted to Government by the court of Sudder Nizamut Adawlut of the administration of criminal justice; and a corresponding method for laying the necessary information before that court collectively must be adopted.

It shall be the duty of the several commissioners of circuit to report, in their Half-yearly Police Returns, their opinions on the general efficiency of the Police of each District under their Superintendence, and on the manner in which the various business this Department has been performed by each of the Officers among whom it is distributed. It will also be the duty of each commissioner, to notice prominently in these Reports the extent to which the services of the Assistants to the Magistrates and joint Magistrates in his Division have been employed, and the consequences of such employment, in order that the application and abilities of the several Officers in the Junior grades of the Service may be brought distinctly under the view of the Governments.

It will be the duty of the Sudder Board of Revenue, immediately upon the close of every Bengal and Fasily year, to submit to Government a statement of all outstanding arrears of Revenue in every Bengal or Fasily District, with a note of the proportion per cent. which such arrears may bear to the Lamma, in each case, and to remark, where necessary, in what degree the result is attributable to the conduct of the Collector or Deputy Collector in each District.

Until the completion of all Resumption and Settlement business, the annual Division Reports required from the Sudder Board of Revenue, shewing the business that has been done in those Departments during the past years, and the plan of operations for the approaching cold season, will necessarily be continued. In these Reports, as far as those particular duties are concerned, the Sudder Board of Revenue are hereby required to represent every case in which the conduct of the officers employed has been distinguished by zeal and discretion, or by the contrary faults; and to call upon the commissioners and collectors under them, to furnish them with all Statements of the allotment of work to their assistants, and with all the other materials that may be necessary to enable them satisfactorily to perform the duty above required of them.

It is hereby declared that it is duty of the Sudder Courts and Board of the Commissioners, of the Collectors and Deputy Collectors, and of the Magistrates and Joint Magistrates, to report to their immediate superior every cases in which they may be of opinion that a covenanted Officer, subordinate to them decidedly disqualified to discharge efficiently the duties entrusted to him; and it is hereby notified to all such Functionaries that it is considered an essential part of their duty to make themselves acquainted with the manner in which their subordinate officers perform their duties; and that they themselves will be held responsible for any mischievous consequences that may result from any inefficiency, bad habits, or serious errors of conduct of those under them, that ought to have been known to them, unless they report the same for the information of their superiors.

In framing the rules which have been above prescribed, the right honorable the governor of Bengal has discharged the duty committed to him of improving, as far as possible, the established system for the control of the civil administration; for ensuring to efficiency its just reward; and protecting the public interests from the consequences of incapacity or neglect. But he cannot allow the opportunity of promulgating the rules to pass, without making known to the civil service in these provinces the high satisfaction with which since his arrival in India he has observed the zeal, the justice, and the success with which, with rare exceptions, they have applied themselves to the performance of their various and arduous functions. To their character and public spirit more than to the operation of any formal system of supervision and control, he looks for a perseverance in the same meritorious exertions, and for a maintenance of the same careful regard, in their important and often delicate trusts, alike to public and to individual rights.

CASUALTIES.

All casualties to be reported to the departments of government concerned.

CUSTODY OF EFFECTS OF ESTATES AND PUBLIC PROPERTY.

All government servants are called upon to take charge of the effects of deceased public officers, and all public property generally when without custody.

GAZETTING MILITARY-CIVIL.

All matters effecting military officers employed civilly are always communicated from the civil to the military department and where gazetting is necessary, the same appears in the orders of both departments.

EXCHANGES.

Exchanges between servants of Bengal and Agra respectively may be sanctioned when the arrangements made for the exchange preliminarily by the parties concerned is unobjectionable in its nature; but application for transfer is not usually complied with except under special circumstances of which the government judges taking into consideration the merits of each particular case.

LAW OFFICERS OF GOVERNMENT HOW TO BE CONSULTED.

No district officers should consult the law officers direct, or otherwise than through the government secretariat of the department under which they serve.

ASSAY MASTER'S RETIRING PENSION.

Assay masters and deputy assay masters are permitted to retire after 20 years service, including three years for the one furlough, the former upon £300 a year the pension of a superintending surgeon (but not subject like his to increase for longer service); and the latter upon £191 12, 6, the pension of a surgeon; and if compelled by ill health, duly certified, to quit India at an earlier period, the retiring allowance after ten years' service to be £200 a year for an assay master and £150 for the deputy.

RETENTION OF POLITICAL PRESENTS BY MILITARY OFFICERS.

On a claim to retain the presents received from the Lahore Durbar by the party who accompanied Runjeet Sing's ashes to Hardwar, it was observed that it was contrary to military usage and the established rules for officers and soldiers in the service of government to receive presents of such a nature.

KHELUT TO POLITICO-MEDICAL OFFICERS.

All Medical officers employed under orders of the political department for some weeks in attendance on the late Maharajah Runjeet Sing, was presented on his departure from Lahore by that court with a Khelut and a cash Zeafut.

The question having arisen as to whether under the general prohibition against the retention of such public officers they could be kept in this instance, the governor general decided that both the Kheut and the amount balance of cash that had been tendered as a Zesut might be retained by the medical officer in question, not a political present, but as a fee for medical attendance; as the chances were that had he been at his own station he would have been gaining fees to the same amount for family medical attendance.

DEPUTATION ALLOWANCE.

An assistant at the political Residency of Indore drew a bill for deputation allowance for settling disputed boundary claims of Holkar, Scindia, and the Powar estates.

This bill was returned by the civil auditor on the ground that the claim was not founded on the requisite authority of government for the charge.

The bill was passed, but the government remarked that officers on deputation were entitled to extra allowance, only when such deputation had the sanction of government.

2D ASSISTANT INDORE.

The 2d assistant to the resident at Indore having claimed his military pay and allowances in addition to the salary of his civil appointment, such claim was declared inadmissible, in consequence of the rule established under the orders of the hon'ble court prohibiting the same, and it was ruled that he could draw only the salary of 2d assistant, viz. a consolidated one of Rs. 10-15-6, $\frac{3}{4}$ th chargeable to the opium; and $\frac{1}{4}$ to the political department, after deduction of military allowances.

TENTAGE ON POLITICAL DEPUTATION.

On a claim of Capt. A. B. to compensation for loss in tents sustained by him when deputed with the ashes of Maharaja Runjeet Sing to Hurdwar, it was observed that as Capt. A. B. enjoyed an allowance for tentage under the regulation of government, his application for re-imbursement on account of wear and tear of tents could not be admitted.

His extra carriage expenses were however passed to Captain A. B.

OFFICE RENT.

The O. P. A. at ——— having solicited the sanction of government to a charge of 80 Rs. as office rent for conducting the duties of the agency at A. B. during the unhealthy season at C. D. it was observed in reply that government allowed Captain ——— to take up his residence at a distance from the Court to which he was accredited for reasons of a personal nature, viz. the great personal risk of a residence at the unhealthy station of C. D. during certain parts of the year without his being subjected to any diminution of allowances; and that the government must not be charged with extra expenses on account of office arrangement under such circumstances.

STUDENTS AT THE SENIOR DEPARTMENT OF THE ROYAL MILITARY COLLEGE.

1. A candidate for admission to the senior department of the college must be a commissioned officer in the army, and must have completed the *twenty-first* year of his age; *he must have actually served as a commissioned officer with his regiment for three years abroad, or four years at home, unless he should have been reduced to half-pay before the completion of such period, when his claim will be considered.*

2. His application is to be addressed to the governor of the college, and be supported by satisfactory testimonials as to character and conduct; as likewise of his being well grounded in the duties of the particular branch of service to which he belongs.

3. These testimonials must be from the officer commanding the regiment in which he is serving, or, if on half-pay from an officer of rank in the service.

4. It is recommended that every officer previously to his admission should make himself master of the elements of plain geometry; his thorough acquaintance with common arithmetic, is, of course, presumed and excepted.

All the students will have the free use, under such regulations as the Governor may deem necessary, of the books, maps and plans in the college library.

5. The time allowed for the course of education at the senior department is two years from the date of the admission of each officer, unless he has been educated at the junior department, in which case the period allowed is one year and a half.

6. At the close of every half-year of residence the student's required to undergo an examination in progressive proportions of the course of instruction; when, if he be found not to have made the advancement required in the six months, he will be recommended to join his regiment without waiting for the period allowed for the completion of the course.

7. Officers performing the required course of studies, are, at the close of their residence, presented with certificates of their qualifications from the commissioners of the college according to the degree of proficiency and talent evinced at the public examination.

8. The number of students in the senior department is at present limited to fifteen.

9. Each student pays into the funds of the college such sum annually as has been previously determined by the Board of Commissioners.

10. The annual subscription at present is thirty guineas.

11. Every officer, on becoming a student, is required to subscribe two guineas to the College Library Fund.

12. Quarters are provided for the officers of the senior department, at the college. And forage money for one horse (under the authority at the collegiate Board) is allowed to such as have made sufficient progress in their studies to qualify them for sketching in the field.

13. Every officer studying at the senior department is required to wear his uniform with the same strictness as if on duty with his regiment.

14. In case any officer belonging to the senior department conducts himself in such manner as may appear to be at all detrimental to the institution, or holding out a bad example to the young gentlemen of the junior department, either by want of application or in other respects, a report upon his conduct will be transmitted by the Governor to the Adjutant General, with a view to his being withdrawn from the institution.

15. Regimental officers on full pay, who obtain permission to become students at the senior department of the Royal Military College, or to be reported in the regimental returns in the column of "officers absent on duty" for the period during which they remain at the College.

SETTLERS IN THE COLONIES.

No. 456, GENERAL ORDERS,—*Horse Guards, 24th August, 1827.*

His Majesty being desirous of holding out further encouragements to officers on half-pay, to become settlers in New South Wales [and Van Dieman's Land], has been pleased, in reference to the General Orders of the 8th June, 1826, and 19th May 1827, to command that the following additional inducements shall be promulgated to the army, for the information of those officers who may be disposed to avail themselves of the benefit of this arrangement.

All officers on half-pay, who purchased and were reduced, whatever may have been the period of their service, or officers on half-pay who did not purchase, but who, after having served twenty years, half of which on full pay, have been reduced, or have retired to half-pay on account of wounds or impaired health shall be exempted from that part of the regulation contained in the General Order of the 8th June, 1826, which requires the officer to relinquish one-third of the value of his commission to the Crown, and shall be allowed to receive the full value of such commission, in the same manner as officers on full pay, who having purchased the commissions, or having served twenty years, are desirous of selling out for the same object.

His Majesty has further been pleased to command, that this advantage shall be extended to officers of all ranks, whether on full pay, or retired full pay or half-pay, but that in the two latter classes all sales shall be subjected to the conditions and restrictions established by the General Order of the 2d May, 1825 notwithstanding that a large portion of the officers on half-pay would be excluded thereby from sale, and in order that the government may have full security for the appropriation of the sums produced by the sale of commissions to the intended purpose, it is His Majesty's command that the agent to whom the purchase money be paid, shall be instructed to retain in his hands one-third of the amount in each case, to be paid to the officers who propose to emigrate, and who shall have obtained permission to dispose of his commission, or his half-pay, with that view, upon his producing to the agent a certificate, signed by the master of the vessel, that he has engaged his passage on board such vessel for the purpose of proceeding direct to the colony.

By His Majesty's command,

HENRY TORRENS, Adjutant-General.

CIRCULAR, No. 647,

War—Office, 21st November, 1828.

SIR,—The King having been graciously pleased to direct that the several rules and orders under which pensions and allowances are granted, on account of wounds received in actions, should be consolidated and amended that the certain additional regulations relative thereto, shall be established, I have the honour to transmit for the information and guidance of the officers under your command, a copy of the amended regulations, and have the satisfaction to acquaint you that His Majesty has directed, that in all cases in which officers now on the pension list shall, during periods of not less than five years, have

been in receipt of pensions for wounds *received in action*, they shall in future enjoy their pensions without being subject to the inconvenience of personally appearing from time to time before the Army Medical Board.

I have, &c.

Warrant regulating the grant of pensions and allowances to officers of the land forces for wounds received in action.

GEORGE R.

Whereas we think it expedient to consolidate and amend the several rules and orders under which pensions and allowances are granted on account of wounds received in action, by officers of our land forces, and to establish certain additional regulations, relative thereto; our will and pleasure is, that, from and after the date hereof, the regulation annexed to this our warrant, shall be the sole on this head; and that the cases in which pensions and allowances may be recommended to us to be granted to officers, shall be limited to wounds injuries received in action, and shall be established by the production of such certificates reports of Medical Boards, as shall be required by our secretary at War.

Given at our court at Windsor, this 14th day of November, in the tenth year of our reign.

By His Majesty's command,

HENRY HARDINGE.

REGULATION.

1st.—If an officer shall receive a wound in action, which shall occasion the loss of an eye or a limb, or the total use of a limb, or limbs, or shall receive bodily injury fully equal to the loss of a limb, he may be eligible, to receive a gratuity in money of one year's full pay of the regimental rank, of staff appointment, held by him at the time he was wounded.

2nd.—If an officer shall be wounded in action, and it shall appear upon an inspection made of him by a Board of army medical officers, assembled by order of the secretary at war, that such officer has, in consequence of his wound, lost a limb or an eye, or has totally lost the use of the limb, or that he has sustained a severe injury in action, fully equal in every respect to the loss of the limb, he may be recommended to His Majesty for a pension at the rate fixed in the annexed scale for the rank held by him when he was wounded, and commencing one year after the wound was received; the continuance of which shall depend upon subsequent examinations before the Military Medical Board.

3rd.—If the officer shall have lost more than one limb or eye, he may be recommended for pension for each limb or eye so lost in action.

4th,—If the wound received by an officer in action shall be so severe, in its permanent effects, as to be nearly equal but not fully equal to the loss of a limb, such officer may be recommended for a gratuity of eighteen months' full pay of his regimental rank, or staff appointment, held by him when wounded; in which case no pension shall at any subsequent time be granted to him under this regulation.

5th,—If any wound received in action shall be certified to be severe and dangerous, but in its permanent effects not equal to the loss of a limb, the officer receiving such wound may, in consideration of the expence attending the cure thereof, receive a gratuity, varying according to the nature of the case, of from three to twelve months' full pay of the regimental rank, of staff appointment held by him at the time he was wounded.

6th,—If an officer shall have held a pension for a wound received in action for a term of five years, and shall have been examined twice at the least, before a Board of Army Medical Officers, he may be recommended for the permanent continuance of such pension; but if the officer, before the expiration of the term of five years, shall have so far recovered that this wound for injury is not fully equal to the loss of a limb then he shall cease to receive such pension, and shall have a gratuity of full pay according to the degree of his injury, as laid down in article 5.

7th,—If within the period of five years after a wound has been received, an officer does not apply for a pension, or applying for it, the wound shall not have been proved to be fully and permanently equal to the loss of a limb, such officers claim to a pension shall not at any subsequent period be entertained.

8th,—No gratuity or allowance for any wound shall be granted after the lapse of five years from the time the wound was received.

9th,—No pension for the loss of one eye, from a wound received in action, shall be granted, unless the actual loss of vision shall have occurred within five years after the wound was received, and be solely attributable to such wound.

10th,—As a general rule, the pension shall be granted according to regimental ranks; but in cases in which officers with Brevet rank shall have been employed at the time they were wounded, in discharge of duties superior to those attached to their regimental commissions the pension shall be given according to the Brevet rank.

11th,—These pensions being granted as a compensation for the permanent disability sustained by wounds received in action, may be held together with any other pay and allowance to which an officer may be intitled, without any deduction on account thereof.

HENRY HARDINGE,

PAY OF GENERAL OFFICERS WHO ARE NOT COLONELS. OF REGIMENTS.

WILLIAM R.

Whereas it has been represented to us, that the general officers in our army who are not Colonels of regiments, have not been sufficiently provided for by our warrant of 22d July, 1831; our will and pleasure is, that the pay of all general officers in our army, who, under the fourth regulation of the warrant before referred to, are entitled to receive the full pay of their last regimental commission, shall from the 1st April last inclusive, be made up to the rate of four hundred pounds per annum.

Given at our court at St. James's this 28th day of May, 1835, in the fifth year of our reign.

By His Majesty's command,

HOWICK,

ORDER AGAINST DRAWING BAYONETS.

General Order, Horse Guards, 18th June, 1835, No. 520.

Some cases having lately occurred, in which soldiers have drawn their bayonets upon each other, and also upon other persons who happened to come in contact with them, whilst quarrelling in the streets and in public houses. The General-commanding-in-chief desires, that the soldiers of the army may be reminded, that they are armed for the protection of their King and country, and for the support and execution of the laws, when *lawfully* called out for these purposes; that they wear their side arms as an honourable distinction of the profession to which they belong; that they are not to use them in private broils, or even for their own personal defence upon such occasions; and that it is the duty of the soldiers to avoid resorting to places in which such broils are likely to take place, more particularly when dressed as soldiers with their side arms.

The General-commanding-in-chief is determined to put an effectual stop to so dangerous and disgraceful an offence, by the punishment and degradation of every soldier who shall hereafter be convicted of it.

To this end LORD HILL desires that the commanding officer of regimental depots, will bring into summary trial, for unsoldier-like and disgraceful conduct, every man who shall be reported to have drawn, or attempted to draw, his bayonet for the purpose of using it against another person in any case of dispute, affray, or interference.

His Lordship further desires, that every soldier convicted before a court-martial of having used, or attempted to use, his side arms in any of the cases herein contemplated, may, in addition to the punishment awarded by the court, be degraded on the public parade, in front of the regiment or depot to which he belongs, by being there striized of his bayonet, and bayonet belt, and proclaimed by the commanding officer as a man unworthy to be entrusted with the care of his bayonet, except in the ranks, under the view and command of his officer.

In all such cases, the offender shall be stripped of his side arms by the pioneers, in order to enhance his degradation. He who is thus degraded shall not be suffered to wear his bayonet or bayonet belt except upon duty, for one year from that date of his degradation; during which time he shall be denied every indulgence to which the good soldier is entitled, and shall march to church, in the ranks, with side arms. His name shall, moreover, be posted upon some conspicuous place in the barrack room of the company to which he belongs, on the barrack gate, and on doors of the guard house, and canteen.

The General Commanding-in-chief feels confident, that these measures will, with the zealous co-operation of all classes of officers and the vigilance of the Non-commissioned officers, soon rescue the army from the stigma which a few unworthy individuals would attach to it, by resorting to a base and unmanly expedient, heretofore unknown amongst British soldiers.

By command of the Right Honourable the General commanding-in-chief,

JOHN MACDONALD,

Adjutant General.

APPENDIX.

O. G. G. 20th February 1816.

SECTION II—APPLICATIONS AND RECOMMENDATIONS FOR APPOINTMENTS.

The Commander-in-Chief feels it necessary to apprise the Army, at large that there are very few cases, and those of the most urgent nature, in which he can feel himself justified in dispensing with that most salutary Rule of Discipline and good Order, which prescribes the forms and channels in and through which Applications are to be made to Head-Quarters for Appointments.

It is quite impossible to hold commanding officers of Regiments responsible for the important charge with which they are entrusted, if their legitimate authority and controul over the members of their corps is not duly maintained and upheld.

They alone are the fit judges in the first instance of the merit and claims which entitle the officers and Soldiers under their command to indulgence and consideration, and it is consequently to their Judgment and Recommendations the Commander-in-Chief mainly looks for the information which may enable him justly to determine upon the Applications which are submitted for his decision.—*G. O. C. C. 21st January 1823.*

With reference to the concluding paragraph of General Orders, dated 21st January 1823, the Commander-in-Chief is pleased to direct, that all applications to His Lordship for appointments on the Staff, shall be transmitted to the Military Secretary, through the Commanding Officer of the corps to which the applicant belongs, or through the heads of Departments, when the applicant happens to be employed in any Department of the Staff.

The transmitting Officer will give his opinion on the qualifications of the Officer applying for an appointment; especially stating whether he has received from him that support and assistance, which he ought, in his situation in the corps or Department, to have afforded.

A statement of Service should also accompany all applications of the above nature.—*G. O. C. C. 3rd July 1827.*

Under instructions from the Right Hon'ble the Commander-in-Chief, the Major General Commanding the Force directs, that all applications for Regimental Staff Appointments in the Hon'ble Company's Service, be addressed to the Adjutant General of the Army.—*9th May 1834.*

On the occurrence of a vacancy in the appointment of Adjutant, or of Interpreter and Quarter Master, in any of the Regiments of the Bengal Army, the officer Commanding the corps will accompany his report of the vacancy by a Return containing the names of the three Officers in the Regiment whom he may consider the most worthy of his recommendation to fill the situation.

2. Opposite the name of each Officer in the Return is to be inserted a detail of his qualifications in the following particulars, namely;

1st. His acquirements as an Officer, with reference to the vacant appointment.

2nd. His knowledge of the Native languages.

3rd. His temper and general conduct as an Officer and a Gentleman.

3. The proportion in which each of the Officers recommended possesses each of the three qualifications may be conveniently represented by a scale, the maximum of which can be fixed at 20; and in order that it may be clearly understood what is here meant by a scale, the following explanation is offered for the information of those concerned;

4. For instance, the scale of qualification of lieutenant A.

1st. Acquirements as an Officer, 20. (He being considered perfect.)

2nd. Knowledge of the language, 15. (He being less than what would be considered perfect by one-fourth.)

3rd. Temper and general conduct 20. (Being considered perfect.)

Or scale of qualification of Ensign B.

1st. Acquirements as an Officer, 17. (Not being so perfect as he might be.)

2nd. Knowledge of language, 20. (He being considered perfect.)

3rd. Temper and general conduct, 20. (He being considered perfect.)

5. The object aimed at in calling for such details is, that the Commander-in-Chief may be enabled justly to appreciate the comparative merits, in the estimation of his commanding officer, of each Officer recommended.

6. These reports will be considered by the Commander-in-Chief as *confidential reports*, and commanding officers are required to view them in the same light.—G. O. C. C. 16th September 1835.

In complying with the order of 16th September 1835, the officers commanding regiments have varied much one from another in the *form* of return made.

The following is to be adopted in all future cases.

Names of three officers deemed the most fit for the situation of Adjutant (or Interpreter and Quarter Master) in the ——— regiment.

	<i>Acquirements as an officer, with reference to the vacant appointment.</i>	<i>Knowledge of the languages.</i>	<i>Temper and general conduct.</i>

Date.

Signature of the Commanding Officer.

The Commander-in-Chief takes this occasion to call the attention of the commanding Officers of regiments, to the views which led him to issue the order under consideration. His object was to be enabled to place in the two situations, which, in a native corps he considers to be so important, the Officers in each regiment who are really the best calculated to fill them advantageously, and at the same time the most deserving, from their application to their duties, and from their acquirements.

In making the arrangement, he puts aside every idea of *patronage* and *personal favor*.

Having done so, he expects that the commanding officers of regiments will do the same, and that no such feelings shall have sway in their minds, or lead to their recommendations.

If on any occasion he discovers that such has been the case, or that any under means have been used to obtain a selection for either of these appointments, the officer guilty of the same will meet His Excellency's decided reprobation and discountenance.

The Brigadier commanding the corps of artillery has represented, that the aforesaid order does not work as well in the artillery, as in the regiments of the line, owing to 'the frequent change of subalterns from one battalion to another,' and the unequal 'distribution of officers, which the exigencies of the service require.'

The order, therefore, as far as it respects the artillery, is to be modified as follows, viz. 'The officer commanding a brigade of horse or battalion of foot artillery, on a vacancy, will send in the names of three officers of the corps under his command (as at present) to the Brigadier commanding the artillery, and that officer may add the names of other officers, of the same branch, and submit the whole for his Excellency's consideration.'—G. O. C. C. 27th May 1836.

Referring to paragraph 6 of the General Order of the 16th September 1835, it will be observed that the returns required are to be considered as *confidential*. His Excellency the Commander-in-Chief therefore desires that they may, in future, be sent direct from the commanding Officer of a regiment to the Adjutant General of the Army.—G. O. C. C., 21st December 1837.

SECT. III.—BRIGADE MAJORS, FORT ADJUTANTS, &c.

The following General Orders, by the right honorable the Governor-General of India in council, dated 15th ultimo, are published for the information of the Army.—*G. O. G. G. ; 15th July 1834.*

With a view of reducing the number of officers permanently withdrawn from corps, and of extending the advantages of staff employment more generally than the system which now obtains will admit, the right honorable the Governor General of India in council is pleased to resolve that henceforward the following situations shall be held only by officers whose regiments are serving at the stations or forming part of the garrisons to which the appointment appertains. Present incumbents are exempted from the operations of this rule:

Brigade Majors.

Cantonment Adjutants.

Line Adjutants.

Fort Adjutants, when the appointment is held

by an effective officer.

As officers who may hereafter be nominated to any of the above appointments, must return to regimental duty on their corps marching from the station of garrison in which they are employed on the staff, the absentee regulation will not be considered applicable to them.—*G. O. V. P. 7th August, 1834.*

The right honorable the Governor General of India in council is pleased to notify, for general information, that the provisions, of the Government General Order dated the 7th of August 1834, which directs, that the staff situation therein specified shall be held only by officers whose regiments are serving at the stations, or forming part of the garrisons, to which the appointments appertain, is not applicable to the situation of Fort Adjutant of the fortresses of Fort William, Fort Saint George, and Bombay Castle.—*G. O. G. G. 9th June 1841.*

With reference to the General Order by the Right Hon'ble the Governor General of India in council, dated the 15th July 1834, requiring that the situation of Brigade Major or Fort Adjutant shall only be held by an officer whose regiment is serving at the station, or forming part of the garrison to which the appointment appertains; His Excellency the commander-in-chief, with a view to the preservation of the public records belonging to each station, is pleased to direct, that a register shall be kept in every Brigade and Fort Adjutant's office, of the several documents, which may be therein deposited. The Brigade Major or Fort Adjutant relinquishing his office must transfer this book, together with all records to his successor, who will carefully compare the entries in the register with the documents made over to him, and on satisfying himself of the correctness of the former, he will give a receipt for the same, after which he will be held responsible for the public documents in the office, and bound to transfer them to his successor in the state in which he may have received them.

This register is to be retained in the Brigade or Fort Adjutant's office, as the case may be.—*G. O. C. C. 8th April, 1836.*

SECT. IV.—COMMAND BY CIVIL STAFF OFFICERS.

The honorable the Vice President in council is pleased to direct, that the following General Order by the right honorable the Governor General, be published for the information of the Army:

G. O. G. G., Simla, 4th July 1831.

A specific reference having been made to the Governor General upon the subject of the right of Military men employed in any civil branch or the army, or under the civil Administration of Government, to take Military command by virtue of their commissions, when entitled by seniority to claim the same, it has been deemed necessary to lay down a general Rule, applicable to the service of the three Presidencies. The following Order has accordingly been passed, with the concurrence of his Excellency the commander-in-chief of His Majesty's and of the Hon'ble Company's forces in India.

Military men, when holding situations in any civil branch of the Army, or under the civil Administration of Government, cannot be allowed to claim or exercise the right of command, as senior officers, by virtue of their commissions, without first resigning and relinquishing their civil employ or situations.

The distinctions and advantages of command are claimable only by those who are in the exercise of their profession, may be called upon for Military duties, are liable to the privations and hardships of active service. By accepting civil employ, a military man obtains present exemption from the severer duties of his profession, and generally superior emoluments, he cannot therefore be permitted to unite with the advantages of this line of service, the privilege of asserting a claim to supersede those, who, in the routine of duty and of promotion become, entitled to a military charge or command.

The above Order is not intended to apply to officers placed with detachments, or otherwise, in the temporary charge of districts by military authority, pending operations, although performing civil duties in consequence of such an appointment. Employment of this description may fall to any officer in the course of his professional service, and cannot, therefore, be considered to involve any forfeiture of military privileges.—*G. O. V. P. 29th July 1831.*

With reference to the General Order by the right honorable the Governor General, dated Simla, 4th July, 1831, the following list of public officers and departments under the Bengal Presidency, to which the provision contained in the 2nd paragraph of that Order is declared applicable, is published under His Lordship's instructions for the information of all concerned.

SECT. V.—COMMISSARIAT DEPARTMENT.

The Honorable the Governor General of India in council is pleased to lay down the following Rules for the Appointment and Promotion of officers in the Commissariat Department.

1st.—The commissariat at the Presidencies of Fort William and Agra together, and of the Presidencies of Fort Saint George and Bombay severally, shall consist of—

One Commissary General.

One Deputy Commissary General.

Assistant Commissaries General.

Deputy Assistant Commissary General.

Sub Assistant ditto ditto.

The number of each of the three latter grades being regulated from time to time by the several governments respectively, according to the necessities of the service; and it shall be considered the imperative duty of the several commissaries general to report to government, whenever they may find, that the number of officers can be reduced consistently with the efficiency of their respective departments.

2nd All appointments to the commissariat shall be made from the European commissioned ranks of the Honorable company's army, but no officer shall be held eligible to the appointment, who has not passed an examination in the native languages.

3rd Every officer on his first appointment to the commissariat shall enter the department at the bottom of the junior grade. The only exception to this rule will be in the case of the commissary general who may be selected from the army at large, and be at once appointed head of the department, due attention and consideration being of course given to the service, claims, and fitness of the officers already serving, or who may have served in the department.

4th No sub-assistant shall be promoted to the grade of the deputy assistant who has not served three years in the former, and no deputy assistant to the grade of assistant commissary general who has not served four years as a deputy assistant, or seven years in the department; nor shall any assistant commissary general be promoted to deputy commissary general who has not served five years as an assistant, or twelve years in the department.

5th If there should be no officer in one grade of sufficient length of service in the commissariat, qualified under these rules to be promoted to the next, an officer will be appointed, when a vacancy occurs, to the lowest grade, and the promotion will be made only when the obstacle here supposed no longer exists. But seniority alone is not the only qualification for promotion from one grade to another, as superior claims, founded on services performed and supported by the recommendation of the commissary general, will have the preference, as laid down in General Orders by the supreme government, dated the 22d December 1815, 27th March 1819, and 24th April 1822; provided the individual shall have served in the Department the period necessary under these rules to qualify him for promotion.

6th All officers of the commissariat are subject to the staff regulations, on being promoted from one rank to another in their respective Regiments, but any officer in charge of a branch of the Department on actual field service, or with a foreign expedition, who may become ineligible by Regimental promotion may be continued in charge until such time as the commissary general can relieve him without inconvenience to the public service.

7th Officers leaving the Department on furlough to Europe, if re-appointed after their return, will have to enter at the bottom of the list of sub-assistants but officers compelled by sickness to return to Europe on medical certificate, and officers removed from the Department by promotion in their Regiments, will be held eligible to be re-appointed to any grade which their previous length of service in the Department may entitle them to hold under these rules, and the general regulations of service; provided that, on appointment they are not placed above any who were previously their seniors.

8th Officers temporarily appointed to the commissariat by government, will receive while so employed, an allowance of 150 Rupees per mensem, but, without any claims to be confirmed in the office, and the same rule will apply, to temporary appointments made on emergency by commanding officers, on the application of officers of the commissariat suddenly obliged to quit their charge or otherwise, provided such appointments be confirmed by Government. — G. O. G. G., 28th April 1835.

SECTION VI.—DETACHMENT STAFF.

His Excellency the commander-in-chief is pleased to direct that whenever a detachment is sent from a regiment, the strength of which renders the service of

an Adjutant requisite, the nomination is to be made by the officer commanding the regiment previous to the departure of the party; in like manner, when a detachment composed of details from different regiments is made from the headquarters of a district or station, and for the staff duties of which an officer is allowed by existing regulations, the Brigadier, or other superior officer, detailing the party for the duty, will nominate the staff officer in his district or station orders.—*G. O. C. C.*, 30th January 1838.

Several instances having recently occurred of adjutants being nominated to perform the duties of detachment staff, when quarter masters were present and available for the situation, the commander of the forces directs attention to General Orders by the Governor General of the 16th December 1816, which are now republished for general information, and ordered to be strictly conformed to.—*G. O. G. G.*, 16th December 1816.

The Right Honorable the Governor General in council, adverting to the regulation of the 6th April 1814, whereby the post of adjutant and quarter master of the Native Infantry is abolished, is pleased with reference to General Orders by Government, bearing date the 15th January 1811, to direct that when a detachment consisting of the actual strength of two and less than three battalions shall be formed for service, either offensive, or defensive, the senior interpreter and quarter master therewith shall perform the staff duties of such detachment with the extra allowance of sonat Rupees 60 per mensem; or where no officer of this description may be present, the senior adjutant with detachment is to be appointed to that duty with a similar allowance.

This rule is also to obtain in cases where detachments may be formed consisting of the strength of one, and less than two battalions between neither an adjutant, or interpreter and quarter master may be present with such detachment, an officer is to be then specially appointed to act as detachment staff with the full staff allowance of an adjutant of a battalion of native infantry.—*G. O. C. C.*, 6th February 1839.

Doubt having been expressed as to the nature of the seniority contemplated in the Government General Order of the 16th December 1816, touching the selection of an officer to perform the duty of detachment staff with a detail of two or more regiments of the line, it is directed, that seniority in army rank, and not seniority as a staff officer is to be considered to give a claim to the situation.—*G. O.*, 23rd June 1840.

SECTION VII.—PROPORTION OF OFFICERS FROM EACH REGIMENT.

The Honorable the Court of Directors having determined that not more than five Officers shall be simultaneously absent on staff employment from any one corps whether cavalry, or infantry, the right honorable the Vice President in council, with the concurrence of the Governor General, is pleased at the earnest recommendation of the commander-in-chief to establish on this head, a further restriction as to the grades from which the five individuals are to be taken.

The efficiency of the army in all its branches, being of the last consequence, it is deemed highly expedient towards the arrangement of so important an object, that a proper number of experienced officers should be present with every regular Regiment, to contribute their aid in sustaining its discipline, and in diffusing that confidence amongst native officers and men the which conduces so essentially to the well-being of any army constituted as that of Bengal. To secure therefore as far as means at disposal will admit, the services with every corps of a portion of competent officers, the number of Regimental captains that may be absent at one time from the same corps of the line, on staff, or other permanent public employment, is restricted to two.

The measure here indicated, as calculated to conduce to the greater efficiency of the army, is designed to be wholly prospective, and by no means to affect present incumbents of the grade of captain, unless in such cases of emergency as his excellency the commander-in-chief may feel constrained to bring to the special notice of government.

To obviate all occasion for references, and for decision, on particular cases hereafter, the Vice President in council is pleased to announce as a rule for

future guidance that, when two captains are absent from a corps in public situations, and a subaltern of the same corps holding a detached staff situation, comes to be promoted to the rank of regimental captain, the officer so promoted shall be the individual to vacate his appointment, under the operation of these orders.—*G. O. V. P., 17th August 1827.*

The right honorable the governor general in council is pleased to relax the operation of the rule published in general orders of the 17th August last limiting the number of officers to be simultaneously absent from any one corps on staff employ, in favor of officers unequal for a limited period to the performance of regimental duty, from wounds received on service, and to declare all such officers eligible to be appointed to staff situations without reference to the number absent: from the corps to which they belong, but this relaxation of the rule in favor of wounded officers is not to be considered as giving any permanent increase for staff employ from the regiments to such officers, the number allowed from them being, as from all other corps, limited to five to which it will be reduced as situations lapse.—*G. O. G. G. 26th October 1827.*

The governor in council having understood, that the phrase 'permanent public employment,' used towards the close of the 2nd paragraph of general orders of the 17th August last is liable to misconception, is pleased to explain that the term 'permanent' has reference, not to the condition on which any public employment is held—i. e. whether the occupant be the real incumbent, or a *locum tenens* only—but to the nature of the employment; and was intended to exempt from the restrictions of the cited orders, such staff situations as may be found requisite on the formation of any army for service or of a body of troops for any special purpose; in which, and all similar cases, the officers to fill the brigade, detachment, or other local and temporary staff appointments, may be drawn from the corps composing the force, notwithstanding the provisions of the orders in question, regarding the number and rank of absentees.—*G. O. G. G. 28th December 1827.*

The governor general in council is pleased to direct the publication in general orders of the following extracts of general letters from the honorable the court of directors, under dates the 26th November and 3d December 1828, and to declare their provisions alike applicable to the three presidencies:

General Letters, 26th November 1828.

Para. 2. 'We think it necessary to desire that no officer be withdrawn from his regiment for the purpose of being appointed an extra or supernumerary Aide-de-Camp. Any officer, so withdrawn, and who does not hold an authorized staff appointment, will be directed to rejoin his corps, and in no case is any officer not of the regular established number of Aides de-Camp to be granted any allowance as such.'

General Letter, 3rd December, 1828.

Para. 17. 'You are aware of our great anxiety that the demands for the staff should be supplied equally from all the regiments in the service. Our orders limiting the number to be withdrawn from any one regiment to five, were dated on the 25th November 1823, and we are glad to perceive from your general order of the 17th August 1827, arising out of a valuable suggestion by Lord Cumbermere, that those orders have been made more precise in their application. We fully approve of the new regulation as published by you on that occasion; and we desire that it be strictly enforced at our several presidencies.'

18. 'The number of officers in each regiment, placed at your disposal for the staff, being more than adequate for all the demands which have ever been made for the services of officers on detached duty, we think it advisable still further to contract the limits of selection laid down in our letter of the 25th on November 1823, and we accordingly desire that no Regiment of Cavalry or Infantry shall have three officers withdrawn for detached employment, until all regiments have two;—nor four, until all have three.'

20. 'Sufficient time has now elapsed since our orders of the 25th November 1823 were received and promulgated, to allow of their having been

brought into complete operation in every regiment, but if at the date of receipt of these orders, any regiment shall have more than five officers absent from it on detached employment, we desire that all in excess to that number be immediately relieved from their staff employ, and directed to rejoin their corps.

21. 'In any future case, when four officers shall have been withdrawn from one Regiment on detached duties, and the number allowed for as being absent on furlough, (namely four) shall be complete, we desire that, if an additional officer shall require to proceed to England, on sick certificate, one of the four absentees on detached duty (the last withdrawn) be required to rejoin his corps.'

22. 'We have fixed the number at four, because by the operation of our present orders no more than this number can be withdrawn for staff employment, the number absent appearing by the returns, to average rather less than four per Regiment.'

The honorable court having expressed their entire approval of the regulation published to the army, under date the 17th August, 1827, and desired that it be strictly enforced at their several presidencies, the general orders of the 23rd February, 1829, modifying the regulation above referred to, are accordingly cancelled.—*G. O., 15th May 1829.*

With reference to the regulations now in force, for restricting the withdrawal of Officers from Regimental duty for staff employment. The Right Honorable the governor general in council is pleased to direct, that the following extract (Paragraph 3, of a letter, No 47,) from the hon'ble the court of directors, in the military department, under date the 8th May, 1833 be published in general orders, and that the rule therein laid down be made applicable to the three presidencies:

Para. 3. 'Although we attach a very high importance to the rules established for restricting the withdrawal of officers from Regimental duty for staff employment, we shall not refuse our sanction to the exception recommended by the commander-in-chief and by the governor general, in favor of officers selected for the personal staff of the governor general, the commander-in-chief, the vice president in council, and the Aides-de-Camp of general officers on the staff but upon the condition, (suggested by the governor general,) that 'no officer shall be informally withdrawn from his corps to the obvious detriment of its efficiency;' and that an officer taken out of order from a regiment shall not be eligible for transfer from a personal staff appointment to any permanent detached employment, unless whilst so withdrawn, the staff absentees from his corps shall be brought below the prescribed number.'—*G. G. G. O. 15th May 1829.*

With reference to the extract of a general letter from the honorable the court of directors, dated the 3rd December 1828, published in general orders of the 15th May 1829, regulating the number of officers allowed to be absent from any one regiment on staff employ, it is hereby notified to the presidencies, under instructions from the right honorable the governor general, that the honorable court have determined, in accordance with the views of the supreme government that when it becomes necessary that officers, one or more should be restored to their corps, otherwise than by promotion under the provisions of general orders of the 17th August 1827, such officers, shall be those withdrawn for staff duty.—*G. O. V. P. 30th January 1832.*

The attention of the government having been drawn to clauses 2 and 4, of general orders of the 17th August 1827, the former, restricting to two the number of Regimental captains that may be absent at the same time from a corps of the line, on staff or other public permanent employ,—and the latter, providing for the return to his corps of any staff officer on promotion to the rank of captain, who would otherwise be an absentee in that grade in excess to two, the governor general of India in council, has had under consideration the consequences which have resulted from their combined operation, and being of opinion, that strict adherence to the rules laid down in those clauses

must, occasionally, be productive of injury to the public service, and unnecessary hardship to individuals, is pleased to modify the provisions of both, to the extent herein after specified.

When two regimental captains are absent from a corps of the Line, on Staff or other permanent employ, a third captain shall not be withdrawn for such employment, but a staff officer promoted from the rank of subaltern to that of regimental captain: shall not, in consequence of his promotion, be required to vacate an appointment which he previously held, and to which he is eligible in his advanced rank, although two captains be already absent from his corps in staff or other permanent situations, unless the commander in-chief should consider the return of such officer to his regiment essential to its due efficiency, and by application to the government obtain his sanction to that measure.

When at any time, under the operation of this order, the number of captains absent from a corps of the Line shall have been encreased beyond two, no other captain shall be taken from such corps for the staff, or other detached employ, till the number of its absentees in that grade be reduced to one.—*G. O. G. G. 25th May 1835.*

The following extract (*paras. 3 and 4*) of a Military letter from the Hon'ble the Court of Directors, No. 31 of the 1st May 1836, is published for general information:

Letter dated 15th June 1835, (No. 94)

Forward copy of a general order issued modifying the 2nd and 4th clauses of the government orders of 7th August 1827, and strongly recommend the discontinuance of the regulation which compels Government to select officers for staff employ from the Regiment from which fewest are absent; a restriction which is in the opinion of government both embarrassing and injurious to the public interests.

and that no more than two of these withdrawn should be captains, and three subalterns.—*G. O. G. G. 5th October 1836.*

It appearing that some doubts are entertained regarding the intention of general orders of the 17th August and 8th December 1817, regulating the number of officers permitted to be absent from regiments of the line, on staff or other permanent employ, the governor general in council directs, that in cases wherein an officer may hold an effective staff situation to which he is eligible both as captain and subaltern, he is not to be considered as disqualified for his appointment on promotion to a company, though two captains, one of whom, officiating in a situation which renders him liable to removal, should already be absent from his regiment; in this case, the officiating officer, and not the one newly promoted, would be required to join his corps.—*G. O. G. G. 26th December 1838.*

SECT. VIII.—QUALIFICATION AND ELIGIBILITY FOR THE GENERAL STAFF.

By Service and Rank.—Agreeably with orders recently received from the Hon'ble the Court of Directors, the following regulation is published, for general information.

No officer will henceforward be appointed to fill any situation on the general staff of the Army, who shall not have served four years, three of which in the actual performance of regimental staff duty with a corps.

An officer may hold the situation of aide-de-camp after having served one year with his regiment, but the period passed in that situation, except when employed on field service, is not to be counted in the regimental duty as above prescribed.

General orders of the 20th August 1811 and 18th March 1820, are hereby cancelled.—*G. O. G. G. 31st January 1823.*

The right honorable the governor general in council is pleased to direct, that the provisions of general orders, under date the 31st January 1823, prescribing the period of service necessary to entitle an officer to hold any situation on the general staff of the army, be extended to every civil situation to which a military officer is eligible.—*G. O. G. G. 12th August 1825.*

In obedience to instructions, received from the honorable the court of directors, the governor general of India in council is pleased to revive and republish the rule laid down in paragraph 21 of general orders, dated the 12th August 1824, relative to appointments to the general staff.

'No officer shall be eligible to hold the situations of adjutant general, quarter master general, military auditor general, or commissary general, who has not previously attained the rank of major in the army, unless he shall have actually served twenty years in India. The deputies in those departments must have attained the rank of captain in the army, or have served twelve years in India; and the assistants, if they, have not attained the rank of captain, must have served ten years in India.'

The above revived rule cancels the regulation published in general orders by the Government of India, under date the 24th September, 1834.—*G. O. G. G. 30th November 1835.*

No officer transferred from one regiment to another shall be eligible to a staff or civil appointment, although otherwise qualified, unless he shall have served two years in the regiment to which he may have been transferred.—*G. O. V P, September 1832.*

Knowledge of the Native Language.—The honorable the court of directors, having in a recent despatch again expressed their anxious desire, that a competent knowledge of the native languages should be generally diffused among the officers of their army, and having at the same time deemed it necessary to prescribe that a certain degree of proficiency in one or more of those languages be in future considered an indispensable qualification for staff employment, the right honorable the governor general of India in council, with the view of giving effect to the wishes of the honorable court, without prejudice to the just claims of the many in other respects highly qualified officers now in the service, is pleased to publish the following rules for general information:—

I. No military officer who is now in the service, or who may enter it hereafter, will be deemed qualified for, if eligible to, the commissariat department, or the appointment of regimental interpreter, unless he shall have passed the examination in the native languages prescribed for candidates for the latter situation.

II. No officer who may enter the service hereafter will be deemed eligible to any staff situation, (except a temporary one during actual service in the field) or civil employ, until he shall have passed an examination in the Hindoostanee language.

III. Notwithstanding that officers now in the service, are excepted from the restrictive operation of the immediately preceding rule, it is to be distinctly understood that a competent knowledge of Hindoostanee, though not in their case an indispensable qualification for the situations open to others on the condition of passing an examination in that language, will, as hitherto, be always considered to confer a strong additional claim to nomination to the staff.—*G. O. G. G. January 1837.*

*General Officers and Brigadiers—General Letter, dated 30th December 1835.**Letter, from 16th Sept 1824.*

Paras, 5 to 12. On the death of Major General Thomas, Government was obliged, under the Regulations of 1769, to re-appoint a Major General (Martindell), who had already had a tour on the staff. Adverting to the Non-issue of His Majesty's Brevets, owing to a state of peace, and to the general inexpediency of re-appointing the same Officers to the General Staff; it is earnestly submitted that the senior colonels should be declared eligible to the same advantages in regard to the Staff as Major Generals, when there are in India, no Officers of the latter rank, who have not already served their tour of Staff duty. The colonels thus appointed will vacate the situation on the arrival of a General Officer from Europe, and the time of their service as colonels will be ultimately considered as so much of their service on the Staff. Another vacancy having occurred by the addition of a fifth General Officer on the Staff, colonel Shudham, the senior Officer of that rank, has been appointed to fill it.

Para. 2. We are satisfied of the prudence of the measure proposed in these paragraphs.

3. We accordingly authorise you when no General Officers shall be present, except such as shall have had a tour on the Staff, or shall be unfit for such a command, to nominate colonels to the Staff on the allowances of Major Generals.

4. A colonel so nominated to the Staff will, however, be expected to vacate his appointment on the arrival of a General Officer eligible to replace him, and the time during which a colonel shall have served on the Staff, shall be reckoned as part of the four year's Staff tour, prescribed by the Regulations, so that no Officer shall serve more than four years on the Staff except under the special circumstances provided for in our Orders of the 20th of April 1803—G. O. G. G., 6th May, 1829.

5. Whatever General Officers may be required for the Company's Indian Staff, shall be taken from the senior colonels of their service, to whom the temporary rank of Brigadier General will be granted, until by the operation of His Majesty's General Brevets, the armies of India shall be again supplied with the requisite number of General Officers.—G. O. G. G. 6th May, 1826.

His Excellency the Commander-in-chief having brought to the knowledge of government, the prevalence of an opinion among the senior field officers of the army, that they are by right entitled to succeed, in virtue of their seniority, to the commands exercised by Brigadiers on the permanent establishment; the right honorable the Vice President in council deems it necessary to put an end to so groundless a misconception.

His Lordship in council is accordingly pleased to direct, that it be henceforward distinctly understood, that seniority does not confer the right of succession to the rank of Brigadier, nor to any extra regimental command of trust and importance.

It is expected by the honorable the Court of Directors, that the most efficient field officers of their army will be selected for employment as Brigadiers, as will be seen from the subjoined extract of a letter from the honorable court, which is published for general information;

Extract General Letter, from the honorable the Court of Directors, dated 21st December, 1825.

Para. 27. This complaint, even if just, in reference to the general officers, will not apply to the field officers of the Company's army from whom our India Governments have the power of selecting the most efficient, and employing them as Brigadiers whenever their services are required.—G. O. V. P. 20th April, 1827.

The following Extracts from a letter No. 65, from the honorable the court of Directors to the Governor of the Presidency of Fort William in Bengal, under date the 17th December, 1834, are published in General Orders.

' We have no hesitation in expressing our opinion that our officers have no strict right to succeed to the appointments of Brigadier General on the ground of mere seniority, these being staff appointments involving both confidence and responsibility. But we must express our firm reliance on the discretion and good feeling of our several governments, that the claims of officers to these or any other appointments arising out of length of service will never be set aside, except on public grounds.

' With respect to the question raised as to the disqualification of colonels eligible by seniority to divisional commands to hold certain offices which they could not hold under the present Regulation as General Officers,—We are of opinion that colonels so situated ought to have the option either of retaining their appointments, or of succeeding to divisional commands as Brigadier Generals; ; but if they were to prefer the retention of their offices, the divisional commands should not afterwards be open to them, except in special cases to be determined by government, and reported to us for our approbation and sanction.

' The same principle ought to be applied in case of senior Brigadiers waving their right to succeed to divisional commands. If they prefer remaining as Brigadiers, the superior appointment of Brigadier General ought not, in our opinion, to be open to them, except in special cases.

' All the members of your government concur in recommending that general officers or colonels at home, appointed by us to divisional commands, should not displace officers previously in possession of these appointments, but wait the occurrence of vacancies after their arrival at the respective Presidencies. In compliance with your recommendation, we direct that henceforth a general officer or colonel, appointed by us to a divisional command, shall not succeed to that command until the occurrence of a vacancy; unless we shall have specially directed otherwise.'—*G. O. G. G.*, 1st June, 1835.

Ordnance Officers—His Lordship in council, is further pleased to direct, that the 4th, 5th and 6th paragraphs of the General Order of the 16th May 1818, be rescinded, and that, in lieu thereof, the following modified Regulations be considered in force from this date, and adopted accordingly in place of the paragraphs above referred to.

Para. 4. No commissioned officer shall be eligible to the ordnance commissariat, until five complete years from his first joining the artillery. After his first appointment, as deputy commissary, he will continue to rise to the head of the list of commissaries, provided his zeal and conduct be satisfactory to government, unless he be promoted, in the mean time, to the rank of major in the regiment of artillery, when he shall vacate his appointment.

Para. 5. The selection for the principal and deputy principal commissaryship of ordnance, will be made from the actual deputy principal commissary, full commissaries, and officers who have formerly served as such, or from the field officers of the corps of artillery at large, at the discretion of government.

Para. 6.—The situation of deputy principal commissary may be held either by a regimental field officer, or captain, if of the latter rank, he be serving in the department; but no officer under the degree of a field officer in the army, is to be eligible to the principal commissaryship of ordnance.—*G. O. G. G.*, 4th August, 1821.

Quarter Master General's Department.—It will be a permanent Regulation of this department, that the candidate for appointment shall previously produce a certificate either from the surveyor general in India, the chief or acting chief engineer, or the superintending engineer of the province in which he is stationed, of his possessing a competent knowledge of the theory and practice of survey.—*G. O. G. G.*, 12th August, 1821.

Interpreters.—His Excellency the Commander-in-chief, considering it of primary importance and advantage to the service, that the situation of interpreter and quarter master to Native corps of the line should be held by officers fully competent to the performance of the duties; and also with a view of encouraging a more general study of the Native language, is pleased to enact the following rules for the attainment of these desirable objects.

Officers applying under the sanction and approbation of the commanding Officers of their corps for the situation of Interpreter, shall be required to pass an examination in the Hindoostanee language before a committee of competent Officers, to be assembled by order of the commander-in-chief at the Head Quarters station of the Division.

The committee will forward to the Adjutant General of the Army, a detailed report of the examination, with a certificate specifying the nature of the Officer's proficiency, and will state their opinion of his competency to conduct the duties of an Interpreter to a court martial.

The favorable certificate and opinion of the committee will be sufficient authority in the first instance to render an Officer eligible to hold the situation, but before he can be finally confirmed in it, he will be required to undergo, with the sanction of the Governor General in council, a further examination by the public examiners of the college of Fort William, and to obtain from them a favorable certificate and opinion of his qualifications. And for this purpose he will (on the occasion of his arrival within the limit of the Presidency division, either in the course of relief or otherwise) be directed to repair to the Presidency.

But Officers within the limits of the Presidency division, at the time of their application for the situation of Interpreter will not be required to pass any preliminary examination.

The foregoing rules will be applicable to all Officers recommended to officiate as Interpreters; and Officers now actually holding the situation of Interpreters, will be required to pass the examination above prescribed twelve months after the promulgation of this order to their corps.—*G. O. C. C. 17th February 1823.*

The commander-in-chief is pleased to notify to the subaltern Officers of the Army, the scale of qualifications expected in the candidates for the office of Interpreter in Native corps and the tests by which such qualifications are to be ascertained; viz.

1st. A well grounded knowledge of the general principles of Grammar.

2nd. The ability to read and write with facility the modified Persian character of the Oordoo and the Davi Nagri of the Khurree Bolee.

3rd. A colloquial knowledge of the Oordoo and Hindoostanee, sufficient to enable him to explain with facility, and at the moment, any orders in those dialects or to transpose Reports, Letters, &c. from them into English.

The tests by which these qualifications are to be tried—are:

1st. By well selected questions not of niceties, but of the general leading principles of Grammar.

2nd. By *viva voce* conversation with the Examiners.

3rd. By written translations into Hindoostanee in both characters, of selected Orders or Rules and Regulations.

4th. By reading and translating the Bagh-o-Behar in Hindoostanee; the Prem Sagur in Khurree Bolee; and the Goolistan or Uawar-i-Soheily in Persian.

It will be the duty of committees of examination to ascertain the attainments of candidates by the foregoing rules; and their Reports are to specify the proficiency of the party examined, under each of those heads.

The commander-in-chief desires it to be further understood that previous examination in the college of Fort William, if successful, will be considered as sufficient proof of qualification: but that the examinations which took place of Officers quitting the Barasut Institutions, which will not exempt candidates from the operation of the foregoing Orders.—*G. O. C. C., 27th May 1823.*

The commander-in-chief impressed with the necessity of obviating the inconvenience likely to arise to the Public Service, from the appointment of Interpreters who are not qualified for the duties of the Office, has determined not to appoint any Officer permanently to that situation, who shall not have passed an examination, and have been reported qualified for it.

The recommendation of the commanding Officer of the Regiment will be so far attended to, that the Officer recommended will be appointed to act as Interpreter and Quarter Master until the commander-in-chief shall have

ascertained from the Report of the committee of Examination, what Officer is best qualified for the situation.

When it shall happen, which the commander-in-chief trusts it seldom will, that there is no Officer in the Regiments possessed of the requisite qualifications, the commander-in-chief will consider it his duty to appoint an Officer from another corps, to act as Interpreter, until the Regiment shall produce one qualified for the office.

Anxious to extend the application of the principle on which this determination has been formed, and to give it practical efficiency, the commander-in-chief takes this opportunity of signifying to the Army, that in his selection of situations on the Staff depending on his recommendation, it is his intention to give ample scope to the operation of those clauses, of which an Army, constituted as this is, is so essentially in need: encouragement of merit, and remuneration of services.—*G. O. C. C., 23th December 1827.*

Under instructions from his Excellency the right honorable the commander-in-chief, qualified Officers from the infantry branch of the service will be appointed to do duty as Interpreters and Quarter Masters with cavalry corps, whenever cavalry officers who have passed the prescribed examination may not be available.

As infantry Officers are so nominated, will not be required to attend mounted and perform other duties peculiar to the cavalry branch of the service, they are not to draw any other allowances than those strictly belonging to the appointment either in cantonment or when marching.—*G. O. C. C., 14th July 1834.*

SECT. IX—QUEEN'S LOCAL MAJOR GENERALS.

The following paragraph of a Military letter from the Honorable the Court of Directors, to the address of the Governor General of India in council, No 9 of 1837, dated the 19th of December last, are published in General Orders for the information of the army.

' Para. 7. We have no objection to the promotion to the local rank of Major General of the colonels of Her Majesty's Army serving in India, who were senior as such to colonels of our Army promoted to the rank of Major General by the brevet of the 10th January 1837.

' 8. Under the special circumstances in which local Major Generals are placed, we consent to their being considered as eligible to continue to reside in India, and to hold those brigade commands which they would have held had their promotion not taken place, provided always that no interference be permitted with the commands on the general staff allotted to the Major Generals or Brigadier Generals, and Brigadiers of the Queen's and Company's forces respectively.—*G. O. G. G., 9th March 1838.*

The following Military Letter, from the Honorable the Court of Directors, to the Governor General of India in council, No. 3, dated the 11th September 1830, is published to the Army.

Military Department, No. 3 of 1839. Our Governor General of India in Council.—

We forward to you the copy of a letter from Lieut. General Lord Fitzroy Somerset, dated the 15th instant, and of its enclosures, bringing to our notice, that the arrangements agreed upon and authorized for the promotion and employment of H. M.'s Lieutenant colonels serving in India, who are senior as such to our officers promoted to be colonels and major generals, have not been correctly understood. It will be apparent, on referring to our letters of

the dates noted in the margin, that those officers of Her Majesty's service who have been promoted to be local Major Generals, are eligible to be appointed to brigade commands in divisions,

whether their regiments may be serving in these divisions or not, provided always that no interference be permitted with the commands on the general staff allotted to the Major Generals or Brigadier Generals and Brigadiers of the Queen's and the Company's forces respectively

28th Jan. 185 para. 1. to 9.

9th Dec. 1837 para. 8.

2. In our letter of the 28th January 1835 we stated that if it shall be found impracticable to make either of the arrangements then suggested for the employment of officers of Her Majesty's services, who might be senior in a division to an officer appointed to the command of that division, it would be indispensibly necessary that the officers so situated should be called upon to consider of the course they would have to take; and they must have the option of retiring from the country as they would do if promoted to be Major General on a General Brevet, and appointed to serve on the Staff. We have now to apprise you, that local Major Generals so situated may continue to reside in India unemployed, like Major Generals in our service, receiving the pay and batta of their Regimental rank, but with the understanding that the brigade commands usually allotted to the Queen's service, shall be given to the Queen's Officers available for them at each Presidency, according to seniority.

London, 11th September, 1839.—With reference to the above letter, the Honorable the President in Council is pleased to declare:

1. The local Major Generals of Her Majesty's service are eligible under the appointment of Government, for employment as Brigadiers, where Queen's troops are stationed, provided that such appointment shall not interfere with the commands on the General Staff allotted to the Company's Officers.

2. That the senior local Major Generals (of the Regiments at each Presidency) are in preference to be so employed.

3. That the Brigadier's term of serving shall be limited, as in the case of Major General, to five years; and half the number of years which any Officer may have served prior to the promulgation of this order, in command of a brigade, including any temporary command of a division, shall be deducted from that term.

4. That local Major Generals of Her Majesty's service, who prefer remaining in India, in expectation of succeeding by seniority to brigade commands may do so, selecting their residences within the Presidency in which their Regiments are serving and receiving the pay and full batta of their Regimental rank.

5. That local Major Generals of Her Majesty's service, must hereafter be held to be ineligible to retain the command of their respective Regiments, and must vacate their brigade commands on the departure of their Regiments from India, or from one Presidency to another.

6. That local Major Generals, of Her Majesty's service who have served, five years as Brigadiers, are not, without special sanction, to remain in India in receipt of full batta, although the Regiments to which they belong may still continue on the India establishment.

7. That these rules shall have effect from the date of this General order.
—G. O. P. C. 20th January 1840.

The home authorities having disapproved of clauses 3. and 6, and of the 1st provision of clause 5, of the General Order, dated the 20th of January last, the Right Honorable the Governor General of India in Council in obedience to the instructions of the Hon. the Court of Directors, promulgates, for general information, the following revised rules for the employment in India of local Major Generals of her Majesty's service,

1. Local Major Generals of Her Majesty's service are eligible, under the appointment of Government, for employment as Brigadiers, where Queen's troops are stationed, provided that, such appointment shall not interfere with the commands on the General Staff allotted to Company's Officers.

2. The senior local Major Generals of the Regiments at each Presidency are in preference to be so employed.

3. The period for which local Major Generals may retain brigade commands is not restricted to any number of years, but they must vacate such commands on the departure of their Regiments from India, or from one Presidency to another.

4. Local Major Generals of Her Majesty's service who prefer remaining in India, in expectation of succeeding by seniority to brigade commands, may do so, selecting their residences within the Presidency in which their Regiments are serving, and receiving the pay and full batta of their Regimental rank.

5. Local Major Generals of Her Majesty's service are permitted to remain in India unemployed; they are not precluded from retaining the command of their respective Regiments, which they may, at their option, continue to exercise, provided there shall be no interference with the brigade or other commands allotted to Company's Officers.—G. O. G. G. 2nd July 1840.

The following extract of a Military Letter N. 10, dated 4th November, 1840 from the Honorable the Court of Directors, to the Governor General of India in Council, is published for general information:

Reply to a letter dated 13th August 1840, No. 87. —Transmit a G. O. 29th July 1840, relative to the position of local Major Generals of Her Majesty's service in India; also the minutes which have been recorded on the subject, to which the Court's attention is earnestly solicited.

The principle of the regulations for the employment of Her Majesty's local Major Generals in fixed divisional and brigade commands, as specified in paragraph 2, of our dispatch of the 20th June last, and which provides effectually against any inconvenient interference of our Regimental Officers of the Queen's Army with appointments on the divisional or brigade staff, is understood by the General Commanding-in-Chief and by ourselves, to be equally applicable to the employment of those Officers with field forces. You will accordingly take care that this principle is applied in all cases when Officers are

appointed to commands as Major General, or Brigadier General and Brigadiers.

In conformity with the principle above referred to, local Major Generals absent from their Regiments, are not entitled to resume regimental command or employ, unless such resumption shall be permitted as compatible with your arrangement for the brigade and divisional commands of the force to which the Regiment is attached.—G. O. G. G. 29th January 1841.

SECT. X.—VACATION OF APPOINTMENTS.

It being desirable to fix, by a general rule, the limits under which Officers holding staff appointment, or other Public employments, under this Presidency, may retain them or otherwise, on promotion to superior rank, and to provide, generally, for all doubts or contingencies, so far as they can be foreseen, by establishing one equal and uniform principle, the following limitations are to have prospective effect from this date:—

No Appointment or public employ whatever, not included in the above enumeration to which a Military Officer is eligible, shall be retained in future on the promotion of the party of the rank of Regimental Captain, excepting professional Officers in the corps of Engineers, who are not limited under the rank of Acting Chief Engineer.—*G. O. G. 23rd May 1823.*

In cases where Officers unite a Military command with a Political situation, one of which would be vacated on the attainment of superior rank under the operation of the General Orders, 23rd May last, but which the Public service may require should remain united, the disqualification for either, is then only to take place on reaching the grade assigned, as a limit for the Political situation.—*G. O. G. 4th July 1823.*

The situation of Lieutenant Colonels Commandant, both in extent of command and pecuniary receipts, having undergone a material change by the Orders of the Hon'ble the Court of Directors, this day published to the Army, and placed on an entire new footing from that which was contemplated by Government, when it was directed that certain staff appointments should be vacated on the attainment of that grade; the Right Hon'ble the Governor General in Council considers it equitable to revise the clause of general orders 23rd May 1823 above alluded to, and to resolve that it shall not come into operation with Lieutenant Colonels Commandant, until they shall be entitled to the off-rackoning dividend of their respective corps.—*G. O. G. 6th May 1824.*

‘On the last case put by the Governor General, possibility of their being in India supernumerary Major Generals in the company's service,—We concur in opinion with him, and the other members of your government, that no reason exists why, Major Generals should, in that event, vacate any office or staff appointment of which they may be in possession until it actually comes to their turn to accept or decline divisional commands, when the same rule will apply to them as we have now directed to be applied to Colonels holding staff appointments.—*G. O. G. 1st June 1835.*

The Honorable the Vice President in council is pleased to direct, that the following Extract, (*Para. 1*) from a Military Letter from the Honorable the Court of Directors, No. 70 of 1830, dated 28th July be published in General Orders.

Para 1. 'In compliance with your recommendation, and for the reasons which you have urged in support of it, we authorize you to extend the term of service of General Officers on the staff of your Presidency, from four to five years; and we permit Major General Pine to have the benefit of this regulation.'—*G. O. V. P. 22d November 1830.*

The following paragraphs of a Military Letter, No. 29, from the Honorable the Court of Directors, to the Government of Bengal, dated the 5th April, 1837 are published for the information of the army:—

Para. 1. Having had under our considerations the regulations affecting the appointment of Officers to established brigade commands we have resolved that such Brigadiers, of the 1st and 2nd classes, as are regimental Colonels, and who have succeeded to the benefits of the off-reckoning fund, shall be required to vacate their respective commands after having held the appointment of Brigadier for five years; this regulation however to be subject to the same modification as the appointment of General Officers to the staff; viz. that if, on any particular occasion, you should be of opinion, that the continued service of any Brigadier is indispensable to the public interests, you may continue him in the command until our decision on his case shall be made known to you. Upon every such occasion you will furnish us with the requisite information with the least practicable delay.

2. This regulation is not to be applied retrospectively to the period which Brigadiers may have served as such, prior to its announcement in General Orders; but we are of opinion, that for every two years which they may then have served as Brigadiers, they should be considered as having served one year towards the completion of their four under the new regulation.—*G. O. G. 31st July 1837.*

APPENDIX.

PART VI.

Marine Regulations.

To

CAPTAIN

Commander of the

SIR,

I am directed by the Superintendent of Marine to request, in the event of the Ship or Vessel under your Command experiencing any detention at the Sand Heads from the want of a Pilot, that you will report the circumstance to me, when an enquiry into the causes will immediately be instituted.

2. I am further directed to inform you that the following Rules with respect to the draught of water at which Ships may be moved, have been in force since the 8th June 1846, and continue to be so:—

1st. The Officers of the Pilot Service will, as usual, take charge of inward-bound ships of any draught at the Pilot Station, but they are strictly prohibited from bringing any Vessel of more than 22 feet draught higher than Kedgerree.

2d. A Pilot must not move a Ship between Calcutta and Kedgerree either outward or inward-bound without the aid of steam, if she is drawing more than 20 feet, unless in the absence of a Steamer it becomes necessary to change her anchorage for safety.

3d. An outward-bound Ship may be moved by her Pilot from Kedgerree to Saugor with or without Steam, at his discretion, provided she does not draw more than 22 feet, but the Vessel cannot be moved at all within the limits mentioned, if her draught is beyond 22 feet.

4th. Beyond Saugor a Pilot is left to his discretion whether he will move an outward-bound Ship drawing more than 22 feet.

3. It being understood that a practice has very generally obtained among Commanders of Vessels frequenting this Port of making pecuniary Donations to the Pilot in charge of their Vessel, you are to understand that such a practice is entirely discretionary, and that Pilots are peremptorily commanded on no account, either directly or indirectly, to seek any such Donation, any Pilot so seeking a gratuity or neglecting his duty with a view to exact one, or in consequence of not obtaining it, is liable to experience the severe displeasure of Government.

4. You are requested on the Pilot boarding your Vessel to fill up the accompanying two Forms, one to my address and the other to that of the Master Attendant, in order to their being delivered to the Dāk Boat on the Vessel's arrival at Kedgerree.

5. Government having been pleased, at the recommendation the late Marine Board, to remove the interdict hitherto preventing vessels being under way in the river under any circumstances during the night, I am directed, with a view to prevent, as far as possible, any accident arising from the permission now given in order to facilitate the progress of vessels passing up and down the river, to desire that you will be particular in attending to the following directions, which the pilot is ordered strictly to require your attention to, while your vessel is between Calcutta and Saugor.

Vessels at anchor are after dark till day-light to shew a light at the star-board foreyard arm.

Vessels under way with a steamer are in like manner to shew a light at each foreyard arm, the steamer showing one where most convenient.

Vessels under way without a steamer are to show a light at the foretop gallant mast head.

6. Immediately on your arrival in Calcutta, you are to report yourself personally at the Master Attendant's office, and at your earliest convenience to communicate to him in writing the name and residence of the parties to whom the bills for pilotage, &c., are to be presented for payment. You are further requested prior to quitting your vessel, on arrival at Calcutta, to give, or to cause your chief officer to give, the pilot a certificate of your actual registered tonnage and of the draft of water at which your vessel has been piloted, as also that she has or has not been accompanied by a row boat, in order that the bills for pilotage and port dues may be correctly made out.

7. Should your ship or vessel be coming up to Calcutta, you are to land your gun-powder at the magazine at Moyapore previous to passing that place, on no account retaining on board more than one hundred pounds weight; any quantity beyond that weight being liable to seizure if found on board.

8. You are also informed that by order of the Hon'ble the President in Council your Pilot is authorized, should he have reason to suppose that the preceding order is about to be evaded by you, to refuse to proceed with the Vessel until the order is conformed to, or he is furnished by you with a written declaration on honor that no Store Gun-Powder, in excess of 100 lbs., is on board.

9. It is hereby further notified to you that you are strictly prohibited from throwing overboard, into any part of the river, ballast of any description whatever, under a penalty of Co.'s Rs. 500.

10. Under the act No. XIV of 1836, passed by the Right Hon'ble the Governor General of India in council in the Legislative Department, under date 30th May, 1836, you are required immediately on the receipt of this letter to insert under their proper heads in the accompanying printed form of manifest, all the particulars which are specified therein, relative to the goods, wares, and merchandize laden on board the ^{under} your command; and, after filling up the document, to return it, duly attested under your signature, to the pilot in charge of your vessel, to enable that officer to transmit the same to my address by the first dak that may be despatched from Kedgerree after the entrance of the vessel into the river.

11. The pilot, I am instructed to add, is prohibited, by the orders of the Right Honorable the Governor of Bengal, under the powers conferred by the 5th section of the aforesaid act, from bringing the vessel higher up the river Hooghly than Kedgerree, until the manifest of her import cargo shall have been furnished to him.

12. I am further directed to inform you that, under the 5th section of the said act, if the above manifest shall not contain a full and true specification of all the goods imported on the vessel under your command, you will be liable to a fine of one thousand rupees (Rs. 1,000) and any goods or packages that may be found on board in excess of the manifest so delivered to the pilot, or differing in quality or kind, or in marks and numbers from the specification contained therein, will be liable to be seized and confiscated, or to be charged with such increased duties as may be determined by the Board of Customs,

Salt and Opium. In the event of there being a deficiency in the packages or goods entered in the manifest, you are liable under the said Act to a penalty not exceeding five hundred rupees (Rs. 500) for every missing or deficient package of unknown value and for twice the amount of duty chargeable on goods deficient and unaccounted for, if capable of being assessed therewith.

13. In the event of your vessel remaining outside or below Kedgerree, you are required by the said Act to deliver the manifest, so duly filled up and attested to the pilot, immediately on the vessel being brought to anchor; and if you should neglect to deliver the said manifest for the space of twenty-four hours after the vessel shall have anchored, you will be liable to a fine of one thousand rupees (Rs. 1,000.)

14. I am directed, with reference to the 15th Section of the Act No. XVII. of 1837, to desire that you will deliver every letter and packet on board your vessel, not specially entrusted for separate delivery, to the dāk peon who may first board your vessel; and I am to add that by the next Sections of the above act, you are liable to a penalty, not exceeding Rupees 1,000, for any wilful neglect in this particular, which penalty will assuredly be levied—instances having occurred of commanders wilfully detaining their packets.

15. You are to observe that the collector of government customs will, upon application being made to him, grant receipts for all goods which may be landed from your ship or vessel, and lodged in the Custom House; and he will be responsible for delivering from the Custom House all goods for which receipts shall have been granted; but should you, your Officers, or passengers, omit to take such receipts upon your goods being landed and lodged as above-mentioned, you or they will not be entitled to indemnification for any of them that may be lost in passing through the Custom House.

I am Sir,

Your most obedient Servant,

JAS. SUTHERLAND,

Secretary.

Fort William, Marine Superintendent's Office, the 7, Oct. 1846.

REGULATIONS,

FOR THE GUIDANCE OF COMMANDERS AND OTHERS, BELONGING TO SHIPS AND VESSELS RESORTING TO THE PORT OF CALCUTTA.

*Under the Orders of Government, in the General Department,
Dated 5th August 1835.*

1st. As the harbour master is held responsible for the movements of all ships and vessels, to and from the stream, requiring his assistance, the Officers of his department are not to be interfered with in the execution of such important duty. After a ship or vessel is moored in a clear and safe birth in the stream, she is not to be shifted, unless for the purpose of hauling into dock, or to the honorable company's moorings, and except in cases of emergency.

2d. All applications to take in or cast off from the moorings, or for other assistance from the harbour master's department, are to be made in writing to the master attendant, who will direct the harbour master accordingly. Applications will be complied with according to priority of date.

3d. On ships or vessels arriving off Calcutta, they are to have their jibb and driver booms rigged in, as soon as practicable, and to keep them so till the pilot takes charge for the purpose of taking them to sea again. The commander or owner of any vessel in which, in breach of this regulation, either jibb or driver boom shall be kept rigged out one day after warning has been given by the master attendant to the commander or commanding officer at the time, shall be liable to a fine of 100 rupees for that day, and a further fine of 20 rupees per day for every day after, that either jibb or driver boom shall continue rigged out in violation of the rule herein laid down.

4th. Ships and vessels laying in the stream, or at the honorable company's moorings shall have at least one anchor at the bow, with a cable bent and ranged, ready for letting go at all times.

5th. No ship nor vessel shall make any hawser or rope fast to any of the honorable company's mooring buoys, except for the purpose of warping into a berth, under the direction of the harbour master, or his assistant; and specially no warps are to be out during the night on account of the risk of boats being thereby upset, and the almost certainty of the consequent loss of lives.

6th. Serious accidents having taken place in transporting vessels, from the circumstance of one ship letting go another's warp, while in the act of moving, commanding officers are to permit warps to be made fast, and to keep them so, until requested to let them go. All vessels in the port of Calcutta are enjoined to assist each other, while in the act of warping.

7th. The harbour master's assistants are directed to take care in hauling ships or vessels into dock, that the waist anchors are got up out of the chains, and to see that no projections whatever, beyond the ship's sides, (which can be removed) be suffered to remain.

8th. All ships or vessels moored in the stream are to keep a clear hawse, to prevent accidents occurring.

9th. Commanding officers of vessels are strictly prohibited from boiling pitch, dammer, or rosin on board, to prevent accident by fire. They are also prohibited from throwing overboard ballast, or rubbish of any kind, detrimental to the bed of the river.

10th. Commanding officers of ships or vessels laying under fairs, or at any of the honorable company's moorings, are to slack down their cables, to enable vessels to pass over them, when required by the officers of the harbour master's department to do so.

11th. Ships or vessels meeting with any accident, or causing damage to others, while in charge of an officer under the authority of the master attendant, have no claim on government for such damage; but the parties concerned are to represent the case to the master attendant, who will take such cognizance of the same as the merits of the case may appear to require.

12th. In order to avoid misconception as to the responsibility of Government for the safety of Ships and Vessels making use of the Honorable Company's Chain Moorings, the Governor General in Council has been pleased to direct, that it be explicitly notified to the Public that Government does not guarantee the safety of any Ship or Vessel which may use those Moorings.

13th. Government have been further pleased to prohibit Commanders of all Ships and Vessels more than 200 Tons burthen from moving them in any part of the River, unless they have a Pilot or an Officer from the Harbour Master's Department on board, under penalty (independent of such consequences as the Owner- or Commanders may be subject to by Law on the part of individuals,) or Two Hundred Sicca Rupees, for every breach of this prohibition.

14th. Vessels of 200 Tons burthen only or less may be moved by their Commanders with the permission of the Master Attendant (which must be applied for in writing) without having a Pilot or an Officer from the Harbour Master's Department on board, any where within the limits of the Port of Calcutta, that is to say, between Sulkeah Ghaut to the North and the Bishop's College on the Right Bank of the River, and the Ghaut opposite thereto commonly called White Gunge Ghaut to the South from high water mark on each side of the River. Should Vessels of this description however be moved without such permission having been obtained they will be liable to the fine specified in Article 13.

15th. Several accidents having lately occurred by vessels driving from single anchor, at which they were laying contrary to the rules of the port. It is hereby notified to the masters or owners of vessels, resorting to the port of Calcutta, that under the sanction of the hon'ble the deputy governor of Bengal, a fine of 500 rupees will in future be imposed on all commanders who may refuse to have their ships moored, when required to do so by a Pilot or other duly authorized Government officer.

16th. The pilot is forbidden to quit your ship in any part of the river unless she is properly moored without being duly relieved; he is also forbidden to move her at night above Bishop's college, or pass that point in tow of a steamer on a flood tide.

17th. Should you have any complaint against any subordinate of the master attendant or harbour master's department, you are requested to make it known to

this office as soon as possible, that it may be enquired into whilst the circumstances are fresh in the memory of those concerned.

18th. It being necessary that the officer should be shewn the ship's register in order to fill in the tonnage correctly in the report and certificate of draft of water, you are required to shew it to him on application.

19th. With a view to the extinction of fires on board ships when they unfortunately break out, all ships and vessels in the port are required to be provided with fire buckets in the proportion of 5 to every hundred tons of registered burthen, one-half of which are to be kept constantly hung up on the quarter deck, or other convenient place with lanyards attached, ready for drawing water, under penalty of 250 rupees. The deputy harbour master will visit the vessels to see that this regulation is complied with, and on his reporting any vessel in the port to be without the proper number of buckets, the commander will become liable to the penalty specified, unless it can be proved that the deputy harbour master is in error, and that the ship or vessel really is provided with the number of buckets required.

20th. The practice of drawing off spirits by candle light from which so many fatal accidents to ships have occurred, is also strictly prohibited to all ships and vessels in the port, under a penalty of 500 rupees for every offence, half of which will be awarded to the party giving information of such infraction of the port regulations. All pilots and officers of the harbour master's department are strictly enjoined to see that this regulation is observed, and to report any infraction of it. As in other cases of breaches of the port regulations to which any penalty attaches, whenever and as often as, either of the fines specified in this and the foregoing clause, shall have been incurred, a bill will be made out against the commander for the amount, and no pilot will be granted to the vessel on board of which the offence has been committed, until such fine be paid.

21st. Finally, you are hereby informed, that no pilot will be allowed to take charge of your ship outwards, until a certificate from the collector of customs shall have been presented at the master attendant's office, stating that all port charges due on her account, and all fines if any have been incurred, have been paid.

PILOTAGE AND PORT DUES.

Notice is hereby given, that in consequence of the recent change in the currency, the Marine Board have obtained the sanction of the right honorable the Governor of Bengal to the following modified rates of charge leviable on account of pilotage and port dues, which are to come into operation on the 1st proximo.

By order of the Marine Board,

C. B. GREENLAW, Secretary.

Fort William, May 25, 1836.

Notices touching Port charges at Calcutta, for the information and guidance of Owners and Commanders of vessels.

The Marine Board having lately, under the orders of Government, been engaged in revising the general regulations of the Marine Department, bearing on the shipping frequenting the port, request the particular attention of owners, agents, and commanders of vessels, to the following arrangements in connection with the charges on account of pilotage, &c., framed with a view to the mutual convenience of the Marine Department and the shipping interests.

First—Commanders are requested, prior to quitting their vessels on arrival off Calcutta, to fill up and certify, or cause to be filled up and certified, a form of certificate shewing the actual registered tonnage; the draft of water; and whether the vessel has not been tugged by steamer any part of the way, or has not had the use of a row-boat, which form will be furnished to the pilot, in order to the bills of the vessels being correctly made out.

Second—Commanders are further requested, as early after their arrival as possible, to notify, in writing, to the Master Attendant, the name and residence of the reference for the payment of the vessel's bills.

Third—On the receipt by the Master Attendant of the above certificate and written reference for payment, a single bill will be prepared, including inward pilotage, Light-house duty, Moyanore magazine duty, and row-boat hire, (if any) which, together with a certificate, will be forwarded to the Marine Pay Master for collection within fifteen days of the arrival of the vessel and having on it the name and residence of the party referred to for payment, which commanders are requested to furnish to the Master Attendant in writing as early after their arrival as practicable, that the Officer may more readily be enabled to present it. By this arrangement all the charges connected with the vessel up to her arrival off Calcutta, will be embodied in one bill instead of, as hitherto, being made in separate bills.

Fourth—In the event of vessels docking, or being transported at the desire of the commander, it is requested that a certificate may be given by the commanding officer of the operation having been performed, in order to accompany the bill when presented for payment to the referee.

Fifth—The practice of charging for hauling to the chain moorings, for their monthly hire, and for hauling from the moorings in separate bills, is discontinued, and henceforward one bill will be prepared, including the charge for hauling to the moorings, that for occupying them, and that for hauling from them.

and commanders are requested to give, or cause their commanding officers to give, to the Master Attendant or the Harbour Master, a certificate of the date of hauling to and from the moorings, which certificate, as before, will accompany the bill when presented for payment. The hire of the mooring will be charged for the day; and, in like manner, no charge will be made for the day on which she hauls from her moorings, however late in the day she may quit them. The charges connected with the chain moorings will thus be embodied in one bill and be discharged in one payment, instead of three or more, according to the number of months the vessel occupied the moorings.

Sixth—The system of charging outward pilotage on an estimated draft of water with an addition of ten per cent. subject to adjustment after the vessel has sailed, and of charging a certain number of days for a row-boat subject to a like adjustment, is abolished; and in future, the outward pilotage and charge for a row-boat hire on outward bound vessels, will be made as follows;

When the vessel is finally laden, the commander is to give notice thereof to the Master Attendant, when the draft of water is to be ascertained and certified by the commander or commanding officer on the part of the vessel, and by the Harbour Master on the part of government,—subject, in case of dispute, to the decision of the Master Attendant. On receipt of the certificate, the Master Attendant will cause a bill to be made out for the regular amount of pilotage, for the row-boat hire according to an average rate with reference to the size of the vessels and the season of the year, fixed by a marine committee which lately sat at the Bankshall, the majority of which was composed of members of houses of agency and commanders of ships. The bill and certificate will be presented in due course for payment.

Seventh—As however it frequently happens that vessels are taking in cargo or filling their water up to the last day of their departure, or that from other causes the bills for the chain moorings and outward pilotage cannot be made out till the eve of departure; owners, agents and commanders are in such cases particularly required, with a view to despatch, to cause an individual to attend at the Bankshall and expedite the transmission of the bill and certificate to the board for registry, and to the pay office for collection; at each of which officers they may in such cases depend upon the most ready and special attention.

Eighth—In the event of a vessel being tugged any part of the way down by steam, or not having the use of a row-boat, commanders are to obtain from the pilot, at Kedgerie a certificate to that effect, which they should forward by dak to their agents. On receipt thereof agents are requested to make out a bill against the Honorable Company for the quarter deduction from the pilotage allowed, if tugged by steam, or for the row-boat hire paid, as the case may be, and to forward it, together with the certificate, to the Marine Board for audit and payment.

Ninth—In cases where a vessel leaves Calcutta, avowedly intended to fill up cargo at some place below, the pilotage will be charged at the draught at which she leaves Calcutta in like manner, though at the reduced amount, as if she had proceeded to sea; and with respect to the subsequent pilotage charge, from the place at which the vessel takes in the additional cargo, to sea, owners or agents of vessels will be required to furnish a special guarantee to pay the amount chargeable according to a certificate of the draft of water to be signed by the commander or commanding officer and pilot.

Tenth—Six sets of moorings at Diamond Harbour having been fitted specially to enable vessels arriving in distress from loss of anchor and cables to be readily moored, the charge will be Co's Rs. 50 for mooring and unmooring, and the daily hire the same as for the moorings at Calcutta. The moorings will of course be available to vessels not in distress from loss of anchors and cables, but the Harbour Master will be instructed at all times to keep two sets vacant during the S. W. monsoon to meet casualties.

Eleventh—Annexed is a statement of the several port and pilotage charges and the Marine Board trusts, that with these and the certificates of the commanders or commanding officers before them owners and agents of vessels will, at all times be enabled readily to ascertain the correctness of the bills and to discharge them on presentation.

The pilotage is divided into twelfths for the convenience of charging intermediate or broken pilotage, viz. from sea to places short of Calcutta, and from and to intermediate places; as also for the purpose of the proportionate deduction being made when vessels are tugged by steam any portion of the distance.

The following shews the number of twelfths chargeable between the several stations.

NOTICE.

The Government of Bengal have been pleased to modify the Rules relative to Vessels navigating the River Hooghly in manner following:—

1st. All Vessels under 300 tons, and not drawing more than 15 feet trading within the Bay of Bengal, considered as bounded by a line drawn from Cape Comorin by Point de Galle and Acheen Head to the Southern Point of Prince of Wales Island, are permitted to navigate the River Hooghly without a Pilot on payment of *double light* and *buoy duties*, provided the commanders can show to the satisfaction of the Master Attendant that they possess a knowledge of the River equal to that which is required of Commanders of Steam Tugs permitted to act as Pilot under a license.

2d. Vessels of more than the above specified tonnage and draught from whatever part of the world they may come, are not required to wait for a Pilot at the Sand Heads, but only to make the usual signal, to keep it flying as long as they are without one, and to take a Pilot if one offers his service.

3d. Vessels ready for Sea are permitted to proceed without a Pilot, provided one does not come on board within 24 hours of the time at which the port clearance was produced at the Master Attendant's office. With respect to Vessels trading beyond the Bay, and of more than 300 tons and drawing more than 15 feet water, the modification of the Regulations above described, is not to come into operation until the 1st May 1847.

4th. It is also hereby notified, that from the 1st Proximo, and hereafter, instead of the present Moyapore magazine duty of one anna per ton on all Vessels, a charge of $\frac{3}{4}$ anna per ton as buoy duty, and $\frac{1}{4}$ anna per ton as Moyapore Magazine duty will be levied.

By order of the Offg. Superintendent of Marine,

JAS. SUTHERLAND, *Secretary.*

Port William, the 31st Oct. 1846.

ORDER OF HIS EXCELLENCY THE MOST NOBLE THE GOVERNOR-GENERAL IN COUNCIL.

Fort William, July 19, 1801.

Whereas it hath hitherto been the practice for ships importing at Calcutta to retain their gunpowder on board while laying in the port; and whereas, the explosion of a large quantity of gunpowder on board of a ship, lying off the town, might be attended with the most destructive consequences to the town, to the inhabitants thereof, and to the shipping in the port; and whereas, instances have occurred of shot being fired into the town of Calcutta, and into the country adjacent, by ships saluting Port William, or firing guns on other occasions, his Excellency the Most Noble the Governor General in Council, with a view of obviating the serious consequences which might ensue from a consequence of these irregular and dangerous practices, has been pleased to establish the following rules.

1. The commanders of all vessels bound to the port of Calcutta, and proceeding up to the town of Calcutta, or to any other part of the river above Moyapore are required on or before their arrival off Moyapore, to land at the magazine, which has been erected at that place, all the gunpowder which they may have on board, (whether contained in barrels, or made up into ammunition) exceeding the quantity of one hundred pounds, which quantity every vessel is permitted to retain on board, for the purpose of firing salutes or signals in cases of distress. Officers appointed by Government, will take charge of the gunpowder immediately on its being conveyed to the shore at Moyapore, and will deposit it in the magazine. Commanders of vessels are required to mark the names of their respective vessels on the barrels and packages of gunpowder, previously to their being landed. A receipt for the gunpowder will be granted by the officer in charge of the magazine.

2. In order that vessels may be detained as short a time as possible for the delivery of their gunpowder, commanders of vessels are required, on coming in sight of Moyapore, to hoist a flag at the fore-top-mast-head, whereupon the officer in charge of the magazine, will immediately order persons to be in readiness at the river side to receive the gunpowder.

3. Gunpowder shall not be landed or received into the magazine between sunset and sunrise.

4. The commanders of vessels outward bound, who may require gunpowder for their outward voyage, shall not take gunpowder on board in any part of the river above Moyapore, with the exception of a quantity not exceeding one hundred pounds, for the purposes before mentioned. Should any gunpowder have been landed from any vessel, when inward bound, and deposited in the magazine, the gunpowder will, upon the application of the commander of the vessel to the officer in charge of the magazine, (such application being accompanied by the receipt granted on the deposit of the gunpowder in the magazine) be conveyed to the river side, and delivered to such person as may be sent to take charge of it.

5. In future, vessels entering the port of Calcutta, shall not at any time, whilst lying in any part of the river between Moyapore and Calcutta, have on board without the express sanction of Government, any quantity of Gunpowder exceeding one hundred pounds for the purposes before mentioned; the collector of the government customs is hereby empowered and directed, should he have reason to believe that a quantity of gunpowder exceeding one hundred pounds has been received on board of any vessel, to cause the vessel to be searched, and should any greater quantity be found on board, to seize the same. The collector is also empowered and directed to seize any unauthorized quantity of gunpowder which may be attempted to be shipped on any vessel, in opposition to the

rules herein prescribed ; all such gunpowders so seized, shall be liable to confiscation ; the collector shall immediately send all the gunpowder so seized to the magazine in Fort William, and shall report the circumstance of the case to the board of trade ; the collector shall not grant a port clearance for any such vessel from which gunpowder shall have been so seized, without the express authority of the Governor General in Council.

6. One-half of the estimated value of all gunpowder which may be confiscated under this regulation, shall be granted in equal proportions to the collector of the customs and his deputy ; the remaining moiety shall be granted in equal proportions to the informer and to the officer assisting in making the seizure.

7. The commanders of vessels lying at Diamond Harbour, or in any other part of the river below Moyapore, will be permitted to deposit their gunpowder in the magazine at Moyapore.

8. Pursuant to the orders contained in the 5th article of these regulations, the commanders of all vessels now laying in the port of Calcutta, having on board a quantity of gunpowder exceeding one hundred pounds, are required to send the quantity of gunpowder exceeding one hundred pounds, which they may have on board of their respective ships, or any place on shore, to the magazine at Moyapore. If the commander of any vessel shall not conform to this requisition, he shall be liable to the penalties stated in the 5th article.

9. The commander of all vessels lying off the town of Calcutta, or any part of the river between the town and Kedgerree, are prohibited from firing guns (excepting for the purpose of saluting Fort William, or for signals in case of the vessels being in distress) for any purpose whatever, without having previously obtained the permission of His Majesty's justices of the peace for the town of Calcutta. When guns shall be fired from any ship for the purpose of saluting Fort William, or for signals in case of the ship being in distress, and also in cases in which guns may be fired with the permission of the justices of the peace, the commander of the ship is enjoined to be particularly careful that the guns be not shot.

Published by command of his Excellency the most noble the Governor General in council,

G. H. BARLOW, Chief Secy. to the Govt.

P. 8. Under orders from the Marine Board, dated 6th instant, commanders are informed, that such gunpowder as they may have for sale is not to be landed at Moyapore, but to be brought up and lodged at the Howrah magazine.

(Signed) T. T. HARRINGTON, Master Attendant.

Master Attendant's Office, July 8, 1837.

N. B. Several instances having occurred in which powder belonging to Government, such as powder for the troops brought out in a vessel, has been landed at the magazine, it is hereby notified under orders from Government, that all such powder must be brought up and delivered over to the Arsenal, Fort William, and that if it is so left at the magazine, Commanders will have to bring it up at their own expence.

NOTICE

TO COMMANDERS OF OUTWARD BOUND VESSELS.

Great inconvenience arising to the agents of vessels from commanders of outward-bound vessels which have been tugged by steam, or which have had no row boat in attendance on them, not attending to the 8th-item of the published notices touching port charges, and not sending up from Kedgerree the required certificate, without which the refund of $\frac{1}{2}$ pilotage and the charge paid on account of row boat cannot be passed by the Marine Board, commanders are therefore reminded of the necessity on their own vessel's account of their obtaining such certificate from the pilot and forwarding it to their owners from Kedgerree.

Dy order of the Marine Board,

C. B. GREENLAW, Secretary.

FORT WILLIAM,
The 27th April 1837,

No. 1090.

DEDUCTIONS FROM PILOTAGE CHARGE FOR EMPLOYING STEAM.

A great deal of unnecessary trouble and correspondence has been caused by Parties not following the proper course for the recovery of the deduction from the charge for Pilotage, allowed for Vessels employing Steam.—Bills for Pilotage, are frequently returned to the Collector of Customs with a remark written on them that the Vessel has been tugged in part or entirely to Sea.—Notice is hereby given, that the deduction on that account cannot be recovered in that way. The Pilotage is payable in advance and bills for the full amount must be paid whether a Vessel is tugged by a Steamer or not. If she is, a bill must afterwards be made out for the usual deduction on that account and presented at this Office, when it will be passed, if correct and accompanied by the Pilot's Certificate, specifying that Steam was employed and to what extent, whether in part or entirely out to Sea. Without that document no such claims can be admitted. The attention of Owners and Agents of Ships to this notification is earnestly requested.

By order of the Actg. Supdt. of Marine,

JAS. SUTHERLAND,

Secretary.

Fort William, Marine Supdt's Office,
The 10th September, 1844.

COMMANDERS TO FIND GUARANTEE FOR THE PAYMENT OF GOVERNMENT CHARGES.*Fort William, the 7th February, 1827.*

Notice is hereby given that whereas, in several late instances, the Marine Board have been unable to recover just claims for sundry port charges, incurred after ships have left Calcutta, such as, for detention of row-boat and additional pilotages, charges arising from the original draft of water given being considerably under the actual,—it has been deemed expedient,—that the commanders of all vessels, from and after the 20th instant, shall previously to their being provided with a pilot, furnish the master attendant with a guarantee of some respectable house, for the payment of all such charges. Copies of the form of application for a pilot, and of the guarantee, will be furnished at the Bankshall.

1.—Parties having any claims on the marine department are requested on and after the 1st proximo, to forward the same, for examination and registry, direct to the marine board, whence, if found correct, they will be transmitted, without loss of time, to the marine pay master and passed for payment.

2.—To prevent, as much as possible, the multiplication of unnecessary correspondence, it is requested that bills may be, in general, transmitted under a blank cover, superscribed with reference to the contents of the former; and that on the face of the bill itself reference may be made to the authority on which the claim is preferred, and the vouchers, if any, annexed to the bill. In cases where the claim has arisen out of correspondence with the Board, a reference by number and date, to the Board's letter, sanctioning the charge, will be sufficient.

3.—Of course when a bill is presented on account of transactions, which have not been previously before the Board, it will still be necessary to accompany the bill with vouchers, and an explanatory letter.

4.—Any bill, which may be found inadmissible, or to require correction, or further voucher will be returned to the party as early as possible; and should it not be so returned within the week, the drawer will know that it has been passed to the marine pay master, and may accordingly apply for the payment.

By order of the Marine Board,

J. TROTTER, Secretary.

Marine Board, October 9, 1827.

RULES FOR CLEARING THE RIVER HOOGLY OF WRECKS AND OTHER OBSTRUCTIONS.

1. In order to provide for clearing the bed of the river of all anchors that have been lost in its channels and anchoring stations, and for the recovery and removal of every description of wreck deposited therein, it shall be the duty of the master attendant to employ in the most efficient manner practicable, under the official superintendence of the Marine Board, the means placed by government at the disposal of that officer, for the purpose specified.

2. All recovered anchors, grapnels, and wrecks of every descriptions, shall be landed as soon as may be practicable, in the same state in which they are recovered. Articles belonging to the Hon'ble Company, are to be deposited in Bankshall premises, and immediately after their being so deposited, a full and accurate description shall be taken of the articles for registry, specifying whether the articles are of a perishable nature or not; place where, and date when found; and such other information as may be at all calculated to enable owners to identify their property. A distinguishing mark is to be placed on the anchor or other thing so recovered, with white paint, when the article will admit of it, the mark expressing the year in which it was recovered, and its number in the register of that year; when the article will not admit of being marked with paint, it is to be in some other manner sufficiently identified, so as to connect it with its particular item in the registry.

3. The above information is to be regularly entered into books of registry to be kept for that purpose at the Master Attendant's Office, which books shall be always open for public inspection, during the hours of business; a copy of this registry shall be sent weekly, under the signature of the Master Attendant, to the Marine Board, who will cause a list of the recovered articles, with all the necessary information, to be hung up in the Exchange Rooms, for the information of the public.

4. In the event of the right of property being proved to the satisfaction of the Master Attendant, or in case of dispute, to the satisfaction of the Marine Board, such property shall be valued by Messrs. Mackenzie, Lyall and Co., or the proprietors of the Exchange; subject to arbitration, if the value fixed by them should be objected to either by the Master Attendant on the part of Government or by the owner. When the valuation shall have been fixed, the Master Attendant shall make out a bill for salvage, rated according to the place of recovery; viz. $\frac{1}{3}$ th of the value of articles recovered above Fultah; 40 per cent. on articles recovered between Fultah and Culpee; 50 per cent. on articles recovered between Culpee and Saugor; and 65 per cent. on articles recovered below Saugor, with interest on the amount of salvage, calculated from the date of recovery at the rate of six per cent. per annum, the salvage to be calculated on the value fixed by Messrs. Mackenzie, Lyall and Co. as above directed. The bill is to be sent to the Marine Board for registry; it is then to be passed to the Marine Paymaster for collection, on the production of whose receipt to the Master Attendant, that officer will deliver up the anchor or wreck identified.

5. All perishable property shall, if unclaimed, be sold by public auction, by Messrs. Mackenzie, Lyall and Co. three months after its recovery; unless they, in conjunction with the Master Attendant, consider it for the interest of the owners that it should be sooner disposed of. In like manner, all non-perishable property shall be sold, at *quarterly public sales, twelve months after recovery*. On receipt of the net proceeds, salvage, as directed in article 4th, shall be deducted therefrom, to the credit of the "*wreck and anchor concern*," and the balance be deposited in the general treasury for payment, without interest, to parties at any time subsequently establishing their right thereto.

6. In cases where ships may have parted from their anchors, or other property have been lost or wrecked, and information of the same is immediately communicated by the owners or commanders, to the Master Attendant, the requisite assistance is to be afforded without delay, and the anchors, &c. when

recovered, are to be delivered to the owners, on security given for payment, at the rate of three rupees per cwt. for anchors, or similar property; any other description of property so recovered, is to be delivered, on payment of one-half the amount of salvage, referred to in 4th paragraph, according to the place from whence the property is recovered. The valuation thereof to be made by Messrs. Mackenzie, Lyall and Co. *subject as before*, to arbitration. If the owners or commanders possess suitable means for recovering their own anchors or other lost or wrecked property, within 48 hours after they have been parted from or lost, and decline receiving assistance, the interference of the Master Attendant is then forbidden; but, should they fail to remove the obstructions within that period, (unless it shall be extended under the sanction of the Marine Board,) the Master Attendant is authorized to effect the subject himself; and all such anchors or property, when recovered, shall be subject to the prescribed charge of salvage in article 4th.

7. Should any anchors or other property, not their own, be recovered by owners or commanders of ships, when weighing or recovering their own anchors, they shall be delivered to the Master Attendant in the state in which they may have been found, with every thing attached to them and be registered in the same way, as if they had been recovered in the first instance by the Master Attendant. In this case however, the parties so recovering wrecked property, shall be entitled to one-half the amount of salvage.

8. The above rules are not to be construed to extend to the case of any ship or vessel being wrecked in any part of the river. In such case the Master Attendant shall, on the regulation of the parties concerned, afford every practicable assistance for recovering the said ship or vessel, her stores or cargo; and such a claim, or compensation in the nature of salvage, shall be preferred by the Marine Board, as to them, under all circumstances of the case, shall appear reasonable; should, however, the parties concerned decline the assistance of the Master Attendant, their operations shall not be interfered with, unless by their negligence the navigation of the river should become liable to continued obstruction from the accident. In this case, as before, the Master Attendant is to adopt all the necessary measures to remove it.

By Order of the Marine Board,

CHAS. B. GREENLAW, Secretary.

ACCOMMODATION ON BOARD THE PILOT VESSELS.

The following revised rules, relative to the accommodation of individuals, proceeding to the Sand Heads or down the river, on board any of the Honorable Company's pilot vessels, having been sanctioned by Government, are now published for general information.

1st. Officers, civil and military, when ordered to proceed down the river on public service, on board a pilot vessel are to notify the same to the master attendant, or in his absence to his assistant, who will select the vessel with reference to the exigencies of the Service, on which such officer shall embark. In cases, where persons, whether public officers, or private individuals, be desirous of proceeding on board a pilot vessel for the benefit of their health, application is to be made, as above stated, accompanied by a medical certificate, shewing the necessity for the party to proceed to sea, when permission will be granted by the Master Attendant or his assistant, to repair on board such vessel as may be available. Individuals again, both in the service and out of it, who have occasion to go on board a pilot vessel for purposes unconnected with their duty or health, are to make application to the superintendent of marine stating the purposes for which they desire the indulgence, and the time for which they are likely to be on board. The pilots are on no account whatever to receive on board as passengers, any individuals who have not obtained the sanction above specified.

2nd. Individuals proceeding on board pilot vessels under any of the circumstances stated above, are entitled to occupy the larboard half of the after accommodation, free of other charge than that of mess or table money hereafter specified. It must be understood that in all cases when in conformity with these orders the larboard cabin has been assigned to any lady or gentleman, no one can claim a share of such accommodation while the party by whom it was first engaged remains on board. Other parties either in or out of the service, permitted to go on board, can only have such accommodation as the dining cabin affords, unless the pilot in charge should let any of them have the use of his, the starboard cabin. It is to be optional with him to allow the occupation of it except as to officers ordered on board on duty, to whom he must give up his or the starboard half of the accommodation if required; but he is on no account to demand a greater sum for this accommodation than eight company's rupees per diem for the first fourteen days, and six rupees for every day after, whether it be given up voluntarily or under orders.

3d. Pilots in charge of vessels are to provide a suitable table for their passengers and on no account to demand a larger amount for table money than the sums specified in the margin, and any pilot making directly or indirectly any demand either for table money or accommodation, not strictly authorized by these regulations, besides being compelled to refund any overcharge, will be subjected to such loss of rank or other punishment as government, at the recommendation of the superintendent of marine may award.

4th. Warrant Officers, or other respectable parties whose means do not admit of their paying the above rates, can be accommodated, and mess with the 2nd mates and Volunteers at a charge of two rupees a day for the first fourteen days, and one rupee eight annas for each day afterwards that they remain on board. The branch pilots in charge of the pilot vessels are to see that such passengers are not charged more than these rates. Any demand of more, will subject those who prefer it to punishment.

THE PILOT STATION FOR THE RIVER HOOGHLY IN THE SOUTH-WEST MONSOON.

Directions for approaching the Pilot Station for the River Hooghly during the S. W. Monsoon.

Experience of the new Pilot Station off the South Channel, having established that it can be made by Vessels from False Point with the greatest facility, and that Pilots can also be readily supplied, and the same causes existing which originally rendered necessary the removal of the Pilot Station from off Point Palmyras to a position about fifteen miles S. W. b. W. of the Outer Floating Light in Lat. $20^{\circ} 56'$ N. Long. $88^{\circ} 03'$ E., and in from 17 to 22 faths. water, Notice is hereby given, that this latter Station will in future be continued during the S. W. Monsoon, viz. from 15th March to the 15th September.

No difficulty can possibly be felt in passing from False Point to the present Station, if common attention be paid to the lead and to the following Directions, prepared by Captain Lloyd, late Offg. Marine Surveyor General, after a careful Survey of the ground between the two Points.

"False Point Light House is in Lat. $20^{\circ} 19\frac{1}{2}'$ N. and Long. $86^{\circ} 47'$ E.,
"and the South Channel Buoy in Lat. $20^{\circ} 59'$ N. and Long. $88^{\circ} 4'$ E., and
"bears from the Light House N. 61° E. true, or N. E. by E. $\frac{1}{4}$ E. by Compass,
"distant 83 miles and is laid in 12 fms.

"A bank of soundings extends from off Point Palmyras in a direction
"towards the tail of the Western Sea Reef, and the nature of the bottom (as
"distinguished from that of the Hooghly deposit which is sand and mud with
"shining specks) is a gravelly substance composed of sand shells and small
"pebbles discharged from the "Kunka," and other Rivers near Point Palmyras,
"the lighter material of which being carried further out, is deposited, and forms
"what is called the 'Pilot's Ridge,' which in crossing to the N. Wd., shews a
"little less water than on either side. In coming from Seaward you shoal
"rather suddenly from 28 to 23 fms. upon its eastern edge. It is composed of a
"shelly sand, or minute gravel of a reddish or rusty brown color.

"The best guide therefore to enable a vessel to direct her course from False
"Point to the Pilot Vessels at the present Station, will be to run down the edge
"of the 'Pilot's Ridge,' which can readily be done by making the Light House,
"and bringing it to bear about W. S. W. or S. W. by W. distant by computation
"from 10 to 15 miles, then steering to the E. N. Ed., and having gradually
"increased the depth of water to 23 fms. upon the eastern Edge of the Ridge,
"regulate the course to keep between it and 27 fms. when by attention to the
"lead and nature of the soundings, course and distance run from the Light
"House, it is almost impossible to miss the Pilot Vessels (if the above limits are
"kept within) either by getting too far to windward or falling to leeward for
"the soundings increase so rapidly to seaward from the present Station, that 28
"fms. will not be more than 3 or 4 miles to the Southward of it, and 23 fms. the
"same distance to the westward of it.

"The soundings to seaward of the Ridge are in general a greenish or olive
"coloured mud, with occasionally a few bits of broken shells mixed with it.*

Vessels approaching the Station during the day are required to shew the usual signal for a Pilot and by night to give as early and as much warning as possible by firing guns, burning blue lights and by exhibiting two lights in a vertical position, where best seen, but Commanders are strictly enjoined to avoid as much as possible making the Station during the night.

Ships have been lost from running for the Station in dark or threatening or actually bad weather. In such weather, the Pilot Vessels cannot be made out, and if fallen in which, cannot board the inward bound vessel nor could the Pilot take her in, if he was on board. No advantage then, is gained by attempting to get a Pilot in such weather, while the danger is imminent. It is strongly recom-

mended therefore, to Commanders, under such circumstances to put their Ships under snug canvass while well out in deep water, and keep to Sea.

To mark the Station one of the Pilot Vessels will shew during the day a large St. George's Jack (white with red cross) at the Main Top Gallant Mast Head and a good Mast Head Light during the night, and will burn a Blue Light and a Maroon alternately every half hour and fire a gun at 8 P. M. at Midnight and at 4 A. M. Vessels approaching the Station, and while there, as well as when

approaching the Light and Buoy Station Vessels, are warned to be careful in avoiding collision by night or by day — and in communicating with either of the above Vessels either at anchor or hove too, when it is necessary to cross

her to pass under the stern; several instances of serious damage having occurred during the S. W. Monsoon, whereby the Outer Floating Light was more than once compelled to leave her Station for repairs to the great inconvenience and risk of Vessels entering and quitting the river.

18th August, 1848.

Notice is hereby given, that a Floating Light is stationed in the Fair channel into Bombay Harbour about $\frac{1}{2}$ of a mile to the S. W. by S. from the Fair Way Buoy, in about 9 fathoms at high water, and 7 fathoms at low spring tides, with the following bearings and distances:

Flag Staff on Malabar Point, N. 54° E. distant 6. 90. Nautic Miles.

The Light House on Colaba, N. 2 31° E. distant 4. 56. Nautic Miles.

The Fair Way Buoy, N. E. by N. distant $\frac{1}{2}$ of a mile.

The Floating Light at the Sunken Rock, N. 34° 50' E. distant 4. 68. miles.

Kennery Island, S. 14° 15' E. distant 7. 49. miles.

The Point of the S. W. Prong in 6 fathoms foul ground bears North about 2 miles.

The Middle of Thull Shoal, E. S. E. 2 miles.

When approaching the Harbour, if the Floating Light Vessel is seen bearing on any point from N. by E. round to the Eastward, as far as S. E. by S., a ship might steer directly for it, and when up with the Light Vessel, should steer from her N. E. Easterly, so as to pass about $\frac{1}{2}$ of a mile to the Eastward of the other Light Vessel, which is moored about a quarter of a mile to the Southward of the Sunken Rock. After rounding the Rock Light Vessel you may steer more Northerly, and if it be at night, should anchor about 1 mile to the N. E. by N. from it, where the water will be smooth. The South point of the Middle Ground Shoal, bears N. N. E. distant 2 miles from the Rock Light Vessel.

Both Light Vessels are painted Red, each carrying a Ball to the Light Mast, and during day-light they hoist a Red Flag when a sail is in sight.

The Outer Floating Light burns a Blue Light at the end of each hour during the night, and displays a Torch at the half hours.

The Flood Tide comes in from S. W., and Ebb from the N. E. It is High Water at 12 hours on full and change of the Moon.

D. ROSS,

Master Attendant.

Bombay, 23th December, 1842.

NOTE — The Floating Light was tried during the last monsoon and rode well, but in the event of her breaking adrift, the Fair Way Buoy is continued at its station.

LIGHT AT MADRAS.

MARINE BOARD OFFICE,

Madras, 5th October, 1843.

Notice is hereby given, that on and after the 1st day of January 1844, a Light will be exhibited on the new Light House erected at Madras immediately to the Northward of the walls of Fort St. George; and that on and after the said 1st day of January 1844, the Light heretofore and now exhibited on the Old Light House within the walls of Fort St. George, will be discontinued. The new Light (to be exhibited) will be elevated 128 feet above the mean level of the Sea,—and may be seen from the Deck of a Ship at the distance of 20 miles. The Light is of the “Flashing Description,” and the duration of the Flashes to that of the Eclipses or Dark periods is in the ratio of 2 to 3,—but as the nature of the Motion is Reciprocating instead of Rotatory, the above ratio merely expresses the average proportion of the Light and Dark intervals which are themselves variable according to the position of the Spectator. The rapidity of movement is so adjusted, that the duration of the Flashes will vary from 0” to 48”, and that of the Eclipses from 0” to 72”, the sums of the duration of Light and Darkness bearing however, in every position, the constant ratio of 2 to 3. From the South Eastern extremity of the Pulicat Shoal the new Light House bears S. 23° W., and is distant 13 miles; but no Ship or Vessel when hailing in from the Northward for the Madras Roadstead should bring the Light to bear to the Southward of S. 28° W., or S. S. W. $\frac{1}{4}$ W., unless her position is well ascertained. Commanders of Vessels are hereby warned of the serious risk they incur by incautiously approaching the dangerous vicinity of the Pulicat Shoal as hazy weather or other causes may obscure the Light,—true soundings therefore and a vigilant look out are imperatively called for. The limits of the Madras Roadstead (in 8 or 9 fathoms) are comprised within the following bearings, viz from the Northward the Light House will bear S. 56° W., and from the Southward N. 81° W. or from S. W. b. W. to W. $\frac{1}{4}$ N.

The New Light House.

At Madras is in Latitude 13° 5' 10" North.

And in Longitude 80° 20' East of Greenwich.

LIGHT AT COCHIN.

MADRAS MARINE BOARD OFFICE,

5th February, 1844.

Notice is hereby given, that a Light is exhibited from the Flag Staff, at Cochin, from sunset to sunrise. The height of the light when exhibited from the Mast-head is 114 feet above the Level of the Sea, but when the Top Mast is struck (during the South West Monsoon,) the Light is then 62 feet above the Level of the Sea—Vessels coming to an anchor at night, should bring the Light to bear E. by N. Good anchorage is found in from 5 to 4 $\frac{1}{2}$ fathoms water, but during the South West Monsoon Vessels should not anchor in less than 6 fathoms, as there is then a heavy Sea rolling in on the Coast.

A. IRVINE,

Superintendent of Marine.

PORT OF AKYAB.

Sailing Directions for the Port of Akyab, in the Arracan River.

Ships sailing for Akyab during the South West Monsoon should steer for the South end of the Western Bolongo, in Lat. 19° 50' N. Long. 93° 3' E., then standing along the Coast to the Northward and Westward, about five or six miles off Shore, until the Light is sighted on the Great Savage, at the entrance of the Arracan River, then steer so as to bring it to bear N. by East or N. N. E., and if they intend to run in during the night, with either of these bearings they will cross the bar in the best water, in three fathoms low water spring tides.

After deepening across it, the course should be altered to N. by W. or even N. N. W., according to the state of the tide and sea at the time, to avoid the

Western Rocks (above water) bearing from the Light S. W. $\frac{1}{2}$ S., distant nearly half a mile; the Flood Tide sets in on these Rocks.

When the Light bears East in six to nine fathoms on the edge of the flat to the Westward, the course must be altered to N. N. E. and N. E. by N., having brought the Light to bear S. E. by S. $\frac{1}{2}$ E. the ship will be inside of Passage Rock, which is five to seven feet above water, and bears from the Savage Light N. W. $\frac{1}{2}$ N., distant a quarter of a mile, and should then steer N. E. Easterly, to avoid the Reef projecting from Faqueers* Point a mile in extent to the south; some of the Rocks are above water at half ebb. There is a Red Buoy placed on the southern entrance in about nine fathoms, which with attention may be seen in a clear night without the Moon, and after bringing Faqueers Point to bear, N. W. by N. to N. W. the ships should anchor.

On Faqueers Point a small Light House is nearly finished, the Light of which will be a deep red, and will be seen about six miles, or three miles beyond the bar, as a leading mark to clear the Western Rocks, keeping it a little open to the Westward of the Savage Light when steering in or out, also to point out when the ship is inside of the Reef off Faqueers Point. With this Light bearing N. W. by N. to N. W. is good anchorage, having excellent holding ground and perfectly sheltered from the sea.

A stranger should not attempt to run in at night, particularly in the rains, except at high or low water, as the ebb tide runs very rapidly in strong eddies off the Passage Rock, over the dangerous flat to the Westward, and the flood in strong eddies upon the Rocks.

During the N. E. Moonsoon Ships bound to Akyab, from the Northward, should endeavour to make the Table Land of the Western Bolongo in Lat. $20^{\circ} 1'$ N. then steering due East they will avoid the Oyster Reef in Lat. $20^{\circ} 5'$ N. Long. $92^{\circ} 4'$ East, which is distant from the Savage Light fifteen miles due West. This course is recommended, as although in favorable weather the Savage Light is seen outside the Reef in 16 to 17 fathoms water, the depth suddenly decreases, and the probability of hazy or rainy weather would prevent the Light being seen, and steering boldly in to sight it Northward of Lat. $20^{\circ} 1'$, would endanger the safety of the Vessel, by suddenly falling upon the Oyster Rock or Reef before sighting the Light House.

I would not advise strangers on any occasion to make use of the Channel inside of the Oyster Rock or Reef.

JAMES PATERSON,

Comdr. H. Co.'s Ship Amherst.

NOTICE.

The trade of the Port of Akyab having rapidly increased, the attention of Mariners is now recalled to the existence of the Light on Faqueer's Point at its entrance and to the following [foregoing] sailing directions for entering the Harbour by Captain Paterson published in 1844. In these the Light above referred to which was not at that time quite completed was described as being erected in *Mosque Point*; but this designation has since been altered to *Faqueer's Point*, which is understood to be ~~that~~ by which it is best known and which is that applied to it by the Commissioner of the Province.

The bills may be drawn in duplicate and will be payable to the order of the pilot, provided however that no pilot shall be allowed to benefit by this provision, unless he shall give security to such amount as may be sufficient to cover any refunds to which he may become liable in case of proceeding to Europe or of over-receipt by agents.

Any member of the pilot service who shall be absent beyond sea for a period exceeding two years, shall from the date of the expiration of the two years, be considered as suspended from the service. GENERAL RULE.

10th. Under the authority of the provisions contained in the latter part of clause I. A. N. I. Victoria cap. 47, it is further provided in respect to all the above classes of officers, that if they embark with the permission of Government at any other Presidency than their own, or at any other place or port in India, provided that it be not more distant from their station than the ports of their own Presidency, the date for the commencement of the operation of the above rules for sick leave beyond sea, shall be that of actual embarkation at such place or port, and not that of leaving the frontier of their own respective Presidency, and the same privilege in respect to the date of leaving India, will be granted to officers of the several services referred to, embarking at other Presidencies or places in India, not more distant from their station than the ports of their own Presidency, with the leave of Government previously obtained, for the purpose of proceeding to Europe on furlough or of retiring from the service altogether.

11th. In the above rules no provision is made for the case of servants of the classes mentioned resigning the service after leaving their Presidency with the permission of the Government in consequence of sickness. The case of such persons has been considered by the President in council to require a new rule, which, under the terms of the act, requires to be submitted for the confirmation of the Hon'ble the Court of Directors before it can take effect. It is accordingly declared, that the security to be given by servants, as the condition of their drawing allowances while absent from their Presidency, must provide for the case of such retirement, and the servants must bind themselves to refund the whole of the allowances so drawn, in case of their resignation and departure for Europe without previous return to their Presidency, provided that the new rules to be established should require such refund.

(Signed) H. T. PRINSEP,

FORT WILLIAM,
Marine Board,
7th November 1839.

Secretary to the Govt. of India.

To CAPTAIN W. HOPE, Master Attendant.

Sir,—I am directed by the Marine Board to forward for your information

1.—Pension rules for members of the Pilot service, their widows and orphans.

2.—Rules for regulating leave of absence to members of the Pilot service.

and for communication to the members of the Pilot service, the accompanying rules as per margin, which have received the sanction of government under 17th ultimo.

2d.—It does not appear to the Board to be necessary to make any remarks on the above documents, beyond requesting you to apprise the members of the Pilot service, that the withholding the reduced pay of individuals absent on medical certificates in the Cape or elsewhere, until their return, arises out of an act of Parliament, prohibiting payment of salaries to absentees on such occasions during the period of their absence.

3d. Referring to the 3d pension rule, you will perceive, that it is necessary for the married members of the service to forward certificates of their marriage, and of the birth and baptism of their children, and for those who are now unmarried, to do the same on their marriage and the birth of the children, in each case within one month of the event occurring. Notices of the death of wives and children are likewise required to be forwarded within the same period.

4th. With regard to the 6th pension rule, the board do not propose to make any alteration in the existing practice, viz. the production of a certificate of existence by a member of the pilot service not below the rank of mate; and if these certificates are duly forwarded on the 1st of every alternate month, they will suffice; and in the case of widows and female orphans above the age of fifteen, if they are forwarded on the 1st of January, March, July and September, they will be sufficient, with the half yearly declarations of their not being married, which are required to be forwarded in May and November. The Board have been particularly anxious to make the arrangements in this particular as little burdensome and as pleasant to the parties as their duty to Government would admit.

5th. In conclusion, I am directed, with reference to my letter to your address, under date 29th April last, No. 967, and its enclosure, to inform you, that the prospective reduction of pay from the sicca to the sonat rupees, is not under the orders of Government, to affect the existing incumbents of the pilot service on their promotion to higher rank, or in respect to their pensions, or the pensions of their families, or the increase of pensions which female orphans now on the fund under 10 years of age will be entitled to after that age until they marry; but is to affect those only who hereafter enter the service and the families of such members. Such new members of the service will receive all their pay and allowances of every description in sonat rupees, their subscriptions to the pension fund will be made in the same number of sonat rupees as the present incumbents of the service pay in siccas, and their pensions and those of the widows and orphans, will be paid in the same currency.

I have, &c.,

Forms of the declaration will be furnished on application at the office of the Secretary to the Board.

8th.—The several amounts of contribution and pension referred to in the above rules, will continue to be made in Sa. Rs. in the case of all present pensioners, and of all existing members of the Pilot service, and of their widows and orphans. Individuals joining the pilot service, after the 1st of July 1835 will be paid their allowances and deductions of all descriptions will be levied in the same rupee, and pensions to themselves and orphans, will in like manner be paid in sonat rupees.

A Deck passage half an anna per mile or	" 25

Cabins retained in Calcutta for however short a distance, will be charged to Dinapore about two-thirds the entire rate from Calcutta to Allahabad, but if the chance be taken of a Cabin being vacant, the charge will be made only for the distance it is occupied.

Thus a cabin being retained to Bhaugulpore will be charged for 535 miles, whilst if the chance be taken of a cabin remaining unengaged, the charge will be for 300 miles only, the estimated distance between Calcutta and Bhaugulpore.

When two persons occupy a private cabin, full Deck passage for one person will be charged in excess of the cabin hire. The officer whose cabin is so occupied, to pay the Deck passage of the second person.

Deck passengers claiming to mess with the commander when government cabins are available will be charged 4 rupees per diem for their passage (but in no case to exceed the estimated number of days to each station) exclusive of 3 rupees per diem for mess. When government cabins are not available, deck passengers may mess with the commander, paying the usual rate of $\frac{1}{2}$ anna per mile and 3 rupees per diem for mess.

Deck passengers providing their own food will be charged $\frac{1}{2}$ anna per mile.

In the same way, a cabin retained in Allahabad, will be charged to Bhan-gulpore for however short a distance it may be occupied.

One servant is allowed to each cabin occupied by one person, but if a cabin be occupied by more than one person, an additional charge will be made of twelve rupees eight annas, which will entitle the cabin to a second servant. All other extra servants are charged for half an anna per mile, or twenty-five rupees from Calcutta to Allahabad.

The charge for passage on return voyages is fixed at two-thirds the rate on the upward voyages.

Passengers are allowed the baggage and cabin furniture, placed within their cabins, which is necessary for the voyage, and this may include a piano if required for use during the voyage, and not in a packing case—but pianos in packing cases and all other packages, as cases of Millinery, Saddlery, Glass and Earthenware, Beer and Wines, and other Stores, will be stowed in another part of the vessel, and to the extent of half a ton, or 20 cubic feet, be charged for at half the established rate for Freight; all in excess of half a ton will be charged at the full rate of Freight.

Deck passengers are allowed one roll of bedding 2 feet wide, and a box of six cubic feet solid contents.

A Table is provided by the commander at three rupees per diem for each person, exclusive of Wines and Beer, which if provided by the commander, are charged at regulated prices, of which a list is exhibited in the dining room, and likewise all refreshments required between the regular meals of breakfast at $\frac{1}{2}$ past 8, biscuit, &c. at noon, dinner at 3 P. M., and tea and coffee in the evening. Persons who provide their own Wines, pay 3 annas for each cork drawn.

Children who do not come to the table are provided at one rupee per day, the same charge is made for christian servants.

Mussulman servants may feed with the crew, paying a rate of two annas per day. Hindoos must provide their own food.

The Passage Money, and a deposit of three rupees per day for the estimated term of the voyage, must be paid on engaging a passage, and any surplus of Table Money will be returned, or an additional charge be made by the commander of the voyage may fall short of or exceed the time for which the deposit was calculated. Half the Passage Money, and half the Table Money become forfeit by persons who relinquish a passage after having engaged it.

The despatch of Boats is generally advertised in the order of their expected arrival in Calcutta, but it may sometimes occur, that the vessel first expected, may be the last to arrive, or from damage, be prevented going in her turn:—in such case the boat next for despatch will be substituted, and keep the appointed time as nearly as possible, and the passengers engaged for the first boat, will still be the first accommodated, by a substitution of one boat for the other, and should it even be more convenient for any passengers, originally engaged for the second boat, to proceed by the first one under the above circumstances despatched, the claim on account of the name of the boat, in which they engaged their passage being that ordered for first despatch, will not be recognized, to the prejudice of another passenger, and vice versa.

OF FREIGHT.

All Goods intended for shipment on the Government Boats, must be sent to the boat office, in Church Lane, Calcutta, between the hours of ten and four, Sundays, Christmas Day, and Good Friday excepted.

Goods will not be received for shipment unless they be addressed to a resident at the place at which they are to be delivered from the Boats. The directions must be marked on something not liable to be destroyed by vermin, and from which it may not easily be obliterated. A direction written on a card or marked with ink on a tin box would be liable to the above objection.

The Boat Office will not be responsible for any damage or loss that may be occasioned by accident to the Vessel or other cause whatever, not traceable to negligence or mismanagement.

All Goods sent to the boat office must be accompanied by a note with suitable direction for the guidance of the officers of the department.

Goods not applied for on board the boat by the consignee, will be carried on and charged with additional freight, unless addressed to the Steam Agent, in which case they will be delivered to him.

It must be understood, however, that although all persons are at liberty to consign their goods to the Steam Agent of the stations at which they are to be landed the Government is not responsible for such Steam Agent, or for the safety of the goods after the delivery of the same to the consignee, or to his order, whether such consignee be the Steam Agent or any other person.

Freight on an packages, excepting treasure laden in Calcutta, or for which tonnage is reserved in Calcutta, and which does not exceed in weight 35lbs, or 17½ seers, per cubic foot, will be charged by the cubic foot.

Packages exceeding thirty-five pounds, or 17½ seers, will be charged by the weight.

Freight on Copper Coins is charged by the weight, at 8 Pie per lb. from Calcutta—and down and intermediately the same as on weightable goods.

Treasure is deliverable to the bill of lading only, and parties neglecting to apply for treasure will be subjected to additional freight for the distance it may become necessary to carry it in consequence of their negligence.

Applications for freight on the vessel downward must be made to the Steam Boat Agent at Allahabad, by letter describing the goods to be despatched, their weight and measurement, and also naming the accommodation boat, cargo, or troop boat on which tonnage is required. It will not be sufficient that the party apply for tonnage in the first, or second or third boat, in any month, the name of the boat must be given, and the application may run thus: "That tonnage, be assigned me in the *Soane* troop boat, for 300 chests of indigo weighing—maunds each chest, and 250 bags of Saltpetre, or if not available in the *Soane* then in the *Lucha*, or failing, in her also, then in the *Soorma*."

The steam agent will in reply name the boat, in which he assigns tonnage, and if from any cause, as damage to the boat, deviation from her intended voyage or unexpected demand on account of government, a circumstance likely seldom to occur, the tonnage should be rendered non-available, the party for whom such tonnage has been registered must bear the inconvenience, and he will have no claim for indemnification by assignment of freight in another vessel to the detriment of any other person who may have engaged tonnage subsequently to the disappointed party, whose right to tonnage will be limited to such as may be available in the vessel previously named, but in that vessel the claim to such tonnage as may remain available, will be acknowledged according to priority of application. Thus the entire tonnage of a boat may have been assigned in rotation by the boat agent to A B and C. &c. After which the government unexpectedly make a demand for more or less, the remaining portion will go to satisfy first the claim of A, then of B. &c., the latter applicants being thrown out partially or wholly as the case may be.

The agent will be intructed to acknowledge the applications made to him for tonnage in the following terms:—"Sir, in reply to your letter of the 20th January, I beg to say tonnage for 30 chests of indigo and 200 bags Saltpetre is assigned to you on the *Soane*. Registered No. of application 4 on the 23rd January." The agent is instructed to keep a correct register of daily assignments, and to transmit a copy daily to the controller of steam vessels.

* Exclusive of the Groom or Keeper, who is to be considered a Deck Passenger and charged as such according to the usual rate. The Shippers are to supply the food and be at the expense of making the Stalls.

The boats will make the following stoppages at different stations during daylight:—

Koolna not less than,	3 hours.
Commercolly ditto ditto,	2 ditto.
Rampoor Beaula ditto,	3 ditto.
Rajmahal ditto,	2 ditto.
Colgong ditto,	2 ditto.
Banghulpore ditto,	3 ditto.

The commanders are instructed never to wait for passengers either those who merely go ashore at a station and are proceeding further on, or those who intend to embark there. If the steamer arrives in the evening she remains all night, but in the day she remains only the time stated, and passengers going ashore will be left behind if they are not on board again before that time expires.

Parties who ship Goods must engage to load them on board the Government Boats at the rate of Fifty Tons per day of 12 hours, the working hours are between Daylight and Sunset, and Commanders of Boats are prohibited loading or receiving Goods after dark. Should Freight not be ready for shipment on the arrival of the Boat at the several stations, the Commander of the Steamer will have peremptory orders to the next station.

The scantiness of water in the Ganges having on more than one occasion prevented the Government Steam Vessels from attaining some of the higher stations for delivery at which packages have been received on board, it is to be understood that all goods and packages, (Treasure excepted) laden on boats so arrested in their progress, are at the expense of government conveyed to the stations at which they should have been delivered by the boats, and are free of every additional charge to the shippers or consignees, who with regard to expense of conveyance are placed in precisely the same situation they would have been in had the boats been enabled to reach their destination. Should any persons having goods on board any of the Government Boats so arrested in their progress desire delivery of such goods at any station short of that to which they were to have been conveyed, they will be entitled to a refund of such proportion of freight paid on such goods as may be in excess of the freight that would have been levied upon such goods had they originally been shipped for delivery at the station at which they may, under the above circumstances, be delivered.

Treasure laden on a boat whose progress is arrested, will be retained on board until the boat is enabled to proceed to her destination, unless the consignees holding the bill of lading of such treasure may require its delivery, giving a full acquittance for the Treasure and receiving such difference of freight as may have been paid in excess of what would have been charged for conveyance of such treasure to the place of its delivery.

The boat agent at the different stations make no charge for landing goods from the boats into their godowns nor for shipping goods delivered into their godowns, provided such goods are not merchandize intended for traffick, nor animals nor machines for conveyance, for all such they will charge the following rates:

For embarking or landing a Horse, Cow or Bull, Rs. 2

A half, Dog, Sheep or Goat, with or without Kid, Annas 2.

A Harouche, Phaeton, Palankeen Catriage, Birtzka, Rs 3.

A Buggy or Palankeen, R. 1.

A Box, Bale, Chest or Cask, large or small, Annas 2.

A Bag of Sugar or Saltpetre, ditto ditto Anna 1.

On the two last items the boat agent at Benares will, in consideration of the distance of the European town from the Ghat, make a double charge. When goods are consigned to Calcutta it is optional with shippers to pay the freight or to leave the same to be collected on delivery of the goods. Freight must be paid to the agent or commander of the boat for all goods shipped away from

Calcutta and not deliverable at Calcutta. And no packages will be received into the boat office for transmission to the Upper Provinces on which freight is not paid at the time.

By Order of the Superintendent of Marine,

Controller of Gov. Steamers.

GUIDE FOR PARTIES PROCEEDING BY THE HONORABLE COMPANY'S INLAND FLATS AND STEAMERS.

A month, or six weeks before the intended time of your departure, intimate by letter to the Comptroller of Government Steamers at the Steam freight office, the time you wish to leave Calcutta, (stating for what station,) with particulars as to number of ladies, gentlemen, children and servants, if Hindoos, or Musselmen, or Christians, and what class and number of cabins are required.

On receipt of answer, it is requisite to secure the passage immediately by letter, as the accommodation of the flats are often engaged two and three months before hand. When passage is engaged, send for your bill, and either pay, or give a check for full amount of passage, dieting, &c. &c.

If no cabins should be procurable in the Accommodation Boat, get a letter from the Comptroller to the commander of the flat or steamer, granting them permission to accommodate you if they can: unless this is done, it is useless applying to any of the officers for their private cabins, as they are liable to a heavy fine for transgressing, and dismissed from the service for taking any packages.

There are four Accommodation Flats; each has four 1st class cabins, measuring 12 feet by 8-6, at Co's Rs 300 each to Allahabad; four 2d class cabins, 9 feet by 8-6, at Co's Rs 250 each, and six 3d class cabins, 6-3 by 8-6 at Co's Rs 200 each—each cabin being fitted with patent water closets, but no furniture.

The return hire of each cabin is less, being for 1st class cabin 200; 2d class cabin 166 10 8, and 3d class cabin 133 5 4.

Parties engaging a cabin for any of these stations in Calcutta, will be charged for Dinapore, being $\frac{2}{3}$ ds of the passage, thus: 1st class cabin 200; 2d class 166 10 8 3d class 133 5 4.

Cabins retained for any distance beyond $\frac{2}{3}$ ds the passage are charged full passage to Allahabad.

The same rules appertain to the return passage. The hire being for a 1st class cabin 133 5 4; a 2nd class cabin 111 1 8; a 3d class cabin 88 14 2.

Passengers are allowed to carry 5 cwt. as baggage in their cabins; but no packages. And any luggage put into the hold at passenger's request will be charged freightage.

One servant is allowed to each cabin, and any extra are charged for at the rate of 50 Rs each to Allahabad; for Musselman servants, if dieting with the crew, a charge of $\frac{1}{4}$ R. per diem is made, and for Christian servants 1 R. per diem is charged.

If two passengers occupy a 1st or 2d class cabin, they may have a 2d servant at a charge of 25. Rs.

When the vessels anchor at night, a boat attends all Hindoo servants to cook on shore, and all such servants should be warned to provide themselves with gram, churrah and water, sufficient to last them four days, when the vessels proceed via Sunderbunds.

On return trips their provisions should be purchased at Commercilly.

A Table d' Hôte is kept on board the Accommodation Boat for passengers, at a charge of 3 Rs each per diem for adults, exclusive of wines, &c. &c., which, if required, may be obtained at

17. Steamer's route in the rains; places they pass, &c. &c. From the middle of June to the beginning of October steamers proceed up the Bhagruttee river, passing Barrackpore, Serampore, Pultah and Chandernagore.

Chandernagore. The latter on the right or western bank of the Hooghly is a French settlement, distant by water 25 miles and 22 by land. Much furniture is manufactured here by natives for some of the European shops at Calcutta; it is made very cheap. Steamers do not stop here.

18. Chinsurah. This is a European Infantry station, on the right or Western Bank of Hooghly river, distant by water 28 miles, and 26 by land; is noted for a large College for Natives, under the Education Committee, as also for a manufactory of cheroots.

Its distance is 30½ miles by water, and 29 miles by land from Calcutta. It is seven hours run for a Steamer and Flat.

21. The Matabangah's lower junction, and the Outcast's village of Chagdah. Forty-six miles above Calcutta on the left or eastern bank, is the lower end or entrance of the Matabangah river; just inside of it, on its southern or left bank is the native village of Chagdah, noted as being a settlement solely for those that have recovered from their sickness, after being carried from their homes, and exposed to die on the banks of the river, they being considered as outcasts, and banished from their families.

22. Culna, in Burdwan. Culna in the Burdwan district, is on the right or western bank of Hooghly river, distant 66 miles by water and 52 miles by land from Calcutta: is a very large native mart, and has one or two missionaries: it is noted for a large temple, to which are attached 1,000 Priests, supported by the Rajah of Burdwan.

23. The noted Dhubah Sugar works. Dhubah steam sugar works are one mile inland on the right bank of the Hooghly river, a little above Mirzapore nullah, and 72 miles by water from Calcutta: this is generally made in one day from Calcutta by the steamers, with a fair breeze.

24. Nuddeah at the entrance of the Jellingee, and Bhagruttee rivers. Is a very large native village, on the right bank of the river; is 83 miles by water, and 64 miles by land from Calcutta; and 83 miles below Berhampore Hospital. Is noted for its long range of temples: it has a thanah and is the country residence of a great number of the Calcutta sircars.

27. Kutwa. Situated at the entrance of Adgar river or nullah, on the right bank of the Bhagruttee river, is a very large mart, 5 miles above Dewangunge, and is noted for all sorts of native cloth manufactories and striped silks; also for ladies' muslin handkerchiefs. This is a coal depot at which the steamer generally stops 1 or 2 hours, one mile above this is the old Fort of Sakce.

Plassie is 16½ miles by water from Kutwa, situated on the left or eastern bank of the Bhagruttie river, and is celebrated for the famous battle fought here on the 23d June, 1757.

28. Plassie.

A letter or newspaper leaving Calcutta 2 days after the Steamer, will overtake her here.

Budgerows and pinnaces can be obtained on hire here.

Boats obtainable.

The general passage is from 3 to 3½ days, but it has been done in 2½ days.

General passage.

On the left or east bank of the river, at 5½ miles above Berhampoore flagstaff, stands the new palace, a truly splendid edifice, the residence of the Moorsshedabad Nawab, planned and built by Colonel McLeod, at the request of the Government of India. From hence, upwards, the banks are for 8 miles densely populated, being large manufactories of various silks; and grain maris.

32. City of Moorsshedabad, its palace.

On the left bank, 42 miles above Berhampore, is the large village of Jungeepoore, also Gurka and Kidderpoore on the opposite bank. Jungeepoore is noted for its very large Silk Factory, and Residency house, purchased by Mr. Lauralletto from the Hon. East India Company.

33. Jungeepore.

Silk Factory.

Twenty-one miles above Jungeepoore, or 229 miles from Calcutta by water, is the upper entrance of the Bhagruttie river, where it branches off from the Ganges nearly opposite to Furteepoore, on the north of Malda-show. The distance from Calcutta via Sunderbunds in the dry season by water, is 517 miles.

34. Junction of Bhagruttie and Ganges rivers.

FROM CALCUTTA *via* SUNDERBUNDS.

Vessels in the dry season from the latter end of October to the beginning of June, pursue the Sunderbund on Eastern route, until they reach the junction of the Bhagruttie and Ganges rivers.

35. From Calcutta via Sunderbunds.

From the flagstaff on Fort William to Diamond Harbour, the distance is 43½ miles; here is a Government Semaphore, a Post and Post-master: this is also the Custom House officers' station during the S. W. Monsoon, and is 7 hours run for a steamer and flat.

36. Diamond Harbour.

Post Boat.

Vessels do not stop here, but are semaphored up, and boarded by a post boat, when passing. Water in the river is brackish here.

37. Mud Point.**Leaves Hooghly river.****Rail road.**

Sixty-one miles from Calcutta is Mud Point bungalow, on Saugor island, situated at the entrance of the Barratollah or Channel Creek, down which the steamer turns, and enters the Sunderbunds on the north or left bank. This is the place where the intended railroad was to have commenced.

38. Farintosh and Kidgunge Estates.

Nine miles below Mud Point, on the bank, on Saugor island, are the estates of Farintosh and Kidgunge, cleared by Messrs. Kyd and James Calder.

39. Doar Agra.**this river the steamers turn,****Enter Sunderbunds.**

Thirteen miles from Mud Point, or 74 miles from Calcutta, is the entrance to the Doar Agra river. Into this river the steamers turn, leaving the Barratollah, and may be said to have properly entered the uninhabited wilds of the Sunderbunds for at least two days. On the southern bank of the

Doar Agra are some pine trees, and the old ruins of Mr. Jas. Prinsep's former estate which was deserted after the May gale of 1833. At a clump of trees

Tank infested with Tigers.**Shooting good.****No firing allowed.****Salt water procurable.****40. Intricate route.****creeks and nullahs (43 in number). The vessels have to go through without pilots, the commander should therefore be well acquainted with the route.****Salt water.**

about one mile E. by S. from the house, is a fresh water tank, banded in on the bank of the Habitage. This place is infested with tigers. From hence sportsmen prepare for good ball practice at alligators, pigs, deer, and monkeys; but no firing is permitted on board the flats, on account of the ladies. Good salt-water bathing is now obtainable.

From the Doar Agra the passage is very intricate, up to Koolna, owing to the number of windings, rivers, creeks and nullahs (43 in number). The vessels have to go through without pilots, the commander should therefore be well acquainted with the route. Salt water procurable within 12 miles of Koolna in Jessore.

41. Koolna, in Jessore.**Advice to passengers for Jessore.****Letters.****Provisions procurable.**

Koolna is 257 miles from Calcutta by the steamer, and 148 miles by land. Passengers wishing to proceed to Jessore in the steamers must land here, Jessore being 30 miles from Koolna. This is a coal depot, where vessels haul to the bank; it is likewise a Post Office station; the hawk runs in $1\frac{1}{4}$ days; letters for steamers should leave Calcutta two days after the vessel. At this place fowls, ducks, and cocoanuts, green and dry, may be obtained; also palm juice may be procured. This is the residence of Mr. Reiny, indigo factor. From hence a nullah, leading easterly, branches off for the Burrisaul and Dacca routes.

42. Route from Koolna to Commercolly.**studded with indigo factories, and very large populous villages.****Children.****Eddies very strong.****Caution to Passengers.**

From Koolna steamers proceed up the winding nullah of Attaree Bankee to the beautiful and bold Burishie, or Muddamuthi river, which is thickly studded with indigo factories, and very large populous villages. On the banks of these two rivers, as also the Gorice river, children are innumerable. The Gorice is a difficult river to navigate, owing to strong under eddies or currents. From Koolna up to Commercolly, on the Gorice, is 120 miles by steamer's route, and is $2\frac{1}{2}$ days run. When running up or down the Gorice, passengers

should abstain from conversing with the officers of the vessel when at their stations.

43. Commercolly.

Is a very large town; on the left, or eastern bank of the Gorice river, and is 10 miles from the Ganges. Is about 12 miles by land and water from the civil station of Pubna. It has a large silk factory, formerly the property of the Honorable East India Company, but now belongs to

Silk Factory.

Messrs. Carr, Tagore and Co. Commercolly is the property of Baboo Dwarkanauth Tagore. There is a Post Office here, under charge of a sircar, and the dawk runs $1\frac{1}{2}$ days to Calcutta. Steamers are 6 to 7 days from Calcutta, and any letters for them must leave town on the 4th day after them. It is 124 miles from Calcutta by dawk route, and 377 by steamer's route. This is also a coal depot, and the steamers haul to the bank. Fowls, ducks, kids, goats, milk, butter, eggs, and bread are procurable here,—the Natives flocking with them, to the vessels if properly treated. Large jheels abound here with waterfowl of every description. This is the famous manufactory for ladies' boas, muffs, and tippets of down and variegated feathers. Promenades are good here. Pubna passengers should land here.

Ten miles above Commercolly is the Ganges river, up which the steamer proceeds if for the North Western provinces, but down, if for Pubna, Dacca or Assam.

About Commercolly, on the right or southern bank of the Ganges, is the present blocked up entrance of the Mattabanga, or Broken-headed river,—very appropriately named—it empties itself into the Hooghly by the outcast's village. Above it is the blocked up entrance to the Jellingee river, which empties itself into the head of the Hooghly river, off Nuddea, after passing Kishnagar civil station.

Sixty-six miles from Commercolly is Sordah, on the left bank of the Ganges; was formerly a coal depot, and is noted for Mr. Watson's large silk factory, formerly the Hon'ble Company's. It is 443 miles from Calcutta by steamer's route, and is 177 miles by dawk. Steamers do not wait here, but change pilots. Letters from and to Calcutta take 2 days; but they should not be sent here but to Rampore Beaulah. From hence the Burreyl river branches off to the east, through the Chullum and Bellobockery Jheels into the Bara Saugor river for the Janai and Dacca; but only navigable for small boats.

Twelve miles from Sordah, on the left bank of the Ganges, is the civil station of Rampore Beaulah, in the district of Rajshaye, distance 455 miles by steamer from Calcutta, and only 155 miles by land. It is the residence of a judge, a magistrate, a collector, postmaster, engineer officer and doctor, as likewise some indigo and silk manufactures. This is a coal depot for steamers where they are generally detained 2 to 4 hours. Here is a good bazar: bread, butter, fruits, meat and poultry, are cheap. There is a fine road here. Letters for steamers from Calcutta should leave the 6th day after the vessel. The dawk takes $1\frac{1}{2}$ days for letters; bangy dawk $3\frac{1}{2}$ days: the steamer's run is from $7\frac{1}{2}$ to 8 days. Passengers for Darjeeling sanatorium, previous to leaving Calcutta, should make arrangements for land travelling, and to leave the steamers here, which is a far more comfortable plan than landing at Burgatchia.

Burgatchia, on the left bank of the Ganges, and Mahanundee rivers at their junction, is 22 miles above Rampoor Beaulah: there is a crossing ferry from Berhampore route for the new route to Darjeeling: it is about 30 miles from Berhampore. Passengers can be landed here, this being the direct route from Calcutta to the sanatorium.

Furteepore factory is one of Lord Glenelg's, and in the district of Malda, distant 24 miles from Malda. Is situated on the left bank of the Ganges, and is 50 miles from Rampore Beaulah. At 3 miles above this is the junction of the steamer's route with the Bhagruttee and Sunderbund routs. Passengers for Malda should land here.

Subjunge is on a rocky point, on the right bank of the Ganges, and is by Bhagruttee 265 miles, by Sunderbunds 686 miles from Calcutta, and by land 196 miles. Letters for steamers, from June to October, should leave Calcutta on the 5th day after the steamer, and from October to June on the 8th day, dawk route being $1\frac{1}{2}$ days.

This is a very ancient city, and the ruins of an immense mass of buildings, among which is an ancient palace, a noted well, a hall of audience, a marble lined balcony and gateway, &c. &c., worth inspecting. Here are some Christian graves and monuments, and a large bazar, where milk, curds, palm fruit, palm juice, poultry, kids, rice, and hardware in a small way, are procurable. The European factors and native Nabob reside on the bank, about 2 miles above the steamer's anchorage or coal depot. Vessels generally stop here 4 to 5 hours: it is a very sickly place, owing to jungle. The hills are distant about 5 miles inland. The Himalaya hills are visible at times. It is a native darogah's, and post office station.

Twenty-one miles above Rajmahal, and 2 miles below Sukreegullee hill and point is the beautiful Mootie Jhurna waterfall: it is visible on the eastern side of the hills. At Sukreegullee point is an Indigo Factor's bungalow; would be an excellent shooting box: bears, tigers, rhinoceros, leopards, hogs, and deer of all kinds abound here, and among the hills feathered game abound. Steamers pass it in $10\frac{1}{2}$ days in the dry season.

Twenty-three miles above Sukreegullee, on the left bank of the Ganges, is Kantnegr. Passengers for the civil station of Purneah are landed and received here.

Fifty-eight miles above Rajmahal, on the left bank of the river, is the junction of the Koosie river. On the Nepaul part of the Himalayas, nearly opposite, is Patturgatta hill, with one or two temples, and is noted in native tradition for a cave (only a small hole), into which, it is said, a Rajah with an immense suit, and one lac of torch-bearers entered, and never returned! Such is the story of an attending faquer. From hence are beautiful views of isolated hills, and the tips of the Colgong rocks. The southern or Patturgattah passage, up to Colgong, has some very dangerous rocks, where, if a boat touches, not a soul can be saved.

Colgong village and rocks is 68 miles above **Rajmahal**, 65 miles below **Monghyr**, and 18 miles below **Bhaugulpore**; is on the right bank of the **Ganges**, and has a fine nullah and shelter for boats. It is a coal depôt for steamers: the left passage should never be attempted by either steamers or boats in the rains, as the currents and eddies between the main and the rocks, almost make it certain loss for any native boat, and too dangerous for steamers. Boats in attempting it, must be careful to have very strong tracking lines low down to their prows, with plenty of trackers and two bowlines as guys to the bank, and kept close in. **Rock fish** are procurable here.

Eighteen miles above **Colgong** is the civil station of **Bhaugulpore**, situated on the right bank of the **Ganges**. It is very picturesque. It is 268 miles by land, and 348 miles in the rains, and 636 miles in the dry season from **Calcutta**. Here is a commissioner, a judge, a magistrate, a collector, a doctor, a sub-opium agent, a steam agent, a post master, and some indigo factors. Letters for steamers should leave **Calcutta** the 6th day after the steamer in the rains, and on the 9th day in the dry season. **Dawk** takes $2\frac{1}{2}$ days, and steamers $9\frac{1}{2}$ and 11 days to arrive here. Provisions of all kinds are procurable here; also a kind of light silks, called **Tassers**, for coats, jackets, ladies' gowns; short silks of various colours for bed covers, and native wear; also a kind of cloth called **batter**. Here are a few hill rangers and a sepoy station, under charge of an invalid officer. There is also a monument here raised by the hill people, in memory of their lamented patron, **Mr. Cleveland** of the civil service whom they styled the Father of their country.

Steamers stop here for about an hour or two in the rains, and only a few minutes, at some distance below, in the dry season.

Twenty-five miles above **Bhaugulpore** is the noted **Jangeera** rock in the river, with a **Hindoo temple** on it; Europeans are admitted to inspect the temple.

One hundred and thirty-three miles above **Rajmahal** or 25 miles above **Jangeera** rock is the civil station of **Monghyr**—a very large mart. Its old fort by the anchorage, is situated on a rocky point extending considerably inland on the right bank, and is considered by the steam regulations to be half way. There is a judge, a magistrate, a collector, a doctor, a post-master, and steam agent; likewise a general storeshop for all European stores and provisions, wines, &c. &c. horses, buggies, for a evening's ride to the noted **Seetakoond** well distant 5 miles. Two large bazars are here, where provisions of all description, except ducks, may be obtained. This is the little **Birmingham** of the East. **Tassers**, **batters**, different native cloths, hardware, furniture, apparently well finished guns and pistols—(but treacherous articles)—pikes, swords, gunpowder, shot, black wooden flower vases and cups, ladies' hand-some light wooden jet black necklaces and bracelets

General passage.

The steamer's passage to this is generally 12 days in the rains, occasionally 10 days in July, and in the dry season 13 to 14 days: the distance from Calcutta is 398 miles by Bhagruttee, 686 miles by Sooderbunda, and 304 by land. Dawk runs in $2\frac{3}{4}$ days. Letters for steamers should leave town on 7th day after her, in July, and on the 8th day in June, August, September and October, and on the 10th day in the dry season.

Two miles S. W. by W. of Monghyr are some rocks, with a mark on them: they were formerly in the steamer's track, but are now buried in an immense sandbank.

Soorajgurra.

On right bank of the Ganges, 20 miles above Monghyr, is the large village of Soorajgurra, with a small river that runs down from the hills. Fowls and kids are procurable here, through the thannadar's assistance, for boat travellers.

Poultry procurable.

On the right bank of the river, 60 miles above Monghyr, and 50 below Dinapore, is the large town and mart of Bar, being a darogah station, also a bye depot for steamer's coals. All this bank of the river, for 20 miles below and above, is noted for piggery villages, and saltpetre manufactories.

Bar.

Plenty of Pigs.

Fulwa manufactories.

Also on the right bank, 87 miles above Monghyr, or 9 miles below Patna station, or rather Bankipore, is a large native town, with a river on its upper or western end, that flows from the hills, and has a pukka bridge over it: it is a noted manufactory of table cloths, of any extent, pattern, and texture that may be ordered. Also napkins and towels of all sorts.

Patna Civil Station.

Patna, and the civil station of Bankipore, extends about 10 miles along the right bank, 14 miles below Dinapore; is noted for opium, gram, and wax-candles, and is a very large mart, 1700 boats of burthen have been counted laying here at one time. It is the residence of a nabob, and being a sudder or civil station, has a commissioner, a judge, a magistrate, a collector, their deputy and joint officers, a doctor, an opium agent, a post-master, European assistants and missionaries.

Residents.

Establishments.

Noted Granary.

The government establishments are at Bankipore, or the upper extreme of Patna, where there are some handsome houses, also a very large and noted granary built like a dome, with two flights of steps outside, to ascend to its top, on which is a large circular hole, to admit air into the building, and to start grain into. It has only one door, and was built for a depot, in case of famine. It is a very massive building, and noted for its very numerous, clear, and strong cchos, and at present it is used as a guard house.

Steamers seldom stop here : sometimes not being able to get within a mile or two ; passengers can land at the lower end, and getekhas or hackeries, (a native onehorse conveyance) to take them up to Bankipore, or to the military station of Dinapore, 14 miles distant, by way of a novelty or change, when they can inspect the granary by the road side. The road is very good up to the military cantonment. Deegah farm, is north of Patna. On the left bank is the Gunduck river from the Nepaul hills, with a large native town on its right bank, and on its left, or eastern bank, is the famous Hajee pore bungalow, and race course. During its annual large fair which is attended by people from all parts of India, very good and cheap nags are procurable.

Dinapore is a large European and native military station, where the steamers put to the bank by the cantonment flagstaff, for 5 or 6 hours, to take in coals, discharge and take in cargo, and passengers : it is considered as two-third of the passage upwards. It is on the right bank of the Ganges, distant from Calcutta, by steamer's route via Bhagruttee, 508 miles ; via Shunderbunds 796 miles ; and by land 376 miles. Post takes $3\frac{1}{4}$ days. Letters for steamers should leave Calcutta on the 10th day after the vessel in the rains, and 13th in the day season.

Mutton, beef, fowls, eggs, bread, butter, fruits of various kinds, and grapes in May and June, are procurable ; as also table-cloths, towels, napkins, cotton handkerchiefs, also hats, muslin and cotton cloth shoes, harness, Patna scented wax candles, and gram. European shop keepers are here also. Here is a steam agent, a doctor, and a clergyman. Plays are performed occasionally by amateur performers. Auctions are sometimes held here.

Passengers for Arrah and Tirhoot land here.

Four miles above Dinapore is the junction of the river Soan.

Twenty two miles above Dinapore, on the left bank, is the civil station of Chupra, the capital of Sarun district. Here reside a judge, a magistrate, a collector, a doctor, and a post master. Steamers seldom touch here even in the rains. Passengers for this place should arrange to land above it at Revelgunge, where there is a steam agent.

Revelgunge, 27 miles by water above Dinapore, on the left bank of the river, is a very large grain and saltpetre mart, and noted for boat-building. An annual fair is held here.

Steamers merely touch to land passengers and a few packages to the steam agent's care. From hence up to Ghazeepore, the villagers are said to be uncivil and dishonest.

On the left bank, 74 miles above Dinapore, is the large native village of Bhulican, a darogah station, noted for a fair annually held here, as also a grain mart.

This is the most dangerous part of the Ganges for quicksands and shifting banks. Tides are very strong here ; boats being detained from 4 to 6 weeks, waiting for water, and a favourable breeze.

Buxar on the right bank, and Kurntades on the left bank, is 88 miles above Dinapore, and is noted for being the Hon'ble Co.'s stud establishment. There is a small fort here, where the battle was fought. Here are some European officers of the stud, a doctor, and hospital bungalow, also a steam agent.

Eight miles above Buxar, on the right bank of the river, is the junction of the Kurrunnasa river: the touch of its waters is considered as one of the greatest mishaps that can happen to a Hindoo, as it is said to debar him from admittance into Heaven. There is a bridge built over it by a rajah. This part of the country is noted for dacoits.

One hundred and nineteen miles above Dinapore, or 31 miles above Buxar on the left bank of the river, is the Civil and Military station of Ghazeepore, a very handsome place. At its lower end is the ruins of an old palace. The Native town is built on precipices. The European inhabitants, consisting of the judge, magistrates, collectors, doctor and opium agent, &c. &c. reside on a level plain, about the centre of the station, the cantonments from the upper part, and the European hospital is at the upper extreme. Between the civil and military lines is the chapel and Lord Cornwallis' tomb.

This place is noted for its opium manufactory, and Government stud establishment, where horses can be purchased; as also for its rose water, otto of roses, and other perfumed oils; bread, butter, eggs, fowls, mutton, lamb, kid, milk, and sugar, are procurable; also European articles of consumption, and millinery from the European shopkeepers. Its distance from Calcutta is, via Bhagrutlie, 627 miles, via Soonderbunds 915, and by land 431 miles. The dawk runs in 4 days, and letters for steamers should leave Calcutta on the day after the steamer in the dry seasons, and on the 11th day in the rains;—the vessel's passage being from 17 to 20 days. Steamers remain here for passengers, and coal and cargo at the steam agent's. Passengers for Goruckpore should land here.

This is the lower extreme of the North Western Provinces or Agra Presidency, and is a great place of trade. It is the lowest station for the Agra flat boats or boxes. Kunkerry banks commence from here upwards.

Eight miles above Ghazeepore is the dangerous kunker reef of Bairie that strikes across the river.

Twenty-three miles above Ghazeepore is Chockookpore stone ghaut and temple, noted for the numerous monkeys that resort here.

Two miles below Chockookpore, on the right bank of the river, is a sunken kunker rock, opposite to a palm tree, just below Sanontie.

Thirty-four miles above Ghazeepore, by Kucharee on the left bank, is a very difficult and dangerous sunken reef.

Six miles above it is Saidapore a large native town, with a tehsseeldar and darogah; and 2 miles above Saidapore, is the junction of the Goomtie river,

that goes up to Lucknow, said to be a very intricate and rocky river, too shallow for the smallest boats in the dry season. The Ganges river, from above Kuch-aree reef, past Saidapore up to the Goomtie, a distance of 8 miles, is a very critical passage with various bad patches of kunker rock, on which native boats and budgerows split instantaneously.

Five miles above the Goomtie, is Chandroutie, with a white temple. Here in mid channel, is a very dangerous pukka platform, on kunker, with the ruins of an old temple on it, and no passable channel on its northwest, or Jinhore side, and very dangerous for downward bound boats, as the current sets directly on it.

Five miles above Chundroutie is Bullooa Ghaut and ferry on the right bank: these banks are formed of kunker rock.

Fifty miles above Ghazeepore, or 8 miles above Bullooa Ghaut, on the right bank of the river, is Kye, and its sunken kunker reef, scarcely avoidable in some dry seasons. From hence due west over the right bank, you will observe the Benares minarets, distance 9 miles.

Benares, on the left bank, is considered as the most holy city in India, and is certainly one of the most handsome when viewed from a distance on the river, there being such numerous stone ghauts and temples, some of which cost 17 lakhs of rupees. This is the residence of some of the native princes, pensioners of the Honorable East India Company; but their dwellings are divided into so many little chambers, or pigeon holes, that the internal part of the city has the appearance of a mass of mean buildings, piled up without any regard to order or appearance, and narrow, filthy lanes, instead of streets. There is a large inclosed mart, called a chook that opens at 5 P. M., where trinkets, toys, birds, cloth, coarse hardware are exposed for sale. It has a large well in it, and is also a resort for native auctions. Close to the chook is the principal alley or mart for Goolbuduns, a very fine silk, of various patterns, worn by natives, as trowsers; also fine caps with tinselled crowns and very elegant gold and silver embroidery: also scarfs and turban pieces for fancy head dresses. There is likewise a traveller's chook, a native inn, and a large horse mart, where very fine horses, of the Toorky, Persian, and Cabul breeds are procurable, as high as 8, 10, and 15,000 rupees, and are brought here by the fruit carriers who bring grapes and pears from those countries. Here are several miniature painters, and also venders of miniatures on ivory, said to be likenesses of different native princes, and their queens, and nautch girls; true likenesses of native servants in costume, tradesmen and beggars.

Delhi jewellery of the best gold is brought on board the steamers, by sending for the dealers. Here is also an old observatory, and two very high and slender minarets; one of which has a slight inclination; travellers ascending them are expected to give the keeper a fee of 1 rupee. From their tops is a view

of the city, the adjacent country, and the river (so gratifying a sight should not be passed over by any traveller) Provisions are procurable; partridges, quail, and wild ducks of sorts are to be obtained. Steamers remain at Raj Ghaut to discharge and take in packages, and to receive coals. The civil and military station is about 4 miles inland, direct from Raj Ghaut, where reside the commissioner, the judge, magistrates, collectors, the general, and all the military officers of the native regiments stationed here, and some European artillery. Here also resides a doctor, a postmaster, steam agent, coach builder, and European shop-keepers.

Letters for steamers, or travellers, are not forwarded to the vessel or boats, but must be sent for which is very inconvenient. The city is about 2 miles long. The natives are very uncivil to strangers. Name our fanatics are here, who drown themselves believing that the holy Gunga, and the city of the most holy, secures them eternal happiness.

Benares is from Calcutta, via Bhagrattee 696 miles, via Sunderbunds 984 miles, and by land or dawk route 428 miles. Letters take 4 days, Bhangies 7 days. Letters for steamers should leave Calcutta, the 12th day after the vessel in the rains, and on the 14th day in the dry season.

Palankeens are procurable here, but infested with vile vermin. Travellers wishing to visit the station of Surde, should write up from Ghazeepore to any friend, or the steam agent, for a conveyance to be ready at Rajghaut for them, on their arrival.

Ramnaghur, $1\frac{1}{2}$ miles above Benares, on the right bank of the river, is a native palace, the residence of the Rajah of Benares.

Sooltanpore, Benares, is a native cavalry station, 17 miles above Benares, and on the left bank of the river. Steamers bring to here a few minutes, on their passage up or down, as required, to land and receive passengers. It has a knukery or rocky point, which is very awkward for native boats, as also for steamers, owing to narrow channel and strong currents; it is off the stables, which are called Little Calcutta.

On the right bank of the river, about 4 miles above Sooltanpore, is a very neat looking place, called Ofnar, with a very neat-looking English church, that reminds one of sweet, 'sweet home.' It is an invalid military station, and has a fortification, on an isolated rocky hill, which projects into the river, forming a very nasty point to pass in the rains. Hindoo tradition tells us, this fortress was built in one night by a giant, and is impregnable: it completely commands the river, and is used as a place of confinement for state prisoners. There are several detached rocky hills, or stone quarries here. It is a very sickly place, owing to the heat arising from the stone, which causes fever and spleen. This is a great place for snakes. A little above the fort is a temple. Tradition states it to contain a chest, which cannot be opened, unless the party opening it lose his hand—four thieves having so suffered once, in an attempt on it. Very fine black and red earthenware is procurable here, such as wine

coolers, which being filled with water, after the bottle is inserted, and set out in the draft of the hot westerly winds, (none other serves the purpose,) in the shade, cools the confined liquor equal to icing it. The cooler must be dried daily. Also red sandy water holders, or suries, which keep water very cool. Black butter-pots, with a casing for water, very neatly-finished, and large black double urns, to contain bread and keep it moist. Here is a steuin agent; but steamers seldom stop more than ten minutes.

Seven miles above Chunat, on the right bank of the river, is the village of Kutnac, with rocky bottom and hard lamps of red earth in the river, a little above is a ravine, which is to be avoided by all boats.

Fourteen miles above Chunat, is the crossing ferry of the Benares grand road, and of Kiwa and Bind-doolie to Mirzapore. From hence to the latter place, is a fine road, distance $7\frac{1}{2}$ miles by land, and 16 miles by water.

Ten miles above the ferry, and 7 miles below Mirzapore, on the left high bank, is Bhagoan, with a white tomb, and a patch of kunker in the river, on which many boats are lost. From here the cantonments of Mirzapore are visible.

Mirzapore, a military cantonment, is 2 miles below the city; and the civil station, where the judge's, magis'trate's and collector's offices are, is 1 mile below the city. The steamer stops at the agency ghaut, at the lower end of the city. This place is noted for a cotton mart, and cotton manufactory; as likewise shell lac, lac dye, hardware in a small way. Many boats are here, at all seasons.

The city is very confined and dirty, subject to great sickness. There are 2 or 3 fine stone ghauts here, and some small temples and minarets. Bread, butter, eggs, mutton, lamb, kid, beef, veal and fowls are procurable here. Both a military and a civil doctor reside here.

Mirzapore is from Calcutta, via Bhagruttee, 748 miles via Sunderbunds, 1036 miles, and by dawk route 455 miles. The dawk takes 5 days, and bhangy 8 days to run. Letters for steamers should leave Calcutta on the 13th day after her in the rains, and 17 days after her in the dry season: the vessels having plenty of cargo to discharge here, are generally detained from four to five hours.

Four miles above Mirzapore is Bindachan, on the right bank, noted as the place of an annual meeting of disreputable people who come here to make vows and poojahs.

One mile above Bindachan are the dangerous granite rocks of Seebpore.

Twenty-eight miles above Mirzapore, on the left bank of the river. Passengers generally land in the cold season, and have a walk across the neck of land, in a W. N. W. direction two miles wide to Taila, and rejoin the steamer again off there; she having to go a detour of 21 miles round the point.

Two miles above Sutarmaree, is Deega Kunker Spit, with a deep bight.

Allahabad to Mirzapore.

Letchyagurree and its ravine, on the left bank of the river, is 22 miles above Deega, noted for its robbers when it was attached to the Oude territories.

Sursa is a large cotton mart, on the right bank of the river, and is 60 miles above Mirzapore, and 23 miles below Allahabad, to which place is a good road. This is the station of a European custom's officer. There are several pukka houses here, and two very fine tanks at the back of it, and an old mud fort. From hence, up to Allahabad, the river is very intricate and shallow. Ironwork in a small way can be done for boats here. Turkeys and guinea fowls abound.

Allahabad, is 83 miles above Mirzapore. Its fort is at the junction of the rivers Jumna and Ganges. It has an imposing appearance, when on the river, 7 miles below it. The Jumna waters are blue, whilst the Ganges are muddy. The steamers put to at the Jumna mosque, built by General Kyd, and $\frac{1}{2}$ mile inside the Jumna. The native military cantonments are about 5 miles inland, and the civilians' and officers' are from 3 to 4 miles inland. The general and doctor reside in the fort, as also the steam agent. State prisoners are kept here. Here is also a large stone pillar said to have been erected by Alexander the Great, to mark his conquests! and a cave full of native stone images, wherein is shewn a small entrance to a supposed subterraneous passage to Benares, but which, in fact, only extends a few feet. (The city is the seat of one of the principal native courts of justice the Sudder Dewanny.) It is also a great place of worship, and an annual fair is held outside the fort on the sands, at point of junction. It was formerly the seat of the residency. Bread, butter, eggs, beef, mutton, lamb, kid, fowls, pigeons, turkeys, guinea fowls, quail, partridges, teal, wild ducks and geese are procurable here. European shops are here and auctions held. About 2 miles from the ghaut is the chook, or market, where all sorts of cloth European and native, are procurable. Shawlmer. board the steamers, if sent for, with all sorts of Cashmere shawls, waistcoating, caps, gloves, socks, and Afghanistan woollen cloths; as also Delhi jewellers and manufacturers of cotton; carpeting of various patterns—showy on rooms, and rather durable. A little beyond the chook is the livery stables where beautiful horses are procurable, of the Persian, Cabool, and Toorkey breeds. The post-office is in the fort, where you must send for all letters. Letters for steamers should leave Calcutta on the 14th day in the rains, and on the 17th day in the dry season, after the departure of the steamer. The distance from Calcutta is, via Bhagruttee, 831 miles, via Sunderbunds 1186 and by dawk route 501 miles. Steamer's regulated distance is 800 miles. Steamers remain here three entire days when they depart on their return trip, after discharging and taking in their upward and downward cargoes, and passengers. Apply to agent there, or to commander, for passage downwards.

RETURN PASSAGE.

From Allahabad to Mirzapore, in the rains, is generally a run of 8 hours, and if not detained long

the vessels get down to Benares on the same day; but if detained for cargo at Mirzapore, it is one day's work. In the dry season, it is 1 day's work to Mirzapore from Allahabad, and $1\frac{1}{2}$ days to Benares.

Steamers stop here generally 1 hour only, on their way down. From hence to Ghazee-pore is 1 day's run in the rains, and $1\frac{1}{2}$ in the dry season; they stop here for coals, passengers and cargo, perhaps 2 or 3 hours, making it 3 days from Allahabad in the dry season, and 2 in the rains.

Steamers pass here on the 3rd day in the rains, not stopping except previous notice is given by the steam agent, or passengers require to embark: they pass this place on the 4th day in the dry season.

Steamers pass here in 3 days in the rains, and stop 2 or 3 hours for coals, cargo and passengers; and pass on the 4th day in dry season. Passengers from Patna embark here.

Steamer passes here on the 4th day in the rains, and in $5\frac{1}{2}$ in the dry season, stopping 1 or 2 hours for coals, passengers or cargo.

Steamer pass here on the 4th day in the rains, rounds to for a few minutes, and passes on, in the dry season, on the 6th day. Rounds to for a few minutes outside the sands, distant 2 to 3 miles from the town.

Steamer passes here in $4\frac{1}{2}$ days in the rains, and in 7 days in the dry season. Steamers only round to in the rains for letters, and perhaps for a few coals, a short time; but in the dry season for about 2 hours.

Steamers pass here on the 5th day in the rains, (in the dry season she takes the outer route), where they take in coals, and reach Calcutta on the evening of the 6th day, or in $6\frac{1}{2}$ days from Allahabad, beating the dawk.

RETURN ROUTE IN THE DRY SEASON *via* SUNDERBUNDS.

Steamers pass here in $8\frac{1}{2}$ days, and generally round to.

On the Gorice, is passed on the 10th day. Steamers stop to take in coals here

In Jessore, is passed on the 12th day. Here the steamer takes in coals, fills fresh water, and prepare for Sunderbunds. Give Hindoos time to lay in provisions, and cook for the last time, until reaching Calcutta. Steamers are generally $15\frac{1}{2}$ days on the passage.

RULES FOR USING POST OFFICE STAMPS.

All letters and packets whatever (save and except newspapers and ship and steam letters, hereafter specially provided for,) received at any Post Office in India for despatch by post, whether free or post paid, or liable to postage, as the case may be, are to be marked with the appropriate stamp, bearing the name of such office of despatch, and when side-stamps are not provided, when the date of the month and year forms part of the stamps itself, the said date must be entered in writing across the middle of the face of the stamp. If the letter or packet received for despatch be post paid or bearing postage, the amount of postage so paid or due, must be entered in writing on the face of the stamp, after the word "paid" or "bearing" as the case may be.*

2 All letters and packets whatever, received at any Post Office by post for delivery at such office, are in like manner to be stamped with the appropriate office stamp, and marked with the date of the month and year; but the amount of postage paid or due, is not to be entered on the stamp of delivery, as the stamp of despatch regulates the levy of postage.

3 The stamp for all service, soldiers or other free letters, or packets is an oval $1\frac{1}{2}$ inch long by $\frac{1}{2}$ inch wide, bearing the name of the office and the word "free," and must be stamped red.

4 The stamp for all letters or packets, on which postage has been paid, is an oblong $1\frac{1}{2}$ inch long by $\frac{1}{2}$ inch wide, bearing the name of the office and the word "paid" and must also be stamped red.

5 The stamp for all letters or packets, on which a postage has not been paid in advance, in an oblong $1\frac{1}{2}$ inch long by $\frac{1}{2}$ inch wide, bearing the name of the office and the word "bearing" and must be stamped black.

6 Forward letters or packets, i. e., those which follow a party addressed from station, to station, are to be stamped at each office of fresh despatch, and marked with the additional postage due on such fresh despatch.

7 When a letter exceeds in weight a single tola its weight, doubles, treble, &c. must be entered in writing on the face thereof, and on banghy parcels, the exact weight must in all cases be entered in writing on the same.

8 All service, soldiers or other free letters or packets received from seaward, at any General Post Office are to be stamped with the ship letters free stamp. This stamp is a circular $1\frac{1}{2}$ inch in diameter, bearing the name of the General Post Office, the date of the month and year and the words "ship letters free" and must be stamped red.

9 All other letters or packets received from seaward at any General Post Office, are to be stamped, if received by ship with the ship letter bearing stamp, and, if by a Government steamer, with the steam letter bearing stamp. The former is a square stamp, $1\frac{1}{2}$ inch in diameter, bearing the name of the General Post Office, the date of the month and year, and the words "ship letter bearing." The latter is an octagonal stamp of similar dimensions, but with the words "steam letter bearing." Both these stamps must be stamped black.

10 At the several stations where newspapers are published in India, newspaper stamps are provided with which all newspapers received at such stations for despatch, will be appropriately stamped, whether free, paid or bearing, as the case may be, and the postage paid or due, as the case may be, marked on the same either by the stamp or in writing. At offices of delivery where newspaper stamps may not be provided, newspapers will be marked with the usual office stamp, in like manner as other packets.

* If "free" or "paid,"—if "bearing," black.

11. At General Post Offices all letters or packets required to be delivered at the morning delivery, are to be marked with the A. M. stamp in *black* ink, and those at the afternoon delivery, with the P. M. stamp in *red* ink.

DAWK TRAVELLING—CALCUTTA TO BOMBAY.

Memorandum on the mode of travelling post from Calcutta to Bombay, via Cuttack, Hyderabad and Poonah, distance 1,405 miles. From Calcutta to Ganjam 364 miles. Apply to Post Master General. Dāk must be paid in advance at the rate of 8 annas a mile.

From Ganjam to Moonegallah 497 miles. Apply to Collector of Ganjam, stating all particulars in respect to extra bangy burdars, also intended detention at stations en route. Bearers must be paid by the traveller at the end of each stage. Stages vary from 15 to 20 miles each. Average cost about 5 annas a mile.

From Moonegallah to Hyderabad 100 miles, apply to Resident at Hyderabad, in same form as above. Timely notice must be given, as bearers must be sent out from that city to meet the traveller. The same rule applies to the route from Hyderabad to Solapore 200 miles, as bearers must be sent the whole distance from Hyderabad. This portion of the route is very expensive.

From Solapore to Poonah 157 miles. Apply to Post Master at Solapore to post bearers to take you to Indoorpoor 77 miles. From which place to Poonah, 80 miles, bearers must be sent out from Poonah, for which apply to the Post Master of Poonah. Timely notice should be given.

From Poonah to Panwell, 72 miles, bearers will be posted by the Post Master of Poonah.

From Panwell to Bombay 20 miles. The conveyance is by water.

If more than a single set of bearers are required between Moonegallah and Poonah, good notice should be given, and I am not aware that it is practicable to post more than three palanquins on that road. I believe it is with extreme difficulty that bearers can be posted for more than two.

From Calcutta to Ganjam, the cost of travelling, for a set of bearers with munsaljes and two bangee burdars, will vary from 8 to 9 annas per mile. From Ganjam to Moonegallah it is about 5 or 6 annas a mile. From Moonegallah to Solapore it averages 2½ rupees a mile, and from Solapore to Poonah it averages 1½ rupees a mile.

From Poonah to Bombay, it is about 12 annas a mile.

T. J. TAYLOR.

Calcutta, July 7, 1831.

N. B.—All letters should be subscribed 'Dāk Bearer Service', in order that no delay may occur in opening the communication at the office of the party addressed, and instead of 'Resident' it should be 'Resident, or Post Master, Residency.'

POST OFFICE NOTIFICATION.

P. and O. Steamers.

The Bi-monthly Overland Communication having now been regularly established between this country and Europe, and the arrangements for the conveyance of the Mails, direct, between Calcutta and Suez, finally completed and brought into operation; Notice, accordingly, is hereby given, that the rates of Postage charged on Letters and Papers carried by the Government Steamers from and to Bombay, will likewise be levied, in future, on Letters and Newspapers conveyed by the Peninsular and Oriental Company's Vessels, from and to Calcutta, both by way of Southampton, and via Marseilles.

The rules relative to the former, having also been made applicable, in every respect, to the latter, are subjoined for the information and guidance of the Public, in general. The scale of British Steam Postage, is, as follows, viz.

On every letter not exceeding ½ an ounce in weight, ... 8 As. or one Shilling.
On ditto above ½ oz. and not exceeding one ounce, ... 1 R. or two ditto
On ditto above 1 oz. and not exceeding two ounces, ... 2 Rs. or four ditto
On ditto above 2 oz. and not exceeding three ounces, ... 3 Rs. or six ditto.
and so on, increasing One Rupee, or Two Shillings, for every additional ounce weight, or any fraction thereof.

British weights not being generally available in this country, the following coins of the Hon'ble Company's currency, are recommended as the best substitutes :

In lieu of $\frac{1}{2}$ an ounce.....One Rupee and One Copper Pie.

In lieu of one ounce..... Two Copper Half Anna Pieces (or Double Piee) and One Pie—the former Coins are procurable by paying the equivalent, at the Mint.

Every person confining his English correspondence to the weight of the two former Coins, will be certain of being within the weight prescribed for a single Steamer Letter, and every Letter not exceeding the aggregate weight of the three latter Coins, will, in like manner, be within the weight allowed for a double Steamer Letter.

Steam Postage on Letters for Foreign and Continental Europe, or any place to which Great Britain does not necessarily form a channel of communication, forwarded via "Marseilles," as well as letters for Egypt, Syria, Turkey, Greece, and the Mediterranean Island, subject to Red Sea (Steam) Postage, *must*, as heretofore, be pre-paid in this country.

Steam Postage on Letters for the United States or British Colonies in America, or the West Indies (unless addressed to Agents in Great Britain,) *cannot* be pre-paid in this country, whether sent by way of "Marseilles," or via Southampton.

The same rule applies equally to Letters for the United Kingdom, comprising England, Scotland, Ireland, Wales, and all the British Islands, despatched through "Marseilles," and also to those for the Continent of Europe, transmitted by way of "Southampton."

Letters for any Foreign country, directed to an Agent in England, will be received and disposed of, as if addressed to the United Kingdom.

The optional pre-payment of Steamer Postage, applies only to Letters sent, by the "Southampton" Route, to places within the United Kingdom, and vice versa.

The Term "paid (or Pre-paid," which is synonymous) being the distinctive mark indicative of the wishes of Senders and the only guide for the Post Office Receivers, all Letters for the United Kingdom via "Southampton," which may be so marked, will, accordingly, be charged with Steamer Postage, and such as are not so superscribed, will be sent "Bearing."

The Inland (Indian) Postage which is quite distinct from, and always levied in addition to, Steam Postage, *must* be paid in advance, by the Sender at the Posting Office, on Letters forwarded from out Stations to Calcutta or Bombay, or from either one Presidency to the other, for transmission by the Steamers, and vice versa, that is, by the Addressee at the Receiving Office. The word paid, therefore, should not be put on any Letter, except on those on which Senders, having the option, intend to Pre-Pay Steam Postage also.

No Letter exceeding 12 tolas, (a fraction under 5 ounces) in weight can be transmitted per Letter Mail; but if forwarded by Government Banghy Post, or otherwise sent to Bombay or Calcutta, it may be despatched by the Steamer, from either Presidency.

It is particularly requested, that Letters and Papers from the Mofussul, intended for despatch by the Overland Mail from Calcutta, may be accordingly superscribed, for the guidance of the person who originally receives such Letters at the Posting Office. The route (Southampton or Marseilles) by which they are intended to be forwarded, should always be clearly specified also. Any Letter not marked "Per Steam," or "Overland," will be sent by a Sailing Vessel. In order to avoid mistakes, the name of the country, which a Letter is destined to, (England for example,) should be the last word in the superscription. Letters posted in Calcutta for despatch via Bombay should be accordingly directed.

Although $\frac{1}{2}$ ounce is the single weight for regulating Steamer Postage charge, the $\frac{1}{2}$ tola continues to be the single weight for Inland Postage to Bombay, which Letter (from Calcutta to that Presidency,) amounts to Seven Annas.

An extra charge of One Rupee for every half tola weight, is made on Letters sent by the Overland Express from Calcutta to Bombay, and no letter above one tola weight can be forwarded by such conveyance. Thus, for instance, a Pre-Paid Steam Letter of one total weight, posted in Calcutta for transmission, via Bombay, would be charged with Postage, amounting to Rs 3 6-0, viz.

Ordinary Inland Postage,.....	0	14	0
Express ditto,.....	2	0	0
Steam ditto,.....	0	8	0
Total Rs.....	3	6	0

Postage is levied according to the prescribed weight, without reference to the quality or quantity of the Paper.

No Steam Postage whatever is charged in India on Newspapers sent from, this country, but Inland Postage to, and from, Bombay must be paid.

Receipts, if required, must be brought ready written, along with the Letters &c. to the Post Office.

The foregoing explanation is given in detail, for the express purpose of preventing mistakes and consequent disappointment.

Any further change that may, hereafter, take place, will be duly notified.

All letters not superscribed "via Southampton" will be forwarded via Marseilles and be subjected consequently to the higher rate of Postage.

No Letters for Great Britain can be despatched pre-paid unless it be superscribed "via Southampton," if otherwise directed it must be forwarded "bearing."

L. J. H. GREY,

Post Master General.

FORT WILLIAM,
GENL. POST OFFICE,
The 20th April, 1845. }

The Officiating Post Master General being desirous to infuse into the system of delivery of Letters, some measure of activity, order, and despatch, begs to intimate to the public, that from and after the 15th July, the following Clauses of the "Rules for the management of the Post Office Department, passed by the Governor General of India in Council on the 30th August 1837," will, without deviation or respect of persons, be rigorously enforced.

"XXIII. The Delivering Peons are prohibited from delivering letters, papers or parcels out of the usual course, and without immediate payment of the exact amount of postage; and they are not bound to give change. Should they be subject to detention, they are not to deliver the letters, papers or parcels, but to return them in the evening to the Post Office for future delivery.

"N. B. Under the provisions of Section 3, Act XXI. 1835, Copper Coin is not a legal tender in payment of any demand, except for fractions of a Rupee."

"XXIV. Whatever postage is marked on a letter, paper, or parcel, must be paid at once on delivery, after which any complaint of overcharge will be duly attended to. In all complaints of overcharge or unnecessary delay in delivering letters, papers or parcels, the covers or envelopes, bearing the Post Office Stamp, must be presented for inspection; and as all Post Office Peons wear a badge regularly numbered, when any complaints are preferred against any individual, the number of the badge should be specified."

In carrying into effect this very essential measure necessary alike to prevent malpractices on the part of the Peons, and to secure a prompt and orderly delivery of letters, the Officiating Post Master General confidently anticipates the cordial co-operation of the community; and has accordingly issued this Notification, that all parties may make their arrangements to meet this change of system, with as little inconvenience as possible.

Custom House Regulations.

(Corrected from Campbell's Custom House Vade Mecum.)

REGULATION-IX. OF 1810.

Registers, cockets, and other credentials to be produced.

Crew lists to be entered and sworn to of all persons who have been on board during the voyage.

No goods to be passed until the above forms have been duly observed.

Every boat-load and each single package, to be accompanied by boat-note.

The manifest must be full and true as to all goods and packages imported, under penalties, including refusal of port clearance.

No claim for remission of duty on goods, stated to be damaged or unmerchable, shall be admitted, unless so found at the Custom House; —when, after previous advertisement in the Government Gazette, they must be sold on the wharf and pay duty on gross amount sales.

Rules for wharfage and godown-rent may be learnt on personal application to the head Tide-waiter.

No arms nor military stores to be imported without the special sanction of Government.

No claim for drawback shall be admitted, unless the goods have been regularly passed, and duly entered in sworn export manifest; nor in any case for goods shipped, after the issue of port clearance.

No Pilot shall allow any goods to be taken on board a vessel which has obtained her port clearance, without seeing a certificate from the Custom House, which document is to be signed by the Pilot and returned to the Collector.

The Pilot shall detain the vessel for further orders from the Master Attendant, if any goods, without such certificate, should be taken on board by the commanding officer, and such goods are to be detained by the Pilot, and shall be liable to confiscation, when the Pilot will obtain his proper share of reward. Moreover, goods seized, in the attempt to ship them clandestinely, shall be liable to confiscation.

All goods transhipped in port are liable to the prescribed duty for importation, and if the transaction be regular, may claim drawback. But goods which are transhipped, without due permission first obtained, or shipped, or attempted to be shipped, on any other vessel than that for which they may have been passed at the Custom House, or without pass, shall be liable to confiscation.

No arms, ammunition, nor military stores, shall be shipped without the special sanction of Government.

No vessel can obtain inward clearance, until all her import cargo has been duly accounted for.

To protect from imposition such persons as are strangers in Calcutta, and who employ natives to transact business for them at this office, it is notified that for every sum taken, as government custom or duty, a receipted bill is given under the signature of the Collector, or of his deputy, or his covenanted assistant.

Clearances, whether inward or outward, can be given only in regular turn, and it is for commanders or others on their part, to see that their applications be duly noted, with the date and hour of receipt by the Supervisors respectively. Applications for outward clearance, (or export manifests,) cannot be received, unless that such applications be presented, at least three complete days previously to the date on which port clearance is desired, in order that time may be allowed for the adjudgment of export cargoes, though it will be issued earlier if practicable.

No fees are taken for any affidavits sworn in this office, on subjects of Custom House business, nor are any fees whatever allowed to be taken by any person belonging to this establishment, whether sitting within the office, or stationed out of doors.

Importers of gunpowder are requested to refer to the notification, by order of the Board of Customs, dated the 18th and published in the Government Gazette of 23d January, 1823.

The proprietors of dock-yards, and the public at large, are requested to take notice, that no goods nor packages are allowed to be imported, exported, re-landed, re-shipped, transhipped, or removed from vessels to sloops or boats, after shipment, without due sanction from this office; whether the same be liable to, or exempt from duty. Attention is directed to clause seventh, section 45, to sections 61, 64, 74, 82, 83, and 84, of regulation ix. of 1810; and to section 8 of regulation iii. of 1830, also to clause iv. and v. of Government Notification of the 28th June, 1822, for conditions of certain exemptions.

GOVERNMENT NOTIFICATION.

Fort William, Home Department, Separate—Revenue, the 4th November, 1848—Notification. It having been represented to the Government of India that sugar from Singapore and Malacca has hitherto, in contravention of the law, been imported into the Tenasserim provinces: and further that the prevention of such importation would be likely to check the increasing rice cultivation and trade of the Tenasserim provinces without any present benefit to sugar growers in those provinces, the hon'ble the president of the council of India in council has resolved to remove the existing prohibition against the importation into the Tenasserim provinces to foreign sugar, rum, and rum shrub, or sugar, rum and rum shrub, the produce of any British territory into which foreign sugar, rum and rum shrub can be legally imported; and it is hereby declared, that the resolutions of the 18th July 1846, making such importation illegal are rescinded accordingly.

By order of the president of the council of India in council.

G. A. BUSHBY,

Secy. to the Govt. of India.

PASSAGE OF SERVANTS.

Mistakes having occurred on the part of individuals applying to Government for permission for servants to proceed on board ship, with respect to the description of such servants, the Governor-General in Council is pleased to direct, that all persons applying to Government to authorize the reception of any servant on board ship, shall distinctly specify in their application, after careful inquiry, the country to which such servant may belong.

His Excellency in council is also pleased to direct, that extracts from the former orders of the honorable the court of directors, relative to servants proceeding on board ship, be now re-published for general information:—

Extract from a public general letter from the honorable the court of directors, dated the 19th August, 1807.

4th.—“ We have resolved, that in future, previous to any black servant, or the wife of any non-commissioned officer or private, either in His Majesty's or the company's service, being allowed to come to England, in attendance upon passengers on board any ship whatever, a deposit of £100 instead of £50, as heretofore, be made in the company's treasury, at your presidency.”

Extract from paragraph 17th of a public general letter from the honorable the court of directors, dated the 14th of January, 1809.

“ We think it necessary here to state, that in giving these directions, it was our intention, that the deposit should be made, not only for the return of natives of India, but for that of black servants in general, and we, therefore, now direct, that the prescribed deposit shall be made, for the return of all servants who may be natives of any parts of Asia, or Africa, or other countries whatever, continents, or islands, which are situated within the limits of the company's exclusive trade.”

Extract from a public general letter from the honorable the court of directors, dated the 22d July 1814.

69th.—“ We however direct, that in future, upon permission being given for any female European servant to proceed to Europe, the deposit ordered by

our general letter of the 19th August, 1817, be made previous to the order for the person to be received on board being delivered, and that it be particularly expressed in the order, whether the female servant is the wife of a non-commissioned officer or private in His Majesty's or the company's service; if so, to what regiment or corps the husband belongs, and whether it is the woman's intention to apply for leave to return to India.

Extract from a public general letter from the honorable the court of directors, dated the 7th of January, 1820.

4.—“ We have of late received various applications from the wives of soldiers in the company's service, who have come to England in attendance on passengers during the voyage, to be granted a passage back to India, at the company's expense.

These persons have no claim whatever upon the company, and we have resolved not to accede to such applications under any circumstances. We therefore desire, that you will make our determination, in this respect, public, in order that females coming home in the service of individuals may be aware that they cannot entertain any expectation of being returned to India at the company's expense.

PASSENGERS' BAGGAGE.

Considerable misapprehension is prevailing as to what articles are comprized in the term “ baggage in use,” and so entitled to free duty, it is hereby declared, that the term applies solely to wearing apparel, second-hand, or in use, cabin furniture and trifling personal property, all in use and accompanying; the baggage of overland passengers not accompanying them is also imported free, if it would have been free, had the proprietor come in the ship with it.

The tide-waiter on board each vessel after satisfying himself by inspection, that baggage as above defined, has been in use, will pass it direct from the ship.

Fresh millinery, saddlery, musical instruments, guns, pistols, carriages, wines, spirits, plate, glass, crockery, &c. not used, [although for personal use and not brought for sale] are liable to duty; all packages containing such articles as well as all closed packages, whatever contents may be stated to be, must be sent to the custom house, at the expense of the proprietor, for examination and levy of duty, unless the proprietor can produce to the tide-waiter, a custom house permit or pass, particularly specifying such packages.

Passengers whose baggage may have been forwarded to the custom house are requested to apply in writing to the collector of customs at the custom house, for a permit; and such applications should contain the number of packages, and the contents and value of each.

The inward baggage rules having in practice been modified to the extent of allowing free entry to the following articles, viz.

Each lady passenger.....One closed packages of new millinery.

Each gentleman ditto. { One closed case new saddlery, one ditto wearing apparel, and accoutrements, one gun and pair of pistols.

The inspectors will save the collector much trouble by going on board British passenger ships at the time of their arrival off town and passing all such packages.

The inspectors may likewise take the word of any gentleman in the Queen's or Company's service for the contents of any closed packages, and pass direct all such as may not appear to contain dutiable articles.

By order of the Board of Customs,

R. WALKER, *Acting Collector Customs, Calcutta.*

Custom House, the 2d Feb. 1837.

N. B. The above applies solely to the baggage of passengers arriving from beyond sea. In passing the baggage of passengers to a ship leaving the port, the tide-waiter on board will exercise greater discretion in passing all wearing apparel new or old, furniture and personal property in use, and stores, such as wines, spirits, tea, sugar and biscuits; in short, all edible and drinkable articles, for the consumption of a passenger on board ship.

NOTICE.—Commanders of vessels being in the habit of inserting at the bottom of their manifests "surplus stores may be landed, if required," and subsequently importing large quantities of wines, spirits, hams, cheeses and other edible articles, and claiming exemption from the penalties prescribed by section 6th, of the act for goods unmanifested, on the ground, that such importations are comprehended in the manifest under the term surplus stores, notice is hereby given, that in future all goods of the above description, landed in excess of the quantity stated in the victualling bill, will be considered merchandise unmanifested, and be subjected to double duty or confiscation under the above section, as the Board of Customs may be pleased to direct.

By order of the Board of Customs,

R. WALKER, *Acting Collector, Govt. Customs.*

FORT WILLIAM, FINANCIAL DEPARTMENT, 17th June, 1835.

Notice is hereby given, that the Honorable the Court of Directors having, in an advertisement, dated East India House, the 17th of September, 1834, notified to proprietors of Bengal six per cent. remittable paper, resident in Europe, who had made known, or might make known before the 1st of December following, at the Auditor's office in the India House their wish to transfer their notes of that loan into the new five per cent. transfer loan, under the conditions specified in the court's advertisement of the 14th May, 1834, that the property in the new

loan would be held in the form of stock instead of promissory notes; that stock receipts would be granted in Bengal to the respective proprietors or their agents in exchange for the promissory notes transferred; and that the new stock, would be transferable at the place of registry, in books to be kept for that purpose in London and in India; in pursuance of that notification and the orders of the honorable court, the sub-treasurer at Fort William, is authorized to receive any of the six per cent. promissory notes of this government, bearing date the 30th June, 1822, that may be tendered for transfer into the new five per cent. loan, in fulfilment of the intention of the proprietors signified at the India house, under the advertisement of the 17th of September last, and to grant stock receipts to the respective proprietors, or their agents in charge for the promissory notes transferred.

2. A bonus of premium of five per cent., will be granted on all transfers made under this advertisement; that is to say, for every note surrendered for transfer, a stock receipt will be granted for a principal sum exceeding the principal sum of the notes, surrendered, in the proportion of 105 for every 100 sa. rs.; and the stock receipt will bear interest at the rate of 5 per cent. per annum, payable, if the proprietors are resident in India, in cash at the place of registry, and if resident in Europe, at their opinion, either in cash in India, or by bills on the court at twelve months date at 2s. 1d. the sicca rupee.

4. The property of the new loan, here advertized, is to be transferable only in books to be kept in Bengal, at Madras, at Bombay, and in London, and not by endorsement of stock receipts, on the face of which it is to be declared that they are not transferable. Proprietors of stock receipts will be entitled to the option of transferring from the books of Bengal to those of either Madras, Bombay or London, but having availed themselves of that option the property cannot again be registered in Bengal, or at either of the other places, unless upon transfer effected at the place at which they may have chosen to register it.

5. After transfer has been made to London, the interest payable on the stock so transferred, will be issued in England at the same periods as when the bills would have become due, had the remittance of interest been previously received by bills under the option allowed in the second article of the present notice.

6. It is hereby declared and stipulated, that no part of the transfer five per cent. loan opened by this advertisement, shall be paid off before the 22d April, 1854, and whenever it shall be redeemed, a previous notice of fifteen months shall be given by public advertisement, which notice may be issued at any time after the 21st of January, 1853. A rule, ordinance, and regulation for the good order and civil government of the settlement of Fort William in Bengal, and for regulating the number and fare of Teeka Palankeens and Teeka Bearers, in the Town of Calcutta, made and passed by the Vice-President in Council, of and for the presidency of Fort William in Bengal, the eighth day of March in the year of our Lord one thousand eight hundred and twenty-seven, and registered in the Supreme Court of Judicature, on the 27th April, 1827.

Whereas, it is considered just and expedient to regulate the number and fare of Teeka Palankeens and Teeka Bearers, in the town of Calcutta, and to place them in such manner under control of the Police, as may tend to the greater convenience of the public.

I. Be it therefore ordained, by the Vice-President in Council, of and for the presidency and settlement of Fort William in Bengal, and by virtue of the powers in him vested, by a certain Act of Parliament passed in the thirteenth year of the reign of His Majesty King George the III, entitled "An Act for establishing certain regulations for the better management of the affairs of the East India Company, as well in India as in Europe," and by a certain other Act of Parliament, passed in the fortieth year of his said Majesty King George III., entitled "An Act for establishing further regulations for the government of the British territories in India, and the better administration of justice within the same," that thirty days after the due publication and registry of this rule, ordinance and regulation in the Supreme Court of Judicature at Fort William in Bengal, with the consent and approbation of the said Supreme Court, if the said court shall, in its discretion, approve of and consent to the publication and registry of the same, no person whatever shall let out or keep for hire any teeka palankeen, or serve as a teeka bearer within the limits of the town of Calcutta, without having obtained a license for that purpose, signed by two of His Majesty's Justices of the Peace, acting in and for the town of Calcutta.

II. And be it further ordained, by the authority aforesaid, that it shall and may be lawful for the aforesaid justices of the peace, to license such number of teeka palankeens and teeka bearers, as they, the said justices, shall deem sufficient for the said settlement of Fort William in Bengal, and that such licenses shall be granted for the term of one year, and shall and may be recalled by any two of the said justices, at any time within the said year, for any great misconduct, or misbehaviour of any persons to whom such license shall have been granted; and that if any persons within the said settlement of Fort William in Bengal, shall let out or keep for hire any teeka palankeens, or serve as teeka bearers, without having obtained such license as is required by this rule, ordinance, and regulation, or after any license which he may have obtained, shall have expired or been recalled, such person shall, upon conviction before two or more of the said justices of the peace, forfeit for each and every such offence, a sum not exceeding thirty rupees, and in default of payment, shall be forthwith committed to the common jail or house of correction, for any period not exceeding two months, unless the fine shall be sooner paid.

III. And be it further ordained, by the authority aforesaid, that every palankeen so licensed, as aforesaid, shall bear on each side thereof, in large characters in English and Bengalee figures or characters, the number of such license, and that every teeka bearer so licensed as aforesaid, shall wear engraved or written thereon, in large characters in English and Bengalee figures or characters, and that if any person having obtained a license as aforesaid, to let out and keep for hire a teeka palankeen, or to serve as teeka bearer, shall neglect to have the number of his license on his palankeen or badge, as herein before ordered and directed, every such person shall forfeit, for each and every such offence, any sum not exceeding twenty rupees, and in default of payment, shall be committed to the common jail or house of correction, for any period not exceeding one month, unless the fine shall be sooner paid.

IV. And be it further ordained, by the authority aforesaid, that it shall and may be lawful for any four or more of the aforesaid justices of the peace, from time to time, as they may deem fit, to fix and settle the rates, and hire of teeka palankeens and teeka bearers within the said settlement of Fort William

In Bengal, and that such rates and hire shall be published in the English and Bengalee languages twice in the Government Gazette, and affixed at the Court House, Bankshall, Police Office, and other public places, for fifteen days before such rates or hire shall be considered as fixed and settled; and that if the owner or person in charge of any teeka palankeen, shall refuse to hire and let out the same, at the rate and price so fixed by the said justices of the peace as aforesaid or shall receive or require any larger rate of hire, the person or persons to whom the license for such palankeen shall have been granted, shall forfeit for each and every such offence any sum not exceeding twenty rupees, and in default of payment, shall be forthwith committed to the common jail or house of correction, for any period not exceeding one month, unless the fine shall be sooner paid; and if any teeka bearer shall refuse to serve at the rate or hire so fixed as aforesaid, or shall receive or require any larger price or hire, every such person shall, for each and every such offence, forfeit any sum not exceeding ten rupees, and in default of payment, shall be forthwith committed to the common jail or house of correction, for any period not exceeding fifteen days, unless the fine shall be sooner paid, provided always, that no person shall be deemed or taken to be subject to the penalties in this section enacted, unless the fixed and settled rate of hire shall have been tendered and offered to him or to some one acting on his behalf.

V. And be it further ordained, by the authority aforesaid, that if any person shall refuse to pay to the owner of any teeka palankeen, or to any teeka bearer, so licensed as aforesaid, within the said settlement of Fort William, the hire earned and due to the owner of such teeka palankeen, or to such bearer according to the rate and hire so fixed as aforesaid, or if any person shall wilfully break, cut, deface, or injure any teeka palankeen, such person shall, upon conviction before two or more of the aforesaid justices of the peace, forfeit a sum not exceeding fifty rupees, and in default of payment, shall be forthwith committed to the common jail, for any period not exceeding fourteen days, unless the fine shall be sooner paid; and if the fine shall be paid, it shall and may be lawful for the justices before whom such person shall be convicted, to award or give to the party complaining, the whole or any part of such fine.

VI. And be it further ordained by the authority aforesaid, that if the owner of any teeka palankeen or any teeka bearer, so licensed as aforesaid, within the said settlement of Fort William, shall make use of insolent or abusive language to, or towards any person hiring, or proposing or offering to hire such palankeen or bearer, or otherwise grossly misconduct himself, such person shall for each and every such offence, forfeit a sum not exceeding ten rupees, and in default of payment, be committed to the common jail or house of correction for any period not exceeding fourteen days.

VII. And be it further ordained, by the authority aforesaid, that it shall and may be lawful for four or more of the aforesaid justices of the peace, from time to time, as they may think fit, to appoint and fix certain convenient places, as stands for teeka palankeens and teeka bearers, and that notice of the same shall be twice published in the Government Gazette, in the English and Bengalee languages, and shall be affixed at the Court House, Bankshall, Police Office, and other public places for fifteen days, before such places shall be considered as fixed and settled stands; and if the owner of any teeka palankeens or any teeka bearers, so licensed as aforesaid, within the said settlement of Fort William in Bengal, shall remain and wait for hire in any part of the public streets, roads, and passages within the said settlement, except such parts as shall be fixed and appointed by the said justices of the peace, as aforesaid, such persons shall, for each and every such offence, forfeit a sum not exceeding ten rupees, and in default of payment, shall be committed to the common jail or house of correction for any period not exceeding fourteen days.

VIII. And be it further ordained by the authority aforesaid, that all offences committed, and all pecuniary forfeiture and penalties had, or incurred, under or against this rule, ordinance, and regulation, shall and may be heard and adjudged and determined by two or more of the aforesaid justices of the peace, who are hereby empowered and authorized to hear and determine the same, and to issue their summons or warrant, for bringing the party or parties

complained of before them; and upon his or their appearance, or contempt and default, to hear the parties, examine witnesses, and give judgment or sentence, according as in and by this rule, ordinance, and regulation is ordained and directed; and that all such fines and forfeitures, when paid, except only such parts of them as the justices shall have directed to be paid to the parties complaining under the authority of section vi, shall be from time to time, transmitted to the General Treasury of the United Company of merchants of England trading to the East Indies, and be employed and disposed of according to the order and direction of His Majesty's said justices of the peace, at their general quarter, or other sessions.

HOUSE ASSESSMENT.*

As much misconception prevails on the part of landlords and others in regard to the remission of the House Tax, for periods during which houses are unoccupied, and to the rules, established for hearing appeals against the assessment, the collector of assessment deems it necessary to inform landlords that *no remission of house tax can be allowed unless notice of the vacancy of premises be given within seven days of their becoming vacant, (for which notice a receipt is granted.) nor unless similar notice be given of the re-occupancy of such premises within seven days of their becoming occupied, (for which notice a receipt is likewise given)*

The bills for house tax, being made out from books prepared by the assessors, and approved by the justices at their quarter sessions, the collector

* The collection of the house assessment is now transferred to the municipal commissioners, but is subject to the same rules as prevailed when it was under the justices.

has no power to alter those bills in any respect, consequently, when parties are desirous of having their own names substituted for the names in which the bills are made out, or when the assessor's valuation of premises is objected to, they should apply to the justices at their quarter sessions for the alteration of names or the abatement of assessment, as the case may be; and landlords are particularly required to take notice that any abatement in the assessment which may be allowed by the justices in sessions has effect from and after the quarter immediately succeeding that in which the abatement was allowed, and not retrospectively.

The Quarter Sessions are holden by H. M. Justices of the Peace in February, May, August and November in each year; at these sessions the Assessors make such increase in the valuation of premises as they may deem proper, timely notice being served upon the owners or occupiers of the premises the assessment whereof it is proposed to increase. Public notice is given in the *Calcutta Exchange Gazette*, of the holding of the quarter sessions and of the period allowed by the justices for receiving appeals against the assessment. Appeals should be delivered to the clerk to the justices, and receipts obtained from him of their having been filed in his office. The assessors give notice to appellants of the day and hour appointed by the justices to hear their appeals.

The house tax is payable quarterly, and recoverable, in cases of default, by distress of the goods and chattels of the owner or occupier, under the provisions of the statute 33rd Geo. 3rd cap. 53d sec 15th and the act (No. 24,) passed by the Governor General in Council, on the 7th December, 1840.

Calcutta, 1st June, 1842.

C. WATTS, Collector.

A Tax of 5 per cent. per annum, on the rent, is levied quarterly by the collector of assessment on all dwelling houses or tenements in Calcutta.

The rent of houses occupied by the Proprietors is estimated at the rent similar houses of the neighbourhood are let.

No tax is levied on empty houses, the same being duly reported to the collector within seven days of being vacated.

Public religious edifices are exempt from the payment of tax.

The assessment on all premises is taken on the rents already known. When rents fall, or the value decreases from any cause, parties may petition the Justices of the Peace, through the clerk of the peace, when after examination their cases will be taken into consideration. In assessing new premises, the assessor will serve on the proprietor a printed notice, specifying the rate at which the tax will be levied, should this appear to the owner excessive, he can, as in the above case, send to the clerk of the peace a petition, stating his objections when his case will be brought forward and heard. Should no objection be made, the rate named by the assessor will be fixed. Sessions are held quarterly for hearing all objections as to rent, and any alteration made in session, whether of increase or decrease will take place from the commencement of the next quarter, and will not have any retrospective effect nor will the alteration break in upon a quarter.

When the property is occupied by huts, built by the tenants, besides the real amount of ground rent received by the proprietor, a valuation on the huts is also made, and the owner is assessed for both the ground rent and the value of the huts; he on his part may levy the tax, or the difference between the ground rent and the valuation, from his tenants.

On the sale or purchase of property the purchaser should see that all balances are adjusted and proprietors should be careful to notify to the assessors that such change has taken place, the assessor on being satisfied of the correctness of such information will, during the next session, insert the name of the new proprietor in the assessment book, after which the bills will be issued in the name of the purchaser.

The tax is collected quarterly, and in case of refusal or evasion of payment, the collector may levy the same by distress of property of the occupier or proprietor. Parties often think it sufficient to intimate a fall in their rental to the collector, but this is of no avail, for the notice of occupation in which it is generally inserted, is obliged to be kept in his office, whilst the notice of reduction should be made to the clerk of the peace, if with the view to having it rated accordingly.

Her Majesty's Justices of the Peace hereby proclaim and give notice to the Owners and Occupiers of Houses and Land in Calcutta, and to all others whom it may concern, that the practice hitherto adopted, in the Collection of the House Assessment, of repeating demands, and of permitting arrears to accumulate, before enforcing the remedy by Law provided to compel payment from those who refuse or neglect to pay this Tax, (so essential to the comfort and health of the Inhabitants of Calcutta,) is discontinued; and that henceforth all Assessments due and unpaid will be recovered and enforced without delay, and with the utmost rigour of the Law. One demand only of each sum assessed will be made, upon failure to comply with which on or before the ninth day after such demand, the defaulting party will be forthwith proceeded against, before a Justice of the Peace, by summons, warrant and distraint.

CALCUTTA POLICE OFFICE, 20th Jan. 1844.

The following Section (X) of Act XVI of 1847 extends the period during which chattels may be seized for arrears of assessment to one year.

X. And it is hereby enacted, that the Goods and Chattels of the Owners of any Houses, Buildings or Grounds rated under the said Statute, and this Act shall be seizable any where (except Goods and Chattels concealed as hereinafter mentioned) for deficiency in the payment of rates, and that all Goods and Chattels which shall be found upon any premises rated shall be seizable for any arrears, which may be due for a period of one year immediately preceding such seizure, and in the case of the seizure of the Goods and Chattels of a tenant under such circumstances, such tenant may deduct the amount of the levy from the next payment of his rent.

BURIAL MARRIAGE AND BAPTISM FEES.

With respect to the rates of fees for the ritual service, it has been thought proper to continue to charge the same sums which have heretofore been received on account of funeral fees, with some modifications, calculated to relieve the lower classes of the community, upon whom the fees formerly charged might be thought to press too heavily. With these views the following rates have been established, which it is hoped, will afford relief to the public, without materially affecting the just rights of the chaplains, viz.

- 1st.—That the fee for interring a body in the ground be, if brought in a horse or coach..... Rs. 32
- 2d.—Ditto for interring a body in a pukka grave, the dimensions of which are not to exceed in length 10 feet, and in breadth 6, be..... 50
- 3d.—Ditto, if brought on the shoulders, and coffin ornamented, and interred in the ground..... 12
- 4th.—Ditto, if ditto, and coffin unornamented..... *Nothing*
- 5th.—Ditto, if brought on the shoulders, and placed in a pukka grave. 24
- 6th.—A tomb-stone perpendicularly erected, not to be considered as a monument, nor if laid on the grave it does not exceed two feet in width.

- 7th.—A monument, when the ground occupied is equal to the grave or not exceeding 10 feet in length and six in breadth..... 50*
- 8th.—A ditto, ground double the grave..... 100
- 9th.—A ditto, ditto treble the grave..... 150
- 10th.—The dimensions of a monument are not to exceed the abovementioned sizes, without the special sanction of the select vestry, whose duty it should be to limit the spaces occupied in the Burying Ground.

By order of the Right Hon. the Governor General in Council,

C. M. RICKETTS. *Sec. to the Govt.*

DISSENTERS' BURIAL.

The following is an extract from an official communication to the Military Board, dated the 28th September, 1848.

The Lord Bishop has also been informed, that in respect to ground which has been consecrated by him, or ground which may be set apart hereafter at a station, for the purpose of burial, it is desirable that a sufficient portion should be reserved for the use of Dissenters."

ART. II.—The Hon'ble the Court of Directors, and the Governor-General in Council, shall be solicited to continue patrons of the institution.

ART. III.—The fund shall be supported by the contribution of the company's covenanted Civil Servants on the Bengal establishment, now subscribing, or who may hereafter join the service, aided by the donation of the Honorable the Court of Directors; it being, as heretofore, at the option of such of the subscribers as were admitted to the service prior to the 17th of January 1838, and have not, in pursuance of a resolution passed at the General Meeting of the 28th of July 1817, signed the declaration of a determination to continue their contributions to the fund during the whole period of their service in India, at any time to withdraw altogether therefrom, forfeiting thereby all claims upon the fund, whether for sums subscribed, or on any other account whatsoever.

ART. IV.—*First.* The ordinary contributions to the fund shall be proportioned to the monthly salary, or other public allowance of whatever description (including furlough allowance) received by each subscriber, according to the following rates:—

Second. The sum by which the annual income of the fund is less than its annual expenditure, shall be ascertained and declared by the managers on the 1st of January 1838; and the deficit so declared shall be made up by assessing all subscribers to the fund rateably, according to their allowances. The rate per centum on allowances of extraordinary contribution so to be assessed, shall be declared by the Managers at the same time that the deficit is declared, and shall remain unaltered for three years from the said date.

Third. At the end of every three years from the 1st of January 1838, the Managers shall, in like manner, ascertain and declare the deficit as it may exist at each triennial period, and shall, in like manner, ascertain and declare the rate of extraordinary assessment, to be paid in the same manner during the next three years by all subscribers, for the purpose of meeting that deficit.

Fourth. The funds shall be considered to be deficient when the annual subscriptions added to the donation of the Court, and the interest of the accumulated capital shall not yield sufficient to provide for the annual charges and a surplus of not less than 25,000 Rs.

ART. V.—The amount of contribution payable by each Subscriber shall, with the permission of Government, be deducted by the Civil Auditor or other officer auditing the monthly pay bill of civil servants, and be transferred to the Treasurer of the fund, in such manner as may be found most advantageous

to the fund, under the direction of the committee of managers, and all subscribers from whose salaries deductions may be made less than may be due from them, shall be obliged, on discovery of the error, to make up the difference to the fund, with interest thereon at the rate of five per cent, per annum.

ART. VI.—The Sub-Treasurer of Government shall with the permission of Government, be Treasurer to the fund: and all money and securities for money belonging to the fund in India, shall, with the like permission, be kept in the public treasury, subject to the direction and control of the Managers of the fund.

ART. VII.—The unappropriated receipts of the fund exceeding the sum of two thousand (2,000) company's rupees, (to be reserved for current expenses) shall be vested in the securities of Government, and made payable on account of the fund under the signatures of any three of the Managers; but the treasurer of the fund shall be competent of himself to pass receipts for the interest receivable thereupon.

ART. VIII.—The managers of the fund in India shall nominate such persons as may appear to them proper to act as agents for the fund in England; and any money that may be required for the disbursements of the fund in Europe, shall be drawn for by, or remitted to the agents, as may be most advantageous to the fund, in such manner as the Managers, under the control of the subscribers from time to time may determine.

ART. IX.—A duplicate copy of all rules and resolutions, which may be passed relative to the fund, shall be transmitted to the agents in England for their information, and that of all other persons who may apply to them upon the subject.

ART. X.—A half-yearly general meeting of the subscribers to the fund shall be held at the presidency of Fort William in the months of January and July of each year, on a day to be fixed by the committee of managers, and notified in the Calcutta Gazette, and in two of the daily papers, two months before the day so fixed upon.

ART. XI.—The committee of managers, of any nine members of the institution may also convene a special general meeting at the presidency, by public notice, provided that the day fixed for holding such special meeting, and the object of it, be advertised in the manner prescribed in the foregoing article, for the general information of the Subscribers.

ART. XII.—All questions proposed at a general meeting, whether half-yearly or special, shall be determined by a majority of votes, but the concurrent voices of at least nine members actually present, shall be requisite to carry any motion whatever. The resolutions or proceedings of all general meetings shall be signed by the chairman, and published in the Calcutta Gazette.

ART. XIII.—Should the managers or any members be desirous of bringing forward, at a half-yearly meeting any new general question, or any question involving an increase or diminution of the rate of contribution now fixed or any essential addition to, or alteration in the rules and principles of the institution now established, or any case not distinctly provided for under these rules, due notice of the purport thereof shall be given in the Calcutta Gazette and in two of the daily papers, at least two months before such meeting; provided however, that on such questions and cases no resolution of a general meeting, whether half-yearly or special shall be conclusive, but the determination of the meeting shall be referred to the subscribers at large, for final adoption, or rejection, by the transmission of their votes to the managers within two months after the date of issuing the notice, either by advertisement or by separate letters to each subscriber as may be determined by the meeting. It shall be the special duty of the chairman of any meeting to require attention to this rule.

ART. XIV.—The resolution of a general meeting on any question not falling within the provisions of the preceding article, shall be open to revision, after two month's previous notice given through the secretary, and published in the Calcutta Gazette, and in two of the daily papers, of a motion to that effect, at the next general meeting which may be held at a period of not more than four months subsequently to the general meeting at which such resolution was passed.

and two months subsequently to the date of the notification above prescribed; but the resolution of such subsequent meeting on such question, shall be final and conclusive;—provided always, that no resolution of a prior meeting shall be reversed or altered at a subsequent meeting, except by a majority consisting of as many votes, at the least, as decided the question in the first instance. All resolutions not subjected to revision under this Article, shall be deemed final and conclusive.

ART. XV.—Upon all questions duly advertised for discussion, at any general or special meeting, all subscribers shall be allowed to deliver their sentiments and votes, either by a written communication, to be signed by them and addressed to the chairman of the meeting, or by proxy. General proxies will only be allowed on behalf of members, who have proceeded to sea, and then will last till the return or the receipt of intelligence of the decease of the party giving such proxy.

Parties holding general proxies, shall be entitled to vote on any question whatever that may arise. The holder of a special proxy shall be entitled to vote on any point connected with the question for which the special proxy was given, that may be discussed at the meeting summoned for its determination.

But it is hereby provided,

1st. That no proxy, either special or general, shall be in any way valid, unless the same shall have been registered in the office of the secretary to the fund, and countersigned by that officer, at least fifteen days prior to the occurrence of any meeting at which such proxy is intended to be used, and 2ndly. That no individual shall, under any circumstances, hold at one time more than twenty proxies. Should more than twenty proxies be tendered for registry in favor of any individual, it shall be the duty of the secretary to the fund, to give notice thereof to the holder and to the granters whose proxies are last tendered for registry with the view to their appointing some other party to vote on their behalf. A second nomination shall be valid if registered and countersigned at any time before the meeting at which it is intended to take effect.

For forms of general and special proxies see A and B of the Appendix.

ART. XVI.—The annual accounts of the fund shall be made up to the end of April, and submitted by the managers at half-yearly general meeting of the Subscribers to be held in the month of July of each year. After being approved by the meeting, a general statement of the state of the fund shall be published for the information of the subscribers in the Calcutta Gazette. A committee of managers of the fund, shall at each January Meeting be appointed for the ensuing year, and shall consist of the secretary to the Government in the General Department, the Accountant General, the Sub-Treasurer, and the Civil Auditor for the time being, with five other Members to be elected at such general meeting.

ART. XVII.—The committee of managers, or the majority of those present at a meeting of five or more, or if less than five be present, any three members of the committee who may concur in opinion, shall be competent to decide, in the first instance, upon all matters connected with the fund, not expressly reserved for the determination of a general meeting; but every act of the managers shall be liable to revision and control by the resolution of a general meeting. It shall, moreover be the duty of the managers, to report at the half-yearly meetings, the matters determined by them in the expired period.

ART. XVIII.—The committee of managers shall, subject to the control of a general meeting, appoint the secretary and accountant to the fund, and shall fix such allowance for him payable from the fund, as they may consider adequate to his services. The officer so appointed, shall act under the immediate directions of the committee of managers, and shall also attend and obey the instructions of all general meetings of the subscribers, the proceedings of which and of the committee of managers, and generally all papers appertaining to the institution which may not be intrusted to the treasurer in India or to the agents in England, shall be kept under the charge of such secretary and accountant, and shall on application to him, or to the

committee of managers, be open to the inspection of any of the subscribers to the fund. It is to be understood that the secretary and accountant appointed as above, shall not be subject to removal from his situation by any future committee of management, but in concurrence with a majority of subscribers at a general meeting held as prescribed; provided, however, that it shall at any time be competent to the committee to suspend the said secretary and accountant from the exercise of his functions, and to delegate them to another, pending the disposal of the question which may have given rise to such a proceeding.

ART. XIX.—In the event of any of the managers who may be elected annually being subsequently removed from the presidency, without an intention or expectation of returning during the year of their election, it shall be communicated to the subscribers at the next general meeting, and in such instances as well as in all instances of a vacancy in the situation of manager by death or otherwise, a new election, if necessary, shall take place for the unexpired term of the current year.

ART. XX.—All applications for admission to the benefits of the fund shall be made to the committee of managers, and shall be accompanied by the necessary information, documents, and proofs, to enable the managers to ascertain the circumstances and situation of the party on whose behalf the application is made.

The managers, after calling for any further information or evidence which may appear to them requisite, are to submit the application with the whole of the papers received by them, and the decision they may have come to, thereupon for the determination of the subscribers at the next general meeting. In cases of emergency and distress, when the managers may consider the party for whom the application is made clearly entitled to the benefit of the fund, they are authorized to advance such proportions of the fixed allowances hereafter specified, as may appear to them indispensably requisite, till a final determination can be passed by the subscribers at the next general meeting afore-said.

ART. XXI.—On the death of any subscriber to the fund, who may not be possessed of property sufficient to provide for his family, and may leave a wife co-habiting with, or maintained by him, or living under his protection at the period of his decease, without an adequate provision for her support, as hereafter specified, if on the information which may be submitted by her or in her behalf to the managers of the fund, it shall appear to the satisfaction of a general meeting of the subscribers, that she is a proper object of the fund, a pension shall be assigned to her from the fund under the provisions and with the limitations stated in the following article. Provided that nothing contained therein, or any part of the rules of this institution, shall be considered to entitle to the benefits of it, any widow who may have been separated under a legal decision from her husband for misconduct on her part, or who may be known to have been leaving in a state of adultery, though not divorced or separated from him by law.

ART. XXII.—*First.* If the widow at the time of her husband's death, be resident in India, and be left without an income exceeding one hundred company's rupees per mensem, a pension shall be assigned to her from the fund, of three hundred company's rupees per mensem during her residence in India. If the widow be not resident in India at the time of her husband's death, or shall afterwards quit India, and her income from her husband's estate, or otherwise shall not exceed one hundred pounds sterling per annum, the pension to be assigned to her from the fund shall be three hundred pounds sterling per annum.

Second. If the income of the widow resident in India at the death of her husband be more than one hundred company's rupees per mensem, but shall not exceed four hundred per mensem during his residence in India; or if the widow be not resident in India at the time of her husband's death, or shall afterwards quit India, and her income be more than one hundred pounds sterling per annum, but shall not exceed four hundred pounds sterling

per annum, the pension to be assigned, to her from the fund, shall be such as will make up her income to four hundred company's rupees per mensem during her residence in India, or four hundred pounds sterling per annum in Europe, or elsewhere.

Third. In the event of the widow, to whom a pension may have been assigned from the fund, acquiring subsequently, by inheritance, bequest or otherwise, any property or income which, with the property left on her husband's decease, and the pension received by her from the fund, may render her total income, including her pension from the fund, more than four hundred company's rupees per mensem during her residence in India, or more than four hundred pounds sterling per annum in Europe, or elsewhere, her pension from the fund shall be liable to abatement in proportion to the excess of her entire income, including the pension above the sum specified; or be altogether discontinued in the event of her property or income, exclusive of the pension assigned to her from the fund, being equal to the full sum of four hundred company's rupees per mensem in India, or four hundred pounds sterling per annum in Europe, or elsewhere.

Fourth. All pensions to widows shall be discontinued on their re-marriage. But, in the event of their being again left in a state of widowhood without an adequate provision for their support, and of their appearing to be proper objects of this fund they may be again admitted to the benefits of it under the same provisions and limitations as on their original admission.

Fifth. The pensions to widows who may be admitted to the benefits of the fund, shall be paid in advance half yearly to themselves, or to their authorized agents; but the acknowledgement of the widow herself shall be taken for all sums paid on her behalf, and shall contain a solemn declaration, that her entire income, including the pension received by her, does not exceed the sum of four hundred company's rupees per mensem, if she be resident in India, or four hundred pounds sterling per annum if she reside in Europe, or elsewhere. And it shall be incumbent on the managers to suspend the payment of the pension of any widows who may refuse to make such declaration, reporting the case for the decision of a general meeting of the subscribers.

ART. XXIII.—If any subscriber to the fund shall die without the means of providing for his family, and shall consequently leave a child or children, born in wedlock, without an adequate provision for their maintenance and education, and if, on the information, documents or evidence, which may be submitted on their behalf to the managers of the fund, it shall appear to the satisfaction of a general meeting of the subscribers, that they are proper objects of the fund, an allowance for their maintenance and education shall be assigned from the fund, under the provisions and limitations contained in the following article.

ART. XXIV. - *First.* If the child or children of the deceased subscriber shall be left without any provision from his estate or otherwise, the allowance for the education and maintenance of each child to be granted from the fund in India, or in Europe, shall be according to the age of the child, as follows, viz. Till five years of age, thirty company's rupees per mensem, in India, or thirty pounds sterling per annum in Europe; from the commencement of the sixth year to the end of the eighth year, 40 company's rupees per mensem, in India, or sixty pounds sterling per annum in Europe; from the commencement of the ninth year to the end of the eleventh year fifty company's rupees per mensem in India, or eighty pounds sterling per annum in Europe; from the commencement of the twelfth year, sixty company's rupees per mensem in India, or one hundred pounds sterling per annum in Europe.

Second. If any provision be left by a subscriber for his child or children, or if after his death such child or children shall at any time become possessed of any property or income by inheritance, bequest, or otherwise, but not such as to afford the sums specified for their education and maintenance, the allowance to be granted from the fund shall be such as, in addition, to the property or income possessed by them, will make up the several sums above specified, according to their respective ages, and as they may be resident in India or in Europe.

Third. In the event of the property or income left to the child or children of a subscriber at his death, or which may subsequently devolve to, or be in any wise acquired by them, being such as to afford the amount specified for their education and maintenance, they will not be entitled to any allowance from the fund, and any allowances which may have been granted before such accession of property or income, shall be discontinued.

Fourth. The allowances granted from the fund for the maintenance and education of children, shall be paid in advance half yearly, to their guardians or relatives having the care of them, or to such persons as may be intrusted with the disbursement of the sums allotted for them, either by the managers of the fund in India, or by the agents to the fund in England.

Fifth. The provision so made from the fund for the maintenance and education of female children, shall cease on their marriage, and the provision for male children shall cease on their being settled in any profession, or employment, or on their attaining the age of twenty-one years, whichever shall first happen.

ART. XXV.—No family becoming hereafter dependent on the fund, shall receive from the fund an allowance exceeding in all six hundred pounds sterling per annum, or in India six hundred Company's rupees per mensem, and the reduction shall be made rateably.

ART. XXVI.—*First.* It being the obvious duty of all persons who have families, and possess property sufficient to provide for them, to make a proper testamentary provision for them, it shall be requisite in all cases of application being made to the fund for assistance to the family of a deceased subscriber, that an authenticated copy of the will of the deceased, or if he shall have died intestate, that a full and authentic statement of any property left by him, and of the legal heirs thereto, be submitted for the information of the managers and subscribers; and it is hereby declared, that a general meeting of the latter, duly held, according to the rules of the Institution, shall have full power to reject the application for aid from the fund in any instance in which it may appear that a subscriber leaving property at his death, and having the power to dispose of it, has made no due provision for his family.

Second. And in case it shall be proved to the conviction of a general meeting of Subscribers, that a deceased member of this fund has, during his life time, whether in immediate anticipation of his death or otherwise, made such a disposition of any part of his property, real or personal, as but for this rule would throw the entire or partial support of his widow or offspring upon the fund, who would not have been so supported by the fund had such part of his property not been so disposed of, with the intention thereby of benefiting any party at the expense of the fund, then the widow or offspring of such member or both shall forfeit all right to any part of the support which would have been claimable if no such disposition had been made.

ART. XXVII.—In addition to the information required by Articles XX. and XXVI. to be furnished to the managers, before any allowance shall be granted from the fund to a widow, a solemn declaration shall be made and subscribed according to such of the subjoined forms as may be applicable to the circumstances of the case.

First. If the widow shall not have any offspring by the deceased, and shall not be possessed of any income except such as may be derived from personal property the declaration to be made shall be according to the form C of the Appendix.

Second. If the widow shall have any child or children living by her late husband, or if any child of his shall afterwards be born, and neither she nor such child or children shall be possessed of any income except such as may be derivable from personal property, the declaration to be made shall be according to the form D of the Appendix.

Third. If the widow shall possess or be entitled to any income exclusive of such as may be derivable from personal property, there shall be substituted for either of the preceding forms, the form E of the Appendix.

ART. XXVIII.—Whatever real or personal property the widow or offspring of a Subscriber may be possessed of at the time of application for admission to the benefits of the Civil Fund, shall be regarded as an available source of income, and as such, shall be taken into account at a just valuation, or according to the amount realizable by public sale, the income derivable from such property being calculated at a rate of interest at four per cent. per annum. But from the latter part of the above provision are to be excepted all monies vested in Bank of Bengal shares, Government notes, or other public securities, the income arising from which shall be taken at what they actually yield. The same rule of calculation shall be adopted in the case of property of any description afterwards devolving on an incumbent on the fund.

ART. XXIX.—The declaration which by the 5th clause of article XXII. is required to be made half-yearly by widows who may be admitted to the benefits of the fund, shall be according to the form F. of the Appendix. And in case a widow shall have acquired any property whatever subsequently to the date of her admission to the benefits of the fund, a specification thereof shall be subjoined to that declaration.

ART. XXX.—The mother, guardian, or other person, who may be in charge of any child or children entitled to a provision under articles XXIII and XXIV of these rules, or any other person who may be authorized to receive the same on account of such child or children before he or they shall be enabled to receive the Annuity payable, or any part thereof, shall take and subscribe a solemn declaration according to the form G. of the Appendix; and if such child or children shall have become entitled to any property yielding an income, the same shall be specified as provided that form.

ART. XXXI.—The several declarations required to be taken by the 5th clause of article XXII and by articles XXVII and XXX, shall be made before a Justice of the Peace, or other person competent to take the same, and such declaration shall be dated and signed on or subsequent to the day on which the Annuity is claimable, and shall, in the event of the widow, guardian or other person entitled to receive the same being in Europe, delivered to and left with the agents for the fund in England; or if such widow, guardian or other person shall be in India, it shall be delivered to and left with the Managers of the fund for the time being.

ART. XXXII.—If a married or widower subscriber to the fund, continuing in the Civil Service, shall have proceeded to or remain in Europe, otherwise than on furlough allowance, he shall be permitted, in order to secure to his family the benefits of the institution in the event of his death while absent from India, to pay to the fund a monthly subscription equal to that which he would have been required to pay if on furlough allowance: provided, however, that no Subscriber shall be permitted to avail himself of the above rule for any period exceeding five years from the date of his departure from India, and that no subscription shall be received from him after the expiration of that period; provided further that should the average payments above described be discontinued for the period of one year consecutively, the same shall be held and deemed to be a resignation and abandonment of the institution, and the family of the Subscriber shall not have any claim upon the fund, even upon payment of the arrears due, unless good and sufficient cause for the omission be shewn to the satisfaction of a majority of the subscribers at large.

ART. XXXIII.—If a Subscriber to the fund, who has served twenty-two years in India, retires from the service, or if having served ten years in India he retires from ill health, and at the time of retirement, as above stated, shall have contributed by his previous payments to the fund, including interest, the sum of twenty-five thousand Company's rupees, or if, on his quitting the service, he shall pay to the Fund what may be wanting to complete his contribution to that amount, such contribution shall entitle the family of such subscriber, on his death, to the benefits of the institution, under the several provisions herein before stated, or such as may hereafter be established, in like manner as if his death had taken place during his residence and actual subscription to the fund in India. The family of

any subscriber to the fund who may die during his temporary absence from India on leave, shall be considered entitled to the benefits of the fund under the existing rules. Subscribers in India, who may cease to receive any public allowances, shall be considered as having retired from the service from the date of their allowances ceasing. In all cases not expressly provided for, it shall be at the option of the subscribers at large to admit or reject the claim of any subscriber or his family, and such decision duly passed, shall be final and conclusive.

ART. XXXIV.—In the event of any subscriber to the fund discontinuing his monthly subscription thereto for the period of one entire year, he shall be considered to have withdrawn from the fund altogether, and his family shall not, in the event of his death, have any claim upon the institution; however, that in all such cases it shall be the duty of the managers to cause a written communication to be made by the secretary to such subscriber, informing him that his name has been struck off the fund; and provided further that it shall be competent to a general meeting of the subscribers to re-admit such member, on his appealing to the subscribers at large, and shewing, what in their opinion, shall be good and sufficient cause for his having omitted to comply with the rules of the fund.

ART. XXXV.—If a subscriber to the fund shall be suspended from the service of the hon'ble company, and shall die during the period of his suspension, his widow and children shall be entitled to the benefits of the institution, in like manner as if he had not been suspended, provided he continue to pay at the rate fixed on his actual allowances under article IV.

ART. XXXVI.—If a subscriber to the fund shall be dismissed from the service of the hon'ble company, in the event of his death, his widow and children shall have no claim to the benefits of the institution, and he shall not be allowed to retain any interest in the fund by making any payment whatever.

ART. XXXVII.—Any person admitted into the Bengal civil service with permission to take rank in that service above any person that has been a subscriber to the fund, for a longer period than one year, shall not be entitled to become a subscriber to the fund except upon the following conditions; viz.

First. If the individual so circumstanced shall be unmarried, he shall not become a member of the fund, except on condition of his paying to the treasurer, within a period not exceeding six months, from his commencing to receive salary from the Bengal Government, a sum of money equal to the average amount of the aggregate subscriptions of the unmarried members, in whose year the individual wishing to subscribe may rank in the Bengal civil service, with interest thereon at the rate of five per cent. per annum.

Second. If the individual so circumstanced shall be married or be a widower, having a child or children, he shall not become a member of the fund, except on condition of his paying to the treasurer, within a period of six months from his commencing to receive a salary from the Bengal Government a sum of money equal to the average amount of the aggregate subscriptions of the married members, retaining a contingent interest in the fund, in whose year the individual wishing to subscribe may rank in the Bengal civil service, with interest thereon at the rate of five per cent. per annum.

Third. Any applicant giving to the secretary of the fund a written authority for the deduction of twenty per cent. from his future monthly allowances, until the sums due from him under the above rules, with interest at the rate of five per cent. per annum, be paid up, shall be considered as having fulfilled the conditions required of him; provided always, that his family shall not benefit from the fund if he quit the service before paying up the whole amount due from him.

Fourth. The managers are authorized to admit applicants in the first instance, agreeably to the foregoing rules, but in all such cases the application shall be submitted for confirmation at the next general meeting.

Fifth. All cases and questions not expressly provided for by these rules shall be submitted by the managers for the votes of the subscribers at large whose decisions thereon shall be final.

ABSTRACT OF BENGAL CIVIL FUND RULES WITH NOTES.

Rules now in operation, adopted at Special General Meeting, 25th November, 1837, and confirmed at General Meeting 29th January, 1838.

The Bengal civil fund instituted in 1804. Subscription commencing from January 1804. All who entered the civil service from and after the 17th January 1823 being obliged* to subscribe and continue so during the whole period of their service. Members being civil servants of a prior date to 17th January 1823, have the option to withdraw at pleasure (forfeiting all benefit,) excepting such amongst them as have signed a resolution passed by the subscribers on 28th July 1817, binding themselves to subscribe to end of service.

The ordinary contributions are regulated on allowances as follows:—

If allowance be no more than company's rupees 1,000 per mensem.

Subscription is.....	Co.'s Rs. 10
If more than 1,000 but not above 2,000.....	" 20
If more than 2,000 but not above 3,000.....	" 30
If more than 3,000 but not above 4,000.....	" 40
If above..... 4,000.....	" 50†

* By a clause to that effect in their covenant per Letter from the Hon'ble Court to the Bengal Government, dated 17th January 1833.

† These rates are exactly as they were under the old rules of the Fund, excepting that Co.'s Rs. is substituted for sicca; viz. where 10 sicca were formerly paid 15 Co.'s Rs. are now paid.

Every three years an adjustment of the general accounts of the fund is made, and if it be found that there is an excess of *charges* over the annual receipts, an extraordinary subscription of a specified percentage* on allowances is levied to make up the said deficiency.

Moreover if it be found on a triennial adjustment that the annual *receipts* do not exceed the annual charges by the sum of 25,000 rupees, an additional percentage on all allowances of every subscription is fixed and levied to make up the required yearly excess of 25,000 rupees.

4. Under the above rules, furlough allowances are considered assessable† and where a married or widower subscriber is on leave to Europe and obtains no kind of allowance, he must still pay a monthly subscription at the rate which he would have to pay where he is in receipt of furlough allowance.

5. Subscribers are chargeable with interest at 5 per cent. per annum on *arrears* of subscription.‡

6. A subscriber after 22 years' service in India retiring from the service or one retiring from ill health after 10 years of such service, shall on making up his contribution with interest 25,000 Rs. be entitled contingent claim on the fund for his family.§

7. The family of and subscriber who may die during his temporary absence from India on leave shall be entitled to the benefits of the fund under the existing rules; i. e. provided his subscriptions under rules 4 and 32 and other conditions have been duly conformed to.

A subscriber in India who may cease to receive any public allowance shall be considered to have retired from the service from the date of his allowances ceasing; and accordingly to be dealt with under the rule for retirees. Subscribers absent from India more than 5 years are considered retired and to be dealt with accordingly.

8. A Subscriber suspended from the service and dying during such suspension, his family will benefit if he have during suspension continued to pay at the rate fixed on his actual allowance under rule 4th.

9. A Subscriber dismissed the service shall forfeit all benefit from the fund.

10. A Subscriber discontinuing his monthly subscription for one entire year shall be considered to have withdrawn from the fund, and in case of his death

* The extraordinary subscription levied for this object on the 1st January 1838 was at $\frac{1}{4}$ per cent. on monthly allowances.

† On the occasion of a Member going on furlough, a letter to the effect of appendix I is handed to him. He may pay up, before going, the whole dues for the *three years'* furlough subscription at once—or, for any part thereof, or he may pay *monthly* through Agents in Calcutta, or by the same means, quarterly, $\frac{1}{2}$ yearly, &c. *in advance*. These payments must be presented to the Sub-Treasurer, who as Treasurer of the Fund will after obtaining the same grant a receipt. If the Member remain absent beyond 3 years, but not more than 5 years, he must take care that his subscriptions are regularly paid up for such extended period.

‡ This rule was applied in 1840 to the case of a subscriber who being appointed to Mysore, drew allowances for 3 years, *exclusive* of deductions on account of the Fund's dues.

§ This rule (33) is considered under Resolution of General Meeting of 18th February 1839, to apply to all cases of admission sought after 1st January, 1838, equally by the families of subscriber who may have retired *before* that date, as of Subscribers who may have retired since the said dates. Accordingly all such retired Members of date anterior to 1st July 1838 as had before retiring made good the principal sum of Sa. Rs. 5,000 (under the 35th Article of the old rules) but who had not made up their contributions with Interest (at 8 per cent.) to Co.'s Rs. 25,000 were addressed on the 1st May 1839, and offered the option of making up the balance due on or before 30th April 1840, and thus securing to their families eventually the benefits of the Fund.

One Subscriber so circumstanced protested on the ground of having conformed to the old Rules until the date of his retirement which took place *before* the operation of the new rules which commenced on 1st January 1838, and which therefore he deemed not binding on him. But the Managers informed him that under Rules 11 of the *old Rules*, (as also by Rules 36 of the third regulation) to which he appealed, he was bound by the Rules which may at any time be passed by a *majority* of subscribers, and the new rules being so passed at meetings of 5th November 1837, and 30th January 1838, he was amenable to any and all of them. Accordingly he was also subject to the interpretation which may be duly put to any one of these rules by the subscribers—so in respect to rules 33. He was further informed that not having conformed to the condition mentioned in letter, dated 1st May 1839, his rights were all forfeited, unless he chose to conform now, and petition a General Meeting for re-admission under article 34.

his family shall lose all benefit* provided the secretary communicates to such subscriber that he is struck off the Fund. But he may appeal to a general meeting of subscribers who are competent to admit him if satisfied of the cause set forth for his having omitted to comply with the rules.

11. In all cases not expressly provided for the subscribers at large have power to admit or reject the claim of any subscriber or his family.

12. Applications for admission to the benefits of the fund must be made to the managers and be accompanied with the following document,—certificate of death—copy of will†—Statement of general property—and affidavit, as in form E,‡ wherein shall be specified by the widow (if there are children) the names and date of birth of each child.

If there be no income except such as may be derivable from personal property, the affidavit of the widow will be according to form D § if there are children; if without children the affidavit will be according to form C=.

Orphans of members will be admitted under the above general rules, the necessary affidavits being made by their relations or guardians.

13. All the information, documents, &c. above specified being completed by the applicant for admission, the managers will submit the case for the determination of the next general meeting of subscribers. After admission, the following will be the rate of allowances to be granted, viz.

TO WIDOWS.

IF IN INDIA.

With no private income, or with income which may be not more than 100 Co.'s Rs per mensem, monthly Rs. 800.

If private income exceed 100 Rs. but fall below 400 per mensem, then the allowance from the fund will be the difference between such income and 400 Rs. per mensem.

IF IN EUROPE OR ELSEWHERE.

With no private income, or with income which may be not more than 100 £ Sterling per annum, yearly £300.

If private income exceed 100£ Sterling, but fall below 400 yearly, then the allowance from the fund will be the difference between such income and 400£ Sterling per annum.

TO CHILDREN.

All private income being required to be deducted from the maximum amount of allowances granted according to their ages, which are as follows:

IN INDIA.		IN EUROPE OR ELSEWHERE.	
Up to the end of the 5th year,		Up to the end of the 5th year,	
monthly.....Co.'s Rs.	30	yearly.....£	30
From commencement of 6th		From commencement of 6th to	
year to end of 8th year.....	40	8th year.....	60
Ditto 9th to 11th	50	Ditto 9th to 11th.....	80
Ditto 12th and after.....	60	Ditto 12th and after.....	100

14. Whatever real or personal property the Widow or offspring of a subscriber may be possessed of at the time of admission shall be taken into account at a just valuation, or according to the amount realizable by public sale, and the income calculated thereon at the rate of 4 per cent. per annum; but the income on monies vested in Bank of Bengal shares, Government Notes, or other public securities, shall be taken according to what they actually yield. The same rule of calculation shall hold in the case of property of any description afterwards devolving on an incumbent on the Fund.

* The respective families of two deceased members applying in 1839 to be admitted were through the omission of the said members to conform to this Rule in their life time, declared not entitled to the benefits of the Fund; though in consideration of the peculiar circumstances of the cases, the subscribers at their annual meeting of 31st January, 1840, allowed their admission on the condition of all arrears of subscription due by the deceased being first made good.

† If there be no will, then a full and authentic statement of property left by the deceased and of the legal heirs thereto must be submitted.

‡ See last sheet Rules,

§ See ditto ditto.

= See ditto ditto.

15. No family becoming dependant since the 1st of January 1838, shall receive an aggregate allowance exceeding 200£ per annum in England, or 600 Co.'s Rs. per mensem in India.

16. The pensions to widows shall be discontinued on remarriage, but shall recommence if again left in a state of widowhood and without adequate provision under the rules.

The allowances for children shall cease in the case of girls on their marriage, in the case of boys on their obtaining employment or on attaining the age of 21 years, whichever may first happen.

17. Allowances from the Fund are payable half-yearly in advance either in London or in India. For widows, to themselves or to their authorized agents (the acknowledgment of the widow herself being given for all sums paid on her behalf.) For children to their mother or other relation, or to their guardian.

18. Before any half-yearly advances can be allowed a solemn declaration* must be made in the case of a widow without children according to form F.†, if with children according to additional form F.

In the case of children alone according to form G.‡

If the declaration is refused to be made by any party it is incumbent on the managers to suspend the payment of the Pension claimed, reporting the case to a general meeting of subscribers.

[In these declarations must be carefully noted (if such be the case) any property acquired, and in whatever way acquired, since the date of admission on the Fund, whether it yield an income or not.]

19. In any instance in which it may appear that a subscriber leaving property at his death and having the power to dispose of it, had made no provision for his family, the subscribers have full power to reject the application for aid in respect to such family. And in case it shall be proved that a deceased member of the Fund had during his life, made such a disposition of any part of his property, real or personal, as but for rule 26 would throw the entire or partial support of his widow or offspring upon the Fund, with the intention of thereby benefiting any party at the expence of the Fund, then the widow or offspring of such member shall forfeit all right to any support whatever.

20. The offspring of members born out of wedlock; and any widow legally separated from her husband for misconduct on her part, or who may be known to be living in a state of adultery, though not divorced or separated by law, shall not benefit by the Fund.

21. The $\frac{1}{2}$ yearly general meetings of subscribers to the Fund are held in January and in July; two months previous notice being given. At these meetings applications for admission on the Fund are determined, &c. and other general business is done, the managers also reporting the matters determined by them in the expired period. At the January meeting five managers are chosen in the room of those elected the preceding year, though these or any of them may be re-elected. At the July meeting the annual accounts of the Fund closed to 30th April preceding are submitted, and being approved or published in the Calcutta Gazette.

22. A special general meeting may be called at any time by the committee of managers or by any nine members; the object of the meeting being advertised two months previously.

23. Should the managers or any member or members be desirous of bringing forward, at a $\frac{1}{2}$ yearly meeting, any new general question or any question involving any increase or diminution of the rate of contribution now fixed, or any essential addition to, or alteration in the rules and principles of the institution now established, or any case not distinctly provided for under these rules, due notice of the purport thereof shall be given; provided, however, that on such questions and cases no resolution of a general meeting whe-

th r half-yearly, or special, shall be conclusive, but the determination of the Meeting shall be referred to the subscribers at large for final adoption or rejection, by the transmission of their votes to the managers, within two months after the date of issuing the notice, either by advertisement or by separate letters to each subscriber as may be determined by the meeting. It shall be the special duty of the chairman of any Meeting to require attention to this rule.

24. The resolution of a General Meeting on any question not falling within the provisions of the preceding rule shall be open to revision. After the usual notice given through the Secretary to that effect at the next General Meeting which may be held at a period of not more than four months subsequently to the General Meeting at which such resolution was passed; but the resolution of such subsequent meeting no such question shall be final and conclusive;—provided always, that no resolution of a prior Meeting shall be reversed or altered at a subsequent Meeting, *except* by a majority consisting of as many votes at the least as decided the question in the first instance. All resolutions not subject to revision under this rule shall be deemed final and conclusive.

25. The presence of nine Members at any General Meeting forms a *quorum* sufficient to constitute a Meeting.

26. All questions proposed at a General Meeting, wither *yearly, 1. or special*, shall be determined by a MAJORITY OF VOTES; but the concurrent voices of at least nine members actually present shall be requisite to carry any motion whatever.

27. Upon all questions duly advertised for discussion at any General Meeting, all subscribers may deliver their sentiments and votes, either by written communication addressed to the chairman, or by Proxy. Proxies may be of two kinds, General and Special. The former* is only allowed in case of Members who have proceeded to sea, and last till the return or receipt of intelligence of the decease of the party give it. Such general proxy entitles the holder thereof to vote for the absentee on any question whatever that may arise during his absence.

A Special † proxy entitles the holder to vote on any point connected with the question for which such proxy was given that may be discussed at the meeting summoned for its determination.

But provided 1st. That no proxy, either Special or General, shall be in any way valid unless the same shall have been registered in the Office of the Secretary to the Fund, and countersigned by that Officer, at least fifteen days prior to the occurrence of any meeting at which such proxy is intended to be used; and 2ndly, that no individual shall, under any circumstances, hold at one time more than twenty proxies. Should more than twenty proxies be tendered for registry in favor of any individual, it shall be the duty of the Secretary to the Fund to give notice thereof to the holder and to the granters, whose proxies are last tendered for Registry, with the view to their appointing some other party to vote on their behalf. A second nomination shall be valid if registered and countersigned at any time before the meeting at which it is intended to take effect.

28. The Committee of Managers, or the majority of those present at a meeting of five or more or if less than five be present, any three Members of the Committee who may concur in opinion shall be competent to decide, in the first instance, upon all matters connected with the Fund not expressly reserved for the determination of a General Meeting; but every act of the Managers shall be liable to revision and control by the resolution of a General Meeting.

The last article of the rules of the Fund, viz. XXXVII is of a peculiar and special character, and framed seemingly to provide for such cases as occurred on the transfer to the Bengal Civil Branch, of the civilians attached to the Canton Establishment, some of whom claimed and were specially admitted to become Subscribers to the Fund.

The rule therefore provides, under certain conditions, for the admission as subscribers to the Fund of any person who may enter the Bengal Civil Service and having rank in that Service above any other person that has been a subscriber to the Fund for a longer period than one year.

REGULATIONS, AS SANCTIONED BY THE HONORABLE COURT OF DIRECTORS.

1st. The subscribers shall, from the 1st of May, 1825, contribute, for the purposes of the fund, four per cent. of their salaries, and all other public emoluments, however denominated; compensation for travelling expenses excepted.

2d. Should any subscriber be engaged in India on private business, and thereby voluntarily exclude himself from public employ, his subscriptions to the fund shall cease, and in the event of his hereafter relinquishing such private business, and resuming employ in the service, his subscriptions may be resumed, but the intervening period shall not be reckoned in the time necessary to qualify him to become an annuitant; and this rule shall be equally applicable to all persons now in the service, who may have been, or may be engaged in private business.

3rd. The annuities are fixed at 10,000 rupees payable also in India, see each, payable in England at 2 shillings the rupee, Rule 33. being £1,000 sterling.

4th. The annuities shall be tendered to subscribers having served in the civil service 25 years, and actually resided 22 years of that period in India,* according to their seniority on the gradation list of the service, as fixed by the Court of Directors, and the right of preference shall not be barred by refusal in a preceding year.

5th. The annuities shall commence with the first of May in each year, beginning with the year 1826: that is to say, shall fall due at the end of the said

Payable also Quarterly, see official year; and in like manner, the succeeding annuities shall commence on the first day of the following official years, and fall due at the close

of each year respectively.

6th. At a convenient period before the close of each year, the managers of the fund shall require according to seniority, a sufficient number of subscribers to signify their willingness, or otherwise, to retire on the annuity to be granted by the Fund; and in case of the absence from India of members, such requisition shall be made to their constituted agents in Calcutta. It will, of course, be incumbent on members duly qualified to become annuitants, previous to leaving India, to empower one or more persons in Calcutta to act on their behalf, and to communicate to the managers the names of such agents.

7th. The following members shall be regarded as having virtually intimated for the time being, their unwillingness to retire on the annuity; viz, those to whom a requisition may be made as above provided, and on whose part no reply may be received, on or before the first day "of Nov, of the year, preceding that in which"—the annuities intended to be granted, may commence; and those who may have quitted India, and failed to empower any resident in Calcutta to act for them during their absence.

8th. The number of annuities offered shall not be more than may complete nine per annum from the first of May 1826.

9th. The actual value of annuities tendered and accepted as above, shall be passed to a separate account on the books of the institution, under the head

* "The first period, viz. that of 25 years, is to be computed either from the date of the Civil Servants' Covenants, or from that of our Dispatch to you announcing his appointment, whichever may have been earliest. The second period, viz. that of 22 years' residence, is to be computed from the date of arrival" at Calcutta—(vide Hon'ble Court of Directors' Letter to the Madras Government 25th July, 1827.)

The period of Service commences with the date of appointment as a writer. The period of Residence from the date of arrival at the Presidency. Consequently, no part of the time passed at the College of Haileybury can be computed in the period either of Service or of Residence—Hon'ble Court's Dispatch of 30th May, 1827.

of appropriated funds; and to the debit of this account shall be entered all payments in satisfaction of annuities.

10th. Should any subscriber having resided in India in the Civil Service not less than 22 years, and been a member of it the full period of 25 years, retire from the service before the option of an annuity may devolve on him, he shall be entitled to the same in his proper turn, without any payment to the fund, save what may be claimable under the following rule.

11th. Any subscriber who may* accept the tender of an annuity, shall be required, to entitle him to such annuity, to pay to the Institution, previous to the date at which the annuity is to commence, the difference between one-half of the actual value of the annuity on his life, and the accumulated value of his previous contribution, in case the latter quantity shall be less than the former; these values shall be determined as below provided.

12th. Any Member so choosing may decline paying the difference defined in the foregoing rule, and shall, in such case, be entitled to an annuity diminished in proportion to the sum by which the accumulated value of his contribution is less than one-half of the actual value of an annuity on his life.

13th. Any subscriber who may be dismissed from the Honorable Company's service, shall forfeit all right to benefit by the institution, and be entitled to no refund of payments which he may have made.

14th. The interest of any subscriber who may be suspended from the Honorable Company's service, shall be in abeyance, but shall revive on his restoration. If he be permitted, (whether the permission be granted at the time of, or during his suspension, or at the time of his restoration) to draw salary for the period of his suspension, then his contributions to the fund for that period shall be claimable, and the intervening time shall be reckoned as actual Service; but if he be not allowed salary for the period of his suspension, then no contribution shall be claimable from him for that period, and which in that case is not to be computed in the term of service necessary to qualify him for the acceptance of an annuity.

15th. *First.* The resignation of the Honorable Company's service is an essential condition to entitle an individual to an annuity from the institution; an annuitant will not be permitted by the court to return to the service; it is therefore provided, that should any member fail, on or before the first day of July of the year with which the annuity accepted by him may commence, to comply with said condition, he shall be considered to have forfeited his right to an annuity from the institution for that year. It is likewise provided, that when a member, accepting an annuity, shall resign the service before the first day of July, but after the first day of the year with which the said annuity is made to commence, he shall, in such case, at the close of that year, only draw the annuity from the date of his resignation, a sum proportionate to the time intervening between the first day of the year and that date, being deducted for the benefit of the institution.

Second. If any subscriber for whom an Annuity has been reserved under application and declaration to resign the Service, shall subsequently withdraw or retract the same, or refuse to accept the Annuity so reserved, or shall continue in the Service beyond the time, (viz. 1st July,) limited by the foregoing clause, he shall forfeit as a Penalty the sum of Co.'s Rs. (10,000) Ten Thousand, to be paid down at once to the Fund; or at one-third of his Monthly Official Allowances, to be deducted by the Civil Auditor with interest at the rate which the Fund would have received upon it, had the amount of Penalty been at once paid down. And no Subscriber incurring such penalty shall be entitled to, or receive an Annuity until the amount of such penalty with the interest which may have accrued thereon, shall have been fully paid. And the sum or sums so forfeited and paid shall be held available for the general purposes of the Fund ‡

Third. Any subscriber who may be either provisionally appointed to be a member of the Supreme Council of India, or who may hold a Seat therein, shall continue to pay his subscription to the Fund, and shall not be deemed qualified

* The declaration of the willingness of any subscriber to accept an annuity, which was formerly required to be stated "upon Honor," is now sufficiently expressed by the acceptance being declared as *under the rules*—the second clause of rule 15, which was adopted instead of that requirement (see note on rule 15), provides a penalty if the retirement is not duly effected.

† The dates in this Rule are with reference to the 1st October 1825, the period of the institution of the Fund.

‡ This 2nd clause was adopted in substitution of the rule requiring declaration "upon honor" of acceptance of Annuity, at the General Meetings of Subscribers on 30th July, 1812, and finally on the 14th August, 1813, as approved by the Hon'ble Court of Directors.

for admission to an Annuity therefrom, until he shall have duly resigned such aforesaid provisional Appointment or Seat in Council, as well as the Civil Service generally.*

16th. † The fund is open for the subscriptions of all covenanted civil servants upon the Bengal establishment, including such as may be in England, and who have not either finally resigned the service, or protracted their absence from India beyond the prescribed term of five years; each civil servant now residing in India shall be especially invited to join the institution, as shall those subsequently arriving, whether they be returning to the service, or newly appointed to the same; and the following shall be excluded from ever becoming members of the institution; viz. those residing in India, who may fail to signify in writing their consent to join the institution on or before the 1st of May, 1826, next; and those returning to, or for the first time arriving in the country, subsequent to the present date, who may commit a similar default within six months from the date of their return, or arrival in the country, respectively: provided, however, that no person, not in India, nor on his passage thither upon 1st of May 1825, shall be entitled, on subsequently returning to the country from England, to receive an annuity under the Rules of this institution, except after residence in the country for a period of five years from the date of such subsequent arrival.

17th. The affairs of the institution shall be managed by a committee of nine, of whom four shall be ex officio, the Chief Secretary to Government, the Accountant General, the Sub-Treasurer, and the Civil Auditor. The other five shall be subscribers, and elected at a general meeting, to be holden on the 1st day of January in each year.† The members of the committee shall be also the trustees for the funds of the institution.

18th. The Sub-Treasurer of Government shall, with the permission of the Governor-General in Council, be requested to act as Treasurer to the institution, and the funds, as well those set apart for the payment of annuities as those arising from the accumulation of capital, shall be deposited in the public treasury, subject to the direction and control of the trustees and managers of the fund.

19th. For the management in England of such affairs as the members cannot personally conduct, an agent or agents shall be appointed by the managers and trustees in India, if such shall still be the wish of the service ‡

20th. The committee of managers, or the majority of those present at a meeting of five or more, or if less than five be present, any three members of the committee, who may concur in opinion, shall be competent to decide, in the first instance, upon all matters relative to the receipts and disbursements of the fund, as well as generally upon all subjects connected with the management of the fund, and the due execution of the Rules established for it, which, by such rules, may not have been expressly reserved for determination by the general meeting of the subscribers to the fund.

21st. But the decision of the Committee of Managers, in all cases, shall be liable to revision and control by the resolution of the subscribers duly passed at a regular general meeting.

22nd. The Committee of Managers, who may be appointed, in the first instance, shall be authorized to appoint a Secretary and Accountant to the fund, and to fix such allowance for him, payable from the fund, as they may consider adequate to his services. The officer so appointed, shall act under the direction of the Committee of Managers, and shall also attend the general meetings of the subscribers, the proceedings of which, and of the committee of managers, and generally all papers appertaining to this institution, which may not be intrusted to the treasurer in India, or to the agents in England, shall be kept under the charge of the Secretary and Accountant to the fund, and shall by application to him, or to the Committee of Managers, be open to the inspection of any of the subscribers to the fund.

* This 3rd clause was adopted in the terms proposed by the Hon'ble Court in a Dispatch dated 11th August, 1841, by the Subscribers at their General Meeting of 28th May, 1842.

† Under resolution of the general meeting of the 12th November 1825, as sanctioned by the Hon'ble Court of Directors in their despatch of the 30th May, 1827.

‡ "Upon the Resolution of the General Meeting, 'That Messrs. Coutts and Co. be Trustees and Agents in England, for the Civil Service Annuity Fund,' we have no objection to offer to the proposed appointment, nor any observation to make upon it, further, than that, according to the present form of Certificates given by the Managers, we have no authority to make payments on account of the Fund, to any other persons than the Annuity, or to Agents duly constituted by them individually."—Hon'ble Court's Dispatch of 30th May 1827.

23rd. All future appointments to the office of Secretary and Accountant to the fund, as well as the appointment of any other person, whom the Managers may find it necessary to employ for the due execution of the trust committed for them shall, in like manner, be made, and their allowances fixed by the Committee of Managers, subject, as in all other cases, to the control of the general meetings of the subscribers.

24th. In the event of any of the five Managers who may be elected annually, being subsequently removed from the presidency without any intention of returning to it during the year of their election, it shall be communicated to the subscribers at the next general meeting; and in such instances, as well as in all instances of vacancy in the situation of Manager, by death or otherwise, a new election, if it appear necessary, shall take place for the unexpired part of the current year.

25th. A general meeting of the subscribers shall be held at the Town Hall, in Calcutta, on the first Monday of the second month of every year (or as soon afterwards as the accounts can be made up and prepared for inspection) to receive and audit the accounts of the preceding year, and to decide on any questions which may arise or be referred. The Committee of Managers, or any nine members of the institution may also convene a special general meeting at the presidency, by public notice in the Government Gazette, if at any time there shall be found occasion for it, provided that the days fixed for holding such special meetings, and the objects of them be advertised at least six weeks before the same are held, for the general information of the subscribers.

26th. All questions proposed at a general meeting, whether annual or special, shall be determined by a majority of three-fourths of the members who may either be present at such general meetings, or vote thereat by proxy; but the concurrent voices of nine members at least, "actually present,"* shall be requisite to determine upon any question whatever; and upon all general questions involving any increase or diminution of the rate of contributions now fixed, or any essential addition to, or alteration in, the original rules and principles of the institution, which are now established, all subscribers in India who may not be able to attend the meeting in person, shall be allowed to deliver their sentiments and votes by a written communication, to be signed by them, and addressed to the chairman of the meeting; provided always, that no decision upon such question shall be valid, or have any effect until sanctioned and approved by the Court of Directors of the East India Company, to whom all parties, considering themselves aggrieved by such decision, shall have a right of appeal, and the decision of the Court of Directors shall, in all cases, be final.

27th. In discharge of each annuity of 10,000 Rs. granted by the fund, the sum of £1,000 sterling shall be paid to the annuitant through the company's treasury in London, at the close of the year in which the annuity may commence, the managers of the fund undertaking, at that period, to pay over to the Government of Bengal the sum of 10,000 Rs. for each annuity so payable, under the principles upon which the Company's contribution to the fund is to be regulated.

28th. The right of an annuitant to receive the annuity for any particular year, shall depend on his having survived that year.

29th. The actual value of an annuity on the life of any subscriber, shall be determined by the table annexed hereto.—The rates exhibited by this table shall be revised and altered by a decision of a General Meeting, should experience and the fluctuation of interest suggest the necessity of such an arrangement: provided always, that any alteration therein shall not take effect until it has been sanctioned and confirmed by the Court of Directors of the East India Company, whose decision shall be final.

30th. To determine the accumulated value of the contributions of any subscriber, the Accountant shall keep separate accounts for each member, and

* Rule 26 passed in pursuance of orders forwarded by the Hon'ble Court of Directors in their dispatch of the 5th March 1828, at the General Meeting of the 22d September 1828, in substitution for the Old Rule in which the words in Italics were omitted.

these accounts shall be annually made up with the rate of interest allowed by the Company.

31st. At the close of every third year the managers shall, according to the annexed table, calculate the actual values of the pending annuities, and shall then compare the total of their values with the assets belonging to the appropriated funds of the institution: should those assets exceed in value the said total, the difference shall be carried to the credit of the unappropriated funds of the society, and be available for the purposes of the institution: on the other hand, should the value of the said assets be less than the total aforesaid, the deficiency shall be supplied by a transfer from the latter fund to the former.

32d. Annuitant, upon becoming such, shall be furnished with a formal certificate declaratory of his admission to the annuity, under the hands of not less than three of the managers of the fund. A duplicate of the certificates must be furnished to the Bengal Government, and forwarded to the Court of Directors in London.

33rd. In modification of the third rule of the regulations of the Fund, it is provided, that it shall be competent to any servant duly qualified by residence and service, to receive the Annuity, whether granted to him at half or at a quarter value, either in India or in England, subject only to the condition of previous resignation of the service, and of the acceptance of such resignation by the Government or by the Court of Directors.*

34th. In modification of the rules adopted by the service on the 7th March 1834, it is hereby provided, in conformity with the instructions of the Honorable Court of Directors, that annuitants desirous to have their annuities paid to the date of Decease, or to have them paid Quarterly, will be entitled to these advantages upon payment, in addition to the half or quarter value of the annuity as the case may be, of the full value stated for the same in the table annexed to the said rules; but no Annuitant shall be permitted to take the Quarterly payment alone without, at the same time, taking the benefit of the rule for obtaining payment to the date of Decease.

35th. On the 10th of April, 1842, the managers shall compute the excess of balance of the unappropriated Funds of the Institution above the balance estimated for the same period in the prospective calculation upon which the Fund was formed. One-half of the amount of such excess shall be considered to be a capital available for the purposes of the Fund, namely, for the improvement of the rate at which the Annuities accruing under Rules 8 and 11 on the 1st of May, 1842, are to be granted, to the extent of the income derivable at the rate of 6 per cent., from the said half excess of balance. In like manner on the 30th of April of every succeeding year the managers shall compute the excess of actual balance over the estimated prospective balance at the same date, and shall appropriate the income arising therefrom to the improvement of the purchase rate of the nine Annuities accruing on the 1st of the following May. Provided, however, that in no instance shall any annuity be granted under this rule at a rate less than the quarter of the value thereof. And in case of the annual sum to be distributed amongst the nine yearly accruing Annuities in the manner provided in the following rule, being at any time in excess of the proportions required to make up, with the balance of the subscription accounts of the retirers thereon, the half value of each of the said nine annuities, such excess shall be reserved and be made available in the succeeding year, in addition to the income accruing from the half of the excess balance of the year, towards the reduction of the rate of premium at half value payable for the said annuities, under the provisions and limitations above specified.

And it is further provided, that in the event of any of the nine annuities of any year remaining untaken on the 1st of May of such year, the proportionate share of the annual sum distributed amongst the nine annuities of that date which shall have been set to such untaken annuity shall remain reserved for the benefit of the qualified Subscriber who may at any subsequent date claim and retire on such untaken annuity.†

* This rule 33 and the following 34 were passed, in conformity with instructions from the Hon'ble Court, at a General Meeting of Subscribers held on 11th July 1836, at which time they stood numbered as 39 and 40; but the substance of Rule 34 stood originally (in March 1834) numbered as 33 and 34.

† This rule 35 and the following 36 were adopted by the Subscribers at the General Meeting of 1st January, 1842, and approved by the Honorable Court under date 21st August, 1842.

36th. After the above computation shall have been calculated the managers shall make the distribution of the annual sum which may be found available for the improvement of the rate at which each of the nine yearly annuities may be granted, in the manner following. The aggregate sum available on the 1st of May of every year shall be divided into equal shares for apportionment equally amongst the nine annuities accruing on that date according to the statement above cited. The amount of fine which a retiring member will have to pay shall be such an amount as, with the balance of his subscription account and the sum apportioned to the annuity reserved for him as above provided on the 1st of May of such year, will make up the half of the value of the annuity according to his age. And it is provided, that in the event of the balance of the retires's account alone amounting to a sum equal to the half value of his annuity, the share or sum apportioned to the annuity reserved for him shall be taken and distributed equally amongst the other annuities of the same year in further diminution of the fines at half value which may be required from the retirers on these. In like manner if the balance of any retires's account as aforesaid, together with the sum or sums which may have been apportioned to the annuity reserved for him, amount to a sum in excess of the half value of his annuity, such excess shall be taken and divided amongst the other annuitants of the same year, whose balances with sums apportioned to them as above may fall short of the half value of annuity. - And it is further provided, that in the event of any overplus remaining out of the sum found available in any year under Rule 35, after due distribution amongst the nine annuities of such year as above provided to the extent of making up with the balances the half value of each of the annuities, such remaining overplus shall be held available for distribution in the next succeeding year under the general terms of this Rule.

37th. Civil Servants who may not have completed the full period of 22 years' residence in India and 25 years of Service, but who may be compelled to retire from the service by sickness, duly certified as below provided, shall be entitled to receive from out of the portions of the excess balance available for the purpose of the Fund under the above rule as follows:—

If they have not completed 10 years of residence, a donation of....Sa. Rs. 5000
or.....£ 500

If they have completed 10 years of residence, but not more than 15, an annuity of.....£ 250
or....Sa. Rs. 2500

Per annum, on payment, including the amount of their subscriptions, of one-half of the value thereof according to the tables and rules of the fund.

If they have completed 15 years, an annuity of£ 500
or.....Sa. Rs. 5000
on the same terms.

To entitle a junior to the above benefits, it will be necessary for him, before leaving India, to furnish to the managers of the fund a certificate from his medical attendant, countersigned by a member of the medical board in Calcutta, certifying that he is from some permanent cause or complaint, incapable of rendering further service in the climate of India, and the certificate must, in each instance of retirement, be confirmed in England by the examining physician of the Honorable Court of Directors, after the servant so retiring has resided at least one year in England.*

Civil Service Annuity Fund Office, January 1843.

ABRIDGED CIVIL SERVICE CODE, ABSTRACT OF, AND NOTE
ON CIVIL ANNUITY FUND RULES.

INSTITUTION OF THE FUND.

SUBSCRIBERS, THEIR LIABILITIES,
RIGHTS, QUALIFICATIONS AND
PRIVILEGES.

NOTE.—Besides the direct benefits of the fund, subscribers enjoy the privileges provided by the Furlough Rules, which none others can claim.

* Service is computed either from date of covenant or of notification of Appointment, whichever may be first. Residence reckons from date of arrival at the presidency.

ANNUITIES, HOW OFFERABLE, AND
ACCEPTABLE UNDER WHAT CONDI-
TIONS.

† Where the Principals are not in India, to their Agents if duly appointed.

‡ No special application necessary, beyond the statement of date of birth, the offer of fine, and of resignation on specified date,—from which date the Annuity will commence.

§ The application in this case should run thus:—

I have the honor to tender this my application for an Annuity of the year—(1841-42) grantable under the Rules and to state upon honor that it is my firm determination, should I obtain the same to accept it, and retire from the Company's Civil Service on or before the first day of July of the year to which the said Annuity belongs.

If from an agent the application may run thus:—

I beg as constituted agent of Mr. ——— to tender this application on his behalf for one of the Annuities of the year—(1841-42) grantable under the Rules, and to state upon honor that should the said Annuity be appropriated to Mr. ——— I will accept it on his behalf, and will duly proffer Mr. ——— resignation of the service to Government on or before the first day of July next 18———

The age, or rather the date of birth of member applying should at the same time be stated; also it be wished that the Annuity be made payable quarterly and up to date of decease.

The Bengal Civil Service Annuity Fund was established in 1825. Subscribers' contributions commencing from May of that year.

All Covenanted Civil Servants are bound to subscribe, and no subscriber can withdraw or cease to subscribe, excepting a Governor, who holds his appointment not by right of the service. A subscriber who may have been absent from India more than 5 years; or one who may have been dismissed from the service, forfeits all benefit, from the Fund. But if a subscriber be only under *suspension* his interest shall be in abeyance and revive on his restoration; if he draw salary (or any public allowance) for the time of his suspension, that time shall count as actual service; but if not, the intervening period shall not be computed in the term of service, necessary to qualify him for an Annuity. To be qualified for an Annuity, requires a service* of 25 years, and actual residence in India of 22 years.

The number of Annuities of £1,000 each, grantable, are not more than may complete nine per Annum from the 1st of May 1826. This admits of the untaken Annuities of any year, being available to subscribers at any time in a subsequent year, in addition to the nine accruing Annuities of the year. Before August of each year, an offer is made to every qualified member of one of the nine Annuities, to accrue on the 1st of the succeeding May; and they are at the same time informed of the No. if any, of the Annuities of former years that remain unappropriated on the 1st of July last preceding, and which are also available for acceptance. These last may, however, be at any time taken up by payment of fine and resignation.† But the nine accruing Annuities of the following year, are not grantable until the 1st of May of the year to which they belong. Accordingly on the last mentioned date, the said nine Annuities are appropriated to the applicants§ first in the order of seniority to those whose applications were received on or before the 1st of November preceding, then if any Annuities remain unappropriated they are distributed amongst those

* Or any member so choosing, may receive an Annuity of an amount proportionate to that which the balance of his accumulated subscriptions bears to the value of an annuity on his life; without paying anything further.

The fine must be paid into the hands of the Sub-treasurer, who as treasurer of the Fund will grant receipts. The fine may be paid any time before date of commencement of Annuity.

† Payable from the General Treasury or from any other Government Treasury which the Government may approve.

‡ A simple Annuity is payable at the end of the Official year on the condition of the Annuitant having survived the year. But if it be wished that the Annuity be made payable up to date of decease the premium for the same (as per annexed table) must be paid in addition to the fine above referred to. If the Annuity is also desired to be made payable quarterly the requisite premium for that privilege must likewise be paid. This latter benefit, of Quarterly payments, cannot be taken without also the former benefit; date of Decease payments may however be taken alone.

Applications from Invalid Subscribers having resided less than 15 years in India, for reduced Annuities purchasable generally on the same terms as the full Annuities, must be made before the first of May. Such an Applicant must furnish to the Managers a Certificate from his Medical Attendant in India, countersigned by a Member of the Medical Board of Calcutta, certifying that he is from some permanent cause or complaint incapable of rendering further service in the climate of India. This certificate will need to be confirmed in England after a year's residence there, by the examining Physician of the Hon'ble Court. An Invalid Subscriber thus applying, will, (if successful under the general rule of appropriation of Annuities) be entitled, first if he have resided full 15 years in India to an annuity of £500 per annum.

Second, if he have resided less than 15, but more than 10 years in India, to an Annuity of £250.

Third, if his residence be less than 10 years, he will only be entitled to a Donation from the Fund of £500.

whose applications may have been received after the aforesaid 1st November, but before 1st May, in the same order of seniority; and lastly, if any still remain untaken by the aforesaid applicants, they are granted to Invalids who may apply under Rule 37. To confirm the title to an Annuity thus accepted and thus appropriated, a member must make good the $\frac{1}{2}$ * value, (according to the valuation Table annexed) of his Annuity previous to the date of commencement of Annuity, and also resign the Company's service. This resignation must not be deferred later than the first of July following, and in no case will the Annuity commence until the date of such resignation. An Annuitant shall receive a Certificate signed by 3 or more of the Managers, declaratory of his admission, which shall enable him to draw his Annuity of £1,000 or Co.'s Rs 10,666-10-8, either in India,† or in London from the Company's Treasury.‡

GENERAL AND SPECIAL MEETINGS, THEIR POWER, MANNER OF VOTING, &c.

The Annual General Meeting is held on the 1st day of January for auditing the Accounts of the past year, for the election of five Managers, and to decide on any question which may arise or be referred. A Special General Meeting may likewise be convened at any time by the Managers, or by any nine Members, provided six weeks' notice be given of the objects of such Meeting. Any question proposed at any Meeting, shall be determined by a Majority of this of those voting on the question; but the concurrent voices of nine Members at least actually present is required to determine upon any question whatever: and upon all general questions affecting the rate of contributions now fixed, or any essential addition to or alteration in the original rules and principles of the Fund; all subscribers in India, may deliver their sentiments and votes in writing, addressed to the Chairman, provided no decision upon such question, shall be valid or have effect until sanctioned by the Hon'ble Court; to whom parties considering themselves aggrieved by such decision, shall have a right of appeal and the decision of the Court of Directors shall in all cases be final.

ART. 5. Subscribers not in ill health retiring from the service before they are entitled to the full pension of their rank shall not forfeit all claims on the institution, provided they continue to pay the Indian rates of subscription of their respective ranks.

ART. 6. ART. 8 The following rules have effect from first January 1837 :—

First—All members who have served 32 years may subscribe as colonels; all who have served 27 as lieutenant-colonels; all who have served 22 years as majors; all who have served 12 as captains; and all junior officers as lieutenants.

Second—Medical and Veterinary officers may subscribe as colonel after 27 years' service; as lieutenant-colonel after 22 years; as majors after 17 years; and as captains after 10 years.

Third—Chaplains may subscribe after 15 years as lieutenant-colonels; after 20 years as colonels.

Fourth—Admission to subscribe in the next higher rank, to which his service may render an officer eligible, shall depend upon the payment of the increased donation within the period prescribed by regulation II. Further, the claim must be made to the managers in India within three months, if he be in India, or if at home, within 12 months from the completion of the qualifying service.

Fifth—If the privilege to subscribe in the next higher rank be not embraced within the above periods, the application, whenever subsequently made, must be accompanied by a health certificate, and compound interest at 8 per cent. per annum shall be charged upon the additional donation and arrears of subscription accumulated half-yearly (as by article 2 of the existing rules) from the date of these rules taking effect, or from the completion of the qualifying service.

*Sixth**—Retired officers are entitled to enter the higher classes of subscription under the above conditions, on the expiration of the several periods which, had they remained in the service, would have given them the same privilege. This rule is applicable to subscribers under article 5.

N. B. The period of service under this article is calculated by certificate of admission to be furnished from the adjutant general's office. Officers embracing the privilege granted by this rule must comply with all its provisions, calculated through each grade of service.

ART. 9. Subscribers may redeem by a single payment the periodical subscription exigible under article 7, the equivalent sum being determined on this principle.

Members in Europe to redeem at Europe rates; in India at Indian rates; calculated by two tables of different values of an annuity, one adopted for Europe (as the Northampton tables,) the other for Indian (as the Indian tables,) receiving back, or paying the difference of premium according to residence in one or other country. Parties visiting Europe on furlough, or for a temporary residence not exceeding three years, not to receive the difference, nor parties revisiting India to pay it, if the temporary residence does not exceed 1 year. The value to be taken from tables of which the following is a specimen.

On promotion the subscriber will be liable to pay the donation and to pay or redeem difference of subscription.

2. Members who may redeem their periodical subscriptions by a single payment are precluded the benefit of passage money and equipment allowance.

3. All subscribers who may, from this date, 1st July, 1846, redeem their periodical subscriptions by a single payment shall be liable for the difference between existing rates of subscription and any future higher rates that it may be found necessary to adopt.

ART. 10. Subscribers on promotion shall pay the donation of their increased rank as married or unmarried, agreeably to the rates specified in table No. I, whether in India or in Europe. If in Europe the exchange to be calculated at 2s. 6d. per Company's Rupee.

ART. 11. The donation may be paid at once, or by monthly instalments not exceeding twelve, at the option of the subscriber; in failure of which all claims shall be forfeited upon the fund, either for himself or widow, unless the amount be paid with interest at 8 per cent. per annum from the day of admission. Subscribers paying donation by instalments pay interest at 8 per cent per annum upon all unpaid balances until the whole is liquidated.

ART. 12. Monthly subscriptions of subscribers shall be paid within four months after they become due, or 8 per cent. per annum be charged on all arrears accumulated beyond that period and on every occasion; if payment be then refused the name to be struck off, if the party entered the service before subscription was made compulsory.

ART. 13. All members marrying, and who may be desirous that their widows should possess claims to the eventual benefits of the fund, are required to inform the Secretary (if in India and the Agents if in Europe) of their marriage, and unless the payment of the additional donation be made within six months after such marriage, the subscribers will be required to pay the amount with interest at 8 per cent. per annum, calculated from date of marriage, and to furnish a health certificate as required by Art. 2, Clause 1st., and no claim for pension on the part of the widow of an officer not subscribing as a married member at the time of his decease, shall be admissible.

Arrears which may be due to the fund by a married subscriber at the time of his death, will, if not discharged by the paymaster of the corps to which the deceased was attached, or by the President of the Committee of Adjustment, or by his Executors or Agents, be deducted from the pension of the widow, and the whole donation and arrears to be paid, although the subscriber should become a widower before completing the full payment. In all cases when the difference of age of the husband exceeds that of the wife 15 years, the donation to be increased 10 per cent.: when 20 years 15 per cent.: when 25 years 20 per cent.: when 30 years 25 per cent.: when 35 years 30 per cent.: when 40 years 35 per cent.; and thereafter in a similar proportion in every grade of promotion.

All members remarrying, to pay the prescribed married donation of their rank as on their first marriage. A subscriber withdrawing his name from the married list during the life time of his wife and afterwards wishing to be again placed in the same position for her benefit, shall pay a second time the marriage donation, and furnish a health certificate of the form laid down in the Regulation.

N. B. A member marrying is required to furnish his marriage certificate, and to state his own and his wife's age.

An unmarried subscriber to the fund marrying a person who has borne him children, or with whom he may have been cohabiting, shall not be transferred to the married list, unless he furnishes a health certificate of the form laid down in the Regulations, and pays up the prescribed marriage donation and subscription, with interest, calculated half yearly at 8 per cent per annum, for five years, commencing in the rank he then held, and paying the difference through each successive rank he may have attained by Regimental promotion.

For the purpose of ensuring accurate information on the required points from applicants, power is vested in the Directors, in all cases seeming to them to call for its exercise, to forward certain sealed queries, to be filled up, on honor, by the parties applying.

ART. 14 Subscribers who may be prevented from drawing pay from a temporary cause over which they had no control, such as captivity, or furlough extended on medical certificate, shall during such period, be exempted from the payment of monthly subscription, without forfeiture of the rights of the subscription; but on the removal of such incapacity and upon the receipt of pay, the arrears are to be made good within six months, with interest at 8 per cent per annum for any time beyond that period. But if the incapacity to pay proceed from any other cause, dependants upon the choice or conduct of the indivi-

dual, such as furlough extended on private affairs, or any penal suspension from rank and pay, not only shall the arrears so accumulated be paid up within the above term, but compound interest charged at 8 per cent per annum on the amount.

SECTION III.

Benefits derivable from the Bengal Military Fund.

ART. 15. The benefits derivable from the Military Fund are twofold :—

1st. Such as are granted by the regulations to subscribers while living.

2d. Such as are granted to widows of deceased subscribers.

ART. 16. The benefit granted to subscribers while alive, are considered personal, and subject to the decision of the Directors for the time being, who will be guided in their decision on each claim by the regulations of the fund, except when they have reason to entertain doubts with respect to any such claim; it will in such cases be their duty to call for further information from the claimant; and if this information should not be satisfactory to the Directors, they are authorized to withhold the payment of the claim.

ART. 17. A subscriber of whatever rank who may proceed to Europe on sick certificate, and who may not be allowed passage-money from Government, shall be authorized to apply to the Military Fund for the sum of rupees 1,200 to defray that expence, provided his application shall be accompanied by a sincere and solemn declaration that he does not possess the sum of rupees 5,000, or property of any description to that amount; and also shall be entitled on his return to India to receive from the agents in England, the sum regulated for the outward passage,* on the production of a declaration, that he neither possesses nor has, at any time, possessed £500 sterling (exclusive of pay) during the period he has been in receipt of English pay on Furlough.

All applications from subscribers for Passage-money from the fund, whether proceeding to or returning from Europe, must be accompanied by a guarantee (Form No. VI.) on the part of the Agents of the Ship or other respectable party, that they will be responsible for a moiety of the Passage-money allowed by the fund, being returned, in case of death previous to the Pilot quitting the Vessel on which the claimant's passage may have been taken.

ART. 18. A subscriber so proceeding to England on sick certificate, shall be authorized to apply for the further sum of rupees 300 for his equipment, his application being accompanied by a solemn and sincere declaration of his not being possessed of the sum of rupees 2,000, or property of any description to that amount; but no allowance will, in any case, be made for equipment to a subscriber returning to India.

N. B. The benefits held out in the two preceding articles should be applied for, when claimable; and no claim will be admitted, which is not preferred within 12 months from date of furlough.

ART. 19. Subaltern officers proceeding to England on sick certificate, who shall make a solemn and sincere declaration that they do not possess from any source (exclusive of pay and pension for wounds) a sum of money that will enable him to expend £50 per annum, shall be allowed that sum annually during the period of receiving English pay on Furlough. The declaration to be renewed annually.

N. B. The possession of company's rupees 1,500, or £150, precludes all claim to the above allowance.

ART. 20. It having, however, been deemed necessary to set limits to the claims for gratuitous passage money, equipment allowance, and income to subscribers proceeding to England on sick certificate, no subscriber who has received the benefits he is entitled to at any one time shall receive a second indulgence until the expiration of eight years, reckoning from the renewal of Indian subscription.

A subscriber who shall have received these benefits, before he has served 8 years in India, will not be entitled to a second indulgence until he shall have been (exclusive of first Furlough) 16 years in the service.

* All subscribers, of whatever rank, are entitled on their return to India to receive only £110 for the outward passage.

ART. 21. Subscribers proceeding to England from any place not under the presidency of Bengal, shall be entitled to the personal benefits which have been above enumerated, provided they shall have complied with the local regulations, and shall make immediate communication of the circumstances to the Directors of the fund.

ART. 22. The second class of benefits, namely, those granted to widows of deceased subscribers, are absolute, not dependant on the decision of the Directors, but controlled solely by the regulations of the institution.

ART. 23. The widows of deceased subscribers shall be entitled to receive the annuities specified in the annexed table:—

Provided that nothing contained herein, or in any other part of these rules of the institution shall be considered to entitle to the benefits of it any widow who may have been legally divorced or separated from her husband for adultery, or who at the period of her husband's demise may have quitted his protection, and be living in a state of notorious adultery, though not divorced or separated from him by law, or who subsequently to her husband's decease may be living in a notorious state of incontinence.

ART. 24. If a widow pensioner on the fund marries, her pension is to cease during her coverture; but in the event of her again becoming a widow, she shall be re-admitted to all the benefits she may have enjoyed from the fund during her first widowhood, in like manner as if she had not re-married; but subject of course to all the limitations and conditions prescribed by the regulations in the first instance. If the second husband shall also have been a subscriber to the fund, the widow will receive however only one annuity, taking that which may be the greatest that is to say, according to the rank of the first or second husband, whichever may be the higher.

ART. 25. Every widow benefitting by the military fund, and not provided with a passage to Europe at the expense of government, shall be entitled (for one passage only) to an allowance of rupees 1,200, the claim to be determined by the following rule:—

If the money possessed by a widow exceed the sum of 12,000 rupees, the same being available for immediate expenditure and entirely at her disposal, she shall not be entitled to the benefit of passage-money. In like manner, although not immediately available, nor at her disposal, if the yearly interest of such money exceed the sum of £68-8-9; the claim to passage-money will be disallowed. Widows in Europe at the time of their husband's death, are not entitled to passage-money on returning to India, or again visiting Europe.

N. B. In proportion as a Widow's Pension from the Military and Lord Clive's Funds are by the levy of income tax reduced, so the amount admissible as private income will be increased in a corresponding ratio, beyond the present maximum of £68-8-9 without debarring her of the claim to Passage-money.

All applications from widows for Passage-money from the fund, must be accompanied by a guarantee (Form No. VI.) on the part of the Agents of the Ship, or other respectable party, that they will be responsible for a moiety of the Passage-money allowed by the fund being returned in cases of death previous to the Pilot quitting the Vessel, on which the claimant's Passage may have been taken.

No claim for passage-money is admissible after the lapse of one year from the date of embarking for Europe.

ART. 26. Should the fund, however, at any period fall short of the demands upon it so that the annual income will not defray the amount of the annuities and other claims, then it shall be in the power of the directors, after submission to the army, to make a proportionate deduction from the annuity of each annuitant, excepting always the present annuitants of the Bengal widows' fund, and from the payments to other claimants above the rank of subaltern, until the state of the fund shall afford the means of complete payment; when, if a surplus income exists, the arrears shall be made good from the amount of surplus, but not otherwise.

SECTION IV.

General Regulations.

ART. 27. The Bengal military fund is to be administered by a president and twelve directors, to be chosen annually, on or about the 15th of January, by a general meeting of all subscribers who may be present at the presidency. Subscribers who may be absent from the presidency may vote for directors by proxy, on addressing to the secretary letters containing the names of the persons for whom they wish to vote, or by transmitting such names under their signature to the general meeting by the hand of any other subscribers. The directors who shall be found duly elected shall then choose their president from among themselves. The precise day and place of meeting shall be notified by the president in the *Government Gazette* at least two calendar months before hand.

ART. 28. At the annual meetings the accounts of the fund and proceedings at the Directors for the past year, shall be laid before the meeting, for inspection and approval by the subscribers present, who were not of the direction; after which the meeting at large will proceed to choose Directors for the ensuing twelve months. The accounts to be published for general information.

ART. 29. The Directors of the past year are eligible to be re-elected.

ART. 30. All subscribers, who may have contributed to the fund by paying donations and subscriptions in their respective ranks, during six continued months before any meeting, are entitled to attend to examine the accounts and proceedings, and to vote for Directors.

ART. 31. In the event of vacancy in the office of Director occurring in the intermediate period between two annual meetings, the Directors may choose a successor from amongst the subscribers at the presidency, who may be eligible to the office.

ART. 32. On occasion of any particular and important business which may necessarily require the opinion of the society at large, special meetings will be called of the subscribers at the presidency (others voting by proxy) as provided for in article 27. Or if any alleged mismanagement, or other emergent cause should occur to any twelve subscribers to require the notice of the society at large, a special meeting shall be summoned by the president on the written requisition of such twelve subscribers under the forms above prescribed.

ART. 33. The directors shall have a secretary chosen by themselves, who also shall be accountant, with an establishment upon such allowances as shall be deemed adequate to the respective duties.

ART. 34. The secretary will be expected to have an office at his own residence for the accommodation of the meetings of the directors, for the preservation of the records, and for the purpose of affording access to the officers of the army at large to the books of the institution.

ART. 35. The directors of the fund will hold regular monthly meetings; but no meeting of the directors consisting of a smaller number than five, shall be competent to the transaction of business; and it will rest with any director, or with the secretary, to represent the occurrence of such necessity to the president, who will convene a special meeting within ten days from the date of his receiving the application; but no special meeting shall be called with the view or re-consider-

ing resolutions which may have been already adopted by a former meeting of directors, unless at the requisition of a number of directors greater than that which attended such meeting.

ART. 36. The secretary will invariably lay before the directors, either at the regular or special meetings, all letters that may have been received by him since the last meeting. Minutes of the proceedings of all meetings will be recorded and authenticated by the signatures of the directors present. The secretary will also submit to the directors who attended, drafts of all the letters which in those meetings he may have been desired to write. Letters demanding an immediate answer, when such may be of an ordinary nature, may be replied to by the secretary, without waiting for a meeting of the directors: but every letter proposed to be dispatched by the secretary, must previously receive the special sanction of one director, signified by his initial to the drafts, which will be sent to him for consideration.

ART. 37. The secretary will keep the set of books in use in the military widows' fund under instructions which he may receive from time to time from the directors of the fund.

ART. 38. The books and correspondence of the fund shall be at all times open to the inspection of subscribers.

ART. 39. When any new regulation shall appear to the directors to be advisable such regulation shall be circulated to corps for consideration, and the affirmative or negative of the majority of individual votes (to be ascertained at the expiration of four months) shall decide its adoption or rejection.

All propositions shall be published twice a week, in each of the Calcutta daily newspapers for a whole month before circulation to the army for their vote, to ensure previous publicity and discussion of their merits and demerits "*at the expence of the appellant.*"

ART. 40. If any subscriber or claimant on the fund shall be desirous to appeal from the decision of the directors to that of the subscribers at large, upon any subject which may not be specifically defined by the regulation, such appeal, provided it be approved by three directors, shall be referred by the directors, and decided upon in the manner prescribed in the preceding article, and the decision on such appeal, or that of the directors in cases not appealable, shall be final in all cases whatever, any further agitation of the question by a process of law or otherwise, being deemed in itself to be an absolute forfeiture of all claim on the fund.

ART. 41. When a reference shall be made to the subscribers at large respecting either proposed regulation, or an appeal, the result of such reference shall be communicated to corps for the information of subscribers.

ART. 42. Generally all payments due from the fund are made quarterly in England, and monthly in India; but in cases when pensioners or claimants on the fund are about to embark for Europe, all arrears must be paid up to the end of the preceding month.

ART. 43. Any arrear which may be due to the fund by a subscriber or by an annuitant who may have received an overpayment, shall in all cases be deducted from the first payments to be made from the fund to the person owing such arrear.

ART. 44. All income derived from the Bengal Military Fund is declared to be unalienable, and the fact of attempting the alienation of such income in any manner, or under any pretence, shall be deemed in itself a forfeiture of all future benefits from the fund.

ART. 45. If a subscriber who may be dismissed from the service by a court martial or otherwise, shall afterwards be restored to the service, he shall be re-admissible to the fund on payment of the arrear that may have accumulated, with compound interest thereon, in the same manner as if he had suffered only temporary suspension. See Art. 14.

ART. 46. All property belonging to the military fund at any period shall be invariably vested in the honorable company's securities. The necessity for retaining any balance is now dispensed with, and the secretary's office has no cash transactions. All payments in Calcutta are, in future, to be made at the presidency pay office by order of government dated 1st July 1840. All contri-

butions from subscribers generally must be made through the pay department or public treasuries. Private drafts are prohibited.

ART. 47. The business of the fund in Europe is conducted through the agency of Major H. Doveton, who will from time to time receive the necessary instructions for their guidance, and to whom such applications will be preferred as cannot with equal convenience be submitted to the directors of the fund in India.

NOTICE.—As subscribers falling into arrears often request exemption from the penalties prescribed by the regulations, on the plea of ignorance of the rules, or of no demand having been made by the Secretary, the Directors notify that they do not admit either of these reasons as sufficient to entitle a subscriber to the exemption called for, and that every penalty incurred by non-payment of Donations and Subscriptions must invariably and strictly be enforced, as prescribed by the rules of the Institution. The Secretary will continue to give notice when arrears are due, in all cases when they come to his knowledge, but every subscriber should protect his own interests, and see that his Subscriptions and Donations are regularly deducted by his paymaster, and immediately rectify any errors or omissions of that functionary.

QUEEN'S MILITARY FUND.

*Regulations of a General Military Fund, for the benefit of widows and
 children of deceased officers, in Her Majesty's Service in India, established in 1820,
 and revised in 1827 ; and Rules 21 and 22 added in 1845.*

Under the protection and countenance of the Most Noble the Marquess of
 Hastings, commander-in-chief in India, the above named fund was established
 in the year 1820, for the purpose of sending home, in comfort and respectability,
 the families of deceased officers in her majesty's regiments, serving in India, who
 may have been left destitute ; and of preventing the painful and degrading
 practice of appealing to the public for subscriptions on such occasions ; and also
 of providing relief in such cases as may require it, until they can be conveniently
 sent home.

It having since been found advisable to make some alterations in the rules
 and regulations then established, the following revised regulations, passed with
 the general consent of the officers of the army, have been approved of by his
 excellency the right honorable Viscount Combermere, commander-in-chief in
 India, who has been pleased to become patron to the institution.

His Excellency Sir Hugh Gough, Bart. G. C. B., commander-in-chief in
 India, with reference to several cases, arising out of the death of officers on the
 voyage from India to England, leaving their widows and children in circumstances
 of great distress, and with advertence also to the manifest justice of allowing all
 widows and children of officers, being subscribers to the fund, who may die at the
 Cape of Good Hope, the Mauritius, or New South Wales, the benefits of the

Military Fund, directed Rule 21—to be proposed for the consideration of the whole body of subscribers, and it having been carried by the votes of 227 members, with a minority only of 35, the Rule is accordingly rendered permanent, together with Rule 22, proposed at the same time, which was voted for by 233 members, and a minority of 29.

1st. That the committee of general management formed at Calcutta, shall consist of the following persons for the time being, they being subscribers; viz:—

The major-general commanding the presidency division.
 The adjutant general of her majesty's forces in India.
 The quarter master general of her majesty's forces in India.
 The inspector General of Hospitals.
 The Commandant of Fort William.
 The assistant adjutant general of her majesty's forces in India.
 The two senior officers of her majesty's regiment quartered in Fort William.
 Two senior subalterns of ditto.
 Commandant of depot.
 The military secretary to the commander-in-chief.
 The major of brigade of her majesty's forces.
 The paymaster of her majesty's troops, and
 The paymaster of her majesty's Regiment, quartered in Fort William.

2d. That a sub-committee for inquiring into all circumstances connected with this fund, and acting under the general committee, shall be formed at Madras and Bombay, composed as follows:—such officers being subscribers:—

The commander-in-chief, the Patron.
 The senior officers of her majesty's army at the presidency.
 All officers of the general staff.
 The two senior officers of her majesty's regiments stationed at the presidency.
 The two senior subalterns of ditto.

And that the major of brigade of Queen's Troops may be good enough to act as honorary secretary.

3d. That every officer shall pay monthly according to his rank, as specified in the margin.*

6th. That in order to obviate the difficulties which would arise from the occasional remote situations of her majesty's corps, serving under the several presidencies, the most noble the governor general in council, was pleased to order and direct, when the fund was established, that bills may be granted to the pay-masters of her majesty's regiments by the governments of Madras and Bombay, on the government of Bengal, at the exchange of 108 Calcutta sicca rupees for every 116 Madras rupees, and 325 Calcutta sicca rupees, for every 350 Bombay rupees, payable at sight to the agent or agents of the Queen's Military Fund, acting for the committee of general management, Fort William, thereby avoiding commission, double agency, and risks of exchange.

7th. That all grants of assistance from this fund shall be regulated and assigned by committees of subscribers, as herein declared.

8th. That in order to ascertain the circumstances of any widow or family, who may have become destitute by the death of any regimental officer, such widow shall memorialize or represent the case of herself and family, through the commanding officer of the corps, the casualty occurred in, in order to its being brought to the consideration of a committee, and the commanding officer shall, as far as his knowledge will enable him, state his opinion of any case so received.

9th. That whenever there may be fixed corps of her majesty's service

GENERAL COMMITTEE.

President.—A field officer, (if practicable) 1 Captain, or Surgeon, or Pay master. 2 Lieutenants, or 1 Lieutenant and 1 Quarter Master, 1 Ensign, or Assistant Surgeon.

or more than one stationed together at the same time, every application for relief from this fund shall be heard and decided on by a general committee, composed as equally as possible, of

officers from such corps present, being subscribers to the fund.

10th. As it may often happen, that officers die while the corps they belong to is stationed by itself or remotely detached, it shall be in the power of every commanding officer of a regiment so situated, to assemble a committee of any five officers (being subscribers,) to hear and decide upon the case of any widows and children, so become destitute, and seeking relief from this fund. It shall also be competent for the commander-in-chief at either presidency, to assemble a special committee, to report on the case of any lady who may become a widow, whilst the regiment, to which her husband belonged, shall be at another distant station, or on service beyond sea.

11th. That such general, special, or regimental committees as the case shall be, having duly examined into the circumstances of the party seeking relief, shall report their opinion on, and recommend the amount to be granted, whether for passage-money or maintenance, strictly in conformity with the regulations annexed. The opinion and recommendation of such committees shall be forwarded to the agent or agents of the general committee, if in Bengal, or to the honorary secretary of the sub-committee, or such person as may be appointed by the commander-in-chief; if at the presidency of Madras or Bombay, by the officer commanding the corps in which the casualty may have occurred.

12th.—The Sub-Committee at Madras and Bombay will, on satisfying themselves with the accuracy of the statements laid before them, draw upon the Agent or Agents of the Queen's Military Fund; acting for the Committee of General Management, Fort William, for the amount of the sum which may be awarded: but in the final adjustment of the accounts of such Sub-Committee, the General

Committee will consider themselves bound to object to any sum, however trifling, which may be granted in excess of the Rules laid down.

13th.—The Sub-Committee will, on drawing for any sum on the Agent or Agents of the Queen's Military Fund, acting for the Committee of General Management, transmit the Report of the Station Committee, as well as their own opinion and explanations of the Award, as a voucher, and they will afterwards, as soon as possible, transmit the proper Receipts and Certificates, shewing that the money has been appropriated in the manner and for the purposes for which it was awarded.

14th.—The object of this Fund being clearly confined to sending Home DISTRESSED Families of deceased Officers, with a view of preventing those painful appeals for assistance to the Public, at once so humiliating to respectable individuals and the Queen's Service in India, it is earnestly hoped that all ranks of Staff and Regimental Officers will support it.

15th.—But to prevent doubts and misconceptions which might possibly arise hereafter, it is distinctly declared, that no Widow who is not in distressed circumstances or no Lady continuing to reside in this country after the death of her husband, can expect any provision or pension for herself or children from the Fund further than is stated in the 8th Clause of the Schedule of Awards. It is also declared, that no Widow is entitled to passage money or allowance for travelling, unless she shall actually proceed to Sea or on her journey in the manner for which any allowance may have been drawn, and should she have received such allowance, she will be required to refund: and further that no Widow, under any circumstances, shall be entitled to any assistance from this Fund, unless the application shall be made in the usual form within six months after the demise of her husband.

16th.—Orphan Children are eligible for the benefits of this Fund, but awards for them must be specially made by a General or Sub-Committee and sanctioned by the Commander in Chief of the Presidency, who is requested to appoint some eligible person to take care of them, and provide a passage, &c. &c.

17th.—That the Agent or Agents of the Queen's Military Fund, acting for the Committee of General Management, Fort William, shall furnish an annual Account of the Receipts and Disbursements of this Fund, agreeably to forms annexed, to the Adjutant General of Her Majesty's Forces; and that, that Officer be applied to, to circulate the same amongst the Subscribers, and the several Officers of Government at the three Presidencies.

18th.—That Commanding Officers of Her Majesty's Regiments be requested to pay particular attention in causing the regular quarterly remittances to be made to the Agent or Agents of the Queen's Military Fund, acting for the Committee of General Management, Fort William, who are requested from time to time to apprise Commanding Officers whenever any Corps may fail in making such remittances.

19th.—That no general Rule or Regulation of this Fund shall be altered, except recommended by the General Committee, and approved by a majority of the Subscribers.

20th.—In taking the opinion of the Regiments and Staff Officers Her Majesty's Forces in India, a very general wish has been expressed that *all* Widows should have their passage to England, &c. &c. defrayed. The Funds will not now admit of it, but should the positive standing balance of the Fund ever amount to forty-thousand rupees (40,000) the committee will again put the question for the sense of the subscribers, with a provision that such charge should again cease on the balance falling to thirty-thousand rupees (30,000) and as in that event all married officers will have a claim on the Fund their subscriptions should then be augmented. As an officer ceases to be a subscriber on leaving India, all claims

on the Fund must in like manner cease from the same period; but an officer going to Sea for the benefit of his health, being entitled to his company's allowances, will be considered as a subscriber during his absence.

21st.—That all widows of officers, who were subscribers to the Fund, shall be entitled to the amount granted to all widows and children, for passage money to England, if their husbands die on their passage to England, or during their absence on sick certificate, at the Cape of Good Hope, the Mauritius, or New South Wales.

22d.—That no special grants, in cases of great distress, (not provided for in the regulations of the Fund) shall be passed by the General Committee in Calcutta, or the sub-committee at Madras or Bombay, without the sanction on the Majority of Subscribers; which sanction is to be declared in the General Abstract of account, published annually for the information of subscribers.

(Modifications of Rule IV.)—This rule modified as respects subscriptions of Members of the Medical Board and Superintending Surgeons who proceed on furlough, as per undermentioned extract from the quarterly proceedings, dated 12th April 1841.

As by General Orders dated 24th April 1844 No. 93 a higher rate of furlough pay has been granted to members of the Medical Board (£456 11 3 per annum) and superintending surgeons (£365 per annum) than had been previously assigned to those ranks it becomes necessary to adopt a scale of subscriptions for them commensurate with their enhanced furlough pay, and in proportion to the amount payable by surgeons, to which effect no provision had been made in the fund rules because when they were framed the higher ranks of the Medical Service enjoyed no higher furlough pay than that of surgeon. The undermentioned new scale of subscriptions was accordingly submitted for the votes of subscribers with the secretary's letter No. 216 of the 17th December last, and the following is the state of the Poll. Members of the Medical Board to pay Sa. Rs. 67 or Co. Rs. 71 7 5 per month at the minimum or Sa. Rs. 133 or Co. Rs. 141 13 10 at the maximum rate while on furlough.

N. B. Rule XXXII. rescinded as per following resolution, vide Report of the Quarterly General Meeting held 14th January, 1839.

Resolved.—That Rule XXXII. appearing not to be founded on liberal or just principles towards one class of subscribers and that its tendency to accelerate being questionable, while its direct effects in keeping back from joining the fund several of the seniors on the Medical list who would otherwise probably join it, is very obvious, the resolution moreover, not having been included in the original scheme of the fund submitted for the approval of the Honorable the Court of Directors, the said rule be rescinded from the regulations of the Fund.

Rule XXXIV. abrogated as per following Resolution passed at the 2d Quarterly General Meeting, held 13th April 1840.

Resolved—That as the amount of loss likely to be entailed on the institution by the operation of Section XXXIV. of the Fund Regulations will in all probability prove very great, and interfere most essentially with the possibility of arriving at perfectly accurate conclusions in the calculation of chances, it be abrogated from the 1st January, 1840, except as respects incumbents who entered the Fund on the faith of that Rule's continued operation.

N. B. The following resolution passed by the Committee of Management of the Bengal Medical Retiring Fund at their Meeting held on the 23th February 1838, having received the sanction of more than two thirds of the number of subscribers then in India, is passed into a Bye Law of the fund and under its conditions all admissions of subscribers who were in the service on the 31st October 1836, and did not then become subscribers are regulated.

Resolved, That as the admission from the medical list as it now stands of new Members to the Bengal Medical Retiring Fund so many years after its formation gives advantages to such new Members over the earlier supporters of the fund, having avoided the Tontine risk incurred by the latter, all persons applying for admission as subscribers to the said fund, or who are not actually subscribers this Wednesday, 28th February 1838, shall, previously to their application for admission (in the conditions of section III of the fund, deed

being circulated for the votes of the subscribers resident in this country, pay as a penalty for the exclusive benefit of the fund (but to be repaid to the applicant should he be rejected by a majority of vote) a sum of money equal to one moiety of his arrears of subscription, to be calculated in the first instance from the 1st January 1833 to the date of his application, and in the second, from the date of his application to the date of his final admission as a Member, to be decided by the committee of management of the fund, after due examination of the votes of the Members residing in India, such amount of penalty to be according to the rank of the applicant, as provided in section IV of the fund deed, or the annual sum according to the following table; and that such applicant or applicants shall also pay the expense of printing and circulating the reference for his or their admission previous to the results of votes being declared.

Annual penalty to be paid on admission reckoning from 1st January 1833 to date of admission.

No. 1.

FORT WILLIAM, 18TH JUNE, 1832.

No. 97 of 1832.—The Hon'ble the Vice President in Council is pleased to direct, that the following paragraphs 1 to 5 of a military letter from the Hon. the Court of Directors, No. 15, dated the 6th March, 1832, be published in General Orders:—

"Separate letter from, dated 25th April, 1829, } Para. 1. "We are very solicitous for the comfort of our officers upon retirement, and are therefore disposed cordially to encourage the institution of funds in furtherance of that desirable object."

2. "Schemes of a nature similar to that which you have submitted, though differing from it in some points of detail, have been proposed at Madras and at Bombay, and we think it desirable that the funds which may be formed at the three presidencies, should be constituted upon a uniform principle in all respects."

3. "We regret that in the present state of the Company's affairs, it is not possible for us to aid the fund by a direct contribution, but we are willing not only to bear the increased charge of retiring pay that will be consequent upon the establishment, but also to sanction the grant of an interest of 6 per cent. per annum on the balances of the several funds and the remittance of the annuities which they may grant through our treasury at the rate of 2s. the sicca rupee."

4. "The only conditions we require are that the regulations shall be submitted to us for our approbation, that the aggregate amount of the annuities or granted in each year, shall not exceed £7,750, in the proportions of

£3,850 Bengal,
2,700 Madras, and
1,200 Bombay,

£7,750

which are the amounts contemplated in the several schemes, and that the number of annuities granted in each year, shall not exceed 24, in the proportion of 12 at Bengal, 8 at Madras, and 4 at Bombay. These amounts and numbers are of course fixed by us with reference to the establishments as they now exist."

5. "We shall transmit a copy of this despatch to the Governments of Madras & Bombay, with instructions to them to communicate with you upon the subject."

TO SURGEON H. S. MERCER,
*Secy. to the Committee of Management, for establishing a Medical Retiring Fund,
 Mily. Department.*

SIR,—In reply to your letter of the 13th instant, I am directed to inform you that the secretary to the Medical Board will be authorized to frank all communications upon the subject of the proposed retiring fund for the medical service.

At the same time I am desired to transmit to you the annexed copy of paragraphs 1 and 2 of a letter from the Honorable the Court of Directors, No. 84, dated 5th September 1832, referring to the Fund in question.

I am, Sir, your most obedient servant,

(Signed) WM. CASEMENT, Col., Secy. to Govt., Mily. Dept.

Council Chamber, 9th February, 1833.

*Copy of Paragraphs of a letter from the Honorable the Court of Directors, No. 84,
 dated 5th September, 1832.*

Par. 1. The Bombay Government have lately submitted to us a scheme for the institution of a Medical Retiring Fund at that presidency, and as the reply which we have made to that communication is applicable to your medical establishment, we transcribe it for your information and guidance.

"We are of opinion that the object of accelerating the retirement of medical servants by means of annuities, would be best provided for, by incorporating that service with the military in the institution of the fund, for the latter sanctioned in our dispatch to the Government of Bengal, dated 6th March, 1832, copy of which accompanied our dispatch to you, dated the 28th of that month; and if this arrangement can be accomplished, we shall not object, to a proportionate increase in the number of annuities remittable through our treasury."

"We are aware that at Madras annuities for medical officers are provided for distinctly from the military, in consequence of their being a separate fund, embracing for medical servants and their families, various compassionate objects similar to what are provided for military officers and their families by the military fund. But at your presidency, and in Bengal, the military fund embraces both services, and we think the retiring fund should do the same."

2. "In the event of any arrangement being adopted, consequent upon this communication, you will understand, that the number and amount of additional annuities remittable through our treasury, is to be strictly regulated by the proportion which the number of medical officers bears to the number of officers in the army.

FORT WILLIAM, 10th DECEMBER, 1834.

No. 236 of 1834.—The following paragraphs of a military letter, No. 19, dated 11th July 1834, from the Hon'ble the Court of Directors to the Government of the presidency of Fort William, are published for general information:—

Letter from dated 22d Nov. No. 114 of 1833; paragraphs 3 to 4 submit a memorial from the medical officers, praying the Court to give their support to a separate Medical Retiring Fund, and to bestow similar benefits to those granted to the Madras Medical Retiring Fund, with reference to donation, rates of interest, and exchange.

(Vide G. O. No. 97, of 18th June, 1832.)

1. We are prepared to sanction the institution of a separate retiring fund for the medical officers upon your establishment, but we cannot consent to grant to it any specific donation, nor any advantages in the shape of interest or exchange beyond those mentioned in our dispatch, dated the 6th March, 1832, (No. 15 of 1832.)

2. Neither can we allow of the remittance through our treasury of so large a number of annuities of £300, as will provide for six, being annually granted. The number must be limited to three, which is a full proportion relatively with that which we fixed for the military service in the event of a retired fund being instituted by the army.

GENTLEMEN,

In reply to your letter, No. 225 of the 31st December, 1847, soliciting that the Government would move the Hon'ble the Court of Directors "to allow all the six Annuities annually granted by the Bengal Medical Retiring Fund, to be paid from Home Treasury, instead of half as at present," &c., I am directed to transmit to you a copy of a Despatch from the Court in the Financial Department, to the Right Hon'ble the Governor General of India in Council, No. 19, of the 3d ultimo, declining to allow the payment of a larger number of Annuities from the Home Treasury than has already been sanctioned.

Our Governor General of India in Council.

Para. 1st. The object of this representation is to induce the Court to relax the orders contained in our Military despatch, dated 11th July 1834, No. 19, limiting the remittance through the Company's Treasury to three of the Annuities granted from the Bengal Medical Retiring Fund annually, and permit the whole number of six annually granted to be issued from our Treasury here.

(Letter dated 20th January 1848, No. 2.)

Transmit for the Court's consideration copy of a representation from the Committee of Management of the Bengal Medical Retiring Fund.

2. The grounds urged by the Managers of the Fund in support of their application are the failure of their Agents, Messrs. Cockerell, Larpent and Co., and the difficulty in times of commercial distress, as at present, of procuring any Bills of Exchange in the Market that could be relied on.

3. We regret the circumstances, but the Managers of the Fund must be aware that the same causes operate to our disadvantage also in obtaining remittance necessary to meet our existing engagement, or we should not import Bullion from India.

4. We cannot therefore admit of the payment from our Treasury of a larger number of Annuities from the Bengal Medical Retiring Fund than has already been sanctioned.

No. 12.

Extract from Proceedings of Second Quarterly Meeting held 10th July, 1848.

Dr. F. H. Brett, an Annuitant on this Fund, having taken the benefit of the Bankruptcy Act in England, and the Committee of Management having been served with notice not to pay the future Annuities to this Annuitant, but to the Official Assignee of the London Bankrupt Court; the following case was submitted to Counsel for opinion, and the opinions of Mr. Advocate General Colvile and Mr. Morton thereon are submitted for the information of Subscribers.

Case for the opinion of Counsel.

Dr. Frederick Harrington Brett was Surgeon in the East India Company's Bengal Medical Service, and was also Subscriber in the Bengal Medical Retiring Fund, and afterwards became an Annuitant on the Fund. Dr. Brett went to England some years ago, and becoming involved in debt, he became bankrupt, and Mr. A. B. Belcher was appointed Assignee. Dr. Brett was entitled to an Annuity from the Bengal Medical Retiring Fund of £300 per annum, and on the bankruptcy occurring the Assignee claimed payment of the amount of the Annuity from Messrs. Coutts and Co., the Agents in London of the Fund, and a claim has also been made on the Secretary in Calcutta for the money. Copy of the letter and notice accompany. As also a copy of the Book of the Fund Rules.

Counsel's opinion is solicited as to whether the Annuity so payable from the Bengal Medical Retiring Fund, passes to the Assignee by reason of the bankruptcy, or not, and whether the Officers of the Fund are discharged from farther liability by paying to the Assignee, or whether any and what precautions should be observed by the Committee or the Secretary of the Fund, or the Agents in London, in making the periodical payment and generally, &c.

Opinion of Mr. Advocate General James William Colvile.

There seems to me to be nothing in the Rules of the Bengal Medical Retiring Fund, which affords any ground for contending that in its legal incidents an Annuity payable out of that fund differs from any other Annuity. It would therefore in my opinion pass to the Assignee under an ordinary bankruptcy, *a fortiori* it will I think, do so when, as in this case, the appointment of Assignees and the consequent transfer of property takes place under a spontaneous application for relief under and submission to the provisions of the Statute 7 and 8 Vic. 96.

I think therefore that the Officers of the Fund will be discharged from further liability by paying to the Assignee as the person legally authorized to receive the same, see Rule 30; nor do I know what precautions they should observe other than that of paying only on the receipt of the Official Assignee for the time being, or his duly Constituted Attorney. The more convenient course seems to be that the London Agents should pay in London to the Assignee personally.

(Signed) J. W. COLVILE,

Calcutta, June 19th, 1848.

Opinion of Mr. Counsellor T. C. Morton.

I have read the rules of the Bengal Medical Retiring Fund, the same being contained in the Deed of 10th October, 1836; and it seems clear, that the Annuity is not in the nature of a pension or voluntary grant, but that it is a benefit which the retiring officer actually purchases, and for which (in ordinary cases) he could proceed by suits at law or in equity. This distinguishes the case from *Gibson vs the East India Company*, 5 Bingh. N. C. 262, where the Court of Common Pleas in England held, that the pension of a Military Officer of the Company does not upon his bankruptcy pass to his Assignees. I am of opinion therefore that Mr. F. H. Brett's right, title and interest in the Annuity of £300 a year, to which he is entitled from the Bengal Medical Retiring Fund, pass wholly to his Assignee Mr. Belcher. The Secretary of the Fund, or the London Agents, therefore will be justified in making the payments henceforth as they accrue, direct to the Assignee, for the time being. The only precaution necessary to be observed is to take a receipt from the Assignee as such.

GENERAL MILITARY BANK.

GENERAL ORDERS ISSUED BY THE COMMANDER IN CHIEF.

HEAD QUARTERS, CALCUTTA, 15th MARCH, 1821.

General Orders by His Excellency the most noble the Governor General in Council.

FORT WILLIAM, 10th MARCH, 1821.

With a view to guard against any misapprehension that might be entertained regarding the peculiar object to the General Bengal Military Bank established by general orders of the 23d December last, the most noble the Governor-General in Council is pleased to notify, that the Bank having been instituted for the purpose of affording officers a ready mode of remitting and accumulating portions of their allowances, it is not intended that it should receive large sums of money already possessed by individuals; such an extension of the concerns of the Bank being inconsistent with the plan of the institution.

His Lordship in Council is further pleased to announce, that the 5th clause of the regulations of the Military Bank, is equally applicable to Native as to European regiments; and that in any case where the Native Officers and men of a regiment or battalion, may form a regimental Savings' Bank, under the authority of their Commanding Officers, the same facilities of remittance, through the Paymaster of the division, are to be afforded to them, and their aggregate remittances carried to account in the same manner as those of an European regiment.

Subadars and Jemadars are also authorized to remit any sum of money not less than ten sicca rupees, and without fractions, to the Military Bank in Calcutta, in their own name, through the officer commanding their company.

MONDAY, JANUARY 17, 1825.

At a meeting of the Directors held this day, it was agreed, that the accounts of the Bank are to be made up half yearly, but that the accounts current are not to be forwarded until after the 31st December, in each year except under peculiar circumstances.

Pay masters are authorized to recover arrears due to the Fund on presentation of bills, signed by the secretary and counter-signed by the deputy governor of the institution, to an extent not exceeding 25 Rupees per mensem in cases of subaltern officers, and from higher ranks in the proportion of one-third of their pay and allowances.

Officers on Furlough, with or without pay and officers overstaying their Furlough, whose subscriptions are from any cause not realized in England are required on their return to India to pay up all arrears due to the fund with interest at 8 per cent. per annum within six months of their arrival in Calcutta.

It is optional with officers entitled to retire from the service to continue or discontinue their contributions after resignation. When, however, an officer signifies his intention to continue a subscriber, he is required to pay the full amount of subscription of the rank in which he retires.

REGULATIONS REGARDING ADMISSION.

(154.) No child possessed of property is admitted, but on the condition of the total amount of such property being (in all practicable cases) lodged for its use and benefit in the Society's Fund.

(156.) Children born prior to the entrance of their fathers into the service, or after the discontinuance, of their subscriptions, are not admissible—except (in the former case) if the parent has paid his subscription from the date of his child's birth, together with interest at 8 per cent. on such subscription.

The children of officers retired from the service are not admissible, if their father have continued his subscriptions after the period of his removal from the effective strength of the army.

(159.) No child of a subscriber, of *whatever rank* is admissible, unless the father have continued to contribute to the fund, to the period of his decease; or, in other words, any Member of the Society, who, after promotion to the rank of lieutenant colonel, or from any other cause, ceases to subscribe forfeits all claim on the institution.

(160.) Applications for admission to the benefits of the institution are made by the trustees or guardians of the orphan, to the general management, either directly through their secretary, or intermediately through the station Committees.

(161.) In these applications, the sex, age, and names of the orphans are notified; together with notice of their Baptism and vaccination.

(162.) The guardians, or Trustees of all orphans making application for their admission on the foundation, are required to make an affidavit before a justice of the peace, or before the commanding officer of the station, or detachment, where there is no justice of the peace, touching the true amount and value of the monies, and estate which they hold in trust for such orphans; to the end that the management, besides being satisfied that the children are proper objects for the institution, may be enabled to take steps for receiving on deposit the property belonging to them; and to judge what assistance they will need from the society, when, their education being completed, the period shall arrive for settling them in the world. Such affidavit is transmitted to the management, along with the application for admission. See form of affidavit, Appendix A.

(165.) With a view of affording to the general management the most correct information possible, on all points affecting the interest of those children who may be offered to their guardianship, executors and others, making application in behalf of orphans, are required, besides furnishing the customary affidavit, to give the fullest account they may be able to procure, respecting the estate of the deceased, and its disposition by Will; and to make an unreserved communication of testamentary and all other documents of which the nature of the specific cases may admit; and the management reserve to themselves the entire right, conveyed by their original constitution, of rejecting orphans tendered without such information and documents; or if, on reference to them, there appear any evidence of design unnecessarily and intentionally to burthen the fund, by throwing on it those who might and ought to have been otherwise provided for.

(166.) When in the will of any subscriber, part only of his children are provided for, whilst others are excluded by name, or otherwise not noticed in its provisions, the omission arising manifestly out of the intention of the testator,

such exclusion or omission is considered to invalidate the claims of all the subscriber's children to the benefits of the institution.

(167.) This rule holds where the property bequeathed is only in expectancy: the will or intention of the parents being sufficient to exclude orphans so situated.

(168.) In like manner, all cases of capricious or unequal provision, which by favoring the mother in preference to the children, or one child in preference to another, appear calculated to throw all, or any part, of a Subscriber's Fund on the Fund, are considered to invalidate the claims of all.

(169.) Any Provision by will, or settlement for the Widow of a Soldier greater than three-fifths (3-5ths) of the property to be devised, where only one child; of one-half ($\frac{1}{2}$) where there are two, and of one-third where there is any greater number of children than two: the remainder being considered to be the property of the child, or (in equal proportions) of the children: is considered unequal agreeably to the two foregoing articles, and to invalidate the claims of the children accordingly.

(170.) Provided always, that a provision for the Widow, to the amount of 12,000 Co.'s Rs. (Company's Rupees Twelve Thousand,) independently of any claims she may have on the Military Fund, or Lord Clive's Fund, shall not be held to invalidate the claims of the child or children; although such may be more than three-fifths, (3-5ths) one-half ($\frac{1}{2}$) or one-third ($\frac{1}{3}$) of the property devised. The Widow may likewise possess a further sum of 12,000 Co.'s Rs. if derived from other sources than property left by her Husband, as from her own Parents, Father, Brother, &c or the Subscription of her Friends; and in case that less than 12,000 Rs. should be left by her husband, such sum as shall not exceed in all the amount of 24,000 Co.'s Rs. without the claim of the Orphans upon the Fund being thereby affected.

(171.) In all cases of children born not in wedlock, any provision for the mother exceeding Co.'s Rupees thirty (30) if a native, if European Co.'s Rupees fifty (50) per month, (the principal of such sum being in all cases secured to the child or children) is considered in the same light as the above, and invalidates all claims upon the foundation.

(172.) No child of any subscriber dying intestate is admitted, if on enquiry there appears to have been (after payment of lawful debts and adequate provision of the mother,) property remaining to the estate, equal to making a provision for, and which might have been bequeathed to, such child.

(177.) In similar cases, if any property fall to the child, whilst under the society's protection, such property must in all practicable cases be immediately placed in the Funds of the institution.

STIPENDS OF ORPHANS IN INDIA.

NOT BROUGHT UP IN KIDDERPORE HOUSE.

(196.) The allowance made for each child remaining under the care of its mother or guardian, is Co.'s Rupees 20 per month, whilst the child is under

the age of five years; and 16 Rupees only after it has passed its fifth year, unless the consent of the general management has been obtained to its remaining with its mother or guardian when 35 Co.'s Rupees per mensem shall be the established allowance.

STIPENDS OF ORPHANS IN ENGLAND.

(235.) The regular sums allowed for the maintenance, clothing, and education of wards of the institution, resigned to the immediate care of their relation. Guardians, or Trustees in England, (all charges of whatever nature being included in such allowance) are fixed at the following scale; vizt. for all girls and boys indiscriminately under six years of age £ 30 per annum; for all boys above that age £ 40 and for all girls £ 45 per annum to the end of their 17th year in the case of Boys, and of their 18th in the case of Girls.

PASSAGE MONEY.

(235.) The passage money of children allowed to proceed to England is paid by the society in Bengal and Co.'s Rs. 750 allowed on this head where there is only one child and Co.'s Rs. 500 for each child above that number. The amount of such passage money is paid under the authority of the general management by the treasurer of the society, and a receipt for the same taken from the mother or guardian of the child.

ORPHANS RETURNING TO INDIA.

(235.) On the friends of any female ward engaging to the society to receive and take charge of her upon her arrival in India, the agent in London may, at his discretion, authorize such young lady to return in which case a sum equal to Co.'s Rs. 1,500 is paid by the agent towards her outfit and passage money, the society being thenceforth exonerated from all further demands. In such cases, the agent is directed to take the proper precautionary measures regarding the charge of the young ladies during the voyage, and to pay the utmost attention to this point.

(256.) Female orphans, however, coming out to India with the consent of the general management or the agent in London, at their own expence, are still considered as being upon the foundation, and entitled to all the rights and privileges enjoyed by persons of the same description who have never left India.

LOWER ORPHAN SCHOOL.

1. The lower school, or lower branch of the institution, is supported by the bounty of government.

2. The benefits of the school are extended to the children of non-commissioned officers and private soldiers, belonging to the Hon'ble Company's Bengal establishment and to the orphans of non-commissioned officers and private soldiers of Her Majesty's regiments serving in Bengal. Outwards of the institution have in addition, to the established bounty, the further privilege of receiving

instructions gratuitously as they Scholars in the Lower Orphan School, Allipore, provided the general management are satisfied that their admission to or continuance in School will not be prejudicial to the morals of the resident wards.

3. No children, the offspring of fathers not wholly European are admitted to the benefits of the School, the only exception to this rule being in favour of the children of Drummers and fifers serving in the army who are entitled to claim the usual subsistence allowance provided they are the offspring of girls brought up not less than 4 years in the Orphan School, or of soldiers' wives receiving the usual subsistence allowance granted by government.

6. This bounty consists in an allowance of Co.'s Rs. 2-8 per month, authorized to be drawn for each child, under the name of subsistence allowance.

9. The destitute Orphans of Warrant Officer (conductors, sub-conductors, Riding Masters, &c.) are admissible to the school.

14. The regulated subsistence allowance for children residing with their parents or Guardians, is drawn direct from station Secretaries by officers drawing the pay, or having immediate charge or command of parents or guardians of children respectively.

15. These allowances are to be drawn monthly in separate abstracts, accompanied by Review Rolls, duly certified and authenticated.

88. The children, of non-commissioned officers and soldiers of Her Majesty's service dying in India are entitled to the benefits of the institution, and to be received into the school in the same manner as the Orphans of non-commissioned officers and soldiers in the Hon'ble Company's Service; but the children of non-commissioned officers and soldiers of Her Majesty's service whose fathers are living are not admitted.

N. B.—This allowance is strictly limited to legitimate children.—

31. In the event of a child born after the 15th day of any one month, or dying before the 15th of the month, no subsistence allowance is drawn for such child for that month.

32. Demands for arrears of subsistence money are rejected in all cases, except those in which the Parent or Guardian may have been employed on service, in the field, or proceeding from one station to another, and thus may not have had an opportunity of applying first regularly to any committee. No arrears for a period exceeding six months are, in any case, to be paid without reference to the general management.

INDIAN LAUDABLE AND MUTUAL ASSURANCE SOCIETY.

CONSTITUTION, &c.

Preamble

WHEREAS at the Eighth Half-yearly Meeting of the New Calcutta Landable Society, convened under the 51st rule of the Society, and held on the 16th day of January, one thousand eight hundred and thirty-nine, the said meeting having been made special under the 36th rule for the purpose of taking the

votes of the Shareholders on certain propositions for the appropriation of the surplus funds and other modifications in its constitution, agreeably to the resolution passed at the general half yearly meeting held on the 26th July 1837, such propositions were adopted by a resolution passed by a majority at the said meeting, at which more than two-thirds of the Society were duly represented, according to the rules and regulations of the said Society, that is to say, one hundred and thirty eight votes against one hundred and fourteen votes, the whole number of votes in the Society then being three hundred and sixty two, which said propositions, so adopted, were and are as follows, that is to say:—

PROPOSITIONS for the APPLICATION of the SURPLUS FUNDS of the NEW CALONTTA LAUDABLE SOCIETY at the end of the year 1839, and for other MODIFICATIONS in its CONSTITUTION, with a view to render the SOCIETY PERMANENT; enhancing greatly the ADVANTAGES of all concerned in it, combined with UNQUESTIONABLE SECURITY.

PROPOSITIONS.

First.—That prior to any division of the surplus funds there be set apart one-third the amount of extraordinary risks, arising from individuals holding more than ten shares on one life, to meet such extraordinary risks.

Second.—That one per cent on the outstanding risks, to be denominated the “premium fund,” be carried forward to the current premia to meet unknown lapses.

Third.—That the remaining sum be held to be the individual property of the surviving policy-holders at midnight of the 31st December 1839, in the ratio of the amount of premium respectively paid, subject to retention to individual credit to the extent of ten per cent. on each individual's risk, for the purpose of forming a guarantee-fund, any surplus which may remain to any individual's credit after such ten per cent. has been thus set apart as his proportion of a guarantee-fund, to be paid to him, or applied in reduction of premium. Should the surplus of any individual at the close of the term not amount to ten per cent. on his individual risk, his future surplus to be added thereto, until it does so amount to ten per cent. on his individual risk.

Fourth.—That a statement of the accounts be prepared on the 31st May and 30th November, in each year, for the purpose of ascertaining the then state of the funds, that in the event of there being a surplus over and above one per cent. on the amount of outstanding risks for the “premium fund,” the excess, provided it amounts to five per cent or more on the amount of premia received during the current half year, be divided as above among the surviving policy-holders at those dates respectively, in the following manner, viz., that after ten per cent. on the premia paid during the half year, shall be so divided, the remainder, be carried to the premium fund, unless it shall amount to enough to allow of an additional one per cent. on the outstanding risks for the premium fund and five per cent. on the premia paid during the half year, in which case the one per cent. shall be so carried to the premium fund and an additional five per cent. shall be divided as above; and in the event of there still being a further surplus admitting a third one per cent. being carried

to the premium fund and an additional five per cent. on the premium paid during the half year, making in all 20 per cent. on the premium paid, a further division to that extent shall be made; but no division or return premium beyond 21 per cent. shall be made unless the premium fund shall amount to five per cent. on the outstanding risks, in which case the whole amount surplus shall be divided or returned as above; the amount belonging to each individual being either carried to his credit, or applied to the reduction of his premium, according as it may, or may not be, required to maintain his portion of the guarantee fund at ten per cent. on his individual risk.

Fifth.—That in the event of the guarantee fund being at any time trenced upon, the amount withdrawn be made good at the commencement of the succeeding half year, out of the current subscriptions, so that every surviving subscriber at the time of the repayment to the guarantee fund, shall have his full amount made up to him as it stood at the time the fund was drawn upon; and in case of lapse after the guarantee fund may have been so trenced upon, the full amount to the credit of the individual risk shall be paid as it stood at the commencement of the half year, notwithstanding the temporary reduction in the total amount of the guarantee fund.

Sixth.—That the whole amount standing to individual credit, be paid, in the event of lapse, at the same time as the amount assured, and that this payment be made immediately on due proof of lapse.

Seventh.—That in event of a party being desirous to cease to be a mutual assurer, by withdrawing from the Society, the amount to his credit in the guarantee fund be paid to him, subject to a fine of twenty-five per cent., to be carried to the premium fund; and that a proportionate payment be made in the event of a party reducing the amount of his assurance; provided that in such case no payment shall be made, unless the amount at his credit shall equal ten per cent. on his reduced risk. Parties withdrawing at the close of the present term, also to forego twenty-five per cent. of their surplus.

Eighth.—That instead of shares of rupees 6,000, assurance be taken on even hundreds, not under Company's rupees 500, nor above Company's rupees 50,000.

Ninth.—That the accounts be converted from Sicca into Company's rupees, it being optional with existing insurers to have in value an equivalent in Company's rupees to the nearest hundred for his present insurance in Siccas, or to hold the same number of Company's rupees as he now does Siccas.

Tenth.—That the rates of premium be those of the Oriental life Insurance Company as below, the existing Military lives insured in the Laudable paying only Civil rates, but all Military Lives insuring subsequent to the 31st December 1859 to pay the Military rates.

Eleventh.—That such other modifications be made in the existing rules as are necessary to bring them into correspondence with the above.

Twelfth.—That the Society be called the Indian Laudable and Mutual Assurance Society.

Thirteenth.—That this paper be circulated by the Secretary to every individual policy-holder, with a request that he will either vote at a special general meeting, to be called after six months' notice from the date of circulation, or send proxy under the 32d rule for or against these propositions, in order that at least two-thirds of the Society may be represented.

Fourteenth.—That in the event of the propositions being carried, they, together with the existing rules, be placed in the hands of a professional gentleman, for the purpose of a correct set of rules being prepared for general information.

IN PURSUANCE therefore of such resolutions and propositions the following rules and regulations have been prepared in manner directed by such propositions, and are now published for general information, as those by which the transfer from the new Calcutta Laudable Society, at the end of the year one thousand eight hundred and thirty-nine, to the Indian Laudable and Mutual Insurance Society will be effected; and by which such Indian Laudable and Mutual Assurance Society, when embodied, will be governed.

1st. That from and after the 1st day of January, one thousand eight hundred and forty, the Society shall be denominated *the Indian Laudable and Mutual Assurance Society*.

Denomination of the New Society.

2d. That prior to any division of surplus funds, accruing after payment on account of lapsed lives provided in the 27th rule of the New Calcutta Laudable Society, to wit Sicca rupees 6,000 for each whole share, Sicca rupees 3,000 for each half share, and Sicca rupees 1,500 for each quarter share, the increase contemplated in the said rule not having been made or mentioned, one per cent. on the total amount of outstanding risks on the 1st day of January, one thousand eight hundred and forty, transferred to the *Indian Laudable and Mutual Assurance Society*, and that the amount so transferred be denominated the premium fund, to which the current premia, as received from time to time will be added.

Formation of the premium fund; prior to division of surplus.

3d. That whereas by the union of the late Seventh Laudable and Thirteenth Supplementary Laudable Societies, thereby constituting the New Calcutta Laudable Society, certain lives were insured in each society to an aggregate extent beyond the limit assigned by the rules of the united societies, and beyond the limit now assigned by the rules of the Indian Laudable and Mutual Assurance Society, and whereas such excess of risks beyond the prescribed limit requires that special security should be provided before any division be made of the surplus, over and above the one per cent. on the outstanding risks, as directed in the last rule previous to any such division being made, one-third of the amount insured on such particular lives, as shall on the first day of January 1840, be found to be in excess of the prescribed limit, shall be added to the said premium fund.

Transfer of one-third of amount insured on lives in excess of the prescribed limits, to be added to the premium fund.

4th. That after the payment to the premium fund of the contributions in the two last preceding rules provided for, and making the division as directed by the 27th rule of the New Calcutta Laudable Society, then the remaining sum shall be held to be the individual property of the surviving policy-holders on the 31st day of December 1839, at midnight, in the ratio of the amount of premium respectively paid by them, and be carried to their separate credit, but only for the purpose hereinafter expressed.

Surplus to be carried to credit of survivors on 31st December 1839.

5th. That, it being expedient for the better securing of the objects of the Society, that a guarantee fund be created, a sum equivalent to ten per cent. on the amount insured, on each life on which insurance may be extended from the present to the New Society, shall be deducted from each specific sum so carried to the credit of such policy-holder and posted to his individual account in the said guarantee fund; but in the event of any individual's share in the surplus not amounting to ten per cent. on his outstanding risks, then the whole amount of surplus shall be

Creation of a guarantee fund, by transfer of the separate credits to the extent of 10 per cent. on individual risks.

placed at his credit, the remaining amount required to bring his portion of the guarantee fund to ten per cent. on his risk, to be obtained as hereinafter mentioned.

Surplus payable to subscribers withdrawing, less 25 per cent.

6th. That the amount surplus belonging to surviving policy-holders on the 31st December 1839, whose policies may not be renewed on the 1st January 1840, be paid to them, subject to a deduction of twenty-five per cent to be carried to the premium fund.

7th. That, from the 1st January 1840, the accounts of the Society be kept in Company's rupees, and that instead of shares assurances be taken in even hundreds of rupees not under Company's rupees 500, nor above Company's rupees 60,000, except in the case of existing policy-holders on the 31st December 1839, with whom it shall be optional to have in value an equivalent in company's rupees, to the nearest hundred of the insurance in Sicca rupees, or to change the number of sicca rupees insured into the same number of Company's rupees—as thus each share of Sicca rupees 6,000 may be transferred to Company's rupees 6,000 or Company's rupees 6,400, a half share may be transferred to the Company's rupees, 3,000 or Company's rupees 3,200, and a quarter share to Company's rupees 1,500 or Company's rupees 1,600.

Accounts of the Society to be kept in Company's Rupees, and Assurances to be in Company's Rupees in even hundreds, instead of shares, not less than Rs. 500 nor more than Rs. 60,000, except in the case of existing subscribers.

Full amount assured payable on proof of lapse being furnished, together with amount at credit of the lapsed life in the Guarantee Fund subject to claims of the Society.

8th. That from the 1st day of January 1840, the whole amount assured be paid on due and satisfactory proof being furnished to the Directors of lapse; and on their being satisfied that nothing has at any time occurred to vitiate the policy, the amount at the credit of the lapsed life in the guarantee fund being paid at the same time; the whole, however, subject to arrears of subscriptions, or to any other sums, due to the Society.

All lapses payable out of the premium fund until exhausted, in which case the Guarantee Fund to be made available for such purpose.

9th. All lapses will be paid out of the premium fund until exhausted; in which event, but not otherwise, the guarantee fund will be available to make good all payments for which the Society is responsible: and in the event of the guarantee fund being at any time thus trenched upon, the amount withdrawn shall be made good at the commencement of the succeeding half year, out of the current premium, so that every surviving Subscriber at the time of the repayment to the guarantee fund, shall have his full amount made up to him as it stood at the time the fund was drawn upon; and in case of lapse after the guarantee fund shall have been so trenched upon, and before the payment of the next half year's premiums, the full amount to the credit of the lapsed shall be paid, notwithstanding the temporary reduction in the total amount of the guarantee fund.

Parties with drawing or reducing their Insurance to be paid their portion of the Guarantee Fund less 25 per cent.

10th. In the event of any party withdrawing from the Society, whether insured for a term of years or for life, the amount to his credit in the guarantee fund shall be paid to him, subject to a deduction of twenty-five per cent. to be carried to the premium fund; and in the event of a party reducing the amount of his assurance, he shall be entitled to receive, subject to the like deduction, a sum proportionate to the amount reduced; provided that in no case shall any such payment be made on a reduction of risk so as to reduce the amount at credit of the guarantee fund below ten per cent. on the reduced and continuing risk.

Rates of premium.

11th. That the following be the rates of premium on and after the last day of January 1840; with the exception that Military lives assured on the 31st December 1839, and continuing on the 1st January 1840; to be charged only as Civil lives, subject, however, to the Military charge in the event of future increase of assurance.

CALCUTTA,
November 21st, 1839.

NEW ORIENTAL LIFE INSURANCE COMPANY.

Adverting to the inconvenience felt by a large class of those persons in this country for whose benefit Life Insurance is effected, from the uncertain amount of dividend, and commonly protracted terms of payment, inseparable from the nature of the Institutions for that purpose then existing, it was, in 1822, resolved to establish a joint stock company, to grant Policies for approved Lives, and, in cases of lapse to pay the sum as agreed after proof; and which company continued to carry on business until March, 1834, when a new association was formed on a more liberal and extensive basis, under the denomination of the NEW ORIENTAL LIFE INSURANCE COMPANY, offering at once the utmost security to the public, and superior advantages to the insured.

Persons intending to effect an Insurance on their lives in the NEW ORIENTAL LIFE INSURANCE COMPANY, will attend to the following rules.

1.—The person on whose Life the Insurance is desired to be effected must wait on his usual medical attendant, in the Queen's or Company's Service, with a request to draw up a report on the state of his health, in which every particular is to be stated, that may guide the Medical Examiner of the insurance company in judging of the nature of the proposed risk. Medical reports on the health of applicants are not liable to be perused by any one but the Medical Examiner and the committee.

2.—In case the party has not had occasion to be attended in a professional capacity by any medical man at the station where he resides, it will be advisable for him to apply to the most eminent Surgeon or Physician within reach—The report of a gentleman of known ability must always be more satisfactory than that of a person to whose name and qualifications the Medical Examiner is a stranger.

3.—In the statement given to the medical officer, and in the affidavit, great care must be taken that no omission is made; as negligence in this respect may eventually render the Policy void, in pursuance of one of the clauses which is to that effect.

4.—The affidavit of which the form is annexed, must be taken before the Secretary or before a Magistrate, or where there is no Magistrate, before the Commanding Officer of the station, as soon as possible after the party has

appeared before the Medical Officer for examination, whether the medical report, be at the time actually drawn out or not.

5.—If a Policy be granted, the ordinary Premium required by the Insurers may be increased according to opinion formed relative to the life on which the risk is proposed to be taken. But whether the risk be altogether declined, or a higher rate of premium than usual be required, the committee and Medical Examiner as well as the Agents, are prohibited from offering any explanation, or entering into any correspondence on the subject.

6.—The declaration of the Medical Reporter, and the affidavit—which are herewith annexed—must, when duly attested, be forwarded along with the Medical Report, as speedily as possible to the Secretary at Calcutta.

The following are the general terms on which Insurances are effected by the Company.

The Agent of the Company is authorized to receive applications for Insurances on Lives, for any age from 16 to 80, and for any amount, from One to Fifty Thousand Rupees, in even sums of Hundred Rupees; the sum insured to be payable three months' after proof of lapse.

Premiums are payable half yearly in advance.

In the event of a lapse occurring during the first six months covered by the Policy, the Premium for the succeeding six months deducted from the amount insured, it being understood that a year shall in all cases be paid.

Insurance in the case of absentees will be computed from the date of the certificate of health, unless otherwise required. Persons insured may assign their Policies.

Where an Insurance has been effected in the seven years' class, the insured may have a new policy for the same amount and for the like term, or for life, at the rate, and upon the terms, on which the Society may be at the time granting policies, without a fresh certificate of health, on application to that effect and surrender of the original policy at the end of six years from its date, or twelve months before the period at which it would finally expire.

Risks may be at any time reduced, but no return of premium will in any case be allowed.

Before any dividend can be made amongst the members of the New Oriental Life Insurance Company, a capital must have accumulated and be invested equal to the average amount of one and a half year's losses, reckoned on the amount of the continuing outstanding risks.

Three-fourths of the profits are divided among the shareholders according to their respective shares, and one-fourth among such policy holders as are likewise members of the office, in the proportion of the premium paid by them during the period to which such dividend may refer.

Copies of the deed may be had on application to the agent Mr. W. F. Fergusson, where a list of the proprietors may be inspected.

Mr. Fergusson will be happy to undertake the management of the details for effecting Insurance, and for the sale and purchase of shares in this Society, free of all charge, provided he is kept in funds to meet subscriptions as they become due.

No Medical fees required, and a Commission is allowed of five per cent. on the amount of all premiums paid on any policy.

UNIVERSAL ASSURANCE SOCIETY FOR LIVES, &c. &c. &c.

ESTABLISHED IN LONDON AND CALCUTTA, 1834.

Empowered by special act of Parliament.

CAPITAL £500,000 in 5,000 Shares of £100 each.

The Directors of this Society have caused investigation to be made with great care into the existing Institutions for Life Assurance, &c. &c., and they trust they have been fortunate in selecting from each what, as a whole, will place their Establishment on the most judicious and satisfactory footing, both to the Proprietors and the Assured. They request particular attention to the rates, which, being founded on the most accurate observations of the duration of human life, are as moderate as is consistent with perfect security.

The plan of this Society is to transact all its business on such terms as to leave in all human probability, a small, but certain, excess of profit on the general result of its transactions. A small portion of that profit is set apart as a compensation to the Proprietors who have advanced the capital necessary for defraying the unavoidable expense of the Institution, and who have pledged the subscribed amount of their capital, in order to afford that responsibility which relieves the assured from any contingency of loss to which they might be liable without the intervention of such a guarantee.

ADVANTAGES OFFERED BY THIS SOCIETY.

1. The profits are declared in each year on the second Wednesday in May, from which date all persons who may have assured for the whole term of life on the particular scale, and on whose Policies six complete annual, or twelve complete half-yearly original premiums have been paid, are entitled to participate in the profits of succeeding years in either of the modes provided by the Deed of Settlement, viz. by a reduction of the annual or half-yearly premiums as they fall due, or by an equivalent addition to the sum assured by way of a bonus. Each assurer on his first becoming entitled to participate in the profits has the option of selecting either of the foregoing methods, and three months from the date of declaration of the profits is allowed for his making that selection, which, however, when once determined on, cannot be altered in after years.

2. The practice of an annual division, as observed by Mr. Babbage, "distributes the profits with more regularity and justice than any other," and is especially advantageous to persons of advanced years who cannot hope to participate in many septennial or decennial divisions, as practised by several other offices.

3. One-fifth of the ascertained profits is divided between the Policy-holders, and Share-holders—three-fourths to the former, and one-fourth to the latter—The remaining four-fifths are set apart to enter into the average to be struck on the next succeeding year.

4. The following table will shew the operation of the reduction allowed by the division of profits for 1848, which is equivalent to 42½ per cent. on the current annual premium of all Policies entitled to participation.

Age when Policy was issued.	Date of Policy previous to the 2d Wednesday	Sum Assured.	Original Premium.	Reduction.	Annual Premium payable after deduction.
20	May, 1842.	Co.'s Rs. 10,000	Co.'s Rs. 42	Rs. 178 0	Rs. 241 8
30	"	" 10,000	" 48	" 204 0	" 276 0
40	"	" 10,000	" 59	" 250 12	" 289 4
50	"	" 10,000	" 710	" 314 8	" 425 8
60	"	" 10,000	" 1,03	" 437 12	" 592 4

5. From the foregoing explanations it will be seen, that the benefits arising from a participation in the profits are actually experienced (when a reduction of the premium is selected) at the periods when the seventh annual, or thirteenth and fourteenth half yearly premiums fall due. In the case however of a Bonus to the sum assured being selected, an equivalent sum will be added to the Policy for the current year, being such an amount as the reduction in the premium would purchase as a single payment.

6. Separate tables for assurances without participation in profits both Civil and Military, have been adopted for the whole of life at reduced rates for such persons as may prefer a lower rate of premium to participation in the general profits.

7. The Society makes a natural distinction between persons exposed to the hazards of Military and Maritime occupations, and those whose occupations are of a Civil nature; but members of the Military Service holding offices purely Civil, and subject to no extra risk, will be charged the Civil rate of premium only, while engaged in duties purely Civil. It will be in the discretion of the Directors in each particular instance to say whether the higher or the lower rate of premium shall be chargeable, and that discretion will be regulated by the particular circumstances of the case.

8. When application is made for assuring a life subject to more than ordinary hazard, an augmented premium will be charged proportionate to the increased risk, the rate of which will be regulated by the strictest attention to justice between the Society and the Assured, according to circumstances.

9. Premiums are *ordinarily payable half yearly in advance*; but policy-holders are at liberty to make arrangements with the Society to pay their premiums *in one amount*, in annual or quarterly payments, or for a given number of years, viz. 5, 10, 15, or 20. Some persons may wish to avail themselves of a present season of prosperity and adopt the latter course, in which case (although their contributions will cease with the expiration of the term they may fix upon) their share of the profits will continue to be added to their policies annually during the remainder of life.

10. The Parent Institution being in London, with a similar Establishment in Calcutta for granting policies, premiums, as well as claims, are payable in either country, at the option of the Policy-holder. The appointment of Sub-Committees at Madras and Bombay with power to grant Policies, affords similar facilities to persons residing at either of the sister Presidencies.

11. All policies becoming claims on the Society will be discharged within three months after satisfactory proof of the death, and cause of death, of the assured, shall have been furnished to the Directors either in London or Calcutta.

12. The Directors of the Indian Branch of the Society are empowered to treat for the purchase of Policies for the whole term of life on which Premium shall have been paid for a period of not less than five years, or to advance, if required, on such policies, by way of loan, two-thirds of the estimated value.

13. The accounts of this Society, after being investigated by Auditors, chosen as well by the Assured as by the Proprietors, are laid before General Meetings convened twice a year for that purpose:—In like manner the accounts of the Parent Society are regularly transmitted to India for inspection, the Indian Branch enjoying reciprocal advantages with the Parent Society.

14. Where the application for assurance makes no mention of the date from which the assurance is desired to take effect, the policy will be issued on the date of approval of the risk by the Directors, but no assurance to be binding on the Society until the first premium shall have been actually paid to the Agents.

15. Every proposal for assurance will be immediately attended to, and the assurance completed generally within a few days after the application is made.

16. All applications for assurance must be accompanied by a Medical Fee of Eight Rupees.

17. The Tables, Blank Forms, and other particulars, requisite to enable persons to effect assurances, may be had on application to the Agents.

By order of the Directors,

BRADDON AND CO.

Agents and Secretaries.

October, 1848.

Instructions to Persons desirous of effecting an Assurance on their Lives in the Universal Assurance Society.

1.—The person on whose Life the Assurance is to be effected, must wait on his usual Medical Attendant with the accompanying letters, and transmit the same to the Directors of the society agreeably to the instructions given.

2.—In case of the absence of the usual Medical Attendant, and the certifying Surgeon cannot of his own knowledge answer the queries put to him as to the general habits of the person applying for assurance, such other certificate or certificates may be furnished as may be presumed calculated to satisfy the Directors.

3.—The report of the Surgeon will be considered as strictly confidential; the Official Medical Adviser of the society will alone be consulted when the advisableness of any risk admits of doubt.

4.—An Affidavit, of which the form is annexed, must be taken before a MAGISTRATE, or, where there is no Magistrate, before the PRINCIPAL CIVIL or MILITARY OFFICERS OF THE STATION, or a solemn declaration according to the same form must be made before either of the DIRECTORS or the AGENTS OF THE SOCIETY IN CALCUTTA, MADRAS OR BOMBAY, as soon as possible after the party has appeared before the Surgeon for examination.

5.—Applicants being conscious of any of the diseases enumerated in the Declaration and Affidavit, may note the same, that the Directors may consider whether an additional premium will cover the additional risk.

6.—Should the Directors agree to take a risk more or less objectionable, a rate of premium higher than ordinary will be stipulated for accordingly, to which the Applicant may of course assent or not, as he may judge expedient. But whether a risk be altogether declined, or a rate of premium higher than the ordinary be proposed, the officers of the society are prohibited from offering any explanations on the subject.

7.—These instructions, with the declaration of the Medical Reporter, and the Affidavit or declaration hereunto annexed, must when duly attested, be forwarded along with the report, without any necessary delay, to the Directors of the society.

BRADDON AND CO.

Agents and Secretaries.

N. B.—Persons residing in or near Calcutta are also required to appear before the Medical Officer of the society, Dr. John Jackson.

CONDITIONS.

1.—The payment of Premiums must be made within twenty-eight days after the day they shall become due, or the Policy will be void; but, upon proof being given to the satisfaction of the Managing Committee of Directors, that the party whose Life has been assured continues in good health, the Policy may be revived at any period within three months, on payment of a fine of one-half per cent. on the sum assured, or at any period within six months, on the payment of such fine as the Directors may think reasonable.

2.—Assurances shall be void if the parties whose lives have been assured shall without having obtained the previous written consent of the Managing Committee or Directors for the time being, go to any of the excepted places enumerated below, or enter into, or engage in any Military, Maritime or other hazardous service or employment whatever, other than their declared regular professional duties or services, but no additional premium will be demanded from any assurer proceeding on public duty in obedience to the orders of his superiors to any of the excepted places.

3.—If the assured shall die by duelling, by their own hands, or by the hands of justice, the Policy shall become void so far as respects such persons; but, in such cases, the Managing Committee or Directors are empowered to allow to the representatives of the person so dying, any part of the sum assured as they shall think fit; the Assurance, however, shall remain in force so far as any other person or persons shall have acquired a bona-fide interest therein, by assignment or by legal or equitable lien; the extent of such interest to be proved to the satisfaction of the Directors.

4.—Assurances made by persons on their own lives who shall die by their own hands, or by the hands of justice, shall become void so far as respects such persons; the assurance, however, shall remain in force so far as any other person or persons shall have acquired a *bonâ fide* interest therein by assignment, or by legal or equitable lien, provided that the Policy shall have been in existence for the space of twelve months at the least prior to the death by any of the means herein enumerated, the extent of such interest to be proved to the satisfaction of the Directors. Assurances, however, made by parties on the lives of other are not to be affected by this Rule.

5.—Where the application for Assurance makes no mention of the date from which the Assurance is desired to take effect, the Policy will be issued as of the date of approval of the risk by the Directors. No assurance to be binding on the Society until and unless the first premium shall have been actually paid to the Agents.

6.—In case of lapse of life within the first six months of any year of the time covered by the Policy, the Premium for the following six months, if not already paid, will be deducted from the sum assured, it being agreed that Premium for the whole of every year shall in all cases be paid.

7.—Claimants must make proof of the decease of the person on whose life the Policy is effected, and give such other information respecting the same (particularly as to the disease or other occasion of death,) as the Directors may reasonably require.

CHURCH OF ENGLAND ASSURANCE INSTITUTION.

CAPITAL £1,000,000—divide into 20,000 Shares of £50 each.

This Institution has been for some time well established at home, and has met with decided and powerful support from the dignitaries of the Church, in consequence of the appropriation of one tenth of the entire profits to the relief of distressed and aged Clergymen and their families. Under these circumstances, the Directors of the Institution in England, according to the provisions of Deed of Settlement, having determined upon establishing a branch in Calcutta, and of throwing open to the Indian community the advantage accruing from this Institution, have placed a certain number of Shares upon the Bengal registry of the Institution. The business of the Institution in

Bengal will be confined to the granting of Policies of Assurance, and the sale of Deferred Annuities, so that parties by the payment annually of a moderate sum proportioned to their respective ages, may make an adequate provision, not only for themselves during the later years of their own lives, but also for their families in the event of death.

The security of Policy-holders, and those who may purchase Annuities, is rendered complete, as this is a mere branch of an Institution, well and permanently established in London; and those who may become connected with the Institution in Calcutta, have the same security as those who join it in London, whilst for their immediate protection and advantage, an adequate fund will be invested in Indian securities, so as to be always immediately available to provide for whatever casualties may arise.

The convenience of the public has been especially provided for by the variety of tables which have been computed, and by the adaptation of such tables to suit the objects and circumstances of different parties; and the Company's arrangements are such, that the sum assured may be received either in England or in India, as may be the more convenient. The Premium may be paid either annually, half yearly, or quarterly; and Policies, which have become forfeited by non-payment of the premiums, may be renewed within twelve months upon proof of a good state of health, and the payment of the premiums in arrear, with interest thereon, but without the exaction of any fine. The age will be admitted in all cases where satisfactory evidence is furnished in regard to it, previously to the Assurance being completed.

To the creditor assuring the life of his debtor, this Institution holds out peculiar and equitable advantages, for Policies, assigned *bonâ fide*, as a security to others, will be paid to the Assignee, in the event of the death of the debtor, by suicide, duelling, or the hands of Justice. Claims will be payable within three months after satisfactory proof of death.

5. The government agents are charged with the immediate superintendence and execution of all details connected with the bank. They will also be ex-officio members of the committee of management. The third government agent will be ex-officio secretary to the bank.

6. A register of deposits will be kept, and generally such other accounts as may be determined on, and approved of, by the managing committee.

7. Any sum not less than one rupee will be received in deposit.

8. 9. Interest at 4 per cent. per annum will be allowed on deposits until further notice.

10. 14. No sum deposited to be transferrable, excepting on the personal application of the depositor, supported by written sanction. When peculiar circumstances render a deviation from this rule necessary, the case shall be submitted to the committee of management for their sanction.

THE END.

THE BENGAL HURKARU,

A DAILY NEWSPAPER,

PRINTED ON AN EXTRA LARGE IMPERIAL SHEET;

WITH WHICH IS INCORPORATED

THE INDIA GAZETTE AND BENGAL CHRONICLE;

ALSO

THE BENGAL HERALD & CALCUTTA LITERARY GAZETTE.

THE BENGAL HURKARU, the senior journal of India, was established, as a *Weekly Newspaper*, in January, 1795. It was originally printed on small folio sheets, and published every Tuesday morning, with supplements as occasion required, during the week: subsequently, the day of its publication was changed to Saturday, and eventually it became a *daily Paper*.

The first number of the daily Hurkaru (being likewise the *first DAILY Paper* ever published in India) appeared on the 29th April, 1819, printed on a single quarto sheet, which was then judged the utmost that could be got up daily at an Indian Press. Very soon, however, a second sheet was considered necessary and means were found to publish it; and on the 1st July, 1821, a third sheet was added, and the *material* upon which it was printed changed from Bengal medium to good European royal paper—the first ever used for an Indian Newspaper. Quarto, and even small folio, sheets, having, however, been found, by experience, unsuited to the purposes of a *daily paper*, on the 1st February, 1824, it was printed on a royal folio sheet, and so continued until 1st January, 1834, when it assumed its present *imperial* size.

The interests and resources of several Calcutta journals have, from time to time, merged in the BENGAL HURKARU, and it received an important accession on the 1st October, 1834, when the then oldest Newspaper in India, (*The India Gazette*) with all its stock, was united to the Hurkaru Press: on the 1st January, 1844, the *Bengal Herald* and *Calcutta Literary Gazette* were added as a Weekly Supplementary (7th) Sheet—thus rendering the *Bengal Hurkaru*, the largest and most comprehensive Newspaper, ever yet published in India.

The BENGAL HURKARU is *delivered*, free of expense, every morning, by the peons of the establishment, throughout Calcutta and its environs, including Russapugla, Garden Reach, Seebpore, Howrah, Sulkea, Cossipore, Dum-Dum, Barrackpore, Serampore, Chandernagore, Clinsurah, and Hooghly. A second edition is despatched by Dawk every evening, bearing postage.

The weight allowed for Newspapers is 3½ sicca weight each cover, upon which postage is levied at two rates—two annas to stations within 400 miles, and three annas to stations exceeding that distance.

" SUBSCRIPTIONS" AND " ORDERS."

The Publishers beg to draw attention to the distinction between *permanent Subscribers* to their periodical works, who direct their transmission, until countermanded, and *Subscriptions*, or *Orders*, which do not give such directions, and are therefore considered by the publishers to apply only to a particular volume or to the year in which the order is received.

The Publishers are aware, that when an order is sent to them to put the writer's name down for "a copy of the Directory," or as "a Subscriber to the Directory," it is often expected that the work will be sent to them regularly, but having frequently caused to Subscribers and suffered themselves, much inconvenience and loss by so construing doubtful orders, the Publishers have thought it right to explain and solicit attention to the distinction between *permanent Subscribers* and *Orders* or *Subscriptions* for the current year only.

This explanation, the Publishers trust, will be acceptable to all their supporters, but particularly so to Gentlemen in the Mofussil who, considering themselves *permanent Subscribers*, though the publishers have no authority or so registering them, have omitted to forward any order for the work, until the whole of the copies had been sold. To prevent the frequent recurrence of this misunderstanding, the Publishers affix a List of *Permanent Subscribers* to every Edition of their Directory, and they solicit Gentlemen whose names are not included in this List, but who may wish to receive the work *regularly as soon as published*, to favour them with directions to that effect, specifying whether they require the 2d and 3d Editions, or only the Annual one.

N. B. Mofussil orders cannot be attended to from Gentlemen who have not good accounts open with the Publishers, unless a reference for payment be also remitted with the order.

 Orders from *non-Subscribers* to be addressed to their own Book-sellers, or Agents if convenient; otherwise to the Publishers in CALCUTTA: or to their agents at the undermentioned places:—

DINAPORE, Messrs. Francis Smyth and Sons.

MADRAS, Messrs. Binny and Co.

BOMBAY, Messrs. Ritchie, Stewart & Co.

LONDON, Messrs. G. W. Wheatley, and Co. No. 156 Leadenhall Street.

* * * To prevent mistakes, it is respectfully intimated that accounts cannot be opened for the above publications CASH, or a reference for payment is requested from parties who have not accounts open with the Hurkaru Press.

ORDER OF BUSINESS.

Mondays and Thursdays are devoted to motions of all kinds, both in Law and Equity. If these should not occupy the day, Common Law arguments, on demurrers, special cases, &c., and Equity cases, on argument of pleas, demurrers and exceptions and caveats, may be taken.

On the other days, motions of course and those at Law, where the progress of a cause may be delayed, may be taken—then Common Law, Equity and Ecclesiastical causes, in their order in the respective papers of causes, those which are called on and not fully heard on *Wednesday*, to be taken on the Thursday, notwithstanding the above rule.

During the Sittings after term, all such motions as can be heard out of term, are taken on Monday and Thursday, but not on other days if the Court is sitting for the trial of causes. If the Court is sitting for hearing other causes, all Motions may be taken at the sitting of the Court, and before causes are called on.—After these are gone through, the Common Law Board is called on, while any causes remain on it, then the Equity Board, and then the Ecclesiastical.

In vacation a Judge sits in Chambers, every Tuesday and Friday, at eleven o'clock, but Counsel do not appear on contested motions until twelve.

Arrangements under which the business of the Police Office is conducted.

1st. The entire executive Police is under the special orders of the Superintendent of Police, who acts under the general control of the Chief Magistrate.

2d. Two Magistrates have special authority in Divisions of the Town as undermentioned :

F. W. BIRCH, Esq. Cossipore, 1st or North Division.

JAMES HUME, Esq. Magistrate ; Kyd Street, 2d or South Division.

3d. In consequence of the late changes made by the Government in the Magistracy of the Town of Calcutta, the town has been divided into two Magisterial Divisions, and that the following line of roads, from the Circular Road to the Strand, has been laid down as the demarcation of the extent of the jurisdiction of the two Calcutta Magistrates.

Boitackannah, Bow Bazar, Loll Bazar Roads to Tank Square North down Clive Street, in a Northerly direction till Fairlie Place, down Old Fort Ghaut Street to the banks of the Hooghly.

4th. The Senior Magistrate **F. W. Birch**, Esq. has special authority in the portion of the Town, lying North of the above line of roads, and **James Hume**, Esq. in the southern portion, including those throughfares themselves. Parties complaining of felonies, assaults, misdemeanors, &c. will prefer their charges before the Magistrate in whose jurisdiction they reside.

5th. The Chief Magistrate will as heretofore take cognizance of all offences occurring on the River and reserve to himself the option of adjudicating cases of importance wherever they may occur within the limits of the Town.

6th. Where Felonies and other serious offences have been committed and the offenders not apprehended, information should be lodged with the Superintendent of the Police, - or at the nearest Station in Section House.

7th. Police Office hours are from 11 o'clock A. M. to 5 P. M. or till business is finished.

8th. The Lock up Houses and Jails are specially under the orders of the Chief Magistrate, and the Fire Engines under the Superintendence and general control of the Chief Magistrate; but the Magistrates generally will, of course, lend their hearty aid in cases of serious fire, and in visiting the Jails, for the purpose of bringing forward improvements or new regulations.

9th. The regulation of religious and other processions will be administered by the Supdt. of Police, under the direction of the Chief Magistrate.

10th. All Correspondence on general points affecting the Police, or the Police Buildings, or the Establishments, will pass through the office of the Chief Magistrate.

11th. All Complaints against Police Officers are to be preferred before the Superintendent, in the first instance. Those requiring to be judicially dealt with are only cognizable by the Chief Magistrate.

THE QUARTER SESSIONS OF THE PEACE.

These Sessions are composed of the Chief and other Magistrates, who assemble at the Police House for the purpose of hearing Appeals against the existing rates of House Assessment. They generally open about the 10th day of May, August, November and February, when appeals are received at the office by the Clerk, in accordance with a public notification issued at the time.

LOAN RULES.

1. Loans, repayable within twelve months, are granted to officers, civil or military, who can arrange for the regular payment of their stipulated monthly instalments, at Agra, on the security of two approved sureties.

2. Under the same condition, and to the same classes. Loans requiring two years for repayment are granted with three sureties; and loans requiring three years with four sureties.

3. In the last two cases, where it may not be convenient to give more than two sureties, the loan must be further protected by a life insurance: but on application to that effect through the sureties, they consenting to the same, the directors will be prepared to allow the discontinuance of the policy on a loan of the two year class, after the expiration of the first year and on a loan of the three year class after two years have expired. But where the borrower is on foreign or field service, the loan must always be covered by a life insurance.

4. To avoid the inconvenience and delay attendant upon the execution by principal and sureties of the various loan papers, the Secretary is authorised in cases where moderate amounts for short periods are desired for immediate purposes, to advance the same on promissory notes at 3 months date with one approved endorsement. The Secretary will furnish all other particulars necessary.

5. When a debtor dies, the balance (after discharging his own debt in full) of any policy of assurance upon his life will, at the discretion of the directors, be detained as security for the repayment of the balance of any account for which he may be responsible as a surety.

6. Where parties may find difficulty in effecting their remittances to Agra drafts on Calcutta or elsewhere, will be received in repayment of loans at the exchange of the day.

7. The mortgage of real property in the hill stations and larger military cantonments will be taken in place of life assurance, provided that the property be officially registered in the station books as belonging to the Bank, and that the amount advanced thereon be regulated by previous official report as to its true value.

8. In all cases of insurance, taken out by or through the Bank unless the debtor himself desire that the policy should be maintained at its original amount, it is reduced half-yearly according to the gradual liquidation of the debt.

9. Regimental loans repayable in five years are granted at 8 per cent. to corps to facilitate the establishment and maintenance of messes, bands, libraries, and other regimental purposes. The Secretary will be glad to frame scales for shares for regiments requiring advances.

10. Loans are granted on the security of government paper, on the stock of the Calcutta, Madras, Bombay, Delhi, and N. W. Banks, and on the shares of other approved joint stock concerns, where the parties borrowing give to the Bank a power to sell the notes or shares forming such security, if, on one month's notice of intention to close the account, the loan—which will, in the first instance, be for three months, and thereafter renewable for a similar term or terms—shall not then be repaid in full.

11. Parties desirous of taking advances in Bombay, Madras, or Calcutta may arrange for the same at Agra; the interest chargeable thereon will be at the rates, if lower, prevailing in those places respectively.

12. Interest on loans is charged from the date on which the amount wholly or in part is placed as a floating balance at the disposal of the borrower, according to notice given, and is allowed, at the same rate, upon all remittances from the date of their realization.

13. When loans are not liquidated within the period agreed upon a penal interest of two per cent. per annum additional is chargeable upon the balance overdue.

14. It is a condition of every loan that the party borrowing shall be subject to the general rules of the Bank, in respect of such transactions.

15. Constituents of the service, when writing to the Bank, are requested to add their rank or official designation to obviate the delay of reference; and with the same view applicants for loans are also requested, in naming their sureties, to furnish a similar detail regarding them, reporting also their residence at the time, in order that the loan papers may be forwarded to them direct, if they have previously consented to stand as such.

16. All Loan accounts with the Bank are brought up periodically to the 30th of June and 31st of December, and interest thereon is credited or debited to those dates half yearly.

17. When parties already indebted to the Bank require further accommodation, the balance due on the former account must be deducted from the new loan: as a general rule two accounts with different sureties and different terms of payment cannot be kept open at the same time.

18. The directors give a preference to applications for loans repayable within a short date.

19. The Bank render accounts once in the half year, when called for.

20. No letters *bearing postage* will be received by the Bank, except from pay masters, deputy pay masters, or other public authorities or from places where no postage can be levied. At the close of each half year, and in closing each ~~loan~~ account, a charge of 8 annas for incidental expenses is made.

N. B.—Parties at and below Dinapore may transmit their applications to Agra, or at their option, to Calcutta, to the address of F. R. Neilson, Esq., Agent of the Bank.

NORTH WESTERN BANK OF INDIA.

Meerut.—(Branch at Calcutta.)

CAPITAL 40 LACS OF RUPEES.

Reserved Fund, 2,55,000

Established Originally as the Mussourie Bank on 1st February, 1841.

The Mussourie Bank was established at Mussourie by Captain Frederick Angelo, P. Salaroli, Esq., and John Rose Troup, Esq., with a capital of one Lac of Rupees.

In 1842, eight additional shareholders were taken into the association, and the business of the Bank was managed by Capt. Frederick Angelo, secretary, the objects of the undertaking being confined to the Improvement of the Settlement, and assisting the residents in it.

On 1st January 1844, the capital of the Bank was increased to 5 Lacs of Rupees, a Deed of Co-partnership on the plan and conditions of that of the Agra Bank was agreed upon, and the shares having been fixed at a valuation of 500 each, were sold to the public at par, and this was considered the Establishment of the Company as a joint Stock Bank.

The business having been more generally extended, and continuing to increase rapidly, it was found requisite on 1st July, 1844, to increase the capital to 10 Lacs, and the location of Mussourie having been found inconvenient for the increased business of the Bank, it was decided on 26th October, 1844, that it should be removed to Meerut, under the denomination of the NORTH WESTERN BANK OF INDIA, leaving a branch at Mussourie.

On 1st January 1845, it was again found necessary to increase the capital to 10 Lacs, making the paid-up capital amount to 20 Lacs of Rupees.

On 1st January 1846, it having been resolved to establish Agents in Calcutta, Bombay, and London, a further increase of 10 Lacs was determined on, making the paid-up capital 30 Lacs, which has been further increased to 40 Lacs.

The Central Committee holds a Meeting on the last Tuesday of every Month at 9 o'clock A. M. in the Town Hall.

* * All petitions are requested to be referred to the Secretary's Office, No. 11, Free School Street, Chowringhee.

Constitution of the Society.—The Society consists of a Central Committee of supervision and control—of several District Committees—of a Native Committee for the Relief of the Native Poor of Calcutta, and an Asylum for the reception of Lepers.

Its Funds.—The Fund consists of a monthly Donation of Rupees 1,200 from the Supreme Government; of voluntary contributions from benevolent individuals, and the surplus of congregational collections in the Districts above the sum necessary for the relief of the poor resident in those Districts severally, whenever such surplus may be found to exist. Besides two permanent endowments to this society consisting of the interest on the "Lady William Bentinck Fund," and that on the "Dwarkanauth Fund for poor Blind," being no less a sum than a Lakh of Rupees, vested in such a way as to yield a monthly interest of Rupees 500, bestowed on the Poor Blind of Calcutta by Baboo Dwarkanauth Tagore's munificent liberality.

The Central Committee.—The Central Committee is constituted of the Bishop—the Members of Council,—Judges of the Supreme Court,—The Members of the Select Vestry, and District Committees, and all Subscribers to the amount of Rupees 100 annually.

Its Functions.—The Functions of the Central Committee are to apportion the Funds, appropriating a surplus which may rise in one District to the supply of a deficiency which may exist in another—to discuss and settle all general principles, which may effect the operations of the District Committees either as to mode of investigation, class of persons to be relieved, or other general subjects, and also to relieve peculiar cases, which from their residing without the limits of any organized District, or involving some points unconnected with the localities of their residence, can more appropriately be decided on in a General Committee.

Alms House and Leper Asylums.—These Institutions are supported from the Funds of the District Charitable Society, and are established in Amherst Street, under the medical superintendence of Dr. R. Stuart. These objects of commiseration are comfortably housed, and allowed ample rations of suitable and wholesome provisions, clothing and bedding, and every attention is paid to their comforts. The different castes are lodged separately, and they can go out whenever they may have occasion by requesting permission of their respective superintendents, and may do anything they please for their own amusement. Notwithstanding all these advantages, it is to be regretted, that but a limited.

number of these unfortunate creatures have yet been induced to avail themselves of the asylum, though every means short of coercion have been exerted by the Central and District Committee of the Charitable Society, to divest them of their false and mistaken prejudices against the Asylum and Alma House, but the greater number still prefer begging in the streets. We allude particularly to those loathsome objects infesting the bazars and the public thoroughfares, commiseration for them must be lessened by the assurance that there is an Asylum provided for them, where all their reasonable wants are supplied, and therefore they need not seek casual relief for subsistence.

Address to the Public.—To give effect to this system it is earnestly requested that individuals will not subscribe indiscriminately to petitions which may be presented to them. Should the real circumstances of the petitioners be unknown to the persons, to whom they apply for relief, a reference to the Central Committee or District Committees of the part of the town which the applicants inhabit, will ensure the fullest investigation and most prompt relief if it be found necessary. A strict adherence to this line of conduct is the most effectual remedy for the numerous frauds now practised on the Public.

ST. PAUL'S CATHEDRAL DISTRICT.

Committee.—The Members of the Vestry. —The Bishop of Calcutta, the Archdeacon of Calcutta, Rev. H. J. Fisher, Senior Presidency Chaplain; Rev. T. Wood, Junior Chaplain of St. Paul's; Rev. J. H. C. F. School Regulations R. 114 page 27.

"The benefits of the institution are sometimes extended to such children as have friends who wish to place them in the School, and, to avoid burdening the institution, agree to pay a sufficient sum to cover their expenses. It is understood that the Guardians of these children retain their natural right of removal and other control over them so as not to interfere with the general discipline of the School; but in all other respects there is no distinction between them and the rest of the children. By a sum sufficient to cover the expenses, is to be understood a sum not less than ten rupees a month, or a donation which may be considered equivalent, with reference to the age of the child, and its claim on the charity. The Governors however have a discretionary power as to the demand of a monthly sum to be paid for such children, which is in no case to exceed ten rupees."

No children to be admitted without a guarantee satisfactory to the governors that the monthly payment will be punctually defrayed.

All applications for having children admitted and apprenticed, are to be made to the Governors, through the Secretary.
