TUCKER & SON'S

IMPROVED

INDIAN LAMPS

MANUFACTORY

190. STRAND. LONDON

T & SON'S Improved Indian Lamps combine elegance and strength with every recent improvement that tends to simplify their construction and to enable Native servants to manage them and to reduce the liability of glasses being broken. They give a brilliant light with any of the *Best Oils* (such as Mustard Oil) and are thoroughly protected from insects, the draught of the *Punkah* and *Choopee* sun-blowers.

T & SON have two large show rooms (10 feet long) holding the variety in which is held a *PURKHA*, with *Choopee* in glass and just as used in India, in which the Agents in England commonly sell. In India residents will find a large stock of LAMPS ready for shipment marked in plain figures and at the lowest prices at which the *Choopee* Lamps can be made, but much lower than the exorbitant prices charged for inferior goods forced on the Indian Public under the pretence of being *Choopee* and *Punkah*.

T & SON make all the various kinds of Lamps used in India such as *Choopee* and *Punkah* lamps, Bracket Lamps and *Choopee* branches for the wall, *Billiard* and *Suspension* lamps of all kinds, either in *Bronze*, *Gold* or in *Plated* or *Crystal* Glass. *Hani* Lamps and *Furniture*, *Coverings* and *Buggy* Lamps &c.

REGIMENTAL MESS LAMPS

With one or two burners and packed up compactly in partitioned Travelling Cases.

Although the superiority and extreme portability of T & SON'S Improved Indian Lamps are well known to gentlemen who have resided in India they are requested to read the subsequent

TESTIMONIALS.

Calcutta 11th September 1856

Messrs Tucker & Son

Sirs—I have much pleasure in bearing testimony to the excellence of the Lamps supplied by you to me when in India last year. They give a brilliant light and are not affected by the *Punkah* and are in every way suited to the Indian climate. In short they are the best Lamps I have seen in the country.

(Signed) A ROSS Bengal Civil Service

Messrs Tucker

Madras June 11th 1857

The Lamps which I had of you answer well. The light is excellent, and with the *Punkah* top on the lamp, the flame is not affected by the air from the *Punkah*. I now wish you to continue &c.

(Signed) W MORHEAD

T & SON'S Lamps may be obtained of Messrs SMITH TAYLOR & Co Bombay Messrs FRACKER & Co Bombay and of many Dealers in India but orders can be sent through any of the East India Agents or direct to T & SON, accompanied with an order for payment.

The advantages which T & Son offer to the Indian Public are the result of a thoroughly practical knowledge of all the requirements of the Indian Trade, acquired during Forty Years' Experience as INDIAN LAMP MAKERS.

KEATING'S COUGH LOZENGES.

A SAFE AND CERTAIN REMEDY FOR COUGHS, Croup, Hoarseness, and other Affections of the Throat and Chest. In Inipient Consumption, Asthma, &c., they are unfailing. Being free from every hurtful ingredient, they may be taken by the most delicate female or the youngest child.

Extract from a letter recently received from New Zealand

Auckland, N.Z., Nov. 19, 1858

"* * * A lady to whom I gave some of your invaluable Cough Lozenges, and likewise several members of her family who were troubled with severe coughs and colds, (especially the youngest child, who had a bad Croupy cough,) have experienced great relief and speak of them in the highest terms. One of my children, too, who was troubled in like manner, has taken them with the greatest advantage. On account of their pleasant taste, children will readily take them when they will not take other medicines. I may add that the lady above referred to informed me that she had frequently purchased them, when residing in India, of Messrs. Trevellick & Co., Bombay."

Copy of a letter from the late Colonel HAWKER, (the well known Author on "Guns and Shooting")
Longsash House, near Whitechurch, Hants.

SIR,—I cannot resist informing you of the extraordinary effect I have experienced by taking only a few of your LOZENGES. I had a cough for several weeks that defied all that had been prescribed for me, and yet I got completely rid of it by taking about half a small box of your Lozenges, which I find are the only ones that relieve the cough without damaging the stomach or digestive organs.—I am, Sir, your humble servant,

FROM A CLERGYMAN AT DUNSTABLE

I am obliged to you for sending me the INSECT-SMOTHERING POWDER, and enclose 14 stamps for it. This morning, rubbed about a dessert-spoonful on a long haired spaniel, and it certainly had a most surprising effect on the fleas, killing them immediately, without in the least irritating the dog.

AND COMMERCIAL GAZETTE.

AS its name imports this Paper is a medium for the publication of ADVERTISEMENTS ONLY it is not a Newspaper. It is issued TWICE A WEEK on the mornings of MONDAY and THURSDAY, and TWO THOUSAND FOUR HUNDRED COPIES are circulated GRATIS weekly. In the Presidency Town of Bombay it is very freely distributed.

Should it be found to prove the number of Copies issued will be still further increased.

It is unnecessary to enlarge on the advantages which a Publication like the ADVERTISER offers to the Commercial and General Public of the Bombay Presidency. It may suffice briefly to suggest the following:—

- 1 Being exclusively devoted to Advertisements it is specially sought and consulted by those requiring the information which it supplies.
- 2 Having a guaranteed circulation nearly equal numerically to that of all the Daily Newspapers of Bombay which as many of these go into the same hands it will in effect have a much larger number of readers the ADVERTISER in itself forms a vehicle of communication the most desirable of any.
- 3 Being unaffected by the preferences and prejudices professional or personal which influence the distribution of a Newspaper the ADVERTISER addresses itself alike to all classes, and is equally distributed over all parts of the Presidency, in the Civil Station, the Military Cantonment, and the Commercial Town.
- 4 As the Scale of Charges is based upon that now adopted by the Daily Newspapers, to the other advantages offered by the ADVERTISER may be added that of embodying all those afforded by advertising in the other Papers, and at a greatly reduced cost.

TUCKER & SON'S REGISTERED INDIAN TENT LAMP

IS MADE EXPRESSLY FOR THE
GOVERNMENT SCHOOL OF INDUSTRY AT JUBBULPOOR,

And supplied with the Tents sold by that Institution

The Lamp, with all necessary, is packed up in a partition case for travelling, and with reference to the Lamp the Overseer (Mr J B Williams) remarks, in one of his letters, that "the great simplicity of their construction is their greatest charm and I have no doubt they will be generally used in bungalows throughout India, in place of the old and cumbersome wall shades. The Lamp burns any kind of vegetable oil, and gives the light of six candles at a cost of one rupee for about eighty hours.

For sketch and further particulars of this Lamp address Mr J B Williams, at Jubbulpoor, or Tucker & Son, or they may be obtained of the Agents named below

This new elegant and thoroughly useful article is the most portable and most convenient Hand Candlestick in use. It is not possible for any spark to escape from the flame and in consequence it is without the risk of the flame being extinguished. It is but a few inches high to the top of the glass and by far the lightest article of the kind. The glass shade is removable in an instant though it is fastened to the candlestick by such the candle can be put out without even touching the glass. From the very great advantage which this article gives and the number of recommendations Tucker & Son's candlesticks are giving from those who use them, they are induced strongly to use the advertisement of their candlesticks in preference to all others.

The candlestick for the above are Tucker and Son's Improved Spirit Candles 12 to the lb at 1s 6d per lb or Spirit Candles 12 to the lb at 1s 10d which exactly fitting the no 12 require neither paper nor cutting and burn out to the very last morsel. Any short candles however may be burnt in them if required, as in the case of ordinary candlesticks, provided they do not become smoking.

The above Candlesticks can be obtained only of

ADVERTISEMENT.

The Publisher of "THE BOMBAY ALMANACK AND BOOK OF DIRECTION" has the pleasure to place his eleventh annual volume in the hands of his Subscribers with the punctuality for which the work has been so long distinguished. It is hoped that the present edition will be found fully equal or even superior to any that has preceded it, both as regards the quantity, quality, and general correctness of the information supplied.

In the present issue of the ALMANACK room has been made for an extended and carefully-compiled Chronological Register of the principal events (English, Indian, and Foreign) of the past year, which will doubtless be found interesting and useful. A corrected statement of the war services of officers of Her Majesty's Home Troops serving on the Bombay establishment has also been inserted, as well as the usual record of the services of officers of the local army. Among minor additions may also be mentioned a list of the vessels composing Her Majesty's Indian Navy, with their armament, tonnage, officers, &c. ; the Rules of the Bombay Medical Retiring Fund ; and a Guide to the Coast from Bombay to Cochin, compiled for the use of those who may avail themselves of the opportunities now afforded of visiting the ports and places therein described.

The portion of the work relating to Bombay has been thoroughly revised and considerably extended. Great pains have been taken to render the List of Inhabitants complete and correct : it is believed that it will be found more trustworthy than any before issued.

A special Index to all the names in the usual elaborate Army List of Bombay will be found at pages 299—310, the figures in which, it should be observed, refer to those at the *foot* of the Army List pages, those at the head being a continuation of the paging of the Almanack itself.

The Publisher takes this opportunity of returning his sincere thanks for the very liberal and constantly increasing support he has received, and of assuring his numerous Subscribers that he will spare no effort in future years to merit a continuance of their patronage.

The Calendar

FOR

1860.

THE Time given in this Almanack is Bombay Mean Solar Time, or that which a well-regulated Clock ought to show.

The time of Sunrise and Sunset shows the instant at which the centre of the visible Sun is on the visible horizon of Bombay. In calculating the effects of refraction and dip of the horizon, the Barometer has been assumed to be 29·8 in., the Thermometer 80° Fahrenheit, and the height of the observer 15 feet above the level of the sea.

The time given as the Moon's Age is the period which has elapsed since the Sun and Moon were in the same longitude at Bombay.

The time of High Water has been calculated from Tide Tables prepared at the Colaba Observatory.

ECLIPSES.

During the year 1860 there will be two Eclipses of the Sun and two of the Moon; but the Lunar Eclipses only will be visible at Bombay.

INTRODUCTION

The only explanation which is conceived necessary to render the scheme of the following Calendar fully understood is that the Christian months indicated at the top of each page divide the Native months as they appear represented in the space below allotted to their names. January for example, takes of the Hindoo months (Maree) Poush and Mugh (Guzrat Duxun ul Conem) Poush and Mugh (Midehar) Dhrauh and Muzarun—the Parsee months (Shramshoyee) Leer and Amritel (Kudmees) Amritel and Sharver—and the date of Nowruz 129 to 130—the Mahomedan months Jumade ul awwal and Jumade ul akher—and the Jewish months Lebbitt and Shabbatt.

In the respective columns the 1st of January corresponds with the 8th of Poush Shool (Maree) and Guzrat Duxun ul Conem) the 19th of Dhrauh (Midehar) the 9th of Leer (Shramshoyee) the 9th of Amritel (Kudmees) and the 129th day of Nowruz or Kudmees the 7th of Jumade ul akher (Mahomedan) and the 6th of Tebbitt (Jewish), and so on throughout the year.

PARSEES.—There are at present two branches of the Parsees who differ in their reckoning of the Calendar one month in the year from each other, those that use one month forward in their year are styled Kudmees and the rest Shramshoyees. The present chronic embraces the Parsees of Yezdehid commonly styled Kudmees or Duray Nowruz or New reckoning the same being in use of in all parts of calculations among Asiatic nations; the New Year of which always commences on the 1st of February (the Kudmees reckon the New Year and the Durayees New Year fall on the 24th of August one month earlier than the commencement of the Shramshoyees New Year. It also embraces the Parsees of Yezdehid, commonly called Shramshoyees the New Year of which generally begins on the 1st day of Fuzerkeen. The Shramshoyees compute the New Year to commence from the 24th of September, a month later than the commencement of the Kudmees New Year.

HINDOOS.—It may here be observed that the Hindoo Lunar months are usually composed of 30 Tithies or Lunar days and the whole month is divided into two equal parts of 15 tithies each the one called Shukla Paksh or Shool the bright half and the other the Krishna Paksh or Vad the dark half or decrease of the Moon. The lunar month begins on the Western side of India and South of the Nerbudda river, with a first day of the Shukla Paksh (Shood Pratipada), or bright half of the Moon. At Nagore Oojein and the countries North of the Nerbudda, the Lunar month begins with

the first day of the Krishna Pakh (Yud Prutipada) or dark half of the Moon. The first is designated the Shooklades mode of reckoning and the latter the Krishnaades. The Lunar year begins with the first day of the Shookla Pakh or bright half of the Moon in Chytra, both North and South of the Nerbuddi, in every country in India, but as the dark half of the Moon precedes the other, or Shookla Pakh at Benares, the half Lunar month of Chytra is taken from the last Lunar month of the year preceding, and considered to belong to it.

It has been already stated that the Lunar month invariably consists of 30 Tithes or Lunar days; but it has been customary with all Eastern nations, in order to regulate their Feasts and Festivals, to drop certain Lunar days, and to reckon others twice to make up the deficiency, the first of these are termed by Hindoos, Kshuvu Tithes (perishable days), and the days repeated twice are called Virbh Tithes (additional days). The rule of these is exceedingly simple: those Lunar days on which the sun does not rise (Sooryodaya naheen) are struck out; those in which it rises twice are Virbh, or additional, and it is obvious that such circumstances will occur about six times in the course of the Lunar year.

MAHOMEDANS—The first day of the Mohurram, or the commencement of the year, is ordinarily reckoned from the first appearance of the Moon after the conjunction observed from an eminence of any sort, or even in cloudy weather from the time at which, but for these obstacles, it would be visible, and this can scarcely happen earlier than 24 or later than 48 hours after the conjunction. After this manner each separate month is reckoned, and the lapse of 12 such months constitutes the Mahomedan year.

JUWS—The Jews have ever marked their time by *sevenths*, according to the command given by God himself, for labouring during only six days of each week, and resting on the seventh, which was consequently set apart, or consecrated, to the service of their Creator. They not only hallowed the seventh day, or Sabbath, which formed a portion of their *week of days*, but they had, also their *week of years*, which consisted of seven years, and then *jubilees*, or rejoicing periods, which were celebrated by many acts of justice, forgiveness, and restitution at the end of every *week of seven times seven years*. The Hebrews, the Assyrians, Egyptians, Arabians, and Persians, all had this system of reckoning by weeks. The origin of computation by *sevenths* has been vehemently contested by some authors, who say that the four quarters, or intervals of the Moon (the *phases*, or changes of which are about seven days distant) originally gave occasion to this mode of division. But it seems more reasonable to conclude that it arose from the traditional account of the *first seven days* of the world's existence.

We have endeavoured to discriminate the Feasts and Festivals of each nation by different sorts of type, the Hindoo, for example, we have distinguished by Roman small letters, as Poush Shood, the Malabar and Jewish by Roman capitals, as MAGARAM, the Parsee by small capitals, as AMOONDA, and the Mahomedan by Italic small letters as *Mohurram*.

Native Festivals, Fasts, and Observances.

HINDOO

MUKUR SUNKRANT—On this day the sun enters the sign "*Mukur*," or Capricorn.—Vide 12th January. The Hindu festivals are so numerous, and the observances of them are so intricate, that they often bewilder a writer when he sits down to describe them. And it is equally difficult to point out which of the festivals is the greatest. The writers of the Hindoo legends have set such enormous merit on the observances of each of them, as to surpass all human comprehension and they have ever unhesitatingly said that those observances themselves will obtain heaven. Great rejoicings are held among the Hindus, but particularly among the Brahmans, on account of the feast of *Mukur Sunkrant*, when the sun reaches the most southern sign of the Zodiac, *Mukur* or Capricornus. From this day till the time of his leaving the most northern sign of the Zodiac, he is said to be in *Utarayan* and from the time of his leaving the northern sign to the entering the sign "*Kurk*" or Cancer, he is said to be in *Dukhanayan*. The vernal and autumnal equinoxes divide the year into two equal parts, *Utarayan*, and *Dukhanayan*. The days of *Utarayan* are esteemed lucky, and those of the *Dukhanayan* unlucky. During the days of *Dukhanayan*, it is said that the gates of heaven are shut and in the *Utarayan* they are open. For men to die in the *Utarayan* is considered more blessed because they get immediate entrance into heaven, but if the righteous die in the *Dukhanayan*, they shall have to wait outside of the gates till the *Utarayan* sets in. In the days of *Utarayan*, Moon—the ceremony of investing the youth with the sacred cord—and marriages are celebrated. The ceremonies that are performed on the day of *Mukur Sunkrant* just at the time of the sun entering into the sign are these.—The Hindus go to the sea accompanied by a Brahmin priest to bathe there they rub their bodies with *tillas* and wash themselves in the water poured in the *Shruti*. The Brahmin then repeats certain incantations suited to the occasion, and closes the ceremony by receiving due adoration and a gift of money for himself. On their return home they invite Brahmins present them with a cup of bull-milk filled with *tillas* and some money according to the ability of the *Utarayan*. Some even present the Brahmins with copper pots new *chittis*, mulberry &c. and the whole family receives benediction from them which is done by the Brahmins repeating certain words and throwing on their heads a few grains of red coloured rice. After the performance of this ceremony they go to take their meals which consist of sweetsmeats. They invite their friends and relations to dinner, and towards evening they wear new clothes gold, and other ornaments, and frequent the houses of their friends and relations distributing *tillas* mixed with sugar. At the time of putting the *tillas* into the pot's hands they repeat these words: "Receive these *tillas* mixed with sugar, and be friendly with me throughout the whole year." All the prayers and prayers that are offered this day are to the Sun and to every other god. The second day of *Sunkrant* is named *Ku*, which is generally celebrated by women, by making small presents in the form of their own sex.—Vide 12th January.

WISAKKA PUNYAMA seems to have been instituted in honour of a Spring which season is personified under the name of *Wakanta* who is filled up attending on *Canu*, or the god of love.—Vide 28th January.

RAHUSHTAMI is dedicated to the worship of the Sun. This day is the beginning of the *Manwantara*, or period embracing the reign of *Manoo*, of which fourteen govern in succession, during the different ages of the world. The present age is under the dominion of the seventh *Manoo*, and at the conclusion of this period a new sun is supposed to have mounted his chariot.—Vide 30th January.

SIVAKRANT—A fast day in honour of *Sheva*, during which the *Ingas*, or *Bhaktaphallans*, is worshipped.—Vide 26th February. A fast (Chuttoodasa) on the 29th of every month, is kept sacred by the votaries of *Sheva*, but *Mugh* and *Chuttoodasa* has obtained its peculiar spirit, *Maha Sheva Ratree*, or the great night of *Sheva*. The Hindu legends account in the following manner for its notoriety among the rest of *Sheva Ratree*.—In time immemorial an archer of wicked and licentious habits went into a forest this day, to shoot deer. He spent the whole day in the pursuit of his game, and, on a sudden, night came on, and he was left to the mercy of wild beasts

* *Tillas* are said to be the favourite grain of the Sun

When he found himself in such a forlorn condition, he had recourse to a *Bale* or *Bila* tree to secure himself from their attack. Having got upon the tree, by way of relaxation, or to get a clearer view, he broke off all the branches that hung around and above his head, and flung them down. Fortunately the twigs which he thus fell on the *Linga* of Shiva, which was near the foot of the tree. Shiva was so much pleased and satisfied by the accidental worship of his votary, that he forthwith sent a *Vennam*, or heavenly chariot, and took the hunter into *Kylas*, his own abode, with acclamations of joy. To commemorate this great event of the entrance of the archer into *Kylas*, the Hindus observe a fast this day, and worship Shiva in hopes of obtaining a like merit. *Observance of Shiva Ratree*.—This day the votaries of Shiva fast, and in the night, repair to the temples of Shiva, accompanied by a Brahmin priest, who performs poora by repeating certain incantations. First he pours some water over the *Linga*, and washes it, and afterwards he decorates it with choice flowers. When this is done the priest takes his sacred book, wherein Shiva's thousand different names are written, and reads the names; and the Yavaman the worshipper, sings a leaf of *Bale* over the head of the *Linga* each time. This kind of poora is performed four different times during the night, and thus no sleep is obtained for the whole night. This is styled the poora of the four *Paharas* or watches. It commences at about eight P. M., and ends at five A. M. This night the pagodes of Shiva are thronged by devotees. Some persons engage twelve Brahmins, and others four, &c., to perform the poora, according to the abilities of the Yavaman. The Brahmins must be liberally paid for their labours.

HORRE (SHIVRATRA-HORITA or PRATIGRHYA).—This festival, called also *Doluwatra*, or the swinging festival, is supposed by Sir W. Jones to relate to the vernal equinox, and to be similar to the Persian Nowroz. It commences fifteen days before the full moon, on which the ceremonies are terminated, and is held in honour of *Krishna*. In the freedom with which the lower classes now behave towards their superiors, this festival resembles the Roman Saturnalia, and in the sending people on heedless errands, it corresponds with our 1st of April. Red powders are daubed upon the image of the god, and thrown and squirted by his worshippers on each other; while females are saluted by exclamations and jests of no very chaste description. The sweeten cake, which is placed on the pile lighted at the close of the festival, is called *pollee* and the right of first offering it in a village is considered as an honorary privilege. Neither the origin of this festival, nor the manner in which it is observed, can be described. Nor is this manner of observing it confined to the lower classes of the native community—the highest apparently joining in it with the same zest as the lowest. This festival nominally continues from the new to the full moon, but only a few of the last days are practically and especially devoted to it. For two or three days no respectable woman appears in the streets, so chaste and abstemious is the language in almost every one's mouth, and applied to any woman that they may happen to see. It is often called *Shingra* from the name of the month in which it occurs—Vide 7th March.

THE HINDOO NEW YEAR (Shukla Nam called Gooda Padma).—On the morning of this day a Hindoo first rubs oil upon his body, and then bathes himself with warm water. A pole being, a flag and surmounted with a brass or copper vessel, is erected in front of the house. One such pole must be erected by each family. This represents the banner of India, the flag of the gods which on this day is also raised in honour of him by the gods. What is done here on earth is therefore an imitation of what takes place in the heaven of India. The leaves of the butter numb tree are then to be eaten which come here to the gods because this tree is the offspring of the Ambrosia of the gods. The Almanac for the New Year is then to be worshipped and its predictions are given to the year just commencing, and to be heard from the mouth of the Jothahers. They tell whether there is to be an abundance or a scarcity of rain whether there will be unusual heat or cold, whether robberies, insurrections, &c., are to abound, whether unusual sickness is to prevail, &c. &c. Each individual on this day also learns what he is to expect during the year, whether health or sickness, prosperity or adversity, is to be his portion, &c. &c. All this important information is not, of course, to be obtained without some compensation. And not only we presents to be given to the Jothahers, but the poor people are taught on this day to extend their liberality also to the Gnooos and Brahmins. The day is also to be celebrated by feasting. This is considered an auspicious day for commencing a new building or engaging in any new undertaking—Vide 23rd March.

RAMA NOWRIZ. On this day Ramechundia the 7th incarnation of Vishnu, was born at *Ayodhya* or Oude, about B. C. 1600—Vide 31st March. Rama is supposed to be the same as the Greek Anthonius or *Diachus* and the object of the incarnation was to effect the destruction of Riwan, the ten-headed tyrant of Lanka or Ceylon, which was at last done with the assistance of Hanooman the chief of the monkey tribe. * A favourite tree of Shiva's, and which is held sacred among the Hindoos.

and repeating these words, "*Gurinda Gurinda*," where they are honoured either by throwing over them coins, or presenting them a certain quantity of curds. These people are called *Gupalls*—protectors of cows. But the most extraordinary thing relating to this festival is the following.—On the night of *Junna Ashtami*, crowds of people, generally of the lower ranks, flock into the temple of *Canoba*, which is commonly known by the name of *Muth*, there they hire native music and continue shouting and making a great noise so as to deafen one's ears. The *Bhugat* of *Canoba*, or the head of the temple who is very often of the *Shudra* caste, and who is considered a supernatural being, at least at the time, with great solemnity and grave countenance makes his way through the assembly and stands before the shrine of *Canoba*, and offers prayers to the idol of *Canoba*, which is richly decorated on the occasion, accompanied by the playing of tamboras, and exclamations of joy from his disciples. He is at first quite calm but shortly after shows signs of inspiration by the god. He begins to utter loud sounds or the rust of his on the crown of his head, and then slowly shakes his limbs. By degrees his whole frame quivers, and he throws his whole body into violent contortions, dancing and muttering strange ambiguous and wild sounds which no one can understand. He then takes his scourge, which is kept near the shrine and wounds himself as if he were insane, and performs many other equally strange actions. As sooner does the assembly around him in this manner than he, believing that the spirit of the god has entered into him they burn incense before him and fall prostrate and pray to him to be merciful to them. When he has received divine homage, he quickly takes his seat, but does not rise quickly, and trembling. His disciples who in days past him then commence, one after another, to shake themselves and dance in the same way, and the spirit of the god is believed to enter them also. Thus does the great *Bhugat* create his few disciples and give them the power of driving the spirit of the god into their bodies. Sick persons, persons possessed of devils, children &c. are brought to the temple to receive the benediction of the *Bhugat* and his disciples. He rubs a little ash on their foreheads, passes his hand over their heads and gives them full assurance of their speedy recovery from their sickness without taking any medicine. The poor patient with full confidence, returns home expecting the fulfilment of the *Bhugat's* promise, but probably, to his great disappointment and distress he gets worse or is perhaps cut off that day. It is not wonder, notwithstanding such disappointments, that the eyes of the ignorant are not opened to see the imposture and imposition of the *Bhugat* for they still remain faithful to him as ever. It is the subtlety of his speech, and the dignity of his action, that delude them. The *Bhugat* receives large presents on this occasion from the followers of his sect, and he is held in great respect among the orthodox Hindus and even among persons of some other tribes. On the following morning the *Bhugat* calls to the chief of his disciples in front of the temple, and makes each one present of curds to be thrown over their heads to their whole bodies, they all begin to dance in company, holding each other's hands and incessantly throwing thus a shower of curds and beating their bodies with mud shouting loudly as they can. All *Ashtami* in the morning with a serene expression on his face he was into the crowd with his feet held directly, and stands in the midst of the crowd and looks in all directions to see the needs humanity, and then lifts up his powerful sceptre and puts it around the neck of his disciples as a token of his regard and draws him towards himself, when the disciple trembles a little and then stands firm stretching his hands towards the sky with his eyes closed. As sooner does the *Bhugat* see him in this state, than he motions him to retire thence so abruptly that it gives him no pain while to the eye of the spectator it appears as if he does not feel it. This is repeated till he has shown the same mark of affliction to the whole body of his disciples, when he ceases, and sweetmeats are distributed among the disciples and to all the spectators. Thus terminates the first of *Gorud* 1 *Itam* among the people of the *Shudra* caste.

PENCHANT OF PRACHINATI ARMAWASTI—A ceremony observed at the new moon of the month *Shravan* at which the 64 *Yeg*nees or female attendants of the goddess *Durga* are worshipped particularly, it is said by women, with the hope of obtaining issue.— vide 16th August. The 30th of the month of *Shravan* or the last day of the dark half of the moon is denominated *Prachee Aumawastu*. *Prachee* is, it is supposed, one of the goddesses of the 1st. She is commonly known among the people of the *kanakan* and *Dacca* by the name of *Petacore*. Wealthy Baniyas and other people of *Gurint* go to *Wald* hwan in the previous evening, with their families, to remain in the *Dharmasalla* during the night, and on the subsequent morning they bath in the tank of *Wald* hwan (This tank is called by the natives *Ban gunga*, i.e. the Ganges produced by an arrow, and they give a marvellous account of its origin. They say, when *Rama* visited this part of the world, and found that there was no pure water to drink, he pierced the ground with an arrow from his bow, and thus brought the Ganges into existence.) They also perform

Shuddhas on the margin of the tank, and ceremonies for procuring the deliverance of their departed ancestors from the thralldom of *Yama*, the king of the infernal regions if they still remain at his court or in his dominions. They afterwards repair to the temple of *Waleshwar* and worship his image, after which they take their meals. The remaining part of the day is spent in amusements, among which gambling is overlooked or neglected. Stalls are erected in the locality of the temple, and furnished with all kinds of the choicest articles that please the fancy or delight the taste. The Hindus on this occasion squander away hundreds of rupees in hiring vehicles, and buying toys and sweetmeats for their children. This holiday is not observed by the majority of the inhabitants of the Konkan and Deccan. It is kept up chiefly by those women who lose their children in infancy. They fast this day, and worship an image of *Pethoree*, by adorning it with various kinds of fruits and flowers, through the medium of a Brahmin priest.

GHANESH CHATURTHI, OR CHATURTHI.—On this day was born *Ganputra*, or *Ganesh*, who is considered to be the god of prudence and invoked, like Janus, at the commencement of all undertakings. The manner of his birth is differently told. One story relates, that as the god *Kaishikya* was excited by Shiva without carnal assistance in like manner *Ganputra* was formed by his consort *Parvatee* from the turmeric and oil wiped off from his own body while bathing. The loss of his human hand, and the substitution of that of a female elephant with one tusk, is also variously explained. By some his head is said to have been cut off by Shiva when he endeavoured to prevent the god from entering the chamber of *Parvatee* when performing her ablutions as above. According to other accounts, it was reduced to ashes by a glance from the eyes of *Shanai* or *Saurin*, when all the gods went to look at the newly-born child, and its place supplied by that of the animal first found, which happened to be an elephant. Clay images of the deity are formed and after having been worshipped for nine or ten days, are thrown into the water. The children of the household (properly *Devi*) who resides at the village of that name near *Pooné* is supposed to be an incarnation of this god who granted to a holy Gossain who lived on his favour that the divinity should be continued in his family for seven generations, and though the present one has exceeded that limit the miracle is perpetuated by the Brahmins for its interest. — Vide 20th August. It is commonly said among the Hindus that the *Shast* or gossains, who follow the worship of *Mithra* (truth) in the following forms three times a year. The first of these is *Nagpurnima* on which day a snake of clay is made and worshipped; the second is *Ganesh Chaturthi* when a clay image of the infant *Krishna* is made and worshipped; and the third and last is *Ganesh Chaturthi*, on which day a clay image of *Ganesh* is worshipped. This being the last day of the worship of *Mithra* is observed with more pomp and more ceremony, conversation and music, than the two others. An image worshipped on this occasion has many hands and an elephant's head. The image of *Ganputra*'s favourite vehicle is also placed on his image, richly saddled and bridled. Besides this the worship of *Ganesh* may be traced to his origin. But different accounts are given in different parts of that origin, and the consequent intricacy of his worship which it would be rather a difficult task to detail. The image of *Ganputra* is either made in the house or purchased from a artist, it is girt with the sacred and painted with saffron and variegated colours, much labour and ingenuity is bestowed on it by some, to render it elegant and attractive according to the taste and pecuniary means of the worshipper. The 14th of the month of *Bhadrapad* is the appointed period for the celebration of this festival. On the previous day the worshipper cleans and whitewashes his house and furnishes it with all sorts of costly furniture that can be procured. The production of light is the first thing that would attract one's eye. On the following morning, i.e. on the day of *Ganesh Chaturthi*, they bring the image home (if it be bought) with great splendour, accompanied by native music, and with all the honours of a god. A place where the god is to be seated is prepared, either in the form of a covered shrine or open space which is adorned with all kinds of fruits and flowers strewn round it, and twigs of trees hanging over in clusters, after which commences the business of the officiating priest who sits on the master of the house and begins consecrating the idol, by reciting incantations or *mantras* from his book, and throwing over it red coloured rice, thus after performing many consecrative ceremonies, he brings from heaven the godhead into the image on earth. Being thus installed, the devotee places before him *Nayachit* food, which consists of sweetmeats, and invokes the god to partake of the offering. Afterwards he falls before him and prays him to be gracious to him and his family. To perform the whole *Pooja* according to the rules of the *Shastra*, requires at least three or four hours time. By the generosity of the people *Ganputra* is kept one day and a half, but by some five or ten days, according to the wealth and wish of the proprietor. A discourse is delivered in commemoration of his godly exploits by a *Thurman* in his presence, to which friends and relatives are invited to attend. A party of Brahmins, are entertained at a sumptuous dinner, in honour of *Ganesh* and then the deity is seated with the usual *Dakshina*. On the last day preparations for his departure are made. Evening is the appointed time for parting, when the master of the house pe-

forms *Cholempu* through the priest, who takes away the divinity with which the image was invested by repeated incantations of charms, flowers, fruits, and sweetmeats are offered to the idol and *arise*, that is, lighted wicks, are moved before him, accompanied with music and hymns, and he is invoked to bless the owner and his family, and remove any calamity, that may befall them through the year. Afterwards the Brahmins are presented with *Dalshut*, and the image is seated in a palanquin, or in an ark especially made for the purpose, and filled with fresh flowers, incense, and to the great tank in procession, which consists of the master of the house, his children and relatives, who are richly attired on the occasion. When they reach the place they tie out the image, and commit it to the water, with every devout feeling of regret for its absence till next year. On the day of *Cholempu* the Hindu is prohibited by the *Shastras* from looking at the moon, and therefore prejudiced and envious Hindus are said to look at her this evening, for fear of increasing any calamity that may befall the year. If the vulgar people happen to see the moon, they try to provoke their neighbours to abuse them, and comfort themselves with the idea that the calamities which will be all comprehended in that abuse, and removed by it.

THE GREAT PRASADANT—On the 1st of the seven Rishis or sages, who are supposed to be the seven bright stars in the *Great Bear*—Vide 21st August.

GOVARTI—One of the seven sects of the *Thes. Parvatis*—Cakes are made in the shape of people, and danced in a nightingale—Vide 2nd August.

WATSI DWAYATI—Is a festival in commemoration of the fifth incarnation of Vishnu, in the shape of a dwarf to oppose *Pulle*, from obtaining dominion over the three worlds through the effects of his religious justities. Buller promised the dwarf at his own request to grant him his touch and he could compass it in three steps. On the initiation of the promise the dwarf was said to the incarnate deity embodied the heaven and the earth, then he began to put his foot down his foot for the third time Buller immediately telling him to put it on the earth which the dwarf having done crushed him down to *Pitru*, the dominion of which was conceded to the mortuous monarch—Vide 27th August.

PITRU PATTI—The dark half of the *Behrupad*, and sacred to the Pitrus or progenitors of mankind to which the souls of the deceased ascend after the celebration of funeral rites which peculiarly prevail during this season—Vide 31st August.

DUSSERA—The festival called *Dussehra* or *Durgotsava* is supposed to relate to the triumphant return of the goddess *Durga* in commemoration of the victory of *Durga* the wife of *Shiva* over the monster *Mahabhis*, her image, after having been worshipped for nine months in the water—Vide 3rd October. On this day also *Rama* marched against *Ravana* on which was met the *Mithas* seem to have selected it as a proper period for commencing their plundering excursions. This day is observed thus. Early in the morning the *Haras* having washed themselves perform the *Pooja* of the household gods in conjunction with that of their *Shastri* of *maths* or religious books. Their children, or those who are not yet of the military age, worship the temple, and afterwards keep the rest of them throughout the year under a conception that to the propitiativeness of the gods they owe their prosperity. Thereafter the children take dinner in the company of their friends whom they have been invited on the occasion. In the afternoon they go to the temple in procession with friends and relatives, and children, and afterwards a small feast is held by them in the principal seats. Each of these places is then filled with flowers and incense, and the *Haras* bearing each in his hand flowers and a bunch of garlands (*gajra*) and a small pot (*kalsh*) which is held high, and in which a *Shiva* in a small image is placed. On entering the temple they offer the *soma* and flowers to the image, accompanied with prayer, then they give each *Dalshut* to the Brahmins, and afterwards to their friends and relatives present, and with a libation of the imaginary oil and conclude with devout embrace and receive similar treatment in return of the same time. The *maths* the chief article of the Dusseera holiday. The *maths* or front of the above temple is surrounded by the vendors of this plant who range themselves with baskets full of blossoms in bunches. At night an illumination is made. This day is considered by the Hindus as a very good time for washing their children, who are beginning to toddle. The preceding days of the Dusseera are called *Anantotsava* a compound word for nine nights. During these previous nine days, the devotees of *Durga* keep the mother holy cow, a *Brahman* or a religious festival, in which her exploits are extolled and her name is to be sung and is described. On the ninth day, at every temple of *Durga* the *maths* is offered and fed with rice and clarified butter, and closed by the repetition of a story. It is customary among the *Brahman* women to keep up a dance during the night called *Leubha* which is accompanied with religious music. The celebration of the Dusseera owes its origin to the *Pandavas* the five sons of *Pandua* having selected this day after completing their exile of

twelve years, as an auspicious one for making preparations for the tremendous war with their powerful cousins the *Kourava*, of which the Puranas give an account, occupy the whole volume. The Hindus deem the horses with flowers this day, putting garlands of flowers around their necks. It is said that Parth, the most invincible of the five Pandavas, who had a special fondness for horses and a prominent skill in the art of chariot-fighting, will on their being put to rest in the interior of a bath, washed his favourite mail with horses, put a garland of flowers around their necks, and tipped them in token of thanks in appreciation, with his own hand. Owing to this he and it seems, the accident of horses with flowers this day is observed.

DWARATI (from *Dwapa*, Sanscrit, signifying a row of lamps)—Is celebrated in
 honour of the goddess Kālī, or Bhawānī, who is so much propitiated by human sacri-
 fice and of Vishnu's victory over the demon Tāraka—Is held 12th December. The festival,
 however, seems to be more particularly connected to Lakshmi, or the goddess of prosper-
 ity. The first day (4 showa-nadhi) is to a *Mani* *trayal-chee* and Swāmis now count
 their stores and perform puja to their wealth. On the *Umat-asya*, or new moon there
 being a fresh account proper to compare mine to the old in new books. The festival
 lasts all together five days. The Dwānī, or is the first of illumination, or ranges of light.
 It is celebrated for the period of five days during which the houses are cleaned, whitewashed
 and illuminated. A quadrangular fire is made in front of the house, and punctured with
 different coloured powders. It is called *Rang-polee*. Gambling was the chief recreation of
 the fest. The Dwānī commences from the 28th day of *Ashvina*—this day is
 denominated *Dus-tirigadashi*. This day they collect all the treasure in their houses and
 worship it, giving it the name of *Uma*, the goddess of wealth, a light is made and
 dedicated to *Lama*, the god of the art in legends, and every preparation is made for the
 succeeding morning. Several circles, squares &c. are displayed. The 29th is
Anant-chittadai day. This day Vishnu kill d Narmad, son, a mighty giant, after a
 desperate combat and cut his ear vertically in the morning with the palm of victory, when
 those people plumed in the city and all cried him a victor and adoration and the
 women of the city having adorned themselves went before him with lighted lamps, and
 danced before him. The 30th is the day to commemorate this great conquest. This
 day they completely in the morning light the house with lights, rub them with oil with per-
 fume of musk and burn the incense with flowers. No member of the family is left
 unlighted, new clothes and ornaments are put on and children are decorated. When this
 is done, the mistress of the house performs a sacrifice to *Lakshmi*—by placing
 vessels either in silver or brass dishes, which mean that God would remove all the
 difficulties and make the year happy—when each male member makes her a pre-
 sent of money sweetmeats, or distributed to all friends, or invited to dinner. The
 30th *Amavasya* the day of the new moon is the day of *Sakti* or the goddess of
 fortune and wealth. It is called *Yakshini* by the name of *Lakshmi*, or the way
 of the shape. This day the year of Vishnu Samvatsar, or Vikram era, closes. If the
 month ends then it closes the year. New journals, letters, and day-books are
 finished and worshiped through a Brahmin priest, new cattle is made in the account
 books, water is sent to different shops with cups to drink in their names, on this
 auspicious evening *Saraswati* is invoked and recited the shloka in their prayers, and
 to be with them throughout the year, then the Brahmins recite only part of their
 library and serve a sacrifice of one animal, a horse, a cow and the day is
 celebrated by all classes of people. Rātri, Pūja, Mahā-lā &c. The first day of
Kartik *Shukla* is the day of King Bali. The day is known to *Patal*, or the
 decoration by Vishnu for his devotion. They also carry a very early in the morning,
 make the lights clean the houses, whitewash the walls and rub all the walls with oil
 and rub in the house put a lighted lamp over it and the visitors of the house, all along
 the evening. Let the milk is water mixed with the milk of Brahmins. After
 the oblation the women make an image of Bidi Rātri, and ship it. Presents are given to
 the Brahmins and other mendicants, and playing with a dice is continued with great ardour
 and spirit than ever. The 2nd day of Kartik, *Shukla* is *Lara* *Dut* or which is com-
 monly known by the name of *Bhātri*. This day Vishnu the king of the infernal regions,
 went to his sister to dine and to perfect to the memory of this the Hindus must go to
 their sisters' houses and take them meal with them and make them present of some
 money or gold ornaments, and thus please the king, who will save them from the punish-
 ment of their sins.

KARTIK EKADASHI—The eleventh day (in some years the fourteenth) of the bright half of the month Kartika, and is celebrated in honour of Vishnu. On this day the Hindus supposed to be in his slavery of four months—a title which has reference to the sun at the winter solstice—vide 21st November.

BLACK POKERS—Is the full moon of the month KITT. On the full moon of the

imported by Jamsap, thus agreeing with their Persian brethren. Notwithstanding this division, no estrangement exists between one or the other in their social intercourse. The difference only lies in their computation of time, and in some slight variations in the forms of prayer. Intermarriage is allowed, as well as admission to each others places of worship.

The festivals of the Parsis, unlike the Hindus and Mohammedans, are celebrated with little or no outward pomp. Their holidays are mostly occupied in prayers in the morning, and festivities and rejoicings during the rest of the day. Some of their religious institutions can be traced to a very ancient period. The festival of the Nowroz dates to upwards of three thousand years before Christ and is kept to this day by most of the nations of Western Asia, notwithstanding the difference of creed. In a paper by the late Col. Vans Kennedy, published in the second volume of the "Transactions of the Bombay Literary Society," we are informed that the Emperor Akbar adopted the "Nowroz," and fourteen other festivals of the Parsis for the observance of those who were attached to his favourite doctrines of the "Alibi faith" or the "Religion of God," which he fruitlessly endeavored to introduce among his people.

PALEI, OR NEW YEAR'S DAY.—Among the festivals observed by the Parsis the first and universally kept, is the *Palei*, or new year's day. This day is celebrated in honour of Yazdegerd, the last King of the Sassanide dynasty, who was dethroned by Kahi Omar about A. D. 640. The ancient Persians reckoned a new era from the accession of each successive monarch, and as Yazdegerd had no successor, the date of his accession to the throne has been brought down to the present time, thus making their current year 1220-90. In their calculations of the year only 365 days are allowed, the leap year is unknown to them, though there are records which prove that in every 120 years one month was added to the period, to correspond with the solar year. The year is divided into twelve months of thirty days each and five days or *Guthas*, as they are called, are added at the end to make up the deficiency. On this day the Parsis rise early, and dress themselves in new suits of clothes, and then piously dispossess their prayers in their private residences, or attend the fire temples where a large congregation is gathered. After prayers the Parsis visit their friends and relations when the *Hamaspor*, or 'giving of hands' is performed. This ceremony is a sort of greeting, corresponding to the European fashion of wishing each other a happy new year. Their friends and relations are invited to breakfast. The morning being thus occupied they spend the rest of the day in their country houses or clubs where feasting, rejoicing and nuptial parties are kept up till a late hour. Alms are also given to the poor in the course of the day, and new suits of clothes are presented to their servants and dependants—*Vide 24th September*.

KHORDAD SAL.—The second of the Parsi festival is the 'Khordad Sal' or the anniversary of the birth of their prophet Zoroaster, who was born in the city of Luche in the north of Persia, in the reign of Darius Hystaspes, about 520 years before Christ, according to Greek writers. Herodotus places the birth of this celebrated personage about 1200 years anterior to that ascribed by the Greek chronologists. The Parsis themselves differ as to the exact time of the birth of their prophet, a part of them fix the period at B. C. 389, others at B. C. 638. Religious ceremonies are performed in the morning by the women of the family and the priests, the men, as usual on such occasions, limiting themselves to private prayers—*Vide 29th Sept*.

AMARDAD SAL.—This holiday, which falls on the day immediately after the preceding festival, appears to have no origin in the books of the Parsis. It is merely kept up as the continuation of the 'Khordad Sal' no religious ceremonies are required, and the day is always spent in the enjoyment of epicurean pleasures.

TURNOMUNDI JESTRA.—This day is set apart for the performance of ceremonies for the dead, *Purush* meaning soul or spirit. On this day the superstitious portion of the people in Bombay attend on the hills near Chowpatty, where three "dookhmas" or "towers of silence" are situated, and there perform prayers for the dead as if they had a better chance of being heard at that place on behalf of their deceased relations than any other place of worship. This holiday is kept with some slight variations in other parts of India. The Parsis are rejoined by their religion to preserve the memory of their dead by annual religious ceremonies performed in the house, but such of their friends who die on long voyages or in unknown places, and the date of whose death cannot be positively ascertained are according to the terms of their religion, honoured by sacred rites on this day. This ceremony consists in a man or woman preparing small round pieces of baked bread called *darcous* which are put in a tray or other copper vessel, along with some fruits and flowers, over which the priest performs the prayers of the *Baj*, or *Vaj*, as it is called by M. Anquetil Du Perron in his work, the *Sand Avesta*. According to the translation published by this learned Frenchman, the *Baj* is an invocation of the names of the departed and of such of the angels who have a direct control over the souls of the dead after their departure from this world. Prayers of this sort are still performed as in the

Hindus and many sects of the Mahomedans, and are not unknown, we believe, in some of the Roman Catholic countries of Europe.—Vide 9th June

ARDIBEHST-JASAN—This festival, as its name implies, is maintained in honour of Ardibehst Amesaspand, the controlling angel over the sacred fire, that element being one of the symbols of worship. The fire-temples are crowded this day, and prayers offered to the Supreme Deity.—Vide 24th October

The Nowroz—The fifth on our list is the celebrated Nowroz, called by some the Nowroz-i-Jamshid or the Nowroz-i-Sultan, the king's day. This celebrated festival falls generally about the 21st day of March, and is coeval with our Vernal Equinox, and the Mikh Saccarant of the Hindus. This day is observed by the Modern Persians, the Arabs, the Turks, and several other Asiatic nations for the computation of the solar year, and for state purposes, such as the collection of revenue, and the arrangements for the agricultural operations of the year. Eastern writers date the origin of this festival from the time of Jamshid, the third king of the Peshadian dynasty of Persia, and our own Western writers are not disposed to doubt this statement. Jamshid is supposed to have flourished, according to Bailey, 3,200 years before Christ, the Shah Nameh celebrates him as the first prince of his race who introduced civilisation among mankind, and established the computation of time. If we are to believe the host of Persian writers, the exquisite bas-reliefs at the ruins of Persepolis, still visible in all their pristine beauty after a lapse of two thousand years,—are representations of the Court of Jamshid, more especially on the festival of the Nowroz. The sculptures at this remarkable place, indeed, contain representations of the courts of ancient Persia, with their long train of attendants bringing in offerings to the feet of the Monarchs, and as the Nowroz is a sort of "revenue settlement" day, when the chiefs of different provinces lay their annual contributions before the throne, and are allowed audience with the monarch, the idea of a part of the Persepolitan bas-reliefs being a picture of some ancient king of Persia holding his court on the day of the Nowroz, does not appear to be without a good foundation. In Persia this festival is kept for several days with unusual pomp by all the inhabitants, whether Mahomedans or Parsis. In India it is simply a day of rejoicing.—Vide 18th March

AVA ARBUZ SUR JISAN—Ava, in the Zend text, is the name of the angel who presides over the sea, and this "Jasan," or festival, is held in his honour. The Parsis are simply required on this day to approach the sea shore, or any stream of water, and chant the prayers which are written in Zend, but owing to their long residence in this country, they have borrowed many Hindu rites in the observance of this holiday, and offerings of sugar, coconuts, flowers, &c., to the sea, on this day, are not uncommon. The better-informed portion of the community, however, do not join with their brethren in these superstitious acts. In Bombay a fair is held on the esplanade in honour of this festival.—Vide 1st May

ADDAN JASAN—Addan, another synonyme for fire, is the name by which the ninth month of the Parsi year is called. This is the most religious of the twelve months, and the ninth day of that month is held in great respect and sanctity. On this day the Fire temples are very much crowded, and offerings of sandal-wood are made to the sacred flame, and money distributed among the priests.—Vide 30th May

Besides the above, the festivals of the Parsis are the Meher Jasan, the Boman Jasan, and a few others of less importance, all of which are partially observed.

The Moolkads is the name of a ceremony which is performed at the end of the Parsi year.—Vide 15th September. It consists of a pile of brass or silver vessels filled with water, and raised above the ground on iron stools. Flowers and fruits are placed there, and religious ceremonies in honour of the dead are performed before the Moolkads. A society for religious reform, which has been lately established among the Parsis, has denounced this ceremony in no respectful terms. According to the tracts published by these reformers, the Parsi scriptures only require that the last ten days of the year should be spent in deeds of charity, prayers, and freedom from worldly pursuits, they add further, that the ceremony of the brass and silver vessels, &c., is borrowed entirely from the Hindus.

I *If Workman neglect to perform Work on account of which he has received an Advance of Money, Complainant may be made to the Magistrate*—When any Artificer, Workman, or Labourer shall have received from any Master or Employer resident or carrying on business in any Presidency Town, or in any station of the Settlement of Prince of Wales' Island, Singapore, and Malacca, or from any person acting on behalf of such Master or Employer, an advance of money on account of any work which he shall have contracted to perform, or to get performed by any other Artificers, Workmen, or Labourers, if such Artificer, Workman, or Labourer shall wilfully and without lawful or reasonable excuse neglect or refuse to perform or get performed such work according to the terms of his contract, such Master or Employer or any such person as aforesaid may complain to a Magistrate of Police, and the Magistrate shall thereupon issue a summons or a warrant, as he shall think proper, for bringing before him such Artificer, Workman, or Labourer, and shall hear and determine the case.

II *Magistrate may order Repayment of Advance or performance of Contract—Penalty if Workman fail to comply with the Order*—If it shall be proved to the satisfaction of the Magistrate that such Artificer, Workman, or Labourer has received money in advance from the complainant on account of any work, and has wilfully and without lawful or reasonable excuse neglected or refused to perform or get performed the same according to the terms of his contract, the Magistrate shall, at the option of the complainant, either order such Artificer, Workman, or Labourer to repay the money advanced, or such part thereof as may seem to the Magistrate just and proper, or order him to perform or get performed such work, according to the terms of his contract; and if such Artificer, Workman, or Labourer shall fail to comply with the said order, the Magistrate may sentence him to be imprisoned with hard labour for a term not exceeding three months, or, if the order be for the repayment of a sum of money, for a term not exceeding Three Months, or until such sum of money shall be sooner repaid, provided that no such order for the repayment of any money shall, while the same remains unsatisfied, deprive the complainant of any Civil remedy by action or otherwise which he might have had but for this Act.

III *Magistrate may require Workman to give Security for due performance of Order*—When the Magistrate shall order any Artificer, Workman, or Labourer to perform or get performed any work according to the terms of his contract, he may also, at the request of the complainant, require such Artificer, Workman, or Labourer to enter into a recognisance with sufficient security for the due performance of the order, and, in default of his entering into such recognisance or furnishing such security to the satisfaction of the Magistrate, may sentence him to be imprisoned with hard labour for a period not exceeding Three Months.

IV *To what Contracts the Act extends*—The word "contract," as used in this Act, shall extend to all contracts and agreements whether by deed, or written, or verbal, and whether such contract be for a term certain, or for specified work, or otherwise.

V *Act may be extended by Government*—This Act may be extended by the Governor General of India in Council, or by the Executive Government of any Presidency or place, to any place within the limits of their respective jurisdictions. In the event of this Act being so extended, the powers hereby vested in a Magistrate of Police shall be exercised by such Officer or Officers as shall be specially appointed by Government to exercise such powers.

THE LIMITATION OF SUITS ACT.— No. XIV. of 1859.

An Act to provide for the Limitation of Suits.

[4th May 1859.]

Whereas it is expedient to amend and consolidate the laws relating to the limitation of suits, It is enacted as follows:—

1 *Limitation of Suits*—No suit shall be maintained in any Court of Judicature within any part of the British territories in India in which this Act shall be in force, unless the same is instituted within the period of limitation hereinafter made applicable to a suit of that nature, any Law or Regulation to the contrary notwithstanding, and the periods of limitation, and the suits to which the same respectively shall be applicable, shall be the following, that is to say:—

1 *Pre-emption Suits*—To suits to enforce the right of pre-emption, whether the same is founded on law, or general usage, or on special contract—the period of one year, to be computed from the time at which the purchaser shall have taken possession under the sale impeached.

7. The second Furlough of two years will only be granted after ten years' service in India from the date of the return to duty after the first Furlough of two years. These Furloughs are not to be cumulative under any circumstances but are limited to two years. Officers who have taken leave of absence on sick certificate to Europe or elsewhere beyond sea, will be ineligible to Furlough on private affairs until they have served six years from their first return to duty. This Rule does not apply to short leaves to sea. (See Order following Rules 20 and 21)

G. O. C. 3rd July 1855.—With reference to Rules 6 and 7 of the revised New Furlough Regulations, the Commander in Chief is pleased to state that under a decision passed by the Government of India, Officers who may have availed themselves previously to the 1st June 1854 of Furlough to Europe on private affairs *with Pay* for ten years' service in India will in the event of their availing the New Furlough Rules be entitled after completing ten years' additional service, to a second Furlough *with Pay* under the provisions of Rule 7, for two years deducting therefrom such period in excess of two years as they may have been previously absent on Furlough *with Pay*.

G. O. C. 23rd August 1855.—With the sanction of the Right Honourable the Governor in Council, the following decisions of the Government of India on points connected with the revised New Furlough Rules are published to the Army:—

Question

Are the periods of ten and twenty years' service in India which will entitle Officers under the New Furlough Rules, to Furloughs on private affairs to Europe or elsewhere beyond sea, with Pay, to be understood to include all leaves of absence *in India* or not. All such leaves (excepting only the privileged leave of absence in six months) to be reckoned against service towards Furlough on private affairs with Pay?

Decision

The ten years' service in India after which an Officer is entitled to a Furlough is understood to include all leaves *in India*. The second Furlough of two years is only granted after ten years' service in India from the date of return to duty after the first Furlough of two years.

All leaves in India are counted as service except for Barring Pension for which only a portion of an Officer's total leave in and out of India is to be reckoned.

9. Officers holding Staff or other detached appointments may be allowed Furlough for a period of six months without losing their appointments, but during that period will not be entitled to any portion of their Staff Salary, which will be drawn in full by the Officers claiming for them.

* LEAVE OF ABSENCE OR SICK CERTIFICATE

* 11. Leave of absence on such certificate will be granted for a term not exceeding eighteen months whether it be to any place in Europe or elsewhere out of India.

* 12. Extensions of such leave may be granted as they stand on production of medical certificates for further periods not exceeding three months in the whole.

* 13. An Officer holding a Staff or other detached appointment will be allowed to be absent on such certificate in England or elsewhere beyond six for a period of fifteen months without losing his appointment and during the first six months only of such absence he will be entitled to draw half the Staff salary of his appointment the other half of his salary for him drawing the remaining half salary during the first six months and the whole salary during the remainder of the term.

* 14. An Officer's claim to half Staff salary for six months is sanctioned in the preceding Rule will not be affected by his subsequently returning from the service in Europe or elsewhere.

G. O. No 395, of 26th April 1856—Under instructions from the Honorable the Court of Directors, the Right Honorable the Governor General in Council is pleased to publish the following Notification—

"The grant of leave of absence to Staff Officers on medical certificate, with half Staff Allowances for six months, and with the privilege of returning to their offices if their absence from India be not prolonged beyond fifteen months is bestowed by the Honorable Council in order to enable such Officers to regain their health and in the expectation that they will be thereby qualified to render additional service to the Government. But if leave of absence be taken merely to run out a prescribed period of service and without any intention of returning to duty, the principle on which the rule is founded is infringed and the indulgence of the Honorable Council is abused. Wherefore the Right Honorable the Governor General in Council hereby notifies for general information that if there be an avowed intention on the part of an Officer not to return to duty, or if the Government have valid grounds for concluding that the Officer has no intention to return to duty, the indulgence of leave on sick certificate, retaining office, will not be granted in future."

* 15. No portion of Command Allowance, Medical Staff Salary, or other similar allowance, which under the Old Rules was inadmissible to Officers absent from their Corps or Stations, at the Cape or elsewhere, will be allowed to absent Officers under these Regulations.

* 16. All Officers, whether Staff or Regimental, while on leave of absence on sick certificate, will be entitled for a period of six months to the same rate of Indian Pay and Allowances as was allowed under the Old Regulations, to Officers proceeding to the Cape on medical certificate, and for the remaining period of their leave they will receive Furlough Pay only.

"17. If the leave on such certificate be extended, Furlough Pay will be continued, but under no circumstances for a longer period than three years altogether from the commencement of the absence.

"STAFF OFFICERS"

"18. The term 'Staff Officers' applies to all Officers holding Staff or detached appointments, Military (General or Regimental), Political or Civil, also to General Officers commanding Divisions, Members of the Medical Board, Superintending Surgeons, and others who under the Old Rules were entitled to draw half Staff Allowance when absent at the Cape (See G. G. O. No. 111, of 30th January 1856, following Rule 31).

"19. Staff Officers absent on leave beyond the periods stated in Rules 9 and 13, respectively, cannot retain their appointments and allowances, except on special grounds, to be sanctioned by the Government of the Presidency. Any such special grant of leave is to be reported at once to the Honorable the Court of Directors, with the reasons for it and to be subject to their approbation.

"20. The privilege of retaining Staff appointments during leave of absence on sick certificate, or on furlough on private affairs, will not be available a second time, if the first leave is on sick certificate, until an Officer has been three years, or if on private affairs until he has been six years, in the discharge of the duties of his appointment from the date of last return to it.

(G. G. O. 27th August 1855)—With the sanction of Government, the following decision of the Government of India is published to the Army:—

"Under the New Furlough Rules furlough granted without Pay or other privileges, does not bar privileged leave hereafter."

"21. This Rule, however (No. 20), does not apply to leaves of absence, whether on sick certificate or on private affairs, in India, or for brief periods to Ceylon, the Mauritius, or other places out of India.

G. G. O. 12th July 1856.—The Government of India has fixed three months as the maximum period which is to be understood by the terms "short leaves" and "leaves for brief periods" used in Rules 7 and 21 of the New Furlough Regulations.

"22. Officers commanding Troops of Horse Artillery and Light Field Batteries, and Officers generally in employment, will be allowed leave out of India, under the same Rules with respect to allowances and tenure of command or office as regulated the grant of leave to the Cape to such Officers under the Old Regulations, except as to the duration of those advantages the time for their continuance being subject to the provisions of the New Regulations.

"DATE OF DEPARTURE, AND ADVANCE OF PAY"

"23. The period of Furlough on private affairs, or leave of absence on sick certificate is to be calculated from the date of the departure from India of the ship in which the Officer proceeds.

"24. Advances of Pay and Allowances, Staff and Regimental to Officers proceeding on leave of absence on sick certificate, who may be entitled to them, will be made in India for three months from date of embarkation. Payments in continuation will be made in England at the rates of exchange fixed annually for repayment of advances made on account of Her Majesty's Government. Furlough Pay will continue to be issued in advance for six months when required by Officers obtaining Furlough on private affairs.

G. G. O. No. 193, of 27th February 1856.—The Right Honorable the Governor in Council is pleased to notify to the Army, that it has been decided by the Government of India that every Officer proceeding to a British Colony within Indian limits, is entitled to the advance of pay authorised in the first Clause of Rule 24 of the New Furlough Regulations, but that such Officer shall be required to appoint an agent in India to draw the arrears which may accrue to him during furlough on either sick certificate or private affairs, if such an agent be not appointed, payment of the arrears shall be postponed till the return of the Officer to India, and every agent shall be required to give a sufficient guarantee for the refund of any payment that may fail to be recovered.

"25. The existing Regulations regarding Passage Money to Officers are not affected by these Rules.

26. The certificates issued to Officers who are granted Furloughs on private affairs or leave of absence on sick certificate, are to specify the time each Officer has been absent on leave within Indian limits, as well as the time of his previous absence in Europe, but will not include the periods allowed for proceeding to the Presidency or port of embarkation and to enable Officers to rejoin their Regiments or Stations after their return to India, nor the leave of one month's absence in six months is authorised by the Regulations. The last Pay Certificate of all Officers proceeding to England on sick certificate is to specify the rate of Regimental Pay and Allowances and Staff Salary to which they would have been entitled under the OLI Regulations if proceeding to sea on medical certificate. This information is necessary in order that no difficulty may arise in the Pay Department of the India House in adjusting the several payments which may be due (See various Orders following Rule 31)

G O C 27th April 1855—With the sanction of the Governor in Council the following decisions of the Government of India on questions connected with the revised New Furlough Rules are published to the Army—

Question

"Is it only such leave (not exceeding thirty days in six months) as may be granted under the special Regulation contained in G O C I No 341 dated the 20th March 1851 that is to be allowed to count as service or will Officers who may be absent from their Stations on leave granted to them under the ordinary Regulations for short periods to

between the 1st January and 1st July, and vice versa whether on private affairs or sick certificate be entitled to have a period not exceeding thirty days of such leave counted as service?

Decision

"Any short leaves not to reckon against an Officer's length of service but all leaves announced in General Orders which in the aggregate exceed the periods laid down in paragraphs 32 to 36 of the Government

* Bombay C C General Order No O No 775 (th 1150) of the 17th Nov Dec 1851

under last count against service and no deduction can be made from such leave except for the period allowed in Office preparatory to embarkation and to enable him to rejoin his Corps or Station on his return to India.

An Officer who has obtained leave for six months or any other period in the General Orders is not allowed to deduct the thirty days privileged leave which he might have taken without its being announced in General Orders. In such a case the whole period announced in the General Orders reckons against his service.

G O C 17th September 1855—With the sanction of Government, the following decision of the Government of India, having reference to Rule 26 of the New Furlough Regulation is published to the Army—

"Short leaves on private affairs for periods not exceeding thirty days, which have been granted to Officers in General Orders previously to 6th December 1854, are to be counted as privileged, provided they do not exceed an aggregate of thirty days in each half year."

G G O No 857, of 12th November 1855—With the sanction of the Regulations

noted in the margin the Right Honorable the Governor in Council is pleased to declare the following rule, obtaining under the Bengal Presidency, to be applicable to this Presidency also from this date—

"The thirty days privileged leave is to be calculated so as to include the day of return as one of leave, i.e., if leave be granted on the 15th July the Officer must rejoin on the 15th of August."

"OFFICERS OF HER MAJESTY'S SERVICE"

27. Officers of Her Majesty's Service in India whether employed Regimentally, or in Staff or detached situations, are entitled to the advantages above laid down in respect to allowances and tenure of office when on Furlough or leave of absence.

28. In the case of officers of Her Majesty's Service on Furlough or sick certificate, in England or elsewhere, who may retire or exchange into Regiments not on the

Indian Establishment the grant to these Officers of Indian Allowances will cease from the date of their recruitment or exchange, if it take place before the expiration of six months from the date of quitting India.

"PERIODS OF ABSENCE ALLOWED TO BE CONSIDERED AS SERVICE FOR RETIRING PENSIONS."

* 29. In order that all Officers quitting India on Furlough on sick certificate may be placed on an exact equality as regards loss of time the period allowed by Regulation for proceeding to the Presidency or to the nearest port of embarkation as well as the time to enable Officers to rep in their Corps or Station after their return to India will be considered as time counting for service for the Retiring Pension (See various Orders following Rule 31.)

The distances in the "fair season" are entirely by land, or partly by land and partly by water whichever is the most expeditious. Both by sea and river the passage is estimated by "country boat," and the month in which the longest passage occurs has been taken as the standard for the average length of passage.

The "fair season" as regards sea or river passage from to, and in bounds, is estimated to commence on the 15th October and end on the 15th April.

The "fair season" as regards all other water passages, lasts from the 15th of October to the 15th of May.

When the distance is entirely by land, ten miles per diem is allowed, without halt, by the nearest marching route.

G. O. C. 23rd June 1855.—With reference to the New Furlough Regulation, the Commander in Chief is pleased to direct that in future, Officers, not above the Regimental rank of Captain, who may return from Furlough or leave of absence beyond Presidency limits during the monsoon, or who, being on sick leave within Presidency limits may be reported fit for duty during that season, viz. between the 1st June and 1st October, shall be permitted in the event of their own Regts being too distant to admit of their at once rejoining, to do duty until the latter date with Regiments at the Presidency or other Stations at or near which they may be at the time, unless they should obtain leave of absence in extension on private affairs.

Officers belonging to Regiments at Ainchuck who may be circumstanced as above will remain attached to other Regts until the 15th December.

G. O. C. No. 235 of 8th March 1856.—The Right Honorable the Governor in Council is pleased to announce that the following Rule will be observed in calculating the periods of Officers absent on furlough in or beyond India:—

As respects Furlough in India the day of departure from a Regiment or appointment is one of leave and the day of return thereto is one of duty.

As respects Furlough beyond India, the date of final departure from India, viz. that on which the vessel conveying the Officer from India puts out to sea, is reckoned as one of furlough, and the day on which he returns to his Presidency is one of duty.

G. O. C. No. 190 of 28th January 1857.—Under instructions from the Government of India the Right Honorable the Governor in Council is pleased to direct that the rule promulgated in G. O. C. No. 235, dated 8th March 1856, regarding absence on Furlough shall be held applicable to privileged leave.

30. No Furlough or leave of absence is announced in General Orders' except in two cases: in twenty years' service, or three years in twenty-five years' service, and long service in thirty years' service. Shall be allowed to count as service forth Rejoining Pension, and no difference will be made in this respect between leave of Absence taken in Europe or elsewhere, in or out of India, or whether the leave be on sick certificate or on private affairs. (See General Orders' following Rule 31.)

G. O. C. No. 183 of 25th February 1856.—The Right Honorable the Governor in Council is pleased, with the sanction of the Government of India, to declare that the period during which Officers may have been or may hereafter be absent on leave for the purpose of accompanying Insane or Sick Officers is allowed to reckon as service for Pension under the New Furlough Rules, to the extent of the regulated travelling days.

G. O. C. No. 273 of 18th March 1856.—The Right Honorable the Governor in Council is pleased, with the sanction of the Government of India to declare that Officers returning from Furlough to Europe and intending to adopt the Overland Route who may be ordered to do duty with Regiments proceeding to India via the Cape of Good Hope, shall reckon service for Pension under the New Furlough Regulations from the date of arrival at their respective Presidencies of the Overland Mail Steamers on which they would otherwise have proceeded.

31. In the term 'leave of absence' as announced in General Orders' is to be included all leave of absence except the period allowed in Rule 29, and the ordinary indulgence of one month's leave in six months, as authorised by the existing Regulations, and which are in all cases, whether of Regimental or Staff Officers, to be allowed to count as service for Pension. All leave to a greater extent, granted by Political and other Authorities, which may not hitherto have been published in General Orders, must be so announced hereafter.

G. O. C. 29th May 1855.—With reference to Rules 26 and 31 of the New Furlough Regulations, and to G. O. C. No. 1, dated 26th ultimo, the Commander in Chief is pleased to establish the following Rules, in supersession of existing Orders, with respect to the grant by Officers commanding, Regiments, Stations, and Divisions or forces of leave of absence on private affairs to Officers (Staff and Regimental) serving under their respective commands.

1. The periods for which leave may be granted are limited as follows:—

By Officers commanding Regiments subject to the control of Officers commanding Stations

For periods not exceeding three days in the calendar month (between musters), within the Division or District, and limited to an aggregate of ten days in six months between the 1st January and 1st July, and *vice versa*

By Officers commanding Stations, subject to the control of Officers commanding Divisions or Forces

For periods not exceeding ten days in the calendar month (between musters), within the Division or District, and limited to an aggregate of twenty days in six months between the 1st January and 1st July, and *vice versa*, exclusive of leave granted by Officers commanding Regiments

By Officers commanding Divisions or Forces

To the extent of thirty days in six months, between the 1st January and 1st July and *vice versa* (inclusive of musters) within or beyond the limits of the Division or District and exclusive of leaves granted by Officers commanding Regiments and Stations

II All leave which may involve absence from the Station for one or more nights must be sanctioned in public Orders

III The period of leave specified in public Orders is to be understood as including the whole period of an Officer's absence from his Corps or Station, except when expressly sanctioned in extension of leave previously granted

IV Commanding Officers are strictly prohibited from granting leave of absence in extension of the periods for which leave may have been sanctioned by any authority superior to their own

V In every application for leave of absence the total period of leave previously enjoyed since the 1st January or 1st July is to be specified

VI When leave beyond the limits of the Division or District may be granted by Officers commanding Divisions or Forces the place to which it is granted must be specified in the Order except when sanctioned under the special provisions of G. G. O. No 211, dated 14th April 1851 (Jameson's Code, Arts 216 to 219 Section XXVI)

VII Leave of absence under the provisions of the G. G. O. quoted in the preceding paragraph can be sanctioned in those cases only in which Officers shall declare their *bona fide* intention to rejoin their Stations at the expiration of the leave applied for

VIII Officers commanding Stations may grant permission to Officers to proceed to places beyond the limits of the Division or District, in anticipation of the sanction of Officers commanding Divisions or Forces, in cases of pressing emergency, to be specially reported

IX Officers commanding Regiments, Stations, and Divisions or Forces, who may desire leave of absence must await the sanction of the next superior authority before quitting their commands except in cases of pressing emergency, which must be specially reported

X Medical Officers must obtain the sanction of the Superintending Surgeon before submitting applications for leave of absence from their Stations for any period exceeding three days

XI It is to be distinctly understood that with the exception of the short leaves within Divisions or Districts, which Officers commanding Regiments and Stations are above empowered to grant, no leave of absence on private affairs in excess of thirty days in six months can be sanctioned under any authority but that of the Commander in Chief or Government duly announced in General Orders

G. G. O. 22nd June 1855—It being required by the New Furlough Regulations that all leaves of absence on medical certificate, whether within or beyond India, and for whatever period shall be announced in General Orders, the Commander in Chief calls the attention of Officers commanding Divisions or Forces, and Stations, to those Regulations and directs that extracts of all Orders granting Officers leave of absence from their respective Stations, on medical certificate, be duly transmitted on the day of issue to the Head Quarter for publication in General Orders

When the medical certificate is issued for the purpose of procuring a leave of absence to be placed out of India, the purpose is to be specified in the Order in view to regulated travelling days being credited to the Officer in the Register of Furloughs

G. O. No 643, of 20th August 1855.—The Right Honorable the Governor in Council is pleased to direct that every Officer proceeding on leave be required to certify the dates of his departure from and return to his Station and that in every application preferred for leave on *private affairs* within Presidency limits the applicant be required to certify the total period of such leave previously enjoyed since 1st January or 1st July immediately preceding.

G. O. C 5th September 1855.—Consequently on the New Furlough Regulations, a Register of all Furloughs and leaves of absence in and beyond India granted to Officers in General Orders between the 1st January 1818 and the present time, has been prepared at the Adjutant General's Office at the Presidency where every Officer will be at liberty in future to see and take a copy of his own registered leaves of absence, or to depute any other person by a letter to the Assistant Adjutant General in charge of the Bombay Office, to do so for him. As there are probably many cases in which Officers may not have availed themselves of the full periods of the leaves in India mentioned in General Orders in past years, the unexpired portions (not already cancelled) of all such leaves will be credited to them and the Register corrected accordingly upon Officers furnishing certificates from Regimental or Station Staff Officers or (should the existing official records not afford the information) certificates upon honor under their own signatures of the dates on which they actually quitted and rejoined their respective Corps or Stations provided the certificates be received at the Adjutant General's Office at Bombay within six months from the date at which the Officer be now in India and if absent beyond India, within six months from the date of his return.

As every Officer will be able under the provisions of these Orders at all times to inform himself regarding the total period of his service in India counting for Pension the Adjutant General's Department is entirely exempted from further furnishing certificates of service to individual Officers.

Officers will address their communications on the subject of this Order to the Assistant Adjutant General at the Presidency, postage paid.

G. O. C 22nd September 1855.—With a view to obviate the necessity for an calling in General Orders the portions of leaves of absence *within Presidency limits* granted in General Orders to Officers under the New Regulations and to as of which they may not have availed themselves the Commanders in Chief are directed to notify under the authority of Government that all Officers will have the portions of their leaves credited to them in the Furlough Registers in the Adjutant General's Office provided they report by letter to the Assistant Adjutant General at the Presidency within one month from the expiry of the leave the precise dates of their quitting and rejoining their respective Corps and Stations and that in such reports, the whole period of leave published in General Orders will be debited against their service for Pension.

All Officers (however employed) will transmit the above reports direct to the address of the Officer in charge of the Adjutant General's Department at the Presidency postage paid. The reports of Officers serving Regimentally must bear the countersignatures of the Officers commanding their respective Corps.

G. O. C 16th October 1855.—Under the authority of Government the following Rules sanctioned by the Government of India, are published to the Army, with reference to the New Furlough Regulations:—

"I. All Officers proceeding on or returning from Furlough, whose absence beyond sea will be entitled to one month's preparatory leave at the ports of embarkation and debarkation in addition to the regulated travelling days, and to count the same as service for Pension, provided they quit their respective Corps or Stations with the avowed intention of applying for leave to sea or beyond the limits of the Presidency, and provided they proceed direct to the ports of embarkation.

"II. Officers who may be placed on Court Martial or other duty by order of the Commander-in-Chief or Government, while on leave of absence on private affairs, will be allowed to count as service for Pension the periods during which they may be so employed.

"III. Leave to the following extent may be granted to Officers to proceed to the Presidency on duty, for the purpose of being examined in the Native Languages before the General Examination Committee, and will reckon as service for Pension, viz:—

"The regulated travelling days, one month for preparatory study at Bombay, and the usual period of detention in attendance on the Committee.

"IV. Officers permitted to attend the Central School at Poona for instruction in

Military attainments, will be considered 'on duty,' and will be entitled to count as service for Pension the regulated travelling days, and six months in addition for residence at the Station.

V. Officers permitted to proceed to Stations at which Mounted Corps are located for the purpose of going through the prescribed Infantry Course of Equestration Drill will be considered 'on duty,' and will be entitled to count as service for Pension the regulated travelling days, and two months in addition for residence at the Station.

G. G. O. 5th December 1855.—With reference to G. G. O. No 857 dated the 12th ultimo the Right Honorable the Governor in Council has been pleased to decide, that in all cases of leave of absence on private affairs, which have been granted in General Orders previously to the date of the Order above quoted, for 'one month' (whether in cash leave or irrespective of musters) and in which the leaves may be shown to have been granted as 'privileged' the Officers shall be held entitled to reckon thirty days of such leaves for Pension, notwithstanding that they may have been actually absent from their Stations for thirty-one or thirty-two days, the day of return included.

The Right Honorable the Governor in Council has been pleased to decide that all leaves of absence on private affairs, within Presidential limits which have been or may hereafter be granted to Officers on their return from furlough or leave beyond sea, commencing, relieved from staff or other detached duty, in consideration of them being prevented by the Rules contained in Articles 31, 86 and 87, Section XXXII, James's 1st, from at once proceeding to join their Stations in India or being posted, shall reckon as service for Pension under the New Furlough Regulations.

When private Officers so circumstanced will in future be employed on duty, or attached to some Corps, until the season shall admit of their joining their respective Stations.

G. G. O. No 111 of 30th June 1856.—Referring to that part of the General Order by the Governor General of India of the 17th November 1851, which requires that part of absence to be counted as service for the retiring Pensions of Officers of the Army the Right Honorable the Governor in Council is pleased to prescribe the following Rules regarding the notification of leave of absence granted to Officers of the Staff with a view to the maintenance of an accurate Register in the Office of the Adjutant General, and in order that all Officers quit India may be placed on a satisfactory scale, and loss of time counting as service.

1st—All leave of every description, privileged or unprivileged, which is granted by Government, is to be notified in the Military General Orders.

2nd—Every Order granting leave of absence is to express the date from which it is to commence and the date to which it is to extend.

“32. Officers to be entitled to retire on the Full Pay of their Regimental Rank (under the Regulation of 1796), must have served twenty-two years in India, out of which leaves of absence for two years in the aggregate, and not more, shall be allowed to count as service for the Retiring Pension.

G. G. O. No 878 of 23rd September 1857.—The following Extract paras 18 and 19, of a Military Letter from the Honorable the Court of Directors to the Government of India, No 126, dated 22nd July 1857, are published for general information—

18.—By the Regulations established for the promotion of Lieutenant Colonels to the rank of Colonel after three years' service, it is provided that no longer period than one month in each year, or a total of three months in three years, or six months in six years, shall be allowed to reckon whether the leave shall have been spent in India or out of the country, except in cases of wounds or illness contracted by service in the field, duly certified by a Medical Board, when each case will be separately considered with reference to the time to be allowed.

Letter dated 6th March 1857, No 28.
Request Court's decision on the question whether leave of absence in or beyond India, taken in consequence of wounds received in action, shall be allowed to reckon as service for pension both under the Old and New Regulations.

19. In reply to the question now put to us, we have much satisfaction in stating that we are prepared to extend the benefit of the exception above specified to the time required for retirement on full pay. Every claim to the benefit of this exception must be duly certified by a Medical Board, and be forwarded to us for our decision, accompanied by the opinion thereon of the Government and Command-in-Chief of the Presidency to which the Officer belongs.

“38. The privileged time of absence must, with the permission of the local Govern-

ment, be taken at any time, subject to these Regulations. If, therefore, at the end of twenty years' service of which eighteen had been passed on actual duty in India, an Officer should be on Furlough on such certificate in Europe or elsewhere he will be entitled to retire on the full Pay of a Captain without returning to India and so in the other terms of service for the higher Pensions. In like manner, a Medical Officer on Furlough on such certificate, in Europe or elsewhere at the end of seventeen years' service fifteen years and four months of which had been passed on actual duty in India will be entitled to retire on the lowest rate of Pension without returning to India, and so in the other terms of service for the higher Pension.

"39. These Rules do not in any way affect the existing Regulations regarding the grant of leave in India, or for short periods to sea whether on private affairs or on sick certificate except as to the periods of such absence being taken into calculation in the time allowed to count as service for retirement on full Pay.

G. O. C. 27th April 1855.—With the sanction of the Right Honorable the Governor in Council the following decisions of the Government of India on points connected with the revised New Furlough Rules are published to the Army:—

CIVIL ABSENTEE RULES

1 FORT WILLIAM, FINANCIAL DEPARTMENT THE 8TH JUNE 1855

The following Rules for the grant of Leave of Absence, for regulating Deductions on Salaries and Deputation Allowances, and for limiting the period of service of Civil Servants, are published for general information and will take effect in all the Presidency and Settlements under the Government of India from the date of the publication of this Notification, in pursuance of the Rules of the 17th May 1843 and the 25th August 1854 —

CHAPTER I

RULES FOR APPLICATION FOR LEAVE OF ABSENCE

Section I—No leave of absence from any Office or Station can be granted but by the Government under which the applicant is held and on the application of the party requiring such leave saving in such cases as may hereafter be specially excepted. The application must be made publicly, through the regular channels, in the Department to which the applicant may belong.

Note—This Rule must be considered as superseding the Rule under which Commissioners of the Land Revenue and other Officers have hitherto been allowed to grant leave of absence in Bengal.

Section II—The Official Allowances of the holder of a Civil office quitting his Station without leave will entirely cease from the date of his quitting until his return or, in the event of his subsequently obtaining leave to the date of such leave being granted to him.

Section III—No leave of absence shall have any retrospective effect except in cases of severe illness to be attested by medical certificate conforming in every respect to the directions contained in Section V.

CHAPTER II

RULES FOR SICK LEAVE

Section I—Upon application duly made, the Government may grant leave of absence on medical certificate to any Civil Servant to any place in India in Europe or elsewhere as he may consider most conducive to the restoration of his health without any restrictions whatever as to the places to which he may resort.

Section 2—When an application for leave of absence is made on the ground of ill health it must be accompanied by a certificate and a statement of the case from the Medical Officer by whom the applicant has been attended distinctly stating from personal observation the nature of the disease the symptoms by which it is manifested the period during which it has existed, as far as the knowledge of the Medical Officer extends, and the necessity for temporary removal to some other place in India, or in Europe or elsewhere, as laid down in Section 13. and in case of the applicant visiting the Presidency preparatory to obtain leave the certificate must be countersigned by the Members of the Medical Board on their being satisfied on a perusal of the Medical Attendant's statement of the case, that the leave applied for is absolutely necessary towards his recovery. Should the applicant's Medical Attendant be of opinion that he ought to proceed to a Sanatorium or other place without visiting the Presidency, the certificate must, in the first instance be countersigned by the Superintending Surgeon of the Division in which the applicant may be located, and afterwards submitted with the statement of the case, for the consideration and countersignature of the Members of the Medical Board.

The certificate shall be given in the following form —

"I, A. B., Surgeon at or of —, do hereby certify that E. F., of the Civil Service, is in a bad state of health, and I solemnly and sincerely declare that according to the best of my judgment, a change of air is essentially necessary to his recovery, and do therefore recommend that he may be permitted to proceed to sea (or to such place as the Surgeon may think proper, expressing it in the certificate)."

The following form shall be observed by the Members of the Medical Board or the Superintending Surgeon, in countersigning the Surgeon's certificate —

"We (or I) do hereby certify, that, according to the best of our (or my) professional judgment, after careful personal examination of his case we (or I) consider the state of health of E. F. to be such as to render leave of absence for a period of ———— absolutely necessary (or highly desirable) for his recovery."

An application for extension of leave must, if the applicant be in India, be accompanied by a certificate to like effect from the Medical Officer by whom the applicant attended, together with a statement, showing sufficient reason for the extension solicited, and such certificate must be countersigned by the Members of the Medical Board or by the Superintendent Surgeon of the Division in which the applicant may be located in the case only on perusal of the statement. In like manner, if the applicant shall have proceeded beyond the frontiers under the Government of the East India Company, he must furnish a similar statement to the required effect from a Surgeon-Physician at the place of his temporary residence by whom he has been attended and attendance and the period of it, to be stated and the certificate to be countersigned by the Examining Physician of the East India Company, if the applicant is in England, or, if not in England by the principal Medical authority of the colony or country to which the absentee may have proceeded or some sufficient reason stated for the want of such countersignature if the certificate be not so countersigned. The Medical Board or Superintending Surgeon before countersigning a certificate as above mentioned must either personally examine the applicant or state some sufficient reason why they or he have or both been unable to do so. When any of the required particulars are neglected, leave will be refused.

Section IV—The following conditions will in future attach to leaves of absence granted to Civil Servants who may be declared by a sufficient medical certificate to require such leave for the recovery of their health:—

1st—The total period of leave with the privileges hereinafter provided shall not (save as specially excepted in Clause 5 of this Section and in Section VII of these Rules) exceed eighteen months in the whole nor shall it exceed fifteen months on any one occasion.

2ndly—The office of the absentee will be considered to be vacated if he shall be absent beyond eighteen months altogether or beyond fifteen months at any one time unless he shall obtain leave under Clause 5 of this Section, such absence to be computed, if he shall proceed to a Sanatorium within the Presidency from the date of his arrival there to the date of his quitting the Sanatorium, if to any place beyond the Presidency but within the continent of India, from the date of his leaving the frontier of his own Presidency to the date of his return thither, and if he shall proceed to sea, from the date of the sailing of the vessel on which he may have embarked from any port in India which is not more distant from his Station than the ports of his own Presidency to the date of the arrival at any port within the Presidency to which he belongs, or at any other port which is not more distant from his Station than the port of his own Presidency.

3rdly—The absentee will be entitled to draw a moiety of his Salary, and the same will be paid to him during such period of absence, provided that he shall in no case draw a larger sum than Rupees 10,000 (£1000) per annum during that period in cases in which the emolument of the absentee's office does not exceed Rupees 5000 per annum, no deduction therefrom shall be made for the period of eighteen months, nor shall such a deduction be made in other cases as shall reduce the allowance below Rupees 5000 (£500) per annum. In cases in which the Salary of the absentee may not be of that amount, the full Salary will be granted.

4thly—For the interval elapsing between departure from Station to the commencement of reckoning absence, or between the end of reckoning absence and re-arrival at Station, the absentee will be allowed a special leave for an additional period of one month, two months, or three months, according to the distance to be travelled, as prescribed in Section XX of these Rules, and during this additional period the absentee will be entitled to draw the same Salary as is allowed by Clause 3 of this Section.

Civil Servants proceeding on sick leave beyond sea, will be allowed special leave for the interval elapsing between departure from Station and the commencement of reckoning absence, and between the end of reckoning absence and re-arrival at Station, for an additional period of four, six, or eight weeks, according as the distance to be travelled shall not exceed 300 or 600 miles, or be in excess of the last-mentioned distance, on the condition that during this additional period the absentee shall be entitled to draw the same rate of allowance as laid down in Clause 3 of Section VI. If the leave on medical certificate be taken in India, the preparatory leave is to be calculated at the rate of one day for every fifteen miles of the distance to be travelled to the Sanatorium. (Notification of the Government of India, 14th October 1857.)

Separate applications for the special leave above referred to are no longer required, in the cases of Civil Servants proceeding on leave on medical certificate. In cases of Furlough on private affairs, separate applications for leave for the purpose of

travelling must still be submitted (Resolution of the Government of India 17th April 1877)

5thly (As amended by the Government of India on the 22nd December 1878)—If the absentee shall apply, under medical certificate, to remain absent in a longer period than eighteen months or fifteen months at any one time, and it shall appear to the Honorable the Court of Directors to be absolutely necessary after examination by their Medical Officers in England, that he should do so, the leave which may have been granted in India will under the orders of the Honorable Court be extended to the limit of two years with permission to return office and half salary within the limits enjoined during such extension. If the absentee be in India, the leave may be extended to the limit aforesaid under the orders of the Government of India or the subordinate Governments upon the certificate of a Board of Medical Officers to be submitted to report on the state of the absentee's health.

6thly—If the absence be compelled by the state of his health under due medical certificate to remain absent for a longer period than eighteen months or fifteen months at any one time or beyond two years in the case of an extension under Clause 4, he will as before stated vacate his appointment but he will be permitted to receive an Allowance at the rate of £500 per annum if above ten years stand in at the time when the leave was granted or of £250 if not above ten years standing at the time when the leave was granted for such further period of absence as shall not exceed the entire term of three years in the whole. At the expiration of that term all allowances must cease until he reports his return to his Presidency.

Section III—If a Civil Servant of more than fifteen years' service after having been absent on sick leave for eighteen months in the whole or for fifteen months at one time at whatever period of his service such absence shall have been taken shall be again compelled by the same cause to apply for leave of absence the Government of India and the subordinate Governments may on special grounds grant leave of absence for one further period not exceeding six months during which the absentee may retain his office and half his salary under the limits above enjoined.

Section IIII—If a Civil Servant after fifteen years' service shall be compelled by ill health to apply for further leave of absence he may be permitted on special grounds to obtain it but his absence will involve the loss of office and salary the Government of India and the subordinate Governments will however respectively exercise a discretionary power to grant in such last mentioned cases such Allowance not exceeding Rupees 5000 or £500 per annum for a further period not exceeding twelve months.

Section V—A Civil Servant who has taken such leave under the Rules of the 17th May 1843 will not be debarred by that circumstance from taking such leave again under the above Rule with the privilege of returning office, provided the leave be not granted till three years have expired after his return from his leave under the Rules of 17th May 1843.

Section VI—None of the above mentioned Rules will be applicable to Members of Council. Such Member may, however, with the special sanction of the Government be permitted to be absent, under medical certificate for a period not exceeding six months, retaining his office and receiving half his salary which shall be paid to him during such absence, but if his absence shall exceed six months his office will be vacated.

Section VII—Civil Servants who may desire to draw their Allowances while absent on account of sickness under the above Rules, will be required to give security, in such amount and form as may be fixed by the Government, for the refund of any excess that may be drawn either by the Agents at the Presidency or by themselves, in case of their coming under retrenchment.

CHAPTER III

RULES FOR SHORT LEAVE ON PRIVATE AFFAIRS

Section XII (As amended by the Government of India on the 8th May 1856)—The Government may grant to Civil Servants leave of absence to any place in India, Europe, or elsewhere, without any restriction whatever as to the place to which they may resort, for one month in each calendar year, without deduction from the Salaries and Emoluments drawn by such Servants. Such leave however, will only be granted

when the Government is satisfied that no inconvenience will arise from the departure of the officer seeking it. No second leave can be granted under this Rule until the completion of six months from the expiration of the last leave, if taken at one time, or from the expiration of return from any sick leave, or until the completion of six months of the last instalment of a leave, if it has been divided. Servants not requiring themselves of the indulgence in any one year may obtain under the like

conditions leave of absence for two successive months to commence at or after the expiration of twenty-two months from the termination of their former leave and if two years elapse without enjoyment of the privilege leave for three months may, in like manner, be granted at the expiration of thirty-three months from the termination of the last preceding leave but no leave shall be granted under this Rule for any period exceeding three months. If an Officer shall not return at the expiration of the period of leave granted him under this Rule he shall forfeit all Pay and Allowance during the time of his continuing so absent without leave and if he shall so continue absent for more than one month beyond the term granted, his office shall become vacant.

When the leave is divided it is not necessary that six months should elapse before granting the second instalment provided it is taken in the same calendar year. (Decision of the Government of India page 1869 of the Calcutta Government Gazette of 1856.)

Leave under Section XII cannot be granted in part in to Europe or return from the Service and to have the benefit of its advantages the party must continue to serve unless disabled by section 13 for three months from the date of his return from privilege leave. (Notification of the Government of India 19th September 1856.) Privilege leave may, however, be granted on half salary under the same Notification.

An officer absent on leave under Section XII cannot draw salary until he returns to his Station. (Notification of 11th July 1856.)

Civil Servants absent from their Stations under medical certificate cannot be admitted to leave under this Rule in continuation of their sick leave and if while absent under this Rule they be granted extended leave under medical certificate they shall be considered liable to the Rules applicable to leave of absence on medical certificate for the whole period of their absence.

Civil Servants who have been absent on medical certificate during any portion of a calendar year are not entitled to leave under this Rule during that year, but in determining the interval necessary to entitle a person to leave under this Rule no reference will be made to any intermediate leave of absence that may have been granted under Section XIV. (Clause 1.)

Leave taken under Section XIV must be held to be an interruption in calculating for the grant of leave under Section XII and the computation must be subject to renewal from the date of the Civil Servant's return from the former. (Para 1st of the Honorable Court's Decree No 6 of 14th January 1857.)

*Section XIII (As amended by the Government of India on the 8th May 1856).—*As a general rule when leave is granted under Section XII such leave will be in one period only whether for a whole month or less, and not in detached portions to complete one month but, as an exception to this Rule, it shall be discretionary with the several local Governments where good cause is shown for the indulgence and it is attended with no public inconvenience to sanction leave of absence under this Rule, to such parties as may not have occasion to apply for the whole at once in two instalments only, which are not to exceed in the aggregate one month within the calendar year.

*Section XIV Clause 1 (As amended by the Government of India on 22nd December 1855).—*The Government may, on sufficient cause being shown, grant to a Civil Servant special leave of absence on private affairs for six months to any place in India, Europe or elsewhere, without any restrictions whatever as to the place to which he may resort, provided however, that the absentee shall draw no more than one half of his salary and allowances. After an absence of six months any office held by the absentee shall become vacant.

*Clause 2 (As amended by the Government of India on 22nd December 1855).—*The leave granted under this Section, if taken in India will be computed from the date of the absentee's quitting his Station to the date of his return thereto and if taken to Europe, or beyond Indian limits, from the date of the sailing of the vessel on which he may have embarked from the Port nearest to his Station, to the date of his arrival at the same on his return to duty. A second leave of the same description cannot be taken till the expiration of six years from the date of return to duty from a former leave. No portion of the half salary allowed to be drawn will be claimable till the absentee has returned to his duty.

For the interval elapsing in the case of leave taken to Europe or by limits, between departure from Station to arrival at the Port of embarkment, return to Port and re-arrival at Station, the Government may grant, at its discretion, on the special leave, such an additional per

be considered to be absolutely required to enable the absentee to reach the Port of embarkation or to return from the Port of disembarkation to his Station.

Clause 3.—It will be understood that leave under this Section is not a matter of course to every applicant but that it will be the duty of the Government to consider and determine whether the grounds of the application are sufficiently urgent to justify the concession of the leave.

Clause 4. (Notification of Government of India republished and dated Bombay Castle 17th June 1857).—In the event of a Civil Servant who absent on special private affairs leave under Section XIV of the Rules falling sick and being prevented extended leave under medical certificate he shall be considered liable for the whole period of his absence to the Rules applicable to leave of absence on medical certificate.

Leave under Section XIV cannot be allowed in continuation of leave granted under Section XII (Government Notification 11th December 1845) and cannot be granted by instruments (para 85 of the Court's despatch No. 97 dated November 1856 Government endorsement No. 323 of the 16th March 1857).

CHAPTER IV

FURLOWHS ON PRIVATE AFFAIRS.

Section XI.—In the place of the period of three years (in one term) in which Furlough has hitherto been granted Civil Servants will be allowed the option of taking a Furlough of three years or of dividing the Furlough into three periods of one year each to be taken after successive periods of seven years service into two periods which may either be of one and two years respectively or of sixteen months each provided that in every case the Civil Servant shall declare on taking his Furlough whether he intends it to be for twelve, eighteen, twenty-four or thirty-six months in order that the Government may make its arrangements accordingly. In the division into two periods the first Furlough must be taken after a residence of not less than ten years and the second Furlough after a further residence in India of ten years from the date of return from the first Furlough but Civil Servants returning on Furlough from Europe will continue, as at present, to vacate their offices.

Civil Servants who have had sick leave beyond six years cannot take Furlough to Europe on private affairs until six years from the date of return to their duties in such as a leave. This rule however does not apply to short leave taken on medical certificate (para 154 of the Bombay Government Gazette of 1847) or to leave granted in accordance with Civil Servants having special leave under Section XIV of the Absentee Rules (Para 1987 of the Bombay Government Gazette of 1846).

Section XII.—The Furlough Allowance granted during the periods mentioned in the last Section will be at the rate of £500 per annum and the receipt of it will not in any grounds whatever be permitted for any longer period than three years.

Section XIII.—Civil Servants who may have been compelled by sickness to quit their duty under medical certificate before completing seven years residence in India, will be entitled to receive during their Furlough on private affairs taken subsequently to their completion of that period of residence, the ordinary Furlough Allowance of £500 per annum for three years.

Section XVIII. Clause 1.—In applying the foregoing Rules in substitution of those before existing, periods of absence to the limit of three years will count as service in India in the twenty-five years entitling to the Annuity the present qualification of twenty-two years residence being retained.

Clause 2.—Absence on medical certificate to the extent of one year will reckon as service and residence in India, and be so computed, in addition to the three years of absence which under the Clause next preceding, are allowed to be reckoned as Indian service. All periods of short leave of absence on private affairs taken under Sections XII and XIV of these Rules, will also count as service and residence.

Section XIX.—Military Officers employed in the Civil Department will be subject to the Rules laid down in General Order No. 1150, dated 17th November 1854, for the grant of leave of absence and Furlough to Officers holding Military Staff Appointments.

CHAPTER V

RULES FOR JOINING STATIONS.

Section XX.—There shall be allowed to Officers appointed to any new office the

NOTE.—The time allowed for joining periods of one month, two months, or three months for joining, accordingly as the distance may not exceed 300 or 600 miles, or be in excess of the last

in national distance. Officers not joining their Station within the said periods, respectively, shall forfeit their Salary for the time delayed in excess of the above periods, and if such excess shall exceed one month, the office shall be vacated, unless otherwise specially ordered by Government.

Section LIII—Upon the first appointment of any Civil Servant, who shall be reported as qualified for Public Service by the examiners appointed by the Government, to any Civil Station, there shall be allowed for travelling expense to the Station an Allowance at the rate of Rs. annas per mile by the direct post road according to the Poly metric Tables of the Post Office, the bill for which Allowance will be paid by the Civil Authority after the Officer shall have joined the Station, it required in advance, an order of the Government shall be necessary.

Section LIV—The duty of office will be payable from the date only of the Officer joining, but in case of Junior Civil Servant, the Salary of Assistants will be payable from the date of their being reported qualified for the Public Service, unless for the first month the period of probation is delay in joining the Station to which they may be appointed.

Section LV—In case of a change of Office, when an Officer is appointed to a higher station he shall not draw the full Salary until he joins. For the part of the salary incurred in travelling, the Rule No. XX regulating the time and distance for joining shall be applicable, and the Officer will for the periods allowed in that Rule, respectively draw out of the Salary of the office he is about to join a sum equal to that of his previous situation.

CHAPTER VI

RULES FOR DEPUTATION ALLOWANCES

Section LVI—The sum of Company's Rupees 52,200 per annum having been fixed, under the orders of the Court of Directors, as the maximum Salary of Civil officers in the offices of Government under the situation of Member of Council, Civil Servants who may draw larger Allowances than this annual sum, as a consolidated personal and subsistence Allowance, in consideration of the necessary expenses of their position, will in all cases of absence, be treated in respect to deductions as drawing only the Allowance thus limited, and the excess above the monthly Salary yielded by that annual sum shall remain as a local addition to the usual Deputation Allowance to be drawn by the Officer performing the duties to meet the necessary expenses of his position, provided however that in the cases of Civil Servants appointed to offices of the description referred to subsequent to the 2nd June 1853, the sum of Rupees 50,000 shall be held to be the maximum Salary, under the Government Resolution No. 563 of that date.

Section LVII—This rule will equally apply in case of a Political Resident taking leave of one, two, or three months, for which month he would suffer no deduction. The excess above the maximum monthly Salary will in that case be enjoyed by the person in charge.

Section LVIII—Deputation Allowances shall be granted to Civil Servants temporarily performing the duties of an office according to the following rates, and subject to the limitations and conditions hereinafter laid down—

To Civil Servants not holding any substantive appointment at the rate of 50 per cent on the monthly Salary of the appointment offered in such Deputation Allowance, in addition to the Subsistence Allowance of their respective ranks.

To Civil Servants holding an office of inferior emolument, when officiating in an office of superior emolument, at the rate of 20 per cent upon the monthly Salary of the appointment offered in, in all cases in which the salary of such appointment shall not exceed Company's Rupees 2,000 per mensem, and in respect to all appointments of which the Salary shall be more than Company's Rupees 2,000 per mensem at the rate of 20 per cent upon Company's Rupees 2,000 and of 10 per cent on the amount in which the monthly Salary may exceed Company's Rupees 2,000, provided, however, that no lower rate of Deputation Allowance shall be given than Rupees 200 per mensem.

The Deputation Allowance shall in all cases be in addition to the Salary of the substantive appointment held by the Officer on Deputation.

The above rates are granted provisionally, subject to future revision.

In the Punjab, Nagpore, and other places where appointments are by classes, the amount of Deputation Allowance shall be as follows—

A Civil Servant acting in an appointment the Salary of which is to be reduced on the retirement of the present incumbent, will draw Deputation Allowance on the reduced salary.

An Officer officiating in more than one appointment will be entitled to Deputation Allowance, regulated by the aggregate amount of the salary of the offices.

An Officer appointed permanently to a higher situation, but prevented from joining his appointment by an order of Government, and detained to officiate in a situation of still higher emolument than the one to which he has been permanently appointed, will be entitled to a Deputation Allowance in addition to the higher salary to which he has been promoted.

Section 1117—No Civil Servant temporarily officiating for another shall draw an amount larger than the entire emoluments of the office in which he is officiating, and if the amount of the Deputation Allowance, according to the prescribed scale, added to the permanent emoluments of the officiating Servant would exceed the emoluments of the office in which he is temporarily acting, the excess shall not be drawn. But this provision shall not apply to the case of any Officer deputed for special reasons to act in an office of inferior emolument to his own. Thus, where an Officer, holding two appointments, on being deputed to officiate in a third, shall be relieved only from one, he shall receive no Deputation Allowance unless the emoluments of the office in which he is deputed to act exceed the entire emoluments of his permanent appointments, and in that case the Deputation Allowance shall be limited to the difference.

Section 1118—No subordinate Officer acting for his principal or for any other person holding a superior appointment, in the same office or establishment, at the same station shall be entitled to any Deputation Allowance until after the expiration of one month, and then the Allowance is not to be drawn in arrears. But a Servant previously out of employment, or who may be deputed to officiate in a vacant station, shall be entitled to Deputation Allowance from the date at which he may enter upon the discharge of the duties to which he has been temporarily appointed.

Section 1119—Civil Servants deputed to act at a distance from the place where they are employed or ordered by Government on special duty, shall be permitted to draw Travelling Allowances at the rate sanctioned in the case of a first appointment.

CHAPTER VII

RULES FOR LIMITING THE PERIOD OF SERVICE

Section 1121—After thirty-five years' service no Civil Servant shall be appointed to any new office, nor be permitted to retain an office which he has held for a period of five years and upwards, except in special cases which are to be referred to the decision of the Honorable the Court of Directors. This Rule will be applicable to every Civil Servant appointed to office after its promulgation and to the case of every other Civil Servant to whom it relates at the close of five years from the 24th Aug., 1854.

CHAPTER VIII

RULES FOR THE GRANT OF LEAVE OF ABSENCE TO LAW OFFICERS

Section 1124—The East India Company's Law Officers may take furlough on private affairs and on medical certificate, under the conditions prescribed in the cases of Civil Servants; both as respects the periods of absence and the limitation of Allowances during such absence. Leave will, however, only be granted at the convenience of the Government and no additional expense will on any occasion be incurred by the Government on account thereof.

If any Law Officer shall quit his duty sick or have under medical certificate or on short leave on private affairs, he will be considered to have vacated his appointment.

CHAPTER IX

RULES FOR CHAPLAINS AND ASSISTANT CHAPLAINS

Section 1125—Chaplains and Assistant Chaplains may take furlough on private affairs and on medical certificate, also private leave and leave on private affairs and on medical certificate in or out of India, on the same terms and conditions as Military Officers, with the following modifications:—

1st.—Chaplains being allowed to retire after twenty years' service the period of Furlough on private affairs is in their case limited to the present term of three years. The Furlough may, however, either be taken in one period or be divided into two periods, whether of eighteen months each or of two years and one year respectively, and if

divided, the first Furlough may be taken, as at present, after seven years' residence, and the second Furlough after a further residence of ten years in India. As respects Chaplains and Assistant Chaplains appointed before the 11th January 1854, when the period of service was only eighteen years, their second Furlough, if they should exercise the option of taking Furlough in two periods, will be available after a second residence in India for a term of eight years.

2ndly—No Furlough or leave of absence, whether on private affairs or on sick certificate, taken in Europe or elsewhere out of India, in excess of three years, will be allowed to count as service in India in the twenty years which qualifies Chaplains for their Retiring Pensions.

The new Rules not to have retrospective effect so as to deprive Chaplains of the privilege of counting as service leave already taken under the old Rules (Para 3 of the Honorable Court's despatch No 21, of 5th March 1856)

Section XXXIII—The Furlough Pay of Chaplains will remain as at present. With regard to their Allowance during sick leave to any place out of India, they shall receive Salary (but at a rate not exceeding £600 per annum) for the first six months of absence, and, for the remaining twelve months, an Allowance equal to the Furlough Pay of their standing. If the leave be extended, an Allowance equal to Furlough Pay may be drawn for a further period of eighteen months.

Chaplains and Assistant Chaplains may be granted leave of absence in India on medical certificate to the extent of one year on their full salaries, subject to a deduction of one-third, but not to reduce the salary below Rs 500 (Para 4 of the Honorable Court's despatch No 21, of 5th March 1856)

Chaplains and Assistant Chaplains may have privilege leave once in every six months, and be allowed accumulated privilege leave to the extent of three months after eighteen months' continuous duty (Para 5 of the same despatch)

Chaplains and Assistant Chaplains granted sick leave to Europe or beyond sea, to receive salary at the rate of Rs 500 for the first six months, and their Furlough Pay for the remainder of their leave (Para 4 of the Honorable Court's despatch No 78, of 5th September 1855)

Leave under Section XII cannot be granted preparatory to Furlough or retirement from the Service, and to have the benefit of its advantages the party must continue to serve, unless disabled by sickness, for three months from the date of his return from privilege leave (Notification of the Government of India, 19th September 1856). Preparatory leave may, however, be granted on half salary under the same Notification (Declared applicable to Chaplains and Assistant Chaplains by Government Letters No. 1, of 3rd January, and No 87, of 5th March 1857)

Section II—Absence without leave will render the absentee liable to loss of appointment and will be attended with entire forfeiture of salary for the whole period of such absence

Section III—No leave of absence shall have any retrospective effect, except in cases of severe illness to be attested by medical certificate, conforming in every respect to the directions contained in Section IV

If the requisite leave be for a longer period than six months, the certificate must in the first instance be countersigned by the Superintending Surgeon of the division in which the applicant may be located, and in cases of leave beyond sea, be afterwards submitted, with the statement of the case, for the consideration and countersignature of the Members of the Medical Board

The certificate shall be given in the following form —

The following form shall be observed by the Superintending Surgeon and Members of the Medical Board in countersigning the certificate —

An application for extension of leave must, if the applicant be in India, be accompanied by a certificate to a like effect from the medical officer by whom the applicant is attended, together with a statement showing sufficient reason for the extension sought, and such certificate must be countersigned by the Members of the Medical Board, or by the Superintending Surgeon of the division in which the applicant may be located. Section V—Leave of absence will be granted under the following limitations to servants who may be declared by a sufficient medical certificate to require leave for the restoration of their health—

1 The limit to leave on medical certificate is fixed at three years during the entire period of service of which not more than two years may be continuous, and two years only will be permitted to reckon as service qualifying for pension.

2 Leave of absence on medical certificate will not be granted for a longer period than twelve months at any one time, which may however be extended, if necessary, under renewed medical certificate, for periods not exceeding six months within the limit of two years continuously. After a continuous absence of two years on medical certificate, an interval of two years shall elapse before further leave on that account is granted.

3 During one year of the entire period of absence under this rule, the absentee will be subjected to a deduction of one half and during the remainder to a deduction of two thirds of his allowances provided however, that he shall in no case draw a larger sum than Rupees 8 000 (£600) per annum.

4 In cases of extreme urgency the heads of offices are authorised to grant leave of absence on medical certificate to the extent of one month, provided the same be immediately reported for the sanction of Government.

Uncovenanted Servants proceeding on sick leave beyond sea, will be allowed special leave for the interval elapsing between departure from station and the commencement of reckoning absence and between the end of reckoning absence and re-arrival at station for an additional period of four, six, or eight weeks according as the distance to be travelled shall not exceed 300 or 600 miles or be in excess of the last mentioned distance on the condition that during this additional period the absentee shall draw the same rate of allowance as laid down in clause 3 of Section V. If the leave on medical certificate be taken in India, the preparatory leave is to be calculated at the rate of one day for every fifteen miles of the distance to be travelled to the Sanitarium (Notification of the Government of India 11th October 1857).

Separate applications for the special leave above referred to are no longer required in the cases of Uncovenanted Servants proceeding on leave to Europe on medical certificate. In cases of furlough on private affairs separate applications for leave for the purpose of travelling must still be submitted (Resolution of the Government of India, 17th April 1857).

Section VI—Puties who may desire to draw their allowances while absent on leave, will be required to give security, in such amount and form as may be fixed by Government, for the refund of any excess that may be drawn in case of their coming under retrenchment.

Personal security sufficient, according to the form laid down (Notification by the Government of India, 2nd January 1850).

CHAPTER III

Section VII—Leave of absence may be granted for one month in each year or to judicial officers, during the authorised closing of the civil courts, without deduction from salary.

Privilege leave, if taken in broken periods of a month, can be granted in two instalments only, not to exceed one month in the year. If taken for a whole month, eleven months must elapse from the expiration of the last leave, before a fresh leave can be granted, if taken by instalments, six months from the termination of the last instalment taken in the previous year (Government Notification 23rd July and 15th October 1856. Also 2nd para of Notification, 28th April 1857). The instalments may be granted within six months, provided they are taken in the same calendar year (Vide page 1547 of the Calcutta Government Gazette of 1857).

An Uncovenanted Servant is not entitled to leave on private affairs in continuation of privilege leave (Notification, 15th November 1856)

An Uncovenanted Servant not returning at the expiration of his privilege leave, shall forfeit all pay and allowances during the time of his remaining so absent without leave, and if he shall so continue absent for more than one month beyond the term granted, his office shall become vacant (Resolution of the Government of India, 23rd January 1857)

Uncovenanted Officers of the Educational Department are not entitled to leave under Section VI in addition to the leave granted to them during the vacations (Resolution of the Government of India, 26th September 1856)

Uncovenanted Servants may, at the option of Government, obtain accumulated privilege leave for two or three months, according as they may have been unemployed rapidly at their duties twenty-two or thirty-three months since they last had leave (Government Notification, 20th July 1857)

Judges of the Small Cause Court may, with the sanction of Government, obtain leave for one, two, or three months, under Section VII, according as they may have been at their duties less than, twenty-two, or thirty-three months since they last had leave, and provided they have not during these periods availed themselves of leave during the vacations of the Court (Resolution of the Government of India, 21st August 1857)

Section VIII—In addition to the above, and on sufficient cause being shown, leave of absence may be granted on private affairs for not more than six months, one half the absentee's salary being deducted for such period of absence, provided the rate of Rupees 6,000 (£600) per annum be not exceeded

Clause 2—The leave granted under this Section will be computed from the date of the absentee's quitting his post to the date of his return thereto. A second leave of the same description cannot be taken till the expiration of six years from the date of return to duty from a former leave. No portion of the salary allowed to be drawn will be claimable till the absentee shall have returned to his duty

Clause 3—Leave taken under this and the preceding section will reckon as service qualifying for pension

Leave under Section VIII cannot be granted continually with leave under Section VII (Notification, 15th November 1856)

Section IX—In addition to the leave which may be granted under the preceding rules on medical certificate or private affairs, Government may at any time under special circumstances, and at its discretion, grant leave of absence once during the period of service, not exceeding twelve months on private affairs, without forfeiture of appointment, but without pay, such period of absence not to count as service towards pension

Section X—No leave of absence on private affairs shall be claimable by any party whatever under these rules as a matter of right, such leave will be granted only at the pleasure of the Government or its authorized officers when the concession of the indulgence in no way interferes with the interests of the public service, and it shall be the duty of the Government in every instance (except in the case of leave granted under Section VI) to consider and determine whether the grounds of the application are sufficiently urgent to justify the concession of the leave

CHAPTER IV

RULES FOR ALLOWANCES, &c

Section XI—No person appointed to a situation under the Government shall draw the salary of his appointment for any period prior to the date of his joining it

Section XII—An officer holding a situation, appointed to one of equal or higher value, will, until he join, draw so much of the salary of his new office as may be equal to the salary of his former situation, provided he does not exceed the time allowed for joining under the following rules, should he do so, no salary will be passed to him for such period in excess

Section XIII—The time ordinarily allowed for joining an appointment is to be calculated at the rate of fifteen miles a day (Sundays excepted), together with a week to prepare for the journey, but on occasions of emergency, it will be optional

with the Government to prescribe the period within which any journey is to be performed

Section XIV—A person officiating temporarily in any situation, will draw so much of the salary of such situation as may equal the sum deducted on account of absence from the real incumbent, and the substantive allowances of every officer temporarily acting in a situation of superior emolument will be subject to deduction at the same rate, *but no additional expense is on any account to be incurred by the absence of any officer on leave*

Medical or Military Officers acting for Uncovenanted Officers to receive extra allowance agreeable to the Civil Absentee Rules (Resolution of the Government of India, 22nd February 1856)

Uncovenanted Servants acting for Civil Servants to receive extra allowance at the rate of one half allowed to Civil Servants acting for other Civil Servants (Government letter, 12th June 1845)

INDIAN NAVAL FURLOUGH REGULATIONS.

G G O No 186, of 1st November 1855—The Right Honorable the Governor in Council, in conformity with the instructions of the Honorable the Court of Directors, is pleased to publish the following Furlough Regulations for the Indian Navy, which are to take effect from this date —

FURLOUGH ON PRIVATE AFFAIRS

1 Every Officer will be allowed a Furlough to Europe, or elsewhere beyond sea for a period of two years at the expiration of ten years' service, and for a second period of two years after twenty years' service in India.

2 The second Furlough of two years will only be granted after ten years' service in India from the date of the return to duty after the first Furlough of two years. These Furloughs are not to be cumulative under any circumstances but are limited to two years. Officers who have taken leave of absence on sick certificate to Europe, or elsewhere beyond sea, will be ineligible to a Furlough on private affairs until they have served six years from their last return to duty. This rule does not apply to short leaves to sea.

3 All grants of Furloughs on private affairs are subject to the exigencies of the Public Service and to the Regulations framed for the preservation of the efficiency of the Indian Navy, by limiting the number of absentees.

4 Officers holding detached or shore appointments may be allowed Furlough for a period of six months without losing their appointment, but during that period they will not be entitled to any portion of their salary, which will be drawn in full by the Officers officiating for them.

5 The Europe Furlough Pay to be granted in the above cases is as follows —

	£	s	d	
To Captain, the pay of Lieutenant Colonel in the army	1	0	0	per diem
To Commanders or Majors	0	10	0	ditto
To Lieutenants and Purser as Captains	0	10	6	ditto
To Masters above three years' service as such as Lieutenants	0	6	6	ditto
To Clerks, as Ensigns	0	5	8	ditto

LEAVE OF ABSENCE ON SICK CERTIFICATE

6 Leave of absence on sick certificate will be granted for a term not exceeding eighteen months, whether it be to any place in Europe or elsewhere out of India.

7 Extensions of such leave may be granted, as at present, on production of medical certificates, for further periods not exceeding eighteen months in the whole.

8 An Officer holding a detached appointment will be allowed to be absent on sick certificate in England, or elsewhere beyond sea, for a period of fifteen months, without losing his appointment, and during the first six months only of such absence he will be entitled to draw the Indian unemployed shore pay of his rank and half the difference between that and the salary of his appointment, the Officer officiating for him drawing the unemployed shore pay of his rank and the remaining half salary during the first six months, and the full salary of the appointment during the remainder of the time.

When the salary of the appointment is not consolidated, a moiety thereof, with Net Pay of rank, is admitted.

9 An Officer's claim to half the salary for six months, as sanctioned in the preceding rule, will not be affected by his subsequently retiring from the service in Europe, or elsewhere.

10 No portion of Command Allowance, Medical Staff Salary, or other regular allowance, which under the Old Rules was inadmissible to Officers of the Indian Navy absent from their ships at the Cape or elsewhere, will be allowed to absent Officers under these Regulations.

11 All Officers on detached or shore employ, while on leave of absence on sick certificate, will be entitled for a period of six months to pay as above stated, and for the remaining period of their leave they will receive Furlough pay only.

12 If the leave on sick certificate be extended, Furlough pay will be continued, but under no circumstances for a longer period than three years altogether from the commencement of the absence.

13 Officers on detached shore employ, absent on leave beyond the periods stated in

paras 4 and 8, cannot retain their appointments and allowances, except on special grounds, to be sanctioned by the Government of the Presidency, any such special extension of leave is to be reported at once to the Honorable the Court of Directors, with the reasons for it, and to be subject to their approbation.

14 The privilege of retaining appointments during leave of absence on sick certificate, or on Furlough on private affairs, will not be available a second time, if the fresh leave is on sick certificate, until an Officer has been three years, or if on private affairs, until he has been six years, in the discharge of the duties of his appointment from the date of last return to it.

15 This Rule, however, does not apply to leaves of absence, whether on sick certificate or on private affairs in India, or for brief periods to Ceylon, the Mauritius, or other places out of India.

OFFICERS SERVING AFLOAT

16 Officers of the Indian Navy are to be allowed, during their absence on sick leave in England, pay as follows —

Captains — The shore pay of Captain, Rs 400 per mensem being Indian shore or unemployed pay, for the first six months, and afterwards Furlough pay at the rate of £1 per diem.

Commanders — Rs 300 per mensem being Indian or unemployed shore pay, for the first six months, and afterwards Furlough pay or 10s per diem.

Senior Lieutenants — Indian pay, Rs 191 8 1 per mensem for the first six months, and 10s 6d per diem for the remainder of their Furlough.

Junior Lieutenants and Masters — Rs 161-8 1 for the first six months, and 10s 6d per diem for the remainder of their Furlough.

Mates above three years' service as such, 8s 6d per diem.

Mates under three years' service, and Clerks after six years' service, 5s 8d per diem.

And, Midshipmen and Clerks under six years' service, £75 per annum during the currency of their Furlough.

DATE OF FURLOUGH AND ADVANCE OF PAY

17 The period of Furlough on private affairs or leave of absence on sick certificate, is to be calculated from the date of the departure from India of the ship in which the Officer proceeds.

18 Advances of pay and allowances to Officers proceeding on leave of absence on sick certificate who may be entitled to them, will be made in India for three months from the date of embarkation. Payments in continuation will be made in England at the rates of exchange fixed annually for repayment of advances made on account of Her Majesty's Government. Furlough pay will continue to be issued in advance for six months when required by Officers obtaining Furlough on private affairs.

Advances are payable for three complete months, and it is optional with Officers to receive or decline the same prior to leaving.

Furlough pay undrawn in England, is payable in India at the exchange of 2s 0½d per rupee.

19 The existing Regulations regarding Passage Money to Officers are not affected by these Rules.

20 The Certificates issued to Officers who are granted Furloughs on private affairs, or leave of absence on sick certificate, are to specify the time each Officer has been absent on leave within Indian limits, as well as the time of his previous absence in Europe.

21 The last Pay Certificate of all Officers proceeding to England on sick certificate is to specify the rate of pay and allowances to which they may be entitled.

22 This information is necessary, in order that no difficulty may arise in the Pay Department of the India House in adjusting the several payments which may be due.

PERIODS OF ABSENCE ALLOWED TO BE COUNTED AS SERVICE FOR RETIRED PENSIONS

23 Officers to be entitled to retire on the Full Pay of their rank (under the Regulations of 1796) must have served twenty-two years in India, out of which leaves of absence for two years in the aggregate, and not more, will be allowed to count as service for the Retiring Pension.

24. All Officers now in the Service, who prefer retaining what may be considered the advantages of the Old Regulations, may do so, provided they signify their wish to that effect when they next apply for Furlough or leave of absence, without any limitation whether such leave be in India or elsewhere; and Officers who once make their election will not be entitled to any other choice, but will be afterwards subject to the Old or New Regulations, according to their decisions.

Old. Officers holding shore appointments have not the above option allowed them, Commsy may retain the advantages of the Old Regulations by giving up their appointments, which in such cases will be considered vacated from the date of emphytion.

For To those Officers who adopt them, the New Regulations will apply retrospectively in respect of Furlough and leave of absence beyond sea, and in computing their time of service for retirement, so that their Furloughs or leaves of absence, whether under the Old or New Rules, and whether on private affairs or sick certificate, within or beyond India, will count for service to the authorised extent only in computing the time for retirement on Full Pay.

27. These Rules do not in any way affect the existing Regulations regarding the grant of leave in India or for short periods to sea, whether on private affairs or on sick certificate, except as to the periods of such absence being taken into calculation in the time allowed to count as service for retirement on Full Pay.

G. G. O. No. 205 of 1858.—Four years leave of absence allowed to count as actual service in the period of thirty years' service required to entitle an Officer of the Indian Navy to the benefit of the Senior List Pension of £800 a year.

G. G. O. No. 8 of 1859.—The house-rent allowance hitherto granted to sick Officers of the rank of Lieutenant and under, to be designated Sick Allowance, and admissible from date an Officer leaves his ship on sick certificate until reported fit for duty.

G. O. C. 17th August 1859.—Periods of leave on private affairs not exceeding in the aggregate more than sixty days in each year, allowed to count as actual service before introduction of the rule regarding privilege leave.

SECTION IV *Of the Management*

1 The Management of the Fund is vested in a Committee of seven Members, elected by the Subscribers at large from among those stationed at the Presidency, of not less than three years standing in the Service.

2 Three of the Members of this Committee go out at the end of each year by rotation, but are eligible for re-election. Voting Lists being usually issued in the middle of November. The removal of a Member from the Presidency to another Station, or his departure on leave of absence for six months or more is held to vacate his seat.

3 All vacancies occurring in the Committee are filled up by the general vote of the subscribers at the earliest opportunity.

4 In the event of an equal number of votes being returned for two or more Members, the election shall be declared in favour of the senior.

5 The Secretary and Accountant is elected by the Committee from their own body, or from amongst the other Subscribers at the Presidency. His salary is Rupees 500 per annum.

6 His office comprises the detail and routine duties, keeping under the direction of the Committee all necessary records, books and accounts of the Fund which are open to inspection by any Subscriber. The office establishment and expenses are confined to what is strictly necessary and subject at all times on this point to the check of the Committee.

7 The Committee meet once in two months or oftener if required for the transaction of business. But none can be entered on rules, three Members are present nor can any bill be drawn against the funds in the Treasury without the signatures of the majority of the Committee.

8 At all meetings of the Committee the senior Member of the Service present shall preside but he is not on that account entitled to an additional vote. In the event of an equality of votes the question shall be postponed till a full Meeting of the Committee.

9 In conducting the affairs of the Institution the Committee shall invariably be guided by its established Rules, deciding minor cases not specially provided for in accordance with their tenor and spirit, but referring all matters of importance to the decision of the Subscribers at large.

10 The Committee shall exercise their discretion in circulating to the Subscribers proposals submitted to them with that view, unless requested to do so by ten or more Subscribers or unless the question be one of personal claim or grievance when it shall be their duty to submit the matter with their observations to the general vote. But if this vote be adverse on any personal question urged against the opinion of the Committee, the expense attending its circulation shall be borne by the individual.

11 Questions submitted to the subscribers are decided by the votes received within six weeks after circulation.

12 A majority of two thirds of the votes so received is necessary for passing, altering or revinding any Regulation of the Fund.

13 A majority of four fifths of the votes so received is necessary for altering the present value of the annuities, the present scale of minima, or the present rates of subscriptions and donations.

SECTION V *Of the Annuities*

1 The annuities already granted shall be reduced 90 per cent as follows: those of £300 to £210 of £240 to £168, of £200 to £140 and of £160 to £112.

2 The annuities hereafter to be annually offered are fixed at three, of the respective values of £112, £140, £168 each, payable half-yearly in England up to the date of the annuitant's death.

3 Of these, one annuity is available each year through the Honorable Company's Treasury but the Fund guarantees the payment in London of the other two, with the same regularity and at the same periods as those paid through the Honorable Company's Treasury.

4 Subscribers must have respectively completed 20, 24, and 28 years in the Service, be-

fore they are qualified for the offer of an annuity of £112, £140, or £108, or, in connection with the Fund out of the Service, in the following manner, viz—

1st—A Subscriber retiring from the Honorable Company's Service upon the Government pension of £191 per annum, at and after the expiration of 17 years' service 15 years and 4 months of which have been passed in India will become qualified for the offer of an annuity of £112 as the maximum from the Fund, upon completion of 20 years' Membership.

2nd—A Subscriber retiring upon the Government pension of £250 per annum at and after the expiration of 21 years' service 19 years of which have been passed in India is immediately eligible for the smaller annuity, if one be available and he will become qualified for the offer of an annuity of £140 as the maximum from the Fund, upon completion of 24 years from the period of his entering the Service.

3rd—A Subscriber retiring upon the Government pension of £400 per annum at and after the expiration of 25 years' service, 22 years of which have been passed in India is immediately eligible for one of the smaller annuities from the Fund if available and he will become qualified for the offer of an annuity of £118 as the maximum from the Fund, upon completion of 28 years from the period of his entering the Service.

5 But in no instance is the qualification of an annuity valid, unless the Subscriber has served the regulated period in India which qualifies for a Government pension.

6 In the event in any year of two or more Subscribers retiring whose length of service, or connection with the Fund qualifies them for the highest rates of annuity the claims of the senior shall be first considered, and should it happen in a succeeding year that no Member retires who is qualified for the highest rates of annuity the surplus thus accruing shall be appropriated to the increase of those annuities given in the former year to such an amount as the particular Subscriber's length of service, or connection with the Fund, entitles him to receive from the Fund.

7 Members who may resign the Service in anticipation of an annuity or who may be absent on furlough shall empower an agent to accept or decline the offer of an annuity and to complete the minimum, commencing the name of their constituted attorney to the Secretary.

8 The annuities for the succeeding year shall be annually declared in the first week of October, and shall at that time be offered to all qualified Subscribers in India and to the trustees of absentees. Members must intimate to the Committee on or before the 1st of January following, their readiness or otherwise to accept such annuity as may be available for them, and, if intending to accept an annuity, transmit at the same an affidavit of their age.

9 In the instance of a Member qualified by 28 years' service or connection with the Fund for the highest annuity he must distinctly state his readiness or otherwise to accept such an annuity as may be then available on the understanding that if it be a smaller one it will be raised at the next or subsequent period of allotment to the maximum, provided no one senior to himself in the Service retires in the interval to supersede his claim for it. So likewise in the instance of a Member who is qualified by 31 years' service or connection with the Fund for the annuity of £140 he must distinctly state his readiness or otherwise to accept the smallest annuity if available until such time as by the retirement of none above him his annuity may be raised to its full value viz £140. The Member qualified by 20 years' service, or connection with the Fund, will have to state merely his acquiescence, or otherwise to accept the annuity of £112 on the full understanding that such is its maximum.

10 The allotment and adjustment of the annuities shall, agreeably to Articles 15, 16, and 6 of this Section, take place at a Meeting of the Committee to be held in the first week of January of each year and at no other period shall annuities be allotted, except in the instance provided for in Article 13.

11 Three months are allowed to a Subscriber in which to retire from the Service after an annuity, of which he has accepted the offer, has been allotted to him and the commencement of the annuity shall be reckoned from the date of retirement but in the instance of those who may have already retired, the annuity shall commence from the 1st of January of each year.

12 Any Subscriber transgressing the foregoing Rule by failing to retire within the prescribed period, shall forfeit to the Fund the amount of one year's annuity.

13 In the event of one or more annuities remaining unaccepted at the annual period of allotment in January of each year, the annuity or annuities so refused shall be held in trust by the Service until the 30th April next following (the close of the official year), when, if not accepted, the value of the annuity or annuities in Company's Rupees, according to the Table, and estimated at the average age, shall be paid into the Reserved Fund.

* After resignation of the Service no subscriptions are levied the minimum to be adjusted in accordance with Section VI.

14 All applications for payment of the annuity if not made in person, shall be supported by the certificate of a Magistrate, that the annuitant was alive at the date to which he claims payment.

SECTION VI

Of the Minimum

1 The following are the rates of minimum which must be paid by a Subscriber, other wise qualified, for an annuity is granted to him viz for the annuity of £112, Rs 6400, for the annuity of £140 Rs 8000 and for the annuity of £168 Rs 9600.

2 The sums here stated shall consist of *bona fide* subscriptions and donations, exclusive of all interest.

3 Should any Member's subscriptions and donations exceed the prescribed minimum of the annuity which he may accept, the surplus shall become the property of the Fund, and in no case be refunded.

SECTION VII

Of the Accounts and Investments of the Fund

1 All subscriptions and receipts by Paymasters of Divisions by whom they are paid, shall in the General Account to the credit of the Fund bearing interest at 6 per cent per annum. The Paymaster furnish the Committee monthly with an abstract of the sums so received.

2 From this abstract the sums set down against each Subscriber's name are entered in the Fund books to his individual credit, and a copy of this account made up to the 30th April, is annually furnished him.

3 The Capital possessed by the Society is accounted for in the Fund's books under the hands of the 'Appropriated' the 'Unappropriated,' and the 'Reserved Funds.'

4 'The Appropriated Fund' is set apart for the payment of annuities. It is formed by withdrawing from the Unappropriated Fund such sums of money as represent the values of the annuities granted.

5 The Appropriated Fund thus formed shall be left without revaluation or readjustment for a period of 10 years from the date of the last revaluation. But in the meantime all its accrued interest and the computed value of the annuities which may be granted in the interval shall be carried to its credit, and all payments made to annuitants in the interval shall be placed to its debit.

6 'The Unappropriated Fund' is the income of the Society. It is to be devoted to the office of fresh annuities each year. After deducting from it the expenses of management, as well as incidental expenses, the surplus shall be pressed to the credit of the Reserved Fund.

7 'The Reserved Fund' consists of Rupees 10,000 which has always been set aside for contingencies, and the yearly addition of the excess, or surplus of the Unappropriated Fund. These sums shall bear interest at 6 per cent per annum and the amount shall be declared at the end of each official year. This fund will be available when required for the revaluation of the Annuities already given for unexpected contingencies, and as it accumulates, will provide for the accrued interests of Subscribers.

8 The valuation of annuities shall be computed in all cases by the annexed New Table, which is calculated upon improved data of the expectation of life and at 2½ the Stock Rupee.

9 A general statement of the Accounts of the Fund up to the 30th April of each year, showing the Cash Account,—the state of the Appropriated, the Unappropriated and the Reserved Funds—shall be prepared by the Accountant, and after having been approved of by the Committee, a copy shall be furnished to each Subscriber.

SECTION VIII

Of withdrawing from the Fund

1 A Member who is not bound by covenant to subscribe to the Fund may withdraw, forfeiting all claim and title to any refund whatever, or to any future benefit from it.

2 All Subscribers whether bound by covenant or otherwise who retire from the Society previous to the completion of 17 years service are held to withdraw from the Fund and they likewise forfeit all claim and title to any refund whatever, or to any future benefit derivable from the Fund.

3 The non-compliance with any Regulation of the Fund or the bringing under litigation any decision which has been passed in conformity with these Rules, shall exclude from all the benefits derivable from the Fund.
