IMPERIAL TABLE XV.

Territorial Distribution of the Christian Population by Sect and Race.

This Table shows, by race, the total number of Christians in Central India Agency distributed according to their Sects or Denominations. Goanese, when shown as such in the Schedules have been treated as Indian Christians. Persons of Indefinite Beliefs, such as Sceptic, Agnostics, etc., are not included in this Table. They have been shewn in Table VI under the heading "Others."

In order to secure a correct denomination of the Christian Sects an early circular was issued to all missionaries to give every Christian who belonged to their church a ticket shewing the correct denomination of his Christian Sect with instructions to produce the same at the time of Enumeration. In spite of this precaution several Christians did not return their sects. Endeavours were therefore made during the compilation to obtain the information as far as possible by sending out the Enumeration Books to the localities concerned.

IMPERIAL TABLE XXI.

Occupation by Selected Castes, Tribes or Races.

Part A only of this Table has been compiled, Part B which is optional being omitted. It gives statistics for the occupations of Europeans, Anglo-Indians, Armenians and certain castes selected on local conditions. The occupations are arranged under 12 main heads corresponding to the sub-classes of the scheme of classification given in Table XVII. Columns 6 and 7 throw light on the extent to which traditional caste occupations are followed, while column 8 is intended to make it possible to discount the tendency of functional castes to return their traditional occupations as their principal means of livelihood. The figures in column 9 onward are exclusive of those shown in column 6.

PROVINCIAL TABLE I.

Area and Population of States.

This table and the next give for each State of any size leading statistics, viz., total population, density, variation since 1901, distribution by religion and the number of literate persons.

The figures in the Provincial Tables I and II represent the actuals for entire States, the Nandwai Pargana of Indore which lies in the Rajputana Agency having been included in the State figures. The totals for Central India will, therefore, necessarily not agree with those given in the corresponding Imperial Tables.

The following Table will explain the difference :—

	Area.	Occupied houses.	POPULATION.
