NOTE

The publications of the Bureau of American Ethnology consist of Contributions to North American Ethnology, Annual Reports, Bulletins, Introductions, and Miscellaneous Publications.

The series of Contributions, in quarto, was begun in 1877 by the Geographical and Geological Survey of the Rocky Mountain Region (J. W. Powell, director). Of the earlier numbers, printed under authority of special resolutions of Congress, volumes I, II (in two parts), and III had been completed when, in the year 1879, the Bureau of Ethnology was organized, with J. W. Powell as director. In March 1881 the publication of volumes VI, VII, VIII, IX, and X was authorized by concurrent resolution of Congress, but the series was discontinued in 1895, after volumes I to VII and IX had been completed. Volumes VIII and X were never published.

The Annual Report series began with that for the year ended June 30, 1880, and until 1895 the reports were authorized annually by Congress. Since then they have been published under authority of the printing act of 1895. The Forty-eighth Report is an index to all the reports from the First to the Forty-eighth, and with its appearance the Annual Report series in royal octavo form terminated. Annual administrative reports of the Bureau are now issued as octavo pamphlets, and the ethnological papers that formerly accompanied the reports appear now in the Bulletin series.

In August 1886 the Director of the Bureau was authorized by joint resolution of Congress to begin the publication of a series of Bulletins, which were issued in octavo form and in paper covers, and in July 1888 the continuation of the series was authorized by concurrent resolution. Provision for publishing the Bulletins was omitted from the public printing law of January 12, 1895, and the issue terminated in 1894. Up to that time 24 Bulletins had been published. By concurrent resolution in April 1900 Congress authorized the resumption of the Bulletin series in royal octavo form. Nos. 25, 26, and 27 were issued under this provision, and in February 1903, by joint resolution of Congress, the octavo form was again resumed.

Besides the series mentioned, there have been issued small editions of 4 Introductions and of 12 Miscellaneous Publications. These were not specially authorized by Congress, but as a rule were paid for from the annual appropriations for continuing researches.

With Bulletin 119 the Bureau of American Ethnology inaugurated a new series of Anthropological Papers, designed as an outlet for brief articles. These papers are numbered consecutively, a Bulletin being devoted to them from time to time as they accumulate. A limited edition of Anthropological Papers is issued in separate form.
