

Mr. Briftow to Hyder Beg Cawn, dated 30th Rumzaan 1197, or 29th August 1783.

I understand, from your answer to my letter, that you indirectly decline making the nomination of Aumils to the districts under Almass Ally Cawn: You write to me to do it, and use evafions; therefore, in the last refort, I must trouble you to inform me, in plain and explicit terms, whether or not you will nominate Aumils for Almass Ally Cawn's districts, and in what time. Write me particularly. In case you decline this business, tell me to without di guide.

Hyder Beg Cawn, in Reply.

I am favoured with your letter. You observe, " that I indirectly decline making the romi-" nation of Aumils to Almass Ally Cawn's districts, and that I ask you to do it." You are the director, and I am obedient. Could I have the audacity to make indirect representations to you ! Having addreffed you on the fubject of nominating Aumils to all places, the diffricts, and perfons named for them, were, conformable to your orders, exhibited to his Highnefs. Every province was fettled agreeable to your orders and nominations; for this reafon I alfo add effed you concerning Almais Ally Cawn's diffricts, reprefenting to you, that I would exhibit to his Highnels the names of fuch perfons as you might direct. I have repeatedly reprefented to you, in Almafs Ally Cawn's bufinefs, that I did not object or demur. Whatever is your pleasure, be pleased to communicate it to me, and it shall be done. The test in this affair is, that when you directed the withholding Kyrabad, &c. from Almais Ally Cawn, it was immediately executed; and allo offered to make a reduction from his other diffricts, if you chose to do it. You replied, they might remain for the prefent; I will fettle that matter at the beginning of the year. At the time the other Aumils were changed, I fpoke to you concerning Almafs Ally Cawn, and you told me, that the revenue of his diffricts was not to be completely difcharged until the conclufion of the year; after which period the measure should take place. For some time past, fince his payments have been completed, you have directed Aumils to be appointed. I answered, that it was well; I would exhibit to his Highnefs fuch perfons as you might nominate to fucceed him. I have never recommended the continuing Almafs Ally Cawn in employment; I replied to whatever you ordered, That it was well: And now alfo I acquaint you, I will exhibit to his High-nefs the names of fuch perforts as you may order for Almais Ally Cawn's diffricts. I have already caufed you to be furnished with a lift of the Aumils unemployed, and those foliciting and hopeful for employment. After the end, I will attend upon you, and reprefent affairs more fully to you. There is no objection or demur on my part in this bufinefs. I am waiting for your orders.

COPY of a Letter from Mr. Briftow to Major James Brown; dated Lucknow, 9th September, 1783.

I enclose a paper of news, from which it will appear as if Almass had intentions of leaving the Vizier's dominions, and connecting himself with the chiefs at Delhi. From his conduct last year, there is little dependence to be placed on his fidelity; and I should be obliged to you for such information as may have come to your knowledge concerning this matter. What renders his conduct extremely sufficients, is, that he left Lucknow fuddenly on the 6th inftant, without giving notice of his intention, and directed his vakeel to affign fome urgent business at Mean Gunge as the cause.

To David Anderson, Efquire-The same as to Major Brown.

COPY of a Letter from Mr. Briflow to Colonel James Morgan, commanding the troops in the Field, dated Lucknow, 9th September, 1783.

I enclose a paper of news, from which it will appear as if Almafs Ally Cawn had intentions of leaving the Vizier's dominions, and connecting himself with the chiefs at Delhi. I have this inftant

infant only received the intelligence. It being too late at night for me to obtain his Highnefs the Vizier's commands, I muft defer writing to you particularly till the morrow. What renders his conduct extremely fulpicious, is, that he left Lucknow fuddenly on the 6th infant, without giving notice of his intention, and directed his vakeel to affign fome urgent bufinefs at Mean Gunge as the caufe. I have given the fame information to Colonel Sir John Cumming and Colonel Knudfon.

Colonel Sir John Cumming, and Lieut. Colonel Knudson-The fame as the above; with the following additional paragraph in the letter to Colonel Knudson:

" It is abfolutely neceffary to use every means in your power to prevent Khaaja Ginuddien's "etcape; and diffeover, if you can, if there is any intercourse between him and Ahnass Ally "Cawn, and of what nature.

Mr. Briftow to Hyder Leg Cawn, dated 11th Shouaul 1197, or 9th September 1783.

I have the pleafure to enclose you an extract of intelligence I have this inflant received, which feems to imply fome extraordinary refolution in Almals Ally Cawn. He left this place on the 7th, having neglected the ufual formality of acquainting me with his intentions. As I had neither received any notice from yourfelf of his going, I requefled, through Raja Kofhaul Roy, that you would favour me with the reafon of his abfence; when you were pleafed to inform me, by the fame channel, that he was gone to Mean Gunge on fome urgent bufinefs, but that he would return fhortly; and on the 8th, I received a fimilar account from the vakeel of Almass. I am now to requefly you will favour me explicitly with any particulars that have or may come to your knowledge on the fubject of the enclosed intelligence; and I muft here take leave to remark, that it is now three months ago that I first represented to you the neceffity of making the arrangements of Almass's diffricts; and that fince the prefent time, the fubject has been renewed by me repeatedly, both verbally and by letter, yet hitherto no one ftep has been taken towards fuch arrangement. The bufinefs of Almass Ally Cawn was before a matter of much delicacy, made fo by his rebellion laft year; his abrupt departure now is fufficient to awaken all our fufficions, and this it is that makes the fteps to be taken on this occasion a matter of the first importance. I am therefore to requeft, that having reflected and determined upon what fhould be done, you will inform me of your determination.

EXTRACT of Intelligence accompanying the above, and dated from Naper Uddoulah's Camp, near Deeg, the 7th Shewaul 1197 Higere, or 5th September 1783.

Information has been received, that Mahomed Beg Cawn Humdany has marched two cois towards Behla. The Nabob Nafer Uddowlah has in confequence appointed eight hircarrahs to watch his motions, and also difpatched twenty others, for the purpole of giving intelligence refpecting the English detachment at Furruckabad.

EXTRACT 2d, from D°; dated 10th Shewaul, or 8th September 1783.

Almafs Ally Cawn having croffed the Ganges, has reached the Purgunna of Falgaum, by Relays, in which expedition three horfes fell dead under him; we further understand, that it is his intention to pass on to the frontier of his districts.

Hyder Beg Cawn, in Reply.

I have received your favour.—Raja Khoofhall Roy made enquiries of me concerning Almafs Ally Cawn's going, and I replied, that his vakeel reprefented his mafter was gone with your leave leave. I afterwards repeatedly waited on you, and you did not fpeak to me on the fubject; and the vakeel repeatedly afferted, that he had your leave. Whatever may be your pleafure in this bufinels, is highly proper; and in regard to the fettlement of Almals Ally Cawn's diffricts, whenever you fpoke to me on the fubject, I have uniformly antwered, "I was obedient to your com-"mands; when you direct me to do it, I will addrefs his Highnefs." To-morrow I will wait upon you, and execute whatever orders you may be pleafed to give me.

Mr. Briftow, in Reply, to Hyder Beg Cawn; dated 11th Shewaul 1197, or 9th September 1783.

I have been honoured by the receipt of your letter, in reply to that I addreffed you on the fubject of Almais Ally Cawn. You inform me, that you underltand from Almais's vakeel, that he obtained my permiffion previous to his departure. If this were fo, is it conceivable that I should have expressed my furprize at his going, both to yourfelf and to the vakeel, and defired to be informed of the caufe of it? Or why did his vakeel, in confequence of this procedure on my part, make his mafter's excule, faying he was gone on very urgent bufinefs? You are also pleased to remark, that with respect to the arrangement of Almais's districts, you have uniformly expressed your readiness implicitly to obey my directions. During three months I have been perpetually representing to you, Sir, that the some those districts were fettled the better; but instead of the neceflary arrangements, I have always received for answer, a repetition of professions of dury and obedience; and hence it is, that to this hour no one falutary measure has been adopted. The questions of most importance now are, whether you think Almass will return or not; and, in cafe you are of the latter opinion, I defire you will notify to me immediately the pleasure of his Highnels, with respect to such directions as he may judge necessary to fend to Colonel Morgan and Colonel Cumming; as also, whether or not you will form any plan for the fettlement of the districts under Almais, and the time when you will do it. Be pleased to inform me explicitly on those heads.

Hyder Beg Cawn, in Reply.

I am favoured with your letter. What I afferted concerning Almais Ally Cawn was agreeable to his vakeel's representation. The faid Cawn has always attended. Three times, during the courfe of the year, he went away with your permission, and returned after an absence of a few days. He never asked leave through me; and in this manner his vakeel reprefents, that on the prefent occasion he had your permission If you entertained doubts, you would have forbid his going; and why fhould he have gone? You are the director, and the Nabob is mafter : I execute the directions I receive, and am obedient. Almafs Ally Cawn did not go away privately : His vakeel's representation is, that he afked your permiftion three days previous to his departure. The day he let off, he acquainted you with it ; and when likewife Almais Ally Cawn proceeded onwards from Mean Gunge, he did the fame; to which you replied, that it was well. You ne-ver fpoke to me on the fubject, though I repeatedly waited upon you; and now you mentioned it as a matter of furprize. What can I, who am in the flation of the obedient, reprefent to you concerning fo clear and plain a transaction ? To the vakeel you observed, that it was well; and to me, that it was a matter of furprize. Your hircarrahs and news writers are flationed with Almais Ally Cawn, and certainly they inform you of all his proceedings. Whenever you have favoured me with your commands concerning the fettlement of the districts under Almais Ally Cawn, I have never made any objection. The bufiness remained in fuspense until his payments were completed; and it is not a month, though you specify the period of three months, fince he discharged the fums due from him. You have, until this time, even forbid my mentioning the fubjects to his Highnefs. I have repeatedly represented to you concerning Almafs Ally Cawn, that you are the director, and you would pleafe to order what you thought proper regarding him. I am a fervant of Government, and will obey. The Aumils have every where been appointed, agreeable to your directions : Lifts of the Aumils at prefent unemployed, specifying their names in general, as well as those of a few perfons felected from the whole body, have been prefented to you. Be pleafed to inform me of the districts to which you think proper to nominate them, that I may exhibit the fame to his Highnefs; but, in making this proposition, I have no view to de-My realon is this, that you before directed me to nominate Aumils, and ' fubmitted to Jav. your infpection a lift of perfons whom I recommended for each feparate diffrict; you altered my nominations at the infrigation of others, who conceived in their own houles of Hyder Beg's having nominated fuch a man to fuch a diffrict, and " we (fay they) perfuaded the Refident to appoint another in his room." Whenever I underflood that the appointment would be ultimately arranged

nating

arranged according to the advice of others, as it indeed has hitherto been the cafe, I then acquainted you that I would exhibit to his Highness the names of the perfons whom you nominated to the feveral diffricts; I therefore did not object with any defign to delay or evafion. You defire me to give my opinion, whether Almass will or will not return; and if I should determine in the negative, you request " that orders may be sent to the Colonel." In the prefence of my superiors, what is my fingle opinion ?- By the grace of God, all affairs are better known to you than to any other perfon; and your opinion, whatever it may be, is right and proper. Be pleafed to express your commands. It does not depend folely upon my opinion; it becomes superiors, in matters of opinion, to iffue their mandates according to their pleafure, and at their own time: they invariably do right, and no detriment can arife therefrom. A perfon in the flation of the obedient has not the audacity to give his opinion, when it may be a fubject of future investigation. His Highness is the master, and you are the director; be pleased to order what you think right. I have told you all I have heard from Almass Ally Cawn's Vakeel; do you fend for him, and make your enquiries according to your pleafure, or as is proper in the present state of affairs, whether Almais Ally Cawn is still at the place he mentioned, or whether he has proceeded onwards.

Mr. Briftow to Hyder Beg Cawn; dated 13th Shewaul 1197, or 11th September 1783.

Almafs Ally Cawn informed me, that he was entertaining a Refalla of Furkfowars; I muft therefore trouble you to acquaint me if it is by his Highnels's or your order, and upon what footing he is fo doing, as well as the fund allotted for the fupport of it.

Hyder Beg Cawn, in Reply.

I have received your letter in regard to Almafs Ally Cawn's entertaining a Refalla of Furkfowars, on which you write me: it is entirely unknown to me, and is a matter of furprize. Tomorrow, having afcertained the matter from his Highnels, I will inform you.

Mr. Briftow to Hyder Beg Cawn; dated 19th Shewaul 1197, or 17th September 1783.

In answer to my letter of the 11th instant, concerning Almass Ally Cawn, you defire me to make the nomination of Aumils to his diffricts; and on giving you information of them, you would exhibit them to his Highness. You likewife write me that owing to the representation of others, your nominations were before fet afide. I have never recommended any perfon; but, on the contrary, I have acquainted you, that if I objected to any Aumil, you might never-thelefs appoint him, if it was your pleafure fo to do. I was ready to affift in the execution: the refponfibility refted with you. Notwithitanding I have expressed my fentiments to you in the repontibility refied with you. Notwithitanding I have expressed my leftiments to you in fuch plain and explicit terms, you defire to make the fettlement of Alma's Ally Cawn's diffricts, inflead of undertaking it yourfelf. From fuch conduct is to be underflood delay and evalues; and the confequences will be diforder and confusion, when you, the acting minifter, thus protract the execution of a bulinefs which is of greater importance than any other under his Highnefs's government. Almafs Ally Cawn arrived the day before yefterday; be pleafed to inform me of your intentions concerning the fettlement of his diffricts—whether you mean to difmifs him, and the period at which it is to take place; or whether you have not formed a direct contrary refolution. If you fhould have afcertained the footing upon which Almafs Ally direct contrary refolution. If you fhould have afcertained the footing upon which Almafs Ally Cawn is entertaining a Refalla of Furkfowars, on which fubject I addreffed you on the 13th inftant, you will oblige me by letting me know.

Hyder Beg Cawn in reply.

I have received your favour. Whenever you applied to me concerning Almais Ally Cawn's diffricts, I never objected : I requefted you, both verbally and by letter, that you would favour me with your orders, agreeable to which I would address his Highness. My objection to nomi-Aa

nating Aumils, as before explained to you, is not fingly confined to Almafs Ally Cawn's diffricts, but to every other place : and when you may direct me to make nominations, I will return this answer : " That I will exhibit to his Highness the names of such persons for the respective dif-" tricts as you may be pleafed to order."- I he perfon by whole reprefentation the Anmils were hitherto appointed, and in obedience to which I have acted-that perform, who has spoke in ridicule, and continues to to do, of my affairs, faid very true. The plans and hits of people, which you cauled me to form, were merely for the name; the Aumils were ultimately appointed according to the laid perion's reprefentations. In this fituation, I confider my forming plans, and writing, to be utcles; and I demur, that I may in future be relieved from ridicule: every man withes for the honour due to his flation. In regard to what you chufe to fay from favour towards me, that I am the acting minister, how am I to be confidered in that capacity, in affairs not left in his Highnefs's differention ? whole authority and mine are evident from the tranfactions which I have flated. Past and prefent circumstances I have thus plainly and explicitly reprefented, and do represent to you: After a candid conduct, how can doubts be entertained of evaluon and delay? Be pleased to inform me of the perfons you have thought proper to nominate to Almais Ally Cawn's diffricts, that I may exhibit them to his Highness. You wrote to me in confequence of the information Almafs Ally Cawn gave you of his entertaining a Refalla of Furklowars : he is prefent, enquire of him : he will reply to you on this head,

TRANSLATION of Hyder Beg Cawn's Narrative on Almais Ally Cawn's Succession.

When Almais Ally Cawn, after having been at Cunnoge, had returned to Etawa, withdrawn his Aumils from the feveral diffricts, and written letters in a figle very improper and unbecoming, as it appeared to me highly derogatory from the dignity of government to hefitare at fuch a time, I gave the following orders, which I thought beit calculated to reftore tranquility to the country : that Aumils thould be immediately appointed on the part of Government ; adding, that I had received letters through Sheek Golaum Hufrut, &c. from Almafs Ally Cawn's recalled agents, who were perfectly inttructed in the detail of bufinefs, expreffing their willingnels to enter into the lervice of Government ; and that I had no doubt his troops would imitate their example. Mr. Johnfon originally fubfcribed to the advice; but Meer Zeen ul Abudun, a friend of Almais's, having afterwards flated that the fucceffion of Almais would be attributed to him, Mr. Johnson, he forbad the appointment of Aumils, and directed that every possible means fhould be employed to conciliate Almass; and, that to induce him to return, all his requisitions fhould be complied with, as otherwife he himfelf would be exposed to all the odium and blame : to which I replied, that as no fuch confequence was to be apprehended; that we fhould find it a very easy task, and in a very fhort time, to take possession of and lettle the country, when Almais would be humbled, and readily return of his own accord; otherwife being puffed up with vain imaginations that the collections could not be carried on without his affiliance, his infolence and pride would increase; that this was by no means the fact; fince they had been heretofore managed without him, and, by the bleffing of God, might be fo again : that, in the interval between the rains and the featon of the collections, the perfons appointed to take charge of the districts would have fufficient leifure and opportunity to inform themselves thoroughly respecting them; and would, I had no doubt, faithfully and effectually acquit thein-felves of the truff reposed in them. --Mr. Johnson however, for the reason above affigued, was inflexible, and positively directed that Almass should be directed back at all events; to which determination I was from neceffity compelled to fubicribe.

COPY of an Engagement entered into with Almafs Ally Cawn, to which were affixed the feals of the Nabob and his minister Huffen Zeza Cawn, and Hyder Beg Cawn, and the fignature of Mr. Johnson.

We engige to confine our demands upon Almafs Ally Cawn to the terms of his written. engagements, and to confider ourisizes, as guardians of his honour, and that of his fumily, friends, .

friends, and dependants; and we take God and his Prophet, the Twelve Imauns and their iffue, and the holy Koran to-witnefs, that we will firstly conform to the articles of this treaty.

JOHN BRISTOW, Refident at the Vizier's Court-

EXTRACT of a Letter from Mr. John Briftow, Refident at the Vizier's Court, to the Honourable the Governor General; dated the 5th November 1782.

The acting minister has positively and repeatedly difavowed to me ever having willingly concurred in the measures adopted with regard to Almass Ally Cawn, at the time of his difaffection. He afferts, that he confidered Mr. Johnson, when Acting Refident, as your representative, and invested with your authority; he of course exerted himself in supporting and enforcing every measure that gentleman recommended. He further fays, that he often proposed appointing new Aumils, during Almais's absence; but Mr. Johnson objected, though he was affured of the defection of two of the principal men amongs the rebel's followers; a circumstance he did not fail to communicate to Mr. Johnson.

In my addrefs to the Board, I mentioned that it was by my advice Almafs Ally Cawn was deprived of the farms of additional diffricts, yielding a revenue of fixty lacks a year. Two days after my arrival I conferred with the acting minifler, and opened the bulinefs by the difcuffion of Almafs Ally Cawn's conduct, telling him, in very candid though in polite terms, the diffatisfaction you felt at the difgrace thrown upon the Vizier's authority, and reputation of the English nation; and, if he expected your fupport and protection, he muft unite with me in the reduction of Almafs Ally Cawn's power. I afted his advice about difpoffeffing him entirely: we maturely deliberated upon the fubject, but came to no politive determination, except to deprive him of every thing confiftent with prudence. The acting minifter made light of Almafs's power; and only demurred at the prefent inconvenience that would follow, owing to the weaknets of the Vizier's government. The whole Kurreefs, and great part of the Rubby, would be loft before new Aumils could be firmly eftablished; and, if we should fail in creating a defection of his adherents, and Almafs refift, we should not be able to procure supplies.—The ftate of credit at this place is well known to you. In times of peace it has been with great difficulty that the furms tequired for the public fervice has been raifed.—Almafs would probably have purchafed a confiderable body of Mahrattas, or other marauders : with the affishance of thefe, and his own troops, a total flop would have been put to the collection of the revenues; and, having no fund of ready cash beforehand in the treasfury, to support the expences of the campaign, your army could not have been fupplied. The bad government in the other parts of the Vizier's dominions would then have appeared, by general infurrections of Zemindars; and we fhould have experienced an infufficiency of troops in point of numbers.

These were the principal objections urged against entirely dispossesting Almass, and appeared to us infurmountable. It then became an object of great importance, how to give him confi-dence, and, at the fame time, not betray the dignity and intereft of the Vizier. We determined immediately to revoke the engagement for the additional countries; as he was not in poffeffion, they were not liable to the inconvenience attending others. We put the matter upon the plea, that Almafs had in his correspondence, and verbally, repeatedly remonstrated against holding my farms, and therefore we could relieve him from trufts which were irklome to him. He had the infolence even, on receiving the perwannahs from the additional countries, to pretend to confer a favour on government. Almais had deferred difpatching his Naibs until I took the charge, as I informed the Board, because he wilhed to have the fanction of the Company to his usurpations. I left Hyder Beg to communicate my fentiments to him regarding the additional countries, and bring him to vifit me, and fettle for fuch diffricts as he was in actual charge of. Almais Ally Cawn, on our first meeting, confirmed the truth of the declaration he had made verbally, and by letter, of his wifh to withdraw himfelf from all public employments : but, under the prefent administration, he found himfelf otherwise disposed; he now had confidence, and would readily undertake any charge with which the Vizier would honour him. He was however informed of the determination not to truft him with the additional countries. He could not conceal his agitation at the difappointment; for, as he had been accuftomed to very different language, his pride was affected by the change this treatment of him would have in the eyes of the world. He however did not answer me disrespectfully or improperly; Whatever Whenever was determined, he faid, he would moft willingly conform. I gave him the firingeft affurances of hupport in the line of his duty; and, that he might depend upon the performance of my promites, I explained my fentiments in private; making a particular requeft, that, if he entertained doubts of my fincerity, he would plainly tell me fo: on my part, I would on all occasions advise and affift him in the management of his affairs. I urged to him the impoffibility of the Vizier's submitting to repeated infults to his perfon and authority, and that he could not expect my support longer than he did his duty. I now grounded my hopes and claims of obschence from him upon the perfonal friendship which had for years lubbilted between us. I diffelaimed the reports, circulated with a view of alarming him, of treachery being intended; he might be affured, if the English ever acted against him, their measures would be fair and open. Much conversation did then, and has fince (at different meetings) passed to explain the reasons which occur to me for his doing fo; as I can hardly thiak, after his late conduct, he will ever be contented to humble himself again to a private flation.

Almais Ally Cawn connected himfelf at Delhi with Affrantiaub Cawn; and when that party had first the prospect of gaining the alcendancy, he bought two forts near Secundera He fent a reinforcement to affist against Mahomed Beg Humdanny, who had feized upon Hinmut Behadre Jay Duad, and took an active part in the diffurbances; thinking, at all events, to fecure himfell an alylum, by holding at the fame time the frontier provinces (Etawa and Corah) of the Vizier's dominions, which he faw he could have upon his own terms. He flipulated for a reduction of revenue, perforal fecurity, and to be releafed from the obligation of attending at Lucknow; all which difgraceful conditions were eagerly agreed to. Thus far his affairs fucceeded; but his friends at Delhi being worlted, as you will obferve by Mr. Middleton's letters of the 15th and 17th September, and Mirza Shuffer having got the better, he loft all footing in that quarter. His friend, Affrantaib Cawn, or formebody of the party, alfo treated him ill, by leizing about a lack and fixty thoufand rupees of his money. The fluctuating flate of affairs at Delhi, evin ed to him the fallacy of endeavouring at an eftablishment there: And thus neceffity, not inclination, has in my opinion, brought him back to Lucknow. The fame neceffity has been the principle of my conduct towards Almafs; but, fuppole the minister had affented to his entire removal, I do not fee the perfons ready, at the prefent juncture, to fupply his place. The diffress the Vizier has fuffered from Almass's conduct, as well as every principle of policy, whatever may be his merit or former fervices, require the reduction of his power. He is allowed, by the effimates flewn me, nineteen lacks of rupees per annum, on account of Mehaul charges and Mootayenna; and he has entertained three thousand five hundred cavalry, and nine thousand and nifty three infantry, exclusive of artillery, and the troops he is authorized to entertain by Government: these are entirely appointed and commanded by himself. I have not had time to afcertain the numbers or denomination of any other troops he may keep of his own authority. He has, for a long time paft, been collecting ammunition and flows, and given great attention to the fort of Coder Coat, which I am informed, he has rendered very firong. These particulars, relative to Almass Ally Cawn, it is my duty to communicate to you; and I am exceedingly anxious to receive your approbation. I propole temporizing with Almais until the conclusion of the year; and when the crop shall be off the ground, and the revenue realized, I would then recommend the removing him from all truft. This will afford me the opportunity of accertaining more exactly the difpolition of his adherents, I think many might be brought to quit him, efpecially when they would fee themfelves supported by the armies under the Colonels Morgan and Sir John Cumming. The fucceis of this enterprize will depend upon the unanimity and fecrecy observed between the commanding officers and myfelf. I shall not acquaint them of my plan until it receives your approbation, and the time of executing it may be at hand.

Almafs Ally Cawn has, within thefe four days, through the minifter, and other intermediate perfons, made application to me to recommend him to the Vizier to farm Sahlone, and other diffricts, yielding a revenue of twenty lacks. He alfo again expressed his inclination to take the additional countries; and I have always returned him a positive but polite refusal.

HILL,

Affist to the Refidt,

TRANSLATION from Rajah Chite Sing to Munnoo Loll; dated the 21ft Ramzan.

I received your letter on the 21ft Ramzan, and understand the friendship and care you exprefs for my concerns, and that Almafs Ally Cawn will certainly come here in the courfe of one or two months. I am firmly of opinion that what you write will undoubtedly happen; but you ought well to confider the trouble I have had in managing the matter with Sindia, and even effected more than Almais Ally Cawn withes. By the grace of God every thing is now fettled. I have dispatched the Sunnuds for Lahar, which is given him for the purpose of securing his effects in ; and, if he really intends coming here, there will never be any deviation from the engagement. It is well that he has accepted his old countries, as adviseable at the prefent juncture. Whatever is to be done, let it be to his fatisfaction. It would be adviseable for the faid Almafs to temporize with Sindia, and take the country as a last refource; becaufe the other party, fenfible that he has connected himfelf with the people to the fouthward, and apprehenfive he fhould flip from their hands, they have therefore given him a ketap, as a trap to catch him; and they will not fail to practife treachery.

P. S. I have also heard that Almass Ally Cawn withes to correspond with the people here, through a different channel. You who have given yourfelf fo much trouble, and I who have fettled every thing, and had fo many disputes with Sindia on this subject in your prefence, what are we to conclude? Perhaps this may not be true; but you will enquire, and let me know. Undoubtedly, as the bufinefs is now concluded, people here will endeavour to bring him know. Undoubtedly, as the buinters is now concluded, people into the and transfact your bufi-over to their party : you have to guard against their doing it. Confult and transfact your bufi-nefs with Myre Abdul Huck and Anundrow Pundit; and if any one fhould attempt to create nefs with Myre Abdul Huck and Anundrow Pundit; and if any one fhould attempt to create the accompliance of the bufinefs. There jealoufies, hear him not, but only be attentive to the accomplifhment of the business. There is no occasion to fay any more on this subject to you, who are wife and intelligent. I before fent a letter, which you must have received : Afford me the fatisfaction, by constantly writing. Your fon was a little indifposed; but now, by God's grace, is recovered. I had an interview with him this day, when he brought me your letters. Reft contented : all other matters you will understand from my letter to Miffer.

Cheyte Sing to Almais Ally Cawn; dated 22d Ramzan.

I have been made happy by the receipt of your letter. I learn from Mire Abdul Huck Anendrow, and Munnoo Loll, of your reinftatement in your country, as an advifeable measure in the prefent times, which affords me fatisfaction. At this place the wiftes of your heart were accomplified, which indeed the above-named performs muft have informed you of. I now inclose you a letter from Mahajee Scindia, which will explain matters to you. Your wiftes, by the grace of God, will be accomplified. At all times and interest of you. wifhes, by the grace of God, will be accomplifhed. At all times, and in every fituation, confider me your friend, and favour me with your correspondence and kind remembrance.

Mootee Sing to Munnoo Lall.

Lalla Sectaram is difpatched to you, and from him you will learn the flate of affairs at this place. In the bond bufinefs, Almafs Ally Cawn will caufe a letter to be written to Sindia and you, regarding what is to be done. It is proper you fhould fettle it; and, when Almais may come, you shall be sent for. Rest fatisfied of every thing from this quarter.

Chite Sing to Almafs Ally Cawn; dated the 15th Shaneal.

I have received your letter, and one to Meha Raja Patteil Behadre, acknowledging the rereipt of the Lahos Sunnunds; and am pleafed, and understand the contents. I immediately had an interview with the Maha Raja; and we read your letters together, and paid our attention to them. Bb VOL. IV.

them. Whenever we meet, the fincerity of our friendfhip will then be proved.—You wrote, concerning the Purgunnah of Lahar, " that you were ignorant of the Jumma of Lahar, and requeited " the matter might be fulpended, on account of the news-writers. When you arrived at Etawa, " what was advitable would be written; and to include the places on this fide under my name."— My triend, the Jumma of Lahar is finall (may be about one lack of rupees) but the fort is large and firong. The Meha Raja gave it to you, for the purpole of keeping your effects and family in, agreeable to the original plan, when you intended to come here; and directed that other countries fhould be appropriated for your expences. This his intention Myre Abdul Huck, Anundraw, and Munoo Lafl, will have particularly explained to you.—The cofform of farms is different.—If it is your wift to include in my country, let there first be a meeting between the Maha Raja, you, and I, that we may fettle lome firm agreement, and gratify the wiftes of our hearts; and whatever you defire thall be done. Many matters cannot be explained by writing ; a great deal depends on an interview. At all events, I with you good; in effecting which, I confider the advantage as mutual.

Almafs Ally Cawn to Munnoo Loll.

I have received your letters, forwarding one from the Mch Raja and Chite Sing, and underftand the contents. Inclosed I return an answer to each of them, which you will caule to be delivered.—Agreeably to Chyte Sing's defire, under pretence of going to the fair, I went to Batipur, that I might leize that opportunity of meeting him: But his tents were far diftant from that place; and unluckily I was forced to come away, on account of celebrating the Mohumum, and to infpect the affairs of my country. My defire, however, is fill the fame to fee him, and I earneftly with for his prosperity. Every thing will be done at a proper time, and Providence will bring affairs about according to our wishes. I have written to the Rajah about all other matters, from which the whole will be underftood; and have not, therefore, used any repetition to you. Always give me particular information of what paffes, and make me happy.

I have written a treaty to the following purport:--" That your friends and enemies be confidered as mine. I will never depart from your orders; and, when you requeft my attendance, I fhall be ever ready; and, to prevent any deviation, I here call to witness God, his Prophet, and the Coran. In every refpect I am anxious for your welfare, and with to devote the remainder of my life to your fervice."

EXTRACT from the Correspondence between Mr. David Anderson, Resident with Scindla, and Mr. John Bristow, Resident at the Vizier's Court.

Mr. Anderson to Mr. Briftow, dated 29th October 1782 .- Extract.

I have received information that one Amuret Row, who is faid to be in Scindia's fervice, but ftationed with Cheyt Sing, left the camp three days ago, and is gone on fome commission to Almafs Ally Cawn; but whether from Scindia or Cheyt Sing is not known.

I have thought it neceffary to mention this circumflance, becaufe, if you find it is true, it will doubtlefs have some weight with you in judging of the degree of confidence, and the extent of the charge, which at this important period you can venture to give Almafs Ally Cawn. You will allo,

Mr. Anderfon to Mr. Briftow, dated 12th November 1782 .- Extract.

I beg leave to inclose, for your information, a paper of intelligence which I have this day received from my news-writer at Etawa. There are two circumftances in it, which I think neceffary to point out to your attention: 1ft, the collecting together all the boats on the Jumna's and 2dly, the paffing of Hircarrahs at Etawa from Cheyt Sing to Almais: I am unable to account for the former fatisfactorily. I know that there are fome disputes betwixt the Aumil at Etawa and Bucht Sing, the Rajah of Bahdourea and Bind, regarding the fort of Cumeit, which is on this fide of the Jumna, and which, though it belonged to Etawa, was taken poffellion of, during the late fucceffion of Almais, by Bucht Sing's people. It is poffible that the boats are collected in order to transport troops to recover this fort; but, unlefs you have been provioully informed of fuch a measure, I thould tather furfect that the boats are collected to be in readiness for Almai's himfelf, in cafe he should find it inconvenient to leave you a fecond time.

The fecond circumftance feems to add weight to the intelligence I fent you in my letter of the 29th ultimo, and may enable you to trace whether there is actually any correspondence carried on betwixt Cheyt Sing and Almafs, or not.

We ought not to be too ready to give way to mere fufpicions, fo far as to let them have any influence on our outward conduct. But, in fuch dubious times, every thing which appears to have the most diffant dangerous tendency should be noticed, and, if possible, privately aftertained,

Mr. Anderfon to Mr. Briftow, dated 15th November 1782 .- Extract.

I find, from my Etawa intelligence, that the boats were collected at that place to transport the troops defined to recover the fort of Cumeit from the Rajah of Bhadoureah's people; but that letters had been received from Almafs, directing that the expedition fhould, for the prefent, b flopped, as he had taken his leave of the Nabob, and would foon be at Etawa in perfor.

Mr. Brillow to Mr. Anderfon, dated the 24th November 1782 .- Extract.

Almais propoles to come to Lucknow again very thortly, and continues to profels implicit confidence and obedience. Your intelligence regarding his correspondence with Cheyt Sing is confirmed by the Vizier's agents, as well as thofe I have employed. I cannot afcertain any particulars of Annut Row, unlefs he be a man now at Delhy, who wrote me a letter, inclosing one from Scindia : I forward you copies of both. The names of Shuffy Beg and Mahomed Jaffier are fictitions, for Shuffy Ulla and Ufcurry Cawn, who inform me they did not chufe to appear in a negociation with the Marattas. Jadoo Row, at this place, is the agent of Annut Row ; who, I take it, will appear upon enquiry to be the perfon you mentioned in your letter of the 29th ultimo. By what I have feen and heard of Jadoo Row, he is come for the purpole of obtaining intelligence; and I apprehend there is no mode of preventing his refidence with us, whilft your negociations with Scindia may continue. It is a fair conclution, if Annut Row had been deputed to Almafs, that he would not have fent his agent (Jadoo Row) to Lucknow; and therefore I am inclined to think their feeret correspondence is, at the prefent juncture, conducted through fome other channel.

At different times, Almaîs Ally Cawn has farmed Khyrabad, Sultanpore, Goruckpore, and Ferockabad, which are diffricts remarkable for the refractory fpirit of the Zemindars. In fhort, he collected at the point of the fword, and plundered indifcriminately every rank and clafs of men. Total lois to Government

I have omitted in this calculation to note his advantages from the immense allowance granted on account of his civil and military establishments, which were always near a third of the revenues. The management of his troops was left to his own differences; he appointed his own commanders, and mustered them himself: This was another fource of loss to Government. During that present year, I have received numerous representations of the violent and opprefive administration of his Naibs; and I dread an enquiry. The result can only bring to light a ferries of cruelty, fluecking to every humane and feeling mind.

T is with reluctance that I bring before the Board a fubject of the greateft importance, at a period not offenfibly requiring it; but the neceffity of it has been long fince forefeen, and not unnoticed in the verbal communications which I have had occasion to make to the members of the Board.

On the 28th of laft month, while the late arrangement of the concerns of this government in the province of Owd was under difcuftion, I received a letter from my fecretary, Major Palmer, at Lucknow, containing a very alarming reprefentation of the difordered flate of that country, and urging the neceffity of my reparing to Lucknow for the purpole of giving my perfonal and early affiftance to the Nabob Vizier for their retrieval.

From other letters, which have been fince received from Lucknow upon the fame fubject, I underftand that this was the expressed with of the Nabob Vizier, his minister, and all the principal perfons of his family and court; and I have great reason to believe, that as foon as the Nabob shall have received the notification lately transmitted to him of the last resolutions of the Board, he will declare the same wish in terms, and connect it with his acceptance of the engagement prefcribed to him.

It is neither confiftent with my intereft or eafe to refign the ordinary tranfactions of my flation, and by accepting the detail of a fingle and inferior department, engage in a fcene of difficulties, fome of which derive their origan from natural caules, and may be informountable by human exertions; nor am I very anxious to hazard my reputation on the fuccels of fo doubtful a fervice ; yet as the Board has been pleafed to commit the affairs of that province in an effectial manner to my charge, and have given me the most positive affurances of their fupport, to enable me to acquit myfell of fo weighty a responsibility. I conceive this to be a cale which will not allow of my attending to any perfonal fuggestion. My fervices are at all times, and in all cafes, primarily due to the most important and most urgent calls of this government. To the importance and urgency of the prefent exigency are added the obligation of a special trust and engagement, and the pledge of the most powerful aid for my encouragement.

Cc 99

I therefore make this early tender of my fervices to proceed to Lucknow, whenever I shall receive an invitation from the Nabob Vizier to that effect, for the purpole of regulating the Company's interests in that province, and affording the Nabob Vizier the like affistance for the regulation of his.

My reafons for thus anticipating the call which I have fuppoled are many.

I have already premifed, which I now repeat in more forcible terms, than I am morally affured of receiving fuch a call from the Nabob Vizier; and I make no fcruple of affirming, that I can implicitly rely on the deference which he has ever fhewn to my advice, and on his confidence in my juffice and good faith, for the most willing co-operation on his part in the measures which I shall recommend for his fervice, and as prompt and ready a fubmiffion to the rights which I may exclusively affert on behalf of the Company.

The accumulating diffreffes of that country require preventive no lefs than remidial applications. The administration of his government requires the vigorous exertion of the powers of our own to reftore and confirm the authority which has been loofened from it. His revenue requires the fuperintendency of officers acknowledging their dependance on their conflictutional matter, and poffeffed of credit and characters equal to the refponsibility. The balance of the Company's debt, and its progreffive growth, depend for the payment on the fame provisions; and the liquidation of our own current and bonded debts, together with the credit of our treafury, equally depend on the early liquidation of that which is due to the Company for the province of Owd. The dearth which has already fhewn itself in fome fevere effects, will require the fame co-operative aid to remedy fo much of this calamity as may proceed from artificial, grounded on natural causes.

The Sics, who have been for fome time forming in large bodies, and have avowed their defign on the dominions of the Nabob Vizier, require early preperations to meet and repel them; and I have caule to believe that the prefence of the executive member of this government, fuppofed to poffefs the command of all its powers and refources, would contribute much to difcourage the attempt, and fupercede the necessity of more fubstantial operations. Such are the objects of the proposed measure, and the necessity of its early execution is involved in the terms of each, nor is it possible to state them in others which shall exclude it. But to these I must add other confiderations, derived from my own fituation : First, a respect due to the constitutional rights of the individual members of the Board, and fomething due to my own credit, which impel me to bring the queffion before the Board, while every member of it now prefent may have an opportunity of giving his opinion upon it, and thereby alfo to guard myfelf against the imputation of feeking the advantage of carrying it by my own cafting vote. Secondly, the defire which I have to peffeis the official affiftance of Mr. David Anderion, whole weak flate of health, derived from a late dangerous illnefs, has induced him to refolve on a voyage to Europe for his recovery : On intimating to him the poffibility of my being called upon this fervice, and the indifpentable call which I should in this cafe have for his, he chearfully agreed to yield it to me, and to fuspend the engagement of his paffage until the latest period requiring it, that he, might be at liberty to attend me.

I fhould be forry to feem to depriciate the merit of others by an exclusive preference flewn to one; for I know many of the Company's fervants, who are equal to any trufts that may be reported in them; many, who in talents and integrity are entitled to receive the most public tertimony of my effect and appprobation; but I have been long in official habits with Mr. Anderion; I know him; his difposition and manner of thinking agree with my own; and, in the peculiar line in which I should will to employ him, there is not another to whom I could fo confidently rely. I do not think it reafonable to keep him longer in sufficient, and on that confideration alone, were there no other, I would entreat the Board to bring this point to an instant decision.

I repeat, that I do not folicit the fervice which I have offered to undertake, but fimply offer it, with the most firm determination to hazard every interest that is dear to me in the profecution of it, if it shall be the option of the Board to affign it to me; and I shall expect, in that event, to be invested with the full powers of my office, that is to fay, such as I have especially committed to me on fimilar occasions.

If the Board shall not chuse to accept of my offer, I shall rest contented with the complete discharge of my duty in having both made it, and used my endeavours to render it effectual.

Minutes of Mr. Stables and Mr. Wheler.

The following minutes were received on the 23d ultimo from Mr. Wheler and Mr. Stables, and communicated to the Governor General.

Mr. Stables,

21ft January 1784.

I am forry that I cannot accept of the Governor General's offer to proceed to Lucknow. In my opinion the executive member of government ought to remain at the prefidency, and most particularly at this time, when we are in daily expectation of receiving the news of new arrangements from home.

> A true Copy, E. Hay, Secretary.

Mr. Wheler,

21ft January 1784.

In giving my opinion on the very important queftion brought forward in the Governot General's minute of yefterday, it is neceffary for me to make a reference to what has paffed before upon the fubject.

On the 31ft December 1783, the Board refolved to withdraw the refidency from Lucknow, and to confirm the Governor General's acceptance of the refponfibility and charge of affairs there, as explained in the minute agreed to and delivered in by Mr. Macpherfon, Mr. Stables, and myfelf, on the fame day.

Previous to the refolution the Governor General reprefented the neceffity which he concrived there was for his repairing to Lucknow, for the purpole of accomplifting thole plans which alone could place the Company's concerns in the Nabob's country in a more profeerous flate. Against the acceptance of this many difficulties occurred, and in confequence it was, after much deliberation, mutually and manimouffy agreed to decline the acceptance of the Governor General's tender of his perfonal fervice in the Nabob Vizier's country, and this part of the proposal ended in convertation, without being entered on our recorded debates; however, in candour, I must acknowledge, that no claim was preferred on the one hand to bring forward this queffice at a future day, nor on the other was any attempt made to preclude it, should the measure hereafter appear more firongly neceffary.

But I flatter myfelf that in fo fhort an interval as between the grff December and 20th Januarys no motives more preffing, or reafons more urgent than those which had already been brought in argument, would have occurred to prompt the Governor General to the revival of a queffion of fuch magnitude as that of his departure from the prefidency, at a time when his fervices here are fo effentially required, and I confider myfelf the more warranted in this hope, becaufe no advices can have arrived from Lucknow fince the Nabob Vizier received the notification of the refolution of the Board to accept the offer made by himfelf and his minifter of giving the fecurity of bankers of known credit and refponsibility for the payment of the balance due to the Company, and of the current demands of the year. It is true, the Governor General's visit to Lucknow is faid to be the expressed with of the Nabob Vizier, his minister, and all the principal perfons of his family and court, and that the fame will probably be declared in terms, and be connected with the engagement preferibed to him; if fuch be the Nabob Vizier's intention, a very thort period of times will be fufficient to enable the Board to receive his requisition in form.

Great merit is certainly due to the Governor General for his zealous tender of his fervices on this occafion, which, he fays, are at all times and in all cafes primarily due to the moft important and moft urgent calls of this government; but in the prefent terms and circumftances of the quefion, I muft beg leave to decline anticipating the neceffity which may arife of accepting them in the way they were offered: For I think that the prefence of the Governor General at our Board fhould never be difpended with but on the moft prefing and moft important occafions; and I repeat, that I deem it at this particular juncture effentially requifite.

But fhould the Nabob Vizier, in his letters to this government, prefs the affiftance of the Governor General's abilities in forming new arrangements for the internal government of his country, and the aid of his perfonal and official influence to carry them into execution, and fhould flate it as a meafure abfolutely neceffary to be adopted for the regulation of his fnances, and the fpeedy liquidation of his debt to the company, connecting it alfo with his acceptance of the engagement preferibed to him; and if the Governor General fhall be of opinion that his fervices can be more effectual, and generally beneficial to the interefts of the Company, by their being employed in that country, than in the arduous and important duties annexed to his flation herer I fhall not fhrink from the additional weight of labour and refponfibility which will in that cafe devolve on me, but fhall think myfelf acting up to the fpirit of the minute delivered by Mr. Macpherlon, Mr. Stables, and myfelf, in giving the Governor General this opportunity of acquitting himfelf of the refponfibility he is hereby charged with in the affairs of the Nabob of Oude. This opinion I hope and truft will meet with the concurrence of the other members of the Board; and I ventur e to exprefs a confidence in their hearty co-operation with me, during the Governor General's abfence, in difcharging the important duties which belong to our government.

EXTRACT of the Secret Letter from Bengal, dated the 7th February 1784.

Para. 21. YOUR honourable court has already been made acquainted with the refolution which we thought it neceffary to pafs on the 31ft of December, for withdrawing the refidency from Lucknow, and accepting the offer made by his Excellency the Vizier and his minifter, of the fecurity of bankers of known credit and refponfibility for the payment of the balance due from his Excellency to the Company, and other current expences, the Governor General being fpecially refponfible for the propriety of the meafure. Mr. Wombwell, our accountant at Lucknow, having been directed to receive fuch fecurity from the Vizier, has lately transmitted to us a copy of the engagement entered into by two bankers, named Lela Butchrauge, and Faquir Chand; in which they make themfelves answerable for the fum of Lucknow Sicca Rupees 1,03,84,420, being the balance due from his Excellency to the Company at the end of the laft Fufflee year, as well as for the fubfidy and other current demands of the prefent year, according to a flatement adjusted by Mr. Briltow. Part is to be paid in the courfe of the prefent year 1191, and the remainder in the courfe of the next year 1192 fuffulee. A copy of the engagement attends you, a number in the packet.

22. The Governor General having laid before us copies of a correspondence which passed between Mr. Wombwell and Mr. Bristow, by which it appears, that Mr. Bristow has helitated to obey the order which directed his return to the prefidency, in confequence of fome doubts expressed to be primarily founded on the terms of that order, which he expresses to be "loofe and "indefinite," we have fent our peremptory commands to Mr. Bristow to leave Lucknow, and repair to the prefidency immediately, directing, in like manner, the affistants of his office to do the fame.

23. We have the honour to transmit to you a number in this dispatch, copy of a minute delivered by the Governor General, on the 20th of the last month; in which the Governor informs us of a letter he had received from his fecretary, Major Palmer, at Lucknow, containing a very alarming representation of the disordered flate of the Vizier's dominions, and urging the neceffity of his repairing to Lucknow for the purpose of giving his personal and early affistance to the Nabob Vizier for their retrieval: And that from other Letters received from Lucknow upon the fame subject, the Governor General understands that this was the expressed with of the Nabob Vizier, his minister, and all the principal persons of his family and court; having also great reasons to believe, that as soon as the Nabob should have received the notification lately transmitted to him, of the last resolutions of the Board, he would declare the fame with in terms, and connect it with his acceptance of the engagement prescribed to him. The Governor General has therefore made us an early tender of his fervices, to proceed to Lucknow whenever he shall receive an invitation from the Nabob Vizier to that effect, for the purpose of regulating the Company's interest in that province, and affording the Nabob Vizier the like affistance for the regulation of his.

24. For

24. For the other important reafens which have induced the Governor General to make this offer, we beg leave to refer you to his minute, which we deem well deferving your attention. The minutes of the other members of the Board now at the prefidency on this inbject, are allo enclosed numbers in this addrefs; and by thefe you will observe, that the Governor General's tender of his fervices to repair to Lucknow, has been accepted on the following conditions; viz. that the Nabob Vizier fhall, in his Letters to this Government, prefs the affiltance of the Governor General's abilities in forming new arrangements for the internal management of his country, and the aid of his perional and official influence to carry them into execution, and flate it as a meafure abfolutely necessary to be adopted for the regulation of his finances, and the speedy liquidation of his debt to the Company, counceting it allo with the acceptance of the engagement preferibed to him; and that the Governor General shall be of opinion, that his fervices can be more effectual, and generally beneficial to the interefts of the Company, by their being employed in that country, than in the ardious and important duties annexed to his flation at the prefidency.

Extract of the fecret Letter from Bengal, dated the 16th February 1784

Para. 10. We had the honour to inform you in our laft advices, of a tender made on the 20th of laft month, by the Honourable the Governor General, of his fervices to proceed to Lucknow whenever he fhall receive an expected invitation from the Nabob Vizier to that effect, for the purpole of regulating the Company's interefts in the province of Oude, and affording the Nabob Vizier the like affiftance for the regulation of his. Our refolution was allo communicated to you on the Governor General's offer.—A fitrong letter from his Excellency, and his minifter Hyder Neg Cawn, has been lately received, and fubmitted to us by the Governor General, who has renewed the offer before made to us.—The Governor's minutes on this fubject, and the papers accompanying them, are transmitted to you numbers in the packet, together with the minutes of the other members of the Board now here, to which we beg, leave particularly to refer you, and by which it will appear, that we have vefted in the Governor General the powers and authorities which he has defined, to enable him to effect the purpofes of his vifit to his Excellency the Vizier's dominions.

14th February 1784.

THE Governor General having this inftant received letters from the Nabob Vizier, and his minifler Hyder Beg Khaun, tranflations of which accompany this minute, the Governor General, in compliance with the prefing invitations contained in these letters, now renews the tender of his fervices in acceptance thereof, in the terms and for the purposes expressed in his minute of the 20th January.

The Governer General alfo, relying on the Board's acquiefcence in the foregoing propolal, fince in the event which has happened it has already been in fact agreed to, and withing to preclude all intermediate delay, fubmits to the Board, for their approval, drafts of his public credentials, and of orders to be iffued to the civil and military officers flationed behind the province of Bahar.

Not willing, on fo fhort a notice, to require the members of the Board to give themfelves the trouble of an immediate and formal meeting for the purpole of difcuffing the bufinefs of the preceeding queffions, nor the occafion requiring it for the realon already mentioned, the Governor General has directed the fecretary to attend them with these papers, and requests that they will be pleafed to deliver their opinions thereon in circulation.

Ufual introduction.

Your gracious letters, which you honoured me with from paternal kindnefs, have arrived. In what language can I express the favours and obligations you have conferred upon me? This country, my family, and myfelf. are all yours. Such obligations have bound me firmly in gratitude. I before refted entirely on your pleafure, but am now with heart and life attached to it, and will in no measure depart from it. From the favours conferred on me. your reputation will fpread throughout all Indostan, for to the inhabitants of this country you have given new life.

My only defire now is a meeting with yourfelf: From the fame motive as you have already fhewn me fo many favours, I entreat you will travel this way, and confer profperity on my family and country, which are the fame as your own. Your prefence will be the caufe of increase of my reputation, regulation to my affairs, and fettlement of the country, to the mutual advantage of our Sircars, as whatever plans you may adopt will remain permanent, and be a fource of credit during our lives.

As I am now ardently employed in the direction of affairs, and the measures for paying the Company's demands, I have no leifure, and am therefore excutable, otherwise I should come to visit you. In the manner you have already favoured me, confer the obligation of coming here to complete my happines, as I am certain such regulations will proceed from it, as shall not leave room for any one hereafter to find fault. I have performed the conditions signified by you through Major Palmer, for the fatisfaction of the Company, which will be known to you from his letters.

Ufual introduction.

How fhall I express the obligations you have conferred upon his Highness and his fubjects in general, fince human language is too weak? Your fame will from them be fpread throughout the world. His Highness is to obliged and grateful for your favours, as cannot be expressed ; frequently faying, you have purchased him by generofity. This will be fully known to you from the letters of Major Palmer.

The only defire of his Highnefs now is, that you will, by coming here, beftow profperity on his affairs. From your prefence will fpring flability to meafures, and benefit of both Sirkars; as whatever you plan will remain firm for ever. I who am your fervant, lifted from the duft by your hand, have received new life from the favours conferred upon his Highnefs, and regard paying my refpects to your Excellency as neceffary to my exiftence; but at this time your prefence here is moft advifable. The favours you have fhewn can only be repaid by prayers for your profperity. What was defired for the fatisfaction of the Company has been performed, and fhall be obferved in future. Every point will be known to you from the letters of Major Palmer.

The Governor General.

To obviate any mifconftructions of the confidence with which I have long fince mentioned my expectation, which is now arrived from the Nabob Vizier, I think it expedient to obferve, that, independently of my intimate knowledge of the Nabob's general with upon this fubject, his particular defire of a vifit from meat this time, and for the purpoles of the actual occasion, has been repeatedly fignified to me in many private letters from Lucknow, both from Major Palmer and others, long before I made the first tender of my fervices in accepting the invitation.

At the time that my letter, containing the notification of the refolution of the Board, paffed on the 31ft of December, arrived at Lucknew, the Nabob Vizier had quitted his capital, and was on an excursion of pleature at a diffance of an hundred and ten miles from it. By a paper of intelligence, delivered to me by his Vakeel Rajah Govindram, and in the pofferfion of the fecretary, I am informed, that fuch was his impatience to return, that he performed the journey in feven parts, or 21 hours, in a palanquin, and arrived at Lucknow on the 2d inftant without attendants.

For further proofs of the little ground which exifted for the ufe of any indirect means to influence the Nabob in foliciting my prefence and affiftance, I refer the Board to the accompanying letters, which I received the day before yefterday from Major Palmer and Mr. Wombwell, neither intended moft affuredly for public record, nor was it without hefitation that I was induced to infert that of Mr. Wombwell. I could not deny myfelf the advantage of fo firong a teftimony, both of the point in queftion, and of the utter want of foundation for the affertion fo often repeated by Mr. Briftow, that the Nabob was himfelf indifferent to the tranfactions which formed the multiplied complaints againft the Refident, and that the whole were the fabrication of his minifter without the participation of his will or inclination.

My dear Sir,

Lucknow, 2d February 1784.

The Vizier arrived here yefterday, after travelling a confiderable part of his journey by polt. Mr. Wombwell and I paid our refpects to him this morning. After perufing your letters, prefented to him by that gentleman, he entered into difcourfe upon the different fubjects of them, and gave the ftrongeft and moft unequivocal proof how deeply he was penetrated with a fenfe of your goodnefs, and the important benefits which you have obtained for him.—He earnefily wifnes to ice you, to make his grateful acknowledgments in perfon, to requeft your perfonal affiftance in completing the generous work which you have begun, by effablishing the mutual interests and reputation of both governments upon the moft fold foundations. To morrow he will tell you fo himfelf; and if his writing is fo exprefive and as forcible as his speech and action, you will be convinced that there is no circumftance in life can give him greater happinefs than to fee you at his capital, and to prove his gratitude by an implicit and chearful acquiefcence in whatever meafures you may recommend.

I am greatly concerned that the fine feafon for travelling will be nearly over before you can fet out. The ablence of the Vizier has caufed an unlucky delay. I thought your vifit a point of too much delicacy and importance to be fettled whild he was at a diffance, as it would have been impoffible for me to have known his real fentiments upon it; and I was determined to decline the invitation, if it fhould appear to be made only as a compliment.

I requeft, my dear Sir, that you will give me the information of your departure, that nothing may be wanting, either here or upon the road, for your accommodation. The Vizier has not yet intimated to Mr. Briftow his permiffion to depart, being defirous to avoid every appearance for his removal, and Mr. Briftow not having yet given in his accounts.

Gentlemen,

I beg leave to lay before you copy of a letter which I have received from Colonel Ironfide, together with the papers therein referred to. I also lay before you a copy of my answer to him on the occasion: Should the Board be of opinion that more precise instructions than those I have conveyed to him, are necessary for the guidance of his conduct, they will of course furnish him with such additional orders as they may deem fuitable.

VOL. IV.

With respect of the invasion of the Rohilcund now threatened by the Seiks, I prefume Colonel Sir John Cumming, from whom I have yet received no advice on the subject, will take the necffary steps to repel, by ordering Colonel Knudson to advance with the detachment under his command from Barelly, and reinforce him, if requisite, with troops sufficient to guard the gauts, a precaution which has usually been taken. Should they have collected to large a body as to make it expedient for Sir John to march with his whole force to oppose them, Colonel Ironside ought to be directed to march himself with his brigade, or to detach a part of it towards Furruckabad, to cover the country on that fide.

By the flatement of the troops in the fervice of Almafs Ally Cawn, lately transmitted by the Refident to Colonel Morgan, and by the Colonel to me, it appeared that he had a force on foot in the Doab fufficient of itfelf to oppole any attempts of the Seiks, if his fidelity to the Nabob may be relied on at any rate. I think it cannot be apprehended that he will join them, or fuffer them to ravage this country, of which he is collector.

Sir,

I herewith transmit, for your information, copy of a paper of advice from Major Browne, fent to me by the Refident at the Vizier's court: I received it yesterday, accompanied by his defire of my opinion on the measures I deemed it expedient to follow.

A copy of my aniwer to him goes also enclosed. You will please, I hope, more immediately to notice that part wherein it is observed, that no inftructions had been received by me from Colonel Morgan; nor had any yet been iffued for my conduct in case of hostilities from the neighbouring powers, either by the Governor General and Council, or by yourielf. It is my earness with to be favoured with them, that I always may act, as is my duty as well as my inclination, in entire correspondence with the views and intentions of my superiors: Should I not, however, be favoured with them in time for the present conjuncture, I shall do my best to repel every invasion of the dominions of the Vizier, in conformity to his Excellency's requisitions to me, of which, and every other material event, no occasion shall be omitted by me to yield you the earlieft intelligence.

To John Briftow, Efquire, Refident at the Vizier's Court.

Sir,

I have received your favour of the 31ft of January, containing a transcript of intelligence from Major Browne of the 25th, and defiring my opinion on the measures expedient for me in confequence to purfue.

With no other given premifes than a mere notice of the Sykes intention, it is not in nature for me to form a competent judgment on the fubject: on fo very material a one to offer an inconfiderable opinion, might probably be dangerous, certainly ineffectual. Before it is poffible for any reafon of mine to proceed to a fingle determination on the prefent cafe, it is requifite for me to be apprized of the following particulars:

First. In what degree of opposition or connection the Vizier stands with the Seikes.

Secondly. The power he poffeffes in aid of the English forces, to oppose them.

Thirdly. What force is now actually near the Gaut of Suckertawl, to guard that paffage.

Fourthly. Whether the Vizier can rely on the affection and fidelity of his new Rohilcund fubjects, on an enemy's invation of that diffrict

Fifthly. Whether, by the very last treaty ftruck with the Vizier (which I have never feen) there are any specific provinces guaranteed to him by our Government, beyond the frontier of which line the English troops cannot pass without an express order from the Governor General and Council.

Sixthly. In the event of taking the field, for what number of English troops the Vizier might make a requisition.

Seventhly. Whether the Vizier can fupply a fufficient quantity of grain by water conveyance on the Ganges, for the confumption of a large army in Rohilcund or the Doah, for at least four months, which would be nearly the duration I prefume of an enfuing campaign.

It is full as expedient also for you to be acquainted, that no inflructions whatever regarding the conduct of the troops beyond the provinces were left with me by Colonel Morgan, nor have I yet received directions for my procedure in any one exigence from the Governor General and Council, or the Commander in Chief.

Provided, therefore, there be no inftructions deposited with the Vizier, to be delivered to me on occasions fimilar to the prefent, I deem it indispensable for me to receive, if possible, the commands of the Honourable Board for my guidance, before any decisive operations are hazarded in a contingence of such eminent confideration.

If those, however, cannot be obtained in time, let me be but once truly afcertained of the particulars above recited, and honoured at the fame time with his Excellency's written commands; I can then, inflantly, as a foldier, decide what is to be done. In every cafe of this nature, I with indeed to be confidered in no other light.

I have not adverted to the magnitude of the Seiks army, becaufe if it is uncommonly numerous, and the dearth in the weftern provinces fevere as reprefented, it is forcely possible they should long fubfift where they are. much more attempting any enterprize in a region equally defitute.

To Colonel Ironfide, commanding at Cawnpore.

Sir,

I have received your letter of the 3d inftant, enclosing a copy of a paper of intelligence fent to you by the Refident at the Vizier's court, as alfo a copy of your letter to Mr. Briftow, and acquainting me that no inftructions had been left with you by Colonel Morgan, regarding the conduct of the troops beyond the provinces.

I believe no particular infructions were given by the Board to Colonel Morgan, at leaft none paffed through me, further than in general terms, to comply with the requilitions which might be made to him from the Vizier, through the Refident, for troops for the protection of his country either against foreign or domestic enemies; and you of courfe are to observe the fame line of conduct.

In case of invation by a powerful enemy, or a general commotion in the country, to repel or fupprefs, to which the co-operation of all the forces in the Vizier's dominions might be requisite, you are, as fenior officer, to take the command of the whole, in conformity to the infructions contained in a letter from the Honourable the Governor General and Council to Col. Morgan, a copy of which I enclose to you, as well as a copy of the letter to Col. Sir John Cummings, therein referred to.

The questions upon which you have required information from the Refident, will, I fuppofe, be answered by him; but that the Board may be apprized of your doubts upon certain particulars, I shall immediately submit to them your letter to me, and the papers that accompanied it.

Colonel Knudfon, in a letter to me under date the 30th of January, acquainted me, that in confequence of intelligence he had received of a numerous body of Seiks being collected in the upper part of the Doab, with an intention, it was imagined, of entering into the Robilcund between Nagui and Daranagur, he had applied to Colonel Sir John Cummings, for permiffion to advance to the banks of the Ganges, which I fuppofe Sir John Cummings will immediately direct him to do, and fupport him with more forces to repel these invaders, fhould it be necessary...-Befides the troops which the Nabob may have already in that province, it will be proper that he detach for its particular protection as large a body of horfe as he can fpare, which it would be proper you fhould intimate to the Refident.

The Secretary begs leave to acquaint the Board, that the Governor General, on reading the foregoing papers yetterday, defired it might be mentioned to the other members of the Board, that he approved of the infructions fent by the Commander in Chief to Colonel Ironfide on the 10th inflant; and is moreover of opinion, with the Commander in Chief, that if the Seiks fhould have collected to large a body as to make it expedient for Sir John Cummings to march with his whole force to oppose them, Colonel Ironfide fhould be directed to march himfelf with his brigade, or to detach a part of it towards Furruckabad, to cover the country on that fide.

The Board agree in opinion with the Governor General, and refolve, That the following Letters be written to the Commander in Chief, and Colonel Ironfide.

Sir,

The Commander in Chief having lately laid before us a copy of a letter which he had received from you, under date the 3d inftant, and of the papers therein referred to, as well as a copy of his inftructions to you on the 16th inftant, we think it right to express our entire approbation of the latter, and moreover to direct, that if the Seiks should have collected to large a body as should make it expedient for Sir John Cummings to march with his whole force to oppose them, you do yourfelf march with your brigade, or detach fuch part of it as you may think proper, towards Furruckabad, to cover the country on that fide.

We are yet without advices from Sir John Cummings, with refpect to the measures which he intended to purfue on the expected entrance of the Seiks into Rohilcund, but it is to be prefumed that he has taken the neceffary steps for repelling them, by ordering Colonel Knudson to advance with the detachment under his command from Barelly, and that he will reinforce him, if requisite, with troops sufficient to guard the Gauts.

continuation of the fame to the rfl February 1784, taken from the accounts of the late Refident at his court, for the month of January 1784, which were received fublequent to the formation of that effimate.

2. The Honourable Board will observe, that the balance due from the Naboh, as flated by this effimate, exceeds the amount at which it is flated by the account current of the Naboh, formed by the late Refident at his court, by the fum of current rupees 12,02,120. 9. 4. and will find every article of difference between the accounts of the Prefidency and those of the Lucknow flation exhibited in the effimate. To these however it may be necefflary for me to advert more fully than was practicable in the formation of that ellimate, to enable the Honourable Board to determine how far the articles of difference which it exhibits, thould be either charged by the Accountant to that flation to the Nabob's debit, in the account current of the next month, or he wrote off from those of the Prefidency.

3. The amount of the first article, current rupees 1,83,020. 14. 9. muft, I conceive, be carried to the Nabob's debit, as it arises from the Refident's having mittakingly carried to his credit current rupees 2,23,205. 3. 4, which he received back of the advances which he had made on account of the pay of the troops flationed for the defence of the Nabob's dominions fituated beyond the line of guaranty; which differing very materially from the actual expence of those troops, the Refident should never have attempted to regulate the Nabob's accounts with the Company on this account, by what was advanced by him to the paymafters, but by the actual expence thereof, alcertained to him by the officers of the Prefidency.

4. The fecond article of current rupees 2,94,015. 6. 1, being the difference between the actual expence of Abdul Bhehman's Cawn's Riffallah 1781-2 and its effimated expence of 1782-3 to the end of which they were paid up by Colonel Morgan, previous to their being permitted to return from Surat to Lucknow, and the amount of fundry payments made by the Refident, on account of this Riffallah, which he has not charged to the Nabob's debit; and the amount of those fums with which he has charged the Nabob on this account, muft, I conceive, be carried to the Nabob's debit in the accounts of the Lucknow flation, as being fo much which they include lefs than what ought to have been included in them for this expence. I muft however obferve, that as the estimated expence of 1782-3 has been fubfituted in lieu of the actual expence, an adjuftment may hereafter be neceffary, to bring to account the difference. Why the Refident floored make advances on this account, which he did not charge to the Nabob's debit, is a matter for which I cannot account.

5. The third article, of current rupees 76,792. 5. 8, which is the difference between what the Company have been charged on the account of the flipend of the Nabob Saadut Ally and the amount which the Refident has ultimately permitted to remain at the Nabob's debit on this account, muft, I flould conceive, be brought to account in the accounts of the Lucknow flation, as fo much which the Refident has included therein lefs than what they ought to have been charged with.

6. The fourth article, of current rupees 6,960 being the amount of two advances made by the Honourable the Governor General to his Vackeel Rajah Govindram, will no doubt be readily admitted as an omifion which has escaped the observation of the Refident, and as such brought to account in the accounts of the station.

7. How far the Honourable Board may be inclined to think it worth while to direct the amount of the 5th article, being current rupees 134. 15. 4, now to be charged to the Nabob's debit, in the accounts of the Lucknow flation, is a matter which I have but to point out to their notice.

8. Had the Honourable Board's orders, of the 14th April 1783, been officially communicated to the Refident, I thould conceive that the amount of the fixth article, being current rupees 1.09.07.13.1, would not at this time have been an article of difference between the accounts of the Lucknow flation and thole of the Prefidency; but as the former have not yet been made to contain this article, it flould now have place in them. I muft however remark to the Honourable Foard, that the Company's bonds, which were granted to Mr. Frazer, in difcharge of the Vizier's bonds to him, bear an interest of 8 per cent. from the 22d March 1783; that in cafe the Board flould think that, as the Honourable Company are paying at the rate of intereft on a part of the Nabdb's debt to them, the Nabob flould be charged with the fame, the Accountant of the Lucknow flation may be apprized of their determination thereon, and act in conformity to it.

9. On the 24th July 1733, the Honourable Board was pleafed to refolve, "that the Vizier's account fhould be debited for the actual loss proceeding from the deficiency between the amount received and the fum credited the Nabob, at the ftandard batta fixed by the table of affay." This order paffed upon two accounts fubmitted to them by the Acting Accountant General, who exhibited in them the difference between the produce of fundry remittances made from Lucknow by the Refidents, in bills of exchange drawn upon bankers in Calcutta, and what would have been produced, had the fame fum of Fyzabad 16 Sun Sicca rupees, as was charged in the accounts, been remitted in fpecie to Calcutta, and re-coined in the mint; but as it fhould feem that fome part of this difference muft have ariten from the Hoondian which the Shroffs charged for the remittance, which is a circumfance that feems to have elcaped the attention of the Board, I think it incumbent upon me to offer this fuggefion, which may poffibly induce the Honourable Boards in their ultimate determination upon this matter, to require a different entry to be made of it than what the prefent orders admit of.

10. It appears from accompanying copy of an extract of general orders by Colonel Charles Morgan, dated 13th December 1784, that the horfes which formerly belonged to the 1ft regiment of cavalry, and which were the property of the Nabob Vizier, have been partly fold, and partly delivered to Abdul Rehman Cawn, who commanded the Candahar cavalry in the pay of the Nabob, which were on fervice with the Bombay detachment; but as the lateft account of any yet received from the paymafter of that detachment is that for the month of February 1783, in none of which is any fum acknowledged by the paymafter as received on this account, I am unable to flate what further credit fhould be given to his Excellency on this head, as the inability of afcertaining the number of horfes which were with that regiment on the 3d December 1781, when the Nabob's cavalry were taken into the Honourable Company's fervice, prevented me from giving him the credit that was ordered to be given him by the Honourable Board on the 24th of June 1782, for the horfes with this regiment, at the fame time that I gave him credit for those that belonged to the other two regiments. There is, however, a fum of current rupees, 9,750. 15. 4, which is the amount of the 8th article of difference flated in the accompanying account, which arifes from the Refident's not having given the Nabob that credit which the Military Paymaster General gave, for the amount at which the hories of those regiments were valued, and the ftoppages that had been made from the pay of the whole on the Nabob's accounts, which was the fund from which his Excellency was to be reimburfed their original coft; this fum, I should conceive, ought to be carried to the Nabob's credit in the accounts of the Lucknow flation.

11. I also beg leave to fuggeit to the Honourable Board the expediency of their determining upon the addition which should be made to the prefent subsidy for the two riffalahs of cavalry, one of which is to be stationed with the troops at Cawnpore, and the other with those at Futty Ghur, as the former mode of charging the exact expense of any particular corps, which can feldom be ascertained to the prefent time, occasions the necessary of subsequent correcting entries, which may not always be clearly comprehended by the Nabob, and may occasion a diffatisfaction, that would not occur in the payment of a definite sum.

12. The Honourable Board having on 5th January refolved that they would exert their influence with the Nabob Vizier for the payment of his bond to Mr. Frazer, for Sicca rupees 1,23,000, bearing an intereft of 12 per cent. from 1ft Shaborn. or 15th July 1782, and that the fame be included in the estimate for the current year, I could wifh to know, whether it is their intention that this fum should be carried to the Nabob's debit in his account current with the Honourable Company, and that Mr. Frazer should receive credit for that proportion of the amount which may be realized of the whole amount of the estimate, which this article bears to the whole.

13. On a fuggestion of the circumstance adverted to, as explanatory of the 9th article to the Accountant of the Lucknow station, the necessity of the trifling correction which it will require, must immediately strike him.

14. When I am made acquainted with the Honourable Board's determination upon these points, I shall without delay prepare such instructions as the Accountant at Lucknow will require for the execution of their orders thereon.

Read the following letter, and its enclosures, from the Accountant General.

Honourable Sir, and Sirs,

In obedience to your orders of the 24th ultimo, I have now the honour to lay before you fuch instructions as the Accountant at Lucknow will require in confequence of the Honourable Board's refolutions on my letter of that date, and those which I would beg leave to recommend for his observance, in the further execution of his office at that flation. These are accompanied by a flatement of the fums which the Accountant at Lucknow fhould carry to the debit and credit of his Excellency the Vizier, in his account current with the Honourable Company, for the month of February 1784, exclusive of those which were usually monthly included in the accounts current transmitted by the late Refident at the Vizier's Court.

I am concerned to be under the neceffity of pointing out to the Honourable Board an omiffion that intruded itself into the estimate of the Nabob's debt to the Honourable Company on 31st December 1783; in the fourth article of which the batta of 11 per cent. on Benaris Sicca rupees 65,767. 6. 2, being current rupees 7,234. 6. 7, being omitted, that article was stated at current rupees 76,792. 5. 8. instead of current rupees 84,026. 12. 3, and the amount of the Nabob's debt at that period at 71,88,071. 9. 10; but which would, but for that error (as it should) have been flated at current rupees 71,95,306. 0. 5; I have, however, corrected this miftake in the accompanying flatement, fo that the Accountant at Lucknow will not have any occasion to potice it. I would Ji

VOL. IV.

I would recommend to the Honourable Board to make an application to Colonel Charles Morgan for account of the fales of the horfes which belonged to the 1ft regiment of cavalry, which he appears to have difbanded in December 1782, and for the return of the whole, exhibiting the cafualties that took place from the time of their leaving Futty Ghur to their being difbanded, that the fame may be delivered to the Nabob for his information. When I are informed of the amount which will be to be carried to his Excellency's credit on this account, I shall immediately draw out the account current between his Excellency and the Honourable Company, from the commencement of the prefent year, of our accounts to that time.

Fort William, Account^t General's Office, 9th March 1784. Fort William, (Signed) WM LARKINS, Account: General.

INSTRUCTIONS from the Accountant General to the Accountant at Lucknow.

1. The accountant at Lucknow fhould, in the accounts current of his Excellency the Vizier, for the month of February, debit the Nabob for the funs contained in the accompanying flatement, to and by the different heads, under which they are feverally flated.

2. The Honourable Board having refolved, that, as Company's Bonds, bearing an intereft of 8 per cent. from 14th April 1783, have been granted in dicharge of his Excellency's bonds to Mr. Frafer, that he fhould be charged with intereft at that rate, on current rupees 1,99,027, 13, 1 from that day; the accountant at Lucknow fhould monthly debit the Nabob, for the intereft due on the 10m which monthly appears to remain undicharged of this debt, from giving an arcount thereof credit for fuch a proportion of the fum received by the refident of his fucceffor, from the affignments taken at the commencement of the year, as the amount of this debt, which fhould be placed to the debit thereof, bears to the whole amount of these affignments.

3. The accountant at Lucknow fhould be particularly attentive to the Honourable Board's refolutions regarding the memorandums which they expect his accounts current fhould monthly exhibit, refpecting the credit to be given him for the fale of the horfes that belonged to the 1ft regiment of cavalry, and of the amount that will be due on his Excellency's bond to Mr. Frafer, for Sicca rupees 1,23,000, and fhould keep a fimilar monthly account of the flate of his Excellency's debt on that account, as I have pointed out in the preceding article.

4. Whet the Honourable the Governor General shall have determined upon the amount which is monthly to be charged to his Excellency's account for the two Risfallahs of cavalry, which are to be stationed at Cawnpore and Futty Ghur, the accountant at Lucknow should charge the fame from the time on which the same commenced to the end of the month in which it is brought to account, and should after that regularly monthly debit his Excellency for the same.

5. The accountant at Lucknow fhould also keep a fimilar account of the army donation, as I have pointed out as necessary to be kept of the sum due on account of his Excellency's bonds to Mr. Fraser, in charge of which Company's bonds have been granted, and state the amount which at the expiration of each month, appears to be due from his Excellency on that account.

6. To prevent the intrusion of errors, by the Lucknow accounts not corresponding with those of the prefidency in the fums charged to his Excellency's debit for the flipend of the Nabob Mirza Sandit Ally, the accountant at Lucknow should monthly debit the Nabob for the fame, in like manner as he debits him for the army fublidy, which, as the Benares Sicca rupees, in which it is paid are comparitively of equal value in account with the Fyzabad 16 Sun Siccas, if he regularly charges the Nabob monthly with 23,752. 15. 6. of the last-mentioned rupees, no difference can in future occur.

7. Should any fum have been paid on account of Abdul Rehman Cawn's Riffallah in the month of February, the accountant fhould charge the fame to the Nabob's debit.

8. The forms by which the Lucknow accounts have for fome time paft been kept, affording every important useful article of information that can, in my opinion, be required of them, an adherence to these is all I can have to recommend, belides an equal attention to their being transmitted to the prefidency with the least possible delay, as has lately been shewn to them: It may perhaps be necessary to observe, that the Fyzabad 16 Sun Sicca rupees are valued in account at 11 per cent. above Current; and that in all the expressions of Curtent rupees made use of in

these infructions this rate is alluded to; confequently, that 90. 1. 5-297 of the former are equal to one hundred of the latter.

Thefe.

To Edward Wheeler, Efquire, &c. &c.

Gentlemen,

I Have the pleafure to acquaint you, that I have received from the Nabob Vizier two bills of exchange, drawn by Buckurauge and Beroondofs, on the houfe of Cafhmeeri Mull and Coffinaut, in Calcutta, for two lacks and fifty thoufand rupees each, payable to your order; the one in fifty-one days, and the other in eighty-one days after date; and I have fent them to the Accountant, as the proper official channel through which they fhould pafs, with directions to him to transmit them by this day's dauk to the Board.

These bills make a part of thirteen lacks, which Almass Ally Cawn has agreed to pay to his master in the present emergency, for the purpose of aiding him, and relieving the Company.

The acting minister has informed me, that he has a further fum of eight lacks ready, which I fhall also deliver to the Accountant, with orders to pay it to you; and these, with the former fums, amounting all together to thirteen lacks, will be carried by him, in his official accounts, to the credit of the Nabob Vizier.

The exchange of the bills I have fettled at 53 per cent. at which I mean to fix it, as the true and just flandard at which it ought to be rated, and which it fhould never exceed. The former exchanges upon bills drawn at this place, I cannot revert to without expressing my aftonishment at them. At the time of Mefirs. Middleton and Johnson they were from 19 to 20 per cent. and they were afterwards reduced by Mr. Briftow (if I recollect right) to 16 per cent.

I defire your inftructions with respect to the rest, and what more I may have to receive; and request, if you should have occasion to draw upon your treasury here, that the rate of exchange may not be more than 54 per cent.; and I earnessly recommend it to you, that if your other calls are not of fo urgent a nature as to render it impossible, you will appropriate this remittance, together with what remains of the 13 lacks advanced by Almass Ally Cawn, as the first institution of a fund for the payment of the interest of your bonds, which had fuffered fomething in their credit, and of course in their value, by the fuspension of payment of the interest but a few months before my departure from Calcutta. Unless that debt has been fince augmented, this fupply will be more than sufficient for the payment of the interest for one complete year to come.

I expect in a few days to receive five lacks from Fyzoola Cawn, and other payments will follow, as the collections are able to furnish them, in which, however, I mean not to urge the minister to any acts of precipitation, as in the present calamitous state of the country it requires to be managed with a gentle hand.

The period of the enfuing rains, which I am patiently waiting for, will determine how far I may venture to promife. If there fhould be another drought fimilar to that which we have already experienced, it is not in the power of human wifdom to devife means for faving the country; but as it is not in the courfe of things that we fhould be again afflicted with fuch a dreadful misfortune, I have every reafon to believe that I fhall anfwer, in every respect, the complete ends of my deputation.

I have the honour, &c. (Signed) WARREN HASTINGS.

P.S. The acting minifler has delivered to me the following account of other fums advanced by the Nabob Vizier to the Company fince the 31ft January laft, which I fend merely for your fatisfaction, as they yet want ajustment.

tion, without effect, to the Refident at Benares, he therefore defined my permission to make the neceffary supplies from this treasury; to which I affented, and gave him an authority in writing for that purpole.

As my inftructions (though they may admit the general confirmation of a power to order the difpolition of the money which may be unemployed in the Company's treatury at this place) do not specifically express it; and as it is very neceffary that I should posses it, for the purpose of affording early relief to the different military stations of these provinces, by payment of money which would otherwise be unemployed, I request that you will grant me an express authority for that purpose.

E. Hay, Secz,

The Board approve of the relief afforded by the Governor General to the troops at Chunar; and with respect to the powers which the Governor General defires, they are of opinion, that as the wants of cafh at the Prefidency are very urgent, every fupply which the Governor can procure thould be fent immediately to Calcutta.

EXTRACT of a Letter from the Governor General to the Court of Directors; dated Lucknow, 16 June 1784.

The minifters of the Vizier have for fome time pail been diligently employed in regulating the affairs of his government : It has been their grand object to retrench all expences which have proceeded from inattention or profution, and to fuch establishments as are necessary, either for the fupport of his dignity, for the collection of the revenues, or for preferving the peace of the country; they have regulated the feveral departments of government, by making feparate and diffinct arrangements for the collection of the revenues, the controul of the houfehold expences, the administration of julkice, and the command and payment of the forces : And they are now employed in making the fettlements with the farmers and officers of the revenue, for the year which is faft approaching ; when this laft work is finished, it will be in our power to fix the proportions of the Vizier's refources, which are to be applied to the expences of his government and houfehold, and to the payment of his debt to the Company.

All the arrangements have been undertaken by the Vizier and his minifters at my faggedion, but they have been profecuted almost entirely without my participation—the neceffity of them was obvious; and though the reduction of expences is in every flate an arduous and difagreeable talk, yet the Vizier and his minifters have proceeded in it with a degree of alacrity which has exceeded my expectations. All that has been neceffary for me to do has been to point out general plans, and to fupport the ministers by my preference in carrying them into execution, but without interfering myfelf in the detail. The productive feasons of the year being past, there is little revenue now drawn from the provinces, except what is collected from the Aumils in fetting their accounts.

It will not therefore be in my power to add much to the lift of fums received from the Vizier in liquidation of his debt, until the commencement of the new year, when the revenues arising from the Khureif harveft will begin to come in.

Some flowers of rain have lately fallen, but the feafon of cultivation is not fafficiently advanced to enable me to form any prefage regarding the future harveft. In the mean time, it is with the utmost concern that I inform you, that the effects of the extraordinary drought which has prevailed for two years past, are now felt in a very fevere degree in the upper part of Hindostan. This province, although it has fuffered lefs than those which are fituated fill more to the weltward, has already felt the fatal influence of the general calamity, both in the loss of its population and the diminution of its revenue.

It will be perhaps fufficient to inform you that barley and nukoot, which form the chief articles of the fuffenance of the loweft inhabitants of this part of India, fell at prefent at the rate of 15 Vol. IV. Kk

feers. though in moderate feafons the average price of them is about a maund and a half the rupee; in the fame proportion wheat, and all the other kinds of grain have rifen in their price.

Under fuch circumftances, the Vizier's minifters have thought it abfolutely neceffary to allow confiderable reductions in the revenues of the prefent year; and for this I have been obliged to give my concurrence, although in fo doing I admitted a proportionable diminution of those refources from which the Company's claims on his Excellency muft be realized: but as this diminution is merely of a temporary nature, I flatter myfelf it will not affect the expectations which I have given you for the enfuing feafon. Indeed, if the feafon of the approaching rains should prove favourable, I affure you that they will be fulfilled.

In the arrangements which are now taking place in the internal administration of the Vizier's dominions, I had equally in view the improvement of his finances, and the folidity and fecurity of his government; and, confidered in this last point of view, their effects, though they may not be fo immediately apparent, will prove of the utmost confequence to the permanency and tranquility of cur own provinces; for while we are at peace with the powers of Europe, it is only in this quarter that your posseficients and the government of Bengal are vulnerable.

Had this country continued in the flate in which I found it, fubject to a divided government, regulated by no fixed fyftem, and with its rulers and officers in a flate of mutual diffruit, the flighteft flock from a foreign hand, or even an accidental internal commotion, might have thrown the whole into confusion, and produced the moft fatal confequences—happily we have found time to remedy this evil. The province enjoys at prefent a flate of complete repofe—I have no immediate apprehensions of its being diffurbed by the defigns of any of the neighbouring powers.

I have the pleafure to inform you that, in confequence of permiffion which I obtained from the Board at Fort William, I lately fent from this place a remittance of five lacks of Surat rupees to the Governor and Council of Bombay. This will prove a feafonable relief to their prefent exigencies, which by the lateft intelligence from thence feem to have been very preffing.

It will be a fatisfaction to you, to know that the brigade at Cawnpore, the detachment commanded by Colonel Sir John Cummings at Futtygur, and the military flation at Chunar, are completely paid up to the prefent time. The long arrears also of the detachment lately arrived from Surat have been discharged from this treasury. This has given effect to the orders for the reduction of that detachment, and to the extraordinary and heavy expence attending it.

You will have observed, from the records transmitted to you from Fort William, that several confultations have, at times, been held on the subject of differences which had taken place in the account current betwixt the Vizier and the Honourable Company, as it appeared in your General Books, and as it was stated by the Vizier and the Resident.

Many of these differences originated fome years ago, and they have gradually accumulated, till they at length amounted to a very confiderable fum.

An accurate flatement of the feveral articles, with full and clear expositions, being drawn out by your Accountant General, was soon after my arrival here transmitted to me by the Gentlemen of the Council, with their own opinions and resolutions on each, and the object has accordingly employed a confiderable share of my attention.

I have now the pleafure to inform you, that the Vizier and his minifters, on receiving a fatisfactory explanation of each artile, have agreed to a complete adjuftment; and to obviate the poffibility of further difputes, the Vizier and myfelf have agreed to affix our refpective fignatures to an account current brought up to the laft day of May; in which is inferted, to the Vizier's debt, the fem of rupees 19,00,441. 11. 5, being the amount of differences flated by your Accomptant General, in conformity to the refolutions of the Board. The accounts of the Vizier therefore now correspond with your General Books, and I have given fuch inftructions to Mr. Wombwell, the Accountant of this place, as will, I hope, prevent their ever differing materially again.

By adding this fum to the balance formerly admitted by the Vizier, I have in fact fubfiantiated a confiderable claim, which if left much longer in its former flate might have only proved a caufe of diffutes. At the fame time I think it neceffary to remark, that by thus increasing the Nabob's balance, I have made a proportionate addition to the difficulty of the work which I am now engaged in, of fecuring the liquidation of his Excellency's debt to you from the refources of the enfuing year.
