If all Ships in the East India Company's Service were directed by Parliament to be taken up and chartered, at the Builders Tonnage, to be ascertained by a Certificate under the Hands of the Builder, and the Company's Surveyor of Shipping, with Leave to the Company to laden what more Tonnage they may think proper (fo fuch Surplus did not endanger or incommode the Safety of fuch Ship) without paying any farther Freight for the fame, it would then become an Object of Care to the Company, to station and laden them Home, with an Eye to the Company's Interest only, and would put a total End to the Owner's Solicitations about Voyages, and leave the Directors free from many Inconveniencies; only Care must be taken, in that Case, that no small Ships are to go in the China Trade, as they are not calculated for it.

There is certainly no Occasion for Ships, at a great Expence Outward-bound, to wait more than Ten Days at Deptford, Ten Days at Gravefend, and Seven Days in the Downs, from which Place it is best to dispatch them, unless on extraordinary Occasions they are ordered to Spithead; but whenever that happens, it is attended with great Expence, and often with Delay.

All Iron Kintledge taken Our, and brought Home, by way of Bailalt, should be provided by the Ship Owners, and the Company ought to pay nothing for it, in any Shape; but as it is always the Property of the Owners, it should be considered as a necessary Part of the Ship's Stores.

Instead of so many various Kinds of Freight Prices, it would be much fairer and better understood, to

have one clear Price per Ton for each different Place, to be regulated by the Tenders, according to the Price of Stores, Provisions, Seamen's Wages, &cc. annually: As little Attention has been lately given to the punctual Payment of Freights, it feems reasonable that from the Time the Freight becomes due, according to the Terms of the Charter Party, the Company should pay 4 per Cent. for the same, to the Time of actual Payment.

In Page 277 (see printed Charter Party) it says, "But " nevertheless the said Part Owners shall not be charged " with any Sum of Money, in respect of Goods damaged " on Board the faid Ship, either in her Outward or " Homeward-bound Voyage, but fuch as shall (by the " Condition and Appearance of the Package thereof, or " by some other reasonable Proof) appear to be Ship " Damage, &c."

The better and more fairly to explain this Passage, to prevent any improper Use to be made by a Court of Directors of this great Latitude given them, by which they may exercise their particular Feelings to the Interest of their Friends, or rigidly from exercifing their Resentment to Party Prejudice, I would propose, that, for the Sake of fair Justice to all Parties, that that Paragraph should stand thus:

But nevertheless the said Part Owners shall not be charged with any Sum of Money, in respect of Goods damaged on Board the faid Ship, either in her Outward or Homeward-bound Voyage, but such as shall from reasonable Proof appear to be owing to some evident Defect in the said Ship or Vessel, or wilful Neglect of the Captain or

Officers commanding the fame, any thingherein contained to the contrary hereof in anywife

notwithstanding. All Freights Outward-bound, exceeding 333 Tons (which is always carried gratis) to pay a certain Freight per Ton, as well taken out from England, as carried from Port to Port in India (before the Payment of Demorage takes place) ought in common Justice to pay Freight, which would exceedingly contribute towards preventing the Company's Servants Abroad from imuggling their own private Trade from Port to Port in India, at the Company's Expense, which opens a large Field of illicit Trade for the Benefit of fuch Servants Abroad, as well as the Commanders of Ships and Ship's Company, to the great Injury of the Proprietors at Home.

To demonstrate how much more preferable this Mode of Chartering the Company's Ships is to their Interest, than the present Charter Party admits of, I shall compare the present Dead Freight Price with the Dead Freight Price proposed, and the Freight the Company now pay, with Surplus Tonnage.

To fet this Matter in full View, fuppole a Ship taken up and chartered at 903 Tons (Builders Measure) at £. 25 9 4

That Ship's Freight (with a Fraction of 72s.) would amount to - £.23,000 -- And if the Company choice to avail
themselves of the Advantage of giving her full Lading, would bring at least 1,100 Tons, which, reckoned at £. 20. 18 s. 2 d. per Ton, with a

Fraction of 16 s. 8 d. makes the fame

In Page 281, it appears the prefent Charter Party's Dead Freight Price
per Ton, is.

The present Dead Freight Price proposed as above is - 25 9 4

So that this gives again to the Company, on every Ton of Goods brought Home on Dead Freight, the Sum of Eight Pounds Six Shillings.

In Page 281, it appears the lowest Price per Ton the present Charter Party
has ever afforded with Surplus Ton-

Gives again to the Company on every Ton brought Home of Seven Pounds Eight Shillings and Eleven Pence. Had this Plan existed the last Year, when Nineteen Ships came from China, and brought Home (as I suppose in Page 281) 12,141 Tons of Goods, at 6.7. 85. 11 d. per Ton, the Saving on the China Ships only for that fingle Year, would have been Ninety thousand Three hundred Ninety-nine Pounds Seventeen Shillings and Three Pence. The chief Cause of the Company's extravagant Expence in Freights, I take to be their having taken into their Service a greater Number of Ships than they could properly employ: for of late they have had in their Service Eighty-seven Ships, whereas Fifty-sive was more than sufficient for their Trade; consequently they have entertained Thirty-two superfluous Ships, and this creates a heavy and unnecessary Expence to the Com-

pany in Two Articles.

The First is, that in order to find some Employ for these superfluous Ships; with their Captains and Officers, the Company have thought proper to fend out at least Six of them annually to Sea; that is to fay, They have fent out Thirty Ships to India and China every Year, to import Cargoes which might have been eafily carried by Twenty-four Ships, provided the faid Twenty-four Ships had been properly and fully laden. And the additional Expence caused to the Company by sending out Six superfluous Ships every Year is to be ascertained by the following Calculation. The Company charters or freights their Ships from the Owners, at the Burden of Four hundred and Ninety-nine Tons each, which Burden I shall term the chartered Tonnage, and for each of these chartered Tons they pay a certain Freight, which at a Medium may be about £. 32, and this I shall term the chartered Freight; but as these Ships are capable of carrying each from 3 to 400 Tons of Merchandize above the Company's chartered Tonnage, the Company VOL. IV.

To the Committee of Secrecy. agrees to pay the Owners, for all Excess of Lading above the chartered Tonnage, at the Rate of Half the chartered Freight, or L. 16. per Ton. It is therefore evident, that if the Company fends out Thirty Ships to import Cargoes that might have been laden on Twentyfour Ships, they must pay the full chartered Freight of Thirty Ships, instead of paying the Chartered Freight on only Twenty-four Ships, and furplus Freight for the remaining Tonnage. The Difference betwixt the chartered and furplus Freight of Six Ships, being £. 16. per Ton, is £.47,904. And this Sum hath been unneces-farily expended every Year, by sending out Six Ships above what was requifite. And now I shall endeavour to prove the above Affertion; viz. That Twenty-four Ships were capable of importing these Cargoes, for which the Company have employed Thirty Ships an-

> It must, in the First Place, be observed, that the Ships to Coast and Bay, and likewise to the Malabar Coast and Bombay, (being in Number about 14 or 15) have generally returned, what is termed dead freighted; that is to fay, they have feldom imported more than the Company's chartered Tonnage, or 499 Tons; consequently each of these Ships was capable of importing (if full laden) from 3 to 400 Tons furplus Freight; fo that Eight Ships, if fully laden, would have fufficed to import the Cargoes from Bombay, and Coast and Bay, that have been imported upon Fourteen. And with regard to the China Ships, which do bring Home furplus Tonnage on the Company's Account, I am of Opinion, that, with proper Management, there might be a very considerable Saving made in that Branch.

SL

284 1773. FIFTH REPORT from the Committee of Secrecy

The Second Article arises from the Twenty-fix remaining superfluous Ships, which, in confequence of not being employed, lay at Home, and cost the Owners a very confiderable Charge, on the Head of Interest, on the Value of their Hulls, Rigging, &c. and keeping them in wet Docks, Infurance, &c. of all which Charge they must necessarily reimburse themselves at the Expence of the Company, by charging a higher Freight on their Ships than otherwise they would have Occasion to do.-And the Amount of this Article I shall endeavour to ascertain by the following Calculation. The Cost of Hull, Rigging, &c. of Twenty-six Ships; at L. 12,000 each, is L. 312,000; and the Interest upon that Sum, at L. 5. per Cent. per Annum, is L. 15,600 per Annum-The Expence in Docks, the extraordinary Repair necessary to make good the Waste caused by laying a whole Year in Dock, with Infurance, &c. may be, upon each Ship, about f. 400, and on Twenty-fix Ships f. 10,400; which Two Sums, making together L. 26,000, is caused to the Owners, and consequently to the Company, by entertaining in their Service Twenty-fix Ships, which, for want of Employ, are kept in Docks.

And thus the whole unnecessary Expence, or dead Loss, caused to the Company by these Two Articles, is £.73,904, and which Expence may be retrenched, by reducing the Number of their Ships to 55, being more than sufficient to carry on their Trade. But notwithstanding the present bad Situation of the Company's Affairs, and the Prospect of their Trade decreasing, and notwithstanding the late Ast passed by Parliament, to restrain the Company's Tonnage, I understand that they propose to evade this Ast, by repairing their Ships for Six Voyages, whereas they never used to run more than Four Voyages: And, if we reckon Three Years to each Ship's Voyage, this will keep up the present Number of Shipping for Six Years longer—But their keeping up the Number of Shipping by repairing, will be productive of the same, or rather greater, Evils to the Public, as well as the Company, than new building would have done: It would be therefore necessary to prevent this, by a new Clause added to the restraining

Bill.

I should imagine that the Company might still farther decrease their Expence of Freight, by increasing the Dimensions and Burden of the Ships they may build in sture; for Instance, If they shall build Three Ships

And the second of the second o

of such Dimensions as to carry a Burden equal to Four of the present Ships, they must thereby save the Charge of the whole Officers of each Fourth Ship, who by their Privilege and Superior Pay, form the most expensive Part of the Ship's Company; they would likewise save above One Half of the common Crew of each Fourth Ship; and they would farther fave in the building, rigging, storing, and victualling, nearly One Half the Expence of each Fourth Ship; confequently they would fave, in the whole, about One Eighth Part of their whole yearly Charge of Freight.-And supposing that the Sum Total of the Company's Freight should be reduced, by a future Decrease of their Trade, and by the preceding proposed Retrenchment, to the Sum of £. 300,000 per Annum, (whereas for some Years past it hath been near f. 500,000) One Eighth of faid 1. 300,000 being faved by increasing the Burden of their Ships in the Manner proposed, would diminish the whole Expence of their Freight £. 37,500 per Annum; that is to say, instead of 300,000 upon the present Plan of Building, it would, upon the proposed increased Plan, be only £. 262,500. Thus much I have ob-ferved upon the Company's general Plan of Freighting; but I must beg leave to add one Remark in particular upon their Plan of the present Year—The Company have taken up, and are fending out this Year, Twentyfive Ships, of which Eleven are destined to China, and the other Fourteen to Bombay, Coast and Bay, and Bencoolen: And I am informed that the Court of Directors have lately come to a Refolution of ordering all thefe Ships to be dead freighted Home-And, as I have observed before, that each Ship could lade from 3 to 400 Tons above the Company's chartered Tonnage, it is evident, by Calculation, that Fifteen, or at most Sixteen Ships, would import the whole Cargoes that will be laden on the Twenty-five ; - confequently the Company must pay full chartered Freight or £. 32. per Ton, on Twenty-five Ships, instead of having the chartered Freight on only Sixteen Ships, and furplus Freight for the remaining Tonnage; and the Difference betwixt the chartered and the furplus Freight of Nine Ships is £. 71,856—which Sum must be an unnecessary Expence created to the Company, by fending out these Nine fuperfluous Ships.

To the Honourable Secret Committee of Parliament.

Honourable Gentlemen,
IN Obedience to your Command, that I should state
to you the several Measures, whereby Savings may
be made to my Employers the East India Company, in
the Articles of Freight and Demorage, I have taken the
Subject into my most serious and mature Consideration;
and as a hearty Well-wisher to the true Interest of the
honourable Company, I beg leave to suggest the following Hints, which, in my Opinion, is carried into
Practice, would effectually lessen, if not eradicate, the
Evils now existing in the Shipping Branch of the East
India Company's Trade, and put the same upon such a
Plan in suture, as would greatly relieve the Company
from the heavy Load it now labours under, by the vast
Sums paid for Freight and Demorage.

But in order to shew the Utility of these Hints, I shall first endeavour to point out a sew of the principal

Caufes of those Evils.

First, That from the great Numbers, Opulence, and various Interests of the Owners of Shipping, due Œconomy is prevented, and they by those Means are not only enabled to obtain high Freight, but are not subject to the necessary Controul.

Second, The Admission and Employment of many more Ships in the Service than are needful for the

Third, The allowing Private Trade and Country

Fourth, The Employment of so great a Number of small Ships, which naturally require an additional Number of Captains and Officers, and creates a considerable Increase of Private Trade and Sailing Charges.

And in relief of the feveral above-mentioned Evils, I

would humbly fuggest the following Plan:

That no more Ships be taken up Annually, than whole Cargoes

Cargoes would be sufficient to supply the Company's Sales.

That the small Ships should be fent to Coast and Bay for the fine Goods, and the large ones to China for the Teas: And that no more small Ships be built, than are deemed necessary for the Coast and Bay I rade.

That all the Ships be taken up for their full Tonnage by Builders Measurement Out and Home, and to be laden and unladen by the Company's Officers, here and in India; and that moderate, but adequate, Freights be paid for the same, in lieu of the several Sums now allowed for whole Freights, half Freights, Surplus Tonnage, Kintlage, and Demorage, for a common Voyage Out and Home.

That the Company do allow no Private Trade, nor

any Ship to go a Country Voyage.

That in order to reduce the exorbitant Tonnage, which at prefent is not less than 63,000 Tons, Builders Measurement, no more Ships be built, nor any repaired for going more than four Voyages, until the whole Tonnage employed by the Company shall be reduced to 35,000 Tons, according to the foregoing Rate of Measurement, which it is certain will be sufficient for amply supplying the Company's Sales in England, even if they should in future considerably increase; and leave a proper Number of Ships at Home, ready to be employed upon any fudden or extraordinary Occasion: But after such Reduction has taken place, then 3,000 Tons of new Shipping built annually, will be fufficient for keeping up the before-mentioned Quantity of 35,000 Tons.—And should a larger Quantity of Tonnage be required, from War or other Emergency, Out than Home, in that Case it is proposed, that extra Ships be hired on Half Freight for the Voyage Outwards, and

be fold in India on Account of the Owners, with the usual Restrictions.

Were the above Measures pursued, I am clearly of Opinion, that One Third of the Sum now paid annually for Freight and Demorage might be faved, and the pernicious Practice of Smuggling in a great Degree

But should ever a Plan be adopted (which in my Judgment is very eligible) for the Company's purchasing the present Ships freighted by them, and for building and equipping their Ships in future at their own Docks, and by their own Servants, then I am very confident a further considerable Saving might be yet made, and the many Inconveniencies arising from the Numbers, Opulence, and various Interests of the Owners of Shipping, with the improper Controll they now in consequence

possess, be effectually obviated.

Having perused an Account of the Net Goods brought Home for the Company, from 1753 to 1772, both included, it appears to me, that they have paid for those Goods near f. 32. per Ton Freight on an Average, exclusive of Demorage, or Interest on Money advanced for Impress and Surplus Tonnage Outwards, or Expence of Packets built by the Company; but as the Tonnage of the Kintlage, &c. is blended with that of the Goods, it is possible there may be some small Errors in this Statement, which may be rectified by the proper Officer.

I have the Honour to be, with the greatest Respect, Honourable Gentlemen,

> Your most obedient, and most humble Servant,

London, the 11th February 1773.

Agreement made between the Owners of East India Shipping, concerning the Limitation of Tonnage. Dated 12th June 1751.

WHEREAS great Inconveniencies have arisen, as well to the honourable the United Company of Merchants of England trading to the East Indies, as to all those who are Owners of Ships employed in the Service of the faid Company, by building more Ships than the Trade of the faid Company require, and each of the Parties have greatly suffered thereby, great Numbers of the faid Ships being obliged to be kept at Home for a long Time unemployed, at a very great Expence to the Owners, and some of which being not imployed for Two Years and upwards, during which Time the Rigging, Sails, and Stores, have perithed, and been rendered unfit for future Service, and the Ships have greatly decayed, which has very much increased the Owners Expences; and by that Means the faid Owners cannot let out their Ships fo cheap as otherwise they might be able to do: In order therefore to prevent the like Inconveniencies and Expences for the future, and that the faid Company may be better fupplied with Shipping, we whole Names are hereunder written, who have respectively subscribed this Agreement, being Owners and Proprietors of Stock of the faid Company, and also the Owners and Proprietors of Ships employed in the Service of the faid Company, have feverally and respectively promised and agreed, and do hereby feverally and respectively promise and agree, to and with each other in Manner following; that is to fay, That we will respectively, to the utmost of our respective Skill and Power, cause and procure the Number of Ships, which now are, and shall hereafter be built for, and employed in, the Service of the faid Company, to be reduced as foon as possibly may be, by the Method hereinaster mentioned, to Forty-eight in Number; and that neither of us shall in any Manner of Ways whatsoever, do, or cause or procure to be done, any Act, Matter, or Thing whatfoever, whereby, or by Reafon or Means whereof, the Reduction of the Number of the faid Ships to Forty-eight in Number, in the Manner and by the Method hereinafter mentioned, shall be frustrated, prevented, suspended, or delayed, in any Manner of Ways, or for any Time whatfoever: And as foon as the faid Ships shall be reduced to Forty-eight in Number, that we will jointly and severally, to the utmost of our respective Power, do all that in us respectively lie, that no more than Fortyeight in Number of Ships shall thereafter be built for, and employed in, the Service of the faid Company, at one and the fame Time; and that we will respectively do all in our respective Power to prevent any Addition to be made thereto in any Manner of Ways, and to prevent any and every Application to the faid Company for that Purpose, or any thing relating thereunto, except than as herein is particularly mentioned. And in order that the faid Ships may be reduced to Forty-eight in Number as aforefaid, with as much Justice and as little Inconveniency as possibly may be to the Parties concerned, It is agreed, That when any of the faid Ships which have or shall hereafter be built for, and employed in, the faid Company's Service, shall have performed Four Voyages in the faid Service, according to the usual Cultom of the faid Company in employing of Ships, and the Commander or Commanders of any fuch Ship or Ships shall happen to die in the last of the faid Voyages, or after the Performance thereof shall retire from and discontinue the said Service, as Commander or Commanders of fuch Ship or Ships, that then and in either of the faid Cafes, fuch Ship or

And it is further agreed, That in case the Part Owners of any Ship or Ships built for, and employed in, the faid Company's Service, shall at any Time, after One or more Voyage or Voyages, not think fuch Ship or Ships in a Condition to be refitted for the faid Service; and if the Person or Persons who shall have been Commander or Commanders of fuch Ship or Ships at the Commencement of the last Voyage from England, shall happen to be deceased, or shall retire from and discontinue the said Service as Commander or Commanders of fuch Ship or Ships; or in case any Commander or Commanders of any of the faid Ship or Ships shall be dismissed his or their faid Service or Services on any Account whatfoever, and the faid Ship or Ships shall be then worn out, or not in a Condition to be refitted for another Voyage in the faid Company's Service; that then, and in each and every of the faid Cafes, fuch Ship and Ships shall not be replaced, and there shall be no Ship whatfoever built in Lieu of, or on the Bottom of fuch last mentioned Ship or Ships so worn out as aforesaid, until all the said Ships built for, and employed, and to be built for, and employed in, the faid Company's Service, shall be reduced to the Number of Forty-eight in the Whole; and the Person or Persons who shall have been the Commander and Commanders of all fuch Ship or Ships which shall be worn out, or not in a Condition to be refitted as aforesaid, at the Commencement of fuch said Ship or Ships last Voyage, in like Manner, before any new Ship or Ships shall begin to be built for the faid Company's Service, in Lieu of or on the Bottom of fuch last-mentioned Ship or Ships, shall enter into a Bond, with a sufficient Surery, of the Penalty of Six Thousand Pounds to the Husband of fuch faid Ship or Ships, to fecure fuch Commander and Commanders continuing Commander and Commanders of fuch faid Ship and Ships fo to be built, for One Voyage at leaft, in the faid Company's Service, or in Lieu thereof, to pay to the Owners of fuch faid Ship Three Thousand Pounds, unless such Commander or Commanders shall be prevented by some unforeseen Illness, or some inevitable Accident, which shall be clearly made appear to the Satisfaction of the Court of Directors of the faid Com-

pany as aforefaid. Provided always, and it is hereby agreed, That nothing herein contained is meant or intended to bind the United Company of Merchants of England, trading to the East Indies, from causing any Number of Ships to be built for, and employed in, their Service, if the faid Company thall think neceffary, and shall have Occasion to increase the Number of hired Ships in their Service; but in fuch Cafe we do hereby respectively agree, That we will use our utmost and best Endeavours, that every such Ship which may be so built for the said Service, shall be built upon the Bottom and Bottoms, and to replace the Ship and Ships first worn out or lost in their Service, regularly in Course one after another, from the Day of the Date hereof; and that the Command of fuch Ship or Ships may be given to fome Person or Persons who shall have been bred in the said Company's Service. Letter from Sir Richard Hotham to the Court of Directors of the East India Company.

Honourable Sirs, YOUR late unexpected Resolution has made a most extraordinary Alteration in the Affairs of fuch Ships as are flationed to China. I acknowledge myself bound by Charter Party, but any Agreement may be diffolved by Consent of the contracting Parties, for mutual Benefit: I do therefore now propose to you a fresh Tender of my Ship Royal Captain; and will agree (provided you will direct to be laden on board of her at China as much Goods as she can conveniently carry) to bring Home the same at Twenty Guineas per Ton, being Four Guineas per

Ton less than you can have a Cargo brought for from thence, under every possible Advantage to the Company that the present Charter Party can afford.

And I do hope, whatever may have been your Motive for your late Resolution, that you will immediately give my Offer a deliberate Confideration.

I am, honourable Sirs, Wednesday Morning, Your most humble Servant, Rd Hotham. January 13th, 1773.

The honourable Court of Directors of the East India Company.

Letter from Sir Laurence Dundas, Baronet, to the Chairman of the East India Company, communicated to the Court of Directors.

Moor Park, 14th January 1773.

Must trouble you with this Letter, from a Report that I have heard, that the Directors have (or intend to) come to a Resolution, that the China Ships shall not have Surplus Freight: The Hardin the Manner you know they are, upon the Faith and Affurances that Surplus Tonnage should be given, would be fo great that I cannot allow myfelf to believe that the Directors can come to fuch a Refolution: I entreat to know from you the Truth of this Matter, and that you will be so kind as to

communicate this Letter to the Directors; for I hope, when they confider the great Hardship that this must bring upon those who are concerned in large Ships, and who upon the Affurances of Surplus Tonnage have fitted out these Ships at a very great Expence, that Justice and Equity will prevail with the Diships to the Owners of large Ships built for the rectors to rescind any Resolution which must be ruin-Service of the Company, and the Freights reduced ous to these Ships, I am, with great Regard, Dear

Your most obedient, and Most humble Servant, Laurence Dundas.

Letter from Alexander Hume, Esquire, and Sir Abraham Hume, Baroner, to the Court of Directors of the East India Company.

Honourable Sirs,

AS we understand that you are come to a Resolu-tion not to allow the China Ships to bring Home any Surplus Tonnage; which must very materially affect the Interest of the Owners of the Ships fent out this Seafon; and as these Ships were taken up and fitted out at a great Expence, upon the Faith of Surplus. Tonnage being fent Home in them, and the Owners fubmitted to a Deduction in the Freight on that Account: The carrying this Resolution into Effect must be attended with fuch Lofs to the Owners of the large

Ships in particular, that we hope, upon Re-confideration, you will order it to be rescinded: And as we further understand, that a Tender, at Twenty Guineas a Ton from China, has been offered, we are willing to accept of the Terms proposed in that Tender.

REPORT

FROM THE

COMMITTEE OF SECRECY

APPOINTED TO ENQUIRE INTO

THESTATE

OF THE

Together with an APPENDIX referred to in the said Report.

Reported by Mr. Alderman Harley on the 26th Day of April 1773.

T IX H

FROM THE

SECRECY COMMITTEE OF

APPOINTED TO ENQUIRE INTO

THE STATE OF THE EAST INDIA COMPANY.

The 26th of April 1773.

The Committee of Secrecy, "appointed to enquire "into the State of the East India Company; and "for that Purpose to inspect the Books and Ac- counts of the said Company; and to report to the House what they find material therein, in "respect to the Debts, Credits, and Essects, of the Company as also to the Management and present " Situation of the Company's Affairs, together " with their Observations thereupon :"

INDING in the Dispatches lately received by the Court of Directors from the President and Council at Fort William, in Bengal, several important Matters respecting the Revenue of Bengal and Bahar, which appear to them highly worthy the Attention of the House in the present Juncture, they think it their Duty to report the same to the House, in Addition to the Report they have already made concerning the Revenues of those Provinces.

And Your Committee find, That the Court of Directors having, by their Letter to the Prefident and Council at Fort William, dated the 28th of August 1771, fignified their Determination " to stand forth as Duan, " and by the Agency of the Company's Servants to take " upon themselves the entire Care and Management of "the Revenues"—and having therefore authorized and required the President and Council to divest Mahomed Reza Cawn, and every Person employed by him, or in Conjunction with him, or acting under his Influence, of any further Charge or Direction in the Business of the Collections—and having expressed their Confidence that the President and Council, in the Office of Duan, would adopt fuch Regulations, and purfue fuch Meafures, as should at once insure to the Company every possible Advantage, and free the Ryotts from the Oppressions of Zemindars and Petty Tyrants, under which they have been fuffered to remain; and having directed VOL. IV.

them at the same Time to substitute, in the place of Mahomed Reza Cawn, a Minister to transact the political Affairs at the Sircar, and to select for that Purpose some Person well qualified for the Affairs of Government, and of whose Attachment to the Company's Interest they are well affured, and to recommend him to the Nabob, " Company, as also to the Management and present and to succeed Mahomed Reza Cawn as Minister of the Government, and Guardian of the Nabob's Minorityand to make him an Annual Allowance not exceeding Three Lacks of Rupees-the President and Council took the faid Orders into Confideration, and have removed Mahomed Reza Caron from the Office of Naib Duan for the Province of Bengal, and Shitabrey from the same Office for the Province of Bahar; and iffued, at the same Time, a Proclamation at Moorshedabad and at Patna, advertifing the Removal of those Officers, and of the Abolition of the Office of Naib Duan of the Provinces; and they directed the Chief and Council of Revenue at Moorshedabad, and the Chief and Council at Patna, to take Charge, for the present, of the Office of Duan of their respective Provinces, until a proper Plan could be fettled for the Management of that important Business; and they have appointed Mance Begum, Relict of the late Nabob Jaffier Aly Cawn, Guardian of the Nabob, and Raja Goordass, the Son of Mabarajak Nuncomar, Duan of the Nabob's Household, allowing to the faid Manee Begum a Salary of 140,000 Rupees per Annum, and to the faid Raja Goordafs, for himfelf and Officers, 100,000 Rupees per Annum.

And Your Committee find, That the President and Council have, in consequence of the before-mentioned Orders, made feveral Regulations for the future Management of the Revenues, and of the Khalfa, or superior Office of Revenue; which Regulations are contained in an Extract of the General Letter from the President and Council in the Revenue Department, the 3d of November 1772, and in the Confultations of the

Committee of Revenue at Fort William of the 14th and ment, and we shall henceforth address you separately 28th of May 1772; and in the Proceedings of the upon all Matters which come under these Heads. Committee of Circuit of the 28th of July and 20th of August 1772, on forming a Plan for conducting the Business of the Khalsa; which several Papers Your Committee have thought proper to lay before the House, in this Report; and are as follows; viz.

To the honourable the Court of Directors for Affairs of the honourable the United Company of Merchants of England trading to the East Indies.

Honourable Sirs,

In our Address by the Colebrooke, dated 13th April last, we acquainted you with the State of your Revenues in Bengal to that Period, since which we have closed the Account of the Neat Settlements and Collections for the last Bengal Year, a Copy of which we now transmit a Number in this Packet. From it you will please to observe, that the total Receipts, including fome Deductions written off to Profit and Loss in the Moorshedabad Treasury, amounted for last Year to Sicca Rupees 1,57,26,576. 10. 2. 1, so that the Balances for that Year are now reduced to Rupees 12,40,812. 7. 15, a great Part of which we shall still hope to realize; and we flatter ourselves, that this Reduction of the Balances, and the comparative View we hope you will take of the Bengal Collections for these feveral Years path, with those of the last Year, will fully farisfy you as to the favourable Success we have met with in the Collection of the Revenues. The Moorfloedabad Books, that will be transmitted to you by the next Ship, completely balanced, will further elucidate the Statement of the last Year's Revenue, which we have now the Honour of incloting.

At a Meeting of your Council of the 30th of August, it was unanimously resolved to adopt the Plan proposed by our Prefident and Members of the Committee of Circuit at Cossimbuzar, for removing the Seat of the Revenue Business to the Presidency, and for putting this important Branch of your Affairs under the immediate Management of your Governor and Council; in confequence of which we formed ourselves into a Board of Revenue the 13th ultimo; fince that Time all Affairs. respecting the Collections, or internal Government of shedabad for the Four last Years. the Provinces, have been confined folely to this Depart-

In order to give you a distinct Idea-of this Subject, and to make it the more complete, we shall begin by recapitulating the most important Measures that have been lately taken, and of which you have been in part advised in our former Letters.

In our Letter by the Nottingham, you were informed of our Intention of letting the Lands throughout the Provinces in Farm upon long and well-regulated Leafes; and we are happy to reflect that fuch a material and principal Mode of conducting the Collections should coincide so entirely with your Sentiments and Orders of the Subject. After the most ferious and mature Deliberations on this Point, we determined, in our Proceedings of the Committee of Revenue of the 14th May, to establish a Plan for settling the several Districts upon this Footing, and for the future Government of your Collections. This being the constitutional Ground Work of all our subsequent Measures, and of the System which we have fince attempted to build upon it; we have thought it necessary, for your more immediate Attention, to transmit a Copy of it as a Number in the Packet, with our Reasons at large for adopting the Regulations therein laid down.

Before we proceed farther upon this Subject, it may

not be improper to premise some general Remarks on the State of the Province at this Juncture.

The Effects of the dreadful Famine which visited these Provinces in the Year 1770, and raged during the whole Course of that Year, have been regularly made known to you by our former Advices, and to the Public by laboured Descriptions, in which every Circumstance of Fact, and every Art of Language have been accumulated to raife Compassion, and to excite Indignation against your Servants, whose unhappy Lot it was to be the Witnesses and Spectators of the Sufferings of their Fellow Creatures. But its Influence on the Revenues has been yet unnoticed, and even unfelt but by those from whom it is collected; for notwithstanding the Loss of at least One Third of the Inhabitants of the Province, and the consequent Decrease of the Cultivation, the Net Collections of the Year 1771 exceeded even those of 1768, as will appear from the following Ab-firacts of Accounts of the Board of Revenue at Moor-

Bengal Year.

this was effected will not be eafy; it is difficult to trace the Progress of the Collections through all its intricate Channels, or even to comprehend all the Articles which compose the Revenue in its first Operations. One Tax however we will endeavour to describe, as it may serve to account for the Equality which has been preferved in the past Collections, and to which it has principally contributed. It is called Najay, and is an Assessment upon the actual Inhabitants of every inferior Division of the Lands, to make up for the Loss sustained in the Rents of their Neighbours, who are either dead or have

It was naturally to be expected that the Diminution fled the Country. This Tax, though equally impolitic of the Revenue thould have kept an equal Pace with in its Inflitution, and oppressive in the Mode of exacting the other Consequences of fo great a Calamity; that it it, was authorized by the ancient and general Usage did not, was owing to its being violently kept up to its of the Country. It had not the Sanction of Govern-tormer Standard. To ascertain all the Means by which ment, but took place as a Matter of counse. In ordinary Cases, and while the Lands were in a State of Cultivation, it was scarcely felt, and never or rarely complained of. However irreconcileable to strict Justice, it afforded a Reparation to the State for occafional Deficiencies; it was a Kind of Security against Defertion, by making the Inhabitants thus mutually responsible for each other, and precluded the inferior Collector from availing himfelf of the Pretext of waste or deferted Lands, to withhold any Part of his Collections. But the same Practice, which at another Time and under different Circumstances would have been

30I

then upon the Inhabitants. The Tax not being levied by any fixed Rate or Standard, fell heaviest upon the wretched Survivors of those Villages, which had suffered the greatest Depopulation, and were of course the most entitled to the Lenity of Government. It had also this additional Evil attending it, in common with every other Variation from the regular Practice, that it afforded an Opportunity to the Farmers and Shicdars to levy other Contributions on the People under colour of it; and even to increase this to whatever Magnitude they pleased, since they were in course the Judges of the Loss sustained, and of the Proportion which the Inhabitants were to pay to replace it.

Complaints against this Grievance were universal throughout the Province; and it was to be feared, that the Continuance of it would be so great a Cheek to the Industry of the People, as to impoverish the Revenue in the last Degree, when their former Savings by which

it was supported were gone.

Though Seven Years had elapsed since the Company became possessed of the Dewanny, yet no regular Procels had ever been formed for conducting the Bufinels of the Revenue. Every Zemindaree and every Talook was left to its own particular Customs. These indeed were not inviolably adhered to, the Novelty of the Bufiness to those who were appointed to superintend it, the Chicanery of the People whom they were obliged to employ as their Agents, the accidental Exigencies of each District, and not unfrequently the just Discernment of the Collector, occasioned many Changes. Every Change added to the Confusion, which involved the whole, and few were either authorized or known by the presiding Members of the Government. The Articles which composed the Revenue, the Form of keeping Accounts, the Computation of Time, even the technical Terms, which ever form the greatest Part of the Obscurity of every Science, differed as much as the Soil and Productions of the Province. This Confusion had its Origin in the Nature of the former Government. The Nazims exacted what they could from the Zemindars and great Farmers of the Revenue, whom they left at Liberty to plunder all below, referving to themfelves the Prerogative of plundering them in their Turn, when they were supposed to have enriched themfelves with the Spoils of the Country. The Muttefeddees, who flood between the Nazem and the Zemindars, or between them and the People, had each their respective Shares of the public Wealth. These Profits were considered as illegal Embezzlements, and therefore were taken with every Caution which could infure Secreey; and being consequently fixed by no Rule, depended on the Temper, Abilities, or Power of each Individual for the Amount. It therefore became a Duty in every Man to take the most effectual Measures to conceal the Value of his Property, and elude every Enquiry into his Conduct; while the Zemindars, and other Landholders who had the Advantage of long Possessions, availed themselves of it by complex Divifions of the Lands, and intricate Modes of Collection, to perplex the Officers of the Government, and confine the Knowledge of the Rents to themselves. It will be eafily imagined, that much of the current Wealth stopped in its way to the public Treasury. It is rather foreign from the Purpose of this Exposition, but too apposite not to be remarked; that it was fortunate such a System did prevail, since the Embezzlements which it covered preserved the current Specie of the Country, and returned it into Circulation, while a great Part of the Wealth received by the Government was expended in the Country, and but a finall Superfluity remained for Remittances to the Court of Delbee, where it was loft for ever to this Province.

To the original Defects inherent in the Constitution of these Provinces, were added the unequal and unfettled Government of them. Since they became our

beneficial, became at this period an insupportable Bur- Property, a Part of the Lands which were before in our Possession, such as Burdwan, Midnapore, and Chittagong, continued subject to the Authority of their Chiefs, who were immediately accountable to the Presidency:-The 24 Pergunnahs granted by the Treaty of Plassey to the Company, were theirs on a different Tenure, being their immediate Property by the Exclusion of the Zemindars or hereditary Proprietors; their Rents were received by Agents appointed to each Pergunnah, and remitted to the Collector who refided in Calcutta; the rest of the Province was for some Time entrusted to the joint Gharge of the Naib Dewan and Resident of the Durbar, and afterwards to the Council of Revenue at Moorshedabad, and to the Supervisors, who were accountable to that Council. The Administration itfelf was totally excluded from a Concern in this Branch of the Revenue.

The internal Arrangement of each District varied no less than that of the whole Province. The Lands subject to the same Collectors, and intermixed with each other, were fome held by Farm, fome superintended by Shicdars or Agents on the Part of the Collector, and some left to the Zemindars or Talookdars themselves, under various Degrees of Controul. The First were racked without Mercy, because the Leases were but of a Year's Standing, and the Farmer had no Interest or Check to restrain him from exacting more than the Land could bear; the Second were equally drained and the Rents embezzled, as it was not possible for the Collector, with the greatest Degree of Attention on his Part, to detect or prevent it; the latter, it may be supposed, were not exempted from the general Corruption; if they were, the other Lands which lay near them would fuffer by the Migration of their Inhabitants, who would naturally feek Refuge from Oppression in a milder and more equitable Government.

The Administration of Justice has to intimate a Connection with the Revenue, that we cannot omit the Mention of it, while we are treating of this Subject in a, general View, although we have already given our Sentiments upon it at large in another Place, to which

we shall crave leave to refer.

The Security of private Property is the greatest Encouragement to Industry, on which the Wealth of every State depends. The Limitations of the Powers annexed to the Magistracy, the Suppression of every Usurpation of them by private Authority, and the facilitating of the Access to Justice, were the only Means by which fuch a Security could be obtained: But this was impossible under the Circumstances which had hitherto prevailed. While the Nizamut and the Dewannee were in different Hands, and all the Rights of the former were admitted, the Courts of Justice, which were the fole Province of the Nazim, though constituted for the general Relief of the Subjects, could receive no Reformation. The Court and Officers of the Nizamut were continued, but their Efficacy was destroyed by the ruling Influence of the Dewannee. The regular Courfe of Justice was every where suspended; but every Man exercifed it, who had the Power of compelling others to submit to his Decisions. The People were oppressed, they were discouraged, and disabled from improving the Culture of their Lands; and in proportion as they had the Demands of Individuals to gratify, they were prevented from discharging what was legally due to Government.

Such was the State of the Revenue when your Commands were received by the Lapwing, and happily removed the Difficulties which had hitherto opposed the Introduction of a more perfect System, by abolishing the Office of Naib Duan, and authorizing your Administration to assume openly the Management of the Dewannee in your Name, without any foreign Intervention.

In the Execution of these your Intentions, the Points which claimed our principal Attention, as will appear 4 H

1773. SIXTH REPORT from the Committee of Secrecy 302

by the above Description, were, to render the Accounts of the Revenue simple and intelligible, to establish fixed Rules for the Collections, to make the Mode of them uniform in all Parts of the Province, and to provide for an equal Administration of Justice. In the Steps which we have already taken, we have laboured to attain these Ends; with what Success will be seen here-

The Regulations which we have before mentioned being completed, and the Committee of Circuit appointed, confifting (as we mentioned in our last) of the Governor, Messieurs Middleton, Dacres, Lawrell, and Graham; we published our Intention of farming all the Lands of the Province of Bengal in Leafes of Five Years, and invited all Persons to make Proposals.

The Committee first proceeded to Kilhenagur, and there entered on the Settlement of the District of Nuddea. The Propofals which were there delivered to them, were expressed in so vague and uncertain a Manner, and differed so widely from each other in Form, that it was impossible to make a Comparison, or to ascertain the proportional Amount of each; and the few only that were intelligible, contained very low and difadvantageous Terms. The Committee were therefore of Opinion, That those Offers should be rejected, and that the Lands should be put up at public Auction, though contrary to the original Intention. To remove all Obstacles that might present themselves, from an Uncertainty in the Bidders, with respect to the more minute Articles of the Collections, and the Grounds on which the Settlement was to be established between the Farmer and Cultivator, the Committee found it indifpenfably necessary, before the Sale began, to form an entire new Hustabood, or Explanation of the diverse and complex Articles which were to compose the Collections. These consisted of the Assall or original Ground Rent, and a Variety of Taxes called Aboabs, which had been indifcriminately levied at different Periods by the Government, the Zemindars, Farmers, and even by the inferior Collectors; one of these Aboabs we have explained above, many of them are incapable

of any Explanation.

After the Committee had made a thorough Inveftigation of the above Articles of the Revenue, they proposed to deduct such as appeared most oppressive to the Inhabitants, or of a late Establishment; at the same time referving those which were of long Standing, and had been chearfully submitted to by the Ryotts, these being in fact a considerable Part of the Nett Rents. Among the former were the Duties arbitrarily levied by the Zernindars and Farmers upon all Goods and Necessaries of Life passing by Water through the interior Part of the Country. The Razee Jumma, or Fines for petty Crimes and Misdemeanors, were also, agreeably to the humane and equitable Spirit of your Orders, totally abolished, as well as the Haldarry, or Tax upon Marriage, which yielded a trifling Revenue to Government, was very injurious to the State, and could tend only to the Discouragement and Decrease of Population, an Object at all Times of general Importance, but more especially at this Period, from the great Lofs of Inhabitants which the Country has fuftained by the late Famine, and the Mortality which attended it. These several Deductions in favour of the Natives, although the immediate Caule of decrealing the Kent Roll, will doubtless, in time, be productive of the most falutary Effects, as they tend to encourage the Manufacturers and Trade of the Country, to retrieve the Lofs of Inhabitants, to free the People from vexatious Profecutions, and, by promoting the general Ease of the Country, virtually to support and improve its

In order to fecure the Inhabitants in the quiet Poffeffion of the Lands, whilst they hold them on Terms of Cultivation, and to prevent such Exactions as aforementioned in future, the Committee formed new Amul-

namas or Leases, in which the Claims upon the Ryotts were precifely and diffinctly afcertained, and the Farniers restricted from making any further Demands under the feverest Penalties. To this End, and to prevent the Farmers from eluding this Restriction, they were ordered to grant new Pottahs or Deeds to the Ryotts, the Form of which was drawn out by the Committee, and made public, specifying the Conditions on which they were to hold their Land, the separate Heads or Articles of the Rents; and every Encouragement was contained in them to cultivate the Waste Ground, on a moderate and increasing Rent.

Another principal Object with the Committee was to reduce the Charges of Collection as low as possible, from a Conviction that the Retrenchment of improper and unnecessary Expences opens a Source of Increase of Revenue, the most eligible, because the most consistent with the Ease of the Inhabitants. For this Purpose we have formed an uniform and regular Establishment for all the necessary Charges to be incurred in the Cutcherries of the feveral Districts, under positive Restrictions that they shall not be exceeded without our being previously advised. This we doubt not will prove a great Saving to the honourable Company, as it will be the effectual Means of preventing in future all fuperfluous and unnecessary Disbursements; and we think we may venture to promise, that this Article will be duly attended to, as it will be almost the only Care of the Auditor to prevent every Deviation from it in the Accounts which are to pass his Inspection.

After these previous Steps were resolved on, the Lands of Kishenagur were put up to public Auction, and a final Settlement was made for Five Years on an accumulating Increase; for the Particulars of which we must beg leave to refer you to the Proceedings of the

Committee, which are now transmitted.

During the Course of the Sale at Kishenagur, the Rajah of that Place gave in Proposals for farming the whole Diffrict, which leads us to the following general Observations on the Subject of Zemindars and Talook-

dars, in the Province of Bengal.

Where it can be done with Propriety, the entrusting the Collections of the Districts to the hereditary Zemindars, would be a Measure we should be very willing to adopt, as we believe that the People would be treated with more Tenderness, the Rents more improved, and the Cultivation more likely to be encouraged; the Zernindar less liable to Failure or Desiciencies than the Farmer, from the perpetual. Interest which the former hath in the Country, and because his Inheritance cannot be removed; and it would be improbable he would risk the Lois of it by eloping from his Diffrict, which is too frequently practifed by a Farmer, when he is hard pressed for the Payment of his Balances, and as frequently pre-determined when he receives his Farm.

With respect to the Talookdarrys and inconsiderable Zemindarrys, which formed a Part of the Huzzon Zelabs, or Diffricts which paid their Rents immediately to the general Cutcherry at Moorsbedabad, as well as many others of the same kind in different Parts of Bengal, all Arguments have been weighed, whether in Favour of the just Claim Government has upon their Lands for a Revenue adequate to their real Value, or of the Zemindars and Talookdars in Support of their Rights and Privileges, grounded upon the Possession of regular Grants, a long Series of Family Succession, and fair Purchase. These being duly considered, there occurred to us only the Two following Modes, which could be purfued in making their Settlement. The First was, to let their Lands to farm; to put the Renters in entire Poffession and Authority over them, obliging them to pay each Zemindar or Talookdar a certain Allowance or per Centage for the Subfiftence of himfelf and Family: The Second was to fettle with the Zemindars themselves, on the Footing of Farmers, obliging them first to enter into all the Conditions of

a Farmer's Leafe; Secondly, To pay the fame Revenue that could be expected from Farmers; Thirdly, to give responsible Securities; and Fourthly, To admit a Referve in favour of Government, for making, during the Course of their actual Lease, an exact Hustabood (Valuation from Accounts) or a Measurement of their Possessions, in order to ascertain their true Value at a future Settlement, should the present Accounts be found to be fallacious, or Concealments suspected. We have allowed a Degree of Weight to the Arguments of the Zemindars and Talookdars in favour of their Plea of Right; which, by adopting the First Mode of Settlement, would doubtless be exposed to Risk; for as the Authority given to the Farmers would reduce the prefent Incumbents to the Level of mere Pensioners, and greatly weaken their Claims as Proprietors, so in the Course of a sew long Leases, their Rights and Titles might, from the Deligns of the Farmers to establish themselves in their Estates, the Death of the old Inheritors, and the Succession of Minors, be involved in fuch Obscurity, Doubt, and Controversy, as to deprive them totally of their Inheritance. To expose the Zemindars and Talookdars to this Risk, is neither consistent with our Notions of Equity, nor with your Orders, which direct, "that we do not by any sudden Change " alter the Constitution, nor deprive the Zemindars, " &c. of their ancient Privileges and Immunities." Another Argument, drawn from the Conduct naturally to be expected from the Zemindars and Talookdars, weighed strongly with us, and proves an Objection to adopting the First Mode. From a long Continuance of the Lands in their Families, it is to be concluded, they have rivetted an Authority in the District, acquired an Ascendancy over the Minds of the Ryotts, and ingratiated their Affections. From Causes like these, if entire Deprivation were to take place, there could not be expected less material Effects than all the Evils of a divided Authority, Prejudice to the Revenue, and Defertion and Defolation to the Lands. Whereas, from continuing the Lands under the Management of those who have a natural and perpetual Interest in their Prosperity, provided their Value is not of too great an Amount, folid Advantages may be expected to accrue; every Consideration then sways us, where it can be done with the Prospect of the Advantage beforementioned, to adopt the Second Mode in fettling with the inferior Zemindars and Talookdars. First, an equivalent Revenue may be thereby obtained, with Security for its punctual Payment; Secondly, the converting them into Farmers, establishes the Government's Right of putting their Lands on that Footing, whenever they shall think proper, the Awe of which must constantly operate to ensure their good Behaviour and good Management; Thirdly, the Claufe of Scrutiny, to which they are subjected, will also have the same Tendency, at the same Time that it may be strictly put in force where there is Cause to suspect Concealments, or a Prospect presents of Increase to the Revenue.

Agreeable to these Ideas, the Committee at Kishenagur exempted the feveral Talooks in that Diffrict from the public Sale, as the Possessors engaged to abide by fuch a Settlement, as should be deemed equivalent and just; and an exact Valuation was accordingly made of their Lands. It was however found, that the Terms offered by the Zemindar of Kishenagur, as before-mentioned, were not equivalent to the Expectations the Committee had Reason to entertain from the public Auction of the separate Farms, and the Faith of Government having been already engaged to fuch Farmers, whose Offers had been formerly accepted: For these Reasons, joined with the well known fubtle and faithless Character of the Zemindar, it was determined to reject his Proposals, and to give the Preference to the Offers of the Farmers, which were more advantageous to Government.

The Settlement of Kishenagur being concluded, a fixed Dewan was chosen by the Committee, to be joined with Vol. IV.

the Collector in the Superintendancy of the Revenues, conformably to our established Regulations before referred to, and Instructions were accordingly given him for his Guidance.

We have been thus explicit in relating the Transactions of Kishenagur, both as these will serve to point out the various Effects of our previous Determinations, as well as the Motives which gave Occasion to those which were superadded by the Committee, from local or general Observations; and to convey an Idea of the Plan, on which the Settlement of the whole Province will be formed, of which that of Kishenagua may be

regarded as the Model.

The Province of Radshaby, and the Huzzoor Zelahs, were taken next into Confideration, and the fame Regulations established, previous to their Settlement, as at Kifhenagur; public Advertisements being made for receiving Proposals for the farming the different Pergunnahs in Radspahy, and a proper Time limited for their Delivery. The Terms given in for the whole of the Western Division were examined, and the Offers of the Farmers and Zemindar accurately compared. Those of the latter were found more advantageous to Government: A Settlement for Five Years was accordingly concluded with the Ranny Bowanny, the Zemindar of that District, whose Substance, Credit, and Character, rendered the Conditions of her Offer the more defirable, especially as she consented to the Committee's Plan of subdividing the Lands into Fourteen Lots, or Farms, and engaged to deposit the Farmers Cabooleats or Agreements, as a collateral Security with her own, for the punctual Payment of her Rents. No other Proposals being given in for the Eastern Division of Radsbaby; it was in like Manner farmed to the Zemindar, whose Knowledge of, and long established Reputation in, the Country, enabled her to make more advantageous Offers, for this also, than any other Perion; and we doubt not but we shall realize the whole of the Revenue from these important and extensive Districts, which will receive an additional Advantage, besides a Reduction of the Expence of the Collections, in being thus united under their hereditary and ancient Proprietor.

The Huzzoor Zelahs, and the inferior Zemindarries and Taloookdarries, bordering on Moorsbedahad and Radshaby, were also settled on the same Plan, a Preference being always given to the Offers of the hereditary Pofsessors, as before observed. But as it would take up too much of your Time to descend to a minute Detail of these numerous Settlements, we must take the Liberty of referring you to the Proceedings of the Committee of Circuit: You will therein notice, that we have appointed Five additional Collectors to superintend the Revenue of those Districts: It was with some Reluctance, we found ourselves under the Necessity of increafing the Number of these Appointments; they were rendered unavoidable, by the Intricacy of those Parts of the Huzzoor Zelahs, which have been thus distributed amongst them; but we hope that the Liberty which we have given to the Farmers, who may be fo disposed, to pay their Rents immediately to the Sudder, or Head Cutcherry, will in Time enable us to reduce those Establishments

In the Intervals of public Buliness, the Committee were employed in deliberating on the Steps referred to them, which were proper to be taken for carrying into Execution your late Orders by the Lapwing, where you declare your Intention of "flanding forth as "Dewan, by the Agency of the Company's Servants " to assume the entire Management of the Revenues," leaving it to us to plan and execute this important Work, " by adopting fuch Regulations, and purfuing " fuch Measures, as should at once insure to the Com-" pany every possible Advantage."

The First Consideration was, Whether the Board of Revenue at Moorsbedabad should be abolished, and the

Business of the Collections, in all its Branches, put under the Management of the Members of your Adminiftration at the Prefidency; and after allowing due Weight to every Argument that occurred, we agreed unanimously with the Committee, in the Necessity of this last Measure, which has accordingly been fince carried into Execution; we take the Liberty of laying before you the Grounds upon which we have ventured to make this Alteration, in the flattering Hopes that it

will meet with your Approval.

As the Administration of Justice, and the Collection of the Revenue, are by far the most important Objects of Government, they certainly claim the first Attention of your Prefident and Council; especially at a Time when so many weighty Matters, intimately connected with them, are entrusted by you to our Investigation and Judgment, and when the State of the Country requires timely, well digested, and spirited Measures. While the controlling and executive Part of the Revenue, and the Correspondence with the Collectors, was catried on by a Council at Moorshedabad, the Members of your Administration had not an Opportunity of acquiring that thorough and comprehensive Knowledge of the Revenue, which can only refult from practical Experience; but as your late Orders tend to establish a new System, enjoin many new Regulations and Enquiries, which could not properly be delegated to a fubordinate Council, it became absolutely necessary, that the Bufiness of the Revenue should be conducted under our immediate Observation and Direction.

This Change, we trust, will afford great Relief to the Inhabitants of the Provinces, in opening to them a more ready Access to Justice, infomuch that Appeals from the Decisions of the inferior Courts may now be made directly to the Presidency, whereas formerly they were first transmitted to the Council at Moorsbedabad, and

from thence an Appeal lay to us.

Another good Consequence will be the great Increase of Inhabitants, and of Wealth, in Calcutta, which will not only add to the Confumption of our most valuable Manufactures imported from Home, but will be the Means of conveying to the Natives a more intimate Knowledge of our Customs and Manners, and of con-

ciliating them to our Policy and Government.

Besides the Reasons above urged for the Dissolution of the Council of Moorsbedabad, we must beg leave to add this further Argument, in Reply to the Objection which may possibly be made to it, as repugnant to your Commands of the 30th June 1769. We now conceive them, however, to be superseded by your later Orders, and the differentionary Powers you have given us in your Letter by the Lapwing. Nevertheless we should have thought ourselves indispensably bound to have adhered to the Spirit of them, to far as they could be made to coincide with the new System of the Dewanny, but we found them totally subverted

While Moorshedabad remained the Seat of your Collections, every Confideration required the Establishment of a Council to superintend them, as it was a Trust every way too great for an Individual. On these Grounds alone, we prefume, your Orders for forming fuch Councils at Moorshedabad and Patna were framed; but when the Office of Naib Duan was abolished, and you had declared your Resolution to place the making the Settlement of Houghly, a Number of Pro-Collections under the immediate Charge of your own posals for farming the Lands were delivered in, and Servants, there remained no Reason for continuing that Department of the Revenue at such a Distance from the Observation of your Governor and Council, and the Removal of the Collections to the Presidency; as it left us no Business for an inferior Council, of Course rendered their Continuance, and the Charges atourselves therefore with another Hope, that an annual

Expence and Inconvenience which ever attends Innovations of all Kinds, on their first Institution.

As the Reasons for the Removal of the Khalsa are treated on very largely in the Proceedings of the Committee of Circuit of 28th July, and contain many Observations on the Nature of the Revenue in general, which are too voluminous to be inferted in the Body of this Letter; we wish to recommend these to your particular Attention.

The Plan which we have formed for conducting the Business of the Khalsa, or superior Office of the Collec-

tions, will go a Number in the Packet.

The more regular Administration of Justice was also deliberated on by the Committee of Circuit, and a Plan was formed by them, which afterwards met with our Approbation. We cannot give you a better Idea of the Grounds on which this was framed, than by referring you to a Copy of it, together with a Letter from the Committee to the Board on the Occasion; both of which make Numbers in this Packet, and we earnestly recommend them to your Perusal; requesting to be assisted with fuch further Orders and Instructions thereon, as they may require, for completing the System which we have thus endeavoured to establish on the most equitable, solid, and permanent Footing. We hope they will be read with that Indulgence, which, we are humbly of Opinion, is due to a Work of this Kind, undertaken on the plain Principles of Experience and common Observation, without the Advantages, which an intimate Knowledge of the Theory of Law might have afforded us. We have endeavoured to adapt our Regulations to the Manners and Understandings of the People, and Exigencies of the Country, adhering as closely as we were able to their ancient Usages and Inftitutions: It will be still a Work of some Months, we fear, before they can be thoroughly established throughout the Provinces; but we shall think our Labours amply recompensed, if they meet with your Approbation, and are productive of the good Effects we had in View.

Our President returned to Calcutta about the Middle of September; Mr. Middleton remained at Moorsbedabad to take Charge of his Appointments; and the other Three Members of the Committee of Circuit proceeded to Dacca, where they are now employed in making the Settlement of that Province and the adjacent Districts, after which they will continue their Tour to the remaining Divisions on the Eastern Side of Bengal; and we hope to transmit the further Particulars of their Proceedings, by one of the Ships of this Season, together with a complete Statement of your Revenue for the

following Five Years.

Besides the general Plan before-mentioned for regulating the new System of conducting the Revenues, and the feveral other Points therein referred to, the Committee of Revenue at the Presidency, composed of the remaining Members of your Council, were employed in preparing the Settlements of the Diffricts of Houghly, Midnapore, Beerbhoom, Jeffore, and the Calcutta Lands; these, together with the Districts allotted to the Committee of Circuit, complete the whole of Bengal, excepting Burdwan, where the Lands are already let in Farm on Leases of Five Years, which do not expire till the End of the Bengal Year 1182.

In consequence of the public Advertisements for after an exact Scrutiny was made into them, those which appeared to be the most advantageous to Government were accepted. It was originally intended to have let them in small Farms, but the Offers for larger Lots being much higher than the others, we were tempted to course rendered their Continuance, and the Charges at-tending such an Establishment, needless. We will indulge and petty Zemindarries in this District, the Possessian of which represented to us the Length of Time they Saving of some Lacks of Rupees, will be derived from had held their Lands, and the wretched Condition this Alteration, although we are well aware of the they would be reduced to, were they now to be de-

to the Annual Income of it; this Proportion commonly amounted to One-tenth: We would not recommend fo large an Allowance for these People; we are perfuaded that they will be contented with a much more moderate Income, and receive it with Gratitude. As this Indulgence has been extended to all the other Zemidars in both the Provinces, since they were placed under your Government, we have judged that this Re-

prefentation of the Case of those who alone have been

we have Reason to be satisfied with the good Success which has attended the Settlement of Houghly and its Dependencies.

prived of them, as they engaged to pay to Government

an increased Rent in proportion to their Value; we

were induced by the same Morives as actuated the Com-

mittee of Circuit in similar Instances, to continue to

them their hereditary Possessions. In one or two of

the Pergunnahs some Deductions were found necessary to be made, on Account of the particular Degree in

which they had suffered by the late Famine: but a fa-

vourable Increase being added to the other Purgunnahs,

The Settlement of Beerbhoom, Biffenpoor, and Pacheat,

has also been effected upon an increasing Revenue, on a Plan similar to the other farmed Lands.

The Districts of Jessore and Mahomed Shahy are settled on Terms advantageous to Government, as appears by the Accounts delivered in by Mr. Lane, a Member of our Board, who was deputed to accomplish that Business; and a full Representation of his Proceedings is recorded in our Consultation of the 10th August.

Lands have been completely farmed; but as some of the Farmers have slown off from their Engagements, and absconded, and the Execution of the Title Deeds with the rest is delayed, we have hitherto been prevented from finally adjusting this Business; we shall therefore defer transmitting a further Statement of these Lands till the next Ship, as well as that of Midnapore, the Settlement of which is now in great Forwardness.

In pursuance of vour positive Injunctions, we have been endeavouring for some Time past to collect the sullest Information concerning the Salt Business in Bengal, that we may be enabled to form such Regulations as shall appear the best calculated for securing the Duties of Government upon that Article, and for the general Benefit of the Trade; for our Proceedings in these Matters, so far as we have hitherto been able to effect, we refer you to the Consultations now transmitted, and particularly to that of the 7th October; and as this Subject is one of the first that will fall under our Consideration, we expect in our next Advices to surnish you with a complete State of it.

The Houghly disputed Balances of Salt, which have been a Matter of Contention and Difficulty for these Two Years past, we have at length happily adjusted, as recorded in our Proceedings of the 1st October.

The Bukshbunder, or Customs of Houghly, as well as those of the Pachetra at Moorsbedabad, have not been let to farm, but continue to be collected by the Officers of Government, in order that no Obstacles may occur in new modelling this Source of your Revenue, agreeably to your Instructions: At present we wait for Advices and further Lights from the Committee of Circuit at Dacca, concerning the Shawbunder or Head Custom House in that District; being furnished with these, we shall proceed to form one general and uniform Plan for the Collection of Duties, which will be duly transmitted for your Information.

The humane Attention shewn in your Commands of the 30th June 1769, and recommended in many of your Letters fince that Date, to the Rights of the Zemindars, who have inherited Lands from their Ancestors, encourages us to folicit your Compassion for the ancient Proprietors of the Twenty-four Pergunnahs, or Calcutta Lands, which became the Company's Zemidarry by the Treaty of Plassey, and from which they were consequently dispossessed. A small Part of these Lands were before that Time united with the Zemindarries of Burdwan and Nuddea, whose Zemidars are amply provided for: The other Zemidars and Talundars have continued fince that Time in a State of extreme Indigence, some of them have large Families to maintain. It has been the usual Rule of the Mogul Government, when any Zemidar was divefted of Authority, to allow him a Substance out of the Rents of his Zemidarry, proportioned Vol. IV.

As the Sertlement of the Province of Babar had been made for a Term of Years, and therefore did not require any immediate Alteration, we shall wait to finish the whole of our Regulations in Bengal before we attempt any Innovations in that Province. The only Point on which we think we can give you any previous Intimation of our future Proceedings in those Parts, is, that we deem it proper to unite the Collections with those of Bengal, and establish the same Regulations in both Provinces, as soon as we can do it with Conveniency, and without adding to our present Embarrassers.

We are, with great Respect,
Honourable Sirs,
Your most faithful humole Servants,

At a Committee* of Revenue; PRESENT,

The honourable Warren Hastings, Esquire,

John Graham,

Read and approved the Proceedings of the 10th

It has already been resolved † in Consultation of the 16th ultimo, to let the Lands of the Province in Farm, and for long Leases; and this Resolution has been communicated to the Court of Directors in the last General Letter: This, therefore, being the Ground Work of our Deliberations on the general Measures which are to be taken for the future Settlement of the Collections, it may not be improper in this Place to assign the Reasons which have induced us to form these Resolutions.

There is no Doubt that the Mode of letting the Lands in Farm is in every respect the most eligible: It is the most simple, and therefore the best adapted to a Government constituted like that of the Company, which cannot enter into the Detail and Minutiæ of the Collections. Any Mode of Agency, by which the Kents might be received, is liable to Uncertainty, to perplexed and inextricable Accounts, to an Infinity of little Balances, and to Embezzlements; in a word, both the Interest of the State, and the Property of the People, must be at the Mercy of the Agents; nor is it an Object of trivial Consideration, that the Business of the Service, already to great, that much of it is unavoidably neglected, would be thereby rendered so voluminous,

+ The Refolution alluded to does not appear on the Confultation of 16 of April.

and the Attention of the Board fo divided, that nothing would be duly attended to; the current Affairs would fall into irrecoverable Arrears, the Refolutions upon them be precipitate and defultory, the Authority of the Government fet at nought, the Power which it must neceffarily delegate to others would be abused, and the most pernicious Consequences ensue, from the Impossibility of finding Time to examine and correct them: That fuch would be the Case, we with Confidence affirm, fince we already experience the Existence of these Evils in part, from the great Increase of Affairs which has devolved to the Charges of this Government, and the Want of a reduced System, no less than from a Want of immediate Inspection and Execution: This is a Point well worth the Attention of the Board, in every Proposition that may come before them, as effentially respect the Constitution and general Interests of the

To let the Lands for long Leafes is a necessary Consequence of letting them: The Farmer who holds his Farm for One Year only, having no Interest in the next, takes what he can with the Hand of Rigour, which, even in the Execution of legal Claims, is often equivalent to Violence: he is under the Necessity of being rigid, and even cruel; for what is left in Arrear after the Expiration of his Power, is at best a doubtful Debt, if ever recoverable; he will be tempted to exceed the Bounds of Right, and to augment his Income by irregular Exactions, and by racking the Tenants, for which Pretences will not be wanting, where the Farms pass Annually from one Hand to another; What should hinder him? He has nothing to lose by the Desertions of the Inhabitants, or the Decay of Cultivation: Some of the richest Articles of Tillage require a Length of Time to come to Perfection; the Ground must be manured, banked, watered, ploughed, and fowed, or planted: Those Operations are begun in one Season, and cost a heavy Expence, which is to be repaid by the Crops of the fucceeding Year: What Farmer will either give Encouragement or Affiftance to a Culture of which another is 'tions: to reap the Fruits?

The Discouragements which the Tenants feel from being transferred every Year to new Landlords are a great Objection to fuch short Leases-They contribute to injure the Cultivation, and dispeople the Lands: they deprive the industrious Ryott of those Aids known by the Appellation of Tuccaubee, fo effentially necesfary to enable him to purchase Cattle, Seeds, and Utenfils of Husbandry, which a more permanent Farmer will ever find it his Interest to supply, as a Means of promoting an increased Cultivation; and they of course prove an unfurmountable Obstacle to bringing into an Arable State the immense Tracts of Waste Land which overspread this fertile Country,

The Defects of faort Leafes point out, as a necessary Consequence, the opposite Advantages of long Farms.

From these the Farmer acquires a permanent Interest in his Lands; he will for his own Sake lay out Money in affifting his Tenants in improving Lands already cultivated, and in clearing and cultivating Waste Lands; he will not dare to injure the Rents, nor encroach in One Year on the Profits of the next, because the future Loss which must ensue from such a Proceeding will be his own; the Tenants will grow familiarized to his Authority; and a mutual Attachment is at least more likely to proceed, from a long Intercourse between them, especially when their Interests are mutually blended, than from a new and transitory Connection which is ready to expire before it can grow into Acquaintance.

Such are the Arguments which have occurred to us in support of the two Points on which we have already determined; namely, to dispose of the Lands to Farm and on long Leafes.

We are happy to reflect that the Commands of our honourable Masters, in many of their late General Letters, but especially ftrongly inculcate the fame Opinion.

The Board now proceed to the final Confideration of the Measures requisite for the Settlement of the Collections, and are agreed in the following Refolu-

1st. The only general Principles to guide our Determination on this Point are, that the Leafes be not too short, for the Reasons above recited; nor too long, least the Farmer should acquire an Influence so great in the, Lands as to injure the Rights or Authority of his Succeffor, or least the Knowledge of their Value be confined to the present Possessor, and lost to others. We are of Opinion that a longer Term than Six Years might be liable to these Objections, as a shorter than Three would not answer the Ends proposed by farming the Lands. There are no valid Reasons for assigning a Preserence to any one particular Term of Years above another, within these Extremes of Three or Six, since the Causes which might operate in favour of any Period for one Place, from the Confideration of the Soil, Crops, or any other local Accidents, would not hold good in others; but we are of Opinion that, for the Sake of Regularity, and for facilitating the Course of Business, the fame Term of Years, and the same Period for their Commencement, should be fixed for all the Farms throughout the Province; and, where the Lands are already in Farm, that the Leafes be extended, so as that the whole Leafes of the Province may fall at one Time.

That the Farms shall consist of entire Purgunnahs, provided they do not exceed the Annual Amount of One Lack of Rupees; in which Case they shall be divided into fuch equal Proportions as shall reduce the Amount of each confiderably below that Sum, unless the acknowledged Responsibility and good Character of the Farmer shall support his Pretensions to rent the whole Purgunnah; and that all Villages or Portions of Lands, which have been hitherto let in separate Farms, shall be re-annexed to the Pergunnahs to which they originally

3d. The Farms and Usages peculiar to each District, and the present and improveable State of their Lands, require a local Inspection; they cannot be known with any Degree of Certainty by remote Observations, or the interested and superficial Scrutinies of the Natives; a Part of the Administration itself being on the Spot will run less Hazard of being deceived in Intelligence, or disappointed in their Investigations; they will be better able to hear and redress any Grievances which the Inhabitants may preser to them, and to form such particular Regulations as may be necessary for the Exigencies of each District, or even to superadd others to those, which shall be generally and previously resolved on.

4th. This requires no Remark.

5th. The Reason for excluding these Districts from a local Inspection, are, Their Proximity to Calcutta, the Unimportance of the Few which are distant from it, and the Want of Time to include the Whole in the same Mode of Settlement.

6th. The Term "Supervisor" was properly suited to the original Commission, which was to examine, inspect, and report—This Office has been long since annulled; but we apprehend that the Continuance of the Name, and of many of the Residents, in the same Stations which they now fill as Collectors, may have missed even our honourable Masters, who were never regularly advised of the Change, into the Opinion that the first Commission still subsisted. As the Business of the Gentlemen stationed in the Districts is solely to superintend and collect the Revenue, they can only be properly stiled Collectors—so much depends on the just Application of Names, that we urge this Alteration with a thorough Conviction both of its Utility and Necessity.

7th. The Propriety of this Regulation will require no Argument; we doubt of its immediate Efficacy as a Check on the Collectors; but this, in Time, and by the Addition of fuch further Regulations as Experience shall recommend, we hope may be in a great Measure accomplished. In the mean time the Appointment of a Dewan will be a certain Means of counteracting that improper Influence which the Banyans of the Collectors are ever eager to assume in the Management of their Employ; and it will provide against the Loss of Rents, and Consusion of Accounts, which the frequent Removals of the Collectors would otherwise unavoidably occasion—as the Dewan will be fixed to the Office, and of course able to keep the Business always in Train, notwithstanding any Charges which may take place in his District.

8th. This Regulation is founded on the same Principle, and is only a Continuation of the preceding.

oth. We consider this as the greatest Security that we can give to the Farmer for the Rights and Profits of his Farm; and of course the most powerful Encouragement to those, who are solicitous of obtaining Farms, to make Proposals for them adequate to their real Value, which would otherwise depend on the Justice and Attention, or on the Rapacity, Indolence, and Caprice, of the Collector, were the Liberty to be allowed him of disturbing the Farmer, and seizing his Ryotts, whenever he thought proper.

3d. That a Committee of the Board shall be appointed to go on a Circuit through the Province, and to form the Bundibust or Settlement at the Sudder Cutcherry of each District.

5th. That the Settlement of the Districts of Houghly Hedgelee, Calcutta Purgunnahs, Burdwan, Midnapore, Beerbboom, Bissempoor, and Packeat, shall be determined by the remaining Members of the Board.

6th. That as the Company have determined to ftand forth as Duan, the Servants employed in the Management of the Collections shall be henceforward stiled "Collectors," instead of the present Appellation of "Supervisors."

7th. That a fixed Dewan shall be chosen and nominated by the Board, who shall be joined with the Collector in the Superintendancy of the Revenues—That he shall keep separate Accounts of the Collections, according to the established Forms of the Country, countersign all Orders circulated in the Mosussel, all Receipts granted to the Farmers, and all Invoices and Accounts transmitted to the Sudder.

8th. That the Collector shall not use his own private Seal in the Execution of the Business; but that a General Seal be struck, with a proper Inscription, in the Name of the Company, as Dewan of the Provinces; and that One be lodged with each Collector, to be by him affixed to all public Deeds and Orders, where the Custom of the Country, and Rules of the Service, render it necessary. And wherever this Seal is affixed, the Collector shall attest it with his Name.

oth. That neither the Collector nor Dewan shall send Seapoys, Peons, or any other Persons with Authority, into the Lands belonging to the Farmers, excepting only on such Occasions as shall indispensably require it, for the Maintenance of the Peace, or the immediate Execution of Justice, in which the Authority of the Farmer shall be insufficient; that on such Occasions a Warrant under the public Seal, and signed by the Collector, shall be given in Writing to the Officer employed, and be recorded in the judicial Proceedings, with the Reasons for issuing it; but that no Person be summoned on ordinary Occasions, except by a Tullub Chitty to the Farmer, or Order requiring him to produce the Person summoned in a certain Space of Time.

308 1773. SIXTH REPORT from the Committee of Secrecy

toth. Having provided for the due and unmolefted Exercise of the Farmer's Authority, the Rights of those who are subjected to it claim our next Attention. We cannot devise any Law which, in our Opinion, will be so likely as this to free the Ryott from undue Exactions. The Observance of it must be left to the Care of the Collectors.

11th. This Article also will necessarily prove a great Encouragement to the Farmer, who will be under no Necessity to conceal the Profits of his Farm, nor be compelled to rack his Tenants for the Means of purchasing an Exemption from further Claims of the Muttasiddees and Officers of the Government; a Practice of ancient and univeral Standing, and which no Vigilence of the Collector, whatever may be the Degree of his own Integrity, can, in our Judgment, prevent, if the Farmer is still liable to fresh Demands upon him as often as the Government of the Collector shall judge the improved State of his Lands can afford it. The long Term of his Lease furnishes an Inducement to the Farmer to improve his Lands; but the Fruits of his Labour, and the Returns of his Advances, must be insured to him, or he will be the Sufferer by the Attempt.—The Faith of the Government thus pledged, will be a prefent Ease to the Farmer, and may add to the Increase of Cultivation and Revenue.

12th. This is a Continuation of the 10th Article, and of equal Ease both to the Farmer and the Ryott. It has been the constant Practice of the Mogul Government, on the flightest Pretence, to authorize the Exaction of new Taxes from the Zemindars and Farmers. In this impolitic Conduct the View of remote Confequences was lost in the Temptation of instant Gain. The Principals, thus taxed, having a fair Pretext to indemnify themselves by an Assessment of the Tenants, have never failed to extort from them a much greater Amount than that themselves have been obliged to pay; every dependant Agent of the Collections endeavours on fuch Occasions to get his Share also of the general Embezzlement, by which the poor Ryott is disheartened, and often disabled from attending to the Culture of his Lands, which requires Money, as well as Labour, to bring it to Perfection .- When the Husbandman knows exactly what he has to pay, and is fure of being left in the undisturbed Possession of that Superfluity which his Industry can acquire, he will chearfully apply himself to the Tillage and Improvement of his Lands. - No Man will labour who is denied a Share in the Fruits of his Labour.

13th. The trivial Presents which the Custom of the East has in all Countries, as the Debts of Vassalage, and the Rights of Office or Power, are in themselves undeserving of Notice were they to extend no further: But the same Practice runs through every Degree of Subordination, till the Amount becomes a weighty Grievance.—This also, like other Levies on the Principal, is reclaimed with accumulated Extortion on the Ryotts, who are taxed as often as the Zemindar or Farmer has Occasion to perform these expensive and oftentatious Acts of Duty.

14th. The Propriety of this Regulation needs no Remark; it is necessary to make it public, with every other Condition to which the Farmer will be required to subscribe.

15th. This Article is proposed only as a Point of present Speculation; it will rest with the Committee to carry it into Execution if it shall be found practicable, and not attended with too heavy a Charge.—The obvious Advantages expected in these Appointments are, the obtaining an exact Knowledge of the Farmer's Receipts, which form the gross Value of the Lands.

The Assurances given the Farmer in the 11th Article, and the Clause in this, which excludes the Mohrir

THE DESIGNATION

10th. That the Farmer shall not receive larger Rents from the Ryotts than the stipulated Amount of the Pottahs, on any Pretence whatsoever; and that for every Instance of such Extortion, the Farmer on Conviction shall be compelled to pay back the Sum which he shall have so taken from the Ryott, besides a Penalty equal to the same Amount to the Sircar: And for a Repetition, or a notorious Instance of this Oppression on his Ryotts, the Farmer's Lease shall be annulled.

11th. That the Farmer's Payments to Government shall in like Manner be ascertained and established, and no Demand be made upon them above what shall be expressed in the Doul, or Rent Roll, delivered them with their Lease.

12th. That no Mhatoots or Assessments, under the Name of Mangun, Baurie Gundee, Sood, or any other Aboal or Tax, shall be imposed upon the Ryotts; and that those Articles of Aboal, which are of late Establishment, shall be carefully scrutinized, and at the Discretion of the Committee, abolished, if they are found in their Nature to be oppressive and pernicious.

13th. That all Nazzars and Salamies, which are usually presented at the first Interview as Masks of Subjection and Respect, be totally discontinued, as well to the superior Servants of the Company and the Collectors, as to the Zemindars, Farmers, and other Officers.

14th. That the old Farmer shall settle his Accounts with such of the Ryotts as are forthcoming, in the Prefence of the new Farmer or his Agents, and the Balances which shall be proved shall be on Account of the new Farmer.

15th. That a Mohrir, or Writer of Accounts, shall be appointed on the Part of the Government to every Farm, who shall take an Account of all the Receipts of the Rents with the Farmer, and transmit the same Monthly to the Collector at the Sudder Cutcherry of the Province, but without any Authority to interfere in the Collections.

16th. That

from all Authority, will prevent his being obnoxious to the Farmer.

16th. We have deemed it sufficient for the present to confine this Restriction to Grain alone. It ought perhaps to extend to all the Necessaries of Life.—Of all Monopolies these are the most pernicious; and whatever the Collector, who, in Effect, is the chief Ruler of the Country, trades in, will be a Monopoly in spite of all

our Endeavours to prevent it.

17th. If the Collector, or any Persons who partake of his Authority, are permitted to be the Farmers of the Country, no other Persons will dare to be their Competitors.—Of course they will obtain the Farms on their own Terms. It is not fit that the Servants of the Company should be Dealers with their Masters.—The Collectors are Checks on the Farmers.—If they themselves turn Farmers, what Checks can be found for them? What Security will the Company have for their Property, or where are the Ryotts to look for Relief against Oppressions?

18th. Every Precaution ought to be taken, and every Restriction laid on the Collector, that shall prevent his Interest from clashing with the Duties of his Employ.

It is to be feared, that the Farmer, who has the Demands of Government and the Collector at the fame Time to answer, will be too apt to avail himself of such a Situation to elude those of the former .- The Collector will naturally incline to allow a Preference to his own Claims, unless it be supposed that all Men are Proof against the Temptations of private Interest, and will feek that of their Employers at the Hazard of lofing their own Fortunes.—We forbear to enlarge on this Subject; we are convinced that many of the Gentlemen who hold these Stations are Men of Probity and Honour-We must regard them all as such till Proofs of the contrary can be obtained: But it is the Duty of Government to lay fuch Restraints on the natural Licentiousness of Mankind, as shall make the Interest of Individuals coincide with their Duty:-To prefume that all Men are possessed of Integrity, and to trust entirely to this Principle, is to leave a Door open for every Species of Depravity; for many will abuse the Confidence thus tacitly reposed in them; their Example will influence others; and, under the specious Appellation of Perquifites, the most flagrant Corruption will be admitted, even by Men whose natural Principles, without fuch a Bias, would receive the Offer of them with Abhorrence.

19th. The Design of this Regulation appears in the Introduction to it.—We venture to offer it as one of the most salutary Expedients which can be adopted, whether for the Ease of the Farmer and of the Ryotts for the Security of the Revenue, or for the Prevention of Oppression.—The only Losers by it will be the

Money Lenders.

The Proceedings of the Court Martial on Captain Mackenzie, and the other Enquiries made on that Occation, may lerve to thew now necessary it is to free the Land from the Evils of Usury and accumulated Interest, which is rarely less than 3, and often as high as 15 per Cent. per Mensem, which, with Monthly Accumulation and Fees to Agents, Banyans, Peons, and Seapoys, may amount to 200 per Cent. per Annum: Every Rupee thus squeezed from the People is in Effect taken from the Government, which can receive from the People no more than they have to give. - We lament that, it is not in our Power wholly to reprefs this Evil: The only way by which fuch an End could be accomplished, would be the absolute Prohibition of all Loans, or, which would, in Effect, prove the fame, by refusing the Aid of Government to the Recovery of them: But Voi. IV.

16th. That the Collector be forbid, on Pain of Difmission from his Office, to be concerned, directly or indirectly, in the Purchase or Sale of Grain.

17th. That no Peshcar, Banyan, or other Servant, of whatever Denomination, of the Collector, or Relation or Dependant of any fuch Servant, be allowed to farm Lands, nor directly or indirectly to hold a Concern in any Farm, nor to be Security for any Farmer; that the Collector be strictly enjoined to prevent such Practices; and that if it shall be discovered that any one, under a false Name, or any Kind of Collusion, hath found Means to evade this Order, he shall be subject to a heavy Fine, proportionate to the Amount of the Farm, and the Farm shall be re-let or made Khass: And if it shall appear, that the Collector shall have countenanced, approved, or connived at a Breach of this Regulation, he shall stand, ipso facto, dismissed from his Collectorship; neither shall any European, directly or indirectly, be permitted to rent Lands in any Part of the Country.

18th. That it be given in especial Charge to the Committee, to find out some Means of preventing the Practice of lending Money on exorbitant Ufury, by which the Ryotts are often involved in heavy Debts, without the Hope, or scarce the Probability, of Relief; and not only the Fruits of their Industry, but often the Farmers Dues (which, in Effect, are those of the State) become the Property of the Money Lenders. That in the mean time the Collector be forbid, on Pain of Removal from his Office, either to lend Money himself, or to fuffer his Banyan, or any other of his Servants or Dependants, to lend Money to the Zemindars, Talookdars, Farmers, Ryotts, or any other Person whatever, within the District of which he shall have Charge. That in like Manner the Zemindars, Talookdars, Shiedars, and other Officers of the Government, be forbid to lend Money to the Ryotts: And that all Debts contracted contrary to the Tenor of this Order, after the Publication of it, shall be void: That this Restriction is not to prevent the Farmer from affording the usual and necessary Aids of Tuccabee to the Ryotts, but that the Premium of fuch Advances be fixed at Two per Cent. per Mensem, and Payment received, not in Kind, but in Money.

19th. And to relieve the Farmer from the Necessity of borrowing Money for the Payment of his Kists or Instalments; that the Kistbundee for the ensuing Leases be so regulated, as that Kists may be made payable at the usual Periods of the Harvest, proportioned to the estimated Quantity and Value of the Crops, and as local Circumstances shall direct.

the Remedy appears desperate; and although many, obvious and valid Reasons may be urged in Support of it, and it might be easily proved, that no ill Effects could proceed from it with respect to the Revenue, yet we fear to adopt it without the last Necessity .- The proposed Regulation strikes at the principal Root of the Disorder; the rest we wish to leave to the Effects of a more settled Government, and to a regular Establish-

ment of Justice.

20th. The Chakaran Lands are Portions of Ground allotted to certain of the Inhabitants, whose Office it is to preferve the Peace of the Country, and to guard it, against common Robbers, an Establishment common to all Parts of India, and of a very ancient Institution. It is unnecessary to add any thing further concerning this Article, it being only preparatory to some future

Regulation.

21st. The Zemindarree Chokies are Places of Custom erected in various Parts of the Province on the Banks of the Rivers, they are included in the farmed Lands, and the Farmers extort what they can get from the Pafsengers. It is one of the greatest Oppressions of the Country, and the principal Obstruction to Trade.— These Considerations induced the honourable Court of Directors to direct their Suppression, and in the 27th Paragraph of their General Letter of the 10th of April 1771; and we are happy to be made the Instruments of fo wife and equitable an Injunction.

Additional Regulations regarding the Settlement.

That such Farmers as desire it, shall be permitted to pay their Kists immediately into the Treasury of Calcutta, instead of the Sudder Cutcherry of the District; but in fuch Case, the Payments shall be made in ready Money, not in Bills; nor shall a longer Delay be allowed in the Payment, after the Expiration of the stipulated Term of the Kift, than Twenty Days from the most distant Parts of the Province, and a proportionate Time for the rest.

That the Offices and Forms which are now established, for the Administration of Justice in the Districts of the Province, shall be examined and new regulated, upon fuch a Footing as shall be most conducive to the Security of Property, and the general Ease of the People; by facilitating the Access to Justice, by expediting its Decrees, and rendering equal Right to all Men. If the Party in any Cause shall not be satisfied with the Decree of the Court of the District, he shall be allowed an immediate Appeal to the Governor in Calcutta, where the Caufe shall be re-heard, and finally decided, by Courts duly constituted for the Purpose.

Revenue Department. Fort William, 3d November 1772. To Moorshedabad. (A true Copy.) Signed Alexander Higginson, Secretary.

Cossimbuzar, the 28th July 1772.

Extract Proceedings of the Committee of Circuit.

The honourable Court of Directors, in their Letter per Lapwing, Paragraph 21, declare, "their Determi-" nation to stand forth as Dewan, and by the Agency " of the Company's Servants, to take upon themselves " the entire Care and Management of the Revenues." By what Means this Agency is to be exercised we are not instructed, but, by the Confidence which the Sentence immediately following expresses " in the Conduct and " Abilities of the Board to plan and execute this im-" portant Work," their Orders are clearly implied, that the Board shall plan and execute it, by such Means as their own Judgment shall suggest, for the Security and Improvement of the Revenue, and for the Ease and Happiness of the People. This Inference is further confirmed by the following Words; " and we trust that " in the Office of Dewan you will adopt fuch Regula-" tions, and purfue fuch Measures, as shall at once en-" fure to us every possible Advantage, and free the VOL. IV.

" Ryotts from the Oppression of Zemindars, &re." We have thought it necessary to enter thus minutely into the Investigation of the Intent and Expectation of our Employers, because it will be scarce possible to proceed in a Work of this Nature, without deviating from the Orders which they have formerly laid down for our Conduct. . They have been pleased to direct a total Change of System, and have left the Plan and Execution of it to the Diferetion of the Board, without any formal Repeal of the Regulations which they had before framed and adopted to another System; the Abolition of which neceffarily includes that of its sublidiary Institutions, unless

they shall be found to coincide with the new.

In the Confideration of the Subject before us, the first Point of Enquiry is, Whether the Business of the Dewannee shall be conducted as it hath hitherto been, in Part by the Agency of the Company's inferior Servants, constituting a Board of Revenue at Moorsbedabad, or be put under the immediate Controll of the Members of their Administration? We shall not hesitate to determine in Favour of the latter: The Revenue is beyond all Question the first Object of Government, that on which all the rest depend, and to which every other should be made subservient. There must be a controlling Power in this Department, it cannot be partially delegated; but, in whatever Hands it is lodged, it must be absolute and independant. But the Superior Council, which is conftitutionally the controlling Power, having no Cognizance nor Connection with the inferior Department, can have no Knowledge of what is transacted but from the Information of the Board of Revenue; which, however fair and impartial, cannot possibly convey that intimate Intelligence which arifes from daily Practice and a direct Communication with the Servants of the Revenue: Without such an Intelligence, what Authority can the Administration possess in the Affairs of the Collections, or with what Confidence can they issue any Orders for their Improvement, impressed as they must be, with the Consciousness that they are but imperfect Judges of Matters on which they dictate to others better informed? In Effect all Authority and Command will rest with the Board of Revenue; all Appeals for Juffice from the Provincial Courts must, in regular Courie, be made to the Council of Revenue, and from them to the President and Council in Calcutta. The common People, unused to such a multiplied Process of Judicature, impatient of Delays, and taught to look up to the first Department of Government for the Redress of their Wrongs, will be continually violating the Precision of our Rules, and running to the Presidency on every Occasion of Complaint: If their Causes have not passed through the Second Court, they must be fent back to Moorsbedabad, and from thence the lirigious will come with Appeals to the Prefidency. Thus an Inhabitant of Anwangoor, if he thinks himself aggrieved, must make his Complaint to the Cutcherry at Kishenagur: Having gone through all the due Forms and necessary Delays of that Court, if he is diffatisfied with the Decree, he will carry his Appeal to the City; there too he must go through the same Forms, the same Attendance, to obtain a Second Hearing, and a Second Decree; this also not proving fatisfactory, his last Refource will be in the Government of Calcutta, which will put a final Period to his Caufe. Thus, after the Lofs of many Months, which might have been ufefully bestowed both to himself and the State in the Cultivation of his Land, and the Care of his Family, after having made a Journey of more than Two hundred Miles, and fpent perhaps more than the Amount of his Claim in fuing for the Recovery of it, he will most probably be cast a Third Time, for want of Evidence, as it is not probable he will be able to perfuade any Perfons, uninterested in the Success of his Suit, to go through the same tedious Prosecution of it with him, and as unlikely (by any Mode hitherto discovered) that he will make good his Right without it.

Such

CONTROL OF THE PARTY OF THE PAR

312 1773. SIXTH REPORT from the Committee of Secrecy

Such would be the Case of the poor Plaintiff, supposing that Justice were regularly administered in these Forms: But we know that hitherto it hath been quite otherwise, and that they have been productive of no other Effects, but to affemble Multitudes of discontented Suppliants, from all Quarters of the Province, who croud our Streets and harrafs us with Clamours for Redrefs, and as often with as loud Reproaches for being denied it. As yet no better Expedient has been found for relieving them, than to refer them back to the Collectors, with Injunctions to enter into a fresh Examination of their Complaints, and to decide finally upon them; an Expedient which few submit to, till convinced by a long fruitless Attendance that no other Resource is left them. But few are the Instances of Redress obtained by this way, and much fewer of the Letters even being delivered; as the timid Sufferers rather chuse to put up with all their Loffes, than expose themselves to the Collector or his Muttafuddies, by exhibiting the Proofs of their Appeal from his Justice, or of their Complaints against his Person.

We do not pretend to hope for a total Removal of these Evils, by any Mode which is now offered to our Choice, but we are sure they will be less frequent and less grievous, if the Appeals are made at once to the Supreme Court, without any intermediate Delays.

From all these Reasons, the Committee are of Opinion, that the Revenue in all its Branches be put under the immediate Controul of the President and Council at the Presidency: Such a Change, independant of the Advantages which we hope to derive from it, in establishing a more regular Plan of Business, and acquiring a practical Knowledge and Command of the Collections, will be productive of many other important Confequences.

The numerous Officers and Retainers of the Khalfa, and of the new Courts of Judicature, with all their Families, Domestics, and Dependants, will increase the Demand for the Necessaries and Conveniencies of Life, and of course require a Number of Tradesmen, Artifans, and Market People, to Supply it. This vast Influx of People will be drawn to Calcutta, and with it a great Increase of Wealth. The Consequence of the Prefidency will be much improved with its Population, as it will leffen that of Moorshedabad, which will no longer remain the Capital of the Province, having nothing to support it but the Presence of the Nabob, and a sew Families of Confideration, who, possessing valuable Property on the Spot, will of course chuse to continue there. The Confequence of the Nabob himself will fink in proportion, and the Eyes of the People will be turned to Calcutta, as the Centre of Government, and to the Company as their Sovereign.

Their Manners, by a constant Intercourse, will by Degrees assimilate with ours, and breed a kind of new Relation and Attachment to us. This too will open a new Source of Trade, advantageous to the Mother Country, by the Consumption of its most valuable Manufactures: Nor is this the mere Suggestion of Fancy, since we already see, that in their Habits, in their Equipages, in the Furniture of their Houses, in their Buildings, and in short in every thing where their Religion and the Difference of Climate will permit it, they begin

to affect the Fashions of the English.

In enumerating the Defects of the present System, we omitted to mention the Insecurity of the public Treatury, and the public Records of Moorshedabad, an open and straggling Town, which a few desperate Decoits might enter with Ease, and plunder at Discretion, before any Force could be collected to repel them. An Event of this Kind is not the less improbable from its not having yet come to pass. The Town of Calcutta is not only sheltered against such Dangers, but the Fort offers a most complete Security, both for public and private Property, under all Circumstances.

It is certain that such a Change as we have here proposed, is liable to its Inconveniencies; all Innovations are subject to them: We own, we foresee many Difficulties and Impediments to their being carried into Execution; which we hope will only affect ourselves, in the additional Labour which it will require to remove them; the only Inconvenience of any great Importance which occurs to us is, that which may arise from the undetermined Jurisdiction of the Mayor's Court; and the Embarrassments to which it may subject our Management of the Revenues: This we mention only as a posfible Event, which can only proceed from a more litigious Spirit than we have hitherto known to prevail in the Members of that Court; and we hope, by proper Cautions and judicious Regulations, may be prevented. But this is a Subject of itself too copious to admit of our enlarging upon it further in this Place; it may be fufficient to remark, that no inconsiderable Branch of the Collections (we mean those of the Calcutta Pergunnahs) have been quietly conducted by Cutcherries, established in Calcutta for these Fisteen Years past, without meeting with any Interruption from the Mayor's Court, or clashing in any Instance, that we recollect, with its Authority.

Refolved, That it is the Opinion of this Committee, that the Board of Revenue at Moorsbedabad be abolished, and that the Court of the Khalsa, with all the Offices appertaining thereto, be transferred to the Presidency, and placed under the Charge and Direction of the President and Council.

Coffimbuzar, 20th August 1772.

Extract of the Proceedings of the Committee of Circuit, on forming a Plan for conducting the Business of the Khalfa.

The Committee having thus premifed the Arrangements which appear to them necessary for the suture Management of the Huzzoor * Zillas, proceed to lay down such Regulations as they judge will be requisite, for conducting the general Superintendance of the Revenue System at the Presidency, and the Business of the Knappin its Detail.

The Dewanny may in the first Place be considered as composed of Two Branches.

1ft. The Collection of the Revenue:

2d. The Administration of Justice in civil Cases.

For regulating the latter, a separate Plan has been already framed, and only waits the Approbation of the Council for its being carried into Execution.

The former having been entirely subdivided into Collectorships, under the Agency of the Company's Servants, the Controll and Superintendance to be exercised by the President and Council will consist chiefly in issuing the necessary Orders to those Collectors, in inspecting, auditing, and passing their Accounts, and in occasionally visiting their Districts for the Purpose of making local Investigations and Enquiries into the State of them, and into the Collectors Discharge of their Duty to the Public, and their Employers. The Committee are of Opinion, that this weighty and important Trust can be no where so properly lodged, as in the Body of the Council at large. The honourable the Court of Directors have indeed recommended the Mode of Committees; but nothing being fo effential to the Success of the Revenue System, as Expedition in deciding upon all Points of Reference, and in issuing the consequent Orders, and as a Committee, being only authorized to prepare Matter for the Sanction and Approbation of the Council at large, must necessarily occasion Delay in this Particular; this Committee think it will always be for the Interest of the Company to profit from the Counfel and Services of every Member of their Administration, in so capital an Object of their Affairs. For conducting the general

Control therefore of the Dewanny, and for managing the Detail of the Business of the Khalsa, the following

Regulations are proposed:

That the whole Council shall compose a Board of Revenue, who shall assemble Two fixed Days in each Week, or oftener if Occasion requires, for transacting

the Business of this Department:

That the whole Council shall also be stiled Auditors of the Dewanny; and that it shall be the Duty of One of the Members, in weekly Rotation, to report upon all Accounts received from the Collectors, in which he shall check all unauthorized Charges, and remark upon all Excesses of the Annual Estimates in those Charges which are authorized:

That the Auditor of the Week shall complete the Report upon all Accounts received within his Week, and that on the last Thursday of every Month there shall be a Meeting of the Board, for the sole Purpose of passing all the Accounts of the Month preceding:

That as the President and Council have thought proper to establish provincial Dewans, to act jointly with the Collector, in all the Districts there shall be a principal Muttesedee appointed to superintend the Conduct of those Dewans, to receive from them the Accounts in the Bengal Language, and to issue to them a Counterpart of the Orders which the Board of Revenue shall from Time to Time expedite to the Collectors:

That this Officer shall be stiled the Roy Royan, and that he shall attend at the Meetings of the Board of Revenue, to make Reports, to answer to all Enquiries,

and to receive occasional Instructions:

That it be recommended to the Board to confirm Rajah Rajebullub, the Son of the late Rajah Doloobram, in the Office, and to grant him the Title of Roy Royan: He is a young Man of very promifing Abilities, and we

think will do Credit to the Appointment:

That the Business shall consist in receiving and examining all the Accounts transmitted in the Bengal Language, in comparing the Remittances of the Revenue with the Chelans or Invoices, in directing the Payments to be made into the Grand Treasury, in realizing the Collections of the Farmers who may avail themselves of the Privilege of paying their Rents at Calcutta, in preparing all Grants and Sunneds, and in expediting all Perwannas to the Provincial Dewans, and shall be conducted by a Member of the Council in Monthly Rotation, and the Roy Royan:

That on all these Points, and such others as may occur in the Detail of the Business, the Roy Royan shall report daily to the honourable the President, and receive

his Instructions:

That he shall next wait upon the superintending Member of the Khalsa, and report to him, intimating, at the same Time, such Instructions as he may have received from the President, that he may jointly attend to their being carried into Execution, as well as such other Business as the superintending Member shall think proper to direct; and that the superintending Member and the Roy Royan shall make their joint Report of every thing that shall be transacted, in this Detail, at

each Meeting of the Board of Revenue:

That to enable the Roy Royan to discharge that Part of his Duty which empowers him to transmit a Counterpart of the Board's Orders to the Dewans, a Company's covenanted Servant, with One or more Assistants, shall be appointed Translator to the Khalsa, whose Duty it shall be to attend every Day, on the breaking up of the Board of Revenue, and translate into the Persian Language the Substance of the Orders issued to the Collectors; with such Translations the Translator shall wait upon the superintending Member of the Khalsa, who will take Care that the Roy Royan expedite his Orders, to the Dewans, conformably thereto, under the public Seal of the Dewannee, reserving regular Copies:

That it shall further be the Duty of the Translator of Vol. IV.

the Khalsa to translate, and enter in a Book, all the Letters received by the Roy Royan; which Book shall be laid before the Board every Day of their Meeting:

That a Company's covenanted Servant (with a competent Number of Affistants) be appointed to the Office of Accountant General of the Dewannee, the Detail of whose Duty shall be as follows:

ording to the Form at present established, or such other

as may hereafter be prescribed.

2dly. To keep besides, the following subsidiary Books, to be laid before the Board at every Meeting of the Council in the Revenue Department;

One Book containing the Settlement of each Province, with an abstract Account of the whole:

One Book containing the Kistbundee of each District, with one general Abstract of the whole:

One Book containing the Estimate of Charges on each District, with an Abstract of the whole;

One Book containing the Account current Kistbundee (or the current Demands, Receipts, and Balances) of each District, with the general one for the Sudder, compiled from those of the Districts;

One Book containing the daily Receipts, Issues, and Balance of the Treasury;

One Book containing the Register of Pauts, and Bills of Exchange, according to the Form it is now kept in at Moorshedabad:

3dly. To prepare Monthly, in English, by means of One of his Assistants, an Account current Kistbundee of the Huzzoor Jashil, and also the Cash and other Monthly Accounts, so that the Transactions of that Collection made, fall under the Board's Inspection in the same Manner as those of the Districts under the Collectors:

4thly. 3d. Karkoon's or Accountant's Office.

In this Office will be kept all Accounts of Settlements, Kistbundees, the several Monthly Accounts of the Districts, the General Accounts of the Year, and other necessary Papers. The Servants employed in this Office are to be under the Orders of the Accountant General, to affish him in comparing and examining the Bengal Accounts with those of the English, in keeping the Treasury Account, and in striking the daily Balance of it, and of the current Receipts of the General Account current Kistbundee. Copies of all Chelans are also to be sent into this Office from the Treasury, attested by the Khazanchy. The Establishment required for this Office will be as follows:

4th. Sherifta Amaunut and Mauzoolee, or Office of Inspection.

It will be the Business of this Office to examine and adjust all Accounts that may be referred to their Inspection, particularly those of dismissed Officers of the Revenue and old Farmers. It will be especially useful in affishing the Court of Appeals in all Causes which come before them, relative to Exactions, Extortions, or unjust Demands, in the Collection of the Revenue. The Officers required for it will be,

One Sheriftadar; Three Mohrirs.

5th, Zemeen Navessee, or Register Office.

In this Office all Grants or Sunneds for Zemindarrees, Talookdarrees, and other public Services, are to be prepared, formed, and registered; and the Committee think it would be of much public Utility, if all Transfers of landed Property, Mortgages, &c. were in like Manner ordered to be registered here, within a limited Time from the Date of the Deed, and deemed invalid without such Ratifications, unless it shall be thought shill more adviseable to establish an Office for this particular Purpose, at the Cutcherry of every District. The Officers required for keeping this Registry will be,

Sine Cures (if continued) in
virtue of their Appointment from Court:

Servants. One Khazanchy, Five Mohrirs, Five Podars, One Jemautdar, Five Peons.

8th. Canoungoe's Office*.
The Nature and Services of this Office are fully explained on the Proceedings of the Moorshedabad Council of Revenue, the 2d July 1771; the Committee are of Opinion, that their Utility is almost totally suppressed, from the Change which has taken place in the Revenue System: Out of Tenderness, however, to the ancient Form of Government, and Deference to the Grants which they hold for their Office from the Court of Debly, the Committee think the Head Canoungoes may be continued, either receiving their present Resooms, or whatever may be considered as an adequate Pension; but that all the Dues allotted for the Support of their Officers in the Districts may be attached, and those Officers enrolled among the Monthly Servants of each Cutcherry. Thus the Government will still reap the Benefit of their Knowledge and Experience in carrying on the Business, whilst a considerable Saving will be produced from

9th. The Nazir's Office.

This Office consists of Peons employed in summoning the Dependants of the Khalsa, in pressing Payments and other like Services, and of the other menial Servants of the different Offices, who are under the Instruction of the Nazir: The necessary Establishment will be,

Seven Dufterbunds, or Office Keepers,
Five Ferafhes,
Two Ghereallies,
Four Mussalhees.

These to be paid Monthly Wages, instead of Fees, which are to be abolished.

That the Accounts of all these Offices, as also those of the Districts, shall be kept in the Bengal

* The Office of Canongoe is of Royal Inflitution, of long Standing, and in many Places hereditary. It is frequently executed by a Deputy, though the Emoluments are enjoyed by Principals, who are generally Absentees. In some Districts it has been long abolished. The Canongoes have usually had the Care of the Sudder and Mosfusul Records; and all Papers attested by the Canongoe are received as authentic, and declave in all Disputes relative to Lands, their Boundaries, or Property of that Nature.

Language, as being more exempt from Errors, Omissions, and Inaccuracies, than the Accounts kept in Persian:

That the Register Office will, however, be an Exception from this Rule, the Papers of which will continue to be kept in both Languages:

That there shall be Three Keys of the Dewannee Treasury, One to be kept by the honourable the President, One by the superintending Member of the Khalsa,

and One by the Roy Royan:

That the Dewannee Seal shall be lodged with the superintending Member of the Khalsa, and to be affixed to the Letters and Perwannas expedited by the Roy Royan; and that the Roy Royan shall also sign to all such Letters and Perwannas:

That a proper House shall be prepared for accommodating all these Offices, and depositing the old Records, to be known by the Appellation of the Khalsa:

That another House, adjacent if possible to the Khalsa, shall be prepared for the Office of the Accountant General of the Dewannee:

That the Collections of Burdwan, Midnapore, Chittagong, and the Calcutta Pergunnahs, shall be comprehended in this Plan of General Superintendance; their Remittances shall be made to the Dewannee Treasury; and their Accounts shall be kept by the Accountant General, but in a Set of separate Books.

Revenue Department, Fort William, 3d November 1772.

Alexander Higginson, Secretary.

And Your Committee find, That, upon the 29th Day of August 1772, the Governor and Council, in their separate Department, concurring with the Committee of Circuit, in the Propriety of the several Appointments above-mentioned, resolved to confirm them.

And Your Committee find, That the President and Council have agreed to allow to Rajah Rajabullub, as Roy Royan of the Khalsa, 60,000 Rupees per Annum,

which, with 190,000 Rupees per Annum granted to the Begum, and 100,000 Rupees per Annum granted to Rajah Goordass, make the 300,000 Rupees per Annum, which the Court of Directors permitted them to allow to the Person appointed by them as Minister of the Government, and Guardian of the Nabob's Minority.

And Your Committee find, That the Committee of Circuit being of Opinion, that the written Engagements hitherto entered into by the Farmers of Lands, have not been drawn up with sufficient Exactness and Precision; and having considered this as the principal Source of the Oppressions, which have been too frequently exercised on the Ryotts, they have settled the Form of the Aumulnama, or Lease, to be granted by Government, and of the Caboolear, or Agreement, to be entered into by the Farmer, and ordered the same to be made public at the Cutcheries: And for the Information of the House, Your Committee have thought proper to annex to this Report, Copies of these Instruments, N° 1.

And Your Committee find, That the Committee of Circuit, for the like Purpose of preventing Oppressions exercised by the Farmers on the Ryotts, have settled the Form of the Pottas or Leases to be granted by the Farmers to the Ryotts; and for the Information of the House, Your Committee have added, in the Appendix to this Report, Copies of these Instruments, N° 2.

Your Committee have also added, in the Appendix to this Report, N° 3, Copy of the Instructions, settled by the Committee of Circuit, to be given, for the suture, to the Duan of each Province or District; which will explain to the House the Nature and Powers of that Office.

Your Committee have also thought proper to add the following Statement of the Revenues of Bengal and Babar, similar to that contained in their Fourth Report, for the Year ending in April 1772; and also an Account of the Company's Bond Debt, at this Presidency, when the last Ship came away.

Your Committee were defirous of adding a General State of Receipts and Difbursements at this Presidency, to April 1772, but they found it impossible to form the fame, as the general Books of the Presidency for that Period are not yet transmitted.

The Proceedings of the Committee of Revenue, in order to form new Regulations for managing the Salt Trade, which are referred to in the foregoing Letter of the 3d of November, are imperfect; and therefore Your Committee have thought it right to omit bringing them down in this Report, and to wait till the Receipt of the

next Advices, when the Committee of Revenue have promifed to transmit a complete State of this Business.

Your Committee have found, among the Papers already arrived, important Information respecting the Judicatures of Bengal, besides what is mentioned in the foregoing Papers, which Information they have omitted to bring down in this Report, as it will make a Part of a Report on the State of Judicature in that Country, which they are now preparing, and which they intend to lay before the House without Delay.

REPORT

FROM THE

COMMITTEE OF SECRECY

APPOINTED TO ENQUIRE INTO

THESTATE

OF THE

EAST INDIA COMPANY.

Together with an APPENDIX referred to in the said Report.

Reported by Mr. ALDERMAN HARLEY on the 6th Day of May 1773.

SEVENTH

REPORT

FROM THE

COMMITTEE OF SECRECY

APPOINTED TO ENQUIRE INTO

THE STATE OF THE EAST INDIA COMPANY.

The 6th of May 1773.

The Committee of Secrecy, "appointed to enquire "into the State of the East India Company; and "for that Purpose to inspect the Books and Accounts of the said Company; and to report to the House what they find material therein, in respect to the Debts, Credits, and Effects, of the Company, as also to the Management and present Situation of the Company's Affairs, together with their Observations thereupon:"

House certain Regulations, concerning the Revenues, transmitted by the last Ships to the Court of Directors, from the President and Council of Fort William, which contained also some Matter relative to the Administration of Justice in Bengal; and considering it as one of the most important Objects of their Appointment, to report to the House an Account of the State of Judicature in that Country, as the necessary Groundwork for establishing proper Regulations for the future Administration of Justice, they have endeavoured to collect the best Information on that Subject; the Substance of which they now submit to the Consideration of the House.

In this Enquiry, Your Committee have not only perused all the Papers in the Books and Correspondence of the Company, which, as the Servants of the Company informed them, contain any thing material on this Subject, but have also called before them and examined several Gentlemen, in whose Knowledge and Experience they thought they might best conside, in respect of the Time of their Residence, and their Situations in Bengal.

In laying before the House the Result of this Enquiry, Your Committee propose to arrange it under the Vos. IV.

following Heads, into which the Subject feems naturally to divide itself:

out the Province of Bengal, as they subsisted under the ancient Constitution of the Country; or as they have been affected or altered by the Influence of the Company or its Servants.

adly. The State of Judicature existing in the Settlement of Calcutta, and in the Factories and Districts depending upon it, partly derived from the Constitution of the Country, and partly established by His Majesty's Charters of Justice.

dly. To state to the House such Provisions as have been made by Law, for the Trial and Punishment, in England, of Offences committed by the Company's Servants in Rengal; to specify in what Instances these Provisions have been attempted to be carried into Execution, with the Result of the Proceedings; and to submit to the Consideration of the House some Circumstances which appear to Your Committee greatly to obstruct the Efficacy of any Remedy in England, as the Law on that Subject is now constituted.

These several Heads appear to Your Committee to comprize every Point material for the Consideration of the House upon this Subject.

Under the first of these Heads, it seems to be a proper and necessary Introduction, to explain, so far as Your Committee have been able to learn, the ancient State of Judicature in that Country, during the Vigour of the Mogul Government; and to trace the gradual Changes in the State of Judicature, from the various Troubles and Revolutions that have lately occurred in that Country: This will naturally lead the Consideration of the House

House to its most important Object, the Alterations which have been introduced into that System, by the Influence or Authority of the Company, or its Servants; and, consequently, the present Situation of Judicature

and Justice in Bengal.

In examining into the ancient Constitution of Judicature in Bengal, during the Vigour of the Mogul Government, Your Committee chiefly enquired into the following Points; -- the Names and Distinctions of the feveral Courts; -the Judges in each; -the Laws and Rules by which they decided ; - under what Controul of Appeal they lay ; - under what Influence by the Power of the Government; - and, lastly, the Purity or Corruption that prevailed, as far as Your Committee have been able to discover, in the Administration of Justice in these Courts.

Your Committee find, from the general Account given by the Gentlemen examined before them; and also from that contained in the Books and Correspondence of the Company, that, according to the ancient Constitution of Bengal, the Administration of Justice, both in the Capital, and in the feveral Districts, was distributed into different Branches of Judicature, forthe Exercise of Criminal, Civil, Religious, and Revenue

Jurisdiction.

The Criminal Court, in every District, was generally known by the Name of the Phousdary: The Zemindar, or Rajah of the District, was the Judge in this Court: -His Jurisdiction extended to all Criminal Cases; but it appears to Your Committee, that in such as were of a capital Nature, the Sentence was not to be executed until a Report of the Case was made to the Government at Moorshedabad, and their Orders received upon it. The Proceedings in this Court were furmary: The most frequent Mode of Punishment, particularly where the accused was a Man of Wealth, was by Fine; and every Fine, imposed by Authority of the Court, was a Perquifice of the Zemindar himfelf, by virtue of his Tenure of the Lands; the natural Effects of this Circumstance, upon the fair Administration of Criminal Justice, appear to Your Committee to have been severely felt, under the ancient Constitution of Bengal.

The Court of Civil Jurisdiction, in every District, was generally known by the Name of the Adawlat: The Zemindar, or Rajah of the Province, was the Judge also in this Court: Its Judicature extended to all Causes between Party and Party: The Jodge, as a Perquifite of his Office, was entitled to a Chout, or Share, of whatever was recovered in his Court, which, as Your Committee have been informed, amounted to a Fourth

or Fifth of the whole Value.

It appears to Your Committee, That this extraordinary Circumstance in the Constitution of that Judicature, greatly affected the Confidence of the People in its Juftice: - that Parties were very reluctant to refort to this Tribunal; and that hence it has long been a prevailing Practice in Bengal, to refer Matters of Controverly to

Arbitrators chosen by the Parties.

It appears to Your Committee, That these Judicatures were not guided by any regular System of Law; that the Khoran was the only Code, and its Commentators the only Authorities, allowed in that Country; that where these afforded no Rule of Decision, the Customs and Usage of the Country, if applicable to the Case, were the proper Guide; but that the Rules derived from these Sources were in general very loose and uncertain; and that the necessary Consequence of so imperfect a System of Law, rendered the Exercise of criminal and civil Judicature in Bengal, in a great Meafure discretionary

The Witnesses examined by Your Committee did not entirely agree, with respect to the Right of Appeal from the Provincial Courts of Phousdary and Adawlat to the respective Courts of the same Nature at the Capital; but most of the Gentlemen informed Your Committee, That fuch Appeal certainly lay: They all concurred in informing Your Committee, That the Power of the Government often "interfered in the Proceedings of the Courts of Justice; that the general Course of Application for Redress, against any Proceedings of the Courts of Justice, was to the Power of the Government, especially where the Party found himself in a Situation to expect its Favour and Protection; and that the Government, upon fuch Occasions, not only exercised a discretionary Power over the Proceedings of the Courts, but frequently gave such Remedy, or inflicted such Punishment, as they thought proper, without the Inter-

polition of any Judicature.

It appears to Your Committee, That the Want of fubordinate Jurisdictions in different Parts of the Zemindary Districts, was attended with much Hardship to the lower Class of the People; that such of them only as lived in the Neighbourhood of the Seat of Judicature could have Access to these Tribunals, and that even to these, the Expences attending Suits in the Courts were almost an entire Exclusion of the Possibility of attaining Juffice by Law. That, on the other hand, the principal Persons in the several Districts could seldom be brought under the Authority of the Courts, and when they submitted to them, were able to defeat their Justice by means of their Influence with Government.

Your Committee found it the general Sense of all the Accounts they have received respecting these Courts, That the Administration of Justice, during the Vigour of the ancient Constitution, was liable to great Abuse and Oppression; that the Judges generally lay under the Influence of Interest, and often under that of Corruption; and that the Interpolition of Government, from Morives of Favour or Displeasure, was another frequent

Cause of the Perversion of Justice.

One material Circumstance, that must have greatly tended to encourage the Abuse of this Judicature in these Courts, appears to Your Committee to have been the Want of any judicial Register of their Proceedings; fo that there could not exist any authentic Document of their Proceedings, to be the Subject of Review by any

Superior Authority.

Causes respecting Religion appear to have been distinguished from the ordinary Course of Judicature; Queltions of this Nature were not trusted to the Judgment or Discretion of the temporal Judges; in every such Case, the Judge before whom the Question depended was obliged to call in the Affiftance of the Cazee of the Diftrict, and even to submit to his Authority in the Decision of the Caufe: And Your Committee find, That the Gentoo Subjects enjoyed a limilar Privilege with respect to all Cases of a religious Nature, in which Persons of that Persuasion were Parties; for that, in every such Case, it was necessary that the temporal Judge should be affifted by a Bramin of the Cast, particularly where the Cause was of such a Nature as might be attended with the Consequence of Forseiture of Cast.

Your Committee find, That all Causes respecting the Revenue, or the Rents of the Lands, were under the Cognizance of a peculiar Court in every District: It appears, That formerly the Zemindar or Rajah held the Authority of this Judicature also; but Mr. Sykes informed Your Committee, That, for some Years before the Acquisition of the Dewannee, this Jurisdiction of the Zemindar had gone into Difuse, and had fince been exercifed by the Naib Duan, appointed in every Diffrict by the principal Duan at Moorsbedabad, that this Officer decided in all Causes of Revenue; but that Appeal lay

from his Decisions to the principal Duan.

With respect to the Courts established at the Capital, Your Committee apprehend, That they could not prefent to the House any Account so satisfactory, as that which is contained in a Letter lately received by the Court of Directors from the Governor and Council at Fort William, dated the 3d of November 1772; and Your Committee have inferted an Extract thereof, to far as it relates to the Subject of the Administration of

Justice, together with the Plan therein proposed for that Purpose; being of Opinion that it contains Materials of great Importance, and deserving the serious Consideration of the House.—Upon the present Subject of the Courts established by the ancient Constitution at the Capital of this Province, Your Committee think it proper to abstract very shortly the principal Substance of the Account given at large of these Courts, in the Letter of the Committee of Circuit to the Council of Fort William, transmitted in the above-mentioned Letter to the Court of Directors:

According to that Letter the Courts are as follow:

1st.—The Nazim, as supreme Magistrate, presides personally in the Trials of capital Offenders, and holds a Court every Sunday, called the Roy Adawlat:—Crimes not capital are tried before the Phousdar, but reported to the Nazim for his Judgment and Sentence.

edly.—The Duan is the proper Judge of all Causes relating to real Estates, or Property in Lands, but seldom exercises this Authority in Person to The Darogo Adawlat Dewannee, or Deputy of

the Duan, exercises this Jurisdiction.

3dly.—The Darogo Adawlat al Aalea is the Judge of all Cases of Property, except those which respect Land and Inheritance; and also takes Cognizance of Quarrels, Frays, and abusive Names.

4thly.—The Cazee is the Judge in all Claims of Inheritance or Succession, assisted by the Muftee, who is the Expounder of the Law; and also by the Mohtesib, a Magistrate whose immediate Duty is to superintend the Weights and Measures, and other Matters of Police: The Manner of proceeding in the Cazee's Court is, that after hearing the Caufe, the Mustee writes the Fettwa or Law applicable to it, and the Cazee pronounces Judgment accordingly, unless he or the Mohtesib disapproves of the Fettwa; in which Case the Cause is referred to the Nazim, who fummons the Iilass or General Assembly, confifting of the Cazee, Muftee, Montesib, the Darogos of the Adawlat, the Monlavies, and all the learned in the Law, to meet and decide upon it, whose Decision is final.

Such appears to Your Committee to have been the System of Judicature, established by the ancient Constitution of Bengal; but Your Committee cannot conclude this Part of the Subject without observing, That, so far as they are able to judge from all the Information laid before them, the Subjects of the Mogul Empire in that Province derived little Protection or Security from any of these Courts; and that in general, though Forms of Judicature were established and preserved, the despotic Principles of the Government rendered them the Instruments of Power rather than of Justice, not only unavailing to protect the People, but often the Means of the most grievous Oppressions, under the Cloak of the judicial Character.

Your Committee having enquired in what Manner the English Company or its Servants used to proceed, during the ancient Government, to compel Payment of their Debts from any of the Natives not residing under the British Flag, they were informed by several of the Witnesses, that, where the Debtor was a Person dependant on, or connected with, the Company in the Course of Commerce, and residing (as these Persons generally did) in the Neighbourhood of any of the Company's Settlements, the general Practice was to lay hold of his Person by their own Authority, without applying to any Court or Officer of the Government: That they fometimes ventured to exercise the same Right, even where the Debtor did not fall under that Description; but that this was an Abuse, though generally overlooked by the Government: That, in the former Case, the Government tacitly allowed and countenanced the Practice of feizing and detaining the Vol. IV.

Debtor, it being much the Disposition of the Government to give all possible Encouragement to the Europeans, from whose Commerce their Country then derived such considerable Advantages: In Cases where it was not thought prudent to proceed in this Manner, the only Remedy was by Application to the Government: But Your Committee were informed, That there was seldom Occasion to make use of either of these Ways to compel Payment of any Debt to the Company or its Servants; for that the Persons dealing with them reaped so much Benefit from that Connection, that there seldom arose any Dispute between them.

Your Committee were further informed, That the French and Dutch exercised the same Privilege of seizing their Debtors, and had even continued the Practice after

the Company's Acquisition of the Dewannee.

Your Committee find, by the Secret Confultations lately received by the Lapwing, That this Practice having been lately prohibited by the President and Council, the French, in very strong Terms, remonstrated against this Order, as a Violation of a Right which they had always held and exercised under the Country Government; but that the President and Council denied this Pretension, and insisted that the French should have Recourse to the Courts of Justice to compel Payment of their Debts: But Your Committee do not find that this Dispute had been brought to a Conclusion.

Your Committee having laid before the House this succinct View of the ancient State of Judicature in Bengal, now proceed to state the Result of their Enquiry, with respect to the Alterations it has undergone since the Decline of the Mogul Government, and the Introduction

of the Company's Influence in Bengal.

Mr. Sykes (who from the Time of his Residence and his different Situations in Bengal had the best Opportunities of Information on this Subject) informed Your Committee, That, in his Opinion, during the first Period of Meer Jaffier's Government, although he had been raised to the Nabobship by the Power and Influence of the English, the Administration of Justice continued in its former Course, without any Interruption or Alteration from that Power, which had made the Revolution: That, during the Government of Cossim Ally Caron, the English Influence began to operate, not only in consequence of the Revolution itself, accomplished by their Power, but because from that Time many English, with or without the Consent of the Presidency, dispersed themselves over the Country, and engaged in its interior Commerce, which often led them to interfere with the Judicature and Government of the Country (in which his Evidence is much confirmed, by feveral Letters, printed from the Country Correspondence, in the Appendix to the Third Report of the Committee appointed to enquire into the Nature, State, and Condition, of the East India Company, and of the British Affairs in the East Indies; and which are to be found in the Appendix to that Report, N° 23, 24, 27, 32, 37) that besides, Cossim's Attention was so much turned to the Increase of his Revenue, that he gave very little Regard to the Administration of Justice, or to the Maintenance of that Part of his Authority against the Encroachments of the English Subjects residing in his Territories, further than was necessary for securing the Collection of his Revenues.

The Third Revolution made by the English, in restoring Meer Jasser, necessarily added to their Power and Instruction in the whole Administration of Government in Bengal, and of course rendered the Administration of Justice in the Judicatures of the Country very liable to be swayed or instructed by any Servant of the Company, whose Situation gave him an Opportunity, and whose Interest afforded him Incitement, to interfere in any of their judicial Proceedings.

Mr. Keir informed Your Committee, That fince the Establishment of the English Power in Bengal, on its present Footing, the Banyans of English Gentlemen, wherever they reside, entirely govern the Courts of Ju-

0

dicature, and that they even frequently fit as Judges in these Courts:

Mr. Jekyl, upon the same Subject, said, That whilst he was at Patna in 1771, the Members of the Company's Council sat alternately in the Revenue Court at that

Place, together with the Rajah.

But though these successive Revolutions, entirely accomplished by the English Power in Bengas, necessarily rendered their Influence very operative in the Affairs of the Government; and although it appears to Your Committee, from the Perusal of several Letters, printed in the Appendix to the before-mentioned Report of the Committee appointed to enquire into the Nature, State, and Condition, of the East India Company, and of the British Affairs in the East Indias, that the Gomastahs of the Servants of the Company frequently assumed to themselves the Exercise of Judicature; yet it does not appear that any Alteration in the legal Constitution of the Judicatures of the Country was made before the Acquisition of the Dewannee.

But Your Committee find, That fince the Acquisition of the Dewannee, some Alterations have been made, and a Variety of Regulations proposed, respecting the Administration of Justice; but as to the Essect, Your Committee are not able to give the House any satisfactory

Information.

Mr. Sykes, who was appointed Refident at the Durbar in October 1765, informed Your Committee, That immediately upon entering into that Office, he applied to the Government for the Establishment of some new Courts of Judicature, but without proposing any Alterations in those already established; that having observed that the poor Inhabitants were, in general, unable to obtain Justice in the ancient Courts, he recommended to the Ministers at Moorshedabad to establish there, and in each of the Provinces, a Court for the Decision of all Causes, not exceeding the Value of 500 Rupees; that this was accordingly carried into Execution; the Court at Moorshedabad confisting of Twelve Persons of the best Character, appointed by the Administration, with adequate Salaries; and the Provincial Courts constituted in the fame Manner, but confifting only of Six Judges; that all these Judges were bound by the most solemn Oath to administer Justice uprightly, and not to receive, directly or indirectly, any Emolument whatfoever, beside their Salary, in the Exercise of their judicial Function; that they fat by Rotation, Three at a Time, and Appeal lay from these Courts in the Provinces to that at Moorshedabad.

Mr. Becher informed Your Committee, That he found fuch a Court existing at the Time of his Appointment to be Resident at the Durbar, in January 1769; but Your Committee cannot help observing, that no Notice is taken, in the Dispatches lately received from the President and Council at Fort William, of any Court now existing at Moorshedabad, which was established since the Acquisition of the Dewannee.

Mr. Sykes added, That, during the Time of his continuing Refident at the Durbar, no other Alteration was made, respecting the Courts of Judicature; for that it had been determined and directed by the Company, that whilst they made necessary Resonations, they should adhere as much as possible to the Forms of the established

Government.

Mr. Becher, who succeeded Mr. Sykes in January 1769, as Resident at the Durbar, informed Your Committee, That he allotted One Day in every Week to inspect the Proceedings of the Supreme Courts at Moor-shedabad; he added, That, as Resident at the Durbar, he possessed a very extensive Authority, but that he could safely aver he had always used it to promote Justice, and project the Natives from Injury.

Mr. Vereist, who resided, for some Years, as the principal Servant of the Company, in the Provinces of Chittagong and Burdwan (ceded by Cossum Ally Cawn) before he became President of Bengal, in his Evidence upon this Subject observed to Your Committee, That,

before the Acquisition of the Dewannee, it had been found by Experience, that it was very possible to maintain the Forms of the ancient Country Judicatures, and at the same Time correct many Abuses which had crept into the Administration of Justice; for that the Company had followed this Plan, and seen its Efficacy in those Provinces which had been ceded to them in the Year 1760, by Gossim Ally Cawn; and that therefore the Select Committee at Calcutta had resolved to pursue the same Course, with respect to all the other Provinces, upon the Acquisition of the Dewannee:

Such is the Account that the above-mentioned Servants of the Company have given Your Committee, of the various Steps they have taken in their respective Departments; but it does not appear to Your Committee what Effects may have thence resulted towards the better

Administration of Justice.

Your Committee will now state the Substance of some of the most material Letters that passed between the Court of Directors, the Presidency at Fort William, the Council of Revenue at Moorshedabad, the Naib Duan, and the Supervisors of the several Districts, on the Subject of the proposed Regulations in the Administration of Justice, together with some of the Reports made by these Gentlemen to the Resident at the Durbar, respecting particular Cases occurring in their respective Districts.

tricts, following the Order of the Dates.

In a General Letter to the Select Committee at Bengal, 16th March 1768, the Court of Directors recommends to them, " to endeavour to introduce Laws of
"Inheritance, and as near as possible to the Spirit of
"the Laws of this Country; particularly, to endeavour
"to abolish the Power of seizing the Effects of those
"who die without Children; and to introduce the Right
"of bequeathing by Will; referring to their Judgment
how far this could be done, consistent with the Claims
of the Rajahs and Landholders, and the established
"Customs of the Country."

Your Committee find, That in the following Year fuperintending Commissioners were appointed to the several Districts of the Province, not only to watch over the actual Administration of Justice in the Courts, but also to enquire into all the Defects and Abuses in their Constitution or Practice, and to report their Ob-

fervations thereon.

The Instructions of the President and Council, communicated by the Resident at the Durbar to the Supervisors of the several Districts, after observing the Degree of Corruption to which the Courts of Judicature were degenerated, and particularly the mischievous Confequences of allowing arbitrary Fines, and the Compromise of Offences, direct the Supervisors " to check " every fuch Composition, and in Matters of Property " to recommend Arbitration as much as possible; and " to inculcate into the Minds of the People, that their " only Object is to provide for their Relief and Hap-" piness; - that in capital Cases the Sentence should " be referred to the Refident at the Durbar, and by " him to the Minister, to approve or mitigate it, " according to the Nature of the Cafe; - that they should establish Registers of all Causes and Deter-" minations, to be lodged in the principal Cutcherry of "the Province, and that an authenticated Copy be " transmitted to Moorshedabad; - that they endeavour to reform all the Corruptions which have encroached " on the primitive Rights of the Mahommedans and " Hindoos, particularly in respect of the arbitrary linipositions of Fines; -- that all Persons claiming any judicial or religious Authority should be summoned " to produce their Sunnods, and that Registers of these Sunnods be kept, in order to prevent any from exercifing a judicial, because a lucrative, Function, who is not appointed by Government, if a Mahometan, or elected by his Cast, if a Hindoo; - that the Forfeiture of Cast should never be inflicted in any Case " but by Sentence of the Bramin, in a regular Process, " and upon clear Proof of the Offence; but that, as

"the Policy of the Mahometan Government had pro"vided, that where a Hindoo has legally forfeited his
"Caft, he cannot be reftored to it without the Sanction

" of the Government; that this Principle should be "kept up, as a direct Assertion of the Subordination of the Hindoos, who are a very considerable Majority

" of the Subjects."

The Court of Directors also sent out Orders to these Commissioners, dated 15th September 1769, directing, "That they should make strict and speedy Enquiry " into the Proceedings of the Courts of Justice through-" out their Settlements, and that if any extraordinary " Powers have interfered to interrupt the Course and " Administration of Justice, they should, without De-" lay, correct all fuch Abuses; and in particular direct-" ing, that they should procure the entire Abolition of " the ancient Custom of withholding, under the Name " of Chout, a large Share of all the Property recovered " in the Courts; and that if they should find the esta-" blished Courts so imperfectly constituted, as not to be " adequate to the right Administration of Justice, they " should apply to the Government, and obtain Fir-" mauns for erecting such new Judicatures as should " appear most adequate to that Purpose."

Your Committee find, That these Commissioners accordingly assumed and exercised the Right of super-intending and reviewing the Proceedings of the Courts of Justice, in their several Districts; that where any Case of Dissioulty or peculiar Importance occurred, they reported a State of the Proceedings to the Resident at Moorshedabad, in order that he might lay it before the Government, and return such Orders as the Nabob, or his Ministers with his Approbation, should direct. This Practice accordingly has prevailed throughout Bengal, and appears to your Committee to be the strongest Evidence of the absolute Sway and Controul to which the whole Administration of Government, and particularly the Courts of Justice, have submitted, since the

Company's Accession to the Dewannee.

In a Letter from the Select Committee at Fort William, dated the 30th September 1769, in answer to a Letter from the Directors, dated 11th November 1768, desiring to be informed, Whether there lay any Appeal from the Two Courts at Dacca, the Committee say, "That "these Courts are held on the same Footing as others in the different Parts of the Country, and that Appeals are frequently made from them to the Nabob, and to the Resident at the Durbar, who make proper Enquiry into, and decide ultimately, the Causes so brought before them."

August 1770:—Letter from the Supervisor at Nattore, to the Resident at the Durbar.

In this Letter the Supervisor communicates to the Resident an Account of the Trial of a Woman before the criminal Court of Bhittoreab, attended by the Proper Officers of the Mahometan and Gentoo Religions, upon a Charge of the Murder of a Woman, and the Destruction of a Child with which she was pregnant, by giving her Medicines to procure an Abortion, and using the most barbarous Means in extracting the Fœtus: He mentions, that this Trial was held publicly in his Pre-fence; that the Fact was clearly proved by different Witnesses upon Oath, and that the Court deemed her deterving capital Punishment; but that they hefitated to pronounce that Sentence, from a scrupulous Regard to the Strictness of the Mahometan Law, which requires the Attestation of a certain Number of Eye Witnesses, and those of the Mussulman Faith, to fanctify a Sentence of Death, even for Murder, and with the clearest Evidence of the Fact.—" It therefore rests (continues the " Letter) with you and the Minister of the Nabob, to " determine whether or not it may be allowable to fet " aside these Obstacles to the Execution of a Punish-" ment, which is forbidden only by a religious Partiality, VOL. IV.

"incompatible with Equity and the natural Laws of Society."

October 1770.-Mahomed Reza Cawn, having been joined by the Gentlemen appointed to refide at Moorshedabad as a Council of Controul, delivered in a Minute to the Council, defiring Directions in his Conduct in the Administration of Justice: This being transmitted to the Presidency, the President and Council gave it as their Opinion, that the Administration of Justice should be continued on the same Footing as formerly, but that the Council of Controul should interpose as there should be Occasion; adding, that every Transaction relative to the Government should ultimately come before the Council.—The Council of Controll thereupon Refolved, "That in all criminal Cases throughout the Provinces, " the Trials should be transmitted to them, for their " Approbation, before the Sentence be executed; -that " all Causes relative to Property in Land; and to the "Revenue, shall be tried in the Country Government " Courts;—that Two Courts should be established by " the Council of Controll, confliting of all the Mem-" bers of the Council, to revise the Proceedings of the " Country Courts, and finally to determine thereon."

February 1771. — Letter from the Supervisor of Rajeshaby.

This Letter states, as one of the greatest Grievances in the Administration of Justice, the Venality and Oppression of the Cazees, who, since the Company's Accession, had invented a Variety of new Taxes upon the Ryotts, and established a Mode of Compromise for criminal Offences.

February 1771.—Instructions to the Cazees by the Suzpervisor of Rajeshahy.

These Instructions set out with observing, that the Ryotts han lately been exposed to the greatest Oppresfion, from the Rapacity and Mal-administration of the Officers of Jultice, and therefore establish certain Regulations for their Conduct; some of the principal of which are as follows: - That they hold no Court but in the public Cutcherry; -that they transmit Monthly to the Supervisors an exact Register of all their Proceedings; -that they never demand any Composition for Crimes; - that the Rate of their Fees be stuck up, attested by the Zemindar, on the Wall of the Cutcherry, in the Persian and Bengal Language;—that the Peon apprehending a Prisoner shall not take above Two Anhas per Day, besides Victuals; and that, where the Perfon furnmoned can give good Security for his Appearance, they should not keep Peons upon his Person;that if any English Gomastah takes upon him to fend Peons and detain Prisoners, or any inferior Officers exercife Jurisdictions beyond their own Precinct, they should take proper Steps to put a Stop to such unwarrantable Practices, and if these do not prove effectuals to give immediate Information to the Supervisor.

February 17711—Letter of Mr. Ducarel, Supervisor of Purnea, to the Chief and Council of Revenue.

This Letter contains a Report to the Council of Three criminal Trials; One for the Murder of a Child, in which Sentence of Death had been passed, waiting only for the proper Approbation to be put in Execution; and Two other Cales of Thest and Robbery, for which, by the Mahometan Law, the Criminals were condemned to have One Hand and One Foot cut off; proposing, that in lieu of that Punishment, in these and similar Cases, the Criminals should be sent to the public Works.—The Answer from the Council states, that the ultimate Decision in criminal Cases rests entirely with the Naib Subah, who returns his Sentence to the Officers of the Adawlat; adding, that should the Order of the President and Council, with respect to the Dif-

tinction to be observed between the Dewannee and the Nizamut, admit of the Council's interposing in criminal Cases, they should then take into Consideration the Propriety of the proposed Deviations from the Rules of the Mahometan Law.

March 1771. — Letter of Mr. Rous, Supervisor of Rajeshaby, to the Chief and Council of Revenue.

In this Letter he transmits the Proceedings of Two Trials for different Murders. With respect to one of them, he only mentions that the Person accused had been condemned to die, and that Two Persons included in the Charge were acquitted: That the other was the Trial of a Father for the Murder of his Daughter, an Infant of Six Months old, by cleaving its Head afunder; that the Fact was proved according to the Forms of the Mahometan Law, by his own Confession, excusing it as done in a Fit of Despair, on account of some Delay in the Ceremony of his intended Marriage: That by the Authority of one Passage in the Khoran, this Criminal should be punished with Death; but that the latter Commentators, and especially a Society of learned Men, who were employed by the Emperor Aurengzebe to digest the Civil and Criminal Institutions of the Khoran, have mitigated the Rigour of this Law, regarding the Destruction of a grown Person as a Punishment more than adequate to the Death of a Child. The Letter concludes with observing, that the peculiar Circum-flances of Barbarity in this Case ought, notwithstanding the Lenity of these Authorities, to undergo the leverest Punishment.

In the Answer from the Council of Revenue to this Letter of the Supervisor, it is mentioned, that, in confideration of the peculiar Barbarity of the Case, the Naib Subah had pronounced a Sentence in some Degree beyond the Letter of the Law, though not so far as to affect the Life of the Culprit.

4th March 1771 .- The Supervisor of Nuddeah having complained, by a Letter to the Council of Revenue, of the Bazy Jumma, which was an inferior Office of Criminal Justice, but in its Execution found highly oppressive to the Inhabitants, and recommended the total Abolition of it, mentioning at the same time, that he had by his own Authority put a Stop to the Exercise of that Office till he should receive the Command of the Council upon it. The Answer says: " We are tho-" roughly convinced, that the Jurisdiction of the Bazy " Jumina is every where a Source of great Grievance " and Oppression to the Ryotts: We entirely approve " of its being abolished; and desire you will accordingly " cause Publication thereof to be made throughout the " Province, intimating to the Ryotts, that it is a Mea-" fure taken for their Relief."

April 1771.—Letter from the Council of Revenue at Fort William, to the President and Council in the Secret Department;

Contains a Memorial from the Naib Subah, in obedience to a Defire of the Prefident and Council, that he would lay before them an accurate State of the Diffinction between the Offices of the Nazim and Duan. According to this Account, all Questions of Inheritance of Lands, or relating to the Rights and Boundaries of Lands, also all Cases of Complaints of Oppression or illegal Demand upon the Ryotts, and, in general, Cases of Misdemeanor, together with all Questions relative to the Administration of Revenue, fall under the Jurisdiction of the Duan; that Cases of capital Punishment belong to the Jurisdiction of the Nazim.

April 1771.—General Letter to Rengal recommends particularly the abolishing the Power of the Judges to

impose arbitrary Fines:—That the Sunnuds appointing the Judges be registered in Form; and that a Record be made of all Sentences in the Courts, one Copy to be kept in the Cutcherry, and the other transmitted to Moorshedabad;—that they endeavour to encourage the Natives to refer their Differences as much as possible to Arbitration;—that they endeavour also to persuade the Government to consent to the Abolition of the Chout, exacted by the Courts in Cases of Arbitration.

June 1771:—Letter of the President and Council to the Council of Revenue.

"Although we wish to interfere as little as possible with the Business that appertains to the Nizamut, and established by long Usage in the Country, yet, as we are desirous of checking the arbitrary Proceedings of the Moorish Courts of Justice, from a Duty we owe to the Happiness and Security of the Inhabitrants, we must therefore desire that you will give the strictest Attention to prevent Injustice, as much as possible, by your Representation to Government as Occasions offer."

July 1771.—The Report from the Supervisor of Dinagepoor.

In this Report the Supervisor states, That having found great Inconvenience from the Want of inferior Courts in different Parts of the Province, whereby the Ryotts on every trissing Cause of Complaint were forced to leave their Habitations, and repair to Dinagepoor, he had divided the Province into Districts, and appointed inferior Officers of Justice in each, with Authority to enquire and determine in Cases of Thest and Quarrel, and also of Debt, subject to Appeal, where the Judgment exceeds Five Rupees, to the Sudder Adawlat at Dinagepoor, and restrained in their Criminal Judicature not to exceed Three Rupees in their Fines, nor Ten Rattans in their Corporal Punishments.

September 1771.—Representation from the Farmer at Luckypoor to the Council of Revenue.

This Memorial complains, That the Officers of the Factory had, in feveral Inflances, obstructed the due Recovery of the Rents, and had even in one Case seapoys and Hircarrahs to beat off the Zemindar's Peons, stationed on a particular Farm to attach the Crop, as the Tenant was in Arrear for his Rent, and refused to pay.

20th December 1771.—Confultation—Fort William.

The President and Council having then received the Orders of the Court of Directors, of the 10th of April 1771, wrote Letters to the several Councils and Factories for carrying those Orders into Execution; and therefore directing the immediate Abolition of the Power of arbitrary Fines—The Register of all Sunnuds for Judges—Records of all Sentences in the Courts to be kept in the Cutcherry, and Copies sent to Moorsbedabad—The Abolition of all Taxes and Duties on litigating Parties; and also of the Chour, in Causes of Arbitration; recommending at the same Time every Encouragement to be given to that Mode of Decision.—In answer to these Instructions, the President and Council received Letters from the Supervisors in the different Districts.

Mr. Baber, Supervisor of Midnapore, 13th January 1772, informed them, That these Regulations were already anticipated in the Province of Midnapore—That all the Judicature in that District was exercised under the Authority of the Resident, and Persons appointed by him, in every Pergunnah—That all Causes arising in inferior Districts were reported to the Resident, and

every

every Case duly registered in the Phousdar's Cutcherry; so that there could be no arbitrary Fines or Impositions, nor any undue Authority exercised, independant of the

Mr. Vansittart, Chief of Patna, in his Answer, mentioned, That the Chout had been some time abolished, according to the Orders of the President and Council; but that they allowed in lieu thereof Two Annas to be levied, not only for defraying the Charge of the Judicature, but as a proper Check upon Litigiousness: In Reply to which, the President and Council directed the entire Abolition of this Duty, as a Remnant of the Chout, which the Court of Directors had ordered to be

absolutely abolished.

Mr. Stewart, Resident at Burdwan, in his Answer, observes, That the Course of Decisions by Arbitration was found dilatory, undecisive, and unsatisfactory; and that the Inhabitants were become very averse to that Manner of Proceeding, preferring greatly the established Cutcherries, especially whilst under the Superintendance of a Company's Servant; that, in his Opinion, the Abuses in the Administration of Justice were to be imputed rather to the corrupt Principles of the Mahometan and Gentoo Judges, than to any Desects in the Laws, or in the Regulations of the Courts; and that therefore these Grievances could not be in any way so well redressed as by a strict Superintendance of the Company's Servants in their several Jurisdictions.

30 December 1771. —Representation of Mahomed Reza Cawn.

In this Memorial he remarks, That throughout all Hindostan, in case of Thest, Robbery, or Murder, the Zemindar of the Province (or the Zemindar and Aumil together, where they have a joint Authority) is bound to produce the Murderer or Thies, and the Essects; and are liable to be called themselves to account, if they fail in this Duty.

January 1772. — Letter from the President and Members of the Judicial Court of Cutcherry at Fort William, to the President and Council.

Contains a State of the Proceedings in a Bill of Complaint for Debt, exhibited in that Court, by one Tagarnaut Sircar, against one Moodyram (whom he had followed from Patna) but afterwards dismissed, notwithstanding which the Plaintiff had desired a fresh Summons against the Desendant; and that, in Compassion to his distressed Situation, they had accordingly granted a fresh Summons, and that the Cause was then at Arbitration; and desired their Commands relative to the future Proceeding. — The President and Council ordered their Secretary to direct the Court, That is this Suit was for Money lent in a private Capacity, it might be decided by them; but that if it related to the Rents of Lands, it must be referred to the Council at Patna.

February 1772.—Letter from Mr. Bentley, Chief at Luckypoor, to the President and Council, dated Islamabad.

Gives his Opinion, That there would be Inconvenience in the entire Abolition of the judicial Fees, by affording too much Encouragement to Litigation, whereby the Charges of the Cutcherries to Government would be greatly increased; and that though discretionary Fines ought not to be allowed, yet under proper Regulations, adapted to the Degree of Offence, that Mode of Punishment seems the best; that it seems absolutely necessary to appoint subordinate Powers of Judicature, for the Protection of the poor Inhabitants residing at a Distance from the Metropolis of the District; that the Mode of Arbitration was, in general, Vol. IV.

very difficult; as few Persons chose to undertake that Office; and that, to carry it into general Practice, it would be necessary to make the Natives, when called upon to act in that Character, liable to certain Fines on Resulal or Neglect.

March 1772.—Letter from the Chief and Council at Patna to the Prefident and Council.

— Mentions it as the Custom of that District, to oblige Persons, chosen Arbitrators, to undertake the Office, unless they can give a sufficient Excuse.

April 1772.—Letter from Council of Revenue at Moorshedabad to the President and Council.

This Letter incloses a Memorial from the Naib Duan, on the Subject of Arbitration, accurately diffinguishing fuch Causes as are proper for that Mode of Decision, and fuch as must be decided by the Courts of Judicature according to the Law: Of the latter Kind, he states all Disputes of Inheritance, Property, Purchases, Affiguments, and the like; that these Cases depending upon the Laws of the Scriptures, according to the Orders of the Almighty and his Prophet, cannot be proper Subjects of Arbitration, for the Right must be decided according to the Precepts of the Law, and common Arbitrators cannot be proper Judges thereof: That Cases of Misdemeanor, or Offence by one Subject to another, cannot be referred to Arbitration, but must be judged and punished by the proper Officers of Justice, and much more especially Crimes of a higher Magnitude must undergo the Judgment of the Law itself: That on the other hand, in Cases of Debt, Account, or other Commercial Concern, Arbitration is the best Mode of Decision: That he had accordingly issued Orders to the Officers of the Courts of Justice in the feveral Districts, that in all Matters of Debt, Trade, petty Quarrels, and ordinary Occurrences, where the Parties are willing to refer, they should appoint Arbitrators, and that Registers be duly kept in the Court of Adamlat of all Causes decided in that Way.

The Letter of the Council of Revenue represents the Necessity of restricting the Orders relative to Arbitration to such Cases specified for that Purpose in the Naib Duan's Memorial; for that it would be productive of the greatest Distatisfaction in the Country, if that Mode of Decision was to be substituted in the Place of judicial Determinations, in such Cases as fall under the fixed Principles of the Mahometan Law: That such a Measure would be regarded by all the Mahometans as an Infringement on their Religion and Customs, would excite great Discontent and Apprehension, and perhaps be liable to

an obstinate and inflexible Opposition.

In the Answer from the President and Council to the Council of Revenue, they entirely assent to the Distinction proposed in the above Letter; declaring that all Cases of Inheritance, Marriage, or other Matters for which the Mahometan Law has made Provision, and likewise all Matters respecting Inheritance, and the particular Laws and Usages of the Casts of the Gentoos, should be decided by the established Magistrates, assisted by the proper Persons of the respective Religions, according to the Laws and Usages of each.

The Council of Revenue, in a Letter to the President and Council, May 1772, inclosed a Remonstrance of the Naib Duan, respecting that Part of the Instructions in the last Letter of the President and Council, which directed, that in Cases of the Inheritance of the Gentoos the Magistrates should be affished by the Bramins of the Cast to which the Parties belong; in that Memorial, the Naib Duan strongly remonstrates against allowing a Bramin to be called in to the Decision of any Matter of Inheritance, or other Dispute of Gentoos.—That since the Establishment of the Mahometan Dominion in Hindostan, the Bramins had never been admitted

to any such Jurisdiction: That to order a Magistrate of the Faith to decide in Conjunction with a Bramin would be repugnant to the Rules of the Faith, and an Innovation peculiarly improper in a Country under the Dominion of a Musfulman Emperor: That where the Matter in Dispute can be decided by a Reference to Bramins, no Interruption had ever been given to that Mode of Decision; but that, where they think fit to refort to the established Judicatures of the Country, they must submit to a Decision according to the Rules and Principles of that Law, by which alone these Courts are authorized to judge: That there would be the greatest Absurdity in such an Association of Judicature, because the Bramin would determine according to the Precepts and Usages of his Cast, and the Magistrates must decide according to those of the Mahometan Law: That in many Instances the Rules of the Gentoo and Musfulman Laws, even with respect to Inheritance and Succession, differ materially from each other.

Your Committee also find, That is feveral Letters from the different Chiefs to the President and Council, on the Subject of Arbitration, they state considerable Difficulties as occurring in any regular Establishment of that Mode of Decision, as well from the Resuctance of Parties to refer, and of Persons chosen Arbitrators to undertake the Office, as from the subsequent Delays that have been found in the Execution of it; and therefore concluding, that the Introduction of that Plan of Decision, in Cases proper for it, must be the gradual Work of Time, assisted by the Encouragement of the Company's Servants, and could not be brought into Practice by any

Establishment of Authority.

Your Committee find, by the last Dispatches from Bengal, That a Committee of Circuit was established last Year, consisting of the President and Four other Gentlemen of the Council, for the Purpose of making an exact Scrutiny into the State of the Revenues and Judicatures in the several Districts of the Province: That, in consequence of this Appointment, the Committee of Circuit have proposed a Plan for the Administration of Justice, which is inserted at Length in the Appendix to this Report, N° 2: Some of the most material Proposi-

rst, That in each District Two Courts of Justice should be established, One by the Name of Mosussul Dewannee Adawlat, or Provincial Court of Dewannee, for Civil Causes; the other for all Crimes and Misdemeanors, by the Name of Phousdarry Adawlat, or Court of Phousdarree; the only Civil Causes excepted from the Jurisdiction of the Dewannee Adawlat to be the Right of Succession to Zemindarrees and Talucdarrees, which are to be left to the Decision of the President and

Council.

adly, That in the Dewannee Court the Collector of each District shall preside, on the Part of the Company, in their Quality of King's Dewan, attended by the Provincial Dewan, appointed by the President and Council, and the other Officers of the Cutcherry;—that in the Phoustarry Court the Cazee and Mussiee of the District, and Two Maulavies, shall sit to expound the Law, and determine upon the Charge; but that the Collector shall attend to the Proceedings of this Court, to see that they are properly conducted, and the Decision sair and impartial, according to the Evidence; and that no Cause shall be heard and determined but in the open Court regularly assembled.

3dly, That in like Manner, Two superior Courts shall be established at the Chief Seat of Government, under the Denominations of the Dewannee Sudder Adawlat, and the Nizamur Sudder Adawlat; that the former shall receive Appeals from the Provincial Dewannee, of any Causes not exceeding 500 Rupees, the President with Two Members of the Council presiding therein, attended by the Duan of the Khalsa and other Officers of the Cutcherry; that the latter shall have Cognizance to revise all the Proceedings of the Phoni-

darry Courts; that a Chief Officer of Justice, appointed by the Nazim, shall preside in this Court, by the Title of Darogo Adawlat, assisted by the Chief Cazee, the Chief Mustice, and Three capable Moulavies, but under the Superintendance and Controul of the Company's Chief and Council.

4thly, That there be also Two Courts of Adawlat established at the Seat of Government, on the same Plan as those of the Districts; in the Dewannee Court a Member of the Council to preside, and in the Phousdarry another Member of the Council to superintend; these Duties being performed by the Members in Rotation.

5thly, That Causes, not exceeding Ten Rupees, be decided finally by the Head Farmer of the Pergunnals

to which the Parties belong.

6thly, That complete Records of all Causes shall be kept in the Dewannee Court, and Copies of them transmitted, Twice a Month, to the Supreme Civil Court, through the Channel of the President and Council.

7thly, That there shall be a Time fixed for the Limi-

tation of Suits and Complaints.

Upon this Point it is observed, that, both by the Mahometan and Hindoo Laws, and by the Usage of the Country, all Claims which have laid dormant for Twelve Years, whether Land or Money, are invalid.

Years, whether Land or Money, are invalid.
8thly, That the Custom of Chout, or any Commission on Money recovered, as well as all heavy arbitrary

Fines, be abolished.

9thly, That the Practice of Individuals exercifing Authority over their Debtors, be entirely abolished.

nothly, That in all Cases of Account, Debt, and the like, it shall be recommended to the Parties to submit their Cause to Arbitrators, whose Award shall be made a Decree of the Dewannee Court.

11thly, That complete Records shall be kept of the Phousdarry Court, and transmitted Twice every Month to the Supreme Criminal Court, through the Channel of the President and Council; but that the Proceedings in capital Trials are to be transmitted as soon as closed; that this Court shall have Power to punish by Fine or Imprisonment, or to inslict corporal, but not capital Punishment; that in capital Cases the Trial, with the Opinion of the Court, being transmitted to the Supreme Criminal Court, and having obtained their Consirmation, shall be ultimately referred to the Nazim for his Sentence.

Your Committee find, That these Regulations were approved of by the President and Council, at a Consultation at Fort William, 21st of August 1772.

Your Committee have now gone through all the Materials they are able to lay before the House, with respect to the ancient Constitution and present State of Judicature in Bengal; they proceed now to the Second Head of this Enquiry, The Judicatures existing at Calcutta: In treating of which, they will first lay before the House an Account of the Courts derived out of the Constitution of the Country, and, secondly, of those established by His Majesty's Charters of Justice.

Of the Courts established at Calcutta and its Dependencies.

Until the Charter of Justice granted to the Company, in the Thirteenth Year of his late Majesty, the only Courts of Justice that existed in Calcutta were derived out of the Constitution of the Country, and nearly similar

to those that have been explained above.

Soon after the Establishment of the Settlement at Calcutta, near the End of the last Century, the English Company obtained from the then Nabob, the Zemindary Rights of the District around that Settlement; by which they became the Zemindar of that District, with all the Rights incident to that Office, amongst which, as stated above, is the Criminal, Civil, and Religious Jurisdiction of the District.

Mr.

Mr. Gregory, after explaining to Your Committee the feveral Country Jurisdictions, added, That the Company exercises these several Jurisdictions within the District of Calcutta; and that he understood this was in consequence of their being the Zemindar of the

The Zemindarry Courts established in Calcutta arethe Fouldary, for the Trial of Crimes-the Court of Cutcherry, for Civil Causes-and the Collector's Court, for Matters of Revenue.

The original and proper Nature of these Courts has been stated above: Your Committee will now state such Circumstances as are peculiar to the Zemindarry Courts

at Calcutta.

The Criminal Court tries all Crimes committed by the Natives, and, in this Respect, has a concurrent Jurisdiction with the Court of Oyer and Terminer, established by the Charter of Justice; One Judge only sits in that Court, appointed by the Governor and Council.

Mr. Ruffell informed Your Committee, that formerly One of the Council was always appointed to this Office, but that fince the Increase of other Business in the Council, this Duty has been intrusted to Junior Servants, One of the Council being appointed Monthly to

fuperintend.

In capital Cases, Three Members of the Board sit as Judges in this Court, and before Execution of the Sentence the Proceedings must be laid before the Governor

The Civil Court consists of several Judges, also appointed by the Governor and Council, out of the Junior Servants, but feldom more than One actually fits: This Court has Jurisdiction of all Causes between Natives, and also (as Mr. Whittal informed Your Committee) in Causes between a Native and an European, where the latter is Plaintiff; but in this Case, the Native may remove the Cause into the Mayor's Court.

The Rule of Judgment in these Courts is supposed to be the Customs and Usage of the Country; and where no Custom or Usage applies, it is the Discretion of the Judge. Formerly the Chout (the Fourth Part of every thing recovered) was an allowed Perquifite in the Civil Court, but on a Representation to the President and

Council, it was abolished.

Appeal lies from the Civil Court to the Governor and Council.-The Custom of sending Causes to Arbitrators prevails in this Court, as in the other Districts of Bengal; and, as Mr. Whittal informed Your Committee, is

often done without the Consent of either Party.

Your Committee find, That in April 1771, a Dispute arose between Mr. Purling, Zemindar at Calcutta, and Mr. Rous, Supervisor at Rajeshaby, with respect to the Right of the Zemindar at Calcutta demanding Two Perfons, residing in the District of Rajeshaby, to be sent Prisoners to Calcutta, to answer to certain Suits there exhibited against them; the Supervisor refused to allow this Claim, infifting, that the Jurisdiction of the Zemindarry Court at Calcutta did not extend over any of the Dewannee Lands; and therefore desiring that the Plaintiffs should be directed to exhibit their Claim at the Cutcherry of the District: In Reply to this, the Zemindar of Calcutta infifted, that it had been customary for that Court to fend for Persons, in Cases of this kind, from every Diffrict of the Dewannee, and that it would be attended with the utmost Inconvenience to every Person residing at Calcutta, if the Exercise of this Jurisdiction should now be interrupted; the Consequence of which would be, the Necessity of going, and carrying Witnesses, to distant Parts of Bengal, in order to settle the Disputes necessarily occurring between them and their Gomastahs: That this Jurisdiction had never been contested by the Chiefs of Patna, Dacca, and Chittagong.

These Letters being laid before the Court of Revenue, they determined, that the Jurisdiction of the Zemindary Court of Calcutta might extend over all Per-

English Merchant, or of any Native residing at Calcutta; and that as the Persons in question appear to stand in that Predicament, they should be sent to Calcutta, to answer the Suit of their Principals.

In the Revenue Court, the Collector appointed by the Governor and Council fits as Judge; and Appeal lies from his Decisions to the Governor and Council; there are inferior Revenue Judges in the Pergunnahs, these are appointed by the Collector at Calcutta, and Appeal

lays from their Decifions to his Court.

These Jurisdictions being in themselves very defective, and moreover very inadequate to the advanced State of this Settlement, and fimilar Defects being found in other Settlements of the Company, Application was made to the Crown, in the 13th Year of the late King, for a Charter of Justice.

A Charter was accordingly granted, whereby Criminal and Civil Courts of different Kinds were established at Calcutta, and likewise at the Settlements of Madraspatnam and Bombay; but this Charter being found defective in fome Respects, Application was again made to the Crown, on the Part of the Company, for a new Charter of Justice for these Settlements, to be granted on the Surrender of the former Charter.

A new Charter was therefore granted to the Company, dated 8th January 1753, the 26th Year of his late

Majesty.

This Charter, which recites its being granted by virtue of Powers vested in the Crown by several Acts of Parliament, grants and ordains, " That there should " be for ever thereafter, within the Factory of Fort " William in Bengal, One Body Politic and Corporate, " by the Name of the Mayor and Aldermen of Calcutta " at Fort William in Bengal; to confift of a Mayor and " Nine Aldermen, the Mayor and Seven of the Alder-" men being natural-born Subjects, but the other Two " allowed to be Foreign Protestants: And it is further granted, that the Mayor and Aldermen should for ever thereafter be, and are thereby constituted, a " Court of Record, by the Name of the Mayor's Court " at Calcutta at Fort William in Bengal, and that they " or any Three of them (the Mayor or Senior Alder-" man then refiding there to be One) may, and they are "hereby authorized, to try, hear, and determine, all Civil Suits, Actions, or Plaints, between Party and " Party, arifing within the faid Town or Factory of " Calcutta, or any of the Factories subordinate there-" unto; except fuch Suits as shall be between Indian " Natives, which shall be determined among themselves, unless both Parties consent to the Determination of " the Mayor's Court : And this Court is also authorized to try Suits brought against the Company, or by the Company against any Person.

" This Charter also constitutes the President and " Council to be a Court of Record, in order to receive, " try, and determine, Appeals from the Judgments or " Decrees of the Mayor's Court : The Determinations " of this Court to be final, if the Value exceed not 1000 " Pagodas; but if it exceeds that Sum, the Parties are " allowed, within Fourteen Days after such Decree or " Judgment is entered of Record, to appeal to His Ma-

jesty, his Heirs or Successors, in Council.

" It further gives Authority to the President and " Council, or the major Part of them, upon reasonable " Cause, to remove any of the said Aldermen, so as there be a Complaint in Writing first exhibited against him, " and reasonable Time allowed for his Defence, after " being furnmoned for that Purpose; with Power to any " Person, thinking himself aggrieved by such Removal,

" to appeal to His Majesty in Council.

" The faid Charter alio establishes a Court for the " Recovery of small Debts, within the faid Town or " Factory of Calcutta, and the Factories and Districts " fubordinate thereto, to be called the Court of Re-" quest: This Court to confift of some of the principal fons, as Agents or Gomastahs, in the Service of any " Inhabitants (not more than Twenty-four, nor fewer

"than Eight) to be appointed by the Prefident and Council, and to determine all Suits brought before them, not exceeding the Value of Five Pagodas.

"And the faid Charter further grants and ordains the Governor and Council to be Justices of the Peace, and have Power to act as such, and to hold Quarter Sessions of the Peace, and also to be Commissioners

" of Over and Terminer, and General Gaol Delivery,

" for trying and punishing all Offences (High Treason

"only excepted) committed within the said Town or "Factory, or its subordinate Factories; to proceed by Indictment, or such other Way as is used in that Part of Great Britain called England, as near as the "Circumstances of the Place and Inhabitants will

allow.

"The faid Charter further grants, That the faid "Mayor's Court shall have Power to grant Probate of

" Wills and Letters of Administration."

Your Committee also examined some of the Witnesses, with relation to the Proceedings of these Courts.

Mr. Whittall (who refided at Calcutta from 1764 to 1770, as a Free Merchant, and also as an Attorney in the Mayor's Court, from which last he was dismissed by an Order of the Court, which was afterwards made a Marter of Complaint to the Court of Directors) informed Your Committee, That although this Court cannot legally iffue Process beyond the Bounds of Calcutta, or its subordinate Factories, yet that he had known their Process issued to and executed in all Parts of Bengal, under special Order of the Governor and Council, granted or refused at their Discretion, and that in all these Cases the Process was fent to One of the Company's Servants; that he understood the Criminal Jurisdiction of the Seffions to have the fame Extent as the Mayor's Court, and that he had known Natives fent from every Part of the Country to be tried in that Court; and apprehends an European might be brought in the same Manner from any Part of the Country, except from the

Factories belonging to other European Nations.

He said he had known frequent Instances of the Mayor's Court resusing to admit an Appeal against its Proceedings, on Pretence of their being interlocutory only, and not final: He mentioned Three Cases of his own Knowledge (One in 1768, between the Trustees of Mrs. Philaaclphia Gallopine and the Executors of Peter Gallopine; and Two Causes of John Holme, Esquire, in 1769) in which the Mayor's Court resused to admit an Appeal, and the Superior Court resused to take Cognizance of it on that Pretence, though in fact, as he informed Your Committee, the Orders made were a De-

termination of the Caufe.

He faid he had known Attorneys reprimanded in the Mayor's Court for appealing against its Proceedingst That the Attorneys are limited to Four; that the Judges are not Persons educated to the Law, but any of the

Junior Servants.

That he has known the Mayor's Court refuse to take Cognizance of Causes arising within their Jurisdiction, insisting that they had a Right to refuse them—That in 1768 he had heard it frequently declared by some of the Judges on the Bench, That the Mayor's Court had nothing to do with the Laws of England, and that the Mayor would not sit there to hear the Law of England named; or to that Purport or Effect—That he had often known an Attorney of the Mayor's Court threatened by the Governor, and by several of the Aldermen, for attempting to bring an Action against one of the Company's Servants; and that any Servant of the Company, against whom an Action is intended, often intimidates the Attorney by Threat of applying to the Governor.

Mr. Russell, who also resided several Years in Bengal, ofer ved to Your Committee, That though the Mayor's Court cannot exercise Jurisdiction over Natives, unless by Consent, the Jurisdiction of Oyer and Terminer extends to Natives as well as Europeans.

Mr. Becker confidered this Jurisdiction, with respect to Natives, as extending to such only as lived under the British Flag; and informed Your Committee, that where Sentence was pronounced against Natives, the Practice was to apply for the Consent of the Government before it was executed.

Your Committee having examined Mr. Nuthall, Solicitor of the Company, Whether there had been any Instances, during his Time, of Complaints to the Court of Directors against the Mayor's Court, or any Member of it, for any criminal Misconduct in their judicial Function? he informed Your Committee, That he knew but Two Instances in his Time of any such Complaints laid in Form before the Court of Directors—The one by Mr. Whittall, an Attorney, the other by Mr. Jephson; that the latter not only complained of the Conduct of the Mayor's Court, but of Mr. Cornelius Goodwin, the Mayor, acting in his judicial Capacity as a Judge of that Court.

Your Committee have enquired into the Nature of these Complaints, and find, from the Papers relating to them, laid before the Committee by the Company's Servants, and annexed in the Appendix to this Report, No 1, That the Complaint brought by Mr. Alexander Jephson (whose Petition to the Court of Directors is dated at London, 2d March 1771) contains a Charge against the Mayor's Court, for an illegal and oppreffive Abuse of its Process, to detain the Petitioner and his Wife in Bengal, after they had obtained Leave for their Return to England; and particularly charging, that Mr. Cornelius Goodwin, the Mayor, in the Course of the Proceedings, frequently declared, "That they had nothing to do with ". the Laws of England there; that the Laws of England were never made for them, and that he would not " hear them named while he fat on that Bench." It appears that Mr. Jephson would have appealed against the Proceedings of the Mayor's Court, to the President and Council, but that his Appeal was denied, on Ac-And Your Committee find, That in confequence of this Complaint the Court of Directors (after having taken the Opinions of feveral eminent Counfel) in their general Letter to Bengal, dated the 3d of May 1771, expreffed in the strongest Terms their Disapprobation of and Displeasure at, the Proceedings against Mr. Jephson; also particularly reproving the President and Council for refuling his Appeal, as well as for the erroneous Pretence assigned for that Refusal; enjoining them to receive the Appeal, and enquire strictly into all the Circumstances of his Complaint, and to cause full and ample Justice to be

Your Committee find, That at a Consultation held at Fort William, 3d January 1772, the President and Council enquired into the Charge made against Mr. Goodwin, by Mr. Jephson, to the Court of Directors; that they examined Messrs. Levet, Killican, and Cater, Three of the Aldermen of the Court, and who had been present at the Proceedings in which these Words were alleged to be spoken; also Mr. Morris, an Attorney of the Mayor's Court, who had been concerned in some of the Proceedings against Mr. Jephjon; that Mr. Gater faid, "That he had heard Mr. Goodwin on the Bench " make use of such Words, or Words to that Effect, " but could not charge his Memory with the Time: That the other Witnesses severally denied that they had at any Time heard Mr. Goodwin use such Words, but that they had heard him declare that the Mayor's Court was not a Court of Law, but of Equity; that Messis. Reed and Jekyl, who had been also upon the Bench as Aldermen during Part of the Proceedings, did by Letters (on Account of their Absence at Calcutta) to the President and Council give their Testimony in like Manier in Exculpation of Mr. Goodwin; and that upon this Evidence the Board resolved, " That they found no " Reason to consider Mr. Goodwin in any Degree culrate to account to the residence to an extensive pable;"

333

" pable;" and directed their Secretary to fignify this Resolution to him.

Your Committee find, That the Complaint, at the Instance of Mr. Wbittall, was laid before the Court of Directors on the 1st of March in the same Year 1771: That his Petition complained of having been dismissed from his Office as Attorney of that Court, by an arbitrary and illegal Proceeding of the Court, without any regular Complaint, without any fufficient Allegation, without Evidence upon Oath, and without having had fufficient Time to make his Defence: and also that the Order of Dismission, besides finding him guilty of Misconduct in a particular Cause depending before the Court, contained a general Charge of his having free quently merited the severe Reprehension of the Court, but without specifying any particular Facts.

Your Committee find, That the Court of Directors, (having taken the Opinion of their Counsel also upon this Case) in their General Letter to Bengal, 3d May 1771, expressed their Disapprobation of the general Charge contained in the Order against Mr. Whittall, without any Allegation of Facts to support it, as highly improper, and unbecoming a Court of Justice; and that they recommended it to the Governor and Council to admit Mr. Whittall's Appeal, and to act therein as Jus-

tice should require.

Your Committee do not find any Account by the last Dispatches of any other Proceedings on these Appeals, but that the President and Council had submitted to receive them, in obedience to the Orders of the Court of Directors.

Your Committee having concluded their State of the Colcutta Judicatures, beg Leave to submit to the Consideration of the House some very singular Circumstances in the Constitution of the Civil and Criminal Courts, which seem materially to affect their Independance and their Efficacy.

First, That although the Mayor's Court is intended not only to try Causes between Party and Party, and the Court of Oyer and Terminer and Gaol Delivery to punish the Crimes of private Individuals, but the former also to try Causes in which the Company itself is a Party, and the latter to punish the Offences of any of its principal Servants, yet the Judges of these Courts are removeable from those Offices, by virtue of which they exercise their judicial Functions, at the Pleasure of the Prefident and Council, and that fuch Sentence cannot be reviewed but by the tedious Mode of an Appeal to His Majesty in Council.

Your Committee submit, whether Courts thus constituted can be considered as free and independant Judicatures, in any Cafe where the Company is a Party, or where any Member of the Council is profecuted on a

criminal Charge.

VOL. IV.

2dly, That although these Courts, at least with respect to Europeans, are bound to judge according to the Laws of England, yet the Judges of these Courts are not required to be, and in fact have never been, Perfons educated in the Knowledge of those Laws by which they must decide; but that any Junior Servants of the Company are selected for these important Trusts, affecting the Property, the Liberty, and the Lives, of His Majesty's Subjects in Bengal.

It appears to Your Committee, That the Judges of these Courts are justly sensible of their own Deficiency of Knowledge in the Laws of England; and that therefore they, as well as the President and Council, have frequently applied to the Court of Directors, to lay particular Points, respecting their Jurisdiction, before Counsel, and to transmit the Opinions of such Counsel to be the Guide of their Conduct. Some Instances of this Kind have been laid before Your Committee, upon Doubts respecting their Ecclesiastical, and also their Criminal, Juridiction; particularly, whether the Charter allows them to take Cognizance of Murders, Robberies,

and other Crimes, committed by Europeans, not imme-

diately under the Company's Flag.

Mr. Ruffell informed Your Committee, That he believed there are One or Two Persons now in Confinement, upon the Charge of Offences committed beyond the Limits described in the Charter of Justice, whose Trial is prevented, from Doubts arising with respect to the Powers conveyed by the Charters.

3dly, That whatever Doubts have been entertained in Bengal, on this Subject, it is clear, by the very Terms of the Charter of Justice, that the Jurisdiction of the Court of Over and Terminer, and Gaol Delivery, is restrained to Offences committed within the Town or District of Calcutta, and its subordinate Factories: The Consequence of this, in the present Situation of Bengal, is, that there are many of His Majesty's Subjects, residing in Bengal, neither under the Protection or Controul of the Laws of England, nor amenable to the Criminal Judicatures of the Country.

Of the Provisions for Prosecutions in England.

Your Committee now proceed, in pursuance of their Plan, to state to the House such Provisions as have been made by Law for the Trial and Punishment in England of Offences committed by the Company's Servants in Bengal; to specify in what Instances these Provisions have been attempted to be carried into Execution, with the Refult of the Proceedings; and to submit to the Confideration of the House some Circumstances, which appear to Your Committee greatly to obstruct the Efficacy of any Remedy in England, as the Law on that

Subject is now constituted.

Your Committee find, That by an Act, passed in the 27th of George the 2d, intituled, " An Act for punish-" ing Mutiny and Defertion of Officers and Soldiers in " the Service of the United Company of Merchants of England trading to the East Indies, and for the Punishment of Offences committed in the East Indies, " or at the Island of Saint Helena," it is provided, " That if any of the Company's Prefidents or Council, " at any of their principal Settlements, or their Go-" vernor or Council at the Island of Saint Helena, shall, " after the 25th of March 1754, be guilty of oppressing any of His Majesty's Subjects within their respective Jurisdictions or Commands, or of any other Crime " or Offence contrary to the Laws of that Part of Great " Britain called England, or in force within their respective Jurisdictions or Commands; such Oppression, " Crimes, or Offences, may be enquired of, heard, and " determined, in His Majesty's Court of King's Bench, within that Part of Great Britain called England, or " before such Commissioners, and in such County of " that Part of Great Britain called England, as shall be " affigned by His Majesty's Commission, and by good and lawful Men of the same County; and that such " Punishments shall be inflicted on such Offenders as " are usually inflicted for Offences of the like Na-" ture, committed in that Part of Great Britain called " England."

And Your Committee find, That by an Act, passed in the 10th Year of His present Majesty, intituled, "An " Act for better regulating Persons employed in the " Service of the East India Company, and for other " Purpoies therein mentioned," it is Enacted, " That " if any Person employed in the Service of the Com-" pany, in any Civil or Military Station or Office, or " claiming any Power, Authority, or Jurisdiction, from " the faid Company, shall, after the patting of this Act, " be guilty of oppressing any of His Majesty's Sub-" jects, or in the Exercise of such Employment or Au-" thority shall be guilty of any other Crime or Offence, "fuch Oppressions, Crimes, and Offences, shall and may be enquired of, heard, and determined, in His " Majesty's Court of King's Bench in England; and

that fuch Punishments shall be inflicted on such Offenders as are usually inflicted for Offences of the like Nature, committed in that Part of Great Britain called England; and that all Offences against this Act may be alledged to be committed, and may be laid, enquired of, and tried, in the County of Middlefex."

Your Committee examined Mr. Nuthall (who has been Fifteen Years Solicitor to the Company) Whether, during his Time, there were any, and what, Instances of Profecutions ordered by the General Court, or by the Court of Directors, against any of their Servants, for Misconduct in India; and particularly whether there were any, and what, Inftances of Criminal Profecutions founded on the above-mentioned Clauses? He informed Your Committee, That he knew no Instance of any Criminal Prosecution brought or ordered upon either of the above-mentioned Clauses; and that he had known only Two Inftances of any Profecution ordered against any of the Company's Servants, on Account of Misconduct in India, by the General Court or Court of Directors.-That one of these was a Bill filed in Trinity Term 1766, by Order of the Court of Directors, upon the Opinion of the Attorney General and Company's Council, against Messirs. Johnson, Leycester, Burdett Senior, and Gray, for an Account and Payment to the Company of divers large Sums of Money, Jewels, and other valuable Things, obtained from the Nabob and his Ministers under the Denomination of Prefents, in breach of their Covenants with the Company; that after the Defendant, Johnson, had obtained feveral Orders for Time to answer, and before any of the Defendants had put in their Answers, the General Court, on 6th May 1767, Resolved, "That the " various Profecutions commenced by Order of the Court of Directors, in the Name of the India Com-" pany, against their former Servants in Bengal, and " also all Attachments ordered against the Effects of " fuch Servants, on Account of Presents received before " figning the Covenants on the 9th of May 1765, be " discharged."

That the other Cafe was an Information in the Exchequer, at the Suit of the Attorney General, on Relation of the Company, against Mr. Bolts (who had been a Servant of the Company at Bengal, and after his Refignation continued an Alderman of the Mayor's Court) for a Discovery and Account of illicit Trade carried on by him in the East. Indies, after he had refigned the Company's Service, and of the Gains made thereby, and that he might be decreed to pay to the Company after the Rate of 30 per Cent. according to the Statute of 7th of George the 1st : That the Defendant put in a Plea and Demurrer to the Information, inlifting, that he was an Alien by Birth, and having never been naturalized was not compellable by Law to make any Answer to the Information; that this Plea and Demurrer were argued before the Court in Trinity Term 1772; that the Court over-ruled the Plea and Demurrer, and ordered the Defendant to answer the Information; that the Defendant has appealed to the House of Lords, and that his Appeal was still there

Your Committee further asked Mr. Nuthall, Whether there were any, and what, Suits or Profecutions ordered by the Court of Directors against any of their Servants in India, not yet commenced? Mr. Nuthall informed Your Committee, That in February last he received Orders from the Court of Directors to profecute Lord Clive, and a great Number of Gentlemen, who had been in the Company's Service in India, to recover very considerable Sums claimed to be due from them to the Company, on Account of the Duties on Salt, Beetle Nur, and Tobacco, and which it was the Opinion of their Counsel were recoverable:—To proceed against Lord Clive to recover a Demand of 15 per Cent. on the Net Duannee Revenues of Bengal, which his Lordship received by way of Commission, as Pre-

fident of Fort William, for several Months after he had quitted that Presidency; and also against Mr. Verelst, in respect of the Commission of the said Revenues received by him when he was Prefident at Fort William ; and to profecute several other Persons, who had been in the Company's Service, on whom the Company were advised they had Demands on Account of the Mhatoote Tax in Bengal-That Three Bills in Equity, of great Length and Nicety, have been prepared against a great Number of Defendants, respecting the Trade and Duties on Salt; and against Lord Clive and Mr. Vereist separately, to recover the Company's Demands respecting the Commission on the Revenues; that these Bills have been perused and signed by the Company's Counfel; and that fair Copies were immediately to be laid before Mr. Attorney General, for his Approbation, before they are filed: -That a Bill is likewife now before the Company's Counsel, against a great Number of Persons, for Recovery of several large Sums of Money received by them under Colour of the Mhatoote Tax, and that thefe will be filed with all possible Expedition, as soon as it has been approved of by the Company's Counfel and Mr. Attorney General, before whom that Bill is also directed to be laid.

Your Committee examined several of the Witnesses, who were best acquainted with Bengal, Whether it was possible to bring Natives from that Country to England, to give their Testimony in any Prosecution or Suit to . be commenced here for Matters done or arifing in Bengal; and were informed, by all the Witnesses who spoke to this Point, that though they knew no Obstruction to the bringing over Mahometan Witnesses, but the Length and Expence of the Voyage, they confidered it as absolutely impossible to bring over any Witness of the Gentoo Religion; it being one of the established Principles of that Religion, that Water is facred, and that to defile that Element (which according to their Notion is done by many unavoidable Acts) is a Profanation, for which any Person so offending would forfeit his Cast; that if any Gentoo could be prevailed on to cross the Sea, in order to come to England, they must necessarily be Persons destitute of those Principles, which they are taught by their Profession to revere, and therefore unworthy to receive Credit as

Your Committee must also observe, that in many Cases, which might be proper Subjects of Prosecution in this Country, the Testimony of British Subjects, or other Europeans residing in Bengal, may be necessary, and that the Difficulty and Expence of bringing over these, or any Witnesses, seems an almost insurmountable Obstruction to the Use and Essistant of the Statutes allowing Prosecutions in England for Ossences committed in India; and that the same Circumstance equally obstructs the Attainment of Justice by Civil Action of any Nature, for any Injury received or Demand arising in that Country.

Your Committee must further remark, that the Power exercised by the General Court, of putting a Stop to Prosecutions ordered by the Court of Directors, may tend greatly to defeat the Efficacy of the Statutes; as the Person charged, especially where he is, or has been, in any considerable Station in the Company's Service, may have it in his Power, by the Management of his Friends, to contrive, at some time or other, by a Majority of a General Court, to put a Stop to the intended or depending Prosecution.

Your Committee have now submitted to the House all the Materials they have been able to collect upon the Subject of the present State of Judicature in Bengal: But as, in the Course of that Enquiry, they were led into some Questions relative to the Rate of Interest allowed in the Courts of that Country, they will conclude this Report by stating to the House the Information they received upon this Subject.

8

on the State of the East India Company.

Mr. Becher informed Your Committee, That in Cases of Mercantile Debts, the Courts fometimes allowed Interest; and that he believed the Rate allowed in such Cases was One per Cent. per Mensem, which he said he confidered as the current Interest of the Country in Mercantile Transactions, amongst Men of Probity and Reputation: That he has often heard of voluntary. Agreements for a much higher Rate of Interest, even to 3 per Cent. per Mensem, where the Occasion has been urgent, and the Loan for a short Time, and attended with Risk.

Mr. Manningham faid, He could not afcertain the Rate of Interest which a Court in that Country would allow, but that they would not allow an exorbitant Interest: That the usual Interest given by the Company, when he was in Bengal, was 9 per Cent. per Annum; by Europeans, in Accounts with each other, 10 per Cent. per Annum; and by the Natives, he believes, 12 per Cent. per Annum; and that he imagines the Cutcherry did not allow beyond that Rate. - Being asked, What Rate of Interest he had known to be taken in the Country? he faid, That it was usual for the Seats, and other Shroffs (Bankers) at Moorshedabad, to furnish the Zemindars, when pressed for Money to pay their Rents to Government, at the Rate of 3 per Cent. per Mensem.

Your Committee must observe, That, according to these Accounts, 3 per Cent. per Mensem is a Rate of Interest never given, but in Cases of great Emergency: And, nevertheless, that in the 18th Proposition of the proposed Regulations, lately transmitted from Bengal to the Court of Directors (and annexed in the Appendix) after stating, "That the Rates of Interest hitherto "authorized by Custom having amounted to the most "exorbitant Usury, the following Rates are now established to be received and paid, as well for past " Debts as on future Loans of Money; viz. On Sums " not exceeding 100 Rupees Principal, an Interest of " 3 Rupees 2 Annas per Cent. per Mensem, or Half an " Anna in the Rupee: On Sums above 100 Rupees Prin-" cipal, an Interest of 2 Rupees per Cent. per Mensem: "The Principal and Interest to be discharged according to the Condition of the Bond; and all compound "Interest, arising from an intermediate Adjustment of Accounts, to be deemed unlawful and prohibited: When a Debt is fued for upon a Bond, which shall " be formed to specify a higher Interest than the established Rates, the Interest shall be wholly for-" feited to the Debtor, and the Principal only reco-

" verable: And that all Attempts to elude this Law, by " Deductions from the original Loan, under whatever " Denomination, shall be punished by a Forseiture of

" One Moiety of the Amount of the Bond to the Go-" vernment, and the other Half to the Debtor."

But Your Committee are inclined to think, that the faid Regulations point at fuch Extortions as particularly appear in the Moorshedabad Consultations of the 18th of February 1772 (of which fome Account was given in a former Report of Your Committee) containing Evidence given by fundry Gentoos on Oath, relative to Interest of Money, in the Province of Rungpore, in Bengal; from whence Your Committee collect, that though the Family of the Seats, and others, have taken, for Money lent by them, Interest to the Amount of 3 per Cent. or perhaps in some Cases 3 and 1 per Cent. per Mensem, Obligations to pay 5 per Cent. per Mensem have been there exacted, and the Borrower compelled to agree to pay the same, because those who have been accustomed to lend at a lower Rate, now refuled to supply them with Money; alledging, That if they attempted to recover their Loans from the Zemindars, fuch Attempt would be frustrated by the Power of the Person lending at 5 per Cent.

And from the same Evidence, Your Committee find, That even after an Agreement to pay 5 per Cent. the Debtors have been actually obliged to pay 14 per Cent.; and as these Extortions have probably not been confined to the Province of Rungpore, Your Committee think it the more likely these Regulations, just stated, to have been made with a View to repress the same, as evidently inconfiftent with the Prosperity of the Country, and highly detrimental to the Revenue received by the

Company.

Your Committee have thus reported all they have found material in the Books and Correspondence of the Company, or in any Evidence laid before them, concerning the Judicatures of Bengal. - They have made a confiderable Progress in their Report concerning the Conduct of the Company's Servants in India, in drawing the Bills which were accepted between the 1st Day of March 1771 and the 1st Day of March 1772, and concerning the Conduct of the Company in England after the Receipt of them - And Your Committee will report, with as much Expedition as possible, what they find material with respect to this and the other Objects of their Enquiry.

APPENDIX.

N° 1.

To the Honourable the Court of Directors for the Affairs of the Honourable the United Company of Merchants of England trading to the East Indies.

The Petition of Richard Whittall, of Bengal, now in England,

Humbly sheweth,

THAT Your Petitioner having obtained Permission from this Honourable Company to go out to India as a Free Merchant, some time in April 1764, sailed for Bengal, in order to reside at Calcutta; but that, soon after his Arrival, the President and Council there having restricted Free Merchants from trading in the Country; and Your Petitioner being one of the Attornies of His Majesty's Court of King's Bench, petitioned the Honourable the Mayor's Court at Calcutta aforesaid, to be admitted to practise in that Court; and was accordingly duly admitted and sworn one of the Attornies thereof, agreeable to the Practice of the said Court, as by a Copy of his Admittance, ready to be produced, will appear; where he, by his Diligence and Behaviour, acquired great Reputation, and by his Practice procured a genteel Income.

That Your Petitioner is informed, that the Mayor's Court at Calcutta aforefaid is, by His Majesty's Charter, appointed a Court of Record for hearing and determining all Civil Suits, Actions, and Pleas, with Power to appoint Officers and Ministers; and the Court is enjoined to adhere strictly to the Laws of England in all such Matters as should come before them for their Determination; which Charter, after specifying the Authority to the said Mayor's Court to appoint Clerks and Officers, &c. and to do all such other things as may be found necessary to the Administration of Justice, pro-

- ceeds in the following Manner: "So they from Time "to Time give an Account thereof unto the faid Company, and so as the same shall be subject to the Approbation, Controll, and Alteration of the faid Comprobation,
- " pany, under the Hands of Thirteen, or more, of the Court of Directors of the faid Company; whom we do likewise will and ordain to have full Power and
- " Authority to make such Rules and Orders, for the better Administration of Justice, as they from Time
- " to Time shall think fit and necessary; but such Rules and Orders, so to be made by the said Mayor's Court,
- " so far as the same shall not be repugnant to any Rules

" or Orders made by the faid Company, or their Court of Directors as aforesaid, shall nevertheless be in force until the same shall be revoked or altered by the said Court of Directors, or any Thirteen or more of them,

" and Notice thereof given to the faid Court."

That about June 1767 your Petitioner was employed by Patrick M'Taggart, of Calcutta, Merchant, as his Attorney, to recover in the Mayor's Court the Sum of 2075 Arcot Rupees, which was due to him upon a Bond from Mary Morgan, an Inhabitant of Calcutta; and your Petitioner, at the Request of the Plaintiff, exhibited and filed a Bill of Complaint in the Mayor's Court there, in the usual Form, on the 26th of June in that Year, against the said Mary Morgan; who being summoned, employed Thomas Morris, of Calcutta aforefaid, as her Attorney in that Suit; and on the 18th of August your Petitioner, by Direction of his Client, took out a Warrant to hold the Defendant to Bail, on the usual Affidavit being made by the Plaintiff; which Warrant, on or about the 21st Day of August, was returned, executed by Simeon Droz, Esquire, then Sheriff; who did of his own Accord, and without any Authority from the Mayor's Court, or Notice or Bail given to the faid Court, or to your Petitioner or his Client, voluntarily release the faid Mary Morgan out of his Custody, contrary to the Usages and Cuttoms in fuch Case generally observed; of which your Petitioner informed the Court, and folicited another Warrant, in order to avoid Litigation with the Sheriff; which Motion the faid Court rejected, as will appear by the Record, deeming the Sheriff liable to pay the Debt; and thereupon the Plaintiff made Application to the Sheriff, and informed your Petitioner that the Sheriff was ready, on having a proper Receipt, to difcharge the same : And moreover, on the 21st of March 1768, the following Letter was received by your Petitioner from the faid Sheriff:

"SIR,

"Please to acquaint me what are the Particulars of Mr. M'Taggart's Demand on Mrs. Morgan, and how much the Whole amounts to.

"I am, Sir,
"Monday, "Your most obedient,
"21st March 1768." "S. Droz."

" To Mr. Whittall."

That a short Time after, your Petitioner and his Client accidentally met with Mr. Droz at the Council House at Calcutta, who began speaking upon the Subject; when your Petitioner civilly acquainted the Sheriff, that he having, without Authority or Notice given, of his own Accord discharged the Defendant out of Custody, your Petitioner apprehended he was become liable to the Debt; on which he answered, he would pay it on a proper Receipt being given to him by Mr. M Taggart; and that he had taken, or would take, from the Defendant a Mortgage of a Garden to indemnify himself; which Mortgage, it fince appears, was actually prepared by Mrs. Morgan's Attorney, Mr. Morris; and in consequence of this Conversation, the Plaintiff requested your Petitioner to draw up a Receipt, which he accordingly did, as follows:

" Calcutta, 4th June 1768. " Received of Simeon Droz, Esquire, the Sum of "Two thousand and Seventy-five Arcot Rupees, " being the Principal Sum due unto me on a cer-" tain Bond executed by Mary Morgan; and also " the Sum of Two hundred and Eighty-fix Arcot " Rupees and five Annas, being Sixteen Months " and Thirteen Days Interest on the faid Bond, at the Rate of Ten per Centum per Annum, for which " a Suit is depending in the honourable the May-" or's Court, where the faid original Bond is filed; " and I do hereby promise to deliver up the faid " Bond uncancelled unto the faid Simeon Droz, " upon his paying me the Costs of Suit in the said " Cause: As Witness my Hand; and I do hereby " further promise to withdraw the Suit on Tuesday

" Path M. Taggart.

And this Receipt was figned by the Plaintiff Me Taggart, and the Sheriff some time afterwards paid the Money; since which no Instructions were received by your Petitioner from his Client, nor was any Motion made relative to the said Suit; neither was your Petitioner acquainted, till a considerable Time after, that his said Client had received the Sum above specified; nor are the Costs of Suit to this Day paid to your Petitioner, or to his Client, as far as he knows or believes.

That at the Opening of the Court on the 4th of August 1769, Mr. May, the Register, read a Report of the Examiner to the Court, "That Two Witnesses had been examined in the Cause MeTaggart against Morgan:" (A Circumstance which indeed happened prior to the Date of the Receipt herein above recited, and they were examined by an Order of Court, by reason of their being about to leave Calcutta) Whereupon your Petitioner, as Attorney for the Plaintiss, naturally acquainted the Court, "That the said Cause was ended: That he had no Instructions to proceed, the Sheriss having, without any Authority, released the Desendant out of Custody when confined for Desault of Bail upon a Warrant, and had actually paid, or agreed to pay, the Debt for the Desendant, as your Petitioner presumed the Law in such Case obliged him to do."

Whereupon Mr. Morris, the Defendant's Attorney, informed the Court, "That your Petitioner had de"ceived and imposed upon Mr. Droz, and had fraudu"lently and falsely obtained the Payment of the Sum
"sued for by Mr. M. Taggart from Mr. Droz, by falsely
"acquainting Mr. Droz, that the Suit commenced by
"Mr. M. Taggart against the said Mary Morgan was
decreed by the Court, and that Mr. Droz was obliged to pay the Amount thereof; and that by such De"ceit used by your Petitioner only, Mr. Droz was induced to pay the same; and that the original Receipt
was wrote as he believed, in the proper Hand-writing of your Petitioner, and signed by the Complainant: All which he would prove to be true: "Or
Words to the like Effect: Which were thereupon immeVol. IV.

diately taken down by the Register, and read over to the Court: And although your Petitioner denied the same, or any Part thereof, to be true, except that he drew up a Receipt in Behalf of the Plaintiff Mr. MeTaggart, and acknowledged the Conversation which passed between him and the Sheriff, when he told him, in the Council House, that he apprehended he was become liable to the Debt, as herein above recited; notwithstanding all this, the said Mayor's Court, without further Debate, after privately consulting one another when sitting upon the Bench, dismissed your Petitioner from acting or practising any longer as an Attorney of their said Court.

A Copy of the Order of your Petitioner's Dismission, as the same stands upon Record, is in the following Words:

" Calcutta, Friday the 4th Day of August, in the "Year of our Lord One thousand Seven hundred and Sixty-nine.

" At a Court held;
" PRESENT,

" David Killican, Esquire, Mayor,

"Messieurs { Matthew Miller, James Lawrell, John Bathoe, } Aldermen.

" Patrick M'Taggart] " The Register reported, that " against " John Morgan and Sebastian " Cordeiros, Witnesses for the " Complainant, are examined " by Mr. John Holme, the late

" Examiner of this Court.

" Mr. Richard Whittall, the Complainant's Attorney, acquainted the Court, that this Cause was ended. " Mr. Morris, Attorney for the Defendant, informed the Court, that this Cause was yet pending, and had ne-" ver been withdrawn, which would appear by a Copy " of a Receipt exhibited in this Cause (the Original pray-" ed for, and admitted to be produced and proved at " Hearing of this Cause) That the Complainant had, " by Deception used, received from Simeon Droz, Esquire, the Principal and Interest of a Bond of the Defendant, fued for by the Complainant in this Caufe; and that was without the Knowledge and Confent of the Defendant or her Attorney at Law. Mr. Morris fur-" ther informed the Court, That the faid original Receipt is wrote, as he believes, in the proper Handwriting of the Complainant's Attorney at Law, and figned by Complainant himself. The Complainant's Attorney, the faid Richard Whittall, acknowledging " the same to be an exact Copy of the Receipt drawn " up in his own Hand-writing, and figned by his Clienr, whereby he engages to Mr. Droz to withdraw " this Suit on the enfuing Court Day; which the faid " Attorney Mr. Richard Whittall not only wilfully neg-" lected to do at the next Sitting of the Court, but has " fuffered the Suit to remain depending in Court to this " Day. The Court, on due Confideration of this Mat-" ter are unanimously of Opinion, That the said Richard "Whittall's Method of obtaining the Sum of the faid Simeon Droz was an irregular Proceeding, as no " Decree having then paffed in Court in favour of his " Client's Demand; that his neglecting to inform the " Court of his having received the faid Sum of the " faid Simeon Droz, and also neglecting to defire the faid " Suit then depending to be withdrawn, agreeable to his " Client's Obligation to the faid Simeon Droz on Receipt of faid Sum, is a manifest Abuse of his Duty as an "Attorney of this Court, an unjustifiable Procedure " with the faid Simeon Droz, and an Infult to the Au-" thority of this Court; and as the faid Richard Whittall " has, in the Course of his Transactions of the Business " of his Office, frequently merited and received the fe-

"vere Reprehensions of this Court, and as it is too evident that their Admonitions have had no Weight in
bringing him to a proper Sense of his Duty in the

" Discharge of his Office of Attorney of this Court.

"The Court are now of Opinion, that he no longer deferves their Indulgence, and do accordingly difmiss him from acting any longer as an Attorney of this "Court."

" August 14th 1769.

" A true Copy.
" J. May, Register."

That before the Court adjourned, your Petitioner applied to the Court, and to their Register, for Copies of all the Minutes and Proceedings against him, herein above recited, which however both the Court and Regifter thought fit to refuse. And on the 22d of August your Petitioner did, by his Attorney, Mr. George Sparks, present a Petition to the Mayor's Court, praying for Copies of the above-faid Minutes and Proceedings, to be properly authenticated under the Seal of the Court: But the Court would only grant Copies of the Order of Difmission, signed by the Register, and would not suffer the same to be authenticated under the Seal of the Court; absolutely refusing to grant Copies of the Minutes mentioned in the faid Petition, on which he had been actually difmissed: So that no Part of such Minutes appear on Record. Your Petitioner, a little time after, telling the Register, that at some future Period he would be called upon to produce the faid Minutes, was answered by the Register, " That they were not in being."

In consequence of the above-mentioned Proceedings, and the bad State of Health your Petitioner was then in, he applied to the Governor and Council at Calcutta for Leave to return to England, and embarked on board the Anson, one of the Ships employed in the Service of the said honourable the United Company; and being arrived in England, hopes to obtain that Satisfaction, which his Case requires, from this honourable Court.

Your Petitioner therefore hopes, from the Justice of his Case alone, that this honourable Court will afford him an Opportunity of laying before them the Proofs of what your Petitioner hath herein set forth; and that this honourable Court will be pleased to reverse the said Order of Dismission, and reinstate your Petitioner in his Office of one of the Attornies of the honourable the Mayor's Court at Calcutta; for the sollowing

REASONS.

First, Because your Petitioner, having been duly admitted and sworn an Attorney of the Mayor's Court at Calcutta, he presumes he had a Freehold in his Place, and consequently could not be legally dismissed, without a proper and sufficient Complaint of some Misbehavjour in him, verified upon Oath, with a proper and sufficient Time allowed him for making his Desence; which was not observed; but the said Court proceeded to dismiss him, without any Charge properly exhibited against him, or verified by Oath; without any Time allowed him for making his Desence; without any Proof whatsoever; and without any sufficient Cause alledged.

Secondly, Because the Reasons given in the Order of Dismission, if true, (which, on the contrary, your Petitioner does not admit) contain no legal Cause of Removal or Dismission of your Petitioner; for it appears only, that your Petitioner acted as his Duty to his Client required; and if any Deception was used to the said Mr. Droz, the Order states, that that Deception was not used by your Petitioner, but by his Client, the Complainant in the said Cause; which Charge against the Complainant your Petitioner by no Means admits. But insists, as the Truth is, that no Deception whatever was used by your Petitioner or his Client to the said Mr. Droz; and as to the Charge in the said Order against your Petitioner, for not informing the

Court, that the faid Complainant had received the faid Sum of Money of Mr. Droz, your Petitioner doth aver, That he was not, directly or indirectly, authorized by his Client to withdraw the Suit; nor were the Costs of Suit paid either by his Client or the Sheriff; and no Expences whatever accrued to either Plaintiff or Defendant, nor to the said Simeon Droz; and no Person; whatever was prejudiced on that Account.

Thirdly, For that in the said Order of Dismission, the Causes for which he is therein said to have merited and received the severe Reprehensions of the said Court are not assigned, and which your Petitioner humbly insists ought to have been done, in order to enable the said Company to form a competent Judgment thereof; and that the Silence of the said Order, in this Respect, carries with it this plain Inference, either that no such Causes ever existed, or that the same were so trivial or groundless as not to bear Examination.

And your Petitioner shall ever pray, &c.

London,
1st March 1771.

Richard Whittall.

To the honourable the Court of Directors of the United Company of Merchants of England trading to the East Indies.

The Memorial of Alexander Jephson, late of Bengal, Merchant, but now of London,

Sheweth,

That your Memorialist, in the Year 1762, went to Bengal under Free Merchants Covenants, by your Permission granted in that Year; and during his Residence there, and in the Year 1766, he married Mrs. Gallopine, Widow and Executrix of the late Peter Gallopine, of Calcutta, whose Estate your Memorialist found in great Confusion, and large Demands against it; and your Memorialist examined and perused his Books of Accounts with as much Care and Artention as they would admit of, they having been very irregularly kept, and no Balance of his Cash Book having been struck for some Years.

That it appeared to your Memorialist, on such Examination, that it was impossible any Judgment could be formed of his Affairs by the State of the Books at the Time of his Death; although it was cruelly reported that Mr. Gallopine had died worth Money, which Report has been of great Detriment to the Creditors of the Estate, as well as to your Memorialist; for upon making up the Accounts of the said Estate, your Memorialist found the same greatly insolvent, to the Amount of near a Lack of Rupees; and in consequence of there not being sufficient Assets to satisfy all the Creditors on the Estate, your Memorialist, and his Wife as Executrix, had several Suits commenced against them in the Mayor's Court at Calcutta.

That in the Year 1767 your Memorialist and his Wife intended to come to England, and had engaged their Passage, but were prevented by the Mayor's Court, who called upon your Memorialist to give Security, on leaving the Country, for the Amount of all the Debts and Demands on Mr. Gallopine's Estate; alledging, that as the Executrix-had paid feveral Debts in full, she ought to pay the Remainder, or make an equal Dividend of the Estate, and that so much as was overpaid of what the Dividend would have amounted to, must be paid out of her own separate Estate: To this your Memorialist answered, in Behalf of the Executrix, that fuch Debts as were paid were just Demands and not disputed, and were paid by her as they were demanded, before any Suits were commenced, and before it was known that the Estate was insolvent, and on a Supposition that there would be sufficient Assets to answer the whole Demands on the said Estate: Your Memorialist also acquainted the Court, that there was a large Sum of Money due to the Executrix on Account of her Marriage Settlement with Mr. Gallopine, which was her own pro-

per

per Money, and settled upon her before her Intermarriage with Mr. Gallopine, and vested in the Hands of Trustees, which Mr. Gallopine afterwards possessed himself of, by being Attorney for One of the Trustees, without the Knowledge or Consent of the Executrix, and thereby your Memorialist became the greatest Creditor: That, as all the Effeets had been accounted for, which came to the Hands of the Executrix and your Memorialist, their demanding such Securities from your Memorialist on an insolvent Estate was unjust and contrary to Law, and therefore your Memorialist refused to comply with giving such Securities: The Court then obliged your Memorialist to make an Affidavit in Court, that your Memorialist would stay another Year for the Satisfaction of the Creditors, which your Memorialist was compelled to comply with, or he would have been fent to Prifon; which Compulfion has been a great Expence and Lofs to your Memorialift.

The Court then promifed they would hear the Causes in the Course of the Twelve Months, and that your Memorialist should not be detained any longer on Account of these Affairs.

That your Memorialist gave public Notice for all Persons having Demands on the said Estate to make them on or before the 1st of September, that your Memorialist might not be prevented coming to England the next Year; and, as it appeared the Banyan, who had the Management of Mr. Gallopine's Affairs in his Lifetime, had not given in proper and clear Accounts, and had affored the Executrix that there would be sufficient Assets to pay all the Debts on the Estate, besides her own Money due by virtue of the Settlement, your Memorialist, fulpecting him guilty of some Fraud, caused a Bill to be filed against him for the Discovery of the Effects, and also to satisfy the Creditors, who still could not be persuaded that the Estate was insolvent, though your Memorialist filed his Account of the Estate in the Mayor's Court in October; and your Memorialist afterwards delivered in all the Books, Papers, and Accounts, belonging to the said Peter Gallopine's Estate, to the Register of the Mayor's Court, by Order of the Court, for the Inspection of the Creditors.

That the next Year, in February 1768, your Memorialist was preparing to come to England; when several of the Creditors, who then had Suits depending in the Mayor's Court, filed a new Bill against the Executrix and your Memorialist; and though they made the Debts amount to about 25,000 Rupees, they drew out an Account of what a Dividend would produce, and again demanded a Security from your Memorialist of

about 78,000 Rupees.

That your Memorialist had often attended the Court in the Course of the Twelve Months, and acquainted them that it was his firm Intention to leave Bengal that Seafon, and prefented feveral Petitions, requesting they would finish the Affairs, agreeable to their Affurances of last Year; also of his having taken a Passage on Board the Northington, Captain Sealy, who was to fail the latter End of February or Beginning of March, in order to bring them on to a Conclusion, as your Memorialist found he could be of no further Service to the Estate, and his own Affairs requiring his Presence in Europe, befides that his Health had been much impaired: And upon this Bill being filed on the 19th of February 1768, a few Days only before your Memorialist was to embark, the Court iffued out a Warrant, called a Ne exeat Regnum, which was in the Words following:

" By the honourable the Mayor's Court at Calcutta at Fort William in Bengal:

" To the Sheriff of Calcutta aforesaid, and the " District thereof, Greeting:

" Because we have received certain Intelligence that " Alexander Jephjon and Philadelphia his Wife, who is Vos. IV. " Widow and Executrix of Peter Gallopine, late of Calcutta aforesaid, Merchant, deceased, propose imme-" diarely to depart out of the Jurisdiction, or out of the Reach of the Process of this Court, towards Parts " beyond Seas, to the very great Damage of this Court, and of the Suitors of this Court; and this Court " being willing and defirous to prevent the fame, you are commanded by this Court, that without any De-" lay you make the faid Alexander Jephson and Philadelphia his Wife personally to come before you, and find sufficient Bail, under a certain Penalty, by you to be reasonably imposed, for which they will answer to " this Court, that they or either of them shall not presume or attempt to depart towards Parts beyond " Seas, or out of the Jurisdiction, or out of the Reach of the Process of this Court, without the special " Licence of this Court, in Contempt or to the Prejudice or Damage of this Court, or of the Suitors thereof; and if this they shall refuse to do before you, then do you immediately commit the faid Alexander Jephson and Philadelphia his Wife to the Prison " of Calcutta aforesaid, in the same to be kept in close " Custody, until they do this voluntarily; and when you " have so taken such Bail or Security, do you certify this Court thereof clearly and distinctly, under your Seal, at the same time returning this Writ to this " Court.—Given under the Hands and Seals of Corne-" lius Goodwin, Esquire, Mayor, and of Mr. David " Killican, one of the Aldermen of Calcutta aforefaid, " and under the Seal of the faid Court, this Nineteenth " Day of February, in the Year of our Lord 1768. (Signed)

" Cornelius Goodwin, Mayor. (L. S.) " David Killican, Alderman." (L. S.)

" (L. S.) John Home, Register,

" Take good Bail for Current Rupees Seventy-eight " thousand Six hundred Forty-four, and Four Annoes, " and One Pice."

This Proceeding your Memorialist looked upon as illegal, and would not comply with; in confequence of which your Memorialist was arrested by the Sherist; by virtue of the above Warrant, and committed to Prison, without being allowed Twenty-four Hours to procure

Your Memorialist immediately applied to the Governor and Council of Calcutta for Redress, as per the following Letter:

" To the honourable Harry Vereift, Esquire, President " and Governor, and the &c. Council of Fort Wil-

" Honourable Sir, and Sirs,

" I beg leave to inform you, that by virtue of an " illegal Warrant issued by the honourable the Mayor's Court, under the Hands and Seals of Cornelius Good-" win, Efquire, Mayor, and Mr. David Killican, one of " the Aldermen, I am this Day committed a close Pri-" foner to the Jail of this Town, which puts me under " the difagreeable Necessity of requiring your immedi-" are Protection, as an Inhabitant of this Settlement, "under the Protection of the honourable Company, as " a Free Merchant, and likewife as a Subject of the " King of Great Britain, that I may be properly re-" dreffed, and proceed to England in the Northington, " Captain Sealy, agreeable to the Permission you have " been pleased to give me.

> " I am, with the greatest Respect, " Honourable Sir, and Sirs, "Your most obedient Servant,

" In the Jail of Calcutta, " 23d February 1768.

(Signed) " Alexander Jephson."

But they informed your Memorialist, that nothing but Decrees regularly appealed from, were cognizable by them, as per the following Letter:

" To Mr. Alexander Jephson.

" SIR,

" I am directed by the honourable the President and " Council to acknowledge the Receipt of your Letter " of this Date, and to acquaint you in reply, that your Application to them can only be as Governor and Council, or as a Court of Appeals; in the latter Case, nothing but Decrees in the Mayor's Court, " regularly appealed through all the Forms, are cognizable by them: In the former Case, as the Mayor's " Court, a King's Court of Record, is no ways dependant on them in their judicial Capacity, nor no " ways answerable for their Proceedings, they, as a "Governor and Council, have no Right to interfere, " even in an illegal Act.

"I am, Sir,
"Your most humble Servant,

" Fort William,

" 23d February 1768. Simeon Droz, Secretary."

(Signed)

That the Attorney for your Memorialist, during such Confinement, waited feveral Times on Mr. Droz, the Sheriff, and asked what Bail was required for the Enlargement of your Memorialist and his Wife, who sometimes referred him to the Court, sometimes to the Plaintiffs, and fometimes to the Mayor.

That your Memorialist's Attorney then informed Cornelius Goodwin, Esquire, Mayor, and Mr. Droz, the Sheriff, he was come to deposit the 78,000 Rupees, the Sum marked in the Writ, in the Company's Treasury, or any other Sum which should be required; but they absolutely refused to accept of such, or any other Secu-

rity whatfoever.

That the faid Cornelius Goodwin, in the Course of the Proceedings against your Memorialist in the said Mayor's Court, did frequently declare, that your Memorialist should be detained in the Country; and when your Memorialist's faid Attorney stated to the Court the Illegality of fuch Proceedings, and that they were not agreeable to the Laws of England, he the faid Cornelius Goodwin declared, That they had nothing to do with the Laws of England there; that the Laws of England were never made for them; and declared, he would not so much as bear the Laws of England named while he fat upon that Bench: That the faid Cornelius Goodwin, Mayor, and David Killican and John Levett, Two of the Aldermen, had a Conversation with the Sheriff; and your Memorialist's Attorney waited upon the Sheriff, who informed him, that your Memorialist would be released on giving Security for the Money: Whereupon your Memorialist's Attorney, by order of your Memorialist, offered Mr. Williamson to be Security, who was then accepted of; but the next Morning the Mayor informed your Memorialist's Attorney, that the Sheriff would not accept of any Security, without an Order of Court, for the Enlargement of your Memorialist and his Wife.

That a Court was then lummoned (1st March) at which was was present the Mayor, and Messis. Lear, Killican, Cator, and Levett, Alderman, when Bail was again offered by your Memorialist's Attorney; and Mr. Woodward, one of the Aldermen, declared in open Court he would be Security for the 78,000 Rupees, which was refused: Whereupon your Memorialist's Attorney and Mr. Woodward then afked what Bail was required; but the Court would fix on no Sum; and faid Bail would not be taken, as other Suits and Demands might afterwards be made on the Estate, and that nothing but your Memorialist's Presence in Person, to answer the Causes depending in Court, would be fatisfactory; and your Memorialist received a Letter from the Sheriff to that Purpose (a

Copy of which is as follows:)

To Alexander Jephson, Esquire.

"SIR,

" I have received your Note, and am to acquaint " you in reply, that the Court has acquainted me

" nothing but your Presence, and that of Mrs. Jephson's, to answer in Person to the several Causes depending in Court, can be satisfactory to them: In short, I am " not, nor cannot take Notice of any thing for your " Enlargement, but a special Authority from the Court, " directing me to release Mrs. Jephson and you. It " gives me much Pain to be obliged to conform to

" Orders of so severe a Nature.

" I am, Sir, " Your most humble Servant, (Signed)

" 1st March 1768.

Simeon Droz, Sheriff."

On Receipt of which Letter your Memorial if immediately wrote to the Mayor as follows, but received no

" SIR,

" I have just now received a Note from Mr. Droz, " that he cannot release me on any Account, without " an Order from you or the Court: Mr. Thomas Wood-" ward and Mr. William Harwood will be my Security, " to answer to the Decrees against Mr. Gallopine's " Estate, and this is what I understand is all the Court " want; therefore, Sir, I desire you will send Orders " to Mr. Droz to release me, on these Gentlemen's " becoming my Security, or let me know what I am to " do, or what is further wanted of me: Those Gen-" tlemen desire to know when you will be at Home, and they will wait on you to justify as my Security. " I request your immediate Answer,

" And am, Sir,

" Your most humble Servant, (Signed)

es Calcutta, " March 1st 1768.

Alexander Jephson."

Your Memorialist was therefore to consider himself as a Prisoner for Life, as the Court might always make the same Plea as the present, That other Suits and Demands might afterwards be made on the Estate: And as your Memorialist was conscious he had done his Duty in the Management of the Estate; and that these Proceedings were contrary to the regular Course of Law and Justice; and that your Memorialist had no Hopes of ever being redressed in India; and that, by a Continuance there under these cruel Circumstances, it might put a Period to the Life of your Memorialist, who only wanted Justice and Equity to take place: Therefore your Memorialist, having given his Bond to the Sheriff for the Liberty of his House, on the 2d of March left his House, and got into his Boat, with Intent to go on board the Northington, having the Governor and Council's Permission, and his Baggage sent on board; but on his Way to the Ship in the River, and near to Ingillee, the next Day, the 3d of March, in the Evening, your Memorialist's Boat was boarded by a Military Serjeant and Soldiers, with fixed Bayonets, Pistols, and other Arms; also the Sheriff's Officer with the Silver Oar, who produced the Orders of the Governor and Council to Captain Sealy, and all Commanders under the English Protection (a Copy of which Order is as follows:)

" Mr. Alexander Jephson and Philadelphia his Wife, " having fled from Juffice, in Defiance of the

" Laws of the Land, I am directed by the ho-" nourable the President and Council to acquaint

" you, that you are on no Account to receive " them on board your Ship; and if they are on " board, you are immediately on Receipt of this

And in this Manner your Memorialist and his Wife were forced back to Calcutta, and immediately committed close Prisoners by the Sheriff; and your Memorialist was thereby deprived of going in the Northington, which was a very great Loss to your Memorialist and his

Affairs.

Your Memorialist was surprized to find the Governor and Council should issue out such Orders, after their Answers to your Memorialist on these Affairs; and your Memorialist addressed them again during Consinement, by Letters dated the 7th and 14th of March, and laid the Case before them; also requested such Letters might be forwarded to this honourable Court; to which your Memorialist received the same Answer as before.

Your Memorialist and his Wise remaining in Prison, many Applications were made to the Court, the Mayor, and Sherist, for their Enlargement, as there was only One Ship more, the Admiral Pococke, Captain Riddle, to be dispatched that Season; when the Court at last thought proper to enlarge your Memorialist, on the 18th of March, on giving the same Bail which he had offered before, but which was refused, and Security Bonds to answer the Monies due to the Estates of several deceased Persons, to some of whom Mr. Gallopine was Executor,

and to others Administrator,

In consequence of these Proceedings, your Memorialist, who together with his Wise are now in England, was obliged to leave his Effects in Bengal in the Hands of his Bail, for their Indemnisication; and having (previous to the issuing the Ne exeat Regnum) taken his Passage on board the Northington, your Memorialist forfeited his Passage Money, which he had actually paid, and which amounted to near £.500. although your Memorialist and his Wise came Home in another Ship

(the Pococke.)

Your Memorialist, since his Arrival in England, has employed an eminent Attorney to draw up the Case, and had the then Attorney General, Mr. De Grey, and Sir Fletcher Norton's Opinion thereon; who declare the Ne exeat, and the Proceedings of the said Mayor's Court, to be illegal, arbitrary, and most oppressive; whose Opinions your Memorialist is ready to lay before this honourable Court, when called for; also, all the other original Letters and Papers relative to these Proceedings; and also is ready to verify the above Charges by Assidavits, or in such other Manner as your Honours shall direct.

Your Memorialist most humbly prays your Hoz nours to take his Case into Consideration; and that an Enquiry may be had into the Conduct and Proceedings of Cornelius Goodwin, the late Mayor, and the feveral other Aldermen of the Mayor's Court at Calcutta, whose Conduct, as Judges thereof, have been most arbitrary and oppressive in the Course of the Proceedings against your Memorialist; and to order Home the faid Cornelius Goodwin, late Mayor, together with David Killican, Alderman, and Simeon Droz, the Sheriff, who have been most active in oppressing and injuring your Memorialist, in order to answer here for the same; forasmuch as your Memorialist cannot hope for any Redress in the Premises in the Mayor's Court at Calcutta, and cannot commence any Suit against them here whilst they are Abroad; and that the Bail which your Memorialist was compelled to give to the faid Court, for all Demands made upon the Estate of the said Peter Gallopine, deceased, who being infolvent, and your Memorialist the greatest Creditor, may be ordered to be discharged, in order that he may be enabled to recover his Effects from Bengal; and to grant such further Relief to your Memorialist as to your Honours shall feem meet.

And your Memorialist will ever pray, &c.

March 1771. Vol. IV.

Alexander Jephson.

Extract from the General Letter to Bengal, dated 3d May 1771, per Lord Holland and Britannia.

Par. 6. A Petition having been presented to us by Mr. Richard Whittall, late one of the Attornies of the Mayor's Court at Calcutta, and dismissed from his Office by an Order of the said Court, dated the 4th August 1769;

7. We considered the Merits of the said Petition, and directed a Case to be stated thereon, for the Opinion of Mr. Sayer, the Company's standing Counsel; which

Opinion is to the following Effect:

"The Difinission of Mr. Whittall, from acting as an " Attorney of the Mayor's Court, appears, from " Mr. Whittall's Case, to be an Order made in " a Cause, consequently may be appealed from, " and ought to be heard by the Governor and " Council; but it is not in the Power of the " Directors, of themselves, to reverse any Order made in a Cause. It is not only adviseable, but in my Opinion necessary, for the Direc-" tors, in their General Letter to the Governor " and Council, to state their Thoughts of Mr. "Whittall's Dismission, as to that Part of the " Order that declares, without specifying any " Particulars of the bad Conduct Mr. Whittall " was guilty of, Which, in the Course of bis "Transactions of the Business of his Office, fre- quently merited, received the severe Reprehen- fions of the Court.—Such general Charges of " Milbehaviour, without Facts, are very grofs, " and unbecoming a Court of Justice, and have " more the Appearance of private Refentment " than public Good; especially from a Court " whose Orders may be reversed by Appeal. "The Directors should recommend to the Go-" vernor and Council to admit the Appeal, and " act therein as the Justice of the Case shall " require."

8. Mr. Whittall now proceeds to Bengal, on the Ship Lord Holland, in order to prefer to you his Perition of Appeal; which we recommend to you to receive, and to take the fame into ferious Confideration, not doubting but he will receive at your Hands all the Justice which his Case requires; at the same time we do not mean to bias or prejudice your Judgment in the Course of this

Proceeding.

10. We transmit you herewith the Memorial of Alexander Jephson, on the Behalf of himself and Philadelphia his Wise, lately presented to us, complaining of the most cruel Injustice done him by the Mayor's Court at Calcutta, and your Refusal of Redress, upon his Complaint exhibited to you, by way of Appeal against that

11. Common Sense suggests, that in the Case of an Executor, he ought never to be held to Bail, but where there is the fullest Proof, not only of the Debt claimed to be due, but that he is possessed of Assets belonging to the deceased, applicable to the Discharge of fuch Debt, which he wilfully withholds, or which are in Danger of being squandered away; much less ought an Executor to be put into Prison, or held to Bail, either upon a Ne exeat Regno, or any other Process, when it appears upon his Oath, either upon an Inventory delivered in, or his Answer to a Bill filed against him for Payment of the Demand, that the Estate of his Testator is infolvent; in fuch a Cafe it is not to be conceived, that the most erroneous Judgment could suggest fuch Proceedings as have been put in Practice against Mr. Jephson.

12. Equally abfurd is it for you to entertain Doubts of receiving Appeals against the Interlocutory Orders or Sentences of the Mayor's Court, in Cases depending before them, because they are not complete Judgments or Decrees; every Order made by a Court of Justice is a Sentence or Decree within the Meaning of our Char-

45

ter

ter of Justice, and there is not a Syllable in it that can lead you to suppose, that only final Judgments or Decrees were meant to be the Subjects of Appeal. In this Kingdom, it is every Day's Practice to fee Appeals lodged in the House of Lords, and at the Council Board, against Interlocutory Orders of the Courts of Chancery of England and Ireland, and of the Courts of Justice in the King's Dominions Abroad, in numberless Instances, where there is not the least Decision upon the Merits; frequently upon the Competency or Admiffibility of Witnesses, before 'tis possible to know what Evidence they would give, or how far, when given, it would affect the Cause; often upon Orders for Trials at Law, or new Trials, the Event whereof cannot be foreseen.

13. The Facts, flated in the Memorial laid before us, are of so extraordinary a Nature, and the Treatment Mr. Jephson and his Wife received, seemed to us so big with Oppression and Injustice, that before we could judge what was fitting to be done thereon, we thought it adviseable to lay the whole of the Proceedings before Mr. Sayer, the Company's Counfel, for his Opinion; which we transmit to you herewith, together with the Opinions of Sir William De Grey, the present Chief Justice of His Majesty's Court of Common Pleas, and of Sir Fletcher Norton, formerly His Majesty's Attorney General, and now Speaker of the House of Commons, on Mr. Jephson's Case.

14. It is with much Concern and Indignation we obferve our Courts of Justice profficuted to such Purposes, as must carry with them not only an indelible Reproach to the Courts themselves, but to that Government by which they were instituted; and that we may entirely acquit ourselves of giving the least Countenance to such illegal Acts, we enjoin you immediately to receive Mr. Jephson's Appeal, whenever he shall present the same; that you enquire strictly and minutely into all the Circumftances of his Complaints, and cause full and ample

Justice to be done therein.

15. After having thus expressed our Abhorrence of Proceedings, carrying on the Face of them such evident Marks of Oppression, we trust that you will in suture prevent any further Complaints of this Nature against yourfelves; and that on the prefent Occasion you will, without Favour or Affection, put in Execution the Advice of our Counsel, if satisfactory Evidence can be obtained of fuch infolent Declarations being uttered from the Bench, as are laid to the Charge of those sitting upon it, to administer Justice under the Laws of England, and those Laws only.

Mr. Sayer's Opinion.

Mr. Sayer is defired to peruse the Memorial of Mr. Alexander Jephson, left herewith; and his Opinion is desired.

Query 1st. Whether the Ne exeat Regno, granted by the Mayor's Court against Mr. Jephson and his Wife, was legal; and especially, as it appears they were Executors of an infolvent Effate, and that the same issued without any Proof before the Court to warrant fuch a Proceeding?

Answer. I have read the Memorial of Mr. Alexander Jephson; and if there is no Reason to doubt the Facts therein contained, the Ne exeat Regno is not only illegal, but the Proceedings relative to Mr. Jephson and Philadelphia his Wife, under it, are not founded in Justice, but in Wickedness and Outrage. I am satisfied in my own Mind, that neither Mr. Cornelius Gordwin, the Mayor, nor Mr. David Killican, the Alderman, who figned the Order of the 19th February 1768, for the committing of Mr. Jephson and Wife, without the - Name of a fingle Complainant, could confider it as a regular Proceeding in a Court of Justice, but as an Act of Power, for the Gratification of their private Malice and Resentment.

Query 2d. If the issuing this Writ was illegal, under the Circumstances of this Case, ought not the President and Council to have admitted and received the Complaint made by Mr. Jephson, by way of Appeal from the Order of Court by which the Writ iffued, which it appears they declined doing; and whether they ought not now fo to do, and give the Party Relief? And, upon the whole, what can the Court of Directors do in this Matter, on Mr. Jephson's Behalf, and what is adviseable for them to do, to prevent such illegal Practices for the future?

Answer. The President and Council ought to have admitted and received the Complaint made by Mr. Jephson, by way of Appeal, and reversed every Proceeding relating to this illegal Ne exeat Regno; but fo far were they from fo doing, that, except the Proceedings of the Mayor's Court, nothing could be worse than their Answer to Mr. Jephson, of the 23d February 1768, figned Simeon Droz, Secretary; and their Order to the Captain of the Northington, of the 2d March 1768, figned Edward Baber, not to receive Mr. Jephjon and his Wife on board, but immediately deliver them to the Sheriff. Such Courts of Justice are not only disgraceful to the East India Company, but the Nation; and if the Company does not refeue the Inhabitants in their Settles ments from fuch Outrage on their Properties, under the Mask of Justice, Bengal will be deferted.

I trust there are Men better qualified for Judges, to be found at Bengal, than either Mr. Goodwin or Mr. Killican; and a very legal and fair Opportunity offers itself of removing one or both of them from the Seat of Jus-

tice, which they have fo shamefully disgraced.

Mr. Jephfon's Memorial states as a Fact, That the Proceedings were complained of to the Court as illegal, and not agreeable to the Laws of England; and that Mr. Cornelius Goodwin declared, they had nothing to do with the Laws of England there; that they were never made for them, and declared, that he would not so much as bear the Laws of England named, while he fat upon the Bench.

If it can be plainly proved, that Mr. Goodwin, Mr. Killican, or any other of their Affociates, the Judges of the Mayor's Court, used, fitting in Judgment, these Words, or Words to the like Effect, they ought to be removed from being Judges of the Court; and upon a Complaint in Writing in some Person's Name, exhibited against Mr. Goodwin, or any other of the Judges, charging the Fact above specified; in Writing, and a reasonable Time given to him or them to make their Defence, and being summoned for that Purpose, if the Fact is proved upon them by at least Two Witnesses, they may legally, and ought, for the Sake not only of common Justice, but common Decency, to be difcharged from being Judges of the Mayor's Court, and if possible, by appointing other Judges, prevent the Justice of that Country from being to scandalously administered.

Copy of Lord Chief Justice De Grey's Opinion.

There is so much Irregularity, Illegality, and Oppression in this Story, that I scarce know how to believe the Parties concerned in transacting it would admit it to be true. I think feveral of the Decrees as stated are erroneous, and might be appealed from, the Principle of Law miltaken, some of the Orders of the Court unjust, and the Ne exeat illegal. If any of the Parties are in England, Actions might be brought against them for their Parts of the Transaction, as far as they were illegal; but before a precise Remedy can be pointed out, it would be necessary to see the particu-

lar Proceedings, and to know the Facts with Accuracy, and how far they can be brought home to any Person now in England.

An Appeal from this or that Order or Decree, or a Petition for Leave to appeal, would not give a full and adequate Relief, and would be attended with great

Expence.

The India Company are so desirous of establishing a free Course of Justice in their Settlements, that if the Matter is as stated, I cannot but think a Memorial to them, for a Restitution and Satisfaction, might produce a completer Remedy than a Process at Law.

Copy of Sir Fletcher Norton's Opinion.

I think there may be Cases, where it may be legal to detain a Person in India, and to issue Writs of the Nature with the present; but upon this State of Facts, all the Proceedings against Mr. and Mrs. Jephson seem to be illegal, arbitrary, and most oppressive; and if there is any Doubt of obtaining Redress by the ordinary Course of Proceedings in this Country, it may be adviseable to bring the whole hither by Appeal, or by way of criminal Complaint against the Mayor and others, who have been Actors in these Oppressions.

Fort William, 3d January 1772.

At a Confultation; PRESENT,

The honourable John Cartier, Esquire, President.

Samuel Middleton,
William Aldersey,
Philip M. Dacres,
Thomas Lane,
Messrs. Reed and Jekyll absent.

The Board being met according to Appointment, to examine into the Charge made against Mr. Cornelius Goodwin, by Mr. Jephson, in his Memorial to the honourable the Court of Directors; and the several Persons summoned being in waiting;

Mr. Levett, one of the Aldermen, is called in, and

interrogated as follows:

Did you hear, or were you informed, during the Course of Mr. Jephson's Suir, that Mr. Cornelius Goodwin, as Mayor of the said Court, on a Representation being made by Mr. Jephson or his Attorney, that the Proceedings of the Court were contrary to the Laws of England, did reply, That they had nothing to do with the Laws of England there; that the Laws of England were never made for them; and did declare, that he would not so much as hear the Laws of England named, while he sat upon that Bench; or did you hear him utter Words to that Effect?

In reply to which Mr. Levett declares, That, to the best of his Remembrance, he never heard such Words, or any Words to that Purport, uttered. He surther

begs leave to observe,

Vol. IV.

"That he is under the greatest Concern to find, that the honourable Board should judge it necessary, in pursuance of the honourable Court of Directors, to put a Question to him, to which he cannot answer, as an un-concerned Evidence; because, had he heard an Alderman upon the Bench, or out of Court, publicly avow Sentiments so unworthy his Character and Station, it would have been incumbent upon him to have accused him before the honourable Board; that he regarded the Neglect of this Duty as so high an Offence and Misdemeanor towards the Public, as to lay a just Foundation for a Charge and Arraignment before the honourable Board; that therefore his Evidence, being so interested in the Question, could have little Weight; whilst, under

"the Sanction of such a Precedent, an Alderman might hereafter be called upon and examined in Evidence to Matters tending to his own Accusation, by which the Principles of Law and Justice would be violated: That the Proceedings of the Mayor's Court were always public, and the Remedy and Mode of Accusation against an Alderman precisely set forth by the Charter; that therefore the direct Application to us by one aggrieved, and having any Misdemeanor wherewith to charge an Alderman was well known, nor could such an Accuser be at any Loss to find Evidence to support his Charge, without Recourse to the Alderman themselves; who, by a tacit Approbation, would become equally criminal.

"That he was informed, that he was not summoned as an Alderman of the Court; yet the Question was of such a Nature, that he finds a great Difficulty to separate that Character from the Matter it contained; however, that the Respect due to the Judgment, and the Considence in the Uprighteness, of the honourable Board, readily inclined him to give the Court the fullest Information; but that he hoped, if, upon a Re-consideration, there appeared to them any Irregularity, or undue and unauthorized Exercise of Power and Authority, in their present Proceedings, that they would not be drawn into Precedent, either to the Prejudice of the Judges of the Court, or of the Jurisdiction thereos."

Mr. Levett withdraws, and Mr. Killican, one of the Aldermen, is called in; the above Question put to him. He declares—That he was on the Bench most Part of the Time the Proceedings against Mr. Jephson were before the Mayor's Court; and that he never heard any such Expressions uttered by Mr. Goodwin; and aids, that, had he made use of any such Words, he should have deemed it his Duty to have taken

Mr. Killican having withdrawn, and Mr. Cator, one of the Aldermen, called in, the above Question is put to him; to which he replies:

"I have heard Mr Goodwin on the Bench make use of such Words, or Words to that Effect; but I cannot charge my Memory with the Time."

Question by the Board.—Did you take no Notice of

it at the Time?

Answer.—I thought it was a very extraordinary Expression, but I did not take any further Notice of it.

Mr. Cator withdraws; and Mr. Morris, one of the Attornies of the Mayor's Court, being called in, is interrogated as follows:

Question.—Was you Attorney for Jephjon, or the opposite Party, in 1768?

Answer.—I was Attorney for many of the Plaintiffs against Jephson, and am so still.

Question.—Did you regularly attend the Court during that Time?

Answer. — I do not remember missing any one

The same Question verbatim being then put to Mr. Morris as to the other Persons before examined, he replies, "I do not recollect his using such Words—"I never heard such an Expression made use of by any "of the Gentlemen."

Question.—Nor any Words tending to that Purport? Answer.—No, to the best of my Remembrance.

Mr. Morris withdrawing, Mr. Droz, who was Sheriff in the Beginning of 1768, is called in:

Question.—Did you hold the Post of Sheriff in

Answer.—Part of it.

Question.—Were you Sheriff during Jephson's Suit in the Mayor's Court?

Answer. I was.

Question.

Question.—Did you regularly attend the Court?
Answer.—Not regularly, as my other Avocations

would not permit me to do it.

The above Question being then put to him, he replies, "I never heard Mr. Goodwin use such Expressions, nor did I ever hear any Person else decidere that Mr. Goodwin had made use of such an Expression."

Messieurs Reed and Jekyll, who were on the Bench as Aldermen during Part of the Proceedings against Jephson, being absent,

Agreed, That they be addressed by the Secretary in

the following Manner:

To John Reed, Esquire, To J. Jekyll, Esquire.

Sir,

The honourable the President and Council being assembled, to enquire into the Truth of the Accufation laid against Mr. Cornelius Goodwin, by Mr. Alexander Jephson, in his Memorial to the honourable the Court of Directors, and observing that your Name is in the List of those Aldermen who sat on the Bench some one of those Times when the Proceedings against Mr. Jephson were brought before the Mayor's Court, they direct me to send you the following Question, relative to the Knowledge you may have of the Allegation against Mr. Goodwin, to which they request the Favour of an Answer:

Whether you heard, or were informed, during the Course of Mr. Jephjon's Suit, that Mr. Cornelius Goodwin, as the Mayor of the said Court, on a Representation being made by Mr. Jephjon, or his Attorney, that the Proceedings of the Court were contrary to the Laws of England, did reply, "That they had nothing to do with the Laws of England were never made for them;" and did declare, "That he would not so much as hear the Laws of England words land named while he sat upon that Bench;" or Words

to that Effect?

I am, &c.

Refolved, We defer coming to a final Determination on this Matter, until we receive Messieurs Reed's and Jekyll's Replies.

Messieurs Reed and Jekyll absent.

Messieurs Reed and Jekyll send in the Two following Letters, in reply to that written by our Secretary the 3d Instant.

To the honourable John Cartier, Esquire, President and Governor, &c. Council at Fort William.

Honourable Sir, and Sirs,

In a Letter from your Secretary, dated 3d Instant, I have received a Question relative to the Knowledge I may have of certain Words said to have been spoken by Mr. Cornelius Goodwin, as Mayor, during the Course of Mr. Jephjon's Suit in the Mayor's Court of

Calcutta, to which your Honour, &c. Gentlemen, de-

fire I will reply.

At so great a Distance of Time from my being an Alderman of the Mayor's Court, I cannot charge my Memory with any express Words spoken by the then Mayor at any particular Time: To the best of my Remembrance I never heard Mr. Goodwin speak such Words as are contained in Mr. Jephson's Accusation, or Words to that Effect, nor ever was informed that he had spoken such Words: When an Alderman of the Mayor's Court, I do remember to have heard Mr. Goodwin affert, that the said Court was rather a Court of Equity than of the common Law, or Words to that Effect, though I never considered such Expression of Mr. Goodwin as meaning, or being intended, to pervert the Course of Justice, but merely as his Sentiments on the Mode of proceeding in the Mayor's Court, and of the Powers of its Judges.

Fort William, 6th January, 1771.

I am, &c. John Reed.

To the honourable John Cartier, Esquire, President and Governor, &c. Council of Fort William.

Gentlemen,

I have received a Letter from your Secretary, on the Subject of an Accusation against Mr. Goodwin, when Mayor for the Town of Calcutta, defiring my Answer to the Question, "Whether I heard, or was informed, during the Course of Mr. Jephson's Suit, that Mr. Cornelius Goodwin, as Mayor of the faid Court, on a Representation being made by Mr. Jephson, or his Attorney, that the Proceedings of the Court were contrary to the Laws of England, " did reply, That they had nothing to do with the " Laws of England there; that the Laws of England " were never made for them; and did declare, that " he would not fo much as hear the Laws of England " named while he fat upon that Bench, or Words to "that Effect:" To which in reply I must observe, though I do not recollect the Speech with which Mr. Goodwin is charged with to have been made by him, I think it is very likely he or any other Alderman on the Bench, who, as they are not supposed to be fully verfed in all particular Matters of Law, might, on an Observation from an Attorney of the Court, that the then discussing Point was not conformable to the Rules of Law, have remarked, that that Court was not to be confidered as a Court of Law, and that their Judgment should more properly therefore be directed by the Rules of Equity; and this I apprehend to have been the Scope of what paffed, if any Observation of that Kind was made; and has given an Opening of perverting the Meaning to a Defign, that could furely never be intended, by a Gentleman who had ferved fo many Years here, and at Madras, in both Places as Alderman and Mayor, or do I apprehend fuch would have passed the more particular Notice of the Court then fitting.

I am, &c.

Calcutta, 7th January 1772.

Joseph Jekyll.

Mr. Cornelius Goodwin also sends in the following Address to the Board.

To the Honourable John Cartier, Esquire, President, &c. Council.

Honourable Sir, and Sirs,

I have with great Surprize received from your Secretary an Extract of a Memorial of Alexander Jephson, late of Calcutta, to the honourable the Court of Directors.

rectors, wherein I am accused of having frequently declared, that he the faid Alexander Jephson should be detained in the Country; and that when his Attorney represented to the Court the Illegality of the Proceedings against him, and that they were not agreeable to the Laws of England, I declared, that the Mayor's Court had nothing to do with the Laws of England, and that the Laws of England were never made for them; and that I would not so much as hear the Laws of England named while I fat upon that Bench.

This is an Acculation dictated by the Falsehood and Malice of the faid Jephson and his Attorney; the one, for being obliged, not by me particularly, but by the Voice of a very full Court, to give Security to his Creditors before he left the Place, for the Payment of many large Demands made upon him, and which appeared to be justly due; the other of his Attorney Mr. Whittall, a Person of a notorious bad Character, who, having been juftly dismissed the Court for iniquitous Practices, has maliciously published, as I suppose, this

Acculation through Revenge.

You, Gentlemen, are Judges, and know well that the issuing of Writs, or any other Process of the Mayor's Court, does not rest in the Breast of the Mayor, or any other fingle Member of the Court, but are iffued by Order of a Court, in Judgment fitting, which cannot confift of less than Three Members; except in the Case of an Affidavit being made by a Creditor, that the Debtor is about to depart the Jurisdiction of the Court, when the Mayor may order a Summons, returnable immediately, and a Warrant therewith, to iffue between the Days of the Sitting of the Court. But in the Proceeding complained of by Mr. Jephson, no Writs or Orders were iffued, but by Orders of very full Courts, as I would not undertake to do any thing without the Opinion and Advice of as many of the Members as I could possibly get to meet.

As to the Words charged to be spoken by me upon the Bench, I declare it to be false, and that I could never make use of Expressions so inconfistent with my Knowledge and Sentiments, as well as my Duty, both as a Magistrate and Subject of Great Britain; besides, if fuch an Expression had been made use of by me upon the Bench, it would have been incumbent on the Members fitting with me to have taken particular

Notice of it.

I hope the Laws of England will ever be the Law of British Subjects, whatever Part of the World a Colony of them may be in; and I request you will please to be referred to any of the Members or Attornies of the Mayor's Court, whether they have ever heard me make any fuch Declaration as I am accused of.

If any further Satisfaction upon this Occasion, than what is herein fet forth, may be deemed necessary, I am ready to attend your Honours, and remain with the

utmoit Respect, &c.

Corn's Goodwin.

Calcutta 3d January 1772.

The Board, taking into ferious Confideration the different Informations given in at their last Meeting, with those now before them from Messrs. Reed and Jekyll, as likewise Mr. Goodwin's Address, are of Opinion, That the Foundation for the Charge against that Gentleman is not supported with the necessary Proofs; that though Mr. Cator's Information is very positive, Mr. Goodwin has expressed the Words set forth in Mr. Jephson's Memorial to the honourable Company, or Words to that Effect, yet they are inclined to believe Mr. Goodwin's Meaning, as well as his Expressions, must have been mifunderstood by Mr. Cator; and to confirm them in that Opinion, the Sentiments of Mr. Reed and Jekyll, as to what they know of Mr. Goodwin's Conduct, and the Idea he entertains of his Duty as an Alderman of the Mayor's Court, feems a convincing Proof that he could never have expressed himself in a Manner to difrespectful to the excellent Laws of his Country; they must further remark, that Mr. Goodwin has, for a long Series of Years, been on the Bench, either as Mayor or Alderman of the Mayor's Court, both at Madras and Bengal; and they conceive no Persons entertaining Notions of fo extraordinary a Nature could have acted fo long in that Capacity, without making himfelf notorious and offenfive to Government. Instead of which. the Board, in Justice to Mr. Goodwin, must remark, they have always confidered him as an active and impartial Judge in the Performance of his Duty, and has ever been ready to render Justice to the utinost of his Power.—That it has ever been held as an allowed Fact, that the Mayor's Court at Calcutta, as established by the Charter, is a Court of Equity, and not of Law; and Mr. Goodwin avowing fuch his Opinion of its Institution, has been perverted by artful and bad Men to an absolute Defiance to the Laws of his Country; whereas no Individual has given more ready Obedience to them, or been more obedient to Government in general.

The Board cannot dismiss this Subject, without remarking on the Information given in by Mr. Cator; and are extremely furprized that Mr. Cater should have heard Expressions made by Mr. Goodwin, of the Nature of those he is charged with in Mr. Jephson's Memorial, without having publicly difavowed the fame, or rebuking Mr. Goodwin for expressing such-this, either as an Alderman of the Mayor's Court, or a British Subject, it was most undoubtedly his Duty to do, or to have lodged a Complaint against Mr. Goodwin before the Board, that an Affair of fo ferious a Nature might be fully enquired into; that it would appear from this, that Mr. Cator has either neglected his Duty as Alderman of the Mayor's Court, or tacitly approved of Mr. Goodwin's Sentiments, in the Light he understood

Refolved therefore, That the Secretary be directed to fignify the Opinion of this Board on the Nature of his Information; and that he likewise inform Mr. Goodwin, that the Board, having as minutely as possible enquired into the Charge alledged against him, find no Reason to confider him in any Degree culpable.

our Approbation: We cannot give you a better Idea of the Grounds on which this was framed, than by referring you to a Copy of it, together with a Letter from the Committee to the Board on the Occasion; both of which make Numbers in this Packet, and we earnestly recommend them to your Perufal, requesting to be affifted with fuch further Orders and Instructions thereon, as they may require, for completing the System which we have thus endeavoured to establish, on the most equitable, solid, and permanent Footing,

hope they will be read with that Indulgence, which, we are humbly of Opinion, is due to a Work of this Kind, undertaken on the plain Principles of Experience and common Observation, without the Advantages which an intimate Knowledge of the Theory of Law might have afforded us: We have endeavoured to adapt our Regulations to the Manners and Understandings of the People, and Exigencies of the Country, adhering, as closely as we are able, to their ancient Usages and Institutions. It will be still a Work of some Months, we fear, before they can be thoroughly established throughout the Provinces; but we shall think our Labours amply recompensed, if they meet with your Approbation, and are productive of the good Effects we had in View.

Copy of a Letter from the Committee of Circuit to the Council at Fort William, dated Coffimbuzar, 15th August 1772.

In the Copy of our Proceedings, which accompanied our Letter of the 28 Ultimo, we intimated our Intention of communicating to you our Sentiments in a future Addrefs, upon the Subject of the Magistracy of this Province, which, though an Appendage of the Nizamut, we considered as not necessarily connected with the Propositions which were then recommended to your Attention, and of too much Importance to be lightly or only occasionally treated.

We now transmit to you the Result of our Deliberations on this Subject, in the inclosed Paper, intituled, "A Plan for the Administration of Justice;" and if it meets with your Approbation, we wish to receive your Instructions for carrying it into immediate Execution.

For the Information of our honourable Employers, it may be necessary to premise, what you will readily perceive, that in forming the inclosed Plan we have confined ourselves with a scrupulous Exactness to the constitutional Terms of Judicature already established in this Province; which are not only fuch as we think in themselves best calculated for expediting the Course of Justice, but such as are best adapted to the Understandings of the People. Where we shall appear to have deviated in any Respect from the known Forms, our Intention has been to recur to the original Principles, and to give them that Efficacy, of which they were deprived by venal and arbitrary Innovations, by partial Immunities, granted as a Relief against the general and allowed Abuse of Authority, or by some radical Defeet in the Constitution of the Courts in being; and these Changes we have adopted with the less Hesitation, as they are all of fuch a Nature, as, we are morally certain, will prove both of general Satisfaction and general Ease to the People.

The general Principles of all despotic Governments, That every Degree of Power shall be simple and undivided, seems necessarily to have introduced itself into the Courts of Justice; this will appear from a Review of the different Officers of Justice instituted in these Provinces, which, however unwilling we are to engross your Time with such Details, we deem necessary on this Occasion, in Proof of the above Affertions, and in Justification of the Regulations which we have recom-

mended.

First. The Nazim, as supreme Magistrate, presides personally in the Trials of capital Offenders, and holds a Court every Sunday, called the Rôz Adawlut.

Second. The Dewan is the supposed Magistrate for the Decision of such Caules as relate to real Estates, or Property in Land, but seldom exer-

cifes this Authority in Person.

Third. The Darogo Adawlut al Aalea is properly the Deputy of the Nazim; he is the Judge of all Matters of Property, excepting Claims of Land and Inheritance; he also takes Cognizance of Quarrels, Frays, and abusive Names.

Fourth. The Darogo, Adawlut Dewannee, or De-

puty of the Dewan, is the Judge of Property in Land.

Fifth. The Phousdar is the Officer of the Police, the Judge of all Crimes not capital; the Proofs of these last are taken before him, and reported to the Nazim for his Judgment, and Sentence upon them.

Sixth. The Câzee is the Judge of all Claims of Inheritance and Succession; he also performs the Ceremonies of Weddings, Circumcision, and

Funerals.

Seventh. The Mohtefib has Cognizance of Drunkenness, and of the vending of spirituous Liquors and intoxicating Drugs, and the Examination of

false Weights and Measures.

Eighth. The Mustee is the Expounder of the Law, Memorandum: The Câzee is assisted by the Mustee and Mohtesib in his Court: After hearing the Parties and Evidences, the Mustee writes the Fettwa, or the Law applicable to the Case in question, and the Câzee pronounces Judgment accordingly. If either the Câzee or Mohtesib disapprove of the Fettwa, the Cause is referred to the Nazim, who summons the Islass, or General Assembly, consisting of the Câzee, Mustee, Mohtesib, the Darogos of the Adawlut, the Moulavies, and all the learned in the Law, to meet and decide upon it. Their Decision is final.

Ninth. The Canongos are the Registers of the Lands. They have no Authority; but Causes of Land are often referred to them for Decision, by the Nazim, or Dewan, or Darogo of the Dewannee. Tenth. The Cootwall is the Peace Officer of the

Night, dependant on the Phousdarree.

From this Lift it will appear, that there are properly Three Courts for the Decision of Civil Causes (the Canongos being only made Arbitrators by Reference from the other Courts) and one for the Police and Criminal Matters. The Authority of the Mohtesib in the latter being too confined to be confidered as an Exception: Yet, as all defective Inftitutions foon degenerate, by Use, into that Form to which they are inclined, by the unequal Prevalence of their component Parts; so these Courts are never known to adhere to their prescribed Bounds, but when restrained by the Vigilance of a wifer Ruler than commonly falls to the Lot of despotic States; at all other Times, not only the Civil Courts encroach on each other's Authority, but both Civil and Criminal often take Cognizance of the fame Subjects; or their Power gradually becomes weak and obsolete through their own Abuses, and the Usurpations of Influence. For many Years past the Darogos of the Adawlut al Aalea, and of the Dewannee, have been confidered as Judges of the same Causes, whether of real or personal Property; and the Parties have made their Application as Chance, Caprice, Interest, or the superior Weight and Authority of either, directed their Choice. At present, from obvious Causes, the Dewannee Adawlut is in Effect the only Tribunal: The Adamlut al Aalea, or the Court of the Nazim, existing only in Name.

It must however, be remarked, in Exception to the above Assertion, that the Phousdarree, being a single Judicature, and the Objects of it clearly defined, it is seldom known, but in Time of Anarchy, to encroach on the Civil Power, or lose much of its own Authority; this however is much the Case at present.

The Court in which the Câzee presides seems to be formed on wifer Maxims, and even on more enlarged Ideas of Justice, and Civil Liberty, than are common to despotic Notions of Indian Governments.

They must be unanimous in their Judgment, or the Case is referred in course to the General Assembly; but the Intention of this Reference is defeated, by the Importance which is given to it, and the insurmountable Difficulties attending the Use of it: Few Cases of dis-

puted

puted Inheritance will happen, in which the Opinions of Three independant Judges shall be found to concur: There is therefore a Necessity, either that one shall over-rule the other two, which destroys the Purpose of their Appointment, or that daily Appeals must be made to the Nazim, and his Warrant issued to summon all learned in the Law, from their Homes, their Studies, and necessary Occupations, to form a tumultuous Affembly, to hear and give Judgment upon them: The Confequence is, that the General Affembly is rarely held, and only on Occasions which acquire their Importance from that of the Parties, rather than from the Nicety of the Cafe itself: The Cazee therefore either advises with his Colleagues in his own particular Court, and gives Judgment according to his own Opinion, or more frequently decides without their Affiftance or Presence.

Another great and capital Defect in these Courts is, the Want of a Substitute or subordinate Jurisdiction, for the Distribution of Justice in such Parts of the Province as lie out of their Reach, which in Effect confines their Operations to a Circle, extending but a very small Distance beyond the Bounds of the City of Moorshedabad: This indeed is not universally the Case: but perhaps it will not be difficult to prove the Exceptions to be an Accumulation of the Grievance; fince it is true that the Courts of Adawlut are open to the Complaints of all Men; yet it is only the rich, or the vagabond Part of the People, who can afford to travel to far for Justice; and if the industrious Labourer is called from the farthest Part of the Province to answer their Complaints, and wait the tedious Process of the Courts, to which they are thus made amenable, the Consequences in many Cases will be more ruinous and oppressive, than an arbitrary Decision could be, if passed against them, without any Law or Process whatever.

The Defect is not however left absolutely without a Remedy; the Zemindars, Farmers, Shicdars, and other Officers of the Revenue, affuming that Power for which no Provision is made by the Laws of the Land, but which, in whatever Manner it is exercifed, is preferable to a total Anarchy: It will however be obvious, that the judicial Authority, lodged in the Hands of Men who gain their Livelihood by the Profits on the Collections of the Revenue, must unavoidably be converted to Sources of private Emolument; and, in Effect, the greatest Oppressions of the Inhabitants owe their Origin to this necessary Evil: The Câzee has also his Substitute in the Districts, but their legal Powers are too limited to be of general Use; and the Powers which they assume being warranted by no lawful Commission, but depending on their own Pleasure, or the Ability of the People to contest them, is also an Oppression.

From this Variety of Materials we have endeavoured to form the Plan of a more complete, but more extenfive, System of Judicature, by constituting Two Superior Courts at the Capital; the one composed of the United Magistracy of the Adawlut al Aalea, the Adawlut Dewannee, and the Câzee (or Câzee's Office) for the Decision of Civit Causes; the other corresponding to the Phousdarree for the Trial of Criminal Cases. To prevent the Abuse of the Power vested in these Courts, and to give Authority to their Decrees, each, instead of a fingle Judge, is made to confift of several Members; and their Enquiries are to be conducted under the Inspection and Sanction of the Supreme Administration. To render the Distribution of Justice equal in every Part of the Province, fimilar, but inferior, Courts are also proposed for each separate District, and accountable to the superior. The usurped Power of the Officers of the Collections, and of the Creditor over the Persons of their Debtors, is abolished.

The Judicial Authority, which by the Tenth Regulation is still allowed to the Farmers of the Revenue, is a fingle Exception to the general Rule, which we have laid down, of confining fuch Powers to the Two Courts of Adamlut; but as this is restricted to Cases of

VOL. IV.

Property, not exceeding Ten Rupees, and as they have no Power of inflicting Punishment, or levying Fines, we think an ill Use is not likely to be made of so inconfiderable a Privilege, especially as they themselves are amenable to the Courts of Justice, which will be always ready to receive Complaints against them; and some fuch Means of deciding the trifling Disputes of the Ryotts upon the Spot is absolutely necessary, as they cannot afford, nor ought to be allowed, on every mutual Disagreement, to travel to the Sudder Cutcherry for Tustice.

The detestable and authorized Exactions of the Phoufdarree Court, which had its exact Imitators in every Farmer and Aumil of the Province, under the Denomination of Bazee Jumma, have been prohibited, conformably to the wife and humane Injunctions of our honourable Masters; who, from the same Spirit of Equity, have renounced the Right hitherto exercised by the Country Government, and authorized by the Mahometan Law, to a Commission on the Amount of all Debts, and on the Value of all Property, recovered by the Decrees of its Courts; a Practice repugnant to every Print ciple of Justice, as it makes the Magistrate a Party in the Cause on which he decides, and becomes a legal Violation of the Rights of private Property, committed by that Power which should protect and secure it.

It has also been our Aim to render the Access to Jus-

tice as easy as possible.

By keeping exact Records of all judicial Proceedings, it is hoped that these Institutions, if they receive the Sanction of your Approbation, will remain free from the Neglects and Charges to which they would be liable

from a less frequent Inspection.

We have judged it necessary to propose some Exceptions to the Order of the honourable Court of Directors, for the total Abolition of Fines in the Court of Phoufdarree. All Offences are not punishable by Stripes; and to sentence Men of a certain Rank in Life, or of a fuperior Cast, to such a public Disgrace, would exceed the Proportion of the Offence, and extend the Punishment to all the Relations and Connections of the Delinquent; to fuffer him to escape with total Impunity, would be an Injustice in the other Extreme: In such Cases there is but the middle Way, which we can adopt with an equal Regard to the Spirit of our honourable Masters Commands, and the Rights of Justice, and that is, by levying the Fine upon the Offender, but converting it to a Reparation of the Injury.

Our Motives for the Abolition of the Fees of the Câzees and Mustees, will best appear in the following Extract of a Minute of our Proceedings at Kishen Nagur, relating to the Haldarree, or Tax on Marriages, which, for the Reasons therein assigned, we forbad to be levied any longer, and deducted from the Settlement of Nuddea: Convinced of the pernicious Effects of so impolitic a Tax, we propose to grant the same Exemption to the other Districts subject to our Direction; and submit to your Confideration, whether it will not be proper to

make it general throughout the Province.

The fame Reasons which have induced us to abolish the Haldarree, operate with equal Force against the Fees of the Câzees and Muftees, which have always proved a heavy Grievance to the Poor, and an Impediment to Marriage: We have therefore determined on a total Abolition of these, and of the other less Dues hitherto allowed to these Officers, and to put them on the Footing of Monthly Servants with fixed Salaries: We were led to this Refolution, not only by the speculative Advantages which it promifed, but by the Experience which this Country has already had of its Effects, from a fimilar Institution of the Nabob Meer Coffim, about the Beginning of the Year 1763, which (as we are affured) was productive of more Marriages than had been known to take place for Years before; and Instances have been even quoted of Men of Forty and Fifty Years of Age, who till then had led a Life of Celibacy, immediately availed themselves of this Ex-

emption, to enter into a State, from which they had been before precluded folely by the Want of Means to support the various Expences attending it.

Extract of the Proceedings of the Committee at Kishen Nagur, dated the 28th June 1772.

"The Collector explains the Haldarree, or Custom on Marriage, to be a Tax levied by Government, at the variable Rate of Three Rupees, Three Rupees Eight Annas, and Four Rupees Four Annas each: Besides the Haldarree, there are Fees paid to the Câces and Mustees: The former receive from the principal Inhabitants Two Rupees; from the Second Class One Rupee Eight Annas; and from the lowest Class One Rupee: The Fees of the Mustees are received from the Musicians, and other People who officiate at the Festival; so that, on the Whole, the Fees of Marriage may be estimated at Six Rupees for each, exclusive of the Dues, or voluntary Benefactions of the Gentoos to their Brahmins."

"The Committee are of Opinion, and resolve accord-" ingly, that all the Fees and Taxes of this Article, " which produce a Revenue to Government, be abolish-" ed, as tending to discourage Population; an Object " at all Times of Importance to Government, but more " especially at this Time, from the great Loss of In-" habitants, which the Country has fultained by the " late Famine, and the Mortality which followed it: " They are further of Opinion, that the abolifhing of " the Fees to the Câzee and Muftee will afford a great "Relief to the Inhabitants, as it will not only absolve " them from the Fees themselves, but also from the " Effects of the opprefive Mode in which there Dues " are exacted: But on this Subject they judge it will be " more proper to come to a general Resolution at the " City, and therefore postpone the further Consideration " of it until their Arrival at that Place."

We have judged it necessary to add to the Regulations, with respect to the Courts of Phousdarree, a Proposal for the Suppression and Extirpation of Decoits, which will appear to be dictated by a Spirit of Rigour and Violence, very different from the Caution and Lenity of our other Propositions, as it in some Respect involves the Innocent with the Guilty. We wish a milder Expedient could be fuggested; but we much fear, that this Evil has acquired a great Degree of its Strength from the Tenderness and Moderation which our Government has exercised towards those Banditti, fince it has interfered in the internal Protection of the Provinces. We confess that the Means which we propose can in no wise be reconcileable to the Spirit of our own Contravion; but till that of Bengal shall attain the fame Perfection, no Conclusion can be drawn from the English Law, that can be properly applied to the Manners or State of this Country. The Decoits of Bengal are not like the Robbers in England, Individuals driven to fuch desperate Courses by sudden Want: They are Robbers by Profession, and even by Birth: They are formed into regular Communities, and their Families sublist by the Spoils which they bring home to them; they are all therefore alike criminal; Wretches who have placed themselves in a State of declared War with Government, and are therefore wholly excluded from every Benefit of its Laws. We have many Instances of their meeting Death with the greatest Insensibility; it loses therefore its Effect as an Example; but when executed in all the Forms and Terrors of Law, in the Midst of the Neighbours and Relations of the Criminal; when these are treated as Accessaries to his Guilt, and his Family deprived of their Liberty, and separated for ever from each other, every Passion, which before ferved as an Incentive to Guilt, now becomes subservient to the Purpoles of Society, by turning them from a Vocation, in which all they hold dear, besides Life, becomes forfeited by their Conviction; at the same Time, their Families, instead of being lost to the Com-

munity, are made useful Members of it, by being adopted into those of the more civilized Inhabitants. The Ideas of Slavery, borrowed from our American Colonies, will make every Modification of it appear, in the Eyes of our own Countrymen in England, a horrible Evil; but it is far otherwise in this Country; here Slaves are treated as the Children of the Families to which they belong, and often acquire a much happier State by their Slavery, than they could have hoped for by the Enjoyment of Liberty; fo that, in Effect, the apparent Rigour, thus exercifed on the Children of convicted Robbers, will be no more than a Change of Condition, by which they will be no Sufferers; though it will operate as a Warning on others, and is the only Means which we can imagine capable of diffipating these defperate and abandoned Societies, which sublist on the Distress of the general Community.

Revenue Department, Fort William, 3d Nov. 1772.

A Plan for the Administration of Justice; extracted from the Proceedings of the Committee of Circuit, 15th August 1772.

I.
That in each District shall be established Two Courts of Judicature, one by the Name of Mosussul Dewannee Adawlut, or Provincial Court of Dewannee, for the Cognizance of Civil Causes; the other by the Name of Phousdarree Adawlut, or Court of Phousdarree, for the Trial of all Crimes and Misdemeanors.

That for the better afcertaining the Jurisdiction of each Court, and to prevent Confusion, and a Perversion of Justice, the Matters cognizable by each respectively are declared to be as follows:

All Disputes concerning Property, whether real or personal; all Causes of Inheritance, Marriage, and Cast; all Claims of Debt, disputed Accounts, Contracts, Partnerships, and Demands of Rent; shall be judged by the Dewannee Adawlut.

But from this Distribution is excepted the Right of Succession to Zemindarrees and Talucdarrees, which shall be left to the Decision of the President and Council.

All Trials of Murder, Robbery, and Theft, and all other Felonies, Forgery, Perjury, and all Sorts of Frauds and Misdemeanors, Assaults, Frays, Quarrels, Adultery, and every other Breach of the Peace, or violent Invasions of Property, shall be submitted to the Phousdarree Adawlut.

III

That in the Provincial Court of Dewannee, the Collector of each District shall preside on the Part of the Company, in their Quality of King's Dewan, attended by the Provincial Dewan, appointed by the President and Council, and the other Officers of the Cutcherry; that the Court shall be regularly held on every Monday and Thursday, and oftener if Necessity require; and that no Causes shall be heard or determined but in the open Court regularly assembled.

That in the Phousdarree Adawlut, the Câzee and Mustee of the District, and Two Moulavies, shall sit to expound the Law, and determine how far the Delinquents shall be guilty of a Breach thereof; but that the Collector shall also make it his Business to attend to the Proceedings of this Court, so far as to see that all necessary Evidences are summoned and examined, that due Weight is allowed to their Testimony, and that the Decision past is fair and impartial, according to the Proofs exhibited in the Course of the Trial; and that no Causes shall be heard or determined but in the open Court regularly assembled.

V. That

V

That in like Manner Two Superior Courts of Justice, shall be established at the Chief Stat of Government, the one under the Denomination of the Dewannee Sudder Adawlut, and the other the Nizamut Sudder Adawlu.

That the Dewannee Sudder Adawlut shall receive and determine Appeals from the Provincial Dewannee Adawlut; that the President, with Two Members of the Council, shall preside therein, attended by the Dewan of the Khalsa, the Head Canongos, and other Officers of the Cutcherry: In case of the Absence of the President, a Third Member of the Council to sit; that is to say, not less than Three Members to decide on an Appeal, but the whole Council may sit if they chuse it.

VII

That a chief Officer of Justice, appointed on the Part of the Nazim, shall preside in the Nizamut Adawlut, by the Title of Darogo Adawlut, affifted by the Chief Cazee, the Chief Mustee, and Three capable Moulavies; that their Duty shall be to revise all the Proceedings of the Phousdarree Adawlut; and in capital Cases by fignifying their Approbation or Disapprobation thereof, with their Realons at large, to prepare the Sentence for the Warrant of the Nazim, which shall be returned into the Mofussul, and there carried into Execution; that with respect to the Proceedings in this Court, a fimilar Controul shall be lodged in the Chief and Council, as is vested in the Collectors in the Diffricts; so that the Company's Administration, in Character of King's Dewan, may be fatisfied that the Decrees of Justice, on which both the Welfare and Safety of the Country fo materially depend, are not injured or perverted by the Effects of Partiality or Corruption.

That, in order to preserve the Dignity and Importance of the Two Superior Courts, there shall be Two Courts of Adawlut established at the Seat of Government, exactly on the same Plan as those of the Districts: In that of the Dewannee, a Member of the Council shall preside; and in that of the Phousdarree another Member of the Council shall exercise the Control specified in the Fourth Regulation: These Duties to be performed by the Members in Rotation.

IX

That, as nothing is more conducive to the Prosperity of any Country, than a free and easy Access to Justice and Redress, the Collectors shall at all Times be ready to receive the Petitions of the injured; and surther, to prevent their being debarred this Access from Motives of Interest, Partiality, or Resentment, in the Officers or Servants of the Cutcherry, that a Box shall be placed at the Door of the Cutcherry, in which the Complainants may lodge their Petitions at any Time or Hour they please; that the Collector shall himself keep the Key of this Box, and each Court Day have such Arzees as he may find in it read immediately in his Presence, by the Arizbeggy of the Cutcherry.

That in summoning from the Farmed Lands Persons complained against, or Evidences called on by the Parties, the Rule laid down in the Ninth Article of the Public Regulations is to be strictly adhered to. The Collector ought further to avoid, as studiously as possible, summoning any Persons from the Mosussul, who are any ways connected with the Revenue, during the Months of Bhadoom, Assin, Augun, and Poos, unless in Cases which call for immediate Enquiry and Example.

That, in order to facilitate the Course of Justice in trivial Causes, and relieve the Ryott from the heavy Grievance of travelling to a great Distance to seek for Redress, all Disputes of Property, not exceeding Vol. IV.

Ten Rupees, shall be decided by the Head Farmer of the Pergunnah to which the Parties belong; and his Decree shall be final.

XII.

That the Process observed for trying Causes, in the Provincial Dewannee Adawlut, shall be as follows.— First, To file and read the Petition of the Complainant. Secondly, To allot a limited Time for the Desendant to give Answer, which when received shall also be filed and read.—Thirdly, To hear the Parties, viva voce, and, if necessary, examine Evidences. And lastly, To pass Decree.—That is, in adhering to this Order of Process, the Desendant shall evade or delay giving Answer within the limited Time, Judgment shall pass against him.

XII

That complete Records shall be kept in the Mosusul Dewannee Adawlut, in which shall be inserted the Petition of the Complainant, the Answer of the Desendant, the subsequent Process, and Examination of Evidence, and finally the Decree; that upon Decree being passed, both Parties shall be furnished with a Copy thereof, free of Expence, and that such Copies shall be authenticated under the Public Seal and the Signing of the Collector: That a Copy of the Records entire shall be also transmitted Twice a Month to the Sudder Dewannee Adawlut, through the Channel of the President and Council.

XIV.

That each Collector shall also keep an Abstract Register of his Adawlut, in English, containing the Names of the Plaintist and Defendant, the Substance of the Suit, the Substance of the Decree, the Date of the Cau'e being filed, and the Date of the Decree being passed; and this Abstract also shall be transmitted Twice a Month to the Sudder Dewannee Adawlut.

XV.

That as the Litigiousness and Perseverance of the Natives of this Country, in their Suits and Complaints, is often productive, not only of Inconvenience and Vexation to their Adversaries, but also of endless Expence and actual Oppression, it is to be observed as a standing Rule, that Complaints of so old a Date as

Years shall not be actionable: And further, should they be found guilty, as is often the Case, from the Principles above-mentioned, of slying from the one Court to the other, in order to prevent and protract the Course of Justice, the Party, so transgressing, shall be considered as nonsuited, and shall, according to his Degree in Life, and the Notoriety of the Offence, be liable to Fine or Punishment.

N. B. By the Mahometan Law, all Claims which have lain dormant for Twelve Years, whether for Land or Money, are invalid.—This also is the Law of the Hindoos, and the legal Practice of the Country.

XVI.

That the Custom of levying Chout, Dussutra, Puchuttra, or any other Fee or Commission, on the Account of Money recovered, or Etlak on the Decision of Causes, as well as all heavy arbitrary Fines, is absolutely and for ever abolished.

XVII.

That as, however Cases may occur, in which it will be highly necessary, for the Welfare of the Community, to curb and restrain trivial and groundless Complaints, and to deter Chicane and Intrigue, which Passions amongst these People often work to the Undoing of their Neighbours, a Discretion shall in such Cases be left to the Court, either to impose a Fine, not exceeding Five Rupees, or instict corporal Punishment, not exceeding Twenty Lashes with a Rattan, according to the Degree of the Offence, and the Person's Station in Life.

That in adjusting the Claims of old Debts, it shall be observed as a Rule, that they bear no further Interest 4 U

after such Adjustment, but that the Amount shall be payable by Kiffbundee, according to the Circumstances of the Party: And as the Rates of Interest, hitherto authorized by Custom, have amounted to the most exorbitant Usury, the following Rates are now established to be received and paid, as well for past Debts as on future Loans of Money; viz. On Surns not exceeding One hundred Rupees Principal, an Interest of Three Rupees Two Annas per Cent. per Mensem, or Half an Anna in the Rupee: On Sums above One hundred Rupees Principal, an Interest of Two Rupees per Cent. per Mensem, the Principal and Interest to be discharged according to the Condition of the Bond; and all Compound Interest, arising from an intermediate Adjustment of Accounts, to be deemed unlawful and prohibited: When a Debt is fued for upon a Bond, which shall be formed to specify a higher Interest than the established Rates, the Interest shall be wholly forfeited to the Debtor, and the Principal only recoverable; and that all Attempts to elude this Law, by Deductions from the original Loan, under whatever Denomination, shall be punished by a Forfeiture of One Moiety of the Amount of the Bond to the Government, and the other Half to the Debtor.

XIX.

That all Bonds shall be executed in the Presence of Two Witnesses.

XX.

That whereas it has been too much the Practice in this Country for Individuals to exercise a judicial Authority over their Debtors, a Practice, which is not only in itself unlawful and oppressive, seeing a Man thereby becomes the Judge in his own Cause, but which is also a direct Instringement of the Prerogative and Powers of the regular Government; that Publications shall therefore be made, forbidding the Exercise of all such Authority, and directing all Persons to prefer their Suits to the established Court of Adawsut; and that the Collector shall particularly attend to this Regulation, which, it is apprehended, will prove a great Means of Relief to the helpless Ryott, from his merciless Creditor the Money Lender.

XXI.

That in all Cases of disputed Property, regarding Lands, Houses, Landmarks, &c. where a local Investigation is required, an Aumin shall be chosen with the mutual Consent of the Parties; or, if they cannot agree in the Choice of one Person, each shall have the Privilege of nominating his own, and the Collector shall decide upon their joint Report of Circumstances. The Collector is also to attend, that the Aumins do not accumulate Expences by unnecessary Delays, but that their Scrutinies and their Wages be limited to the Time he judges sufficient for performing the Service in question. The Expence of the Inquiry to be defrayed by the Person who is cast.

XXII.

That in all Cases of disputed Accounts, Partnerships, Debts, doubtful or contested Bargains, Non-performances of Contracts, and so forth, it shall be recommended to the Parties to submit the Decision of their Cause to Arbitration, the Award of which shall become a Decree of the Dewannee Adawiut; the Choice of the Arbitrators is to rest with the Parties, but they are to decide the Cause without Fee or Reward. The Collector, on the Part of Government, is to afford every Encouragement in his Power to Inhabitants of Character and Credit to become Arbitrators, but is not to employ any coercive Means for that Purpose.

XXIII.

That in all Suits regarding Inheritance, Marriage, Cast, and other religious Usages or Institutions, the Laws of the Khoran with respect to Mahometans, and those of the Shaster with respect to Gentoos, shall be invariably adhered to: On all such Occasions, the Moulavies or Brahmins shall respectively attend to expound the Law,

and they shall sign the Report, and assist in passing the Decree.

XXIV.

That the Decree of the Provincial Dewannee Adawlut, on all Causes for Sums not exceeding Five hundred Rupees, shall be final; but that for all above that Amount, an Appeal shall lie to the Sudder.

XXV.

That the Court shall have a Right of decreeing to the Party, in whose Favour Judgment is given, any specific Sum for Costs within the real Amount, or in general to decree with Costs. The Bill in both Cases to be taxed by the Court.

XXVI.

That Persons sound guilty of preferring groundless, litigious, or vexatious, Appeals, shall be punished at the Discretion of the Sudder Dewannee Adawlut, by an Enhancement of the Costs, which shall be given to the Respondent, as a Compensation for the Trouble and Expence which he shall have sustained.

XXVII.

That complete Records shall be kept, and transmitted from the Provincial Phousdarree Adawlut to the Nizamut Sudder Adawlut, Twice every Month, through the Channel of the President and Council. This exclusive of the Proceedings in Trials for capital Crimes, which are to be transmitted as soon as closed.

XXVIII.

That the Collector shall also keep an Abstract Register, in English, of the Proceedings of this Court, in which shall be inserted only the Names of the Prisoners, the Crimes or Offences of which they stand charged, and the Sentence or Acquittal, which shall be transmitted in like Manner, Twice every Month, to the Sudder Adawlut.

XXIX.

That the Authority of this Court shall extend to corporal Punishment, Imprisonment, sentencing to the Roads, and Fines, but not to the Life of the Criminal. In capital Cases the Opinion of the Court, with the Evidences and Defence of the Prisoner, shall be transmitted to the Nizamut Adawlut, and having obtained their Confirmation, it shall be ultimately referred to the Nazim for his Sentence, which shall be carried into immediate Execution, as directed in the Seventh Article.

XXX.

That Perfons guilty of petty Misdemeanors, whose Rank, Cast, or Station in Life, shall be thought to exempt them from corporal Punishment, may be made liable to Fines; but should such Fines be laid for a larger Sum than One hundred Rupees, they are not to be inforced or levied without the Confirmation of the Nizamut Adawlut; for which Purpose they are to be immediately reported, with a State of the Case, and the Cause of their being imposed.

XXXI.

That as the Forfeiture and Confiscation of the Property and Effects of Delinquents sentenced to the Loss of Life may often occur, it is to be observed that such Forfeiture and Confiscation is not to depend on the Provincial Phousdarree, but upon the Nizamut Adawlut: It is to be a standing Rule therefore, to transmit, with the Proceedings of the Trial, an Account of the Property and Effects of the Delinquent, and wait the Orders of the Sudder, whether they are to be surrendered to the Heirs, or confiscated to the State: In the latter Case a Sale is to be made, and the Amount brought to public Account.

XXXII.

That whereas the honourable Company, from Motives of Tenderness, and Solicitude for the Peace and Happiness of the Ryotts, have determined to abolish the Revenue which has hitherto arisen from the Collections of the Phousdarree Bazee Jumma, the same is accordingly to be made public; the Court is still to take Cognizance

of all fuch Offences, but shall inslict no other Punishment for them than Stripes or Imprisonment, or Damages to the Party injured.

XXXIII.

That the same Motives of Regard for the Tranquillity and Happiness of the Ryotts, having induced the Government to relinquish the Revenue arising from the Raffooms, or Fees of the Câzee and his inferior Officers, of which the Inhabitants have long complained as a fevere Grievance, the Câzee and Muftee are therefore introduced in the List of Adawlut Officers at a Monthly Salary: In this Capacity they are to continue to attest all Writings, to perform all Ceremonies of Marriages, Births, and Funerals, and to discharge all their other Functions as was customary heretofore; and as they are thus to be supported at the Expence of Government, they are to exact no Fees, Dues, or Taxes whatfoever: Any Present or Gratification, made with the entire free Will of the Party, on the Occasion of a Marriage or of a Funeral, is not prohibited by this Regulation; but if upon Complaint it shall appear that Force or any other undue Influence has been used to extort such Gratifications, the Câzee or Muftee fo convicted shall be ipfo facto difinified from his Office, with Marks of public Difgrace.

XXXIV.

That the Office of Yetasaub, having become obsolete, is now totally abolished; but that the Câzee and Mustee shall be allowed each Two Deputies for performing the Duties of their Office in the Pergunnahs; these to be stationed by the Collector at such convenient Distances, as that the Ryotts may not have above One Day's Journey to perform for calling in their Assistance.

XXXV.

That whereas the Peace of this Country hath for fome Years past been greatly disturbed by Bands of Decoits, who not only infeft the High Roads, but often plunder whole Villages, burning the Houses, and murdering the Inhabitants: And whereas these abandoned Outlaws have hitherto found Means to elude every Attempt, which the Vigilance of Government hath put in force, for detecting and bringing such atrocious Criminals to Justice, by the Secrecy of their Haunts, and the wild State of the Districts, which are most subject to their Incursions, it becomes the indispensable Dury of Government to try the most rigorous Means, fince Experience has proved every lenient and ordinary Remedy to be ineffectual: That it be therefore resolved, that every fuch Criminal, on Conviction, shall be carried to the Village to which he belongs, and be there executed, for a Terror and Example to others; and for the further

Prevention of fuch abominable Practices, that the Villages of which he is an Inhabitant shall be fined, according to the Enormity of the Crime, and each Inhabitant according to his Substance, and that the Family of the Criminal shall become the Slaves of the State, and be disposed of for the general Benefit and Convenience of the People, according to the Discretion of the Government.

XXXVI.

That the Tannadars and Pikes of the Districts shall be punished by Dismission, or Fines, if they neglect the Duties of their Charge; and as an Encouragement for them to exert themselves in the Protection of the Villages committed to their Care, and in detecting, opposing, and bringing to Justice, all Decoits and other Offenders against the public Peace, pecuniary Rewards, Grants of Lands, or particular Privileges and Immunities, shall be granted them, proportioned to their Deserts, and the Services which they shall have rendered the State.

XXXVII.

That, in Addition to these general Regulations, the Collector shall form such subsidiary ones for promoting the due Course of Justice, and the Wessare and Prosperity of the Ryotts, as the local Circumstances of their respective Districts shall point out and require, and that they shall report the same to the Committee of Circuit, in order to their being communicated to the Board, for their final Sanction and Confirmation.

That they shall in particular, and without Delay, regulate and transmit for Confirmation, the Fees to be received by all Peons and Pikes employed in the Service of the Courts of Adawlut, which can only be done with Accuracy from Information on the Spot. And that they shall further establish such Rules, with Penalties annexed, as may serve effectually to eradicate the Practice among the Officers and Servants of the Cutcherry, of exacting and receiving Bribes from the Parties who have Causes in Suit; a Practice not only criminal in the Persons who are guilty of it, but which reslects Discredit and Reproach on the Government under which they serve.
