PREFACE

The Statistical Abstract of Madhya Pradesh presents the first systematic and co-ordinated effort to pool together all the available economic and statistical information relating to Madhya Pradesh in one handy reference book. The information given in the Abstract has been obtained from various sources which are engaged in the collection of primary statistical data. In many cases, this information is already available in the Annual Administration Reports of the different departments, in some *ad-hoc* publications of the State Government and in the periodic returns and statements submitted by the State Government to the Centre. The available information is, however, so much scattered and diffused in a number of reports and publications issued at various intervals that it is well-nigh impossible for an individual to have access to the desired information, when required. It is with a view to meet this urgent need that all the available statistical information has been pooled together, co-ordinated and arranged under appropriate heads. The publication is intended to serve as a handy source of reference and also a key to other statistical publications issued by other departments and organisations.

The data are presented for the State as a whole, and wherever possible, information for individual districts has also been given. More detailed information under each head is available in the relevant publications mentioned at the end of each table. Short explanatory notes have been given at the beginning of each section, explaining the scope and coverage of the data, agencies engaged in the collection of such data, period to which the data relate and the meaning and content of the various economic and statistical terms used. It is necessary to look into the short explanatory note before any attempt is made to analyse and interpret the data. In compiling the Abstract, all attempts have been made to give latest information relating to all important aspects of the socio-economic life of Madhya Pradesh. In the preparation of this Abstract, the Directorate has received valuable help and assistance from all the departments of the State Government.

M. M. MEHTA,

D.PHIL., D.LITT. (ECON.),

NAGPUR:

Director of Economics and Statistics,

The 14th July 1955.

Madhya Pradesh.

CONTENTS

<i>Serial No.</i> (1)	<i>Section</i> (2)	<i>Page</i> (3)
1	Climate and Rainfall— Rainfall, normal and actual temperature : monthly maximum and minimum, monthly mean-sunshine.	1

21	Mineral Production— Number of different mines, production, value of minerals: Output of coal.	592
22	Labour— Employment: Factories, mines, shops and commercial establishments, employment exchanges—Earnings—Accidents—Workmen's Compensation: Industrial Disputes—Labour housing—Labour training: Labour welfare: Dispensaries, creches, canteens, education: Cost of Living Index Number.	595
23	Trade Unions — Registered trade-unions—Workers' unions, employers' unions—Number, membership, income, expenditure and funds.	635

<i>Serial No.</i>	<i>Section</i>	
(1)	(2)	(3)
24	Local Bodies— Population, constitution, income, expenditure, corporations, municipalities, districts and local boards, municipalities with population of 50,000 and above.	643
25	Industrial Production— Manufacturing industries : number of factories, capital structure, employment, man-hours, cost, products, value added by manufacture.	647
26	Special Industries— Cotton, jute, paper, breweries : Number, capital, employment, production, etc., ginning and pressing factories : Employment, cotton bales pressed : Number of handlooms.	673
27	Transport— Number of vehicles taxed, new registered, number of drivers, motor vehicle's fees and taxes, accidents.	681
28	Roads— Milcage of surfaced roads, expenditure from the Road Development Fund.	693
29	Inland Trade— Imports and exports of selected commodities	701
30	Planning and Community Development— Planning and Community Development : Progress, Financing of the plan. Progress of irrigation, production of foodgrains, community project : Progress, list, national extension service : Area of population, list of blocks, work done.	714
31	Prohibition— Consumption, smuggling, issue price rates and revenue of hemp, opium : Cases, consumption of country spirit : Excise revenue, fines : Number of permits issued : Number of productions started : Budgets and actuals of excise revenue of Madhya Pradesh.	723
32	Tribal Welfare— Scheduled tribes : List, population, scheduled tribes declared area : Targets for the First Five-year Plan : Grants paid : Tribal Welfare Institutions : Expenditure, Progress of education, Medical aid given to tribal communities.	730
33	Miscellaneous— <i>Election—</i> Number of constituencies, seats, electors, voters and results of elections to Legislative Assembly and the House of People. <i>Electricity—</i> Production, Consumption of electricity	739 739

STATISTICAL ABSTRACT OF MADHYA PRADESH

CLIMATE AND RAINFALL

Explanatory Note

The climate statistics are recorded at 24 observatories in the State by the Central Meteorological Department, Government of India, and the rainfall statistics are recorded at 254 rain-recording stations maintained by the Land Records Department of the State Government and the Central Meteorological Department.

Rainfall—

2. Rainfall statistics are recorded on each day at 08.30 hours I. S. T. at all the rain-recording stations throughout the State. These statistics are compiled and consolidated by the Land Records Department, Madhya Pradesh, and are published every month both by the Land Records Department and the Central Meteorological Department. The table Nos. 1 to 22-A show rainfall statistics from the years 1909-10 to 1951-52. For the districts of Surguja, Raigarh and Bastar, data are presented from 1948-49, as these districts were integrated in that year.

3. Table Nos. 1 to 22-A show monthly rainfall statistics according to fair rainy seasons, viz. (1) Early Monsoon, (2) Late Monsoon, (3) Cold Weather, (4) Hot Weather, and the number of rainy days in the month or year.

4. The data are published in great detail by the Land Records Department, Madhya Pradesh, in the "Monthly Tables of Rainfall".

Temperature—

5. Temperature readings are recorded at all observatories in the State by the Central Meteorological Department, and are consolidated in the form of Monthly Weather Reports. Table Nos. 23 to 27 show the monthly data for mean maximum temperature, mean minimum temperature, mean temperature, highest maximum and lowest minimum temperature recorded during the months. Mean temperature is the average of the maximum and minimum temperatures. The tables present data from the year 1949-50 to 1953-54.

Sunshine—

6. In this State, Sunshine statistics are recorded only at Nagpur (Sonogaon) observatory. Table No. 28 shows the monthly data from the years 1946-47 to 1953-54. Bright Sunshine is the condition at the Earth's surface, when the Sun casts a well-defined shadow

AREA AND POPULATION

Explanatory Note

This section gives in an abstract form the available data relating to area and population of Madhya Pradesh. The main source for these data is the decennial Census Reports published by the Registrar-General and Census Commissioner, Government of India, and the Superintendent of Census Operations, Madhya Pradesh.

2. As a result of constitutional changes in India, the area figures of 1941 Census are not comparable with the area figures of 1951. The change in area is mainly due to the integration of the Chhattisgarh and Bhopal Agency States soon after the attainment of Independence. As a result of this integration the areas of districts of Durg, Jabalpur, Hoshangabad and Nimar have either been enlarged or reduced. The areas of these districts as given in the Census of 1941 are not comparable with the areas given in the Census of 1951. In addition, three new districts came into existence as a result of integration of States, namely, the districts of Raigarh, Bastar and Surguja. But wherever comparative figures of previous Censuses are given the effect of the changes in area is taken into account and the population of the areas concerned has been duly adjusted.

3. Table No. 30 gives the growth of population in Madhya Pradesh. This growth shows the mean decennial growth rate which is arrived at by expressing the difference between the general population totals of two successive Censuses as a percentage of the arithmetic mean of these totals. Data relating to Civil condition as shown in table No. 48 are based on sample extracted during the process of tabulation at the time of Census operations.

4. For the purposes of Table Nos. 32, 34, 35, 36, 38, 39 and 40 localities with a population of 5,000 or more have generally been regarded as "urban" while those with a population of less than this number have been classed as "rural". However, all places with municipalities as well as places having urban characteristics have been treated as towns in spite of their population being below 5,000. The number of such towns is 16.

5. In table No. 42 the total population is divided into two main livelihood categories, viz., Agricultural and Non-Agricultural. Each main category is again sub-divided into four sub-categories, or groups, namely, (1) Cultivators of land wholly or mainly owned and their dependents, (2) Cultivators of land wholly or mainly unowned and their dependents, (3) Cultivating labour and their dependents, (4) Non-cultivating owners of land, agricultural rent receivers and their dependents in the case of the former, and (1) Production other than cultivation, (2) Commerce, (3) Transport, (4) Other services and Miscellaneous in the case of latter.

6. Table No. 43 gives the number of self-supporting persons per 1,000 of the total agricultural and non-agricultural classes, number of earning dependents per 100 self-supporting persons and number of non-earning dependents per 100 self-supporting persons for each livelihood sub-classification mentioned above.

No. 29.—THE STATE OF MADHYA PRADESH

Area	130,272 square miles.
Districts	22
Tahsils	111
Towns	142
Villages	48,444
Population	21,247,533
Urban Population	2,877,339
Rural Population	18,370,194
Percentage of Urban Population ..	13.54
Percentage of Rural Population ..	86.46
Density of Population	163.10 per square mile.
Net percentage Variation 1941—51 ..	8.2

MIGRATION Explanatory Note

Three tables showing the movement of population have been given in this section. Table No. 54 shows the distribution of the total enumerated population of Madhya Pradesh by birth places for the Censuses of 1901, 1911, 1921, 1931 and 1951. Table No. 55 gives the detailed classification of persons of foreign birth according to the countries of birth. The figures relate to the Census of 1951. The figures shown against Pakistan include figures of displaced persons from Pakistan.

The column (2) of Table No. 56 shows the persons enumerated in Madhya Pradesh, but who were born in the states listed in column (1). While column (3) gives the number of persons born in Madhya Pradesh who were enumerated in other states mentioned in column (1).

No. 54.—THE MIGRATION PATTERN SINCE 1901

PUBLIC HEALTH AND VITAL STATISTICS

Explanatory Note

Available information concerning Vital and Public Health Statistics in Madhya Pradesh is shown in abstract form in the tables under this section. Data in greater detail are published by the Director of Health Services (Medical and Health Sections) in the Annual Administration Reports from which most of the information given in the tables has been compiled. The latest year for which data are available is 1950 in most cases. Up to 1947, the figures of births and deaths relate to registration areas of the State before merger of the States of Chhattisgarh and Bhopal Agency. Figures from 1947 onwards relate to the present State of Madhya Pradesh.

2. Birth-rates and death-rates shown in Tables Nos. 57 to 61 are the rates per thousand of mid-year population. The infant mortality rates are expressed as the number of deaths amongst infants under one year of age per thousand live-birth recorded during the period.

3. Though the three districts of Raigarh, Surguja and Bastar were merged in the year 1948, Public Health Statistics for these districts are not available, and information presented in the tables in this section does not include figures for these three districts.

4. Vital Statistics for principal towns in Madhya Pradesh have been given separately in Table No. 62.

No. 57.—BIRTHS AND DEATHS IN MADHYA PRADESH AND RATIO OF BIRTHS AND DEATHS CLASSIFIED ACCORDING TO SEX, URBAN AND RURAL AREAS, AND SEASONS FROM 1938 TO 1952

EDUCATION

Explanatory Note

The Statistics presented in this Section have been made available by the Office of the Director of Public Instructions and relate to the period from 1939-40 to 1952-53.

2. Data presented in the tables below relate to recognised and unrecognised institutions. The statistics given in the tables do not contain figures relating to social education. Expenditure on education shown in the relevant tables relates only to recognised institutions and includes expenditure incurred by the Education Department, and other Government Departments and met from local board funds, fees and other sources. It also includes the expenditure incurred by the Civil Works Department for the construction of school buildings, but it excludes expenditure incurred on physical education. The data under the Category Indian-English Middle Schools do not include the figures of Middle Departments attached to High Schools since 1949-50. From 1949-50 onwards the data relating to High Schools is inclusive of the figures the Middle Departments attached to High Schools.

3. Table No. 77 gives the general summary of institutions, schools, teachers and expenditure from 1939-40 to 1952-53.

4. In table No. 78 data relating to types of institutions have been given from 1939-40 to 1952-53. The institutions are classified separately for males and for females. The recognised institutions are classified as Colleges for General and Professional Education, School Education and Schools for Professional and Special Education.

5. Table No. 79 gives the number of scholars both in recognised and unrecognised institutions separately for boys and for girls. The recognised institutions are further classified as Colleges for General and Professional Education, School Education and Schools for Professional and Special Education.

6. Table No. 80 shows the indirect expenditure and the direct expenditure incurred on the various institutions classified as institutions for males and institutions for females. Table shows the sources from which the expenditure is met.

7. Table No. 81 shows the number of teachers in various institutions classified according to the types of management viz., Government Schools, Local Board and Municipal Schools, Aided and Non-Aided Schools. The teachers are classified by sex. They are further classified as trained and untrained. The figures in this table relate only to recognised institutions.

8. Table No. 82 gives information relating to the number of institutions, scholars and teachers and total expenditure on education in rural areas from 1939-40 to 19

9. The table Nos. 83 and 84 give the number of scholars belonging to scheduled castes and other backward communities. The scholars have been divided into scholars taking General Education and those taking Vocational and Special Education. The information till the year 1948-49 relates only to scholars belonging to Scheduled Castes, while from 1952-53 the information relates to the scholars belonging to Scheduled Castes and other Backward Communities.

10. Data given in table No. 85 shows the results of various examinations. From the year 1939-40 to 1948-49 the results were classified as Degree Examinations, Intermediate and School Examinations, but from 1949-50 onwards the results have been given according to the new *pro forma* prescribed by the Ministry of Education, Government of India, and they are now classified according to nature of study such as Arts and Science, Medicine, Veterinary, Agriculture, Technology, Commerce, Law, Oriental Learning, Intermediate or Diploma and School examinations.

PRESS

Explanatory Note

Tables given in this section have been compiled from the Madhya Pradesh Newspaper Industry Enquiry Committee, Central Provinces and Berar, 1948; the Indian Press Year Book, 1954, and the Report of the Press Commission, Government of India, 1954. Table No. 86 shows the number of newspapers and periodicals published in different languages in Madhya Pradesh. The latest year for which figures are available is 1953. Table No. 87 shows the number, circulation and retail prices of dailies in Madhya Pradesh.

REGISTRATION

Explanatory Note

Table No. 100 given under this section shows the number and description of various kinds of registered documents and value of property transferred. Property has been classified as movable and immovable. The data presented in the table relate to the years 1947 to 1953. Figures for 1953 have been given with district break downs.

POLICE AND CRIME

Explanatory Note

Crime statistics presented in this section have been compiled from the Annual Administration Reports of the Inspector-General of Police, Madhya Pradesh. The information relates to the period from 1947 to 1953. The figures relating to the years 1947 and 1948 under table No. 104 have not been given as coverage was not uniform during these years. For the same reasons figures for the year 1953 have been given in a separate table No. 101. All figures relate to the calendar year.

PUBLIC FINANCE

Explanatory Note

The tables presented in this section cover broadly all the aspects of transactions of the State Government during the period from 1937-38 to 1955-56. The figures represent the actual cash receipts and disbursements during the financial year from 1st April to 31st March, except for the years 1954-55 and 1955-56 for which revised and budget estimates, respectively, have been shown.

2. The Table No. 124 shows the financial transactions and the balances of the State Government. The Table No. 125 shows the current revenues and the expenditure on revenue account together with surplus or deficit for each of the years of 1937-38 to 1955-56. Principal Heads of revenue and expenditure have been given in considerable detail in tables Nos. 126 and 127. The various sources of revenues have been grouped according to their nature. Tax-revenue of the State Government are included in groups from I to V, while groups VI and VII show the sources of Non-tax revenues. Group VIII shows the grants-in-aid received, etc., from the Union Government. Likewise, the table No. 127 giving expenditure on revenue account has been classified into two major heads, *viz.*, development expenditure and non-development expenditure. Expenditure on social services and economic development are the two main items of the expenditure for developmental purposes. Table Nos. 126 and 127 show the trends in the State revenues and expenditure during the last 19 years.

3. Table No. 128 shows expenditure met usually from borrowed funds, and it includes capital expenditure incurred by the State Government on items like irrigation, civil works, industrial development, electricity development schemes, etc.

4. The table No. 129 shows the debt position of the State Government. It includes loans raised in the open market and loans advanced by the Government of India. Floating debt represent the temporary ways and means position of the State during the financial year.

5. The last two tables pertain to sales-tax administration in Madhya Pradesh. Table No. 130 shows, district wise, the number of registered dealers, collection of revenue from sales-tax and arrears for the years from 1950 to 1953. Table No. 131 depicts the progress of assessment work in regard to sales-tax for the above-mentioned period.

INCOME-TAX STATISTICS

Explanatory Note

Table Nos. 132 and 133 present Data regarding Income-tax demands made under the Indian Income-tax Act, 1922, on the assesses in Madhya Pradesh. The table Nos. 132 and 133 present figures from 1946-47 to 1952-53. These tables show the total number of assesses, total income assessed and the total tax demanded from the different classes of assesses, viz. (i) Individuals, (ii) Hindu undivided families, (iii) Unregistered firms and other Associations of persons, and (iv) Companies and other concerns assessable at company rate.

2. The table No. 134 gives the figures for the year 1953-54 classified according to the grade of total income. The classification according to grades is based on total income assessed after allowing deductions for Excess Profits Tax, Business Profits Tax and Earned Income Allowances and excluding income from capital gains.

PRICES CURRENT

Explanatory Note

In this section, wholesale harvest prices of important agricultural commodities are given. The index numbers have been calculated by taking the year 1939-40 as the base year.

The annual harvest prices for certain commodities are published every year by the Land Records Department, Madhya Pradesh.

BANKS

Explanatory Note

The tables in this section present a consolidated picture of banking offices at different places in Madhya Pradesh according to population at each place. The places have been divided into three categories, *viz.*, the places having population of 50,000 and above, 10,000 and above but less than 50,000 and less than 10,000. The data are given from the year 1916 and the latest year for which information is available is 1952. These tables have been compiled from the publications of Reserve Bank of India.

CO-OPERATION

Explanatory Note

Tables given in this section show in an abstract form the operations of various types of co-operative societies in Madhya Pradesh. The tables show the financial and capital structure of societies. The figures from 1948 include figures for the merged States also. Prior to 1949-50 the statistics did not relate to a uniform period, but from 1949-50 these relate to one uniform period, *viz.*, the year ended the 30th June. The data presented in this section have been compiled from the (Statistical Tables relating to Co-operative Societies" published by the Registrar of Co-operative Societies, Madhya Pradesh) and "Annual Reports on the Working of Co-operative Societies in Madhya Pradesh", published by the Registrar of Co-operative Societies, Madhya Pradesh.

AGRICULTURE

Explanatory Note.

Agricultural statistics in Madhya Pradesh are collected mainly through the primary revenue agencies and consolidated and published by Land Records Department, Madhya Pradesh. Data relating to the classification of area, acreage, yield of principal crops, number of live-stock and agricultural implements, and other statistics in the field of agricultural economics are presented in the following tables. The main sources of the data are the "Tables of Agricultural Statistics" and the "Season and Crop Reports" published every year by the Land Records Department.

2. Statistics relating to agricultural areas have been further classified into different categories, *viz.* (i) Total area according to village papers, (ii) Forest area, (iii) Area not available for cultivation, (iv) Other uncultivated land excluding current fallows, (v) Current fallows and (vi) The net area sown during the year. The consolidated tables giving information for the State includes the statistics regarding the area sown more than once and the irrigated area. These statistics relate to the period from 1909-10 to 1952-53.

Tables from 162 to 185 show the districtwise distribution of the area sown under important crops in the State. All these statistics have been compiled for the years 1909-10 to 1952-53.

3. Tables from 187 show the agricultural production of Rice (1919-20 to 1952-53), Juar (1930-31 to 1952-53), Kodon-Kutki (1942-43 to 1952-53), Til (1916-17 to 1952-53), Sugarcane (1919-20 to 1952-53), Wheat (1919-20 to 1952-53), Gram (1934-35 to 1952-53) and Linseed (1919-20 to 1952-53) for the years noted in brackets against each crop.

4. Table 192 shows the production of Cotton (from 1922-23 to 1950-51) in thousand bales. All these data have been compiled from the "Crop Forecasts" published by the Land Records Department, Madhya Pradesh. Wholesale Harvest Price Indices have been worked out by taking 1939-40 as the base year. For each crop wholesale harvest prices prevailing in important districts of Madhya Pradesh have been taken.

5. Table 197 shows the assessment of land revenue in different districts of Madhya Pradesh according to different systems of land tenures *viz.*, Raiyatwari, Zamindari and Government Forests prevailing in the State and other particulars of assessment. One consolidated table No. 198 (from the year 1946-47 to 1952-53) for the whole State is also given.

No. 156.— CLASSIFICATION OF AREA IN MADHYA PRADESH (1909-10 to 1952-53)

IRRIGATION

Explanatory Note

Irrigation statistics relating to the number of irrigation tanks and wells, the area under irrigation according to modes of irrigation and the area under irrigation according to crop distribution have been compiled from the "Tables of Agricultural Statistics", published by the Land Records Department, Madhya Pradesh.

2. Table No. 199 shows the number of irrigation wells and tanks from 1946-47 to 1952-53 for each district of the State. The data for the area irrigated by different sources are given from 1909-10 to 1952-53. The Table No. 206 shows the area irrigated under different crops, from 1946-47 to 1952-53.

3. Table No. 205 presents data of principal irrigation works and results of operation from 1946-47 to 1952-53. The information has been taken from the Annual Reports of the Public Works Department, Madhya Pradesh.

FORESTS

Explanatory Note

The tables in this section give forest statistics relating to the forest area under Forest Department. The table No. 207 shows the total forest area according to three circles under which forests under the Forest Department have been divided. The table Nos. 208 and 209 show the date of the major forest produce, *viz.*, timber and fuel and the value of minor forest produce. These statistics relate to the years 1946-47 to 1952-53.

2. The table No. 210 shows the area of forest tracts protected from fires, the area attempted to be protected, actually protected and the percentage of the actually protected area to total forest area under the Forest Department.

3. Statistics relating to the progress made in Forest Working Plans have been given according to different circles in which the State has been divided. These figures relate to the years 1946-47 to 1952-53.

4. All these statistics have been compiled from the "Annual Forest Administration Reports" of the Forest Department, Madhya Pradesh.

LIVE-STOCK AND AGRICULTURAL IMPLEMENTS

Explanatory Note

Data relating to the number of live-stock and poultry are collected through a quinquennial census conducted in all States, but in Madhya Pradesh statistics relating to the number of live-stock and poultry, the ploughing cattle and the number of agricultural implements are collected every year by the Revenue Department through the village revenue agencies in rural areas and through the Municipal or Notified Area Committees in urban areas.

2. Data for the number of live-stock and poultry relate to the period 1946-47 to 1952-53. From 1950-51 the statistics for pigs and poultry are also collected for every district of the State. Data for the number of ploughing cattle are available from 1909 to 1947-48, while the data for the number of different kinds of agricultural implements are available from the year 1946-47 to 1952-53.

3. All these statistics are published every year in the "Tables of Agricultural Statistics" issued by the Land Records Department, Madhya Pradesh.

MINERAL PRODUCTION

Explanatory Note

Figures given in the tables below relate to Act-mines in the State. Figures for the mines covered by the Indian Mines Act, 1922, are collected by the Chief Inspector of Mines, Dhanbad. The Geological Survey of India collect data for the Non-Act mines and consolidate the figures for all minerals Statewise. Data given in table No. 216 relate to Act and Non-Act mines. The data in table No. 216 have been obtained from the Director of Geology and Mining, Madhya Pradesh. The data given relate to the years from 1935 to 1955. The data for 1941 in the table Nos. 215 and 217 are not available.

LABOUR

Explanatory Note

Labour statistics shown in this section provide ample information in respect of various labour problems like employment, wages and earnings, employment service, industrial disputes, accidents, compensation, training, labour housing, etc. Details regarding the scope and coverage of labour statistics presented in this section are given below.

Employment.—Statistics of employment in factories and mines have been presented in table Nos. 218, 219, 220 and 221. Figures of employment in factories have been taken from the Annual Reports on the working of the Factories Act in Madhya Pradesh published by the Chief Inspector of Factories. Figures from 1939 to 1949 were collected under the old Factories Act, 1934, which covered factories employing 20 workers or more and using power besides factories employing 10 workers or more whether using power or not covered by notification under the Act. Under the Factories Act, 1948, the coverage has been extended so as to cover all factories employing 10 or more workers with the aid of power and 20 workers or more without the aid of power. The distinction—perennial and seasonal—maintained under the Factories Act, 1934, does not exist in the Factories Act, 1948. In table Nos. 218, 219 the term “number” refers to the total number of working factories subject to the Act. The Industrial classification of factories shown in table No. 217 has been drawn in conformity with the International Standard Industrial classification as adopted by the U. N. Statistical Commission. Another change introduced in this issue of the amalgamation of the two categories (i) Government and Local Fund factories and (ii) All other factories.

Average daily employment in factories shown in table No. 220 gives the number of factory workers according to age and sex groups. Under the Indian Factories Act, 1948, the following changes were made in the definition of adult, adolescent and children, as given in the Factories Act, 1934 :—

	Under Factories Act, 1934	Under Factories Act, 1948
(1)	(2)	(3)
Adult ..	One who has completed 17 years.	One who has completed 18 years.
Adolescent ..	One who has completed 15 years but not 17 years.	One who has completed 15 years but not 18 years.
Children ..	One who has completed 15 years (children below 12 years not permitted to work).	One who has not completed 15 years (children below 14 years not permitted to work).

Table No. 221.—Shows average number of persons employed daily in the production of minerals from mines in Madhya Pradesh. The figures represent the daily employment both above ground and below ground in Act-mines.

Shops and establishment.—Table No. 222 shows the number of different establishments registered under the Madhya Pradesh Shops and Establishment Act, 1947, and number of workers employed under each category.

Employment Service.—Statistics in this sub-section show the working of Employment Exchanges under the control of the Directorate of Resettlement and Employment, Ministry of Labour. The nature of work undertaken by the Employment Exchanges consists of registering people who are seeking employment and securing to the employed.

Table No. 223 shows the number of registration and placements of applicants through the Employment Exchanges.

Wages and earnings.—The statistics in respect of wages and earnings of the factory workers are collected under the Payment of Wages Act. "Wages" as defined in the Act cover all remunerations capable of being expressed in terms of money and payable under the terms of the contract. The provisions of the Payment of Wages Act apply to all factory employees, including clerical and supervisory staff whose monthly earnings do not exceed Rs. 200 per month.

These figures may be read with certain broad limitations, *i.e.* (i) the number of establishments furnishing returns may not be the same from year to year, (ii) the coverage of the statistics has been enlarged with the coming into force of the Factories Act, 1948, because thence forward, the definition of the factory has been extended to all factories working with the aid of power and employing 10 or more workers as also those working without the aid of power and employing 20 or more workers.

Table No. 224 shows total annual earnings of the factory workers from 1940 to 1953.

Table No. 225 shows the average annual earnings of factory workers from 1947 to 1953.

Table No. 226 shows average daily earnings of miners in some important mineral industries.

Industrial accidents.—Industrial accidents cover all accidents, occurring in factories or mines which result in either death or injury to a worker necessitating his absence from work for 48 hours or more.

Table No. 228 shows statistics of injuries resulting from accidents in factories, collected under the Factories Act, 1948, from all factories registered under the Act. The accidents have been classified into Fatal and Non-Fatal accidents. It also shows statistics of injuries resulting from accidents in mines collected under the Mines Act. Accidents have been classified into fatal, serious and minor accidents.

Industrial disputes.—Industrial disputes relate to strikes and lockouts resulting in stoppages of work involving 10 or more in all factories and mines.

Workmen's compensation.—Table No. 237 shows compensation paid to workers involved in the industrial accidents under the Workmen's Compensation Act. For the purposes of compensation, accidents have been divided into deaths, permanent disability and temporary disability. It may be mentioned here that the number of accidents reported under the Factories Act or Mines Act is slightly different from the number of accidents compensated under the Workmen Compensation Act on account of certain circumstances.

Labour housing.—Table No. 244 shows progress of industrial housing plans, initiated by the Government of India.

Labour training.—Table No. 244 shows progress of labour training scheme sponsored by the Ministry of Labour.

LOCAL BODIES

Explanatory Note

This section deals with statistics relating to the administration of local bodies, *viz.*, Corporations, Municipalities and Janapada Sabhas in Madhya Pradesh.

Figures for Corporations are given from 1950-51 to 1952-53. Figures for Municipalities have been given from 1947-48 to 1951-52 and for Janapada Sabhas from 1948-49 to 1950-51.

The table No. 259 contains under broad heads, information relating to the number of municipalities, total population within municipal limits, total income and total expenditure. Information regarding the number of Janapada Sabhas together with the number of members, elected, *ex-officio* and nominated, income and expenditure is contained in Table No. 262.

No. 256.—POPULATION OF CORPORATIONS, WITH INCOME AND EXPENDITURE, MADHYA PRADESH (1950-51 TO 1952-53)

*New administrative set up of Janapadas was introduced in this State with effect from the 15th August 1948 and as a result of this the 25 District Councils were abolished and were replaced by 96 Janapada Sabhas from the said date. Hence the information for the year 1948-49 has been given in two parts.

INDUSTRIAL PRODUCTION

Explanatory Note

This section gives the statistics of manufacturing industries of Madhya Pradesh from the years 1946 to 1951. They are compiled from the Reports on the Census of Manufactures published by the Director of Industrial Statistics, Ministry of Commerce and Industry, Government of India. The data are collected under the provisions of Industrial Statistics Act, 1942 and the Census of Manufacturing Industries Rules, 1945.

2. The figures relate to calendar years. Out of the 29 important industries covered at present under the Census, only 17 industries exist in the State. The figures presented in this section relate to only those industries in which the number of units are more than three.

3. The census is confined to manufacturing industries proper and only factories employing 20 or more workers and using power are covered.

4. Under the head capital, fixed capital and inventory are shown. Stocks of raw materials and fuels, stocks of finished products and by-products and semi-finished products in stock or in process are included in inventory. The other items of working capital such as cash-in-hand, cash-at-bank, book debits and credits have been excluded, as reliable and comparable figures on a continuous basis are not available. Wages and salaries also include cost of living or dearness allowances, overtime earnings and other additional payments made in cash.

5. Cost of materials includes the purchase values of raw materials, fuels, electricity gas, lubricants, etc., used in the production.

6. Value added by manufacture is computed by subtracting *ex*-factory value of fuels, and raw materials, etc., consumed, work done for the industry by other concerns and depreciation from the *ex*-factory value of products and by-products and work done by the industry for customers.

7. Asterisk (*) mark shows that the number of units in the industry is less than three and separate figures for Madhya Pradesh are not available.

8. Figures given under Vegetable Oil Industry (C. M. I-8) for the year 1951 do not include the figures of hydrogenated oil factories, as in 1951 Census the figures for this industry were separately compiled.

SPECIAL INDUSTRIES

Explanatory Note

In this section the data on Cotton Mill Industry, Handlooms, Gins and Presses are given. The data on Cotton Mill Industry, Gins and Presses are compiled from the Bombay Cotton Annuals published by the East India Cotton Association, Ltd., Bombay and Annual Reports of the Bombay Millowners Association, Bombay. The figures given relate to the years from 1938-39 to 1953-54.

2. Table No. 273 shows the districtwise distribution of handlooms.

TRANSPORT

Explanatory Note

The tables given in this section are compiled from the records of the State Transport Authority. The data given here relate to the years 1947-48 to 1953-54 for the four zones in which Madhya Pradesh has been divided.

2. The figures given in Table No. 275 relate to motor vehicles registered during each quarter of each of the years from 1950 to 1954.

3. Table No. 279 shows motor accidents for three years of 1951, 1952 and 1953.

IMPORTS AND EXPORTS (INLAND TRADE)

Explanatory Note

The figures of imports and exports have been taken from the "Accounts Relating to Indian (Rail-and River-borne) Trade in India" published monthly by the Directorate of Commercial Intelligence and Statistics, Calcutta. The quantities of 34 imported and exported articles are given in it and some of them are further subdivided. Except animals (where actual number is given), all the rest of the commodities are expressed in maunds. Data presented in the tables in this section relate to the period from 1934-1935 to 1953-54.

2. All the figures relate to financial year from April to March, but in the case of raw cotton the figures are for the cotton year beginning from September to August. Each maund is equal to $82\frac{1}{2}$ lbs.

METHOD OF REGISTRATION

3. The statistics are recorded on "import basis". According to the arrangement in force, each of the railways registers such traffic as is received at station on its line within a particular trade block from other trade blocks without taking into account the traffic *en-route* to a destination on a different railway system or to a station on the same system located outside that trade block. With a view to reducing the number of returns imports into stations on the minor railways are recorded by the major railways connecting them.

34	Mica (f)	Do.

• Figures incomplete.

† Not available.

NOTES.—(a) From 1936-37 onwards joint figures are available.

(b) From 1937-38 to 1946-47 joint figures for juar and bazra have been given. From 1947-48 onwards separate figures are available.

(c) From 1947-48 this group is split up into (i) Pulses other than gram (ii) Maize, millet other than juar and bazra and other sorts.

(d) From 1950-51 this group has been split up into (i) Castor cake and (ii) others. The joint figures of both are given.

(e) From 1942-43 onward this group is split up into (i) Coconut (ii) Groundnut and (iii) Others.

(f) From 1936-37 onwards the figures are not available.

(g) From 1950-51 onwards this group is split up into (i) Sugar (excluding Khandasari) and (ii) Khandasari. The figures include both (i) and (ii).

(h) From 1950-51 onwards this group is split up into (i) Gur, jaggery and shakkar and (ii) Molasses, etc. The figures given include both (i) and (ii).

21	Manganese Ore	11,793,433	20,581,853	14,201,163	20,060,745	11,036,636	17,767,267
22	Oilcakes (d)	807,782	886,122	787,815	758,240	834,294	723,874
23	Oils—									
	(i) Kerosene	8,353	7,217	9,953	11,716	18,850	10,377
	(ii) Vegetable oils (e)	26,063	32,508	57,144	37,834	80,743	134,168
	(a) Coconut (e)
	(b) Groundnut (e)
	(c) Others (e)
24	Oilseeds—									
	(i) Castor	8,323	26,551	12,992	19,464	12,905	21,814
	(ii) Cotton	1,600,971	1,067,026	1,862,686	1,142,802	1,521,221	1,585,106
	(iii) Groundnuts	37,160	28,030	50,848	36,100	35,029	33,550
	(iv) Linseed	678,199	617,242	472,272	945,436	1,213,893	1,746,818
	(v) Rape and Mustard	380,883	378,447	373,059	430,068	364,707	322,254
	(vi) Til or Jinjili	184,663	310,273	412,225	216,718	310,123	274,771
25	Ghee	22,843	23,451	20,673	39,306	36,497	24,262
26	Salt	13,672	10,511	10,989	12,239	11,308	11,227
27	Rubber raw
28	Salpetre (f)
29	Sugar—									
	(i) Sugar (g)	8,200	6,214	4,692	9,163	8,125	7,832
	(ii) Gur, rab, molasses, Jaggery etc. (h).	8,151	5,601	6,062	4,106	5,701	9,290
30	Tea	2,145	2,207	2,495	3,116	5,240	1,702
31	Tobacco raw	10,787	9,287	8,293	8,624	10,677	12,638
32	Wood and timber—									
	(i) Teak	245,385	270,195	354,125	351,623	316,546	482,088
	(ii) Other timber	2,178,107	2,233,545	1,941,426	2,250,027	2,114,907	2,690,531
33	Wool raw	144	626	814	543	867	1,152
34	Mica (f)	3	6	4

*Figures incomplete.

NOTE.—(a) From 1936-37 onwards Joint figures are available.

(b) From 1937-38 to 1946-47 joint figures of Juar and Bazaa are given and from 1947-48 onwards separate figures are given.

(c) From the year 1947-48 this group is split up into, (i) Pulses other than gram, (i) Maize, and (iii) Millet other than Juar and Bazaa.

(d) From 1950-51 this group has been split up into, (i) Castor cake and (ii) others. The figures of both are given.

(e) From 1941-42 onward this group is split up into, (i) Coconut, (ii) Groundnut and (iii) Others.

(f) From the year 1936-37 onwards the figure is not available.

(g) From the year 1950-51 onwards this group is split up into, (i) Sugar (excluding Khandsari) and (ii) Khandsari. The figures include both, (i) and (ii).

(h) From the year 1950-51 onwards this group is split up into, (i) Gur, Jaggery and Shakkar and (ii) Molasses, etc. The figures include both (i) and (ii).

***Figures incomplete.**

Notes.—(a) From 1936-37 onwards joint figures are available.

From 1937-38 to 1946-47 joint figures of Juar and Bazra are given and from 1947-48 onwards separate figures are given.

From the year 1947-48 this group is split up into, (i) Pulses other than gram, (ii) Maize, and (iii) Millet other than Juar and Bazra.

from 1950-51 this group has been split up into, (i) Castor cake and (ii) Others. The figures of both are given.

From 1941-42 onward this group is split up into, (i) Coconuts from the year 1936-37 onwards the figure is not available

(g) From the year 1950-51 onwards the figure is not available.
(g) From the year 1950-51 onwards this group is split up into, (i) Sugar (excluding Khandasari) and (ii) Khandasari. The figures include both (i) and (ii).

From the year

(i) and (ii).

PLANNING AND COMMUNITY DEVELOPMENT PROJECTS

Explanatory Note

The table presented in this section show the progress made in various fields under the First Five-Year Plan. Information given relates to the financing of the plan, progress of expenditure, production of foodgrains, progress of irrigation, power projects, etc. The statistics have been compiled from the Progress Report (1953-54) of the First Five-Year Plan published by the Planning Commission, Government of India. The statistics relating to Community Development Projects have been compiled from the Progress Report on the Community Development Projects and National Extension Service Blocks for the period ending the 31st December 1954.

PROHIBITION

Explanatory Note

In this section data regarding consumption, smuggling, issue prices, excise revenues from country spirits, hemp drugs and opium have been presented. The tables presented here show the effects of the progressive prohibition policy adopted by Government. Results of prosecutions under the Prohibition Act in Nagpur District have been given in table No. 311.

TRIBAL WELFARE

Explanatory Note

In this section Statistical information relating to Scheduled Tribes has been presented. The various tables presented in this section give the results of the various measures taken by the Government to ameliorate the conditions of tribal people. Wherever possible figures have been given from 1947-48 to 1953-54 except in certain cases where figures for earlier years were not available.

No. 312.—THE CONSTITUTION (SCHEDULED TRIBES) ORDER, 1950

In exercise of the powers conferred by clause (1) of Articles 342 of the Constitution of India, the President after Consultation with the Governors and Rajpramukhs of the States concerned, is pleased to make the following order, namely :—

1. This order may be called the Constitution (Scheduled Tribes) Order, 1950.
2. The tribes or tribal communities, or parts of or groups within, tribes or tribal communities, specified parts I to XIV of the Schedule to this order shall, in relation to the States to which those Parts respectively relate, be deemed to be Scheduled Tribes so far as regards members thereof resident in the localities specified in relation to them, respectively in those parts of that Schedule.
3. Any reference in the Schedule to this order to a district or other territorial division of a State shall be construed as a reference to that district or other territorial division as existing on the 25th January 1950.

THE SCHEDULE

Part IV—Madhya Pradesh

In—

- (1) Melghat taluq of Amravati district.
 - (2) Baihar tahsil of Balaghat district.
 - (3) Bhanupratappur, Bijapur, Dantewara, Jagdalpur, Kanker, Kondagaon, Konta and Narayanpur tahsils of Bastar district.
 - (5) Kathora tahsil of Bilaspur district.
 - (6) Sironcha and Gadhchiroli tahsils of Chanda district.
 - (7) Amarwara, Chhindwara and Lakhnadon tahsils of Chhindwara district.
 - (8) Balod (Sanjari) tahsil of Durg district.
 - (9) Mandla, Niwas and Ramgarh (Dindori) tahsils of Mandla district.
 - (10) Harsud tahsil of Nimar district.
 - (11) Dharamjaigarh Ghargoda, Jashpurnagar and Kharsia tahsils of Raigarh district.
 - (12) Ambikapur, Baikunthpur, Bharatpur, Janakpur, Manendragarh, Pal, Samari and Sitapur tahsils of Surguja district.

MISCELLANEOUS

ELECTORAL STATISTICS

Explanatory Note

In this section are the number of constituencies, number of seats, number of electors and voters and results of elections to the Legislative Assembly of Madhya Pradesh and to the House of People. In Table No. 322 are shown the names of constituencies, number of seats and number of electors and voters for the purposes of elections to the Legislative Assembly of the State. The election to the House of People and to the Legislative Assembly of every State shall be on the basis of adult suffrage; that is to say, every person who is a citizen of India and has attained the age of 21 years, if not otherwise disqualified shall be entitled to be a voter at any such elections. For the purposes of election to the House of People, the States have been grouped or formed into territorial constituencies and the number to be allotted for each such constituency has been determined so as to ensure that there shall be not less than one member from every 750,000 of the population and not more than one member from every 500,000 of the population. The Legislative Assembly of the State is to be composed of members chosen by direct election on a scale of not more than one member for every 75,000 of the population. The total number of members in the Legislative Assembly of the State is 232 and the total number of members elected to the House of People from the State is 29.

While all the seats in the Legislative Assembly and the House of the People are to be filled by direct election, in case of the Council of States 12 seats are to be filled through nomination by the President and the rest through election by members of State Legislative Assemblies or Electoral Colleges, according to the quota allotted to each. The method of election in the State Assembly for choosing members for the Council of States will be on the basis of proportional representation by means of the single transferable vote. The total number of seats allotted to Madhya Pradesh is 12.

ELECTRICITY

Explanatory Note

In this section data relating to the generation, consumption and per capita consumption of electricity have been given. Table No. 325 shows the analysis of electricity consumption. The figures given relate to the years from 1947 to 1953.
