PREFACE

The Statistical Abstract of Andhra Pradesh 1960, is the fifth issue of the series. The latest data available under the important heads of economic and social development of the State have been presented in the Abstract. An improvement has been made in this issue by giving data on some additional items such as wages, local bodies and excise. Statements on education have also been revised in consultation with the Director of Public Instruction, so as to conform with the proformae used by the Government of India. As usual All-India Statistics have also been included at the end of the publication, to facilitate comparison of data for the State with the data for the country as a whole.

I thank the various Heads of Departments for their kind co-operation in bringing out this publication. Suggestions for any improvement of the publication are most welcome.

Note—Limits of different age groups relate to completed number of years on 1st March, 1951. Thus the Age Group "0" includes persons born and alive and who did not complete one year of age on the Census date. Age group 1-4 years includes all persons who had completed one year of age but not 5 years on the date of Census, and so on.

(1) . Production of Rice is in terms of clean rice.

(2) Production of Sugarcane is in terms of cane and not Gur.

(3) Production of Groundnut is in terms of nuts in shell .

(4) Production of Cotton is in terms of lint cotton and in thousand bales of 177.8 kgs. each.

(5) Production of Jute and Mesta is in terms of dry fibre and in thousand bales of 181.4 kgs. each.

(6) Production of Tea, coffee and rubber is in million kgs. Figures of tea and rubber relate to calendar year.

(7) Production of Coconuts is in million nuts.
