Statistical Abstract of Andhra Pradesh, 1993 is the 36th publication in the series, which contains data on various sectors of state economy for the year 1993 along with comparative figures for the preceding years.

It is hoped that this publication would serve as a useful reference book to the general public, planners, researchers, bankers, administrators and a host of others.

I thank all Heads of Departments in the State, Central Government and other organisations who have extended their co-operation in furnishing the required data.

Constructive suggestions for improvement in the presentation and coverage of the Statistical Abstract would be appreciated.

Therefore the figures of opening and closing stock do not tally as per the above method.
