## PREFACE.

The Annual Statistical Abstract for the Madras State for the years 1954-55 and 1955-56 has been prepared with the co-operation of the departments of State and Central Governments as it was in the preparation of the Quinquennial Statistical Abstract. The Abstract presents some of the important statistics in respect of a wide range of subjects of general interest. These are statistics expected to be of immediate interest to those looking for them, and also serve as an introduction to the statistics available on a much larger scale at the various sources. The Abstract covers in the main the official years 1954-55 and 1955-56 but in a few cases the periods relate to agricultural or calendar years.

- 2. The statistics given in the Abstract relate to the Madras State as it was constituted in the years 1954-55 and 1955-56.
- 3. The statistics of population furnished in the first 10 tables are based on the "Census of India", 1951.
- 4. The tables in this Abstract have been compiled according to the availability of data.

D. S RAJABUSHANAM,

Director of Statistics, Madras.
