PREFACE

The Annual Statistical Abstract for the Madras State for the year 1956-57 has been prepared as in the case of the previous issues of the Abstract with the co-operation of the departments of State and Central Governments. The Abstract presents some of the important statistics in respect of a wide range of subjects of general interest. These are statistics expected to be of immediate interest to those looking for them and also serve as an introduction to the statistics available on a much larger scale at the various sources. The Abstract covers in the main the official year 1956-57 (viz., April 1956 to March 1957) but in a few cases the periods relate to the agricultural or calendar year. For purposes of a comparative study, the figures for the previous year, i.e., 1955-56, have also been furnished in the Abstract wherever possible.

- 2. The statistics given in the Abstract relater to the Madias State as constituted after the re-organisation of States on 1st November, 1956
- 3. The statistics of population furnished in the first ten tables are based on the "Census of India, 1951".
- 4. The tables in this issue have been compiled according to the availability of data.

D. S. RAJABUSHANAM, Director of Statistics, Madras.
