PREFACE.

This issue of the Annual Statistical Abstract for Madras State for 1962-63 is the seventh of its series.

The Abstract presents statistics on a variety of subjects of topical interest. The wealth of material presented in the different chapters under the several sectors of development reveal the tempo of progress of the State in a developing economy. The volume covers as many as fifty subjects. The publication has been designed to be widely read by the Intelligentsia of the land, the relevant data being marshalled scientifically from all available sources.

Chapter I, viz., "Key Indicators of Economic Activity in the Madras State" spotlights the quintessence of the pace of progress in the State. The Abstract covers in the main, the official year 1962-63 (April 1962 to March 1963), while in a few cases the reference period is the Agricultural/Calendar year.

The publication is intended to serve as a hand-book to those seeking a ready reference on the impact of planned economic development in the various sectors. The co-operation extended by the Heads of departments of this State and Central Government concerned in furnishing the materials for incorporation in the Abstract is gratefully acknowledged.
